Affirmative Action Statement
The University of St. Thomas does not discriminate on the basis of race, color, creed, religion, ancestry, national origin, sexual orientation, disability, age, marital status, or status with regard to public assistance in the employment of faculty or staff, the admission or treatment of students, or in the operation of its educational programs and activities.
As permitted by applicable statutes and regulations, the university reserves the right to consider gender as one factor in its undergraduate admissions policy in order to effect a desired balance in the proportionate representation of sexes in the student body.

### Fall Semester 2015 (PRELIMINARY)

- **September 9**: Classes begin
- **September 15**: Last day to register or add a class without instructor permission
- **September 22**: Last day to drop a class without notation on record
- **October 14**: Last day to designate grading option (S-D-R)
- **October 23**: Mid-term break begins
- **October 26**: Classes resume (mid-term break ends)
- **October 30**: Mid-term & 1st half-semester grades due
- **November 16 - Dec. 4**: Early registration for January term and spring semester
- **November 17**: Last day to withdraw from a class without a grade of “F”
- **November 26**: Thanksgiving break begins
- **November 30**: Classes resume (Thanksgiving break ends)
- **December 1**: Incompletes due from spring semester and summer sessions
- **December 15**: Last day of classes
- **December 16**: Study Day
- **December 17**: Final examinations begin
- **December 22**: Final examinations end
- **January 4, 2016**: Final grades due to registrar

### January Term 2016 (PRELIMINARY)

- **January 4**: Classes begin
- **January 8**: Last day to register or add a class without instructor permission
- **January 8**: Last day to drop a class without notation on record
- **January 12**: Last day to designate grading option (S-D-R)
- **January 18**: Martin Luther King Holiday
- **January 22**: Last day to withdraw from a class without a grade of “F”
- **January 28**: Classes end
- **February 5**: January term grades due

### Spring Semester 2016 (PRELIMINARY)

- **February 1**: Classes begin
- **February 5**: Last day to register or add a class without instructor permission
- **February 12**: Last day to drop a class without notation on record
- **March 9**: Last day to designate grading option (S-D-R)
- **March 21 - 28**: Mid-term & Easter break
- **March 29**: Classes resume (Mid-term & Easter break ends)
- **March 29**: Mid-term & 1st half-semester grades due
- **April 11 - 22**: Early registration for summer sessions and fall semester
- **April 20**: Last day to withdraw from a class without a grade of “F”
- **May 1**: Incompletes due from fall semester and January term
- **May 13**: Last day of classes
- **May 16**: Study Day
- **May 17**: Final examinations begin
- **May 20**: Final examinations end
- **May 21**: Commencement
- **June 3**: Final grades due

Accreditation and Memberships

The University of St. Thomas is accredited by The Higher Learning Commission of the North Central Association of Colleges and Schools (312-263-0456) and the Association of Theological Schools (412-788-6505).

All University of St. Thomas teacher education licensure programs within the School of Education are approved by the Minnesota Board of Teaching (651-582-8739) and education administration licensure programs are approved by the Minnesota Board of School Administrators (651-582-8754).

The Opus College of Business is accredited by The Association to Advance Collegiate Schools of Business (813-769-6500); programs in chemistry are approved by the American Chemical Society (800-227-5558); the mechanical engineering, electrical engineering, and manufacturing systems engineering programs in the School of Engineering are accredited by the Engineering Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, (410) 347-7700; the School of Law is accredited by the American Bar Association (202-662-1000); the music programs are approved by the National Association of Schools of Music (703-437-0700); the doctoral program in the Graduate School of Professional Psychology is accredited by the American Psychological Association (202-336-5979); the Social Work program is accredited by the Council on Social Work Education (703-683-8080); the School of Education is accredited by the National Council for Accreditation of Teacher Education (NCATE) (202-296-6620).

The university is a member of the:
- American Association of Colleges for Teacher Education
- American Council on Education
- Associated Colleges of the Twin Cities
- Association of American Colleges and Universities
- Association of Catholic Colleges and Universities
- Association to Advance Collegiate Schools of Business
- Council on Undergraduate Research
- Institute of International Education
- International Federation of Catholic Universities
- Minnesota Private College Council
- National Association of Independent Colleges and Universities
- National Catholic Educational Association

The University of St. Thomas is registered as a private institution with the Minnesota Office of Higher Education pursuant to sections 136A.61 to 136A.71. Registration is not an endorsement of the institution. Credits earned at the institution may not transfer to all other institutions.

Assessment of Programs

The program to assess student learning is an integral part of the university’s commitment to excellent teaching and effective learning. The assessment effort is sustained by the faculty and is fully supported by the administration. Information is systematically collected and examined both to document and improve student learning. The assessment program itself is routinely updated, and the information gained from the assessment process becomes part of on-going curricular development.

The University Assessment Committee, which oversees the student outcomes assessment programs of the university, consists of the chief assessment officer for each school or college and the associate vice president, records and institutional effectiveness. The committee is chaired by the accreditation liaison officer.

Currently, all curricula for major concentrations and the undergraduate core curriculum are routinely assessed. Thus, students are asked from time to time to participate in testing, surveys, interviews, or other methods of collecting data for assessment purposes.

History

The University of St. Thomas was founded in 1885 by Archbishop John Ireland, less than a year after he was installed as St. Paul’s third bishop. What began as the St. Thomas Aquinas Seminary—with 62 students and a faculty of five—has grown to be Minnesota’s largest independent university with four campuses and more than 11,000 students.

Built near a river bluff on farmland that was still considered “far removed from town” in the late 1800s, the university’s main campus is nestled today in a residential area midway between the downtowns of St. Paul and Minneapolis.

In its first decade, St. Thomas was a high school, college, and seminary; students enrolled in either the preparatory, classical or theological departments. In 1894 the theological department moved to an adjacent campus where it became The Saint Paul Seminary. The preparatory and classical departments, meanwhile, remained on the original campus and became the College of St. Thomas.

The classical department gradually grew to a four-year college curriculum. The first baccalaureate degrees were conferred in 1910 and St. Thomas was officially accredited in 1916. The preparatory department became the St. Thomas Military Academy, a high school that moved to a suburban campus in 1965.

After 92 years of all-male enrollment, St. Thomas became coeducational in 1977. Today, 50 percent of the undergraduates and 52 percent of the graduate students are women.

Coeducation, coupled with new graduate programs as well as new campuses, contributed to St. Thomas’ growth over the past two decades. Enrollment increased from under 2,500 students in 1970 to 10,641 today. The undergraduate program currently enrolls approximately 5,600 students.

Long-standing graduate programs in business, education, professional psychology and social work offer degrees at the master’s, specialist, and doctoral levels.

St. Thomas’ original “classical” and “theological” departments came together once again in 1987 through an affiliation between the seminary and university. Together they created the School of Divinity which offers graduate degrees in pastoral studies, divinity and theology. St. Thomas is home to the undergraduate St. John Vianney Seminary.

In 1990, recognizing the many changes and the addition of graduate programs to the institution, the name of the College of St. Thomas was changed to the University of St. Thomas.
Locations
The university’s main, 78-acre campus anchors the western end of St. Paul’s historic Summit Avenue.
In 1992 the university began a permanent campus in downtown Minneapolis, which is now the home of most of the graduate programs in the Opus College of Business, the Graduate School of Professional Psychology, the School of Education, and the School of Law.

The university offers a wide range of programs at its Owatonna-based Gainey Conference Center, established in 1982, and at a number of satellite locations, including the Mall of America.

The Bernardi Residence in Rome, which opened in 2000, is a remodeled residential estate on the banks of the Tiber River. Serving as a home to students on the university’s Center for Catholic Studies Rome Program and the Fall Semester in Rome Program, it is also available for conferences, study tours and housing for faculty, students, and visitors to Rome.

Mission
Inspired by Catholic intellectual tradition, the University of St. Thomas educates students to be morally responsible leaders who think critically, act wisely, and work skillfully to advance the common good.

Convictions
As a community we are committed to:

1. Pursuit of Truth
   We value intellectual inquiry as a life-long habit, the unfettered and impartial pursuit of truth in all its forms, the integration of knowledge across disciplines, and the imaginative and creative exploration of new ideas.

2. Academic Excellence
   We create a culture among faculty, students and staff that recognizes the power of ideas and rewards rigorous thinking.

3. Faith and Reason
   We actively engage Catholic intellectual tradition, which values the fundamental compatibility of faith and reason and fosters meaningful dialogue directed toward the flourishing of human culture.

4. Dignity
   We respect the dignity of each person and value the unique contributions that each brings to the greater mosaic of the university community.

5. Diversity
   We strive to create a vibrant diverse community in which, together, we work for a more just and inclusive society.

6. Personal Attention
   We foster a caring culture that supports the well-being of each member.

7. Gratitude
   We celebrate the achievements of all members of our community in goals attained and obstacles overcome, and in all things give praise to God.

Undergraduate Vision Statement
The university’s mission and convictions and our objectives for undergraduate education provide the framework for the Undergraduate Vision Statement.

The strengths of the undergraduate program are embodied in four commitments:

1. A commitment to the Catholic identity that informs its liberal and professional education;
2. A commitment to a common liberal arts foundation that serves as the core of the education in which all St. Thomas undergraduates participate;
3. A commitment to the integration of the liberal arts and career preparation, fostering in students a dedication to work for the common good;
4. A commitment to the underlying unity of the human person with an emphasis on the spiritual, intellectual, ethical and social development of all students.

These commitments are manifested in the following features of the undergraduate program:

a. A strong core curriculum for all students that exposes them to enduring, transcultural human truths, provides for multicultural exploration, and encourages integration that crosses disciplinary boundaries;

b. A comprehensive and strong set of major and minor fields that meet the increasing demands of career competency and interdisciplinary development, while maintaining a common liberal arts core curriculum;

c. An energetic, expert and diverse faculty who show their concern for the total development of students through extensive time and effort spent with them, and through their eagerness to involve students in the work of their fields through joint research projects, practicums, and service to the community;

d. A faculty who model for students a love of learning through continual efforts to enhance teaching effectiveness, ongoing professional engagement, and collaboration with their colleagues in teaching, research and other program initiatives;

e. A faculty who demonstrate a commitment to service through their willingness to serve as role models for students, demonstrating that compassion for others and lifelong dedication to service are ordinary aspects of being an educated, responsible citizen;

f. A strong support and professional staff throughout the university committed to fostering the social, spiritual, and intellectual development of students through co-curricular activities, with a special focus on cultivating leadership ability.

As it looks to the future, the undergraduate program seeks to maintain these distinctive manifestations of its key commitments and to:

a. Build on the strengths of our Catholic identity by promoting dialogue between faith and reason and by enabling students to acquire an organic vision of reality which integrates faith and secular learning;

b. Increase efforts to cross departmental and disciplinary boundaries in order to enhance further the integration of liberal arts and professional education, faith and practice, principles and techniques, and education and service;
c. Emphasize more the preparation of students for a life of service in an increasingly diverse world through the development of integrated service learning opportunities for students;

Stress the importance of global awareness by encouraging study abroad opportunities, increasing participation in faculty and student exchanges, and increasing involvement with the university's urban community;

Increase efforts to diversify the student body, the faculty, the staff, and the curriculum to reflect the diversity of the broader society;

Emphasize the integration of technology in teaching, and the development of computer literacy for all students;

Continue our strong emphasis on preparing students to think analytically, write and speak clearly, reason quantitatively, participate in a democratic society,

Contribute to the health of their communities and the environment, and know the natural world and their own and other cultures;

Continue to foster in our students an appreciation for the dignity of all human persons, created in the image of a just and loving God.

Organization of the University

Undergraduate

College of Arts and Sciences
The College of Arts and Sciences includes undergraduate departments in the arts, humanities, natural sciences, and social sciences, plus a number of interdisciplinary programs.

Opus College of Business
The Opus College of Business has seven departments offering undergraduate curricula in an interdisciplinary setting. It is home to a variety of centers offering credit and noncredit seminars and continuing-education programs.

School of Education
The School of Education offers undergraduate courses and curricula for elementary and secondary teacher licensures.

School of Engineering
The School of Engineering offers fully accredited degree programs in mechanical and electrical engineering. The School is committed to developing complete engineers who have a sound Liberal Arts foundation combined with extensive hands-on experience and strong technical skills. (more information is available at www.stthomas.edu/engineering/)

School of Social Work
The School of Social Work offers undergraduate courses and curricula for social work and chemical dependency counseling. Graduate

College of Arts and Sciences
Master's-level programs are offered in Art History, Catholic Stud-

ies, English, and Music Education.

Opus College of Business
The Opus College of Business offers seven degree programs at the graduate level. It is home to a variety of centers offering credit and noncredit seminars and continuing-education programs.

St. Paul Seminary School of Divinity
The St. Paul Seminary School of Divinity offers master’s- and doctoral-level degrees oriented to theological study and the practice of ministry. The school also offers a two-year pre-theology program for priesthood candidates who require additional preparation.

College of Education, Leadership & Counseling
Graduate study leading to certificates, master’s, educational specialist, and doctoral degrees is offered. Master’s- and doctoral-level degrees are offered in counseling psychology. A certificate in family psychology also is offered.

School of Engineering
St. Thomas graduate engineering programs have served students and regional industries since 1986. The School of Engineering offers graduate degrees in manufacturing engineering, mechanical engineering, systems engineering, technology management, and regulatory science. (more information is available at www.stthomas.edu/engineering/)

School of Law
The School of Law was reopened in 1999 after a 66-year hiatus. The first class of 120 students was accepted in fall 2001. Full accreditation by the American Bar Association was granted in 2006.

School of Social Work
The Master of Social Work, offered as a joint degree program with St. Catherine University, is designed to provide advanced professional study in social work. Dual-degree programs are offered in cooperation with Luther Seminary, the Department of Theology at St. Catherine University, and the St. Paul Seminary School of Divinity.

Vital Statistics
The University of St. Thomas is a private, coeducational, Catholic, liberal arts university. The university offers 5 bachelor’s degrees, 108 major fields of study, and 51 minor fields of study. The university offers 53 graduate master degree programs: 1 juris doctor, 4 doctoral, 2 specialist, 4 1st Professional degrees, and 41 graduate certificates. It also offers 10 graduate-level joint- or dual-degree programs.

The university awards the B.A. in 88 fields; B.M. in 3 fields; B.S. in 15 fields; B.S.E.E.; B.S.M.E.; Ed.S. in 2 fields; Ed.D. in 2 fields; J.D.; M.A. in 31 fields; M.B.A. in 3 fields; M.B.C.; M.M.S.E.; M.S. in 9 fields; M.S.S.; M.S.W. in 2 fields; Psy.D; and M.D.I.V. in 3 fields.
Enrollment in the undergraduate program for fall semester 2013 was 6,350. Graduate-level enrollment figures at the university were: College of Arts and Sciences, 115; Opus College of Business, 1,145; St. Paul Seminary School of Divinity, 139; School of Education, 882; School of Law, 405; School of Social Work, 368; Graduate School of Professional Psychology, 209; Graduate Programs in Software Engineering, 460; Programs in Engineering, 202.

The total undergraduate and graduate enrollment for fall semester 2012 was 10,221.

There are 456 full-time faculty, 460 part-time faculty, and a support staff of 963.

**Calendar 4-1-4**
The undergraduate program follows a 4-1-4 calendar. This calendar consists of a fall semester during the months of September through December, a four-week January term, and a spring semester during the months of February through May. Each of the semesters consists of approximately 14 weeks of classes and a four-day examination period.

**Regular Semesters**
During the fall and spring semesters, a student normally enrolls for sixteen credits.

**The January Term**
Students may enroll for a maximum of four credits in a January term.

**Summer Sessions**
The university offers two six-week sessions, one eight-week session and one twelve-week session during the months of June through August. A student may enroll for a maximum of eight credits in a given session, with a maximum of sixteen credits for the summer.

**Aquinas Scholars**
The Aquinas Scholars Honors Program is the undergraduate honors program. It is designed to assist students in developing their intellectual talents, character, and interests while pursuing an education of considerable depth and breadth.

See the Academic Information section of this catalog for a description of the program.

**Dean’s Honor List**
A student who attains a grade point average of 3.50 or more at the end of a semester in which he or she has taken at least twelve credits for regular grades (A, B, C) will be placed on the Dean’s Honor List if there are no grades of D or F or marks of I or R. (Evening program students must have taken at least eight credits in a semester and meet the same requirements.)

The list is made public and the student receives a letter of commendation from the Associate Vice President for Undergraduate Studies and Academic Advising.

**Delta Epsilon Sigma**
Delta Epsilon Sigma, a national honor society for students enrolled in Catholic colleges and universities, was established at St. Thomas in 1941. Students become eligible for membership in their junior year. St. Thomas students are accepted into the national organization of Delta Epsilon Sigma after they have been accepted into the University of St. Thomas Alpha Sigma chapter and are nominated for membership in the national organization.

Senior candidates must have earned a cumulative grade point average of 3.50, while junior candidates must have a cumulative 3.75 grade point average. In the case of transfer credits, the St. Thomas grade point average must also satisfy the minimum requirement, with a minimum of twelve St. Thomas credits taken for letter grade. Graduate students are eligible for membership upon completion of one-half of their master’s degree requirements. Alumni are eligible if they have been graduated with honors or have received a graduate degree.

Student members receive the Delta Epsilon Sigma Journal published by the national society three times each year. In addition, student members may submit articles for publication to the Journal, and apply for senior year and graduate school scholarships. Induction ceremonies are held at the beginning of fall and spring semesters each year.

Members enjoy the following privileges: no restriction on class loads, and attendance as guests of the university at special academic functions.

**Department Honor Societies**
A number of departments offer membership in an honor society for the particular discipline. Each of these is explained in more detail in the description of the department’s offerings in the Curricula section of this catalog.

- **Aerospace Studies** - Arnold Air Society & Silver Wings
- **Biology** – Gamma Tau chapter of Beta Beta Beta
- **Business** – Beta Gamma Sigma
- **Communication** – Beta Chi chapter of Lambda Pi Eta
- **Economics** – Omicron Delta Epsilon
Academic Honors

English — Sigma Tau Delta
Foreign Language — Alpha Mu Gamma
Geography — Mu Alpha Pi
History — Phi Alpha Theta
Neuroscience — Nu Rho Psi
Political Science — Chi Theta chapter of Pi Sigma Alpha
Psychology — Psi Chi
Religious Studies and Theology — Theta Alpha Kappa
Social Work — Beta Epsilon chapter of Phi Alpha
Sociology and Criminal Justice — Iota chapter of Alpha Kappa Delta

Latin Honors
Three types of academic honors are conferred upon graduates of the undergraduate program.

All students considered for graduation with Latin honors have a minimum of 52 credits taken for letter grade (A, B, C, D) at the University of St. Thomas.

All students eligible for Latin honors who have applied for graduation will be informed by the Office of Associate Vice President for Undergraduate Studies and Academic Advisement before mid-term of their final semester that they are eligible for this honor.

Cum Laude
A student whose overall cumulative grade point average and St. Thomas grade point average are both between 3.50 and 3.69 receives the baccalaureate degree cum laude.

Magna Cum Laude
A student whose overall cumulative grade point average and St. Thomas grade point average are both between 3.70 and 3.89 receives the baccalaureate degree magna cum laude.

Summa Cum Laude
A student whose overall cumulative grade point average and St. Thomas grade point average are both 3.90 or higher and who is judged to be outstanding by members of an Honors Oral Examination Committee receives the baccalaureate degree summa cum laude.

The student should choose a full-time faculty member from the student’s major department to chair the committee and obtain that faculty member’s consent. A student with multiple majors may choose a faculty chair from any of his or her major departments.

In consultation with the selected faculty chair, the student should choose two additional faculty members to constitute a three-person committee that represents three different departments and at least two academic areas of the undergraduate program, and obtain the consent of the two additional faculty members. For the purposes of the Summa exam, the academic areas are:

(i) The Division of Arts and Letters in the College of Arts and Sciences, (ii) The Division of Business and Economics, (iii) The Division of Social Sciences in the College of Arts and Sciences, (iv) The Division of Science and Mathematics in the College of Arts and Sciences, together with the School of Engineering, (v) The Division of Social Sciences in the College of Arts and Sciences, together with the School of Social Work, (vi) The School of Education.

In consultation with the faculty chair, the student should choose one of the following three options for structuring the examination, and inform all the faculty examiners which of these options has been selected:

(i) The student selects a central theme for the examination and prepares a five-page paper on that theme, integrating the student’s major field with the areas represented by the examiners and, to the extent possible, with the liberal arts more broadly. This paper will be sent by the student to the examiners at least one week prior to the examination date. This paper will be the focus of the examination. (ii) The student selects a central theme for the examination and develops an outline of ideas on the theme, integrating the student’s major field with the areas represented by the examiners and, to the extent possible, with the liberal arts more broadly. This outline will be made available to the examiners at the time of the oral examination and will be the basis of a twenty-minute oral presentation by the student, which will then become the focus of the remainder of the examination. (iii) The student collects three exhibits to be included in a Summa Cum Laude portfolio, representing three disciplines. These exhibits might be papers, projects, lab reports, or other documents illustrating the student’s academic achievement at UST. The exhibits should represent three distinct disciplines. The student also writes a five-page reflective essay that introduces the contents of the portfolio. The essay should explain the contexts in which the exhibits were produced, and why the student believes these materials provide a good picture of his or her academic achievements at UST. In addition, the essay should draw connections among the three exhibits, showing how they work together to illustrate intellectual depth, breadth, or growth. The student uploads these materials onto Blackboard in an electronic portfolio. Committee members will have access to these materials at least two weeks before the Summa Cum Laude examination. The three exhibits together with the essay will be the focus of the examination.

Further details concerning the examination will be sent to eligible students and the chairs of their departments by the Office of the Associate Vice President for Undergraduate Studies. If a student who is eligible for graduation summa cum laude chooses not to take the Honors Oral Examination, the student will be graduated magna cum laude.

Aquinas Scholars Honors Program
The Aquinas Scholars Honors Program is the undergraduate honors program. Its purpose is to provide opportunities for motivated and curious students to deepen and enrich their undergraduate education.

Aquinas Scholars take a minimum of four honors sections of core curriculum courses. (Students admitted to the program with 45 or more credits completed take only three sections.) Limited to 20 students, the honors sections emphasize depth and encourage discussion.

Aquinas Scholars are also required to complete a minimum of three interdisciplinary honors seminars (on the standard grading system), which bring together instructors from two different departments and students from a variety of disciplines
to approach a topic of intellectual interest. This seminar format provides students the opportunity to situate themselves within a broader intellectual community at a time when much of their other coursework is engaging them on a more focused level. Aquinas Scholars are not charged tuition for the honors seminars.

The Aquinas Scholars Honors Program also sponsors a variety of co-curricular and extracurricular activities. All St. Thomas undergraduate students are eligible to apply to the program; continuing and transfer students must have at least a 3.60 grade point average. Students need to apply to the program early enough to complete the course requirements.

For further information, contact Dr. Stephen J. Lauma-kis, Director of the Honors Program (aquscholarsdir@stthomas.edu) or Kathy Tischler, Administrative Assistant for the Program (ktischler@stthomas.edu).

**Academic Counseling and Support**
The Office of Academic Counseling and Support serves as a resource and referral agent for both students and faculty.

Through one-on-one partnerships, academic counselors challenge undergraduate students to determine meaningful academic and life goals by encouraging them to reflect upon their educational experiences and achievements. The Academic Counseling staff offers special support to those students who are experiencing academic challenges, provides assistance with college registration, long term academic planning, individual assistance in study skills improvement, time management, test taking preparation, college reading techniques, and college survival skills.

**Faculty Advisers**
Full-time faculty members serve as advisers to all students. Faculty advisers assist students in their freshman and sophomore years in planning their class schedules each semester.

Major field advisers guide their advisees’ progress toward a degree by reviewing grade reports and degree evaluations, and helping students solve academic problems.

**Academic Development Program**
The Academic Development Program (ADP) is a team-taught combination of courses designed to help incoming first year students develop proficiency in reading, writing, library and learning skills necessary for college success.

Students are invited to participate in this program if high school records and entrance exams (such as the ACT) indicate weakness in the areas of reading and writing.

Participants in the program register for twelve or sixteen credits in fall semester: ENGL 110 Intensive Writing; a companion course covering one of the core curriculum requirements; and one or two additional courses of the student’s choice.

**Mathematics Resource Center**
The Mathematics Resource Center (MaRC) provides a variety of resources including a tutoring staff, placement preparation, self-study/review programs, and general mathematics advising. Also available from the MaRC is a list of private tutors, whose rates are subject to individual negotiations.

Students must satisfy all prerequisites in order to enroll in a math course. Most entry-level math courses require an appropriate Math Placement Code (MPC) derived from an ACT math score or from a UST Math Placement Exam, which is administered by the MaRC. The test is offered multiple times a week; for the current test schedule, see http://www.stthomas.edu/mathematics/placement

For more information, see the MaRC website:

www.stthomas.edu/mathematics/marc

**Disability Resources**
Students qualify for services through the Disability Resources through self-disclosure of a disability and the presentation of current and comprehensive documentation. Reasonable academic accommodations are arranged on an individual basis in order to provide students with disabilities equal access to all
university programs. The University of St. Thomas is committed
to compliance with the Americans with Disabilities Act of 1990

Center for Writing
Through individualized conferences, peer consultants work with
writers to help them focus, develop, and organize their ideas,
and revise and edit their drafts. Students can seek assistance on
any work in progress before they write, as they write, and after
they write. Most writers bring course assignments, including
analytical, research, and capstone papers. Those writing essays
for application, for example, to graduate school or study abroad
are also welcome.

The Center is staffed by peer consultants selected each
spring through a rigorous application and interview process. The
consultants do not edit or proofread, but instead help writers
strengthen their approaches to all facets of the writing process.
Conferences are free and confidential. Appointments should be
made through our website www.stthomas.edu/writing.
Online consultations are available through our website as well.
Resources for faculty and graduate students are available on our
web site. For more information on our services, please contact
the director, Dr. Susan Callaway, in JRC 361, 651-962-5601.

Major Field Advisers
After a student has completed 48 semester credits, the student
fills out a major field form and applies to be accepted as a major
in his or her chosen field.

When the student has been accepted as a major in a
particular department the guidance of her or his program is then
transferred from the pre-major adviser to a departmental major
field adviser.

Information Resources and
Technologies
Information Resources & Technologies encompasses six service
and support departments: Budgets, Acquisition and Inventory,
Client Services, Information Technology, Networks & Telecom
Services, University Libraries, and Web & Media Services. Our
mission is to integrate people, processes, information resources
and technologies in support of teaching, learning and strategic
goals at the University of St. Thomas.

The Budgets, Acquisition and Inventory group is respon-
sible for managing the IRT operating budget and the university
IT equipment leasing budgets, responding to and processing
requests for software, hardware and audio/visual items for mul-
tiple departments and the university. BAI manages the installa-
tion and upgrade of IT and presentation systems in instructional
facilities, and the acquisition, inventory and processing of equip-
ment for the annual replacement of faculty, staff and lab desktop
computing resources.

Client Services provides a single point of presence for
accessing academic and administrative technology support
services - in person, online, or by phone - and the complex coor-
dination, cross-training, support, and knowledge management
essential to success. Client Services provides both rapid response
to technical break/fix issues in faculty and staff offices and

classrooms as well as consultative-based support for productivity
tools and technologies to facilitate course content delivery. This
includes video and audio production and event support.

The Information Technology (IT) department manages
centralized networks, servers, application software and database
management software. The IT department also is responsible for
a combination of network and system security including the poli-
cies, procedures and technologies to be used for this purpose.
These systems include the network firewalls, wireless network
registration system, enterprise monitoring systems, IP addressing
and security compliance issues.
Admission Policies

The University of St. Thomas desires to provide an environment in which people of varied backgrounds can learn and grow through shared experiences. Therefore, we welcome all applicants without regard to race, color, creed, religion, ancestry, national origin, gender, sexual orientation, or disability.

Admissions Standards

It is recommended that an applicant’s high school transcript include four units in English, four units in one foreign language, four units of mathematics (three units required), two units in natural sciences and two units in history or the social sciences.

Graduates of accredited high schools are admitted on the basis of their grade point average, academic rank in their graduating class (if applicable), college preparatory course selection, and their scores on one of the following: the Scholastic Aptitude Test (SAT), or the American College Test (ACT).

The university’s SAT code number is 6110. The ACT code number is 2102.

Students with a Graduate Equivalency Diploma (GED) should submit the GED, including scores, in addition to their high school transcript.

Application Procedures

Candidates for admission should complete the following steps.

1. The official undergraduate application for admission is available at www.stthomas.edu. A paper copy is available from the Office of Admissions upon request.
2. The admissions committee considers each student’s academic record, writing sample, and recommendations, if applicable. Applicants are then notified whether they have been accepted officially by the university.
3. Each accepted applicant should make a $200 confirming deposit to reserve a place in the class. This confirming deposit is refundable when requested in writing by May 1 prior to the fall semester of admission.
4. Admitted students wishing to live in on-campus housing must also make a $200 room deposit. The room deposit will be refunded when requested in writing by May 1 prior to the fall semester of admission. Housing is granted on a space available basis and not guaranteed.
5. Each confirmed student is required to provide a final high school transcript after graduation prior to the first day of class in the fall semester of admission.
6. Undergraduate students enrolled in 12 or more credits each semester are required to demonstrate proof of health insurance coverage.

Credits Earned Prior to Admission

All students born after 1956 who are enrolled in a Minnesota public or private college or university are required by Minnesota law to be immunized against diphtheria, tetanus, measles, mumps, and rubella. These immunizations must have been done within a certain time frame. Questions about this requirement and exemptions allowed for by the law should be addressed to Health Service. These immunizations are to be entered via Murphy Online at banner.stthomas.edu.

Advanced Placement

Students who meet the conditions described in this section for an Advanced Placement (AP) Examination will receive four credits and an “S” grade. This examination must be taken prior to matriculation to a college or university.

Art History — A score of 3 or higher = ARTH 199 (may fulfill Fine Arts requirement; evaluation based on individual course basis)

Biology — Students who receive at least a score of 4 on the Biology Advanced Placement Exam or at least a score of 5 on the International Baccalaureate exam will receive 4 college credits in biology. Students not intending to major in biology will receive credit for BIOL 101 (fulfills a natural science with laboratory course requirement). Students intending to major in biology or related programs who score 4 on the AP exam will receive credit for BIOL 101, which will fulfill a core lab science requirement but will not fulfill a major field requirement. Students intending to major in biology or related programs who score 5 on the AP exam or 5-7 on the IB exam will receive 4 credits for BIOL 243, which counts toward the biology major.

Chemistry — A score of 3 or higher may = CHEM 100, depending on laboratory experience, at the discretion of the chair of the department. A score of 4 or higher may = CHEM 111, depending on laboratory experience, at the discretion of the chair of the department. Students will be required to present both coursework in class as well as lab work that includes, but is not limited to, lab notebook, lab reports, experiments and experimental procedures, exams taken and syllabi.

Computer Science — A score of 3 or higher in Computer Science A or B = CISC 199

Economics — A score of 4 or higher in macroeconomics = ECON 251; A score of 4 or higher in microeconomics =
Admission Information

ECON 252 (either course fulfills Social Analysis requirement)

English — A score of 4 or higher in English Language/Composition = ENGL 199 (does not fulfill the Literature and Writing requirement);
A score of 4 or higher in English Literature/Composition = ENGL 121 (fulfills 4 credits towards the Literature and Writing requirement)

Environmental Science — A score of 3 or higher in Environmental Science = ENVR 151.

French — A score of 3 = FREN 211 (fulfills Language and Culture requirement);
A score of 4 = FREN 212
A score of 5 = FREN 300
A score of 3 or higher in French Literature = FREN 309 (this will count towards the major in French)

Geography — A score of 3 or higher in Human Geography = GEOG 111 (fulfills Social Analysis requirement and Human Diversity requirements)

German — A score of 3 = GERM 211 (fulfills Language and Culture requirement);
A score of 4 = GERM 212
A score of 5 = GERM 300

History — A score of 4 or higher in European History = HIST 199 (counts as an elective toward graduation) A score of 4 or higher in U.S. or World History = HIST 100 (fulfills the Historical Studies requirement.)

Italian — A score of 3 = ITAL 211 (fulfills Language and Culture requirement);
A score of 4 = ITAL 212
A score of 5 = ITAL 300

Japanese — A score of 3 = JAPN 211 (fulfills Language and Culture requirement);
A score of 4 = JAPN 212
A score of 5 = JAPN 300

Latin — A score of 3 or higher = LATN 212 (fulfills Language and Culture requirement)

Mathematics — A score of 3 or higher in Calculus AB = MATH 113 (fulfills Mathematical Reasoning requirement); A score of 4 or higher in Calculus BC = MATH 113 and MATH 114; AB sub score of 3 or higher in Calculus BC = MATH 113

Music Theory — A score of 3 or higher may be the equivalent of MUSC 113 and a score of 4 or higher may be the equivalent of MUSC 114, however, all students who wish to transfer AP credits are required to take the music theory placement test for official placement. Review sheets and information on taking the test are available from the music department office (does not fulfill fine arts requirement)

Physics — Physics B: A score of 3 = PHYS 101 (satisfies Natural Science Requirement); A score of 4 or 5 = PHYS 109-110 (satisfies Natural Science Requirement); Physics C1—Mechanics: score of 3 = PHYS 101 (satisfies Natural Science Requirement); A score of 4 or 5 = PHYS 111 (satisfies Natural Science Requirement); Physics C2—Electricity and Magnetism: A score of 3 or 4 = PHYS 199 (satisfies Natural Science Requirement); A score of 5 = PHYS 112 (satisfies Natural Science Requirement)

Political Science — A score of 3 or higher in Government & Politics: US = POLS 199 (does not fulfill Social Analysis requirement). A score of 3 or \ higher in Comparative Government & Politics = POLS 104 (fulfills Social Analysis requirement).

Psychology — A score of 4 or higher = PSYC 111 (fulfills Social Analysis requirement)

Spanish Language — A score of 3 = SPAN 211 (fulfills Language and Culture requirement);
A score of 4 = SPAN 212
A score of 5 = SPAN 300

Spanish Literature — A score of 5 or higher = SPAN 335 (this will count towards the major in Spanish)

Statistics — A score of 3 or higher in Statistics = STAT 220 (fulfills third Math/Science requirement)

Studio Art — A score of 3 or higher in Studio Art = ARTS 199 (does not fulfill Fine Arts Requirement)

College Level Examination Program (CLEP)
The College Level Examination Program (CLEP) was conceived to serve post-secondary students who have acquired certain kinds of knowledge outside the usual formal educational channels. Students must take CLEP examinations before or during the first semester of college work to receive credit for the CLEP examination from UST.

Business — A score at the 50th percentile or above in Principles of Marketing=MKTG 300 (fulfills requirement in Business Major.) No other CLEP Exams in Business will earn St. Thomas Credit.

English Literature/Composition — A score at the 50th percentile or above in any English Literature or Composition exam will earn ENGL 199 (does not fulfill the Literature and Writing requirement.)

Foreign Languages — Students must consult with department chair to determine if any CLEP credit will be accepted with a score at the 50th percentile or above.

History — A score at the 50th percentile or above in History of the United States I=HIST 113, History of the United States II=HIST 114 (both fulfill the Historical Studies requirement.) History exams in other areas with a score of 50% or higher need to be evaluated by the department chair.

Mathematics — Students who receive a score greater
than 50% on the College Mathematics exam will receive credit for MATH 101 Finite Mathematics (fulfills the core requirement in mathematics).

**Natural Sciences** — CLEP Examinations that include Biology, Chemistry and Natural Sciences do not fulfill the laboratory science requirement. A score at the 50th percentile or above will earn elective credit.

**Social Sciences** — A score at the 50th percentile or above in the following social sciences will earn 4 credits in the following subject areas

**Department Examinations**

Certain departments in the undergraduate program allow students to obtain credit for specific courses if they can demonstrate that they have mastered the content and method of the courses in question. Those interested in seeking credit in this fashion should contact the department chair of the appropriate department.

The examining faculty member offers no special instruction to the student except to furnish the syllabus of the course. If this is unavailable or of insufficient assistance to the student, the course should be taken as a regular semester offering or on an Individual Study basis.

A student may attempt to earn credit by examination only once for a particular course. Grades for courses taken in this way are usually given on an S/R basis unless the department has decided that a letter grade should be awarded.

Only courses for which credit is awarded will be posted on the transcript. A fee is charged for administering the examination.

The following departments offer the availability of credit by examination for selected courses. Departments not included in the list do not offer any courses under this option.

**Art History** — Examinations may be given for certain courses. Each case will be considered individually by the chair of the department.

**Business** — examinations may be given with the consent of the chair of the department, contact the department with questions.

**Chemistry** — Examinations may be given for CHEM 111 and/or CHEM 112, at the discretion of the chair of the department.

**Communication and Journalism** — in special circumstances, credit by examination could be sought for courses in journalism with the following exceptions: COJO 254 Photojournalism

COJO 470 Advertising and Public Relations Campaigns
COJO 480 Communication Ethics

**Computer and Information Sciences** — under special circumstances and with the approval of the department chair, credit by examination could be sought for courses with the following exceptions:
CISC 320 Systems Analysis and Design I
CISC 321 Systems Analysis and Design II

**Economics** — all courses, if circumstances warrant it, with the exception of:
ECON 315 Introduction to Econometrics
ECON 470 Research

**Engineering** — all courses, if circumstances warrant it, with the exception of:
ENGR 480 Engineering Design Clinic I
ENGR 481 Engineering Design Clinic II
Each case will be considered individually by the department chair.

**English** — under extraordinary circumstances, with the consent of the department chair, credit by examination may be sought for English courses with the following exceptions:
ENGL 121 Critical Thinking: Literature and Writing
ENGL 190 Critical Reading & Writing: Major Genres
ENGL 201 Text in Conversation: Perspectives on Genre and Craft
ENGL 202 Texts in Conversation: Interdisciplinary Perspectives
ENGL 203 Texts in Conversation: Thematic and Intertextual Perspectives
ENGL 204 Texts in Conversation: Perspectives on Language, Culture, and Literacy
ENGL 300 Theory and Practice of Writing
ENGL 421/422 Literary Magazine Practicum
ENGL 481 Senior Seminar

**Foreign Language** — examinations may be given for certain courses. Each case will be considered individually by the department chair.

**Geology** — GEOL 111 Introductory Geology I

**Mathematics** — a departmental examination is available for MATH 113 Calculus I with the following qualifications:
A score of 0 - 59 = no credit;
A score of 60 - 79 = no credit but MATH 113 will be waived as a prerequisite;
A score of 80 - 100 = credit for MATH 113

**Music** — no courses are available. Tests in music theory and auditions for Performance Studies are used to determine placement and do not entail the awarding of credit.

**Psychology** — in special circumstances, and with approval of the department, credit by examination may be sought for PSYC 111 General Psychology
International Baccalaureate

All exams with the exception of foreign languages, must be taken at the higher level. Students who pass the higher level International Baccalaureate (IB) Examination(s) in subjects included in the St. Thomas curriculum with a score of 4 or higher will ordinarily receive 4 credits toward graduation. The specific courses for which credit would be awarded will be determined by the appropriate academic department.

Following is a list of guidelines according to which credit may be obtained through the higher level IB exam in specific departments.

Chemistry — A score of 5 or higher on the Chemistry Advanced Placement Examination will allow credit for BIOL 243, which counts toward the major in biology or related field who score at least a score of 5 on the AP exam will receive credit for BIOL 201, which will fulfill a core lab science requirement but will not fulfill a major field requirement. Students intending to major in biology or related field who score 4 on the AP exam will receive credit for BIOL 243, which counts toward the biology major.

Biology — Students who receive at least a score of 4 on the Biology Advanced Placement Examination will receive 4 college credits for BIOL 101 (fulfills a natural science with laboratory course requirement). Students intending to major in biology or related field who score 4 on the AP exam will receive credit for BIOL 101, which will fulfill a core lab science requirement but will not fulfill a major field requirement. Students intending to major in biology or related field who score 5 on the AP exam or 5-7 on the IB exam will receive 4 credits for BIOL 243, which counts toward the biology major.

Chemistry — A score of 4 or higher usually equals CHEM 111. Students with scores of 5 or above should consult with the department chair.

Students should consult with department chair if they intend to major in science, especially chemistry.

Economics — A score of 5 or higher on the Higher Level examination = ECON 251 (fulfills the Social Analysis requirement).

English — A score of 4 or higher equals ENGL 121 (fulfills 4 credits toward the Literature and Writing requirement.)

Foreign Language — Foreign language credit is dependent on the results of the UST departmental language placement exam typically administered during freshman orientation. Once a language placement exam result is known, IB credit will be granted with a score of 4 or higher.

History — A score of 4 or higher in European History equals HIST 100 (fulfills the Historical Studies requirement.) A score of 4 or higher in History: Americas equals HIST 100 (fulfills the Historical Studies requirement.) A score of 4 or higher in History: Africa equals HIST 100 (fulfills the Historical Studies requirement.)

Mathematics — A score of 3 or 4 will allow MATH 113 to be waived as a prerequisite (but no course credit will be given). Students are encouraged to take the departmental examination to receive credit for MATH 113. A score of 5 or higher gives credit for Math 113. Students are encouraged to take the departmental examination to receive credit for MATH 114.

Physics — A score of 4 or higher will be considered for the awarding of credit on a case by case basis.

Waiver of Credits

Unlike the other areas discussed above, a waiver of credits does not add any credits to the student’s transcript. For example, if a student tests out of the third level of the foreign language requirement for the core curriculum, a waiver will be noted on the course audit, but no credits are awarded.

Information and Visits

All correspondence and telephone calls concerning undergraduate admission should be directed to the Office of Admissions, Mail 5017, University of St. Thomas, St. Paul, Minnesota 55105-1096.

Phone: 651-962-6150 or 800-328-6819 Ext. 2-6150

e-mail: admissions@stthomas.edu

Website: www.stthomas.edu

When writing, inquirers should be sure to include their full name, address with zip code and telephone number.

The Office of Admissions is located in Murray-Herrick 256. Open office hours are from 8 a.m. to 4:30 p.m., Monday through Friday, and 9 a.m. to noon on most Saturdays. Admission counselors and scheduled tour times are available during those hours. Please contact the Office of Admissions for an appointment.

International Students

The university welcomes and encourages prospective international students to apply for admission.

International students are classified as students applying for admission to the University who will need to have or already possess a visa to enter the United States. Admission is competitive and requires:

- Application and essay;
- Secondary school official records with very good to excellent scores;
- Proof of English proficiency

Priority deadline for applications is January 15.

The minimum acceptable TOEFL score is 80 (iBT) with sub-scores of 20 on speaking and writing. Information on testing can be found at www.toefl.org. Please see the University of St. Thomas international admissions website for additional accept-
Non-Degree Students

Non-degree students are those who attend classes without intending to apply any credits earned to obtaining a degree at St. Thomas. There are two types of non-degree students: (1) those participating at St. Thomas in university-approved international exchanges or inter-institutional partnerships; (2) independent non-degree students.

(1) Non-degree students who are participating in university-approved international exchanges or inter-institutional partnerships are subject to the credit limits and registration times determined by the conditions of the exchange or partnership in which they are participating. Academic and disciplinary sanctions (probation, suspension, dismissal) apply.

(2) Independent non-degree students are admitted to the institution through the Office of the University Registrar. As they are not seeking a degree, they are not obliged to present their previous academic work for evaluation. Registration is on a space available basis with priority given to degree-seeking students. Independent non-degree students begin registration five days before the start of each term; they are not classified as freshman, sophomore, junior, or senior. Neither are they classified as part-time or full-time. They are limited to enrolling for eight credits during the spring and fall semesters, and four credits during J-term. They may register for a combined total of sixteen credits during the summer sessions. An independent non-degree student who wishes to change status and pursue a degree program must make a formal application for admission through the Office of Admissions. A maximum of 24 credits taken at St. Thomas on independent non-degree status may be applied to a degree program. Academic and disciplinary sanctions (probation, suspension, dismissal) apply.

Readmission Policies

A student who was formerly enrolled in the university, but is not currently attending, must request reinstatement by calling or writing to Academic Counseling at St. Thomas. The student will be reinstated if the university registrar verifies that the student left St. Thomas in good academic standing, and if the student is eligible to return to the university as certified by the Dean of Student Life.

However, if the student has been enrolled at another college after initial enrollment at St. Thomas, an official transcript of work done and the Dean of Students form completed by the dean of students at that institution is required. The student will then be reinstated by the university registrar if the transcript indicates work of a C average or better and the Dean of Students form indicates the student left that institution in good standing.

A student who discontinues his/her enrollment in the university for four consecutive academic years must re-enroll under the terms of the catalog in effect at the time of re-enrollment.

Transfer Students

In addition to following the general application procedures, students wishing to transfer from another college should submit official high school, all college transcripts, and a completed Dean of Students Form to the Office of Admissions as soon as possible. Previous college work, disciplinary history, and other academic information will be reviewed as part of the admission decision. A minimum GPA of 2.30 (4.0 scale) is required in transferable previous college work to be considered for admission. All transferable coursework, regardless of grade, is considered when calculating the GPA used to determine admission. Only coursework in which the student earned a grade of C- or higher from a regionally accredited college/university will be recognized for credit at St. Thomas. To determine if your college/university has regional accreditation, please see:

www.chea.org/directories/regional.asp

Transfer students must fulfill the core curriculum requirements, maintain a GPA of 2.00 in courses taken at St. Thomas, and successfully complete thirty-two of their last thirty-six credits at the university.

In order to stay within enrollment goals, the university reserves the right to adjust published application and standing deposit deadlines when necessary.

Students interested in transferring to the university should contact the Office of Admissions at:

651-962-6150 or 800-328-6819 Ext. 2-6150
or admissions@sthomasons.edu

Veterans

The University of St. Thomas has been approved for the education and training of veterans. It is the responsibility of students who are veterans to familiarize themselves with the procedures and regulations concerning satisfactory standards of progress in order to ensure proper and prompt payment of benefits due. Veterans will receive credit as recommended by the American Council on Education for courses completed through USAFI and for courses from accredited colleges when the proper documents have been supplied to the university.

Specific questions should be addressed to the university registrar.
The Core Curriculum

All bachelor degrees awarded by the University of St. Thomas shall meet the core curriculum requirements of the undergraduate program. The core curriculum is organized into nine curricular areas.

Goals of the Core Curriculum

The importance of offering a well integrated undergraduate core curriculum flows from the commitment of St. Thomas as a Catholic university to the underlying unity of the human person: we are called to integrity in our personal, social, and spiritual lives. The unity of the person entails the interrelatedness of the various branches of knowledge, and we are guided in our search for such interrelations by the recognition that faith and reason are fundamentally compatible and complementary. Moreover, this vision of the human person brings into focus the communitarian dimension of the person, leading us to emphasize the ethical and social development of all students and to insist that knowledge should serve the common good. Finally, because this tradition calls upon us to recognize the dignity of the human person, the curriculum fosters both an appreciation for the life of the mind and an awareness of interdependence with others on local, national, and global levels.

Drawing upon the Catholic identity of the university as an over-arching principle, the undergraduate program is then framed by three additional key principles: the pursuit of liberal learning, serving as a foundation for career preparation viewed as cultivating a vocation to serve the common good, leading to fruitful interaction with the urban community within which the university flourishes.

Students formed within the architecture of such a curriculum will exhibit a love of learning and will act in accord with their deeper understanding of the responsibilities they carry within the various communities within which they participate. Through their learning they will be prepared to engage in fruitful dialogue across the many differences that constitute the polyphony of human culture, standing open to being challenged while exhibiting a readiness to seek out the deepest insights of those who at first might have seemed strikingly different from themselves.

To further these over-arching objectives, graduates of St. Thomas should have developed:

• the ability to think analytically, critically, and creatively, and to solve problems by applying knowledge in appropriate circumstances
• the ability to write and speak clearly, to read demanding works with comprehension, to listen and observe carefully, and to respond appreciatively to the precise and imaginative use of language
• an understanding of the fine arts as modes of expression that deepen human experience and open new perspectives on human cultures
• an understanding of the nature and function of faith and the Catholic tradition in the modern world
• the ability to articulate and support moral and ethical judgments about what constitutes good actions and a good society
• the ability to participate responsibly in a democratic society, to respect the value of
informed dialogue and to give thoughtful consideration to differing ideas
• an understanding of the responsibility of educated persons to contribute to the communities and the environment in which they live on local, national, and global levels
• knowledge of their own and others’ cultures and traditions, including non-Western and non-majority cultures, and respect for the diversity of peoples and cultures within the fundamental unity of humankind
• knowledge of the natural world and of the modes of inquiry cultivated by the natural sciences
• the ability to reason quantitatively and to evaluate basic mathematical and statistical arguments
• the ability to understand how the power of technology can be used in service of the common good and as a tool within academic disciplines
• the ability to use knowledge from various fields and to integrate ideas across disciplinary boundaries
• knowledge in depth in at least one field of study, including an understanding of the route to acquiring knowledge and demonstration of some ability to do research or learn independently in that field.

Courses used to satisfy the requirement in a curricular area are of two types:
core courses – in which a specific course is designated as fulfilling a requirement; and
core-area courses – in which a selection is made from a list of courses designated as fulfilling the requirement.

Overview of requirements:
Literature and Writing - 8 credits
Moral and Philosophical Reasoning - 8 credits
Natural Science and Mathematical and Quantitative Reasoning - 12 credits
Faith and the Catholic Tradition - 12 credits
Social Analysis - 4 credits
Historical Studies - 4 credits
Fine Arts - 4 credits
Language and Culture - 12 credits
Human Diversity - 4 credits

Curricular Areas

Faith and the Catholic Tradition
(12 credits)
In every historical period and cultural context, there are fundamental questions that concern human beings: the nature of the universe, the existence and nature of God, the nature of human beings, the relationship of humans to God and to the world, the nature of evil, and the possibility of redemption.

The Department of Theology has designed a sequence of courses that acquaint students with these questions and assist them in articulating thoughtful responses formulated in light of the Catholic tradition and Christian faith. These courses contribute to the students’ liberal arts education at the University through the development of writing, reading, and critical thinking skills.

The first course, “The Christian Theological Tradition,” introduces students to the theological frameworks that Christians have historically used to address questions of faith and human existence. The core readings for the course are from the Bible and from classic writers within the Christian tradition. The course provides students with an opportunity to reflect critically on the Catholic and Christian traditions within the context of contemporary life. Finally, it provides students with a basic level of theological literacy to prepare them for the second and third-level courses.

The second-level (200-numbered and 300-numbered) courses invite students to practice theology by engaging at a deeper level in the discipline of “faith seeking understanding.” Courses at this level focus on a particular area of the Christian tradition, namely: the Bible, historical theology, systematic theology or moral theology. Students critically examine core elements of the tradition, such as classic texts, concepts, persons, and events while remaining mindful of the contemporary context. Through these courses, students learn the skills and methods of the discipline. These second-level courses then serve as a foundation for the interdisciplinary “Bridge Courses” at the next level.

The “Bridge Course,” as the third course in the Faith and the Catholic Tradition sequence (400-numbered), will provide an opportunity for students to draw upon their entire program of studies. Serving as the culminating point for the curriculum, the Bridge Course prepares students to build connections between their studies in the liberal arts and the broader world for which their St. Thomas education has prepared them. A principal concern of the course is to guide students toward experiencing a sense of vocation in their professional, familial, and social lives. Because no single type of course can be expected to address all such areas, students will be offered three different types of bridge courses exploring different aspects of the broader world they are preparing to serve.

The three levels of course, thus, form an integrated sequence in the Faith and Catholic Tradition core area requirement. The first course (THEO 101) introduces the tradition of Christian theological reflection. The second-level courses (at the THEO 200 or THEO 300 level) invite students “to do” theology—that is, to engage in reasoning about faith. In the third-level courses, students bring theological concepts and methods into dialogue with other disciplines.

Students select three courses as follows:

Theology 101
One Theology course at the 200 or 300-level
One Theology course as the 400-level

Fine Arts
(4 credits)
A core-area course in one of the fine arts aims to enhance students’ understanding of and appreciation for one or more of the fine arts (art, music, or theater). Students gain an understanding of the role of the fine arts in expressing and maintaining, discovering and questioning a culture’s dominant beliefs and ideals. The focus of these courses is broad enough to encompass different periods, cultures, and styles, but also allows an intensive scrutiny of the way in which the work of art, music, or theater
Core Curriculum

is composed and created. Students have a variety of choices in fulfilling this requirement.

Students may choose one of the following core-area courses:

- ARTH 110 Introduction to Art History
- ARTH 260 Women in Ancient Art and Culture
- ARTH 265 Art of Mesoamerica
- ARTH 270 Pacific Art
- ARTH 275 Buddhist Art
- ARTH 280 Sacred Architecture and Space
- ARTH 282 The History of American Architecture
- ARTH 284 Arts of the African Diaspora
- ARTH 285 Arts of Africa
- ARTH 291 Topics in Non-Western Art
- ARTH 297 Topics
- ARTH 305 Greek Art and Archaeology
- ARTH 310 Roman Art and Archaeology
- ARTH 321 The Art and Culture of Modern Mexico (1824-1940)
- ARTH 323 Colonial Art of Latin America
- ARTH 328 Chinese Sculpture & Architecture
- ARTH 329 Chinese Painting
- ARTH 330 Churches and Mosques in the First Millennium
- ARTH 335 Cathedrals, Monasteries, and Caliphas
- ARTH 339 Western Costume Design and Visual Representation in Context
- ARTH 340 Southern Renaissance Art and Society
- ARTH 345 Baroque and Rococo Art
- ARTH 351 Romanticism to Impressionism
- ARTH 352 Art in the United States
- ARTH 356 Modernism in European Art
- ARTH 361 Contemporary Art
- FILM 200 Introduction to Film Studies
- MUSC 115 Understanding Music & Culture
- MUSC 118 Understanding Music & Culture to 1850 (2 credits)
- MUSC 119 Understanding Music & Culture 1850 to Present (2 credits)
- MUSC 120 Orchestral Literature
- MUSC 130 Introduction to World Music
- MUSC 162 The Roots of Blues, Rock and Country Music
- MUSC 216 Jazz in America
- MUSC 217 Music of the Americas
- MUSC 218 Black American Music: A Historical Survey
- MUSC 219 Music in the United States
- MUSC 222 Theology of American Popular Music
- MUSC 412 History & Literature of Music II
- THTR 111 Introduction to the Theater
- THTR 221 World Theater, Origins to 17th Century (History of Theater I)
- THTR 222 Modern and Contemporary World Theater (History of Theater II)
- THTR 223 American Theater (History of Theater III)
- THTR 259 Film I: Introduction to the Art of Film
- THTR 260 History of Film: The Silent Era
- THTR 261 History of Film: Sound Era, 1926 to Present Day
- THTR 297 Topics
- THTR 359 Film II: Film Theory and Criticism
- THTR 412 Drama: Theory and Criticism

Students may choose to participate for four semesters in one of the following music ensembles:

- MUSN 140 Women's Choir
- MUSN 142 Chamber Singers
- MUSN 143 Liturgical Choir
- MUSN 160 Concert Choir
- MUSN 173 Guitar Ensemble
- MUSN 181 Orchestra
- MUSN 185 Symphonic Band
- MUSN 186 Symphonic Wind Ensemble

(a combination of four semesters in 142 and 160 or 185 and 186 will fulfill the requirement)

Historical Studies
(4 credits)

Core-area courses in historical studies aim to increase students' knowledge of the history of the modern world and its origins. Each of these courses also provides an introduction to historical methods of inquiry and analysis. A third objective is to raise awareness of diversity within human history and the importance of intercultural learning. A fourth objective is to address issues related to the professional ethics of historians and the ethical use of historical materials:

- HIST 111 Origins of the Modern World to 1550
- HIST 112 The History of the Modern World since 1550
- HIST 113 Early America in Global Perspective
- HIST 114 The Modern U.S. in Global Perspective
- HIST 115 The World Since 1900
- HIST 116 African American History in Global Perspective
- HIST 118 The Middle East and North Africa in Global Perspective
- HIST 119 East Asian Civilizations in Global Perspective

Human Diversity
(4 credits)

Courses fulfilling the human diversity requirement consider ways in which preconceptions, stereotypes, and assumptions held by a particular individual, as well as that individual’s position within structures of privilege, affect understanding of issues related to diversity. In addition, the course addresses ways in which power and privilege operate at the institutional/systemic level. These courses address at least two of the following areas of inquiry: race and ethnicity, gender, religion, class, sexual orientation, disability status, or geopolitical status.

These courses assist students in understanding the perspectives, values, experiences, works and achievements of the peoples and cultures being studied, recognizing that the experiences, beliefs, and values of any group being studied are not monolithic, but may vary widely within the group. Whenever possible they include materials (e.g., writings, films, narratives, oral histories, artwork) which are produced by the population or culture under study.

Courses fulfilling the human diversity requirement explicitly address the ways in which the study of diversity is valuable to a liberal arts education and fosters respect for the diversity of peoples and cultures within the fundamental unity of humankind. These courses also address how the discipline involved contributes to an understanding of the groups or culture under study and how the perspectives of the groups or culture might expand understanding of the discipline itself.

Courses available to fulfill the requirement are:

- ACST 200 Introduction to American Cultural Studies
- ARTH 110 Introduction to Art History
Language and Culture
(12 credits)
A sequence of foreign language study aims to develop students’ skills in using a foreign language in a variety of tasks, including conversing, reading, writing and listening with comprehension. The language is used as the essential vehicle for coming to a deeper understanding of other cultures. The courses guide students toward a realization that the study of a foreign language provides a comparative basis from which to analyze their own language and culture. Study of the language will allow students to relate course content with that of courses taught in other disciplines.

Students must complete the 111, 112, and 211 sequence in a particular language. All students with previous language experience must take a placement examination administered by the Department of Modern and Classical Languages. The student’s previous work in the language will be considered. The Department of Modern and Classical Languages will make the final determination regarding the placement of students in foreign language courses.

Students with sufficient proficiency in a language may test out of 211 and receive a waiver of the requirement. A waiver does not add credits on the student’s transcript. Students should begin the process of the language/culture requirement waiver in their first year at UST.

Students whose primary language of communication is a language other than English and who have learned English as a second language are exempt from the foreign language requirement. It is the student’s responsibility to present evidence to the chair of the department to support this exemption request.

Literature and Writing
(8 credits)
This sequence of courses develops students’ critical awareness of language by helping them to recognize the relationship between their own experience and the interpretive possibilities of literature. Attention is paid to the integration of the individual’s composing process and the process of reading and understanding texts. These courses foster attentive reading, careful thinking, and effective writing.

Students enroll in two courses:
ENGL 121 Critical Thinking: Literature and Writing

Second course (one of the following):
ENGL 201 Texts in Conversation: Perspectives on Genre and Craft
Core Curriculum

ENGL 202 Texts in Conversation: Interdisciplinary Perspectives
ENGL 203 Texts in Conversation: Thematic and Intertextual Perspectives
ENGL 204 Texts in Conversation: Perspectives on Language, Culture, and Literacy

Students with qualifying ACT scores may enroll in:
one of ENGL 201 through 204

Plus
one of the following literature courses in English: ENGL 211, 212, 214, 215, 217, 218, 220, 221, 222, 297, 324, 325, 334, 337, 341, 360, 361, 362, 364, 365, 366, 367, 370, 371, 372, 373, 390, and 395 or two 2-credit ENGL 295 courses during J-term

Moral and Philosophical Reasoning
(8 credits)
What am I? How should I live? Philosophers throughout the centuries have pondered these questions which are of decisive importance for the whole of human life.

In the first course, students will study the elements of logic, the method of philosophy, and will read about the nature of the human person. In the second course, students will focus on questions of human conduct – questions about what is right and wrong, good and bad, in the lives of individual persons and human societies. These courses are not mere histories of philosophical opinion; they are substantive inquiries into the meaning of human life insofar as it can be grasped by reason alone. thus, they complement the courses students take in theology and in other areas.

The two core courses are:
PHIL 115 Philosophy of the Human Person
PHIL 214 or 215 Introductory Ethics

Natural Science and Mathematical and Quantitative Reasoning
(12 credits)
Students are required to take a core-area course in natural science with a laboratory component, a core-area course in mathematics, and a third core-area course in natural science (with a laboratory component), mathematics (MATH 114 or higher), quantitative reasoning or computer science.

Core-area courses in natural science focus on the natural world and develop students’ abilities to evaluate scientific arguments critically, and enhance their quantitative and analytical reasoning skills. The laboratory component of these courses is an inquiry-based approach with opportunities for students to refine their observational skills through the acquisition and organization of data, analysis and interpretation of data, and the presentation of conclusions orally or in writing. (Normally, Web-based courses are not accepted as lab sciences that satisfy this lab science requirement. Any exceptions to this rule must be pre-approved by the Core Area Curriculum Review Committee in the Natural Sciences and Mathematics Division.)

Students select one of the following core-area natural science courses:
BIOL 101 General Biology or BIOL 105 Human Biology
or BIOL 106 Women, Medicine and Biology
BIOL 102 Conservation Biology
BIOL 207 Genetics, Evolution, and Ecology
BIOL 208 Biological Communication & Energy
CHEM 100 Chemistry in Our World
CHEM 101 Environmental Chemistry
CHEM 109 General Chemistry for Engineers
CHEM 111 General Chemistry I
CHEM 112 General Chemistry II
CHEM 115 Accelerated General Chemistry
ENGR 123 Energy and the Environment
GEOL 102 Origins and Methods
GEOL 110 Geology of the National Parks or GEOL 111 Introductory Physical Geology or GEOL 114 The Science of Natural Disasters or GEOL 115 Environmental Geology
GEOL 130 Earth History
GEOL 161 Medical Geology
GEOL 162 The Earth’s Record of Climate
GEOL 211 Earth Materials
GEOL 220 Oceanography
GEOL 252 Earth Surface Processes and Geomorphology
GEOL 260 Regional Geology and Geological Field Methods
GEOL 461 Medical Geology
GEOL 462 The Earth’s Record of Climate
IDSC 150 Development of the Natural World
PHYS 101 Physics as a Liberal Art I
PHYS 104 Astronomy
PHYS 105 Musical Acoustics
PHYS 109 General Physics I
PHYS 110 General Physics II
PHYS 111 Introduction to Classical Physics I
PHYS 112 Introduction to Classical Physics II

The core-area courses in mathematical reasoning include experience in the application of relevant knowledge to solve problems, promote the recognition and classification of numerical, geometrical, and relational patterns, enhance students’ abilities to develop mathematical arguments, and to understand the connections between real-world data and mathematical models.

Students select one of the following core-area mathematics courses:
MATH 100 Mathematical Sampler
MATH 101 Finite Mathematics
MATH 109 Calculus With Review II
MATH 111 Calculus for Business and Social Science
MATH 113 Calculus I
MATH 114 Calculus II
MATH 121 Structures of Elementary Mathematics
MATH 128 Introduction to Discrete Mathematics

The third core-area courses allow students to broaden or deepen their exposure to natural science, mathematics, quantitative reasoning and/or computer science.

Students select a core-area course from the following list:
CISC 120 Computers in Elementary Education
STAT 220 Statistics I (previously IDTH 220)
MATH 114 Calculus II
MATH 121 Structures of Elementary Mathematics
MATH 128 Introduction to Discrete Mathematics
Degree Requirements

Social Analysis
(4 credits)
The goal of this requirement is to ensure that all students develop basic abilities to perform social scientific analyses of patterns of social interactions. Core-area courses in social analysis provide a broad introduction to the perspectives offered by one of the traditional social sciences. Courses will consider empirical and/or normative analysis, how social science knowledge differs from other kinds of knowledge, what constitutes data, the relationship between data and theory, and major conceptual perspectives. Where appropriate, courses will provide an understanding of and sensitivity to the diversity of American and/or other societies, an international perspective, and will address issues of social concern.

To meet this requirement, students must earn the equivalent of a full course in a single department. Students may not use fractional courses from multiple departments to meet the requirement.

Students choose one of the following core-area courses:
- ECON 211 Current Economic Issues
- ECON 251 Principles of Macroeconomics
- ECON 252 Principles of Microeconomics
- GEOG 111 Human Geography
- GEOG 113 World Geography
- POLS 104 American Government in Comparative Perspective
- PSYC 111 General Psychology
- SOCI 100 Introduction to Sociology
- SOCI 110 Social Problems

Degree Requirements

Baccalaureate Degrees
The University of St. Thomas grants the degrees Bachelor of Arts (B.A.), Bachelor of Music (B.M.), Bachelor of Science (B.S.), the Bachelor of Science in Electrical Engineering (B.S.E.E.) and Bachelor of Science in Mechanical Engineering (B.S.M.E.) to individuals who successfully complete its undergraduate degree programs. These undergraduate degrees have two components: the core curriculum and the major concentration.

To complete the core curriculum, a student takes courses in literature and writing, moral and philosophical reasoning, natural science and mathematical and quantitative reasoning, faith and the Catholic tradition, social analysis, historical studies, fine arts, language and culture and human diversity. These courses provide the student with a broad education and with the skills needed for further work in these and other areas. Additional general requirements for graduation are listed in the section on requirements for a degree. See the section on Core Curriculum for additional details.

A candidate for a degree completes a major concentration in one of the specific academic disciplines represented in the undergraduate program; or a student may construct a major concentration to meet a specific need or interest, subject to the approval of the Committee on Studies. This major concentration component of a degree provides students with the opportunity to pursue a limited subject in depth and to prepare for a career. If desired, a student may also complete one or more minor concentrations or an additional major concentration in an area of special interest.

GPA Requirements
A minimum grade point average (GPA) of 2.00 must be achieved in all of the following categories:

- all credits presented for graduation (including transfer credits)
- all credits earned at St. Thomas
- all credits in the department (Opus College of Business for business majors) of the major field (including transfer credits)
- all credits in the department (Opus College of Business for business majors) of the major field earned at St. Thomas.

If the student has elected to declare a minor field, all credits in the department (Opus College of Business for business majors) of the minor (including transfer credits) and all credits in the department (Opus College of Business for business majors) of the minor field earned at St. Thomas must have a GPA of 2.00.

Minimum Credit Requirement
To receive a bachelor’s degree, a student must successfully complete a minimum of 132 credits and fulfill all degree requirements. Students who complete a minimum of 131 credits may petition the Committee on Studies for the waiver of 1 credit.
Facilities

Minimum Credit Requirement Outside Major
In addition, students in all majors except business must earn a minimum of 84 credits outside the major field. Business majors must earn a minimum of 76 credits outside the Opus College of Business. Students who complete a minimum of 83 credits outside of the major (or 75 credits for business majors) may petition the Committee on Studies for the waiver of 1 credit.

Maximum Credits in Experiential Learning and Courses Graded S-D-R
No more than eight credits in Experiential Learning may be counted toward the minimum 132 credits for graduation.

No more than one-eighth of the courses taken at St. Thomas presented for graduation may be graded on the S-D-R system.

Overlapping or Equivalent Courses and Courses Satisfying More Than One Requirement
No two courses may be equivalent or overlapping. (Credit is not given for a course that overlaps a course previously taken or a cross-listed course in another department. Such courses are indicated in the course descriptions by the number of the conflicting courses in parentheses following the title.)

The same course may be used to satisfy both a requirement in the core curriculum and in the major and minor fields.

Within the core curriculum, the only instance in which one course may satisfy more than one requirement is when a course fulfills a core or core-area requirement and simultaneously satisfies the requirement in human diversity.

Senior Residency Requirement
Senior residency requires that a graduate have completed thirty-two of the final thirty-six credits at St. Thomas, at one of the other four ACTC colleges, or through an affiliated program.

Chapels

Chapel of St. Thomas Aquinas
The present Chapel of St. Thomas Aquinas was built in 1917. E.L. Masqueray, who also designed the St. Paul Cathedral and the Basilica of St. Mary, Minneapolis, was the architect. The university’s chapel is an excellent example of the classicized mode of design that emanated from the Ecole des Beaux Arts during the early years of the twentieth century.

The luminous stained glass, designed by Chester Leighton of Minneapolis, and the paintings containing sacred and secular details by Joseph Capecci and Carl Olson, were installed in the 1940s. The chapel was renovated in 1978 and in 1987, a three-manual 56-rank mechanical action pipe organ, designed and built by Gabriel Kney of London, Ontario, was installed.

The Chapel was renovated again in 2008 by designers Alexander Tylevich and Fr. James Notebaart with the addition of an 11-ft-tall altar crucifix, sanctuary gates, a new altar and ambo.

St. Mary’s Chapel
St. Mary’s Chapel of The Saint Paul Seminary was begun in 1901 and consecrated in 1905. Designed by Minnesota architect Clarence H. Johnston in the basilica style, it blends Romanesque and Byzantine architecture. Artist Bancel LaFarge of New Haven, Connecticut, completed the installation of the stained glass and murals in the 1930s.

The chapel was renovated in 1973, and more extensively in 1988. This project was undertaken with the assistance of liturgical consultant Frank Kacmarcik. A new sanctuary area was created in the north end of the chapel allowing the apse area to become the environment of the baptismal font and new access to the chapel.

In the spring of 2000 a two-manual, 27-rank mechanical action pipe organ designed by Noack Organ Company of Georgetown, Massachusetts, was installed.

St. John Vianney Chapel
The university seminary chapel was redesigned in 1998 by the Rev. Peter Christensen, the rector at that time. The theme of the chapel is “The Tree of Life.” The chapel, an adjoining Eucharistic chapel, and an adjacent prayer room, replicating a medieval monastic cloister, are open for anyone wishing to use them. The seminary has become a focal point for contemporary religious art, including the iconic triptych in the foyer and the mosaic behind the altar.

A small one-manual Van Daalen organ was moved to the chapel in 2000.

Florance Chapel
The Florance Chapel is the lower chapel in the Chapel of St. Thomas Aquinas. An award-winning design in its renovation, it incorporates modern furnishings in the prairie school style of Frank Lloyd Wright along with some of the oldest sacred sculptural artwork owned by the university.
St. Thomas More Chapel
Located in the School of Law on the Minneapolis campus, the two-story St. Thomas More Chapel features colored art-glass windows, seating for more than 100 and a striking bronze crucifix. A meditation room overlooking the chapel on the second floor provides a quiet respite and a place for reflection.

University Libraries
The University of St. Thomas libraries’ print collections (including the Law Library) contain more than 700,000 volumes. Our growing electronic library now provides anytime/anywhere access to 114,000 electronic book titles, 58,000 electronic and print journals, 383 electronic databases and over 77,000 streaming audio and video items. These collections support student scholarship and faculty research through integration of technology, electronic and print content with research assistance and instruction from librarians and technical staff.

O'Shaughnessy-Frey Library
The O’Shaughnessy-Frey Library Center is the principal library on the St. Paul campus, housing (in addition to the general and reference collections) the University Archives and Special Collections Department. The latter contains the Celtic Collection, one of the most outstanding collections of its type in the country, and a notable collection of the work of Hilaire Belloc and G.K. Chesterton. Its coffee shop, expanded comfortable seating and spaces for group work have made the OSF Library a favorite campus location for research and studying, used by an average of 60,000 people a month during the academic year.

Charles J. Keffer Library
The Charles J. Keffer Library, located in Opus Hall on the Minneapolis campus, serves the College of Education, Leadership and Counseling, and the Opus College of Business, and is the library that is largely responsible for meeting the scholarly needs of the graduate student population of the University of St. Thomas.

Archbishop Ireland Memorial Library
The Archbishop Ireland Memorial Library, located on the south campus, is the graduate theological library which primarily serves The Saint Paul Seminary School of Divinity. The Ireland Library collection is highly regarded by theological scholars.

CLIC/MINITEX
Relationships with two local library networks benefit UST users by providing access to the collections of regional libraries. Cooperating Libraries in Consortium (CLIC) allows students to obtain books and periodical articles from other Twin Cities private academic libraries (Augsburg College, Bethel College, Concordia College, Hamline University, Hamline Law School, Macalester College, Northwestern College, St. Catherine University, as well as the University of St. Thomas.) Interlibrary loans for materials not owned by the university are available within the CLIC institutions.

Another cooperative venture, MINITEX (Minnesota Interlibrary Telecommunications Exchange) links the university with more than 200 libraries throughout Minnesota, Wisconsin, and North and South Dakota, including the University of Minnesota.

Interlibrary loan is available and makes possible the borrowing of materials from libraries around the nation and the world.

Library Services
The library staff offers a wide range of services to support coursework and research. Reference librarians provide individual help as well as classroom instruction in the use of library materials. Group and collaborative study spaces are available throughout the libraries.

Website: www.stthom.edu/libraries.

Computing Resources
There are a wide variety of computing resources available for student use at the University. There are general-purpose labs, which any student can use for coursework or personal use. The Information Commons in O’Shaughnessy-Frey Library on the St Paul Campus and the Charles J. Keffer Library on the Minneapolis Campus house the largest general purpose computing facilities on each campus. The Information Commons brings together support for research, writing, information literacy, and computer application support to assist students in developing papers, presentations, and projects. The Information Commons provide both PC and Macintosh computers, printers, scanners and access to the UST wireless network.

There are also specialized departmental labs which are reserved for students who are enrolled in classes or working on course specific assignments. In addition, there are a number of Residence Hall labs that are open to St. Thomas students who live in the Residence Halls.

The University provides a wireless network. The wireless network is available in all public spaces on the Minneapolis and St Paul Campuses as well as in all of the Residence Halls.

The wireless network is also accessible outdoors on the St Paul campus in the following areas (Note: weather conditions may affect access to the wireless network outdoors):
• Sabo Plaza (South Campus outside of O’Shaughnessy Science Hall and Owens Science Hall), the Lower Quad (Anderson Student Center and Anderson Athletic and Recreation Center across to O’Shaughnessy-Frey Library), and the Upper Quad (outside of Residence Halls)

The Luann Dummer Center for Women
The Luann Dummer Center for Women was established in 1993 by a special bequest from the estate of Dr. Luann Dummer, longtime member of the Department of English and founding director of the Women’s Studies Program at the university.

The center aims to foster the intellectual, spiritual and personal development of women. The center serves as a meeting place for women to share their expertise and experience and provides opportunities for students to interact with women role models. Although the center is dedicated especially to women, it is committed to the service of the entire campus community within the context of its mission.

The center sponsors many co-curricular programs
related to women and gender. The most important of these is the annual March Women’s History Month Speaker. The center sponsors a number of grants to support students, faculty and staff. These include a scholarship for a Women’s Studies major, research grants for undergraduate and graduate students, professional development grants for staff and faculty, a curriculum development grant, and a leadership award to undergraduate students for participation in programs that will enhance their leadership skills, especially in programs which are directed toward public service.

Science Facilities
The Frey Science and Engineering Center, comprising the O’Shaughnessy Science Hall and the Owens Science Hall, houses the classrooms, instructional and research labs, and faculty/staff offices for the departments of biology, chemistry, engineering, geology, mathematics, Center for Applied Mathematics, physics, and quantitative methods and computer science. It also houses special support facilities such as an attached greenhouse and one-third of the university’s computer terminals.

Auditoriums
The O’Shaughnessy Educational Center (OEC) auditorium has 330 seats on the main level and 292 seats in the balcony level and hosts a number of guest lectures, teleconferences, and student assemblies.

The auditorium in the John R. Roach Center (room 126 JRC) has 194 seats and contains state-of-the-art technology. It is used for course lectures, meetings, conferences and is the site for many student activities including film viewings.

The Baumgaertner Auditorium in Brady Educational Center (BEC), located on the south campus, has 348 seats and is used for musical performances and community events. Musical concerts are also presented in the St. Thomas Aquinas Chapel.

The 3M Auditorium, located in Owens Hall of the Frey Science and Engineering Center, has 143 seats, is technologically advanced, and hosts a number of course lectures, teleconferences, and community events.

The Thornton Auditorium, located in the 1000 LaSalle Building at the Minneapolis campus, serves as the site for a number of lectures and presentations.

Athletic Facilities
The athletic facilities at the university provide opportunities for student participation in a variety of varsity, intramural and recreational sports and activities.

The Lee and Penny Anderson Athletic and Recreation Complex (AARC) includes venues for basketball, volleyball, running, swimming, tennis, weight and aerobic training and many other recreational activities. Locker rooms and other support areas are also located in this facility.

A six lane, 200 meter track is the focus of the field house which supports varsity track and tennis activities and provides recreational space for the university community.

Shoenecker Arena seats 2000 and accommodates varsity and recreational volleyball and basketball sports and activities.

The AARC also includes an eight lane swimming/diving pool for varsity and recreational activities.

State of the art weight and aerobic training equipment and facilities are included in this complex.

The McCarthy Gym, located on the South Campus, offers 2 collegiate gyms, weight and cardio equipment, racquetball/ handball courts, and locker space for additional varsity, intramural, club and recreational activities of the campus community.

Outdoor facilities include the O’Shaughnessy Stadium (football, track and field, intramural and recreational activities), the North Field (baseball and track) and the South Field (fast- pitch softball and soccer).

Anderson Student Center
The 225,000 square foot Anderson Student Center officially opened in January 2012. Highlights of the student center include:

- A three-story atrium with a spiral staircase connecting all four levels. Adjoining the atrium is a large open area which serves as a “living room” for the UST community. There are 9 flat panel screens located in this area that broadcast digital signage.
- Dining facilities include T’s where ethnic dishes and meals are prepared to order; the View, named for fantastic views of Palmer Field, O’Shaughnessy Stadium and the Lower Quad. Students may select from fresh, local and sustainable product to be prepared right in front of them by one of UST’s talented chefs.
- Scooters - 6,900 square feet of recreational space including pool tables, electronic dart stations, gaming tables, and a 1,554 square foot dance floor.
- 85 - named for 1885 to acknowledge the year of UST founding. This recreational facility includes flat screens with gaming consoles (Wii, Xbox, Playstation), Air Hockey, and Table Tennis tables as well as surface gaming tables.
- Thirteen meeting rooms.
- Art Gallery
- Tommie Central - hub of activity combining former box office, information desk and switchboard operations.
- Woulfe Alumni Hall - 9,600 square foot multi-purpose room for banquets, concerts, etc. Lounge of 2,900 square feet of space with soft seating furniture and a baby grand piano.
- Hearth room - fireplace.
- Leadership Center - 6,000 square feet of student collaborative work space and computer work stations for student clubs and organizations. Offices for Undergraduate Student Government, Star, Hana, Yearbook.
- Bowling - 4 bowling lanes, shuffleboards and pinball machines.
- Dance - 3,000 square feet with front stage area. Dance floor of 960 square feet. Accommodates up to 800 persons for a dance.
- Summit Market Place - convenience store and food emporium.
- Tommie Shop - retail store.
University Bookstores
The St. Paul campus Bookstore is located in the Murray-Herrick Campus Center. The store sells and rents new and used textbooks. The bookstore also offers a complete line of school and office supplies, computers and computer supplies, insignia clothing and gifts, candy, class rings, cards, gifts and magazines.

The Minneapolis campus Bookstore, located in Terence Murphy Hall, sells and rents textbooks for classes taught on that campus and most off-campus graduate classes. It also carries all of the same items mentioned above.

Check out the new Tommie Shop in the Anderson Student Center. The Tommie Shop carries all the latest styles and best sellers in clothing and gifts.

Call each store for hours of service: 651-962-6850 (St. Paul), 651-962-4340 (Minneapolis), 651-962-7850 (Tommie Shop).

The bookstores maintains a web site at stthomas.edu/bookstore where you can order textbooks and merchandise online. Hours and phone numbers are listed for each store.

Student Records Privacy – FERPA
The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. These rights include:

1. The right to inspect and review the student’s education records within 45 days of the day the university receives a written request for access.
2. The right to request the amendment of the student’s education records that the student believes inaccurate or misleading.
3. The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent.
4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the university to comply with the requirements of FERPA.
5. Directory information may be released without the written consent from the student, unless the student specifies to the contrary as described below.

To withhold directory information from the public, the student normally must file a form available in the Office of the University Registrar within one week from the beginning of the fall semester (or the semester in which the student enters). The order for withholding will remain in effect until the student rescinds it in writing. The form for withholding directory information will inform the student of some possible consequences. For example, if the student’s name is withheld, he or she cannot participate in intercollegiate athletics where team rosters are published, or commencement ceremonies.

The complete FERPA policy is available at http://www.stthomas.edu/registrar/student/ferpa
Financial Aid

The cost of a college education is of vital concern to students, their parents, and the educational institutions they attend. This section identifies many sources of financial aid and information about university programs and policies that are designed to help students finance a college education at St. Thomas. Whenever possible, students will want to take advantage of opportunities such as federal and state grants, loans, and student employment programs. It is important that proper application for aid be made by the deadlines noted.

The University of St. Thomas participates in all Federal and State financial aid programs. These programs include scholarships and grants, loans and work-study. In addition, the university offers institutional merit-based scholarships and grants to those students who have excelled academically and/or made contributions to their school, community or church. Additionally, the university offers need-based grants.

Financial Aid Information on the Web
For the most current information regarding the application process, scholarships, grants, student employment, student loans and financial aid policies at the University of St. Thomas, visit the undergraduate financial aid website at www.stthomas.edu/financialaid/undergraduate.

Applications
To be considered for financial aid, a student must be admitted to the university as a degree-seeking student.

Students wishing to apply for need-based financial aid or federal student loans must complete the Free Application for Federal Student Aid (FAFSA). The FAFSA collects information about the student and his/her family, considers that data in light of the federal financial aid formula and determines financial need.

Students are strongly encouraged to complete the FAFSA online at www.fafsa.gov. A paper form may also be obtained on this website listed under “FAFSA Filing Options”.

Awards and Renewals
Need-based financial aid is awarded annually unless specified otherwise.

Students must reapply by filing the FAFSA each year. All financial aid is disbursed to the student’s account to pay tuition, fees or other charges for each semester. Awards will be adjusted if the student withdraws from the university before the end of the semester or year, or if the student is enrolled less than full-time (12 credits or more per semester). Students must be in compliance with the Satisfactory Academic Progress Policy to be eligible for financial assistance. Renewal of merit-based scholarships is subject to the terms of the individual award.

Satisfactory Academic Progress
In general, to remain in compliance with the Satisfactory Academic Progress Policy, a student must:
1. Successfully complete 75 percent of all attempted credits.
2. Maintain a cumulative GPA of 2.00 after his/her fourth term of attendance.

All students meeting the above conditions are eligible to receive financial aid for a maximum of 176 attempted credits. A detailed copy of the Satisfactory Academic Progress Policy is available from the Financial Aid Office.

Financial Aid Policy Regarding Withdrawal from the University
If a student withdraws from the University of St. Thomas during a semester, January or summer term, federal regulations require the Financial Aid Office to perform a calculation of “earned” vs. “unearned” federal aid. This federal policy assumes the student earns his or her aid based on how much time has elapsed in the term at the point of withdrawal. If a student receives federal financial aid, that aid may be reduced as a result of the withdrawal.

There are three steps that St. Thomas must complete to comply with the federal policy: 1) Determine the withdrawal date, 2) Determine the amount of earned federal aid, 3) Return unearned federal funds to the appropriate program(s). However, in order to ensure that the student is eligible to receive financial aid, St. Thomas must first verify with their student’s instructor(s) that they have attended or participated in academic activities related to the class(es) for the term. Students must withdraw officially in one of two ways: Murphy Online, or through the Registrar’s Office, which is open from 7:30 a.m. – 4:30 p.m. Monday through Friday. The withdrawal date is the date the student begins the withdrawal process. If the student fails to withdraw officially, the withdrawal date will become the midpoint of the term, unless the university can document a later date. In certain circumstances if an earlier date of last academic activity is determined, this date may be used in the calculation of “earned” federal aid. If the student withdraws after completing 60 percent of the term, they earn all federal financial aid for the term. The responsibility to repay unearned aid is shared by the institution (St. Thomas) and the student. The institution’s share is the lesser of the unearned aid or unearned institutional charges. The institution’s share must be repaid to the federal aid programs in the following order before the student’s share is considered:

1. Federal Direct Unsubsidized Stafford Loan
2. Federal Direct Subsidized Stafford Loan
3. Federal Perkins Loan
4. Federal Direct PLUS/Grad PLUS Loan
5. Federal Pell Grant
6. Teacher Education Assistance for College and Higher Education (TEACH) Grant
7. Federal Supplemental Educational Opportunity Grant (FSEOG)
8. Other Title IV Aid

If the student is required to repay a portion of their loan through the student’s share calculation, they will not be expected to return those funds immediately, but rather when repayment begins according to the terms and conditions of the promissory note. If the student’s share includes grant funds, federal rules allow the grant to be reduced by 50 percent. In such cases, St. Thomas repays the grant programs on the student’s behalf and the student is then responsible for repaying St. Thomas. If this causes undue hardships, a satisfactory payment arrangement can be made with St. Thomas.
Institutional Charges and State Aid

Refund Policy

The Return of Title IV Aid calculation, as cited above, only considers federal funds – not institutional, state or outside funding sources that may be included in the student’s financial aid package. St. Thomas offers tuition refunds if a student withdraws from the university according to the following schedule for fall and spring semesters:

- The first 14 calendar days of the semester: 100%
- On the 15th through 21st calendar days: 80%
- On the 22nd through 28th calendar days: 60%
- On the 29th through 35th calendar days: 40%
- On the 36th through 42nd calendar days: 20%
- After the 42nd calendar day: 0%

If a student withdraws during a period of time that allows for a tuition refund, a portion or all of the student’s institutional, state and/or outside funding may need to be reduced or cancelled. If a student receives a 100 percent tuition refund on all courses for a particular term, all institutional, state and outside funding must be returned to the appropriate aid program(s). If the student’s tuition refund was not used to fully repay the Return of Title IV Aid, a proportional share of the remaining tuition refund must be returned to the appropriate aid program(s).

Grades

At the end of each semester or term, each student who is registered for a course receives either a grade or a mark in that course. In each case, the grade or mark is one of the following letters: A, B, C, D, F, I, R, S or W. At the discretion of the instructor, the grade A may be followed by a minus, as A-, and the grades B, C, D may be followed either by a plus, +, or a minus, -.

Regular Grades

The grades A, B, C, D, either alone or followed by a plus or minus, and the grade F are called regular grades. With each of these grades there is an associated grade point value. These values are listed below:

- A: 4.0
- A-: 3.7
- B+: 3.3
- B: 3.0
- B-: 2.7
- C+: 3.0
- C: 2.0
- C-: 1.7
- D+: 2.3
- D: 1.0
- D-: 1.3
- F: 0.0

Regular grades have the following characterization:

- A: Excellent work
- B: Very good work
- C: Satisfactory work
- D: Poor but passing work
- F: Failing work

The use of plus and minus indicates performance levels between those suggested by these characteristics.

S-D-R Grading

To encourage a wider choice of courses by lessening the student’s concern for the grade point average (GPA), selected courses may be taken using the S-D-R grading option, where “S” represents a satisfactory grade (the student would have received a letter grade of A, B, or C); “D” is the same as the letter grade of D; “R” represents unsatisfactory (failing) performance. The following rules apply to courses taken on this basis:

1. The S-D-R grading option is not available for courses taken to fulfill a requirement in the core curriculum.
2. No more than one-eighth of the credits taken through the undergraduate program may be taken on the S-D-R grading option.
3. A student must complete a form at the Office of the University Registrar for any course to be taken on this basis. The published deadline date is in the academic calendar for each term.
4. If the course is part of the major or minor program (including allied requirements), the signature of the department chair is required.
5. If a student receives a letter grade of C- or above, the mark of S (satisfactory) and credit will be given. If the grade of D, D+, or D- is received, the student has the option of: (1) accepting a mark of R with no effect on the GPA and no credit earned, or (2) earning the credit with the grade of D, D+, or D- becoming the grade of record and used in computing the GPA.
**Grades**

**S-R Grades**

1. All Experiential Learning courses are marked with S for satisfactory work and R for unsatisfactory work.

2. For Individual Study or Research courses, the mark of S is given for satisfactory work and the mark of R for unsatisfactory work. If a student wishes to be graded according to the regular system (A, B, C, D, F), this choice must be approved by the appropriate faculty supervisor and the department chair. In addition, this choice must be indicated on the form used to outline the individual study project.

3. Several other courses in various departments are routinely marked with S for satisfactory and R for unsatisfactory work. An example of these courses is ENGR 150. The grading system for this course is indicated as part of the regular course description.

4. Courses which are routinely graded on the S-R system are not counted among the one-eighth of a student's courses for which the S-D-R grading system may be selected.

**Incomplete and Not Recorded Grades**

The mark of I is used if the student has not completed the work of the course, has good reason for delay, and has made arrangements with the instructor before the date grades for the course are due to be submitted. Ordinarily, good reason will involve matters not wholly within the control of the student, such as illness. The mark may not be used to allow a student to improve a grade by additional work over and above that ordinarily expected for the course or by repetition of work already submitted to the instructor. The mark of I should not be used without prior arrangement between instructor and student.

The student must complete the designated work and submit it to the instructor by May 1 for an I received in fall semester or January term; by December 1 for an I received in spring semester or a summer session (unless an earlier deadline has been required by the instructor).

In the absence of a final grade report on or before the deadline, the mark of I will be changed by the University Registrar to a grade of F or R. **The deadline may not be extended.** The instructor may change a resulting F or R by means of university grade change policies and procedures.

In an instance where a grade has not been assigned at the end of the term, a designation of Not Recorded (NR) will be assigned to the student's academic record. The NR must be changed to a grade by May 1 for the fall semester or January term; by December 1 for the spring semester or summer session. In the absence of a final grade on or before the deadline, the mark of NR will be changed to a grade of F or R. This deadline may not be extended. The instructor may change a resulting F or R by means of university grade change policies and procedures.

**Grade Reports**

Final grades can be accessed by the student through the UST student Web system. Final grade reports are printed only upon request, using the student Web system.

**Grade Point Total and Grade Point Average**

Grade points are assigned as indicated above. Note that marks of W, I, R, and S have no grade point value.

The grade point total is the sum of grade points (multiply each grade point value by the number of credits for the course) for all courses with grade point value.

The grade point average (GPA) is determined by dividing the grade point total by the number of credits with grade point value.

For example, using a standard four-credit course as a basis, if a student received two A's (32 points), one B- (10.8 points), and one C+ (9.2 points) divided by 16 (the number of credits), the GPA would be 3.25. If the student received a grade of F (0 points) in a course, the grade point total would still be divided by 16 credits, but the GPA obviously would be lower.

**Non-traditional Grading**

St. Thomas will post non-traditional grades that meet our minimum transfer grade policy (these include AB or a grade value of 3.5 and BC or a grade value of 2.5). All numeric grades will be converted to alpha grades based on the value of the grade as long as the numeric grade value is 1.7 or higher.
Graduation

Date of Graduation

Degrees are awarded at the end of Fall, January, Spring and Summer terms. The date of graduation will be the last day of the last term of registration for the course or courses needed to complete the student’s degree requirements. To be considered completed, all courses must have final grades. An Incomplete (I) or a Not Reported (NR) grade is not considered a final grade and must be changed before the degree will be awarded.

Commencement Ceremony

A single commencement ceremony is held in May for all students earning an undergraduate degree each year. Students who complete degree requirements at the end of Summer, Fall, January, and Spring terms participate in the May ceremony following the term in which requirements are completed, except that students are permitted to participate in the May ceremony if they are within 8 credits of completing all degree requirements. Students who are within 8 or fewer credits of completing degree requirements who wish to participate in the May commencement may petition the Registrar’s office for approval to do so.

Diploma

One diploma is awarded for each degree earned. Diplomas are distributed to graduates after the university has verified that all requirements for graduation have been settled. This may be several weeks after commencement. Diplomas will be sent to the graduate’s permanent address by mail.

The size of all diplomas is 8.5 x 11 inches. Information on the diploma includes the name of the university, the university seal, the graduate’s name, the degree represented by the diploma, and the date of graduation.

Transcripts

A transcript of a student’s academic record will be issued only upon receipt of a written request from the student. A form is available on the Website at http://www.stthomas.edu/media/registrar/s/ pdf/transcript.pdf. Forward a completed and signed copy along with the transcript fee to the address on the form.

Transcripts will not be issued to students who have a hold placed on their records.

Catalog of Record

The catalog of record may be a catalog that appears only online if changes occur between printed versions of the catalog. The catalog in effect at the time of matriculation is usually considered the catalog of record and determines the student’s graduation requirements. However, a student may wish to choose a later catalog issued before being graduated to take advantage of a revision of a major, for example.

Choosing the new catalog means accepting all changes in that catalog from the former one. If there is a change in core curriculum requirements, for example, the student will be responsible for those changes or will need to petition for a waiver. Generally speaking, the student may choose any catalog in force during the time the student is enrolled for a degree.

Students should contact the office of Academic Coun-
Majors, Education Co-Majors, & Minors

Majors

The following is a list of major concentrations or programs of study. Details are provided in the Curricula section in this catalog. Curricula involving other institutions in the ACTC are indicated by [ACTC]. Unless otherwise noted, the degree is a bachelor of arts (B.A.).

St. Thomas students may choose a major area of concentration not offered at St. Thomas at any of the other four institutions in the Associated Colleges of the Twin Cities (ACTC), which are Augsburg College, Hamline University, Macalester College and the St. Catherine University. The student must be accepted into the major by the appropriate department chair at the school where the major is offered and the proposed program of study must be submitted to the Committee on Studies at St. Thomas for its approval.

An individualized major also may be proposed to the Committee on Studies for acceptance. Guidelines for such a proposal are available from the Associate Vice President for Undergraduate Studies and Academic Advisement.

Education Co-Majors

The following sets of majors (with specialty) require a second major. They cannot be “stand-alone” majors.

Elementary Education - Science & Math for Elementary Education
Middle/Secondary Education and Chemistry (9-12)
Middle/Secondary Education and Communication Arts and Literature (5-12)
Middle/Secondary Education and Earth and Space Science (9-12)
Middle/Secondary Education and Life Science (9-12)
Middle/Secondary Education and Physics (9-12)
Majors, Education Co-Majors, & Minors

Middle/Secondary Education and Social Studies (5-12) - (Economics, Geography, History, Political Science, Psychology, or Sociology)
Music Education - Instrumental Music Education (K-12) (B.M.)
Music Education - Vocal Music Education (K-12) (B.M.)

The following sets of majors constitute a double major when taken together. The education component cannot be a “stand-alone” major.
Middle/Secondary Education and Mathematics (5-12)
Middle/Secondary Education and Health Education - Teaching (5-12)
K-12 Teaching Physical Education and Physical Education-Teaching (K-12)
K-12 World Languages & Cultures - French (K-12)
K-12 World Languages & Cultures - German (K-12)
K-12 World Languages & Cultures - Spanish (K-12)

Minors
Students may choose to complete a minor in addition to a major. A student may declare more than one minor.

A student may propose an individualized minor to meet a specific need or interest, subject to the approval of the Committee on Studies. Guidelines for such a proposal are available from the Associate Vice President for Undergraduate Studies and Academic Advisement.

The following is a list of minor concentrations or programs of study. Details are provided in the Curricula section in this catalog. Curricula involving other institutions in the ACTC are indicated by [ACTC].

Major Requirements
Regular Majors
After a student has completed 48 semester credits, a student must apply to be admitted to a major in his or her chosen field. Admission to a major field is necessary to allow the student the opportunity to continue registering with his/her class.

A student must complete one of the regular major concentrations described in the section on Curricula with a grade point average of 2.00 or better in courses taken in the department (Opus College of Business for business majors) of the major required for the major. (See section on Academic Programs for a list of these majors.)

A major in a Bachelor of Arts degree program consists of 30 to 44 credits in the area of concentration plus allied courses as specified by the department in which the major is offered. No more than 48 semester credits in the department of the major field or 56 credits in the Opus College of Business for majors in the area of business may be counted toward the 132 credits required for a degree.

A major in a Bachelor of Science degree program (or an Engineering program) may require more than 48 semester credits in the field of the major.

Students in all majors except the 2008 business major areas must earn a minimum of 84 credits outside the major field. Students following the 2008 business major requirements must earn a minimum of 76 credits outside the Opus College of Business.

Students with transfer courses in the major must also achieve a 2.00 grade point average for the courses taken in the department (Opus College of Business for business majors) of the major at St. Thomas. (See section on Requirements for a Degree.)

If major field requirements or courses specified in the catalog are no longer available, the chair of the appropriate department will designate acceptable substitutes for the major
Majors, Education Co-Majors, & Minors

Procedures for applying to a major are available from the Office of the University Registrar.

Majors at other ACTC Institutions
A student wishing to complete a major offered at one of the ACTC schools (and not offered at St. Thomas), must file a petition with the Committee on Studies for approval. In the petition, the student should indicate his/her acceptance for the major by the chair of the department at the other institution, the list of courses that will need to be completed at that institution, and the name of a St. Thomas faculty member in a closely-related field who will act as an adviser. Core curriculum requirements for St. Thomas and any prerequisites for courses in the major program offered at St. Thomas will be taken on the home campus.

Individualized Majors
A student may pursue a major other than one of the regular majors described in the section on Curricula.

An individualized major requires the selection of a faculty adviser, a proposal explaining the rationale for the selection of courses (which should include lower- and upper-division courses), a number of credits in accordance with the guidelines for a regular major, and approval by the Committee on Studies.

Minor Requirements

Regular Minors
A student is not required to complete a minor. A minor consists of 20 to 26 credits in the area of concentration including all prerequisites and allied courses as determined by the department or program offering the minor.

A minimum grade point average of 2.00 is required for the courses in the minor. Transfer students must also attain a minimum grade point average of 2.00 for minor courses taken at St. Thomas.

The department has the right to specify how many courses in the minor field (and at what level) must be taken at St. Thomas.

A student may earn more than one minor.

Minors at other ACTC Institutions
A student wishing to complete a minor offered at one of the ACTC schools (and not offered at St. Thomas), must file a petition with the Committee on Studies for approval. In the petition, the student should indicate his/her acceptance for the minor by the chair of the department at the other institution, and the list of courses that need to be completed.

Individualized Minors
A faculty adviser should be chosen for the minor. Individualized minors must be approved by the Committee on Studies.

Addition of major, minor, or degree after graduation
A student who has been graduated from the University of St. Thomas may add an additional major by fulfilling all the remaining requirements of the major. The 32-credit senior residency requirement need not be met a second time. No more than one additional transfer course may be used to meet major and allied requirements.

A student who has been graduated from the University of St. Thomas may add a minor by fulfilling all the remaining requirements of the minor. The 32-credit senior residency requirement need not be met a second time. No more than one additional transfer course may be used to meet minor and allied requirements.

A student who has been graduated from the University of St. Thomas may add a second degree (such as a B.S. added to the original B.A.) by fulfilling all the remaining requirements of the degree. The 32-credit senior residency requirement need not be met a second time. The second degree may not be in the same discipline as the original degree.

Senior Residency Requirement
Thirty-two of the final 36 credits that a student takes for the degree must be taken through the University of St. Thomas. Credits earned at ACTC colleges and through affiliated programs are considered exchange credits and count toward the residency requirement.
Progress to Degree

Student Classification
A degree student is one who takes courses for credit toward a degree at the university.

A student who takes courses for credit but without expectation of a degree is called a non-degree student.

An auditor is a student who takes courses without expectation of credit.

A degree student who takes 12 or more credits during a semester is considered a full-time student. A degree student who takes fewer than 12 credits for credit is considered a part-time student.

A degree-seeking student is ranked by credits successfully completed:
- fewer than 27 credits = freshman
- between 28 and 59 credits = sophomore
- between 60 and 91 credits = junior
- 92 credits or more = senior

Academic Standing
The student’s unofficial transcript indicates the student’s academic standing as determined by the student’s grades for each term.

Good Standing
A student with a cumulative grade point average of at least 2.00 is making satisfactory progress toward meeting the minimum grade point average requirement for graduation and is therefore in good academic standing.

Academic Probation
A student who has attempted twelve credits or more at the University of St. Thomas and has not achieved a University of St. Thomas cumulative grade point average of 2.00 or better is put on academic probation.

Each student who is placed on probation will receive a letter from the Associate Vice President for Undergraduate Studies and Advisement informing the student of her or his probationary status and identifying both the implications of probation and the conditions under which probation will be lifted.

Students placed on academic probation for the first time are required to meet with an academic counselor to discuss strategies for improving their academic performance.

Academic Suspension
A student is suspended from the university for one semester (not a January term or summer session) if he or she is on academic probation and one or both of the following occurs:

1. The student has not achieved a University of St. Thomas semester grade point average of at least 1.75 for courses taken during a fall or spring probationary semester.
2. The student has twice not achieved a University of St. Thomas semester grade point average of at least 2.00 for courses taken during a fall or spring probationary semester following Academic Suspension.

Each student suspended will receive a letter from the Associate Vice President for Undergraduate Studies and Advisement identifying the nature of the suspension and the events leading up to it.

Students who are suspended may petition the Committee on Studies to have the suspension lifted after consulting with the Director of Academic Counseling and Support. A suspended student may not register for summer school, or any other term. A student may re-enroll following a semester of suspension, but must make an appointment with an academic counselor to do so. In addition, students returning from suspension are required to work with an academic counselor during their first semester after suspension.

Academic Dismissal
A student is dismissed from the undergraduate program if one or both of the following occurs:

1. The student has not achieved a University of St. Thomas semester grade point average of at least 1.75 for courses taken during a fall or spring probationary semester following Academic Suspension.
2. The student has twice not achieved a University of St. Thomas semester grade point average of at least 2.00 for courses taken during a fall or spring probationary semester following Academic Suspension.

Each student dismissed will receive a letter from the Associate Vice President for Undergraduate Studies and Advisement identifying the nature of the dismissal and the events leading up to it.

Students who are dismissed may petition the Committee on Studies to have the dismissal lifted after consulting with the Director of Academic Counseling and Support. A dismissed student may not register for summer school, or any other term. A dismissed student who hopes to return to St. Thomas must petition the Committee on Studies for readmission.

Conditions of Readmission after Suspension or Academic Dismissal
Academic suspension applies only to fall and spring semesters. After the semester of suspension, the student is free to register for the following term, upon consultation with an academic counselor in the Office of Academic Counseling and Support. This semester becomes a probationary semester and is subject to the conditions listed above under Academic Dismissal.

If a student is readmitted to the university by the Committee on Studies after Academic Dismissal, the conditions of readmission will be stated by the Committee.
Registration

A student must register for a course before attending, and will not receive credit unless registered.

Students must attend the first day of class in order to secure their place in the course. The instructor has the option to drop a student from the class roster if the student was not in attendance on the first day of the session. Students must not assume they have been dropped if they did not attend the first day of class. To officially withdraw from the class, the student must file a Change in Registration form with the Office of the University Registrar or drop the course using the Murphy Online Web registration system.

Each student is required to meet with his/her adviser to begin the registration process each semester. This also includes any courses taken at the four other cooperating colleges in the ACTC: Augsburg, Hamline, Macalester, and St. Catherine. Registration for these exchange courses must be completed through the Office of the University Registrar.

There are two concurrent registration periods—summer sessions and fall semester in April; January term and spring semester in November. Each student is scheduled to register after a specific date and time, based on his/her number of earned credit hours and an alphabetical rotation of surnames. Failure to meet certain core requirement competencies will result in loss of registration priority.

Audit

A student may choose to audit a course rather than take it for credit. If attendance is satisfactory, the course number, title and the audit designation will appear on the transcript. If attendance is not satisfactory, the course will not appear on the transcript. In no case may a student receive credit for a course that was audited unless the course is retaken for credit. An instructor or Department chair approval is required to Audit any course.

Students may not switch from credit status to audit status after the last day to withdraw from a class without a grade of F. Students may not switch from audit status to credit status after the last day to register or add a class.

The tuition charged for an audited courses is equivalent to one credit of tuition.

Changes in Registration

Adding Courses

Students can add courses to their schedules using the Murphy Online Web registration system until the published deadline to “add a class without instructor permission” (usually the fifth class day). After the published deadline, additional classes are added by submitting a Change in Registration (Add/Drop) form, which must be signed by the instructor, to the Office of the University Registrar. This form is available at the Office of the University Registrar or online at http://www.stthomases.edu/registrar/student/forms/adddropform

Dropping Courses (Withdrawal from a Course)

Students must use the Murphy Online registration system or the Change in Registration form to withdraw from a course. The official date of withdrawal from a course is determined by the date the action is taken using the Murphy Online system or the date the change in registration form is received by the Registrar’s Office during regular office hours. Registration holds placed on student Murphy Online accounts during the fall and spring early registration periods will prevent students from using Murphy Online to withdraw from courses during these periods and students must use the paper Change in Registration form during the fall and spring early registration periods unless their advisor hold has been lifted.

Conditions Determining Tuition Refunds

Students are responsible for all tuition and fees incurred by registration in a course. Failing to attend or ceasing to attend a course does not constitute a withdrawal from a course. Only the official date of withdrawal by using the Murphy Online registration system or the Registrar’s reception of a Change in Registration form will determine whether a full refund, a partial refund, or no refund will be available based on the date of withdrawal.

Full refund of tuition and fees is made for courses dropped up to the last day to drop a course without notation on record indicated in the academic calendar for each term. For fall and spring semesters, this is the 10th weekday of the semester for withdrawals made using the Change in Registration form, counting the first day of the semester as day one, or the 14th calendar day of the semester, counting all calendar days including weekend days from the first day of the semester as day one, for withdrawals made using the Murphy Online registration system. Please consult the university’s academic calendar for the last day to drop a course without notation on record for January and Summer terms.

Courses dropped between the last day to drop a course without notation on record and the last day to withdraw from a course without a grade of F or R (listed in the academic calendar) will receive a notation of W. A grade of W is an official grade and is posted on the permanent record. Since there is no credit for a W, and the notation does not affect the GPA.

