Come hear local risk management professionals share their career experiences, what they believe has been important to their success and what will be important for success in the field going forward. The speakers have varied backgrounds including corporate risk management, consulting, underwriting, broker services and academia. This is a great opportunity for RIMS members to share experiences and get to know students who are considering entering the field. It is also a great opportunity for all of us to reflect on where our careers have taken us and where we want to go. In addition to the speakers, we will provide time to “Ask an Expert” questions. We all have expertise in different areas and this time is available to allow you to tap into the expertise of your peers. Come with any questions you have for the group.

Please RSVP to Dr. Heekyung Youn
