

# PROJECT 3: CLIMATE VULNERABILITY MAPPING

## COURSE INSTRUCTOR

David Kelley, Geographic Information Systems (GEOG 321)

Twin Cities Seven-County Metropolitan Area  
(Map by Metropolitan Council)

## OVERVIEW

- The Metropolitan Council would like to provide cities with additional mapping tools to assist cities with planning for future environmental changes.
- Students will work with the Metropolitan Council on climate vulnerability and resiliency story maps of the Metro area and examine flood and heat data layers in the area.
