Location Details in 25LIVE

You can find comments on use of the space, features that are default to the room, rental base fee*, layout of the location, where the building is located on the campus, emergency exit information, emergency procedures, categories (is this an academic location thus will be placed on a hold) and a PHOTO and the location DIAGRAM if it is a location that requires set up information from you the client.

Navigate to the location you wish to learn more on.

ASC 202 will be used for the sample:

You will get a broad list from the display of your favorites or building spaces:

By clicking on the location name you will open the full location card:

From here you can jump to view the Availability of the Location or the Calendar of Events for the location:
