3. How can I grow my leadership skills?

The University of St. Thomas provides various programs and opportunities for students to grow and develop leadership skills. Students are encouraged to improve these skills by applying for a student leadership position, attend various leadership focused events and workshops, or by their involvement with student clubs or organizations. Through our office students can opt into the Leading Edge Program. This leadership program is designed to engage participants in foundational learning experiences that will prepare them with the knowledge and skills needed in leadership for their experiences beyond St. Thomas.
