Rhodes Scholarships

The Rhodes Scholarships were established after the death of Cecil Rhodes, who dreamed of improving the world through the diffusion of leaders motivated to serve their contemporaries, trained in the contemplative life of the mind, and broadened by their acquaintance with one another and by their exposure to cultures different from their own. Mr. Rhodes hoped that his plan of bringing able students from throughout the English-speaking world and beyond to study at Oxford University would aid in the promotion of international understanding and peace. Each year, 32 U. S. citizens are among more than 80 Rhodes Scholars worldwide who take up degree courses at Oxford University. The first American Rhodes Scholars entered Oxford in 1904.

Amount of Award: The stipend of a Rhodes Scholarship consists of a direct payment to the Scholar's College of all tuition fees (such as matriculation, tuition, laboratory fees, and certain other set charges), plus a maintenance allowance. Appointment to a Rhodes Scholarship is made for two years in the first instance with a possible third year if the Scholar's record at Oxford and plan of study warrant such an award.

Eligibility: An applicant must be a citizen of the United States (a pending application for citizenship does not qualify a person to apply) by October 1 in the year of application, have passed the eighteenth and not have passed the twenty-fourth birthday, and must have achieved an academic standing sufficiently advanced to assure completion of a bachelor’s degree before October 1 of the year following application.

**Transatlantic Academy**

The Transatlantic Academy is a research institution devoted to creating common approaches to the long-term challenges facing Europe and North America. The Academy does this by each year bringing together scholars, policy experts, and authors from both sides of the Atlantic and from different disciplinary perspectives to research and analyze a distinct policy theme of transatlantic interest.

Each year the Academy hosts six full-time scholars, including four senior fellows. The Academy also welcomes a number of short-term public policy fellows during the course of the year. Fellows are in residence at GMF’s Washington office for up to nine months, and actively participate in a collaborative environment, sharing and discussing their work with each other and Academy guests. Each spring, the Transatlantic
Academy issues a call for applications for the following year’s research theme, and invites scholars from North America and Europe to apply to become residential fellows.

Interested students are encouraged to keep an eye on the Academy’s website for updates: http://www.transatlanticacademy.org/
