UST Returning Student Engineering Scholarship Program

Applications Due February 12th, 2016.

The School of Engineering is pleased to announce that up to ten scholarships valued between $500 and $2,000 will be made available for returning engineering students for the 2016-2017 academic year. The scholarships are provided by the generous contributions from the Dale Irwin Hayes Scholarship Fund, the Samuel M. Paine Navy V-12 Memorial Scholarship Fund, the Michael and Rebecca Thyken Endowment, the Thomas Rowan Endowment, the Houliston STEPS Camp Alumni Scholarship, the Aaron Schuster Memorial Endowment, the John B. Brill Endowment, the Keith and Barbara Zell Endowment, and the John E. Povolny Endowment. We are truly grateful for the continued support of these sponsors.

To be eligible, all applicants must be enrolled in Engineering. The School of Engineering has developed a single Returning Student Engineering Scholarship Application Form to facilitate the awards process. The application form is attached, and additional copies are available in the Engineering Office (OSS 100) and on the School of Engineering website.

Applicants should submit their completed forms with attached written statements to the Engineering Office by February 12th, 2016. The awards will be announced in May.

Some of the scholarships have criteria based on financial need. Financial need is determined via your annual FAFSA form, so please be sure to complete the FAFSA for the current academic year if you wish to be considered for need-based scholarships.

We look forward to hearing from you!

Regards, Don

Don Weinkauf
Dean of Engineering

Submit applications by Feb. 12, 2016 to the Engineering Office OSS 100.

________________________________________________________________________________

Written Statement:

In 300 words or less describe an experience that has shaped your character and/or your academic/career goals. Please, limit your essay to one main topic. Example topics include: a leadership role you took on, a volunteer experience, an extracurricular activity, or a work experience. Be sure to explain how the experience influenced you.

Financial Need:

Some of the scholarships available have criteria based on financial need. The committee will make this assessment in conjunction with the Financial Aid Office. Make sure you complete the FAFSA for the current academic year if you wish to be considered for need-based scholarships.

Submit applications by Feb. 12, 2016 to the Engineering Office OSS 100.