Tuition refunds (if any) for dropped courses are determined by the standard refund calendar available from the University Business Office.

Students should consult their financial aid advisor to determine the consequences of dropping a course on their financial aid award. In some cases, the actual refund, if any, will depend upon such consequences as determined by the financial aid office.

Students should consult the Business Office for the refund schedule for January and Summer terms.

Courses

A “full” course is equivalent to four semester credits. Each course is assigned a subject area code consisting of four letters, which designates the department or discipline, followed by a three-digit number. For example, ENGL 111 is the English course numbered 111.

Courses with numbers having either 1 or 2 as the first digit are lower division courses, and those having 3 or 4 as the first digit are upper division courses.

Lower division courses are designed to give students a broad general liberal arts education, preparing them for the
more specialized education offered at the upper division level. When students become juniors, they generally pursue upper division courses. Upper division courses are designed to acquaint students with the content and methodology of a particular field. The number of class meetings for a course varies with the nature of the course. The annual Class Schedule indicates the days and times each class meets.

Course Load
The normal course load is 16 credits. During the first semester at the university, a freshman is limited to 17 credits. Students may take no more than 21 credits without permission from the Associate Vice President for Undergraduate Studies and Academic Advisement (AQU 106).

For exchange courses in the fall and spring semesters, students register at St. Thomas. Grades for these courses are included in the computation of the St. Thomas GPA. Courses taken by undergraduate day, degree-seeking St. Thomas students at Augsburg College, Hamline University, Macalester College and St. Catherine University through ACTC cross-registration are called exchange courses. These courses may be substituted for courses at the University of St. Thomas, subject to the following conditions:

1. The course is not one specified by a specific course number in the list of core curriculum requirements; and
2. The student has the written permission of the department chair of the major or minor if the course is in the major or minor concentration and taken to satisfy a particular requirement for that major or minor; and
3. The student consults the University Registrar before registering for more than one course at Augsburg, Hamline, Macalester or St. Catherine University during one semester. This one course limit does not apply to students pursuing a major or minor at these schools.

Additional restrictions may apply. See the ACTC Website for additional restrictions: https://sites.google.com/a/actc-mn.org/actc

For exchange courses in the fall and spring semesters, St. Thomas students register at St. Thomas. Grades for these courses are automatically recorded on the St. Thomas transcript. For courses during the summer sessions, students register at the college offering the courses and have a transcript of the completed work sent to St. Thomas. These summer courses are considered transfer courses. Exchange courses may be used to fulfill the senior residency requirement. Grades for exchange courses are included in the computation of the St. Thomas GPA.
Registration and Withdrawal

The even number is normally used by the department. The odd number is used if the course has been approved to fulfill a core curriculum requirement.

Experiential Learning

The university will grant credit for experience to a registered student if the student’s proposal for the work (to include the method of evaluation of the learning that occurs) receives prior approval of the department involved, and the student successfully completes the experience agreed upon. The most common type of experiential learning is an internship.

Credit granted in this way is graded on an S/R basis. A maximum of eight credits of Experiential Learning may be counted toward the 132 credits required for graduation. The regular tuition for the number of credits is charged.

Prior to the occurrence of the experience for which credit is being sought, a student makes a formal request for four credits or two credits. This request includes:
• a detailed description of the experience for which credit is sought and a statement of its academic significance and validity in the student’s program;
• an indication of any supplementary academic requirements to be fulfilled: papers, reports, etc.;
• the name of the person at the University of St. Thomas who will approve the proposal, maintain periodic contact with the on-campus supervisor and student and corroborate the evaluation of the experience;
• an outline of the evaluation procedures to be used.

Students requesting credit for Experiential Learning usually will have attained junior or senior status. The request must be approved by the chair of the department in which credit will be awarded.

The minimum number of hours of on-site work (usually 100 hours for two credits; 200 hours for four credits), meetings with St. Thomas faculty, meetings with the on-site supervisor, and evaluation of the project will be determined by the department.

Forms for requesting credit for Experiential Learning are available from the chair of the department involved. These must be completed, obtaining signatures from the faculty member, the chair of the department, and the dean. The form is then presented to the registrar at the time of registration.

When, in the view of the department, supervision and evaluation of the experience are provided chiefly by a person at the University of St. Thomas, the student should seek credit by means of Individual Study.

475, 476 Experiential Learning (2 credits)
The even number is normally used by the department. The odd number is used if the course has been approved to fulfill a core curriculum requirement.

477, 478 Experiential Learning (4 credits)
The even number is normally used by the department. The odd number is used if the course has been approved to fulfill a core curriculum requirement.

Seminars

Seminars are offered in a number of departments. With the exception of Honors Seminars in the Aquinas Scholars program, regular tuition is charged.

483, 484 Seminar (2 credits)
The even number is normally used by the department. The odd number is used if the course has been approved to fulfill a core curriculum requirement.

485, 486 Seminar (4 credits)
The even number is normally used by the department. The odd number is used if the course has been approved to fulfill a core curriculum requirement.

Research

Some departments offer the opportunity to do research in the discipline. Research involving human subjects may not begin prior to review and approval by the Institutional Review Board (IRB) for the Protection of Human Research Subjects. Student researchers are advised to consult with a faculty adviser and secure the needed forms and other information from the IRB Web site (http://www.sthomas.edu/irb) early in the research planning process. Regular tuition is charged.

269 Research (2 or 4 credits)
This research course can be either a 2 or 4 credit course depending on the department and the topic.

389 Research (2 or 4 credits)
This research course can be either a 2 or 4 credit course depending on the department and the topic.

491 Research (2 or 4 credits)
This research course can be either a 2 or 4 credit course depending on the department and the topic.

Individual Study

Individual Study refers to a type of learning contract in which a registered student and/or professor have the responsibility for defining, organizing and evaluating a special project of limited scope (limited in content and in the time designated for its completion). Individual Study provides an opportunity for students (usually at junior or senior status) to receive one-to-one instruction and guidance, while pursuing a subject of special interest. It also allows instructors to share their continuing personal study and to foster the abilities manifested by their students. This work is completed independently under the instructor’s personal direction.

Students interested in pursuing Individual Study should discuss their plans with the appropriate faculty member. When the project has been determined, the faculty member will provide the Individual Study contract forms. These must be completed prior
to registration. The Individual Study contract must be approved by the supervising faculty member, the chair of the department, and the dean of the College.

The grading for Individual Study may be standard (A,B,C, etc.) or Pass/Fail (S/R). This selection and a statement of explanation justifying the choice must be indicated on the Individual Study contract when it is presented to the registrar. (If the course is in the major field, grading must be on the standard system.)

Individual Study may be pursued for either two or four credits. Determination of the amount of credit awarded is at the discretion of the department, but should reflect an academic rigor commensurate with a regularly-offered course for the same amount of credit. Regular tuition is charged.

243 Individual Study (2 or 4 credits)
This individual study can be either a 2 or 4 credit course depending on the department and the topic.

393 Individual Study (2 or 4 credits)
This individual study can be either a 2 or 4 credit course depending on the department and the topic.

495 Individual Study (2 or 4 credits)
This individual study can be either a 2 or 4 credit course depending on the department and the topic.

New Student Scheduling
Registration for new freshmen and entering transfer students is coordinated by the Office of Academic Counseling and Advising.

Freshmen who begin their studies at the university in the fall receive a pre-registration packet containing course information and a description of the registration process which occurs during Summer Orientation.

New transfer students meet individually with an academic counselor to interpret their transfer credit evaluation and select appropriate courses related to their interests.

At this meeting, transfer students should identify any transfer courses they think should count as fulfilling particular core requirements. The academic counselor will assist the transfer student with a petition form used to request consideration of one or more transfer courses for fulfillment of core requirements. The petition form should be submitted to the Associate Vice President for Undergraduate Studies and Academic Advisement (AQU 106) during the first semester of enrollment at UST.

Upper division transfer students are encouraged to declare a specific major field. Separate summer orientation programs are held for new freshmen and transfer students.

All new students are assigned faculty advisers.

Retaking a Course
A student may retake a course if her or his grade or mark is F, R, D-, D or D+. Only the higher grade will be used to compute the GPA. Credit will not be given more than once for the same course. Both notations, however, will remain on the transcript.

A student may retake a University of St. Thomas course only at St. Thomas.

Withdrawal and Refund Policies
Dropping Courses (Withdrawal from a Course)
Students must use the Murphy Online registration system or the Change in Registration form to withdraw from a course. The official date of withdrawal from a course is determined by the date the action is taken using the Murphy Online system or the date the change in registration form is received by the Registrar’s Office during regular office hours. Registration holds placed on student Murphy Online accounts during the fall and spring early registration periods will prevent students from using Murphy Online to withdraw from courses during these periods and students must use the paper Change in Registration form during the fall and spring early registration periods unless their advisor holds has been lifted.

Conditions Determining Tuition Refunds
Students are responsible for all tuition and fees incurred by registration in a course. Failing to attend or ceasing to attend a course does not constitute a withdrawal from a course. Only the official date of withdrawal determined by using the Murphy Online registration system or the Registrar’s reception of a Change in Registration form will determine whether a full refund, a partial refund, or no refund will be available based on the date of withdrawal.

Full refund of tuition and fees is made for courses dropped up to the last day to drop a course without notation on record indicated in the academic calendar for each term. For fall and spring semesters, this is the 10th weekday of the semester for withdrawals made using the Change in Registration form, counting the first day of the semester as day one, or the 14th calendar day of the semester, counting all calendar days including weekend days from the first day of the semester as day one, for withdrawals made using the Murphy Online registration system. Please consult the university’s academic calendar for the last day to drop a course without notation on record for January and Summer terms.

Courses dropped between the last day to drop a course without notation on record and the last day to withdraw from a course without a grade of F or R (listed in the academic calendar) will receive a notation of W. A grade of W is an official grade and is posted on the permanent record. Since there is no credit for a W, and the notation does not affect the GPA.

Tuition refunds (if any) for dropped courses are determined by the standard refund calendar available from the University Business Office:

<table>
<thead>
<tr>
<th>Date of Official Drop/Withdrawal</th>
<th>Tuition Refund</th>
<th>Fees Refund</th>
</tr>
</thead>
<tbody>
<tr>
<td>Through the 14th calendar day of the term</td>
<td>100%</td>
<td>100%</td>
</tr>
<tr>
<td>The 15th-21st calendar day of the term</td>
<td>80%</td>
<td>0%</td>
</tr>
<tr>
<td>The 22nd-28th calendar day of the term</td>
<td>60%</td>
<td>0%</td>
</tr>
</tbody>
</table>
Registration and Withdrawal

| The 29th-35th calendar day of the term | 40% | 0% |
| The 36th -42nd calendar day of the term | 20% | 0% |
| The 43rd calendar day of the term and beyond | 0% | 0% |

Students should consult their financial aid advisor to determine the consequences of dropping a course on their financial aid award. In some cases, the actual refund, if any, will depend upon such consequences as determined by the financial aid office.

Students should consult the Business Office for the refund schedule for January and Summer terms.

Withdrawal from the University
Students may withdraw from the university (that is, withdraw from all classes) at any time by contacting the Academic Counseling Office. Students who withdraw from all classes must return any items that belong to the University. Resident students must check out with the floor resident adviser. Tuition refunds, if any, are established by the tuition refund schedule posted in the section on withdrawing from courses, with the date on which the student begins the process of withdrawing from all classes with the Academic Counseling office used as the determining date.

Attendance
Students are expected to attend the first class meeting of a course for which they are registered.

Thereafter, regular attendance at classes is expected. Attendance regulations for specific courses are determined by the instructor for that course. While instructors have the authority to drop a student from a class if the student does not attend on the first day, students cannot assume that this will happen and are responsible for following the appropriate steps to withdraw from a course they do not attend. Non-attendance or minimal attendance of a class does not justify a tuition refund for the course if the instructor does not drop the student from a course and the student does not withdraw using Murphy online or the add/drop form.

If, for some emergency situation, attendance on the first day is not possible, the student should notify the instructor of the situation by e-mail or telephone. Students who are absent for a prolonged period of time due to illness should contact the Academic Counseling Office.

Requests for Withdrawing from All Classes under Special Circumstances
A special circumstances withdrawal request may be made in extraordinary cases in which serious illness or injury (physical health or mental health) or another significant personal situation prevents a student from continuing all of his or her classes, and incompletes or other arrangements with the instructors are not possible. Tuition refunds under special circumstances are considered only when a student must withdraw from all classes during a term and if granted are prorated on a basis determined by the effective date of withdrawal. All applications for withdrawing from all classes under special circumstances require thorough and credible documentation.

Tuition appeals for students who withdraw from all classes under special circumstances will generally be approved on a prorated basis for the following reasons as long as the appropriate supporting documentation on official letterhead is provided:

• Extended periods of physical illness of the student (including hospitalization) documented by a signed physician’s statement.
• Extended periods of physical or mental illness of the student’s immediate family member (including hospitalization) who is dependent upon the student for support (documented by physician’s statement or other medical support on official letterhead).
• Death of a student’s immediate family member. “Immediate family” is defined as parents, spouse, children, brother, or sister.
• Mandatory job transfers (documented by employer on official letterhead).
• Involuntary changes in employment schedule or military deployment (documented by employer or commanding officer on official letterhead).

Tuition appeals will not be approved in the following instances:

• Personal errors in judgment or irresponsibility involving transportation, availability of finances, academic ability, time management.
• Misinterpretation or lack of knowledge of UST policies and procedures as published in the University Catalog and other University publications.
• Dissatisfaction with course content or delivery of instruction. (Please note: complaints of this nature should be addressed to the chair of the appropriate academic department).
• Dissatisfaction with academic progress in course.
• Appeals of non-refundable fees.
• Non-attendance or minimal attendance of class.
• Inadequate investigation of course requirements prior to registration and attendance.
• Non-qualification, late application, or loss of eligibility for financial aid or scholarships.
• Non-receipt of mail due to obsolete address and/or e-mail address on file with UST.
• Student errors resulting in the delay of administrative processes relative to registration or the delivery of financial aid funds.
• Voluntary acceptance of employment or other activity impacting ability to attend class.

All special circumstances withdrawal requests are reviewed by the Associate VP for Undergraduate Studies and Academic Advisement and Director of Academic Counseling & Special Programs on a weekly basis. The tuition refund (if any) is based on an approved effective date. This date is determined by the referenced date in the submitted documentation and the student’s last date of attendance in his/her courses.

In addition, if the special circumstances withdrawal request is approved, a medical administrative hold may be placed on the student’s record, which will block the student from all future registration at UST until the hold is removed by the Director.
Special Curricula
The undergraduate program offers several programs that a student may pursue in addition to a major concentration. These include:
- Air Force, Army, and Navy ROTC
- Certificate In Lay Ministry
- Higher Education Consortium for Urban Affairs (HECUA)
- Pre-Engineering
- Pre-Law
- School Social Work licensure
- Social Work licensure
- Study Abroad Programs
- Washington Semester

Associated Colleges of the Twin Cities
The University of St. Thomas has joined with four other private colleges in the Twin Cities to form the Associated Colleges of the Twin Cities (ACTC), a legal entity designed to facilitate cooperative activities among the five benefiting institutions. Augsburg College in Minneapolis and Hamline University, Macalester College and St. Catherine University in St. Paul are the other institutions that make up this consortium with the University of St. Thomas. These colleges possess a long history of cooperative academic activity.

Presently, ACTC operates an intercampus bus system that transports students among the colleges to take courses at schools other than their own. St. Thomas has approximately 250 students who take advantage of exchange courses each semester. In some cases, faculty members from one institution will teach a course on another campus.

For more information on the ACTC visit: http://actc-mn.org
Higher Education Consortium for Urban Affairs (HECUA)
Muse (ENGL), adviser; Office of Study Abroad staff co-adviser

The Higher Education Consortium for Urban Affairs offers off-campus educational experiences focused on social justice issues. HECUA provides experiential learning opportunities that link academic study with hands-on work for social change. Students earn sixteen credits in the semester-long programs and four credits in January term programs. Open to all majors. See Web site: www.hecua.org.

International and Off-Campus Programs
Study Abroad Programs (SABD)
Spencer (International Education)

The University of St. Thomas encourages its students to integrate intercultural experiences into their degree plans. Study Abroad staff guide students of all majors through the process of choosing and applying for a program that will advance their degree and fit their personal desires and goals. Students may choose from more than 130 programs in over 40 countries around the world. Visit the Study Abroad web site for current program options, application deadlines, scholarships and health and safety information: www.sthomas.edu/studyabroad.

Semester and Year-Long Programs
St Thomas offers a wide variety of semester and year-long programs around the world, including programs sponsored by St. Thomas, cosponsored programs or direct enrollment in a university abroad.

All students must apply for program approval by October 1 for spring semester participation, and by March 15 for fall semester or year-long programs. The overseas study program must include study of the native language in non-English-speaking countries.

London Business Semester
Business majors and minors study abroad during this annual fall semester program in London. Students take regular St. Thomas business and liberal arts courses, as well as complete the Business 200 Community Service requirement. Priority deadline is the first Friday of December; final deadline, if spaces remain, is February 15th.

Catholic Studies in Rome
Students may apply for fall, spring or the academic year, and live at the St. Thomas Bernardi Residence. Catholic Studies majors and minors may study Catholic social thought, theology, and social justice, as well as introductory Italian language. Priority deadline is January 15th for all terms of the upcoming year.

Co-Sponsored Study Abroad Programs
St. Thomas has agreements with a wide variety of study abroad program providers, allowing students of all majors the opportunity to study on a wide range of programs throughout the world.

Visit the Office of Study Abroad for more information about co-sponsored programs. Summer, fall and academic year deadline for co-sponsored programs is March 15, and the spring deadline is October 1.

Short-term Off-Campus Programs
The University of St. Thomas offers a number of two- to six-week, faculty-directed programs during January, spring break or June/summer term. January Term programs are sponsored by the University of St. Thomas, program partners, or UMAIE, a seven-member consortium of schools in the Midwest.

January Term Programs
All courses for the following January are announced in February. Enrollment period extends from late March through early October. Topics and locations vary each year.

Spring-Embedded Programs
A limited number of spring courses have an off-campus component ‘embedded’ in the semester, usually traveling during spring break.

Summer Programs
Students may study abroad during the summer through a cosponsored program, or by participating in a faculty-directed course (similar to January Term).

Partnerships with Universities Abroad
St. Thomas partners with a number of universities throughout the world. Check with the Office of Study Abroad to see what exchange opportunities are available.

Participation Requirements for Study Abroad
Students may not apply for, maintain an approved application, nor participate in a study abroad or off-campus program while on academic or conduct probation. Semester and academic year programs require at least a 2.5 GPA, while short-term programs require a 2.0 GPA minimum.

Financial Aid for Study Abroad
Financial aid in the form of grants, loans, and scholarships applies to the cost of semester and year-long study abroad programs. Students should discuss their eligibility with a Study Abroad Advisor and their Financial Aid counselor in the Office of Student Financial Services.

SABD 300 Study Abroad (16 credits)
Students participating in the University of St. Thomas overseas study program register for this interdisciplinary listing for the first semester they are abroad. Permission from Office of Study Abroad staff required.

SABD 301 Study Abroad (16 credits)
A continuation of SABD 300. Permission from Office of Study Abroad staff required.
Parents-on-Campus Program
Parents of full-time students in the undergraduate day program are eligible to take up to two undergraduate courses (or eight credits) on a space-available basis in fall and spring semesters without tuition charge. The dependent daughter/son must be a full-time day student taking at least twelve credits.

Parents may audit courses or take them for credit. Parents may be non-degree or degree-seeking students. If the parent chooses to become a degree-seeking student, an application must be made through the Office of Undergraduate Admissions.

Fees will be charged for books, music lessons, laboratory charges, individual studies, and experiential learning. There is a fee charged for all business courses.

Not included in this program are: Graduate courses, courses at ACTC schools, courses taught in January term or summer sessions, and study abroad courses.

Registration for Parents-on-Campus (non-degree and degree-seeking) will begin five business days prior to the start of the term.

Additional information on this program can be obtained from the Office of the University Registrar.

Pre-Health Professions
The Pre-Health Professions program provides guidance to St. Thomas students preparing for admission to health professional schools. Services available include:

• Support in choosing courses, a major or a career
• Assistance with the application process for admission to health professional schools
• Availability of catalogs, literature and CDs (regarding the health professions)
• Special events
• Scheduled visits by recruitment or admissions coordinators from a variety of health professional schools

The program stresses personal interaction with the student. All pre-health profession students are required to major in an academic discipline in addition to completing the basic science courses required for admission to each professional school. Each student will be assigned a faculty adviser (initially one during their first year of studies and another once their major is declared).

Health Areas include:

• Chiropractic
• Dentistry
• Medicine (allopathic and osteopathic)
• Nursing (not available through ACTC as an undergraduate major)
• Occupational Therapy
• Optometry
• Pharmacy
• Physical Therapy
• Physician Assistant
• Podiatric Medicine
• Public Health
• Veterinary Medicine

Additional information is available at:

www.ssthomas.edu/healthprofessions

Washington Semester
Cross-College Program
Hoffman (POLS), adviser

The University of St. Thomas is affiliated with American University’s Washington Semester Program, Washington, D.C.

Students selected from across the nation to participate in the program have the option of studying in various subject areas that have included: American Politics, Economic Policy, Foreign Policy, Gender and Politics, Information Technology and Telecom, International Business and Trade, International Environment and Development, Journalism, Justice, Law Enforcement vs. Liberty, Peace and Conflict Resolution, Public Law, and Transforming Communities. Program areas are subject to change.

The Washington Semester involves seminars, research and internships drawing on governmental and private organization resources in the Washington area. Nominations to participate are made by the university, with final acceptance decided by American University.

Upon successful completion of four courses, 16 semester credits are earned and transferred to St. Thomas.

IDSC 310 Washington Semester (16 credits)
Student Services

Campus Life

Students will find that there are many cultural, social, and educational events to attend and many activities in which they may participate.

Students can further develop their leadership skills by being an active member in one of over 140 clubs and organizations on campus.

Undergraduate Student Government

The Undergraduate Student Government, representing the University of St. Thomas undergraduate student body, is dedicated to advocating student concerns by working with faculty, staff, the administration, community leaders, and fellow students to promote positive change while staying true to the Catholic identity of this institution.

STAR (St. Thomas Activities and Recreation Board) and USG operations are financed by an activity fee assessed each full- and part-time undergraduate student each semester.

The Undergraduate Student Government is comprised of 39 representatives who act as the voice of the students at the University of St. Thomas. Members of the USG serve their constituents by working with faculty, staff, administration, and other students to promote positive change and foster tradition in an effort to provide students with an exceptional college experience both inside and outside of the classroom. Membership in the Undergraduate Student Government consists of six executive officers, two neighborhood and two residential senators, one legislative affairs and one commuter senator, two student athlete representatives, one commuter representative, one elections and credentials chair, one transfer student senator, one Residence Hall Association representative, the class president and two representatives from each class, one International Student representative, one Hana student representative, one STAR representative, one St. John Vianney representative, one student organization’s representative, one Student Alumni Council representative, one student diversity relations representative, one student spirituality representative, one student sustainability representative, and advisers, including the Associate Vice President for Student Affairs and the director of Campus Life.

The USG functions in an advisory capacity to administrative decision making.

Participation in Faculty Committees

Students of the undergraduate program work cooperatively with the faculty and administration on seven committees: the Student Life Committee, the Grievance Committee, the Committee on Discipline, the Undergraduate Planning and Policy Committee, the College of Arts and Sciences Curriculum Committee, the Undergraduate Committee on Studies, and the Budget Advisory Committee.

The function and authority of these committees may be found in the Student Policy Book.

Student Organizations and Clubs

There are approximately 140 clubs and organizations at the University of St. Thomas. Clubs and organizations are available in a range of interests, including academics, sports, honors and service. Choosing to be involved is a great way to develop and build relationships with your peers and the university community. Most importantly, getting involved at St. Thomas is an excellent way to enhance social, interpersonal, problem solving, leadership and other important skills.

The Undergraduate Student Government and the Department of Campus Life oversee all student organization recognition and funding processes. Some of these clubs are organized around the career objectives of their members or according to their major field of interest; others are organized according to common interests. Some professional, service, and social fraternities have chapters on campus.

A description of all the clubs, organizations, and other types of involvement on campus is available online. An Activities Fair is held at the beginning of each semester to allow interested students to learn more about the clubs.

Intercollegiate Athletics

The intercollegiate athletic program includes twenty-two varsity sports.

Men’s varsity sports are soccer, cross country, football, hockey, basketball, swimming, baseball, golf, tennis, and indoor and outdoor track and field.

Women’s varsity sports are volleyball, hockey, cross country, basketball, swimming, soccer, softball, tennis, golf, and indoor and outdoor track and field.

Intramural Activities

Numerous intramural activities are offered throughout the academic year for men and women. All leagues are open to students, faculty and staff.

During the fall semester activities include: touch football, whiffle ball, 4-on-4 basketball, racquetball, coed soccer, tennis, and volleyball.

During the spring semester the offerings include 5-on-5 and 3-on-3 basketball, floor hockey, sand volleyball, dodgeball, and kickball.

Aerobic classes are also offered and students, faculty and staff are encouraged to use the recreational facilities for leisure enjoyment.

Student Publications

Each student publication has a faculty adviser or advisers, or a managing editor, but the university delegates editorial freedom and responsibility to the editors, giving them latitude to carry out editorial responsibilities. The university is the official publisher of all student publications.

TommieMedia

TommieMedia is the student produced on-line news source at St. Thomas. Its primary purpose is to serve as a voice of the St. Thomas community.

Students produce stories using a variety of digital formats, including video, slideshows, audio and text, social media are emphasized to build an audience of community members throughout the university. TommieMedia is a member of the
Associated Press and its stories are available to all AP members. Applications are available on line at tommiemedia.com.

The Aquinas
The *Aquinas* is the university digital yearbook, and its student staff captures the school year’s events through words, pictures, videos, and graphic theme. The current yearbook, as well as the opportunity to view and search past yearbooks, is available online throughout the year. Applications for Aquinas student staff positions are made available through the Aquinas yearbook managing editor’s office in the Anderson Student Center suite 325.

Summit Avenue Review
Summit Avenue Review is the literary and visual arts magazine at St. Thomas. Designed and edited by students, the magazine publishes poetry, fiction, literary nonfiction, photography, and other visual art from the St. Thomas community. Work on the magazine begins in early fall, with a first submissions deadline in December and an April publication date. Inquiries should be sent to the Department of English. The magazine’s Web address is: www.stthomas.edu/summitavenuereview

Musical Organizations
Student music ensembles appear regularly in concerts on campus, perform in a variety of venues in the Twin Cities area, and tour nationally and internationally.

Instrumentalists and vocalists can choose from a diverse selection of large and small ensembles – bands, orchestra, choirs, jazz ensembles (both vocal and instrumental), staged musical theater productions, ensembles for pianos, guitars, woodwinds, brass, strings, percussion, and new and popular music. Membership in most ensembles is by audition. For details consult www.stthomas.edu/music.

Dean of Students Office
The Dean of Students Office assists and supports students in achieving their academic and personal goals. Staff are available to answer questions, to help resolve issues or concerns, and to refer students to the appropriate department, office or community resource.

The Dean of Students Office provides a variety of programs and services for undergraduate and graduate students. These include new student orientation, student advocacy services, students’ rights and responsibilities information, judicial/conduct services, ombuds and parent liaison services, emergency loans, off-campus student services and the publication of the online Student Policy Book.

Contact the Dean of Students Office at (651) 962-6050, Room 241 Anderson Student Center, or www.stthomas.edu/deanofstudents.

The Online Student Policy Book
The Student Policy Book is published by the Dean of Students Office. It contains information regarding the Student Code of Conduct and expectations, guidelines and policies that govern student life. All students are responsible for familiarizing themselves with the expectations outlined in the online Student Policy Book and will be held accountable for upholding the university’s policies. It can be found at www.stthomas.edu/policies.

Anderson Student Center
The Anderson Student Center is the campus gathering space that provides an exceptional environment and opportunities for students, faculty, staff, alumni and neighbors to participate in and contribute to the activities of the University community. Tommie Central, located on the first floor of the ASC, is your one stop shop for campus information, resources, tickets to campus and community events and equipment rental. Home to ‘85, a state of the art gaming area, Bowling and Dance, there is always something to do in the Anderson Student Center.

Campus Ministry
Campus Ministry believes that the depth of our faith powerfully affects the way we live and who we become. It is because of this that Campus Ministry invites students, faculty and staff of all faiths and religious traditions to explore their faith more fully through the many worship, service and personal growth opportunities offered here.

In addition to eight full-time professionals, Campus Ministry employs peer ministers and over twenty-eight student employees. The staff coordinates the religious life of the campus and offers a variety of programs.

Numerous worship opportunities are available, including daily, Sunday and special community Masses, the Sacrament of Reconciliation, Adoration, morning prayer, and ecumenical services. Students can participate in worship through the Liturgical Ministers Program, Schola Cantorum, and the Liturgical Choir.

Campus Ministry also provides opportunities to serve the broader community through the Volunteers in Action program and VISION J-term and spring break volunteer service trips. To inspire personal growth, Campus Ministry has a number of programs including prayer groups, retreats, pastoral counseling and referral, marriage preparation, crisis intervention, and special groups for support.

Campus Ministry also offers the Rite of Christian Initiation for Adults (RCIA) to those who are preparing for Baptism, Eucharist and Confirmation in the Catholic Church.

The Office of Campus Ministry is located in Suite 207 of the Anderson Student Center.

Counseling and Psychological Services
Counseling and Psychological Services is available to help students deal with a wide variety of concerns from the concerns of daily living to problems of a more serious nature. Personal Counseling provides individual counseling, groups, workshops, seminars and consulting services on a variety of topics. Walk-in hours are available every day and are listed in the Daily Bulletin. Complete confidentiality is maintained in accordance with legal requirements and the professional code of ethics. The Counseling and Psychological Services website has an extensive self-help section including anonymous screening for depression, anxiety, alcohol and eating disorders: www.stthomas.edu/counseling.
Counseling and Psychological Services is accredited by the International Association of Counseling Services.

Testing Services
Testing Services located in the Counseling and Psychological Services Office offers a full range of services including personality assessment and career testing.

Career Development Services
The Career Development Center provides expertise and information to students and alumni. This includes assistance with the tools and methods necessary for finding jobs and internships. The department provides individual assistance and convenient access to quality resources.

Individual counseling, seminars and a variety of resources are offered to assist in:
- Self-assessment and vocational testing
- Career choice
- Major field choice and change
- Researching specific careers and employers
- Seeking internships, full-time, part-time and summer employment
- On-campus interviewing
- Utilizing technology in career development

Career Coaching and Counseling
Confidential, individual appointments and workshop presentations are used to assist students with skill building and career planning. Students explore their interests, values and abilities to determine possible career options.

Web Services
Our services can be accessed on the Web from campus, work, home, or anywhere with an Internet connection. Our Website is an invaluable asset, acting as a technological enhancement to broaden the reach of our services. It features seminars, handouts and information produced by our office, as well as suggested links to career resources on the Web.

www.stthomas.edu/careerdevelopment

Off-Campus Student Services (OCSS)
OCSS provides hospitality, information, programs, resources, and services to all students with an emphasis on students living off-campus including commuters, non-traditional students, and students that live in the immediate neighborhood. Programs and services include: First-Year Commuter Advisors and Neighborhood Student Advisors, off-campus housing listings, renter education materials, e-mail updates, bus route information, and a refrigerator, computers and a printer for student use. OCSS is located on the second floor of the Anderson Student Center, room 253. Phone: 651-962-6138; Website:

www.stthomas.edu/offcampus

Student Diversity and Inclusion Services
The Student Diversity & Inclusion Services office exists to enhance the campus climate for diversity on campus through programs and initiatives aimed at undergraduate students. Our work is based on four pillars: education, leadership, advocacy, and community. Our primary objective is to ensure the retention, graduation, and satisfaction rates of students of color are equitable to their peers. We also aim to increase the capacity of all students to work and serve in the diverse world in which we live.

EDUCATION
- Reaching Excellence in Academics & Leadership (REAL) Programs
- Heritage month programs
- January-term book club
- Co-sponsored programs with academic and administrative departments

LEADERSHIP
- Linkages Mentor Program
- Fall and spring student leadership retreats
- Paid and unpaid student leadership opportunities
- Networking and diversity career resources
- Scholarships

ADVOCACY
- Bias-motivated incident reporting
- Staff members available to consult with any student regarding any concern
- FLAG team (identifies students of concern; intervenes as necessary)
- Assessment (we conduct a student of color experience survey every two years, and serve on the campus climate study committee)

COMMUNITY
- “The Gathering” held the first Friday of every semester
- Maintenance of a campus-wide calendar of diversity and inclusion events
- Support for student clubs/organizations who are organized around diversity and inclusion
- Ally Awards to honor those whose actions support an inclusive, civil, and welcoming campus community
- Annual service activities

Student Diversity and Inclusion Services, consistent with St. Thomas/Catholic tradition, is concerned with providing a comprehensive system of advocacy and support for U.S. students of color and immigrants. The goal is to improve retention and the quality of the University of St. Thomas experience. We strive to prepare all students to think and act responsibly when confronted with the myriad diverse and changing needs of their local community and the world at large.

Student Diversity and Inclusion Services initiatives are designed to:
- Provide advocacy and mediation services for all students.
- Increase retention of U.S. students of color
and immigrant students.

- Provide selected scholarships for undergraduate U.S. students of color and immigrant students (permanent resident, asylee and refugee).
- Identify and honor students, faculty and staff whose actions support the creation and maintenance of an inclusive, civil and welcoming campus community.
- Create partnerships with academic and administrative departments to serve students.
- Promote multicultural awareness through personal interaction, training opportunities, educational programs and dissemination of information. Monitor student perceptions of St. Thomas’ climate for diversity.
- Provide support to the multicultural student organizations and related ethnic peer associations.

**International Student Services**

International Student Services provides advising and programming to support international students as they pursue their educational, career, and personal goals. This includes promoting the full integration of international students into the university community and intercultural training for students, faculty and staff.

International Student Services provides the following services and programs:

- Orientation programs (2-4 days) for new students about academic, cultural, legal, and practical life at a U.S. university
- Immigration advising for all F-1 and J-1 nonimmigrant students and scholars
- Counseling and advising on academic, cultural, financial, health, practical and personal matters
- Undergraduate and graduate International Mentor Program: US and international students are hired and trained to serve as guides and helpers to new students
- International Student Electronic Newsletter
- A website with information on programs and services, immigration rules, activities and programs, and the newsletter: www.stthomas.edu/oiss
- Coordinate the International Education Week activities at St. Thomas each Fall Semester in collaboration with the International Matrix
- Close cooperation with the Globally-Minded Student Association, which promotes interaction and interchange of ideas through social and cultural activities
- Cultural and educational programming such as the CultureLink Tea, Global Tommies, and Friendship Family programs.
- Career and job-search workshops in cooperation with the UST Career Development Center

**Tommie Central**

Tommie Central is the information desk and hub of the Anderson Student Center (ASC). At Tommie Central, members of the university community can reserve bowling lanes, ASC lockers, recreational equipment for use in the ASC, and purchase tickets to many UST campus-sponsored events (including campus dances and concerts for students), as well as discounted tickets to many local Twin Cities cultural, theatrical and athletic events. A sampling of tickets includes local theater productions, museums, athletic events, movie theaters, and specialty entertainment.

