The Mission of the University of St. Thomas Department of Music is to provide outstanding music instruction through our progressive curriculum; enable students to realize their full potential in the development of their musical, artistic and career goals; and instill ethical professional behavior. Our accomplished faculty offers musical and academic excellence while mentoring students in a creative environment, which enhances the cultural, spiritual and intellectual life of the university and community.

Students majoring in music take courses in six areas: performance studies, ensembles, music theory, musicology, music media, and conducting.

Through the study of music, students develop an aural comprehension of tonal and non-tonal music, an understanding of the harmonic language and voice-leading principles of the “common-practice” style, and an understanding of the musical vocabulary, analytical systems, and structural and formal principles that apply to music since 1600. Students develop the necessary skills to read orchestral scores and to write in standard musical notation for the instruments of the orchestra. Students develop the ability to understand a wide range of musical traditions and cultural practices, ranging from the western classical tradition to the music of selected non-western cultures to today’s popular music. Students will be able to discuss music critically, and will be prepared to engage in meaningful research in musical fields. Student performers will develop an expressive interpretation of solo repertoire through an understanding of compositional process and historical style with the necessary technical proficiency. Students will demonstrate advanced ensemble skills and contextual understandings of repertoire by artistically performing music representing a variety of genres, stylistic periods and cultures.

Transfer students must:

- take a theory placement test. This placement test should be taken at the beginning of the first semester of studies at UST. Review sheets and information on time and place of the placement test are available from the Music Department Office (651) 962-5850.
- file an Application for Major Field with the department chair.
- take at least one semester of music history at UST.

Music

- pass the performance level audition.
- take at least four semesters of performance level lessons at UST.
- perform their final level recital at UST.
- take a minimum of four semesters of an appropriate ensemble.
- complete 32 of their last 36 credits at UST.

Students majoring in music may not have a letter grade lower than C- in a required music course.

For information concerning the department's current policies and procedures, consult the *Handbook for Music Majors and Minors*, which is available in the department office.

The department offers minors for those students who have an interest in music, but do not wish to major in the field.

A variety of musical ensembles are available for instrumentalists and vocalists, regardless of major.

The department also offers a number of courses for non-majors that fulfill the Fine Arts, Human Diversity, and second-level Computer Competency components of the core curriculum.

The University of St. Thomas is fully accredited by the National Association of Schools of Music.

Neuroscience

College of Arts and Sciences, Interdisciplinary Program

John Roach Center for the Liberal Arts (JRC) LL56, (651) 962-5030

Johnson (PSYC); Kay (BIOL), Robinson-Riegler (PSYC)

Neuroscience is an interdisciplinary major that focuses on understanding nervous systems, neural processing, thought, and behavior. Training in neuroscience requires a broad foundation in both the natural sciences and in psychology. The major requires students to complete foundational courses in biology and psychology, and allows students flexibility at the upper level by encouraging further specialization in either discipline, or developing a broader perspective by taking a breadth of allied electives. Students completing this major should be well-prepared for graduate study in neuroscience or in related disciplines.

Neuroscience Honor Society

Nu Rbo Psi, the national Neuroscience Honor Society encourages professional interest and excellence in scholarship, particularly in neuroscience. The St. Thomas chapter was established in 2007. Students who have a 3.2 or higher overall grade point average and a 3.5 or higher grade point average in PSYC 204, PSYC 322 and PSYC 401 are eligible to apply. For more information, go to www.stthomas.edu/psychology/studentresources/nurhopsi.
