Virtual Private Network (VPN) – MAC Detailed Instructions

1. From off-campus use a web browser, and visit https://vpn.stthomas.edu - (Note the https)

2. You will be prompted to login in with your UST credentials.

3. Once logged in, click on the Remote Desktop Access link.

4. Select Auto Installation link.

5. Your computer will be checked for antivirus software and OS update compliance.
6. You’ll receive a message indicating *Installing Network Access for the first. Please wait...*

7. You’ll be prompted to install the **F5 Network Access Client**. Select: **Continue**.

8. A dialog box indicating the program will require 4 MB of space will appear. Click: **Install**.
9. You’ll need to enter the credentials for the local administrator account.
   **NOTE:** *This will not be the same as your UST credentials.*

   ![Password Entry Image]

10. A message will appear indicating **The installation was successful.** Click: **Close**.

   ![Successful Installation Image]

11. Wait for the session to initialize. You will be alerted with a message that indicates: **Status: Connected.**

   ![Connected Status Image]

12. Follow the instructions you normally follow to remotely access your UST computer.