Tommie Central also offers rental of a wide variety of outdoor camping, sporting and athletic equipment for a minimal fee.

**Housing**

The University of St. Thomas houses approximately 2,500 students in its residence halls and apartments.

Living on campus provides students with a welcoming, inclusive and fun environment. Through the student and professional staff members living in the residence halls, students are engaged in a variety of programming and are encouraged to get involved on campus.

The Department of Residence Life offers traditional residence halls and apartment style living on the St. Paul campus.

Living on campus provides the convenience of living close to classes and faculty along with extra amenities like wireless internet access, study areas, computer labs, and recreation space. Nestled in a residential neighborhood in the city, students find St. Thomas to be a safe campus. The Department of Residence Life works to enhance the safety of students on campus through ground level security screens, ID card access, sprinkler systems, and night access staff. UST Public Safety is available 24 hours a day and a professional residence life staff member is on call each night.

Upon admission to the undergraduate program, each student will have an opportunity to make a $200 housing deposit with the Office of Undergraduate Admissions. This deposit acts as a request or application to housing.

Priority for housing is based on the date the housing deposit is received.

Continuing students apply for housing for the coming academic year in the spring semester. The application process and deadlines are published in the Bulletin and on the residence life website during the spring semester.

On-campus dining offers the most convenient options. Resident students of Dowling, Grace, John Paul II, Murray, Brady, Ireland, and Certin Halls are required to purchase a meal plan.

All of the residence halls are described in detail on the residence life website including building amenities, room furnishings, floor plans, and 360 degree photos. Information on what to bring and what not to bring is provided on the website and included when housing assignments are mailed to new students.

Information and policies for residence life are found in the Student Residence Agreement and the Resident Student Handbook. Both are available on the residence life website.

Visit www.stthomas.edu/residentlife for additional and updated information about living on campus.
Dining Facilities

All food locations accept Flex or Express dollars and cash. Credit cards are being installed to all locations to assist guests with convenient purchases.

St. Paul campus

The Anderson Student Center offers several new and upscale dining facilities that will meet the needs of our guests.

T’s Restaurant, on the 1st floor, is a dining experience that includes morning Alakaf coffee, our home-baked pastries and breakfast make to order. Build your own sandwich with our natural meats and cheeses, now with a toasted option. We also offer broiled fresh hamburgers, grilled chicken, and a variety of melt sandwiches, fries plus a rotating menu of specialty hot sandwiches from the grill. Try the newest addition to our menu offerings, the Action Station, preparing and serving ethnic dishes to order by our chef. Grab and Go items, soup, beverages and snacks round out the offerings in this venue.

Summit Marketplace, also on the 1st floor, a convenience store concept with a focus on healthy food choices such as fresh fruit, salads made daily, and gourmet sandwiches. Fresh brewed Alakaf coffee, espresso, gourmet coffee specials and fountain drinks are available as well as a large assortment of bottled Pepsi products. Need a pencil, batteries, chapstick, cough syrup? This is the place to find them, as well as an assortment of chips, cookies and candy.

The View, on the 2nd floor, is available to anyone who enjoys an “AYCTE” All You Care to Eat Environment. The View is an exciting and on-trend dining destination so named for its beautiful overlook of O’Shaughnessy Stadium. Featuring many new and diverse serving lines, including the “Taste of Italy” Open Hearth Pizza Oven, and “Your Call!” where students may select from fresh, local, and sustainable produce to be prepared right in front of them by one of our many talented chefs. Greens is the salad bar, there are delicatessen fresh-prepared sandwiches, cereal, and assorted other choices along with the waffle bar and dessert section. Peace coffee is also available to guests dining in the View.

The Loft, on the 3rd floor, is the place to get Peace coffee, specialty drinks, and smoothies and Izzie’s ice cream while enjoying a great view overlooking the atrium. Fresh sandwiches, salads, and snacks are also offered. Great place to start the day, mid-morning snack or the afternoon pick-me-up.

Pit Stop, is located on the lower level Koch Commons between Brady and Dowling Residences. It provides smoothies, frozen yogurt, large fresh baked pretzels with various toppings, deli sandwiches, pizza, quesadillas, and snack items.

The Binz Refectory is located on the south campus adjacent to the soccer field. Students who have a food service contract, commuter students and guests may dine in the West dining room. Students rave about the burger and deli specials along with the 20-topping ice cream bar.

Beakers is located on the second floor in the Owens Science building. It features Alakaf Fair Trade specialty coffee and espresso, Deli Express and Gourmet Sandwiches, and various snacks and beverage items.

Minneapolis campus

Food for Thought restaurant is located on the second floor of the 1000 LaSalle building, offering several different display cooking stations including Asian, Mexican, Grill, Deli, Pizza, Salad Bar, Soups and a variety of other food, snacks, and beverage selections. We also feature Alakaf coffee in the Food Court.

Health Services St. Paul Campus

The University of St. Thomas provides students with access to a comprehensive medical clinic staffed with physicians (Internal Medicine, Family Practice, and Psychiatry), nurse practitioners, physical therapists, dietitian, massage therapist, and registered nurses. The clinic is located in the lower level of Brady Residence Hall. Regular clinic hours are Monday and Friday 8:00 a.m. to 4:30 p.m., Tuesday, Wednesday, Thursday 8:00 a.m. to 6:00 p.m. Same-day appointments may be available for acute illness, however it is preferred that you call 651-962-6750 to schedule an appointment, or schedule online through myhealthportal at http://www.stthomas.edu/studenthealth. Services include a certified travel clinic, care of acute and chronic illnesses, allergy injections, sports related injuries, GYN exams, immunizations, laboratory services, physical exams, stress management, smoking cessation, etc. Students will be asked for a copy of their insurance card at the time of service. Co-pays or fees not covered by insurance will be billed to the student account.

Health Insurance Verification Requirement

Domestic students: Undergraduate students enrolled in 12 or more credits are required to demonstrate health insurance coverage annually. Students may voluntarily purchase the UST-sponsored health insurance plan during the enrollment period. Students who do not complete the health insurance verification process by the 10th day of classes will be automatically enrolled in and billed for the UST-sponsored plan. Students must enter their information via Murphy Online at http://banner.stthomas.edu.

More information about the requirement and the health insurance plan is available at:

International students: F-1 and J-1 international students on a St. Thomas I-20 or DS-2019 will be automatically enrolled in and billed for the UST-sponsored health insurance plan. F-1 international students who want to waive the UST-sponsored health insurance plan can submit their U.S.-based health insurance information that meets the minimum requirements via Murphy Online at http://banner.stthomas.edu. F-1 international students who do not complete the Murphy Online waiver process by the 10th day of classes will be automatically enrolled in and billed for the UST-sponsored plan. Those whose waiver request is approved will still be enrolled in and billed for an evacuation and repatriation plan. J-1 international students are not eligible to waive the UST-sponsored plan due to Department of State requirements.
Additional Health Records
The state of Minnesota requires Mumps, Measles and Rubella (MMR) and Tetanus/Diphtheria(Td) dates on all students. Immunization information is to be entered under the Student Service tab via Murphy Online at http://banner.sthomases.edu. Registration holds will be placed on students that do not enter this information by the 45th day of classes.

Wellness Center
The Wellness Center is dedicated to assisting students in developing healthy lifestyle choices and promoting behaviors that result in enhanced wellbeing. The center embraces the concept of wellness in developing the whole person.

The center offers programs, resources, and educational material on health promotion and illness prevention. The center is designed to increase the overall health of the university community and promote healthy lifestyle choices that will serve individuals throughout their lives.

The center is located in Murray Herrick, 3rd floor, room #355. More information can be found online.

Campus Public Safety
The Department of Public Safety operates seven days a week 24 hours a day, on both the St. Paul and Minneapolis campuses.

The primary focus of the department is the care and safety of the students, employees, and guests of the University. Some of the services that are provided to the community are: immediate response to medical emergencies, responding to crimes in progress or suspicious persons, providing escorts, assisting with vehicle lockouts, doing jumpstarts, and conducting safety inspections and operations of the University’s lost and found. The department is also responsible for the campus wide emergency notification system. Students and employees are encouraged to sign up for this notification at http://www.sthomases.edu/ustcares/emergencynot/default.html.

The Public Safety officers are professionals, well trained in first aid, crisis management, emergency response, investigation, general safety, crime prevention and application of policies and laws.

For any on-campus emergency call 651-962-5555. For an off campus emergency please call 9-1-1. For all other matters related to Public Safety please call 651-962-5100. Students and employees are encouraged to program these numbers in their cell phones.

Public Safety Offices
The Public Safety Office on the St. Paul campus is located on the first floor of Morrison Hall. Please use the north door for entrance. On the Minneapolis Campus, public safety and parking information can be obtained at the second floor skyway of the Law School (MSL 252).

The Public Safety Department maintains “The Campus Security and Fire Report.” The report is required by the Higher Education Act and includes a listing of crimes and fires within the campus boundaries. For details, please go to: http://www.sthomases.edu/policing/securityact/
Transfer Courses
Courses taken at regionally accredited institutions of higher learning other than the University of St. Thomas and accepted for credit by St. Thomas are called transfer courses. Exchange courses, as described above, are not transfer courses.

Students who are seeking admission to the University of St. Thomas must have official transcripts of all previous college work sent to the Office of Admissions for evaluation by the University Registrar.

Students who have matriculated at St Thomas must forward transcripts from any other institution attended to the Office of Admissions for evaluation by the University Registrar.

All paper transcripts should be mailed directly from the institution of study to the following address:

University of St. Thomas
Admissions, Mail 5017
2115 Summit Ave
St. Paul, MN 55105-1078

All links and passwords to electronic PDF transcript downloads should be emailed directly from the institution of study to the following email address: admissions@stthomas.edu.

The University Registrar, using official transcripts provided by the student's previous schools, will assist the faculty to determine which courses may be used to fulfill St. Thomas degree requirements. Students may be asked to provide additional materials supporting the use of transfer courses. The university may require transcripts from foreign schools to be submitted to an evaluation service for processing before considering them. A fee may be charged for this service.

Students who wish to enroll in courses at another institution after matriculation at St. Thomas must receive approval from the chair of the relevant St. Thomas academic department if these courses are to be used to meet a core requirement or a major or minor field requirement. The information about course equivalents provided by the Office of Admission through the "Transfer Credit Tool" applies only to transfer courses taken prior to matriculation as a University of St. Thomas student. Once a student becomes degree-seeking at St. Thomas, the determination of whether a postmatriculation transfer course fulfills the criteria for a core requirement or for a major or minor field requirement must be determined by the appropriate academic department. Departments may require students to submit the syllabus for any potential transfer course they hope to apply to a major, minor, or core requirement.

Post-Matriculation Transfer Credit Limit
Students who first become degree-seeking at St. Thomas beginning with the Fall 2013 semester and for all subsequent semesters may count a maximum of 8 additional transfer credits taken after the date of matriculation at St. Thomas toward core requirements, with no more than 4 of those credits counting toward any one core requirement area (for instance, Language and Culture or Literature and Writing). This limit applies only to post-matriculation transfer credits and therefore does not apply to courses taken through a UST study abroad program or through the ACTC.

Minimum Transfer Grade Requirement
St. Thomas will accept only transfer courses in which the student has received a minimum grade of C- (1.7 value) or higher.

When a transfer student matriculates at St. Thomas, all transfer courses accepted for credit at St. Thomas will be posted to the student's academic history for the first term of enrollment at St. Thomas. When any St. Thomas student transfers credits to St. Thomas after the student's first term of enrollment, the transfer courses will be posted to academic history for the term in which it was taken at the transfer institution.

Quarter Credit to Semester Credit Conversions
St. Thomas will convert all transfer credits taken from quarter system academic institutions to semester credit using the following conversion scale (dividing the number of quarter credits by 1.5).

<table>
<thead>
<tr>
<th>Quarter Credits</th>

Senior Residency Requirement
Thirty-two of the final 36 credits that a student takes for the degree must be taken through the University of St. Thomas. Credits earned at ACTC colleges and through affiliated programs are considered exchange credits and count toward the residency requirement.

Undergraduate Policies

Academic Integrity
Honesty and trust among students and between students and faculty are essential for a strong, functioning academic community. Consequently, students are expected to do their own work on all academic assignments, tests, projects and research/term papers. Academic dishonesty, whether cheating, plagiarism or some other form of dishonest conduct related to academic coursework and listed in the Student Policy Book under “Discipline: Rules of Conduct” will automatically result in failure for the work involved. But academic dishonesty could also result in failure for the course and, in the event of a second incident of academic dishonesty, suspension from the university. Here are the common ways to violate the academic integrity code:

- **Cheating** - Intentionally using or attempting to use unauthorized materials, information, or study aids in any academic exercise. The term academic exercise includes all forms of work submitted for credit.
- **Fabrication** - Intentional and unauthorized falsification or invention of any information or citation in an academic exercise.
- **Facilitating Academic Dishonesty** - Intentionally or knowingly helping or attempting to help another to violate a provision of the institutional code of academic integrity.
- **Plagiarism** - The deliberate adoption or reproduction of
ideas or words or statements of another person as one’s own without acknowledgement. You commit plagiarism whenever you use a source in any way without indicating that you have used it. If you quote anything at all, even a phrase, you must put quotation marks around it, or set it off from your text; if you summarize or paraphrase an author’s words, you must clearly indicate where the summary or paraphrase begins and ends; if you use an author’s idea, you must say that you are doing so. In every instance, you also must formally acknowledge the written source from which you took the material. (This includes material taken from the World Wide Web and other internet sources.)

Students are encouraged to report incidents of academic dishonesty to course instructors. When academic dishonesty occurs, the following procedures will be followed:

- The instructor will impose a minimum sanction of failure for the work involved. The instructor also will notify the student and the appropriate academic dean (or designee) in writing of the nature of the offense and that the minimum sanction has been imposed. The instructor may recommend to the dean that further penalties should be imposed. If further penalties are imposed, the instructor will notify the student immediately and the student will have five working days to respond to the intention to impose additional penalties. The student has the right to respond to the charge of academic dishonesty and may request in writing that the dean review the charge of academic dishonesty and may request in writing that the dean review the charge of academic dishonesty as fully as possible. If the dean determines that no further sanctions will be applied, the instructor’s sanction will stand and the instructor’s letter to the dean and student will be placed in the student’s file. If no further charges of academic dishonesty involving the student occur during the student’s tenure at St. Thomas, the materials will be removed from the file upon graduation.

- If the student has been involved in a previous incident of academic dishonesty, the dean (or designee) will convene a hearing, following guidelines listed under “Hearings and Procedures” in the Student Policy Book. During the hearing, all violations of academic integrity will be reviewed. The student and the faculty member charging the most recent incident will be present at the hearing.

- In either situation, A or B, if the dean determines that further sanctions are warranted, the student will be informed in writing. Among the sanctions considered by the dean will be the following: failure for the course in which the incident occurred; suspension from the university for the following semester; expulsion from the university; community service; a written assignment in which the student explores the principles of honesty and trust; other appropriate action or sanctions listed under “Sanctions” in the Student Policy Book. The materials relating to the incident, including the instructor’s original letter to the student and dean and the dean’s decision following the hearing, will become part of the student’s file.

- A student may appeal the dean’s decision to the Committee on Discipline. To appeal, the student must send written notice to the chair of the Committee on Discipline within seven days of the date of the dean’s letter notifying the student of the penalty. If the chair of the Committee on Discipline receives no written request within the time specified, the penalty shall be imposed and the action shall be considered final. If a written request of appeal is received within the time specified, the hearing procedures of the Committee on Discipline will be followed.

The Committee on Discipline shall have the authority to investigate the facts of the particular case that has been appealed and the committee may:

1. Affirm the original decision and sanction.
2. Affirm the original decision and reduce or increase the original sanction.
3. Reverse the original decision.
4. Disallow the original decision and order a new hearing by the dean (or designee).

Credit Hour Definition

A credit hour is an amount of work represented in intended learning outcomes and verified by evidence of student achievement that reasonably approximates: (1) one hour (50 minutes) of classroom or faculty instruction and a minimum of two hours of out-of-class student work each week for approximately fifteen weeks for one semester of credit, or the equivalent amount of work over a different amount of time; or (2) at least an equivalent amount of work as required in paragraph (1) of this definition for other activities as established by the institution, including laboratory work, internships, practica, and other academic works leading toward the award of credit hours.

Excused Absence

Students have the responsibility to attend their classes and complete their coursework. If a student wishes to be excused from the equivalent of one full week of class or less per semester due to illness, a family or parent-related emergency, or a UST-sponsored event, it is the responsibility of that student to inform his or her instructor(s) of the absence as soon as possible. In the case of numerous and excessive absences (total absences amounting to the equivalent of more than one full week of class per semester), students must inform their instructor(s) of the situation responsible for the absences as soon as possible and comply with verification requests/requirements that the instructor(s) may have. Students should also notify the Office of the Director of Academic Counseling and Support at (651) 962-6300. The contact with the Academic Counseling and Support department is not intended to legitimize the student’s illness, but rather provides the student and instructor with a consultant about if/how the student may or may not proceed in courses. Instructors should use their own discretion to determine whether the absences warrant a grade penalty, an incomplete status, a recommendation of withdrawal from the course, or the completion of coursework missed (or an appropriate equivalent) without grade penalty for late submission.
Curricula

Programs and courses in this section are available to undergraduate students in all colleges and schools of the university.

Course Offerings
The courses listed in this section of the catalog are arranged alphabetically by discipline. Each listing includes a description of the course, the number of credits, and an indication of any prerequisites. Numbers which appear in parentheses next to a course title refer to courses whose content overlaps with the course described. Students may not receive credit for both of the courses in such cases.

Course Unit
The basic unit of instruction is a four-credit course. The ordinary academic load for a student during one semester is sixteen credits.

Generic Courses
Some courses are offered under the same numbers in all or most academic departments. Since the particular subject matter changes, these course numbers may be taken more than once in a given department. Departments may choose to place limitations on these courses, or may have additional requirements. Additional information will be found in the departmental listings. Generic courses include Topics, Experiential Learning, Seminars, Research, and Individual Study.

Topics Courses
The subject matter of the course will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.srthomas.edu/pls/banner/prod/bwckschd.

295, 296 Topics (2 credits)
The even number is normally used by the department. The odd number is used if the course has been approved to fulfill a core curriculum requirement.

297, 298 Topics (4 credits)
The even number is normally used by the department. The odd number is used if the course has been approved to fulfill a core curriculum requirement.

487, 488 Topics (2 credits)
The even number is normally used by the department. The odd number is used if the course has been approved to fulfill a core curriculum requirement.

489, 490 Topics (4 credits)
The even number is normally used by the department. The odd number is used if the course has been approved to fulfill a core curriculum requirement.

Experiential Learning
The university will grant credit for experience to a registered student if the student’s proposal for the work (to include the method of evaluation of the learning that occurs) receives prior approval of the department involved, and the student successfully completes the experience agreed upon. The most common type of experiential learning is an internship.

Credit granted in this way is graded on an S/R basis. A maximum of eight credits of Experiential Learning may be counted toward the 132 credits required for graduation. The regular tuition for the number of credits is charged.

Prior to the occurrence of the experience for which credit is being sought, a student makes a formal request for four credits or two credits. This request includes:
- a detailed description of the experience for which credit is sought and a statement of its academic significance and validity in the student’s program;
- an indication of any supplementary academic requirements to be fulfilled: papers, reports, etc.;
- the name of the person at the University of St. Thomas who will approve the proposal, maintain periodic contact with the off-campus supervisor and student and corroborate the evaluation of the experience;
Students requesting credit for Experiential Learning usually will have attained junior or senior status. The request must be approved by the chair of the department in which credit will be awarded. The minimum number of hours of on-site work (usually 100 hours for two credits; 200 hours for four credits), meetings with St. Thomas faculty, meetings with the on-site supervisor, and evaluation of the project will be determined by the department.

Forms for requesting credit for Experiential Learning are available from the chair of the department involved. These must be completed, obtaining signatures from the faculty member, the chair of the department, and the dean. The form is then presented to the registrar at the time of registration.

When, in the view of the department, supervision and evaluation of the experience are provided chiefly by a person at the University of St. Thomas, the student should seek credit by means of Individual Study.

**475, 476 Experiential Learning (2 credits)**
The even number is normally used by the department. The odd number is used if the course has been approved to fulfill a core curriculum requirement.

**477, 478 Experiential Learning (4 credits)**
The even number is normally used by the department. The odd number is used if the course has been approved to fulfill a core curriculum requirement.

**Seminars**
Seminars are offered in a number of departments. With the exception of Honors Seminars in the Aquinas Scholars program, regular tuition is charged.

**483, 484 Seminar (2 credits)**
The even number is normally used by the department. The odd number is used if the course has been approved to fulfill a core curriculum requirement.

**485, 486 Seminar (4 credits)**
The even number is normally used by the department. The odd number is used if the course has been approved to fulfill a core curriculum requirement.

**Research**
Some departments offer the opportunity to do research in the discipline. Research involving human subjects may not begin prior to review and approval by the Institutional Review Board (IRB) for the Protection of Human Research Subjects. Student researchers are advised to consult with a faculty adviser and secure the needed forms and other information from the IRB Web site (http://www.stthomas.edu/irb) early in the research planning process. Regular tuition is charged.

**269 Research (2 or 4 credits)**
This research course can be either a 2 or 4 credit course depending on the department and the topic.

**389 Research (2 or 4 credits)**
This research course can be either a 2 or 4 credit course depending on the department and the topic.

**491 Research (2 or 4 credits)**
This research course can be either a 2 or 4 credit course depending on the department and the topic.

**Individual Study**
Individual Study refers to a type of learning contract in which a registered student and/or professor have the responsibility for defining, organizing and evaluating a special project of limited scope (limited in content and in the time designated for its completion). Individual Study provides an opportunity for students (usually at junior or senior status) to receive one-to-one instruction and guidance, while pursuing a subject of special interest. It also allows instructors to share their continuing personal study and to foster the abilities manifested by their students. This work is completed independently under the instructor’s personal direction.

Students interested in pursuing Individual Study should discuss their plans with the appropriate faculty member. When the project has been determined, the faculty member will provide the Individual Study contract forms. These must be completed prior
Actuarial Science (ACSC)

to registration. The Individual Study contract must be approved by the supervising faculty member, the chair of the department, and the dean of the College.

The grading for Individual Study may be standard (A, B, C, etc.) or Pass/Fail (S/R). This selection and a statement of explanation justifying the choice must be indicated on the Individual Study contract when it is presented to the registrar. (If the course is in the major field, grading must be on the standard system.)

Individual Study may be pursued for either two or four credits. Determination of the amount of credit awarded is at the discretion of the department, but should reflect an academic rigor commensurate with a regularly-offered course for the same amount of credit. Regular tuition is charged.

243 Individual Study (2 or 4 credits)
This individual study can be either a 2 or 4 credit course depending on the department and the topic.

393 Individual Study (2 or 4 credits)
This individual study can be either a 2 or 4 credit course depending on the department and the topic.

495 Individual Study (2 or 4 credits)
This individual study can be either a 2 or 4 credit course depending on the department and the topic.

ACCOUNTING

ACTUARIAL SCIENCE (ACSC)
College of Arts and Sciences, Interdisciplinary Program
O'Shaughnessy Science Hall (OSS) 201, (651) 962-5538
Youn (MATH), director, Dayananda (MATH), Moenig (MATH), Shemyakin (MATH)

The Bachelor of Science in Actuarial Science is an interdisciplinary degree program offered through the Department of Mathematics. (See also the Department of Mathematics in this catalog.)

Actuarial science education equips students with strong mathematical problem-solving skills that can be applied to business careers. The major requirements consist of courses in mathematics, actuarial science, computer science, business, economics and a course in communication. Coupled with a firm foundation in the liberal arts, this major provides a sound grounding in analytical problem-solving and communication skills.

This program prepares students for a variety of careers with insurance companies, consulting firms, financial institutions, industrial corporations, or government agencies. It also provides a good preparation for non-actuarial careers in banking, finance, or insurance. In addition, the statistical background developed by an actuarial student is valuable in a variety of other fields.

Students graduating with a major in Actuarial Science will become proficient in basic mathematics through multivariate calculus and probability together with basic notions of insurance and risk management. They will demonstrate the ability to think clearly and critically in solving problems related to the analysis and management of risk. They will be able to effectively communicate technical and non-technical information to their peers and to non-specialists in their work environment.

To be certified as a Fellow or an Associate by either the Society of Actuaries or the Casualty Actuarial Society, one must pass a series of rigorous examinations. The earlier examinations are focused on mathematics and statistics and can be taken while a student. The later examinations cover aspects of business, economics, and the regulatory climate.

A careful selection of courses from a variety of departments helps a student to prepare for many excellent professional opportunities in this field. Students should see the director of the Actuarial Program for advice in selecting courses for a particular purpose.

Within the Department of Mathematics, the Center for Applied Mathematics provides opportunities for actuarial science students to work on significant mathematical problems of current interest to business, industry, and government.

Admission Guideline: Due to the demanding nature of the Actuarial Science Program and the difficulty of the examinations required for professional designation, it is strongly suggested that prospective majors have a minimum Math GPA of 3.0. Most students who have been successful in this program and actuarial examinations have had GPA’s considerably higher than 3.0.

Major in Actuarial Science (B.S.)
ACCT 210 Introduction to Financial Accounting (4 credits)
ACSC 264 Theory of Interest (4 credits)
ACSC 320 Risk Management and Insurance (4 credits)
ACSC 351 Foundations of Actuarial Mathematics (4 credits)
ACSC 352 Actuarial Contingencies (4 credits)
CISC 130 Introduction to Programming and Problem Solving in the Sciences (4 credits)
ECON 252 Principles of Microeconomics (4 credits)
FINC 321 Financial Management (4 credits)
FINC 325 Investments (4 credits)
MATH 113 Calculus I (4 credits) (or MATH 108 and MATH 109)
MATH 114 Calculus II (4 credits)
MATH 200 Multi-Variable Calculus (4 credits)
MATH 240 Linear Algebra (4 credits)
MATH 313 Probability (4 credits)
STAT 314 Mathematical Statistics (4 credits)

Plus four credits from the following:
ACSC 464 Mathematical Finance (4 credits)
STAT 333 Applied Statistical Methods: Regression, Time Series, Forecasting (4 credits)
MATH 385 Mathematical Methods of Numerical Analysis (4 credits)

Allied requirement
One of: ENGL 211 or above; COJO 100 (Public Speaking); COJO 105 (Communication in the Workplace)

Suggested Electives:
BETH 301 Business Ethics (4 credits)
BLAW 301 Legal Environment of Business (4 credits)
CISC 230 Object-Oriented Design and Programming (4 credits)
CISC 450 Database Design I (4 credits)
ECON 251 Principles of Macroeconomics (4 credits)
ECON 351 Macroeconomic Theory (4 credits)
ECON 352 Microeconomic Theory (4 credits)
ECON 355 Game Theory (4 credits)
FINC 324 Corporate Finance (4 credits)
FINC 400-level Investment Courses (4 credits)
MBIS 701 Insurance Seminar (3 credits)
MKTG 300 Principles of Marketing (4 credits)
STAT 370 Bayesian Statistical Models and Credibility Theory (4 credits)

Minor in Actuarial Science
ACSC 264 Theory of Interest (4 credits)
ACSC 320 Risk Management and Insurance (4 credits)
MATH 113 Calculus I (4 credits) (or MATH 108 or MATH 109)
MATH 114 Calculus II (4 credits)

Plus eight credits from the following:
Note: At least four credits must not satisfy the student’s major field requirement (including allied requirements)
ACCT 210 Introduction to Financial Accounting (4 credits)
ACCT 215 Managerial Accounting (4 credits)
ACSC 351 Foundations of Actuarial Mathematics (4 credits)
ACSC 464 Mathematical Finance (4 credits)
ECON 252 Principles of Microeconomics (4 credits)
FINC 321 Financial Management (4 credits) or FINC 300 Finance for non-Business Majors (4 credits)
MATH 200 Multi-Variable Calculus (4 credits)
MATH 313 Probability (4 credits) or MATH 303 Statistics for the Applied Sciences (4 credits)

ACSC 264 Theory of Interest (4 credits)
A survey of topics in the mathematical analysis of financial transactions which involve payments made over time. Specific areas of concentration will include the time value of money, the analysis of annuities, amortization and sinking funds, and the pricing and rates of return on investments. Both continuous time and discrete time problems will be considered.
Prerequisite: a grade of C- or above in MATH 114.
ACSC 320 Risk Management and Insurance (4 credits)
This course introduces students to the subjects of insurance—theory and practice—and corporate risk management. In addressing these subjects, students will receive exposure to risk theory, insurance pricing, contract analysis, insurance company operations, reinsurance, regulation and the concepts and principles of business risk management.
Prerequisite: Junior standing or MATH 114

ACSC 351 Foundations of Actuarial Mathematics (4 credits)
The course covers the theory and applications of contingency mathematics in the area of life and health insurance, annuities and pensions from both the probabilistic and deterministic approaches. Topics will include: survival distributions, actuarial notation, life insurance and life annuities, net premiums and reserves.
Prerequisite: a grade of C- or above in ACSC 264 and MATH 313.

ACSC 352 Actuarial Contingencies (4 credits)
Extension of the analysis of ACSC 351 to multiple life functions and multiple decrement theory. Topics will include: multiple life functions and multiple decrement models, valuation of pensions, insurance models including expenses, non-forfeiture benefits and dividends.
Prerequisite: a grade of C- or above in ACSC 351

ACSC 464 Mathematical Finance (4 credits)
The focus of this course is on applications of probability, stochastic processes, and other mathematical tools to problems in finance. Both discrete and continuous models, including binomial, Brownian motion, and geometric Brownian motion models will be used to investigate the effects of randomness in financial markets and the behavior of financial instruments. The mathematical realization of arbitrage and hedging strategies will be examined, including the Arbitrage Theorem and the concept of risk-neutral pricing. Applications will include the pricing of equity options, currency transactions, and the use of duration and convexity in fixed income analysis.
The course will be of interest to students of actuarial science, mathematics, finance and economics who want to develop a better quantitative understanding of financial risk.
Prerequisites: a grade of C- or above in MATH 313 or MATH 303 and ACSC 264 or a course in FINC approved by the instructor
Leadership Laboratory and Physical Training are mandatory aspects of the aerospace studies program which round out cadets’ preparation for gaining a commission in the Air Force. Instruction is conducted within the framework of an organized cadet wing with a progression of experiences designed to develop leadership potential. Leadership Laboratory involves study of Air Force customs and courtesies, drill and ceremonies, career opportunities, and the life and work of an Air Force junior officer. Leadership potential is developed in a practical, supervised laboratory. The other mandatory aspect, Physical Fitness Lab, is conducted within the framework of the cadet wing with a progression of experiences designed to improve fitness and develop teamwork. Cadets will need to pass physical fitness assessments comprised of aerobic fitness, strength fitness and body composition.

The Air Force offers three- and four-year college scholarships. See “Scholarships not awarded by the university” in the Financial Services section of this catalog.

Most students complete AFROTC via the four-year program, completing both the GMC and the POC. However, even if a student does not enroll until sophomore year, it is still possible to complete the 100- and 200-level GMC courses concurrently during sophomore year, followed by Field Training at Maxwell Air Force Base.

St. Thomas offers its students who are winners of Air Force ROTC scholarships up to full subsidy (room and board and remaining tuition) on almost every Air Force ROTC scholarship awarded. For information on Air Force scholarships, call the AFROTC Unit Admissions Officer at 651-962-6329.

The minor in Aerospace Studies is open to all undergraduate students at the University of St. Thomas. Students who are not seeking an Air Force commission may enroll in Option 1 below with the permission of the Aerospace Studies department chair. Students (AFROTC cadets) who wish to receive a commission in the Air Force must complete Option 2, which includes the Leadership and AFROTC Physical Fitness Laboratory courses, as well as Field Training (normally taken the summer between sophomore and junior year). While the courses are intended to be taken sequentially, students may complete the minor by taking more than one AERO class per term, with the permission of the department chair. All of the coursework generally contributes to and enhances diversity objectives.

Student must complete twenty credits. This requirement must be accomplished by completing one of the following sequences:

**Option 1: (20 credits – open to all undergraduate students)**
- AERO 111 Foundations of the United States Air Force I (1 credit)
- AERO 112 Foundations of the United States Air Force II (1 credit)
- AERO 211 Evolution of USAF Air and Space Power I (1 credit)
- AERO 212 Evolution of USAF Air and Space Power II (1 credit)
- AERO 321 Air Force Leadership Studies I (4 credits)
- AERO 322 Air Force Leadership Studies II (4 credits)
- AERO 421 National Security Affairs I (4 credits)
- AERO 422 National Security Affairs II (4 credits)

**Option 2: (22 credits – AFROTC cadets only)**
- AERO 111 Foundations of the United States Air Force I (1 credit)
- AERO 112 Foundations of the United States Air Force II (1 credit)
- AERO 200 Leadership Laboratory (0 credits)
- AERO 201 AFROTC Physical Fitness Laboratory (0 credits)
- AERO 211 Evolution of USAF Air and Space Power I (1 credit)
- AERO 212 Evolution of USAF Air and Space Power II (1 credit)
- AERO 321 Air Force Leadership Studies I (4 credits)
- AERO 322 Air Force Leadership Studies II (4 credits)
- AERO 421 National Security Affairs I (4 credits)
- AERO 422 National Security Affairs II (4 credits)
- AERO 450 Field Training (2 credits)

**AERO 111 Foundations of the United States Air Force I (1 credit)**
The Foundations of the United States Air Force is a survey course designed to introduce students to the United States Air Force and provide an overview of the basic characteristics, missions, and organization of the Air Force.

**AERO 112 Foundations of the United States Air Force II (1 credit)**
Continuation of AERO 111
Aerospace Studies (AERO)

Prerequisite: AERO 111 or permission of instructor

AERO 200 Leadership Laboratory (0 credit)
Leadership Laboratory is mandatory for AFROTC cadets (e.g., students pursuing an officer’s commission in the USAF) every fall and spring semester unless excused by the department chair for an authorized period of non-attendance. Leadership Laboratory complements each of the courses listed below by providing cadets with leadership and followership experiences. This course is only for AFROTC cadets pursuing Option 2 above.

AERO 201 AFROTC Physical Fitness Laboratory (0 credit)
AFROTC Physical Fitness Laboratory is mandatory for AFROTC cadets (e.g., students pursuing an officer’s commission in the USAF) every fall and spring semester unless excused by the department chair for an authorized period of non-attendance. AFROTC Physical Fitness Laboratory complements each of the courses listed below by providing cadets with leadership, followership, and team building experiences while teaching them to maintain physical fitness required for military service. AFROTC cadets must attend two sessions per week to pass the course. In order to remain in the program and gain a commission, cadets must pass a physical fitness assessment each term. This course is only for AFROTC cadets pursuing Option 2 above.

