Student Satisfaction at the University of St. Thomas School of Law

The Law School Survey of Student Engagement (LSSSE) provides valid, reliable information about the quality of the law school experience by asking the experts—law students themselves. The selected data below reveals that to a statistically significant degree, students at UST School of Law are more satisfied with several dimensions of their law school experience than students at other law schools participating in the LSSSE.

About the LSSSE

The Law School Survey of Student Engagement (LSSSE) is administered independently by LSSSE staff every year. The survey is voluntary, and in any given year, the profile of schools comprising the national LSSSE cohort closely resembles the profile of law schools nationwide, with several dozen law schools choosing to participate. The data provides a good reference for law students and law schools looking to discover how their legal education experience compares with others around the country.
