

## Two-Year Course Schedule

Because it has been difficult to assure that courses can run every time they are offered now that the official minimum course enrollment has been increased to 10, the department has developed a two-year schedule of upper division courses.

**Enrollment permitting**, we are committed to offering our courses regularly according to the schedule below. Students who are planning study abroad or doing double majors or who have other factors complicating their availability to take courses will want to keep this schedule in mind for the future (lower division courses not listed below are typically offered every semester).

*'A' courses are ACSC, others are MATH*

**Every semester:** 200, 210, 240

**Every fall:** 301, 303, 314, 315, 317, 450, A320, A351, A464

**Every spring:** 128, 313, 316, 333, A264, A352

**Fall of even-numbered years:** 385

**Fall of odd-numbered years:** 419

**Spring of even-numbered years:** 325, 400, 420

**Spring of odd-numbered years:** 259, 300, 302

Please talk to your major advisor or to the department chair if you have any questions about the schedule or the best choice of courses for your intended future plans.