AERO 211 Evolution of USAF Air and Space Power I (1 credit)
The Evolution of USAF Air and Space Power features topics on Air Force heritage and leaders, introduction to air and space power through examination of distinctive capabilities and functions, and continued application of communication skills. Its purpose is to instill an appreciation of the development and employment of air and space power and to motivate sophomore students to transition from AFROTC cadet to Air Force ROTC officer candidate.
Prerequisite: AERO 112 or permission of instructor

AERO 212 Evolution of USAF Air and Space Power II (1 credit)
Continuation of AERO 211
Prerequisite: AERO 211 or permission of instructor

AERO 321 USAF Leadership Studies I (4 credits)
The United States Air Force Leadership Studies course teaches students advanced skills and knowledge in management and leadership. Special emphasis is placed on enhancing leadership skills. AFROTC cadets have an opportunity to try out these leadership and management techniques in a supervised environment as juniors and seniors.
Prerequisite: AERO 212

AERO 322 USAF Leadership Studies II (4 credits)
Continuation of AERO 321.
Prerequisite: AERO 321 or permission of instructor

AERO 421 National Security Affairs I (4 credits)
National Security Affairs/Preparation for Active Duty is designed for college seniors and gives them the foundation to understand their role as military officers in American society. It is an overview of the complex social and political issues facing the military profession and requires a measure of sophistication commensurate with the senior college level.
Prerequisite: AERO 322 or permission of instructor

AERO 422 National Security Affairs II (4 credits)
Continuation of AERO 421.
Prerequisite: AERO 421

AERO 450 Field Training (2 credits)
Training and evaluation on an Air Force base during the summer. The experience is designed to develop military leadership and discipline, provide AF officership training, orientation and motivation, and determine officer potential. These objectives are provided to conform to the standards of a structured military environment as well as teach the participant how an Air Force base operates. The syllabus provides for a minimum of 270 hours of scheduled activities—157 hours of total core curriculum hours consisting of Air Force orientation, leadership training, and officership training. This course is only for AFROTC cadets pursuing Option 2 above.
Prerequisite: AERO 212

AERO 451 Cadet Training Assistant (CTA) (2 credits)
A cadet who previously completed Field Training and who successfully competes to be assigned as a staff member at a Field Training
encampment. Discharges staff responsibilities to meet the objectives described in AERO 450. This course is only for AFROTC cadets pursuing Option 2 above.

**AERO 452 Professional Development Training (PDT) (1 credit)**
The objective of PDT is to provide opportunities to cadets to gain knowledge and appreciation for the human relations and leadership challenge encountered by junior Air Force officers. Further, the program is designed to motivate cadets in their pursuit of an Air Force career. This course is only for AFROTC cadets pursuing Option 2 above.

---

**AMERICAN CULTURE AND DIFFERENCE (ACST)**

College of Arts and Sciences, Interdisciplinary Program  
2093 Grand Ave, (651) 962-5649  
Contact: Kanishka Chowdhury

American Culture and Difference is an interdisciplinary minor that offers students a critical perspective on the diversity of “American culture.” Students consider ways in which music, film, advertisements, folklore, literature, television, and art shape daily life in the United States, form cultural and national identity, construct racial and ethnic identity, and create a sense of “high” and “low” culture. Drawing on perspectives from a number of participating departments and programs (e.g. Art History, Communication and Journalism, English, History, Music, Political Science, Sociology, Theater, Theology, and Women’s Studies), the American Culture and Difference minor examines the symbols, practices, and histories which contribute to the complexity and variety of the “America” experience. In addition to making connections among disciplines, students will be encouraged to engage in analysis that discovers linkages and tensions between vernacular and elite culture, as well as among diverse and multiple cultural identities and affiliations. The minor re-examines representations of mainstream American culture and the productions of alternative and oppositional cultures, highlighting the experiences and struggles of communities that have been historically marginalized because of their class, gender, racial or sexual identities. Put simply, American Culture and Difference emphasizes diversity as a defining element of American culture. Given its emphasis on the diversity and multiplicity of cultural experience and its interdisciplinary focus on the various strands that comprise the fabric of a given culture, the minor in American Culture and Difference is particularly suited to provide students with the critical framework necessary to be effective and ethical participants in an increasingly globalized civic and economic environment.

**Minor in American Culture and Difference**

**ACST 200 Introduction to American Culture and Difference (4 credits)**

*Plus:*

Twenty additional credits (at least four credits from each of the categories below and no more than eight credits from a single department):

**American Cultures: History, Society, Politics**

- GEOG 340 Geography of the U.S. and Canada (4 credits)
- HIST 116 African American History in Global Perspective (4 credits)
- HIST 210 Modern Latin America 1800 to the Present (4 credits)
- HIST 465 Capstone Seminar in History of the Americas (4 credits)
- POLS 301 American Political Behavior (4 credits)
- SOCI 251 Race and Ethnicity (4 credits)
- SPAN 332 Survey of Latin American Culture and Civilization (4 credits)

**American Cultures: Literature and the Arts**

- ARTH 284 Arts of the African Diaspora (4 credits)
- ARTH 320 Art and Culture of Colonial Mexico (4 credits)
- ARTH 321 The Art and Culture of Modern Mexico (1824-1940) (4 credits)
- ARTH 391 Native American Art (4 credits)
- ARTH 392 American Art (4 credits)
- ENGL 215 American Authors II (4 credits)
- ENGL 373 Contemporary American Literature (4 credits)
- ENGL 395 Issues in Literature and Culture (4 credits)
- MUSC 216 Jazz in America (4 credits)
- MUSC 217 Music of the Americas (4 credits)
- MUSC 218 Black American Music: A Historical Survey (4 credits)
- MUSC 219 Music in the United States (4 credits)
Art History (ARTH)

THTR 223 American Theater (History of Theater III) (4 credits)

American Cultures: Mass Culture, Popular Culture, and Communication Media
COJO 326 Modern American Rhetoric (4 credits)
COJO 328 Communication of Race, Class, and Gender (4 credits)
COJO 334 Literary Journalism (4 credits)
COJO 338 Political Communication (4 credits)
COJO 340 Television Criticism (4 credits)
COJO 430 Society, Culture, and the Media (4 credits)
COJO 432 Media Structure and Power (4 credits)

ACST 200 Introduction to American Culture and Difference (4 credits)
In ACST 200, students learn about the historical and theoretical foundations of Cultural Studies as an academic discipline and use cultural theory to analyze a variety of cultural products and representations. In this course, students look specifically at dominant and subversive constructions of gender, race, ethnicity, national and sexual identities, and how these constructions are deployed through cultural practices and productions such as sports, film and television, folklore and popular culture, youth subcultures, music, and so on. For example, the course may contain units on “nation” and the creation of American mythologies; the process of hero-making in American history; stereotypes and the representation of race and ethnicity in television and film; representations of gender and sexuality in advertising; as well as a section on American music from jazz, blues, folk and roots music, to rock and roll, punk, and hip-hop. This course fulfills the Human Diversity requirement in the core curriculum.

ART HISTORY (ARTH)
College of Arts and Sciences, Department of Art History
2057 Portland Ave, (651) 962-5560
Young (chair), Barnes, Eliason, Kindall, Nordtorp-Madson, Risser, Shirey, Stansbury-O’Donnell

The Art History Department at St. Thomas explores the many dimensions of art in a broad range of periods and worldwide cultures. The courses, programs, and faculty of the department prompt students to become investigators, learning to ask and answer questions about art, from pottery to painting, from bronzes to buildings. Students are encouraged to conduct independent research and to present their findings to a broader audience and to make art accessible inside and outside of the classroom.

Art history embodies the study of the liberal arts by considering the work of art and architecture within its broader cultural and social context, including religion, economic production, politics, gender, and social identification. The liberal arts and interdisciplinary nature of the major can be combined effectively with other majors such as theology, history, philosophy, or with programs emphasizing professional skills, including journalism, communication, or elementary education. Recent graduates of the Art History program have pursued careers in education, art conservation, historic preservation, museum education and curatorship, art gallery direction, publishing and interior design.

The department offers a number of courses for the non-major to fulfill the Fine Arts, Human Diversity, and Writing across the Curriculum components of the core curriculum.

Major in Art History
ARTH 110 Introduction to Art History (4 credits)
ARTH 211 Methods, Approaches, and Problems in Art History (4 credits)
ARTH 481 Senior Paper and Presentation (4 credits)

Plus eight credits chosen from two of the following three areas:

Ancient Art
ARTH 260 Women in Ancient Art and Culture (4 credits)
ARTH 305 Greek Art and Archaeology (4 credits)
ARTH 310 Roman Art and Archaeology (4 credits)
or equivalent

Medieval Art
ARTH 330 Churches and Mosques in the First Millennium (4 credits)
ARTH 335 Cathedrals, Monasteries, and Calipha (4 credits)
Renaissance & Baroque Art
ARTH 340 Southern Renaissance Art and Society (4 credits)
ARTH 345 Baroque and Rococo Art (4 credits)
or equivalent

Plus eight credits of Global Art chosen from the following courses:
ARTH 265 Art of Mesoamerica (4 credits)
ARTH 270 Pacific Art (4 credits)
ARTH 275 Buddhist Art (4 credits)
ARTH 284 Arts of the African Diaspora (4 credits)
ARTH 285 Arts of Africa (4 credits)
ARTH 291 Topics in Non-Western Art (4 credits)
ARTH 321 The Art and Culture of Modern Mexico (1824-1940)
ARTH 323 Colonial Art of Latin America (4 credits)
ARTH 328 Chinese Sculpture & Architecture (4 credits)
ARTH 329 Chinese Painting (4 credits)
or equivalent

Plus four credits of Modern Art, chosen from the following courses:
ARTH 321 The Art and Culture of Modern Mexico (1824-1940) (4 credits)
ARTH 351 Romanticism to Impressionism (4 credits)
ARTH 352 Art in the United States (4 credits)
ARTH 356 Modernism in European Art (4 credits)
ARTH 361 Contemporary Art (4 credits) or equivalent

Plus four credits of Media Studies (architecture and media other than painting and sculpture), chosen from the following courses:
ARTH 270 Pacific Art (4 credits)
ARTH 280 Sacred Architecture and Space (4 credits)
ARTH 282 The History of American Architecture (4 credits)
ARTH 285 Arts of Africa (4 credits)
ARTH 339 Western Costume’s Design and Visual Representation in Context (4 credits)
or equivalent

Note: A single course may fall into more than one area, but may only be applied to a single area. Students taking courses abroad may also substitute one course taken abroad for one of the advanced studies course areas (with the exception of global art) with prior approval of the chair of the department.

Plus four credits meeting one of the following criteria:
- a second course in one of the above areas
- an internship or other form of experiential learning, including research and preparation of exhibits
- an art history course taken abroad
- a studio art course

Minor in Art History
ARTH 110 Introduction to Art History (4 credits)

Plus:
Sixteen credits chosen with the approval of the department chair or a department adviser.
**Art History (ARTH)**

**ARTH 110 Introduction to Art History (4 credits)**
Through a series of case studies, this course examines the importance of art as cultural expression across time and from a global perspective. In each course section, students will analyze the style, subject, and patronage of works of art, and will explore art’s relationship to religion, ideology, society and economy, gender roles, and the interaction of cultures. Case studies will include architecture, sculpture, painting, and other arts, such as ceramics, textiles, and photography. This course fulfills the Fine Arts and Human Diversity requirements in the core curriculum. Consult the department website for details about the specific sections offered.

**ARTH 211 Methods, Approaches, and Problems in Art History (4 credits)**
An introduction to the methods and problems of art history, including the theoretical approaches to art and its history, the examination and analysis of the work and its medium, the role of the museum and gallery in the study of art, and bibliographic tools of the different disciplines of the field.  
Prerequisite: ARTH 110 or permission of chair or instructor.

**ARTH 260 Women in Ancient Art and Culture (4 credits)**
The history of the ancient world—its politics, philosophy, and literature—is mostly silent or slanderous about the lives of women. In most times and places their role in public life and their ability to express themselves were severely circumscribed. However, a study of archaeological material, representations in art and literature, and the occasional writing of women themselves allows us to look behind the curtain that veiled their lives. This class will examine the evidence to reconstruct a picture of what the life of women was like in Egyptian, Greek, and Roman culture throughout the ancient Mediterranean. This course fulfills the Fine Arts and Human Diversity requirement in the core curriculum.

**ARTH 265 Art of Mesoamerica (4 credits)**
A survey of Pre-Columbian art and architecture of Ancient Mesoamerica (parts of present day Mexico, Guatemala, Belize, Honduras, and El Salvador). Specific artistic practices, iconography, and the cultural contexts of selected works of art and architecture will be covered. Course participants will be expected to address the significance of various culture groups within Mesoamerica and be able to discuss, in an informed manner, the salient characteristics and cultural context of select major works of art and architecture. This course fulfills the Fine Arts and Human Diversity requirements in the core curriculum.

**ARTH 270 Pacific Art (4 credits)**
This course covers traditional as well as contemporary sculpture, painting, architecture, and body arts of Melanesia, Island Southeast Asia, Micronesia, and Polynesia. Students will learn how material culture, along with the concepts of mana and tapu sustained highly stratified cultures in places such as Hawaii and New Zealand. They will also study more egalitarian societies in which cultures maintained a balanced relationship with their environment through beliefs and social practices. Examples of such societies include the Asmat, Komoro, and culture groups that inhabit the Geelvink Bay region. Students will have the opportunity to work with objects from the American Museum of Asmat Art at the University of St. Thomas (AMAA@UST). This course fulfills the Fine Arts and Human Diversity requirements in the core curriculum.

**ARTH 275 Buddhist Art (4 credits)**
Following a brief introduction to the origins of Buddhist art in India, this course will examine a selection of primary monuments and objects associated with Buddhism as practiced in China and Japan. The historical context, iconography, style and religious function of individual sites and objects will be considered in roughly chronological order. Larger topics relating to the production and reception of Buddhist art, such as its functional/ritual context, patronage and iconographical development, will be examined in class discussions of select articles. The goal of this course is to provide students with a foundational knowledge of the art and issues associated with the practice of Buddhism in traditional China and Japan. This course will fulfill the Fine Arts and Human Diversity requirements in the core curriculum.

**ARTH 280 Sacred Architecture and Space (4 credits)**
Throughout history, humans have set aside spaces for religious purposes. Frequently these are the most visible remains or representatives of a culture and are keys to understanding the place of humans within the world and universe. This course examines sacred architecture and spaces from a variety of perspectives, including materials and structure, ritual function and liturgy, decoration, symbolism, physical context, and social/religious context. The course will examine not only Christian churches, but will also examine non-Christian and non-western traditions of religion and architecture. This course fulfills the Fine Arts requirement in the core curriculum.

**ARTH 282 The History of American Architecture (4 credits)**
A survey of high style and vernacular architecture in the United States from the Native Americans to the present day. Upon completion of this course, the student will be able to: identify the major themes and styles in American architecture; recognize major monuments and their designers; and understand how an American identity was projected in architecture. This includes understanding
American architecture and its relationship to corresponding developments in art, landscape, and the urban fabric. Emphasis will be placed on structures in Minnesota and the upper Midwest. This course fulfills the Fine Arts requirement in the core curriculum.

ARTH 284 Arts of the African Diaspora (4 credits)
This course surveys the diverse arts produced by people of African descent in the Diaspora (Surname, Brazil, Cuba, Haiti, the United States and England) from the Colonial period to the present. An examination of selected West and Central African cultural practices and art forms will serve as a basis for an understanding of creative transformations in the African Diaspora. Important issues to be addressed include art and resistance, survivals and transformations, and the construction of race and diasporic identity. This course fulfills the Fine Arts and Human Diversity requirements in the core curriculum.

ARTH 285 Arts of Africa (4 credits)
The continent of Africa presents a world of contrasts: from the powerful trading empires of the Sahel to the small scale, nomadic societies of the Kalahari. This course will survey the arts and cultures of sub-Saharan Africa, drawing on recent breakthroughs in archaeology, anthropology and art history to explore the diversity and creativity of past and present African artists. This course will explore material culture in its original context and seek to understand the social roles that art plays in all aspects of life, from religion and politics to personal relationships. This course fulfills the Fine Arts and Human Diversity requirements in the core curriculum.

ARTH 291 Topics in Non-Western Art (4 credits)
This course number covers a range of offerings in the art and architecture of Asia, Africa, Oceania and Latin America. Offerings will vary from year to year, but will usually provide a comprehensive survey of the arts of a wide region such as Asia or Africa or of a major religion such as Buddhism or Islam. A more detailed examination of a single country such as China or Mexico may also be included among offerings. This course fulfills the Fine Arts and Human Diversity requirements in the core curriculum.

ARTH 295, 296 Topics (2 credits)
ARTH 297, 298 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.saintthomas.edu/pls/banner/prod/bwckschd. Topics listed under 297 fulfill the Fine Arts requirement in the core curriculum.

ARTH 305 Greek Art and Archaeology (4 credits)
A study of the art and architecture of ancient Greece from the fall of the Bronze Age civilizations to the end of the Hellenistic period. Particular attention will be given to sculpture, vase painting, and the relationship of art to the broader culture, to the art of the ancient Near East and Egypt, and to gender relations in ancient Greece. This course fulfills the Fine Arts requirement in the core curriculum.

ARTH 310 Roman Art and Archaeology (4 credits)
A survey of the art of the Roman Republic and Empire to the emperor Constantine in the early fourth century C.E. Issues include the use of art and architecture as an expression of imperial political programs, the creation of urban architecture and the everyday environment of the Romans, and Rome’s relationship to Greece and the Near East. This course fulfills the Fine Arts requirement in the core curriculum.

ARTH 321 The Art and Culture of Modern Mexico (1824-1940) (4 credits)
This course examines the art and culture of Mexico from Independence through the Revolutionary and post-Revolutionary periods (c. 1824-1940). Painting, sculpture, architecture and popular arts are investigated in the context of broader political and intellectual movements during this period of tremendous societal change. The class begins with an overview of art history from the pre-Hispanic and Colonial periods. The core course content focuses on academic and popular arts following Mexico’s independence; in this context we discuss the intense search for national identity, or mexicanidad, that marks the modern era. This class also explores the impact of the Mexican Revolution on the work of Diego Rivera, David Alfaro Siqueiros, José Clemente Orozco, Frida Kahlo and other artists of the period. Through critical readings of the biographies and autobiographies of Kahlo and Rivera alongside scholarly and popular texts, the course raises questions about the role of artist biography in our understanding of art works. In this course, Mexico is not seen in isolation; readings and discussions also investigate the work of Mexican-born artists in the United States and Europe as well as the ways in which outsiders conceived of and represented Mexico during the Revolutionary Period. This course fulfills the Fine Arts and Human Diversity requirements in the core curriculum.
Art History (ARTH)

ARTH 323 Colonial Art of Latin America (4 credits)
This course is designed to provide an understanding of the foundations of the arts of Spanish-speaking Latin America. Its focus will be the development of the arts from the time of the Spanish entrada in the late 15th century through the time of the independence movements of the 19th century and beyond. In general, it will focus on Early Colonial and Viceregal New Spain and Peru. At the close of this course participants will be expected to approach any period of Latin American art with a deeper awareness of its historical context and an increased sense of analytical confidence. This course fulfills the Fine Arts and Human Diversity requirements in the core curriculum.

ARTH 328 Chinese Sculpture and Architecture (4 credits)
This course will examine the historical development of Chinese sculpture and architecture from the Neolithic period of the 21st century. The issues to be address will include possible functions and the development of early tombs, sculpted burial goods and imperial spirit roads; patronage, iconographic, and reception studies of Buddhist cave shrines and sculpture; the stylistic development of figural and animal sculpture; the development of both secular and religious Chinese architecture and garden design; the major figures and the “monuments” of sculpture and architectural studies; the development of Daoist sculpture; and the role of modern and contemporary sculpture and architecture in the public and private sphere. This course fulfills the Fine Arts and Human Diversity requirements in the core curriculum.

ARTH 329 Chinese Painting (4 credits)
The goal of this course is to engage students in a comprehensive examination of the historical development of Chinese painting from the Paleolithic period to the 20th century. The issues to be addressed will include the stylistic development of figure and landscape painting; the major figures and the “monuments” of painting; the influence of format on Chinese painting; the classification of subject matter and favored themes of Chinese painters; the early emergence of art history in Chinese painting and its later effects; changes in the socio-political influences on painters and their work; and methodological differences between modern Chinese and Western art historians. This course fulfills the Fine Arts and Human Diversity requirements in the core curriculum.

ARTH 330 Churches and Mosques in the First Millennium (4 credits)
This course examines the formation and development of the first Christian and Islamic art and architecture during the first millennium C.E. of Europe and the Mediterranean. The class will examine the development of religious structures for these new religions, the role of visual images in both religious and secular contexts, and the influences that these cultures exerted on each other. Areas to be covered include: the Early Christian period; the Germanic, Celtic, Anglo-Saxon, Scandinavian cultures of the sixth to eighth centuries; the Carolingian and Ottonian periods; Byzantine art and architecture; Islamic art and architecture. This course fulfills the Fine Arts requirement in the core curriculum.

ARTH 335 Cathedrals, Monasteries, and Caliphates (4 credits)
A survey of the arts in Europe during the Romanesque and Gothic periods, c. 1000-1400. Emphasis will also be given to contemporaneous currents in Byzantine and Islamic art and their influence on the art of the West. This course fulfills the Fine Arts core requirement.

ARTH 339 Western Costume’s Design and Visual Representation in Context (4 credits)
Clothing is not simply functional, but is also an expression of body ideals, class structure, gender, and historical development of technical and artistic change. This course looks at the materials, design, and use of textiles and garments from the early to the contemporary period in the West, with special stress on understanding the role of artistic representation and methodology in defining social status and standards of beauty. Attention will also be paid to the treatment of historic dress, both by authors of the period, and in popular culture. This course fulfills the Fine Arts requirement in the core curriculum.

ARTH 340 Southern Renaissance Art and Society (4 credits)
A survey of the art of Italy, Spain and Portugal from the fourteenth through the sixteenth centuries. The course will focus on issues of style, patronage and iconography. This course fulfills the Fine Arts requirement in the core curriculum.

ARTH 345 Baroque and Rococo Art (4 credits)
A survey of the art and architecture of western Europe in the seventeenth and eighteenth centuries. Emphasis will be given to issues of iconography, patronage, and style. This course fulfills the Fine Arts requirement in the core curriculum.

ARTH 355 20th Century: Cubism to Installation (4 credits)
Twentieth Century art will examine the stylistic, thematic and iconographic aspects of the modern movements in Europe, beginning with Fauvism and other manifestations of European Expressionism, Cubism, Orphism, Futurism, De Stijl, Dada, Surrealism, Art Informal and Tachisme, Optical and Pop Art, Photo-Realism, Conceptual Art, and Neo-Expressionism. This course fulfills the Fine Arts
ARTh 351 Romanticism to Impressionism (4 credits)
This course will investigate the history of European painting and sculpture from 1800 to 1880. It will consider the major trends of Neoclassicism, Romanticism, Realism, and Impressionism. It will also address art’s response to and role in a European society marked by colonialism, industrialization, and the rise of urban mass culture. This course fulfills the Fine Arts requirement in the core curriculum.

ARTh 352 Art in the United States (4 credits)
This course will investigate the history of the visual arts (primarily painting and sculpture) in the United States from 1776 to 1960. Artists to be considered include colonial portraitists; Romantic landscape painters; Neoclassical sculptors; Realist, Luminist, and Impressionist painters; artists associated with New York Dada and the Harlem Renaissance; Precisionists, Regionalists and Social Realists; and Abstract Expressionists. Participants will consider artists’ responses to key historical developments such as the founding of the nation, westward expansion, the Civil War, industrialization, and emergence as a superpower. Several issues will run throughout the course: What is the relationship between the art of Euro-Americans and that of Europe? and that of Native Americans? Is there something “American” about American art? How do the visual arts reinforce or challenge our sense of American history and identity? This course fulfills the Fine Arts requirement in the core curriculum.

ARTh 356 Modernism in European Art (4 credits)
Modernist artists strove to find a visual language of expression appropriate to their time; yet many contemporaries found their works incomprehensible, as do many people today. An open-minded and historically informed investigation of modern art helps to make sense of it. This course will explore the history of European painting and sculpture from 1880 to 1940. It will consider the many movements that characterized modernism, such as Post-Impressionism, Symbolism, Fauvism, Cubism, Futurism, Expressionism, Dada, Surrealism, and Constructivism. Issues to be addressed include the rejection of tradition, the development of abstraction, the impact of World War I and its aftermath, the influence of science and technology on art, and the fate of modernism under Hitler’s and Stalin’s regimes. Particular attention will be paid to the theoretical underpinnings of modern art. This course fulfills the Fine Arts requirement in the core curriculum.

ARTh 475, 476 Experiential Learning (2 credits)
ARTh 477, 478 Experiential Learning (4 credits)
These courses allow students to gain credit for certain non-classroom experiences. (These do not include studio art courses.) Normally open to junior and senior students. Permission of the department chair is required. Credit for experience is normally sought prior to its occurrence. See the complete description of these courses at the beginning of the “Curricula” section of this catalog. 
Prerequisite: previous course or courses in art history

ARTh 481 Senior Paper and Presentation (4 credits)
During the senior year, art history majors are expected to write a major research paper with an abstract and to describe the results of their research in an oral presentation to a departmental symposium to be held prior to graduation. The purpose of this paper and presentation is to allow the student to demonstrate competency in art historical methodology and to gain experience from presenting the results to a group of peers and faculty. The topic and instructor must be chosen in consultation with the department chair during the semester prior to writing the senior paper.
Prerequisite: ARTh 110 and 211 and permission of department chair

ARTh 483, 484 Seminar (2 credits)
ARTh 485, 486 Seminar (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

ARTh 487, 488 Topics (2 credits)
ARTh 489, 490 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.
ARTh 269, 389, 491 Research (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

ARTh 243, 393, 495 Individual Study (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.
Prerequisite: permission of the instructor or supervisor and previous work in art history
Biochemistry

Biochemistry is an interdisciplinary major that draws upon faculty and courses in the departments of Biology and Chemistry. The major is administered by a committee of representatives from both departments and is designed to meet the needs of students interested in gaining an understanding of the chemistry of life processes. Students who fulfill the requirements will receive a Bachelor of Science (B.S.) degree in biochemistry. The program is appropriate for students pursuing graduate studies in biochemistry, medicine, or related fields. The major is also suitable for students interested in positions in biotechnology after graduation.

Entering students interested in this major should inform Academic Counseling. Students are advised to begin their introductory biology, chemistry, and mathematics coursework in their freshman year. The Biochemistry Committee will coordinate advising. Students should talk with an adviser as soon as possible following their freshman year in order to select the elective courses that will be most appropriate to their interests. A research course in either biology or chemistry can be counted as one of the electives and is highly encouraged if the student will be seeking admission to a graduate program in biochemistry or molecular biology.

All graduating seniors are required to take achievement exams in both biology and chemistry for purposes of assessment of the major and College accreditation. Students choosing this major may not take a second major or a minor in either biology or chemistry.

Graduation with Honors in Biochemistry

Students graduating with a B.S. in biochemistry may also qualify for honors. Students interested in this designation must consult with the chair of the Biochemistry Committee one year or more prior to graduation.

Requirements include:

- An overall minimum cumulative GPA of 3.25.
- A cumulative GPA of 3.50 in the courses in both biology and chemistry combined.
- Completion of four credits in research. This may consist of a 4-credit course or two 2-credit courses in either biology or chemistry.
- Preparation of a written thesis in the form of the primary literature.
- Successful defense of the thesis before an examining panel which includes the thesis director, a representative from each of the departments of biology and chemistry, a faculty member from outside the departments of chemistry and biology and a faculty member from another institution. The panel members should be selected in consultation with the thesis adviser.
- Presentation of the research at an off-campus meeting.

Note: All requirements should be completed by April 20 for a spring graduation, or by November 15 for a fall graduation.

Major in Biochemistry (B.S.)

BIOL 207 Genetics, Ecology, and Evolution (4 credits)
BIOL 208 Biological Communication and Energetics (4 credits)
BIOL 209 Biology of Sustainability (4 credits)

Plus:

CHEM 111 General Chemistry I (4 credits) and CHEM 112 General Chemistry II (4 credits)

or

CHEM 115 Accelerated General Chemistry (4 credits)

Plus:

CHEM 201 Organic Chemistry I (4 credits)
CHEM 202 Organic Chemistry II (4 credits)
CHEM 440 Biochemistry I (4 credits)
CHEM 442 Biochemistry II (4 credits)

Plus four credits from the following:

CHEM 331 Chemical Thermodynamics and Reaction Dynamics (4 credits)
CHEM 332 Quantum Chemistry and Molecular Spectroscopy (4 credits)

Plus:

Twelve additional credits numbered BIOL 295 or higher.
Note: Four credits must be at the BIOL 400-level, excluding Research. Four credits may be in Research at the BIOL 300-level. Four additional credits in CHEM, selected in consultation with the adviser.

Note: CHEM 300 is strongly recommended for this elective.

Plus:

BCHM 301-303 Biochemistry Seminar Series (0-2 credits)

Allied requirements

MATH 113 Calculus I (4 credits) (or equivalent)
MATH 114 Calculus II (4 credits)
PHYS 111 Introduction to Classical Physics I (4 credits)
PHYS 112 Introduction to Classical Physics II (4 credits)

BCHM 301-303 Biochemistry Seminar Series (0-2 credits)
This sequence of courses is begun the first semester of the junior year and progresses for a total of three semesters. The first (BCHM 301) course is two credits and is graded on the usual letter grade scale. The second two courses (BCHM 302 and 303) are no credit and are graded on a pass-fail basis (S/R). The first course (BCHM 301) is an in-depth investigation of selected current topics in biochemistry designed to develop critical scientific reading, writing, and presenting skills while exploring biochemical primary literature. The class will meet for one and a half hours once a week with evaluation based upon in-class discussion and quality of written and oral assignments. The second and third courses (BCHM 302 and 303) are a two-semester seminar requirement whereby students must attend Biology and Chemistry departmental seminars. Required of all biochemistry majors.
Prerequisites: CHEM 202, completion or current enrollment in BIOL 209, and junior standing

BCHM 491 (2 or 4 credits)
See the description of this course at the beginning of the “Curricula” section of this catalog.
Biology (BIOL)

of Topics (BIOL 298, 398, 490) courses are available from time to time. Courses numbered between BIOL 483-498 may, with approval of the department chair, be used to fulfill the 400-level requirement for the major.

Courses numbered BIOL 101-199 are intended for students of majors other than those in the sciences and cannot be used to fulfill either the major or minor requirements in biology. All of these courses fulfill the laboratory science requirement in the core curriculum.

Students planning to enter graduate school or a professional program after leaving St. Thomas should consult the entrance requirements of these programs while planning their choice of undergraduate courses. Students are strongly encouraged to consult with their biology academic adviser while making these plans.

Courses taken at other colleges by students already matriculated at St. Thomas may be credited toward the requirements of the major only with prior and explicit written approval of the departmental transcript evaluator. Approval will be granted only to reconcile schedule conflicts which otherwise would be unavoidable, to provide opportunities to enroll in appropriate courses that are not available in the St. Thomas curriculum, or to rectify problems arising from other special circumstances. These limitations apply to all requirements of the major, including courses in the allied requirements.

Transfer students desiring credit toward the major for work completed prior to matriculation at St. Thomas should contact the transcript evaluator in the Office of the University Registrar before seeking departmental approval. For biology courses numbered higher than BIOL 209, no more than 12 transfer credits can be counted towards the major. Of these 12, no more than 8 credits can be from academic institutions within the U.S.A, and no more than 12 credits can be from study abroad courses registered through St. Thomas.

Students who receive at least a score of 4 on the Biology Advanced Placement Exam or at least a score of 5 on the International Baccalaureate exam will receive 4 college credits in biology. Students not intending to major in biology will receive credit for BIOL 101 (fulfills a natural science with laboratory course requirement). Students intending to major in biology or related programs who score 4 on the AP exam will receive credit for BIOL 101, which will fulfill a core lab science requirement but will not fulfill a major field requirement. Students intending to major in biology or related programs who score 5 on the AP exam or 5-7 on the IB exam will receive 4 credits for BIOL 243, which counts toward the biology major.

Extracurricular Expectations

All students are expected to participate in departmental assessment activities and complete the departmental Senior Survey in the spring of their final year. All students are also strongly encouraged to attend the Biology Seminar Program on a regular basis.

Departmental Participation

Students are encouraged to further engage the discipline of biology by participating in various departmental activities. Valuable experiences in the department include both paid and volunteer roles as research assistants (with ongoing faculty projects), teaching assistants, lab preparators, and tutors. Together with off-campus internships, membership in the Biology Club and the Beta Beta Beta National Biology Honor Society, as well as the Biology Seminar Program and various special events, these opportunities offer many ways to explore the vast discipline of biology and become better acquainted with department members and other students.

Biology Honor Societies

Beta Beta Beta, the national biology honor society, chartered the Gamma Tau chapter at St. Thomas in 1990. The purpose of this organization is to recognize and encourage excellence in the study of biology, and to sponsor events and services of interest to biology students. The organization has a particular interest in promoting and recognizing student research, and encouraging students to consider vocations in the field of biology. Beta Beta Beta provides opportunities for presenting and publishing student work on a regional and national level.

Students are eligible for full membership when they have completed twelve credits in the department, with at least four credits at the 300-level, and have a grade point average of 3.0 or better in biology department courses. Associate membership in the chapter is available to all interested students.

Biology Honors Program

Candidates for graduation with honors in biology must complete four credits in 400-level biology Research (491), present and defend a thesis based on their work; achieve a final cumulative grade point average of at least 3.50 in biology department courses, 3.25 in biology and allied courses and 3.00 overall; and present their research at a scientific meeting beyond the St. Thomas community. Students interested in this program should begin planning early and in consultation with their academic advisor.

Interdisciplinary Programs

The Department of Biology participates in three interdisciplinary degree programs, each of which leads to a Bachelor of Science degree: Biochemistry (with Chemistry); Environmental Science (with Chemistry and Geology); and Neuroscience (with Psychology). These programs are described elsewhere in the catalog. Students interested in concentrating in biology as part of the environmental studies major listed in this catalog should consult with a Department of Biology adviser to select appropriate courses.
Pre-Health Professions Programs
Students interested in a career in the health professions should consult the university’s pre-health professions advising committee. See Pre-Professional Programs in this catalog for coursework suggestions, internships, and other information.

Life Science Education
For information on the teaching licensure program in Life Science, see the Education section of this catalog. Students interested in specializing in biology at the elementary school level should consider the integrated major in Science and Mathematics for Elementary Education (SMEE), also described in the Education section.

Major in Biology (B.A.)
BIOL 207 Genetics, Ecology, and Evolution (4 credits)
BIOL 208 Biological Communication and Energetics (4 credits)
BIOL 209 Biology of Sustainability (4 credits)

Note: The normal expectation is that students will complete BIOL 207, 208, and 209 by the end of their sophomore year.

