PERSONAL STATEMENT WRITING PROMPT

The mission of the University of St. Thomas School of Education is to educate practitioners to be 1) morally responsible leaders, who 2) think critically, 3) act wisely, and 4) work skillfully, 5) to advance the common good.

The St. Thomas mission means different things to different people. We are interested in your interpretation of the mission and your corresponding experience. What experience do you have in the above areas? How has that experience helped to form who you are now? How might that experience inform your professional work?

This aspect of the application process is intended to measure your written communication skills as well as your ability to consider and apply abstract thinking processes. There are no right and wrong answers; the focus is on clear thinking and writing.

On separate paper, word process or type your Personal Statement in response to the above writing prompt.