Plus twenty-four credits, at least four credits of which must be in courses numbered 400-498 (excluding 476, 478) from:
BIOL 210 Introduction to Laboratory Research (2 credits)
BIOL 211 Introduction to Field Research (4 credits)
BIOL 243 Individual Study (2 or 4 credits)*
BIOL 269 Research (2 or 4 credits)*
BIOL 287 Biology of HIV and AIDS (2 credits)
BIOL 292 Topics without laboratory (4 credits)
BIOL 296 Topics (2 credits)
BIOL 298 Topics (4 credits)
BIOL 302 Animal Diversity (4 credits)
BIOL 315 Plants, Food and Medicine (4 credits)
BIOL 320 Plant Physiology (4 credits)
BIOL 328 Environmental Toxicology and Health (4 credits)
BIOL 330 Animal Behavior (4 credits)
BIOL 333 Ecology (4 credits)
BIOL 335 Conservation Biology (4 credits)
BIOL 349 Comparative Anatomy and Physiology: Locomotion and Systems Regulation (4 credits)
BIOL 350 Comparative Anatomy and Physiology: Energy Acquisition and Processing (4 credits)
BIOL 353 Microscopic Anatomy (4 credits)
BIOL 354 Neurobiology (4 credits)
BIOL 356 Microbiology (4 credits)
BIOL 360 Genetics (4 credits)
BIOL 361 Medical Geology (4 credits)
BIOL 363 Immunology (4 credits)
BIOL 365 Developmental Biology (4 credits)
BIOL 371 Cell Biology (4 credits)
BIOL 389 Research (2 or 4 credits)*
BIOL 393 Individual Study (2 or 4 credits)*
BIOL 396 Topics (2 credits)
BIOL 398 Topics (4 credits)
BIOL 415 Plant Physiology and Adaptations to Stress (4 credits)
BIOL 430 Evolutionary Ecology (4 credits)
BIOL 435 Aquatic Biology (4 credits)
BIOL 462 Molecular Biology (4 credits)
BIOL 464 Bioinformatics (4 credits)
BIOL 467 Biology of Emerging Infectious Diseases (4 credits)
BIOL 471 Evolution (4 credits)
BIOL 472 Evolution, Medicine & Psychology (4 credits)
BIOL 476 Experiential Learning (2 credits)
BIOL 478 Experiential Learning (4 credits)
BIOL 484 Seminar (2 credits)
**Biology (BIOL)**

BIOL 486 Seminar (4 credits)
BIOL 488 Topics (2 credits)
BIOL 490 Topics (4 credits)
BIOL 491 Research (2 or 4 credits)*
BIOL 495 Individual Study (2 or 4 credits)*
CHEM 440 Biochemistry I (4 credits)**

*A maximum of eight credits in Research and/or Individual Study can be credited toward the requirements of the major.

**CHEM 440 may be counted toward the major as a 300-level elective course.

**Allied requirements**

CHEM 111 General Chemistry I (4 credits) and CHEM 112 General Chemistry II (4 credits) or CHEM 115 Accelerated General Chemistry (4 credits)
CHEM 201 Organic Chemistry I (4 credits)

**Plus four credits from the following:**

STAT 220 Statistics I (4 credits)
MATH 303 Statistics for the Applied Sciences (4 credits)
STAT 310 Biostatistics (4 credits)

Note: The normal expectation is that students will complete the above allied requirements by the end of the sophomore year.

**Plus at least two of the following selected in consultation with the departmental adviser:**

CHEM 202 Organic Chemistry II (4 credits)
MATH 109 Calculus with Review II (4 credits) or MATH 113 Calculus I (4 credits)
PHYS 109 General Physics I (4 credits) or PHYS 111 Introduction to Classical Physics I (4 credits)

Note: Alternative course combinations to satisfy elective allied requirements may be proposed for approval by the department chair.

---

**Major in Biology (B.S.)**

BIOL 207 Genetics, Ecology, and Evolution (4 credits)
BIOL 208 Biological Communication and Energetics (4 credits)
BIOL 209 Biology of Sustainability (4 credits)

Note: The normal expectation is that students will complete BIOL 207, 208, and 209 by the end of their sophomore year.

**Plus twenty eight credits, at least four credits of which must be in courses numbered 400-498 (excluding 476, 478) from:**

BIOL 210 Introduction to Laboratory Research (2 credits)
BIOL 211 Introduction to Field Research (4 credits)
BIOL 243 Individual Study (2 or 4 credits)*
BIOL 269 Research (2 or 4 credits)*
BIOL 287 Biology of HIV and AIDS (2 credits)
BIOL 292 Topics without laboratory (4 credits)
BIOL 296 Topics (2 credits)
BIOL 298 Topics (4 credits)
BIOL 302 Animal Diversity (4 credits)
BIOL 315 Plants, Food and Medicine (4 credits)
BIOL 320 Plant Physiology (4 credits)
BIOL 328 Environmental Toxicology and Health (4 credits)
BIOL 330 Animal Behavior (4 credits)
BIOL 333 Ecology (4 credits)
BIOL 335 Conservation Biology (4 credits)
BIOL 349 Comparative Anatomy and Physiology: Locomotion and Systems Regulation (4 credits)
BIOL 350 Comparative Anatomy and Physiology: Energy Acquisition and Processing (4 credits)
BIOL 353 Microscopic Anatomy (4 credits)
BIOL 354 Neurobiology (4 credits)
Biology (BIOL)

BIOL 356 Microbiology (4 credits)
BIOL 360 Genetics (4 credits)
BIOL 361 Medical Geology (4 credits)
BIOL 363 Immunology (4 credits)
BIOL 365 Developmental Biology (4 credits)
BIOL 371 Cell Biology (4 credits)
BIOL 389 Research (2 or 4 credits)*
BIOL 393 Individual Study (2 or 4 credits)*
BIOL 396 Topics (2 credits)
BIOL 398 Topics (4 credits)
BIOL 415 Plant Physiology and Adaptations to Stress (4 credits)
BIOL 430 Evolutionary Ecology (4 credits)
BIOL 435 Aquatic Biology (4 credits)
BIOL 462 Molecular Biology (4 credits)
BIOL 464 Bioinformatics (4 credits)
BIOL 467 Biology of Emerging Infectious Diseases (4 credits)
BIOL 471 Evolution (4 credits)
BIOL 472 Evolution, Medicine & Psychology (4 credits)
BIOL 476 Experiential Learning (2 credits)
BIOL 478 Experiential Learning (4 credits)
BIOL 484 Seminar (2 credits)
BIOL 486 Seminar (4 credits)
BIOL 488 Topics (2 credits)
BIOL 490 Topics (4 credits)
BIOL 491 Research (2 or 4 credits)*
BIOL 495 Individual Study (2 or 4 credits)*
CHEM 440 Biochemistry I (4 credits)**

* A maximum of eight credits in Research and/or Individual Study will be credited towards the requirements of the major.
** CHEM 440 may be counted towards the major as a 300-level elective course.

Allied requirements

CHEM 111 General Chemistry I (4 credits) and CHEM 112 General Chemistry II (4 credits) or CHEM 115 Accelerated General Chemistry (4 credits)
CHEM 201 Organic Chemistry I (4 credits)
MATH 109 Calculus with Review II (4 credits) or MATH 113 Calculus I (4 credits)
STAT 220 Statistics I (4 credits) or STAT 310 Biostatistics (4 credits) or MATH 303 Statistics for the Applied Sciences (4 credits)

Note: The normal expectation is that students will complete the above allied requirements by the end of the sophomore year.

PHYS 109 General Physics I (4 credits) or PHYS 111 Introduction to Classical Physics I (4 credits)

Other requirements

Eight credits from the following, selected in consultation with the departmental adviser. Alternative course combinations to satisfy this requirement may be proposed for approval by the department chair:

CHEM 202 Organic Chemistry II (4 credits)
CHEM 300 Quantitative Analysis (4 credits)
CISC 230 Object-Oriented Design and Programming (4 credits)
CISC 342 Computer Applications in Experimental Sciences (4 credits)
ENGR 350 Introduction to Electronics (4 credits)
ESCI 310 Environmental Problem Solving (4 credits)
GEOL 115 Environmental Geology (4 credits)
GEOL 162 The Earth’s Record of Climate (4 credits)
GEOL 130 Earth History (4 credits)
GEOG 223 Remote Sensing (4 credits)
HLTH 400 Epidemiology (4 credits)
IDSC 312 Gender and Science (4 credits)
STAT 310 Biostatistics (4 credits) (if not used to meet the allied requirements)
STAT 320 Statistics II (4 credits)
MATH 114 Calculus II (4 credits)
MATH 315 Applied Mathematics and Modeling I (4 credits)
**Biology (BIOL)**

MATH 316 Applied Mathematics and Modeling II (4 credits)  
PHYS 110 General Physics II (4 credits) or PHYS 112 Introduction to Classical Physics II (4 credits)  
PSYC 206 The Brain and Human Behavior (4 credits)  
PSYC 207 Alcohol, Other Drugs and Behavior (4 credits)  
PSYC 401 Physiological Psychology (4 credits)  

**Major in Biology of Global Health (B.S.)**

Note: A student cannot simultaneously major in the Biology of Global Health and either major or minor in Biology (B.A. or B.S.), Biochemistry, or Neuroscience.

BIOL 207 Genetics, Ecology, and Evolution (4 credits)  
BIOL 208 Biological Communication and Energetics (4 credits)  
BIOL 209 Biology of Sustainability (4 credits)  
BIOL 328 Environmental Toxicology: From Local to Global (4 credits)  
BIOL 474 Senior Seminar in Global Health (4 credits)  

Plus 16 credits with at least four credits from each cluster:

**Cellular/Molecular cluster:**  
BIOL 356 Microbiology (4 credits)  
BIOL 360 Genetics (4 credits)  
BIOL 365 Developmental Biology (4 credits)  
BIOL 371 Cell Biology (4 credits)  
BIOL 462 Molecular Biology (4 credits)  
BIOL 464 Bioinformatics (4 credits)  

**Host and Disease Cluster:**  
BIOL 302 Animal Diversity (4 credits)  
BIOL 353 Microscopic Anatomy (4 credits)  
BIOL 363 Immunology (4 credits)  
BIOL 287 Biology of HIV/AIDS (2 credits)  
BIOL 467 Biology of Emerging Infectious Diseases (4 credits)  
BIOL 471 Evolution (4 credits)  

**Ecosystem Health Cluster:**  
BIOL 211 Introduction to Field Research (4 credits)  
BIOL 315 Plants, Food and Medicine (4 credits)  
BIOL 333 Ecology (4 credits)  
BIOL 335 Conservation Biology (4 credits)  
BIOL 361 Medical Geology (4 credits)  
BIOL 435 Aquatic Ecology (4 credits)  
BIOL 490 Urban Ecosystems (4 credits)  

**Allied Requirements**

CHEM 111 General Chemistry I (4 credits) and CHEM 112 General Chemistry II (4 credits) or CHEM 115 Accelerated General Chemistry (4 credits)  
HLTH 353 Consumer, Community and Environmental Health (4 credits)  
HLTH 400 Epidemiology (4 credits)  
STAT 220 Statistics (4 credits)  
STAT 310 Statistics (4 credits)  

Plus 12 credits selected in consultation with their academic advisor and approved by the Biology Department Chair.  
1. The courses must be cohesive and clearly related to each other as a block; however, they may be interdisciplinary and must be outside of Biology.  
2. The block of courses must be clearly related to the Biology of Global Health major.  
3. Students must submit a written proposal for these 12 credits that clearly describes how they are related to each other, and how they are related to the BGH major. The proposal must be approved by the department chair. The student may register for no more than one third of the credits prior to receiving approval of the proposal.
MAJOR IN BIOCHEMISTRY (B.S.)
See Biochemistry

MAJOR IN ENVIRONMENTAL SCIENCE (B.S.)
See Environmental Science

MAJOR IN NEUROSCIENCE (B.S.)
See Neuroscience

Teacher Licensure
Elementary Education with a Co-major in Science and Mathematics for Elementary Education
Elementary Education with a Specialty in Science (5-8)
Co-major in Science (5-8) – Life Science (9-12) and a Co-major in Secondary Education
See Education

Minor in Biology
BIOL 207 Genetics, Ecology, and Evolution (4 credits)
BIOL 208 Biological Communication and Energetics (4 credits)
BIOL 209 Biology of Sustainability (4 credits)

Plus:
Eight additional credits in biology courses numbered 200 or above, selected in consultation with the department chair.

Note: CHEM 440 Biochemistry I cannot be counted towards the Biology minor.

BIOL 101 General Biology (4 credits)
Emphasizing biology as a creative, investigative process and its relevance in today’s world, this course provides an overview of cell biology, genetics, physiology, and human impact on the environment. Two laboratory hours per week. This course fulfills the core-area in natural science in the Natural Science and Mathematical and Quantitative Reasoning requirement in the core curriculum. Not open to biology majors, pre-professional students, or students who have completed BIOL 105 or BIOL 106.

BIOL 102 Conservation Biology (4 credits)
An introduction to the basic concepts of conservation biology, including the history of conservation, the value of biological diversity, threats to biodiversity, conservation at the population, species, and community levels, and applications to human activities. Laboratories will emphasize data collection and analysis, and the practical application of conservation practices. This course is designed to meet the needs of the Environmental Studies major for a core course in environmental biology. Two laboratory hours per week. This course fulfills the core-area in natural science in the Natural Science and Mathematical and Quantitative Reasoning requirement in the core curriculum. Not open to biology majors, pre-professional students, or students who have completed BIOL 105 or BIOL 106.

BIOL 105 Human Biology (4 credits)
An introduction to cells, genetics, development and the human body, and the impact of humans on the environment. Laboratories will emphasize investigative scientific problem solving and creative thinking. Does not fulfill entrance requirements for some health professions programs. Pre-health professional students should consult the university’s pre-health professions advising committee. This course is designed to meet the needs of social work and psychology majors. Two laboratory hours per week. This course fulfills the core-area in natural science in the Natural Science and Mathematical and Quantitative Reasoning requirement in the core curriculum. Not open to biology majors, or students who have completed BIOL 101 or BIOL 106.

BIOL 106 Women, Medicine and Biology (4 credits)
This course addresses issues of biology from the perspective of women. The focus of the course will be to learn basic principles of biology in areas such as anatomy, physiology, genetics, cell biology, and microbiology in the context of issues relevant to women and women’s health. Two laboratory hours per week. This course fulfills the core-area in natural science in the Natural Science and Mathematical and Quantitative Reasoning requirement in the core curriculum. Not open to Biology majors or students who have completed BIOL 101 or BIOL 105.
**Biology (BIOL)**

**BIOL 195, 196 Topics (2 credits)**

BIOL 197, 198 Topics (4 credits)

The subject matter of these courses will vary from year to year, but will not duplicate existing courses. This course fulfills the core-area in natural science in the Natural Science and Mathematical and Quantitative Reasoning requirement in the core curriculum. Not open to biology majors, pre-professional students, or students who have completed other BIOL course at the 100-level.

**BIOL 200 First Year Seminar in Biology (1 credit)**

This seminar is intended to provide an introduction to the Biology Department for incoming students. Through various topics, students will explore what it means to be a biologist. How do scientists approach problems? How do students of biology understand and critically analyze science as it is portrayed in the media and discussed in other courses? How can students best take advantage of their four years as a biology student? Faculty teaching the seminar will serve as academic advisers to the students in the seminar. Students will have opportunities to discuss course and curricular questions. Seminar topics will vary depending on the instructor. One hour per week. Pass/Fail grading.

**BIOL 207 Genetics, Ecology, and Evolution (4 credits)**

A consideration of the mechanisms of heredity, evolution, population genetics, and population ecology emphasizing hypothesis testing, case studies, and quantitative and experimental approaches to population biology. Topics include: Mendelian genetics, genetic mapping, population genetics, selection theory and the process of adaptation, speciation, macroevolution and phylogenetics, and the growth and regulation of populations. Laboratory work emphasizes techniques for data analysis, including computer simulation and modeling. Three laboratory hours per week. This course fulfills the core-area in natural science in the Natural Science and Mathematical and Quantitative Reasoning requirement in the core curriculum

Prerequisite: Concurrent registration in CHEM 111 or CHEM 115

**BIOL 208 Biological Communication and Energetics (4 credits)**

The purpose of this course is to introduce the structure and function of cells, and how structure and function drives organismal physiology and diversity. By the end of this course, through lecture and laboratory exercises, students should have an understanding of the basic components of cells, how cells and organisms transfer genetic information to future generations, how communication is integral to cellular and organismal function, and how cells and organisms generate and process energy to drive physiological functions. In addition, students will continue to improve sills for scientific inquiry through activities designed to increase familiarity with the scientific literature and science terminology, through skills to design and critically analyze experiments, foster ability to work within a scientific team, and provide opportunities to improve scientific writing. Any one topic covered in this course has enough material for a course of its own. However, this course will give a basic overview of a series of selected topics that are meant to introduce students to the vast field of cellular and organismal biology and the use of biological science in life. Three laboratory hours per week.

Prerequisite: A minimum grade of C- in BIOL 207; and concurrent registration in CHEM 112 or CHEM 115

**BIOL 209 Biology of Sustainability (4 credits)**

Influence of humans on the global environment has reached unprecedented levels, increasing the need for society to strive to live in a sustainable manner. Many issues facing the environment have a biological basis. Thus, an understanding of basic biology is necessary to understand and address many environmental issues. This course will cover the fundamental biology involved with five environmental issues at the global scale: climate change, excessive nutrient loading into ecosystems, agricultural production, chemical contaminants, and loss of biodiversity. Specific biological principles to be covered include energy and nutrient mass balance by organisms and ecosystems, homeostasis and organismal physiology, and population dynamics and conservation biology. Three laboratory hours per week.

Prerequisites: A minimum grade of C- in BIOL 208

**BIOL 210 Introduction to Laboratory Research (2 credits)**

An introductory experience in the pursuit of laboratory based research problems in biology. Students work in teams to perform experiments designed to answer questions in a specified area of biology, maintain a journal of these experiments and their observations, and study and discuss pertinent literature. Emphasis on the application of the scientific method to biological problem solving, the role of research teams in science and the communication of findings to others as the end product of science. Area of investigation varies with the research interests of the instructor(s) for the course. Offered only in January term.

Prerequisite: Open to biology majors or prospective majors; BIOL 207. First-year or sophomore status or permission of instructor

**BIOL 211 Introduction to Field Research (4 credits)**

An introductory experience in field-based research problems in biology. Students will work individually or in small teams to define appropriate questions, design research methods, collect and analyze data, and present oral and written reports. Emphasis is on the application of the scientific method to biological problem solving and the communication of findings to others as the end product of
science. Areas of investigation vary with the interests of the students and instructors and with the availability of research organisms. Generally offered in January term. Field trip of 2-3 weeks to a tropical site (Mexico, Belize, Ecuador, Jamaica, The Bahamas, or Costa Rica) and additional fees required.

Prerequisites: Open to biology majors or prospective majors; BIOL 207. Preference given to students in their first or second year of study in the discipline.

**BIOL 243 Individual Study (2 or 4 credits)**
These courses provide a means for obtaining credit on a tutorial basis for courses not otherwise available at UST or other institutions in the ACTC consortium, and are intended to satisfy unusual needs and circumstances. Students interested in Individual Study should discuss their plans with the faculty member most likely to be their tutor at least one semester before the course is to be taken.

Individual Study proposal forms must be completed and approved by the faculty member, the department chair, and the Dean of the College prior to registration.

Prerequisite: Permission of the instructor and the department chair

**BIOL 269 Research (2 or 4 credits)**
Original laboratory, field, library or other analytical investigation under the direction of a member of the biology faculty, culminating in either a written research paper or an oral presentation. Upper-class standing not required.

Prerequisite: Permission of the instructor and the department chair

**BIOL 287 Biology of HIV and AIDS (2 credits)**
The HIV/AIDS pandemic is now 30 years old. Remarkable progress has been made in learning about and combatting this virus, but HIV/AIDS has proved more difficult to treat successfully than many other diseases. This class will focus on why HIV/AIDS has been such a monumental scientific and social challenge. This course will include aspects such as the molecular biology of the HIV virus and its effects on human cells, a basic view of how the immune system works and how HIV disrupts that function, how epidemiological methods helped identify HIV as the causative agent of AIDS, and what social, political and economic challenges have been and are currently important in fighting the pandemic. We will approach these topics through discussion and investigation. All students will be expected to participate actively in class discussions.

Prerequisite: Permission of the instructor

**BIOL 292 Topics without laboratory (4 credits)**
Same as BIOL 295-298 except that these courses do not have a laboratory component.

Prerequisite: Permission of the instructor

**BIOL 296 Topics (2 credits)**
**BIOL 298 Topics (4 credits)**
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Courses in this category may be credited toward the requirements of the major depending on appropriateness of content, and with prior and explicit written approval of the instructor and the department chair. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

Prerequisite: Permission of the instructor

**BIOL 302 Animal Diversity (4 credits)**
This course emphasizes the variety of morphological and physiological solutions that have evolved to satisfy the requirements of life as an animal in water and on land. Students have access to marine and freshwater aquaria and to natural habitats for class study and individual projects. Four laboratory hours per week.

Prerequisite: A minimum grade of C- in BIOL 209

**BIOL 315 Plants, Food and Medicine (4 credits)**
This course explores the biology of plants from the perspective of our use of plants as a source of food and medicine. Major topics include the overall structure and function of plants, the diversity of plants, and the role of plants as a food source, as well as a source of medicine. Four laboratory hours per week.

Prerequisite: A minimum grade of C- in BIOL 209

**BIOL 320 Plant Physiology (4 credits)**
The goals of this course are to introduce essential topics within the field of plant physiology, and to engage the theme of sustainabil-
**Biology (BIOL)**

ity in agriculture as an important global issue with numerous plant physiological applications. The course content includes photosynthesis and other biochemical processes of plants, water transport and nutrient uptake, plant interactions with the environment and hormonal regulation of plants. Four laboratory hours per week.

Prerequisite: A minimum grade of C- in BIOL 209

**BIOL 328 Environmental Toxicology: From Local to Global (4 credits)**

There is increasing public interest and concern over the connections between environmental quality and human health. This course will explore these connections by providing an introduction to the multidisciplinary field of environmental toxicology- the study of the adverse effects of chemical, biological, and physical agents in the environment on living organisms, including humans. Topics will cover global and local problems including issues of environmental justice and future approaches to sustainably mitigate the major environmental health problems in industrialized and developing countries. Four laboratory hours per week.

Prerequisite: BIOL 209 or permission of the instructor.

**BIOL 330 Animal Behavior (4 credits)**

The study of animal behavior at multiple levels connecting neural, hormonal, and genetic mechanisms of behavior to an evolutionary perspective. The adaptive value of behaviors such as display, habitat selection, foraging pattern, and mating system is examined. Theoretical analysis of sexual selection and the evolution of cooperation and altruism are considered. Laboratory work emphasizes the measurement and analysis of animal behavior under natural conditions. Four laboratory hours per week.

Prerequisite: A minimum grade of C- in BIOL 209; STAT 220 or MATH 303 recommended

**BIOL 333 Ecology (4 credits)**

An exploration of the major concepts in modern ecology, including ecophysiology and adaptation, population growth and regulation, community and ecosystem ecology, and biodiversity and conservation biology. Laboratory and field work will complement these topics and will emphasize careful experimental design and statistical analysis of data. Four laboratory hours per week.

Prerequisite: A minimum grade of C- in BIOL 209; STAT 220 or MATH 303 recommended

**BIOL 335 Conservation Biology (4 credits)**

Using approaches from ecology and evolutionary biology, this course examines processes affecting populations of rare and endangered species, as well as control of introduced or pest species. Ecosystem and community-level management projects are addressed in addition to projects directly focused on individual species. Topics include populations, genetic diversity within populations, the interaction between population ecology and population genetics, and biological control of pests. Laboratory work includes field and laboratory study of species with broad ecological implications for the ecosystems and biological communities of the Upper Midwest. Four laboratory hours per week.

Prerequisite: A minimum grade of C- in BIOL 209

**BIOL 349 Comparative Anatomy and Physiology: Locomotion and Systems Regulation (4 credits)**

Examination of the functional morphology of the vertebrate skeletal, muscular, nervous, endocrine and reproductive systems. Emphasis will be placed upon the evolution, development and function of these systems as well as the control and integration of all organ systems in vertebrates. This course may be taken as part of a two-semester sequence with BIOL 350 but may also be taken alone. Four laboratory hours per week.

Prerequisite: A minimum grade of C- in BIOL 209 or permission of instructor

**BIOL 350 Comparative Anatomy and Physiology: Energy Acquisition and Processing (4 credits)**

An examination of the functional morphology of the vertebrate cardiovascular, respiratory, renal, and digestive systems, including control and integration of organ systems, adaptation to environment, and evolutionary development in vertebrates. Laboratory work will emphasize functional comparisons of vertebrate organ systems and an experimental approach to physiological problems. Four laboratory hours per week.

Prerequisite: A minimum grade of C- in BIOL 209 or permission of instructor

**BIOL 353 Microscopic Anatomy (Vertebrate Histology) (4 credits)**

Microscopic structure and its relationship to physiological function among the basic tissue types and in selected organ systems. Focus includes levels of biological organization from subcellular to organismal, with emphasis on humans and other mammals. Special consideration is given to the organization and function of integrating systems, including glandular, vascular, and neural, and to the molecular structure of, and functional integration among, cellular junctions and transport mechanisms, cytoskeletal components, and extracellular matrices. Opportunities for participation in experimental or other investigative projects are available. Four laboratory hours per week.

Prerequisite: A minimum grade of C- in BIOL 209
BIOL 354 Neurobiology (4 credits)
An introduction to the study of neuroscience from the cellular, systems, and behavioral perspectives. Topics will include how information is carried by neural tissues, the ionic basis for neuronal potentials, neurotransmitters and synaptic transmission, sensory and motor systems, and the neural mechanisms of learning, memory and behavior. Four laboratory hours per week.
Prerequisites: A minimum grade of C- in BIOL 209; or permission of instructor

BIOL 356 Microbiology (4 credits)
The in-depth study of microorganismal biology is directed at gaining an understanding of the mechanisms that underlie the functions of bacteria and viruses. The importance of microorganisms as they relate to human disease, industry and the environment will be explored through lectures, readings from the literature and discussions. Laboratory includes an independent research project done in collaboration with the professor and peers. Four laboratory hours per week.
Prerequisite: A minimum grade of C- in BIOL 209; completion of or concurrent registration in CHEM 201

BIOL 360 Genetics (4 credits)
Detailed consideration of specific topics in transmission, molecular, and population genetics. Eukaryotic and prokaryotic systems discussed. Genetic reasoning and analysis will be emphasized. Four laboratory hours per week.
Prerequisite: A minimum grade of C- in BIOL 209; CHEM 201

BIOL 361 Medical Geology (4 credits)
This course explores the effects of geologic materials and processes on human health. Topics include exposure to or deficiency of trace metals and minerals, inhalation of ambient and anthropogenic mineral dusts and volcanic emissions; transportation, modification and concentration of organic compounds; and exposure to radionuclide's, microbes and pathogens in various geologic settings. The knowledge and skills covered in this course will provide an understanding of the geological and biological processes controlling various health concerns and thus provides a preparation to contribute to important societal questions.
Prerequisite: A minimum of C- in BIOL 209

BIOL 363 Immunology (4 credits)
A study of the mammalian immune system emphasizing the genetic and cellular basis of the immune response. Basic immunological concepts will be used to explore the mechanisms of transplantation rejection, autoimmunity, AIDS and other topics of interest. Four laboratory hours per week.
Prerequisite: A minimum grade of C- in BIOL 209

BIOL 365 Developmental Biology (4 credits)
An examination of current concepts regarding the mechanisms, both genetic and epigenetic, underlying embryogenesis and metamorphosis in a wide variety of animal model systems and the experimental basis for those concepts. Laboratory work may include an experimental investigation culminating in a written report in scientific format based on that investigation and grounded in relevant primary literature. Four laboratory hours per week.
Prerequisite: A minimum grade of C- in BIOL 209; CHEM 201.

BIOL 371 Cell Biology (4 credits)
An advanced investigation of topics in cell structure and the regulation of cellular activities, including signal transduction, protein transport, cell-cycle regulation, and cellular movement, emphasizing molecular mechanisms, current concepts and their experimental basis. Includes significant use of the primary literature. Four laboratory hours per week.
Prerequisites: A minimum grade of C- in BIOL 209; CHEM 201

BIOL 389 Research (2 or 4 credits)
Original laboratory, field, library or other analytical investigation under the direction of a member of the biology faculty, culminating in either a written research paper or an oral presentation. Upper-class standing not required.
Prerequisite: A minimum grade of C- in BIOL 209 and permission of the instructor and the department chair

BIOL 393 Individual Study (2 or 4 credits)

BIOL 396 Topics (2 credits)
BIOL 398 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses
Biology (BIOL)

are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

BIOL 415 Plant Physiology and Adaptations to Stress (4 credits)
An examination of fundamental principles in plant physiology, such as photosynthesis and plant water transport. In addition, special focus will be given to understanding how plants survive and adapt to adverse environmental conditions, e.g. drought, nutrient limitation, and extreme temperatures. Four hours laboratory per week. The laboratory will include an independent research project. Prerequisite: A minimum grade of C- in BIOL 209; any 300-level BIOL course

BIOL 430 Evolutionary Ecology (4 credits)
The influence of natural selection on behavior in relation to ecological conditions. Emphasis is on integration of theoretical and experimental methods. Includes critical reading of papers from the primary literature and completion of a significant independent research project. Four laboratory hours per week. Prerequisite: A minimum grade of C- in BIOL 330 or 333, or in any two 300-level biology courses; STAT 220 or MATH 303 strongly recommended

BIOL 435 Aquatic Biology (4 credits)
Characteristics of lakes, streams and other aquatic habitats; including plant and animal communities, water chemistry and productivity. Use of recent primary literature to learn and evaluate field techniques, data collection and data analysis. Both individual and class research projects focus on aquatic systems. Four laboratory hours per week. Prerequisite: A minimum grade of C- in BIOL 330 or 333, or in any two 300-level biology courses; STAT 220 or MATH 303 strongly recommended

BIOL 462 Molecular Biology (4 credits)
An investigation of current concepts in molecular biology including gene expression and its regulation, the organization of genetic information, recombinant DNA techniques, oncogenes and genetic engineering. The laboratory consists of a collaborative research project. Four laboratory hours per week. Prerequisite: A minimum grade of C- in BIOL 356, 360, or 371. Alternative prerequisites may be accepted with permission of the instructor.

BIOL 464 Bioinformatics (4 credits)
Bioinformatics is an emerging field in the sciences that arises from interactions between biology, biochemistry, and computational science. The goal of bioinformatics is to find ways to sort, compare, and decode nucleotide and protein sequences to identify underlying similarities and patterns that are biologically relevant. This knowledge of bioinformatics along with the advent of genome sequencing has changed how scientists investigate problems. Instead of looking at how one gene or protein is affected by a particular problem, we now look at how the entire genome (genomics) or the entire organism (proteomics) responds. This course will introduce you to the tools that are available for these types of analysis and how the information gained from these tools is used to generate hypotheses in all areas of biological science. Four laboratory hours per week. Prerequisite: Any two 300-level biology courses (one of which can be CHEM 400)

BIOL 467 Biology of Emerging Infectious Diseases (4 credits)
This course focuses on emerging infectious diseases from many different perspectives with particular attention to the ways in which human behavior is altering the ecology of infectious disease transmission, thereby promoting emergence of these diseases as a major global public health threat. The course will be a seminar format designed around case studies, discussion, guest speakers, and student projects. Laboratory will consist of an independent research project done in collaboration with the professor and peers. Four laboratory hours per week. Prerequisite: Two Biology courses at the 300-level or above

BIOL 471 Evolution (4 credits)
An advanced exploration of the major concepts in modern evolutionary biology, including adaptation and natural selection, evolutionary genetics and microevolution, macroevolution, and molecular evolution. Applications of evolutionary thinking to such topics as medicine, aging, life history patterns, and behavior will be major foci. Four laboratory/recitation hours per week. Prerequisites: A minimum grade of C- in BIOL 209; any 300-level BIOL course

BIOL 472 Evolution, Medicine, and Psychology (4 credits)
This course explores how the principles of evolutionary biology can be used to enhance our understanding of human disease and social psychology. In the first half of the course we will explore such topics as the evolution of virulence in pathogens, the persistence
of genetic diseases in human populations, the evolutionary basis of aging, and the disease consequences of mismatches between our current environment and the environment in which humans evolved. In the second half of the course we will study the relationships between human social psychology and social interactions and will consider such topics as mate choice, parent-offspring relations, selfishness and altruism, and the possible evolutionary basis of various mental illnesses. Four laboratory/recitation hours per week. Prerequisites: a minimum grade of C- in BIOL 209; any 300-level BIOL course.

**BIOL 476 Experiential Learning (2 credits)**
**BIOL 478 Experiential Learning (4 credits)**
See the description of these courses at the beginning of the “Curricula” section of this catalog.

**BIOL 484 Seminar (2 credits)**
**BIOL 486 Seminar (4 credits)**
Investigation of selected problems in biology at an advanced level, involving student presentations based on the primary literature. The subject will vary and will be announced in the annual Class Schedule. These courses may, with approval of the department chair, be used to fulfill the 400-level requirement for the major.
Prerequisite: Upper-class standing and permission of the instructor

**BIOL 488 Topics (2 credits)**
**BIOL 490 Topics (4 credits)**
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, [https://banner.srthomas.edu/pls/banner/prod/bwckschd](https://banner.srthomas.edu/pls/banner/prod/bwckschd).
Courses in this category may be credited toward the requirements of the major depending on appropriateness of content, and with prior and explicit written approval of the instructor and the department chair. These courses may also, with approval of the department chair, be used to fulfill the 400-level requirement for the major.
Prerequisite: Permission of the instructor

**BIOL 491 Research (2 or 4 credits)**
Original laboratory, field, library, or other analytical investigation under the direction of a member of the faculty, culminating in the writing of a formal research paper in standard scientific format that incorporates a review of the appropriate literature. Oral or poster presentation of the work at a research symposium required. Students hoping to take a Research course for credit must make arrangements with the faculty supervisor at least one semester before the course is to be taken. Research proposal forms must be completed and approved by the faculty member, the department chair, and the dean of the College prior to registration. These courses may, with approval of the department chair, be used to fulfill the 400-level requirement for the major.
Prerequisite: Upper-class standing and permission of the instructor and the department chair

**BIOL 495 Individual Study (2 or 4 credits)**
These courses provide a means for obtaining credit on a tutorial basis for courses not otherwise available at UST or other institutions in the ACTC consortium, and are intended to satisfy unusual needs and circumstances. Students interested in Individual Study should discuss their plans with the faculty member most likely to be their tutor at least one semester before the course is to be taken. Individual Study proposal forms must be completed and approved by the faculty member, the department chair, and the dean of the College prior to registration. These courses may, with approval of the department chair, be used to fulfill the 400-level requirement for the major.
Prerequisite: Permission of the instructor and the department chair
The programs in Business Administration provide a carefully designed curriculum that balances practice and theory. Students begin by building a foundation of knowledge and basic skills with courses in economics, statistics, mathematics, and communication. They then take a series of core courses that span the functional areas of business. These include accounting, finance, legal studies in business management, and marketing. An ongoing, in-depth study of business ethics and decision-making is woven into the curriculum, helping students not only align their values with their future business practices, but helping them understand the conflicts and challenges modern business leaders face. Students may build greater knowledge in several different concentrations (listed below). Students may also combine a general business concentration with a minor in another field, such as economics, music, foreign language, etc. A plan of study is available for students interested in both a B.A. in business administration and a B.S. in mechanical or electrical engineering. See the Department of Engineering section of this catalogue or contact the Opus College of Business for further information.

Students may choose to provide a practical element to their academic experience through consulting projects developed by the Small Business Development Center or through internships and other opportunities to work with businesses in the Twin Cities.

Opus College of Business faculty provide students with hands-on, interactive learning experiences such as presentations, group projects, case studies, simulations, guest speakers - as well as stimulating discussion and debate.

It is expected that students majoring in business administration will take their business courses at St. Thomas. Students must have prior approval before registering for a business course at another school. All students who major in business administration must take a minimum of 28 credits in Opus College of Business courses at the University of St. Thomas; at least 16 of these 28 credits must be from courses in the department of the student’s major concentration. Credits earned at ACTC colleges and through affiliated programs abroad do not count toward this residency requirement. All students majoring in the business communication concentration must take a minimum of 8 credits from the Department of Communication and Journalism at the University of St. Thomas. Students majoring in business administration must complete a minimum of 76 credits that are outside the Opus College of Business.

All Opus College of Business courses taken by business administration majors and minors must be taken for a letter grade. These courses may not be taken on a pass/fail basis.

Credits for Opus College of Business courses taken more than eight years ago (or more than five years ago for credits in a major concentration) will be accepted but may not fulfill current requirements.

Student Honor Pledge

It is the expectation that Opus College of Business students will become highly principled global business leaders, and students are expected to maintain the highest standards of integrity while enrolled in the business program. Honesty and integrity in the conduct of academic life is fundamental to the principle of independent learning and growth. The Honor Pledge (below) is signed by undergraduate business students at the time they declare their business major or minor, as an affirmation of their commitment to accept personal responsibility for their own behavior, and conduct themselves in an ethical manner with academic honesty and integrity.

As a student in the Undergraduate Program of the Opus College of Business, I will adhere to the University academic integrity policy, and I will act with honesty, integrity, respect, and accountability in all my actions.

Major in Business Administration (B.A.)

One of the business concentrations of:

- Accounting – see description below under Department of Accounting
- Business Communication – see description below under Department of Management
- Entrepreneurship – see description below under Department of Entrepreneurship
- Finance – see description below under Department of Finance
- Family Business - see description under Department of Entrepreneurship
- General Business
- Human Resource Management – see description below under Department of Management
- International Business
- Leadership and Management – see description below under Department of Management
Business Administration - Opus College of Business

- Legal Studies in Business – see description below under Department of Ethics and Business Law
- Marketing – see description below under Department of Marketing
- Operations Management – see description under Department of Operations and Supply Chain Management
- Real Estate Studies (B.S.) – see description below under Department of Finance

Minor in Business Administration
ACCT 210 Introduction to Financial Accounting (4 credits)
BETH 301 Business Ethics (4 credits)
BUSN 200 Business Learning Through Service (0 credit)
BLAW 301 Legal Environment of Business (4 credits)
or BLAW 302 Business Law for Accounting (4 credits)
or BLAW 303 International Business Law (4 credits)
or BLAW 304 Real Estate Law (4 credits)
MGMT 305 Management & Organizational Behavior (4 credits)

Plus four credits from the following:
ECON 251 Macroeconomics (4 credits)
ECON 252 Microeconomics (4 credits)

Plus four credits from the following:
ENTR 300 Entrepreneurship for Non-Majors (4 credits)
FINC 300 Finance for Non-Business Majors (4 credits)
MKTG 300 Principles of Marketing (4 credits)

Note: Students must complete a minimum of 16 credits in Business Administration at St. Thomas. Coursework transferred to St. Thomas must be equivalent to St. Thomas coursework. All prerequisites for courses selected for the minor must be satisfied.

Concentration in General Business Management
The general business management program consists of the core courses that all students majoring in business at the University of St. Thomas are required to take, regardless of their specialization. This program contains courses that will give the student an understanding of business fundamentals without emphasizing a particular area, such as accounting or marketing. With this concentration, the student will be described as a generalist, with a broad business base. Because fewer courses are required in this concentration, there is more room for elective courses. These elective courses may be taken in one department, giving a strong secondary academic concentration or a minor, or they can be related courses from different departments (e.g., management marketing, finance). Note: a minimum of 76 credits outside the Opus College of Business are required for graduation.

Job titles of recent graduates with a general business concentration include business analyst, business consultant, account executive, service consultant, commodity manager, account analyst, customer service representative, merchandise coordinator, and marketing assistant.

Business Core Courses
ACCT 210 Introduction to Financial Accounting (4 credits)
ACCT 215 Managerial Accounting (4 credits)
BETH 301 Business Ethics (4 credits)
BUSN 200 Business Learning Through Service (0 credit)
OPMT 310 Operations Management (4 credits)
FINC 321 Financial Management (4 credits)
MKTG 300 Principles of Marketing (4 credits)
MGMT 305 Management & Organizational Behavior (4 credits)

Plus four credits from the following:
BLAW 301 Legal Environment of Business (4 credits)
BLAW 302 Business Law for Accounting (4 credits)
BLAW 303 International Business Law (4 credits)

83
Concentration course
MGMT 480 Strategic Management (4 credits)

Allied requirements
ECON 251 Principles of Macroeconomics (4 credits)
ECON 252 Principles of Microeconomics (4 credits)
STAT 220 Statistics I (4 credits)
Note: STAT 220 should be completed by the end of the sophomore year. Transfer students who have not had an equivalent course must complete this course by the end of their first semester, junior year.

Plus four credits from the following:
MATH 101 Finite Mathematics (4 credits)
MATH 109 Calculus with Review II (4 credits)
MATH 111 Calculus for Business and Social Science (4 credits)
MATH 113 Calculus I (4 credits)
Note: The math requirement must be completed by the end of the sophomore year.

Plus four credits from the following:
COJO 100 Public Speaking (4 credits)
COJO 105 Communication in the Workplace (4 credits)
COJO 370 Intercultural Communication (4 credits)
ENGL 211 or above (4 credits)

Concentration in International Business
International business is an interdisciplinary major concentration dedicated to gaining an understanding of how to conduct business in foreign countries. To gain such an understanding requires study in courses taken in disciplines such as communication, economics and foreign language as well as business. An underlying assumption is that the student must first develop an understanding of the domestic business core before knowledge of the international sector is developed.

Of particular importance to this concentration is an understanding of another country and its culture. So, international business students must study abroad for at least one semester.

Specific courses taken in a foreign university may substitute for St. Thomas requirements. See undergraduate business program advisers to discuss those possibilities.

Business Core Courses
ACCT 210 Introduction to Financial Accounting (4 credits)
ACCT 215 Managerial Accounting (4 credits)
BETH 301 Business Ethics (4 credits)
BLAW 303 International Business Law (4 credits)
BUSN 200 Business Learning Through Service (0 credit)
OPMT 310 Operations Management (4 credits)
FINC 321 Financial Management (4 credits)
MGMT 305 Management & Organizational Behavior (4 credits)
MKTG 300 Principles of Marketing (4 credits)

Concentration Courses
FINC 450 International Finance (4 credits) or MKTG 330 International Marketing (4 credits)
MGMT 430 International Management (4 credits)

Plus:
Two courses (minimum of six credits) in transnational business courses taken abroad with pre-approval of the student’s business faculty adviser. The course content must address transnational business issues in accounting, finance, management, marketing, or law. (Three of the following core courses must be completed before taking IBUS courses: ACCT 210, BLAW 303, OPMT 310, FINC 321, MGMT 305, MKTG 300.) These courses will transfer to St. Thomas as two of the following:
IBUS 450 Transnational Business Issues in Management, Marketing, or Business Law (4 credits)
IBUS 460 Transnational Business Issues in Finance or Accounting (4 credits)
IBUS 470 Transnational Issues in International Business (4 credits)

Allied requirements
COJO 370 Intercultural Communication (4 credits)
ECON 251 Principles of Macroeconomics (4 credits)
ECON 252 Principles of Microeconomics (4 credits)
STAT 220 Statistics I (4 credits)

Note: STAT 220 should be completed by the end of the sophomore year. Transfer students who have not had an equivalent course must complete this course by the end of their first semester, junior year.

Plus four credits from the following:
MATH 101 Finite Mathematics (4 credits)
MATH 109 Calculus with Review II (4 credits)
MATH 111 Calculus for Business and Social Science (4 credits)
MATH 113 Calculus I (4 credits)

Note: The math requirement must be completed by the end of the sophomore year.

Plus eight credits from the following:
ECON 346 Country and Area Studies in Economics (4 credits)
GEOG 113 World Geography (4 credits)
POLS 104 American Government in Comparative Perspective (4 credits)
POLS 225 Introduction to World Politics (4 credits)
POLS 321 Comparative Foreign Policy (4 credits)
Foreign language at the 212 level or above
International or cross-cultural course(s) with prior approval of business faculty adviser

Accounting (ACCT)
Opus College of Business
Department of Accounting
Sathe (chair), Anctil, Asdemir, Blazovich, Chui, Davis, Gallagher, Gelardi, Grimm, Matson, Mortenson, Pitre, J. Raffield, Shapiro, Stallings, Vician, Yu

The University of St. Thomas accounting program meets the current education requirements set by the Minnesota Board of Accountancy to take the Certified Public Accountant (CPA) Examination, and for CPA licensure, in Minnesota. CPA licensure in Minnesota requires the applicant to have completed 150 semester hours of college or university education, passed the CPA Examination, passed an ethics examination, and completed relevant work experience. (Most other states have similar requirements.) The University of St. Thomas offers alternatives by which students can meet the 150-hour requirement, including master’s degrees (Master of Science in accountancy or Master of Business Administration) and baccalaureate coursework. Questions should be directed to the chair of the Department of Accounting or to a department faculty member.

Concentration in Accounting
Business Core Courses
ACCT 210 Introduction to Financial Accounting (4 credits)
ACCT 215 Managerial Accounting (4 credits)
BETH 301 Business Ethics (4 credits)
BLAW 302 Business Law for Accounting (4 credits)
BUSN 200 Business Learning Through Service (0 credit)
OPMT 310 Operations Management (4 credits)
FINC 321 Financial Management (4 credits)
MGMT 305 Management and Organizational Behavior (4 credits)
MKTG 300 Principles of Marketing (4 credits)

Concentration Courses
ACCT 311 Intermediate Accounting I (4 credits)
ACCT 312 Intermediate Accounting II (4 credits)
ACCT 314 Tax Accounting (4 credits)
ACCT 316 Auditing (4 credits)
ACCT 317 Cost Accounting (4 credits)
ACCT 410 Advanced Accounting (4 credits)

Allied requirements
ECON 251 Principles of Macroeconomics (4 credits)
ECON 252 Principles of Microeconomics (4 credits)
Business Administration - Opus College of Business

CISC 200 Introduction to Computer Technology and Business Applications (4 credits)
CISC 419 Accounting Information Systems (4 credits)
STAT 220 Statistics I (4 credits)

*Note: STAT 220 should be completed by the end of the sophomore year. Transfer students who have not had an equivalent course must complete this course by the end of their first semester, junior year.*

Plus four credits from the following:
MATH 101 Finite Mathematics (4 credits)
MATH 109 Calculus with Review II (4 credits)
MATH 111 Calculus for Business and Social Science (4 credits)
MATH 113 Calculus I (4 credits)

*Note: The math requirement must be completed by the end of the sophomore year.*

Entrepreneurship (ENTR)
Opus College of Business
Department of Entrepreneurship
Dunham (chair), Deeds, Ebben, Johnson, McVea, Sorenson, Spriggs

The study of entrepreneurship prepares students for a variety of career and life experiences. Being an entrepreneur may mean starting your own business, or it may mean working in an existing business. The key is you learn to think like an entrepreneur. You will learn to identify and analyze new opportunities, to think creatively, and to be action oriented in order to seize opportunities that create real value. These skills are important in all types of organizations, from small start-ups to large corporate settings.

Students completing a concentration in entrepreneurship will have the skills to start a business venture, to contribute to an existing company, and to be business leaders in their local communities.

Concentration in Entrepreneurship

Business Core Courses
ACCT 210 Introduction to Financial Accounting (4 credits)
ACCT 215 Managerial Accounting (4 credits)
BETH 301 Business Ethics (4 credits)
BUSN 200 Business Learning Through Service (0 credit)
OPMT 310 Operations Management (4 credits)
FINC 321 Financial Management (4 credits)
MGMT 305 Management & Organizational Behavior (4 credits)
MKTG 300 Principles of Marketing (4 credits)

Plus four credits from the following:
BLAW 301 Legal Environment of Business (4 credits)
BLAW 302 Business Law for Accounting (4 credits)
BLAW 303 International Business Law (4 credits)
BLAW 304 Real Estate Law (4 credits)

Concentration Courses
ENTR 200 Foundations in Entrepreneurship (4 credits)
ENTR 350 Entrepreneurial Research: Developing New Market Space (4 credits)
ENTR 370 Entrepreneurial Financial Resource Management (4 credits)
ENTR 450 Entrepreneurship: Management and Strategy (4 credits)

Plus eight credits from the following:
ENTR 340 Social Entrepreneurship (4 credits)
ENTR 348 Franchising Management (4 credits)
ENTR 349 Family Business Management (4 credits)
ENTR 360 Creativity and Change (4 credits)
ENTR 380 Entrepreneurship in Practice (4 credits)
ENTR 490 Topics (4 credits)

The following may be substituted for ONE of the courses listed above:
THEO 422 Christian Faith and the Management Profession (only when team-taught by an ENTR faculty member) (4 credits)
Allied requirements
ECON 251 Principles of Macroeconomics (4 credits)
ECON 252 Principles of Microeconomics (4 credits)
STAT 220 Statistics I (4 credits)

Note: STAT 220 should be completed by the end of the sophomore year. Transfer students who have not had an equivalent course must complete this course by the end of their first semester, junior year.

Plus four credits from the following:
MATH 101 Finite Mathematics (4 credits)
MATH 109 Calculus with Review II (4 credits)
MATH 111 Calculus for Business and Social Science (4 credits)
MATH 113 Calculus I (4 credits)

Note: The math requirement must be completed by the end of the sophomore year.

Plus four credits from the following:
COJO 100 Public Speaking (4 credits)
COJO 105 Communication in the Workplace (4 credits)
COJO 370 Intercultural Communication (4 credits)
ENGL 211 or above (4 credits)

Concentration in Family Business
Family business is the most common type of business organization in the world. The concentration in family business prepares students to govern and manage family firms. The overlap of family, owner, and business systems provide unique challenges for families in business. Students learn to analyze those three systems and to work with family members in managing and governing the business. They are provided the business knowledge necessary to understand business performance and to make strategic decisions. Students are provided conceptual tools and approaches for family planning and organizing. Because the family business courses focus on applying knowledge in family firms, parents or other significant family members are encouraged to audit those classes or to actively participate by reading class materials and helping students with many course assignments. The courses are designed to help families begin to implement practices that they deem useful to their businesses.

Business Core Courses
ACCT 210 Introduction to Financial Accounting (4 credits)
ACCT 215 Managerial Accounting (4 credits)
BETH 301 Business Ethics (4 credits)
BUSN 200 Business Learning Through Service (0 credit)

REAL 360 Real Estate Property Management (4 credits)
MGMT 362 Attracting, Acquiring and Rewarding Talent (4 credits)
MGMT 382 Leadership Development (4 credits)
MKTG 360 Retailing (4 credits)
MKTG 390 Marketing Strategy (4 credits)

Allied requirements
ECON 251 Principles of Macroeconomics (4 credits)
ECON 252 Principles of Microeconomics (4 credits)
STAT 220 Statistics I (4 credits)

Note: STAT 220 should be completed by the end of the sophomore year. Transfer students who have not had an equivalent course must complete this course by the end of their first semester, junior year.

Plus four credits from the following:
MATH 101 Finite Mathematics (4 credits)
MATH 109 Calculus with Review II (4 credits)
MATH 111 Calculus for Business and Social Science (4 credits)
MATH 113 Calculus I (4 credits)

Note: The math requirement must be completed by the end of the sophomore year.

Plus four credits from the following:
COJO 472 Family Communication (4 credits)
PSYC 288 Psychology of Marriage and the Family (4 credits)
SOCI 321 Marriage and the Family (4 credits)

Plus four credits not previously taken to meet concentration requirements from the following:
COJO 220 Interpersonal Communication (4 credits)
COJO 274 Small Group Communication (4 credits)
COJO 320 Organizational Communication (4 credits)
COJO 472 Family Communication (4 credits)
PSYC 288 Psychology of Marriage and the Family (4 credits)
SOCI 321 Marriage and the Family (4 credits)

Ethics and Business Law (BLAW)
Opus College of Business
Department of Ethics and Business Law
Elm (chair), Buckeye, Garrison, Glac, R. Kennedy, Koehn, Kunkel, Marsnik, Michaelson, Monge, Naughton, Swink, Thompson, Wendt

Ethics and law play an increasingly prominent role in the workplace and in the global marketplace. Legal rules and regulations have proliferated at all levels of the organization, and successful managers must understand how to integrate legal considerations into their business planning and operations. Business leaders also need to be able to recognize the ethical dimensions of decisions and choose well in difficult situations. Our ethics and business law courses acquaint students with the tools of ethical decision-making and with the foundations of the legal environment of business, both domestic and international to enhance ethical thinking and problem solving.

The Department of Ethics and Business Law offers a legal studies in business concentration for undergraduate business majors. Students in this concentration explore the legal system and the ways in which legal rules and processes affect business decisions. Students also engage in legal reasoning, advocacy and the legal analysis of commercial transactions.

The concentration is structured to ensure that students receive both a solid grounding needed for the B.A. in business administration and an additional focus on the legal environment for business.

Concentration in Legal Studies in Business

Business Core Courses
ACCT 210 Introduction to Financial Accounting (4 credits)
ACCT 215 Managerial Accounting (4 credits)
BETH 301 Business Ethics (4 credits)
BUSN 200 Business Learning Through Service (0 credit)
OPMT 310 Operations Management (4 credits)
FINC 321 Financial Management (4 credits)
MGMT 305 Management & Organizational Behavior (4 credits)
MKTG 300 Principles of Marketing (4 credits)

Plus four credits from the following:
BLAW 301 Legal Environment of Business (4 credits)
BLAW 302 Business Law for Accounting (4 credits)
BLAW 303 International Business Law (4 credits)

**Concentration Course**
BLAW 401 Legal Research, Advocacy, and Dispute Resolution (4 credits)
MGMT 480 Strategic Management (4 credits)

Plus twelve credits from the following:
One of BLAW 301, 302, or 303 not taken previously (Note: Students concentrating in Legal Studies in Business may NOT take both BLAW 301 and 302)
BLAW 304 Real Estate Law (4 credits)
BLAW 351 Environmental Law (4 credits)
BLAW 352 Gender Issues and the Law (4 credits)
BLAW 353 Employment & Labor Law (4 credits)
BLAW 354 Marketing Law (4 credits)
BLAW 402 Law of Electronic Commerce (4 credits)
One course (not previously taken) from Opus College of Business at the 300-level or above

**Allied requirements**
ECON 251 Principles of Macroeconomics (4 credits)
ECON 252 Principles of Microeconomics (4 credits)
STAT 220 Statistics I (4 credits)
  Note: STAT 220 should be completed by the end of the sophomore year. Transfer students who have not had an equivalent course must complete this course by the end of their first semester, junior year.

Plus four credits from the following:
MATH 101 Finite Mathematics (4 credits)
MATH 109 Calculus with Review II (4 credits)
MATH 111 Calculus for Business and Social Science (4 credits)
MATH 113 Calculus I (4 credits)
  Note: The math requirement must be completed by the end of the sophomore year.

Plus four credits from the following:
COJO 100 Public Speaking (4 credits)
COJO 105 Communication in the Workplace (4 credits)
COJO 370 Intercultural Communication (4 credits)
ENGL 211 or above (4 credits)

**Finance (FINC)**
Opus College of Business
Department of Finance
Samarakoon (chair), Barabanov, Baxamusa, Combs, Daugherty, Georgieva, Gray, Hamilton, Jaiswal-Dale, Jithendranathan, Mohanty, Musil, Oxman, Shovein, Spry, Vang

Finance plays a pivotal role in business decisions across all functional areas of business. A strong foundation in finance is highly valued by employers and provides excellent career options and flexibility upon graduation. The UST finance courses and the degree program prepare students for careers in all areas of finance. Broadly, students gain in-depth knowledge and develop important analytical skills in the areas of corporate finance, investments and portfolio management, financial institutions and banking, and global finance. The finance degree program requires students to acquire training in the interrelated areas of accounting, economics and information technology as well.

Finance graduates find career opportunities in the interrelated areas of corporate finance, accounting, investments, security analysis, asset management, financial planning, commercial and investment banking, private equity and venture capital, real estate, insurance, and risk management. Typical job titles of finance graduates include financial analyst, security analyst, equity analyst,

research analyst, budget analyst, financial advisor, financial planner, financial consultant, loan officer, account specialist, treasury assistant, portfolio assistant, and financial manager, among others.

Concentration in Financial Management

Business Core Courses
ACCT 210 Introduction to Financial Accounting (4 credits)
ACCT 215 Managerial Accounting (4 credits)
BETH 301 Business Ethics (4 credits)
BUSN 200 Business Learning Through Service (0 credit)
OPMT 310 Operations Management (4 credits)
FINC 321 Financial Management (4 credits)
MGMT 305 Management & Organizational Behavior (4 credits)
MKTG 300 Principles of Marketing (4 credits)

Plus four credits from the following:
BLAW 301 Legal Environment of Business (4 credits)
BLAW 302 Business Law for Accounting (4 credits)
BLAW 303 International Business Law (4 credits)
BLAW 304 Real Estate Law (4 credits)

Concentration Courses
ACCT 311 Intermediate Accounting I (4 credits)
FINC 324 Corporate Finance (4 credits)
FINC 325 Investments (4 credits)

Plus twelve credits from the following:
FINC 410 Derivatives (4 credits)
FINC 430 Financial Intermediaries (4 credits)
FINC 440 Security Analysis and Portfolio Management (4 credits)
FINC 442 Fixed Income Securities (4 credits)
FINC 450 International Financial Management (4 credits)
FINC 480 Strategic Finance (4 credits)
REAL 460 Real Estate Finance and Investment (4 credits)

Allied requirements
CISC 200 Introduction to Computer Technology and Business Applications (4 credits)
ECON 251 Principles of Macroeconomics (4 credits)
ECON 252 Principles of Microeconomics (4 credits)
STAT 220 Statistics I (4 credits)

Note: STAT 220 should be completed by the end of the sophomore year. Transfer students who have not had an equivalent course must complete this course by the end of their first semester, junior year.

Plus four credits from the following:
MATH 109 Calculus with Review II (4 credits)
MATH 111 Calculus for Business and Social Science (4 credits)
MATH 113 Calculus I (4 credits)

Note: The math requirement must be completed by the end of the sophomore year.

Plus four credits from the following:
ECON 311 Forecasting (4 credits)
ECON 315 Introduction to Econometrics (4 credits)

Major in Real Estate Studies (B.S.)
The Bachelor of Science degree in the multidisciplinary field called real estate finds an ideal foundation in a liberal arts education. It provides a quality real estate program with a core in the general functional and operational areas of business. The program is designed to develop students as better citizens able to make responsible decisions benefiting society. Employers prefer to hire students who are knowledgeable of their discipline and operate within a moral and ethical framework of values. Graduates of the program can find employment as mortgage loan officers, appraisers, commercial/investment brokers and property managers.
Business Core Courses
- ACCT 210 Introduction to Financial Accounting (4 credits)
- ACCT 215 Managerial Accounting (4 credits)
- BETH 301 Business Ethics (4 credits)
- BLAW 304 Real Estate Law (4 credits)
- BUSN 200 Business Learning Through Service (0 credit)
- OPMT 310 Operations Management (4 credits)
- FINC 321 Financial Management (4 credits)
- MGMT 305 Management & Organizational Behavior (4 credits)
- MKTG 300 Principles of Marketing (4 credits)

Concentration Courses
- REAL 200 Real Estate Principles (4 credits)
- REAL 370 Real Estate Market Analysis (4 credits)

*Plus eight credits from the following:*
- REAL 360 Real Estate Property Management (4 credits)
- REAL 460 Real Estate Finance and Investments (4 credits)
- REAL 461 Real Estate Appraisal (4 credits)
- REAL 470 Real Estate Development (4 credits)

*Plus eight additional business credits, 300 level or above (can be REAL credits)*

Allied requirements
- ECON 251 Principles of Macro-Economics (4 credits)
- ECON 252 Principles of Micro-Economics (4 credits)
- STAT 220 Statistics I (4 credits)

*Note: STAT 220 should be completed by the end of the sophomore year. Transfer students who have not had an equivalent course must complete this course by the end of their first semester, junior year.*

*Plus four credits from the following:*
- CISC 200 Introduction to Computer Technology and Business Applications (4 credits)
- COJO 100 Public Speaking (4 credits)
- COJO 105 Communication in the Workplace (4 credits)
- ENGL 211 or above (4 credits)

*Plus four credits from the following:*
- MATH 101 Finite Mathematics (4 credits)
- MATH 109 Calculus with Review II (4 credits)
- MATH 111 Calculus for Business and Social Science (4 credits)
- MATH 113 Calculus I (4 credits)

*Note: The math requirement must be completed by the end of the sophomore year.*

*Plus four credits from the following:*
- COJO 370 Intercultural Communications (4 credits)
- ECON 311 Forecasting (4 credits)
- ECON 315 Introduction to Econometrics (4 credits)
- ECON 333 Regional and Urban Economics (4 credits)
- GEOG 113 World Geography (4 credits)
- GEOG 330 Geography for Business and Planning (4 credits)
Students completing a concentration in the Department of Management will develop a systems thinking perspective as they view organizations; will develop a competitive perspective as they work with organizations; will become problem-solvers; will value diversity in all its forms; and will study managerial skills.

**Concentration in Business Communication**

There is an increasingly widespread desire within the business community for people who can communicate well, both in face-to-face and in electronically-mediated forms of communication. The concentration in business communication is designed to provide students a basic understanding of business fundamentals, plus background knowledge and skills in human message exchange. This exchange can occur in many forms: one-on-one, in groups, across cultures, and electronically.

In addition to the general business courses required of all business majors, students who elect to do concentrated study in business communication take four additional communication courses, selected with the guidance of their adviser. These courses can focus on working with people or with electronic media. Those communication courses that emphasize working with people, such as Organizational Communication or Small Group Communication, provide the foundation for effective interaction and discussion. Those courses that focus on electronic media, such as Electronic Media Production or writing and design for the web, provide the basics for working with technology in the workplace and can help prepare students for business-related careers in the electronic media and broadcasting industry.

**Business Core Courses**

- ACCT 210 Introduction to Financial Accounting (4 credits)
- ACCT 215 Managerial Accounting (4 credits)
- BETH 301 Business Ethics (4 credits)
- BUSN 200 Business Learning Through Service (0 credit)
- OPMT 310 Operations Management (4 credits)
- FINC 321 Financial Management (4 credits)
- MGMT 305 Management & Organizational Behavior (4 credits)
- MKTG 300 Principles of Marketing (4 credits)

Plus four credits from the following:

- BLAW 301 Legal Environment of Business (4 credits)
- BLAW 302 Business Law for Accounting (4 credits)
- BLAW 303 International Business Law (4 credits)

**Concentration Courses**

- COJO 111 Intro to COJO I (4 credits) (if not previously taken) or COJO 112 Intro to COJO II (4 credits)
- MGMT 360 Organizational and Employee Development (4 credits) or MGMT 382 Leadership (4 credits)
- MGMT 480 Strategic Management (4 credits)

Plus eight additional credits from the following COJO courses: 211, 212, 213, 220, 230, 232, 234, 256, 258, 260, 263, 264, 270, 274, 276, 320, 328, 336, 366, 370, 372, 430, or 432

**Allied requirements**

- ECON 251 Principles of Macroeconomics (4 credits)
- ECON 252 Principles of Microeconomics (4 credits)
- STAT 220 Statistics I (4 credits)

  Note: STAT 220 should be completed by the end of the sophomore year. Transfer students who have not had an equivalent course must complete this course by the end of their first semester, junior year.

Plus four credits from the following:

- MATH 101 Finite Mathematics (4 credits)
- MATH 109 Calculus with Review II (4 credits)
- MATH 111 Calculus for Business and Social Science (4 credits)
- MATH 113 Calculus I (4 credits)

  Note: The math requirement must be completed by the end of the sophomore year.
Plus four credits not previously taken from the following:
COJO 100 Public Speaking (4 credits)
COJO 105 Communication in the Workplace (4 credits)
COJO 111 Intro to COJO I (4 credits)
COJO 370 Intercultural Communication (4 credits)
ENGL 211 or above (4 credits)

Concentration in Human Resource Management
It is often said that people are an organization’s greatest resource. People who work in human resource management provide specialized methods, techniques and professional judgment geared toward fair and effective employee selection, rewards, training, placement, management and development. By making effective use of employees’ skills, and helping employees find satisfaction in their jobs and working conditions, both the employees and employers benefit from enhanced productivity.

People who work in human resource management have a wide range of responsibilities within a company. These include forecasting the organization’s employee needs such as hiring, developing appraisal, compensation and professional development systems; establishing and maintaining effective labor relations; analyzing and improving the working environment; and interpreting employment regulations. Typical job titles found in human resource departments include benefits analyst, training services coordinator, HR administrator, employment and placement manager, job analyst, labor relations specialist, affirmative action manager, recruiter, and personnel development specialist.

Business Core Courses
ACCT 210 Introduction to Financial Accounting (4 credits)

COJO 100 Public Speaking (4 credits)
COJO 105 Communication in the Workplace (4 credits)
Business Administration - Opus College of Business

COJO 370 Intercultural Communication (4 credits)
ENGL 211 or above (4 credits)

Concentration in Leadership and Management
The leadership and management curriculum provides a broad look at the science and art of “getting things done.” It will help the student develop philosophies and skills for leading people, processes, and projects across all aspects of an organization. It will provide the concepts and tools to establish long-term visions and goals for an organization and to effectively manage daily routines in a dynamic work environment — regardless of the type of organization or the particular area of a business.

The business world is changing quickly and current experience shows that university graduates can expect to change careers and employers many times before retiring. The leadership and management program will help the student initiate a course of action and take advantage of opportunities that arise within organizations. Leadership and management will prepare the student for positions throughout an organization. This concentration is designed for students majoring in business administration who are not interested in concentrating their studies in a particular discipline of business (e.g., accounting, finance, marketing), but want more focus than the general business concentration provides.

Business Core Courses
ACCT 210 Introduction to Financial Accounting (4 credits)
ACCT 215 Managerial Accounting (4 credits)
BETH 301 Business Ethics (4 credits)
BUSN 200 Business Learning Through Service (0 credit)

Operations and Supply Chain Management (OPMT)

Operations and supply chain management is directly involved in the creation and delivery of an organization’s goods and/or services. Operations management is not specific to any one industry, nor is it restricted to manufacturing enterprises. In fact, all organizations in the private and public sector systems—including airlines, hospitals, hotels, restaurants, insurance companies, and government agencies need to manage their operations vigilantly. Operations managers work with their organizations to find faster, better, and more economical ways to serve their customers. The operations management field offers a wide array of career paths from supply chain or service design analysis to manufacturing or service general management.

Concentration in Operations Management

Business Core Courses

COJO 370 Intercultural Communication (4 credits)
ENGL 211 or above (4 credits)

Accounting Courses (ACCT)
ACCT 210 Introduction to Financial Accounting (4 credits)
Financial accounting is an integral part of the planning, reporting and control functions of every business. Financial accounting data provide insights about the firm's financial condition, operating results, cash flows and capital structure to facilitate decision making. This course introduces the primary financial statements, fundamental financial accounting terminology and calculations, as well as the interpretation and analysis of financial statements. Ethical aspects of accounting are included.
Prerequisites: Sophomore standing

ACCT 215 Managerial Accounting (4 credits)
This course is designed to give students an understanding of how accounting and business information is used in planning, budgeting, decision-making, and performance evaluation.
Prerequisite: ACCT 210

ACCT 311 Intermediate Accounting I (4 credits)
The theory of accounting is studied as it relates to the external financial reporting requirements of profit-oriented businesses. Major subjects include review of the basic financial statements, valuation of most assets, and revenue recognition.
Prerequisite: A minimum grade of C- in ACCT 210

ACCT 312 Intermediate Accounting II (4 credits)
A continuation of ACCT 311. A study is made of the remaining balance sheet accounts with special emphasis on the capital structure of corporations. In addition complex accounting matters such as tax allocation, pension applications, lease capitalization and current value accounting concepts are reviewed.
Prerequisites: A minimum grade of C- in ACCT 311; FINC 321 (may be taken concurrently); CISC 200 (applies to students under the 2012-14 catalog or later).

ACCT 314 Tax Accounting (4 credits)
This course is a study of the principles of business taxation. The course primarily covers the federal tax laws as they apply to sole proprietorships, corporations, and partnerships. Other topics include the principles of individual taxes, such as dependents, filing status, tax administration, tax depreciation, property transactions and capital gains and losses. Tax research is required in the course.
Prerequisite: A minimum grade of C- in ACCT 210 and junior standing.

ACCT 315 Individual Income Tax (4 credits)
A study of the fundamentals of federal income tax law as it applies to individuals. Topics include: filing status, dependents, gross income, itemized deductions, tax credits, cost recovery, property transactions, and the alternative minimum tax.
Prerequisite: Junior standing; concurrent or previous enrollment in ACCT 215 recommended

ACCT 316 Auditing (4 credits)
Studies the basis for the auditor’s report. Emphasis is on risk analysis, internal control review, audit evidence and procedures, and sampling. Case analysis is used to develop analytic and judgment skills and to enhance communication skills.
Prerequisite: A minimum grade of C- in ACCT 312

ACCT 317 Cost Accounting (4 credits)
A rigorous study is made of the elements of product costs, including job, process, standard, and variable costing systems and procedures. A managerial emphasis is added through inclusion of cost-volume-profit relationships, budgeting techniques, and other selected topics.
Prerequisites: A minimum grade of C- in ACCT 215

ACCT 410 Advanced Accounting (4 credits)
The special accounting considerations of nonprofit organizations, the formation and operations of a partnership, home and branch office reporting systems and the preparation of consolidated financial statements.
Prerequisite: A minimum grade of C- in ACCT 312, BETH 301, Senior standing or permission of department chair
Business Administration - Opus College of Business

Business Courses (BUSN)

BUSN 200 Business Learning Through Service (0 credit)
This experiential, student-designed course is required of all undergraduate students in the Opus College of Business - both majors and minors. The course embodies the Statement of Purpose of the university to “develop morally responsible individuals who combine career competency...while fostering in the student a tradition of service to the public welfare.”

The learning objectives include: 1) providing students the opportunity to experience the necessary partnerships between and among healthy, vital communities and healthy, vital businesses; 2) stretching beyond their current comfort zones, especially in terms of being involved with people different from themselves; 3) providing direct service to a nonprofit while meeting individually established personal learning objectives; and 4) exploring the business dynamics of non-profit organizations.

Students are encouraged to complete BUSN 200 either during the second semester of their sophomore year or the first semester of their junior year.

Students register for BUSN 200 as they would any other academic course at the university.

Students should note that their formal BUSN 200 class meets only four times during the semester and that 100% attendance of those four classes is mandatory to complete BUSN 200 successfully. In addition to the 40 hours of service and four class meetings, students will maintain an online journal of their reflections and learnings, and present a final-reflection creative learning project to their classmates.

All BUSN 200 requirements - including the 40 hours of service - are completed within the traditional one-semester structure. Service hours or other assignments from one semester cannot be “rolled over” to the next semester. Thus, students should consider carefully the timing of their decision to participate in BUSN 200 for any given semester.

This course is graded S/R.

Students can complete BUSN 200 while studying abroad or while away from campus during J-term or summer. Note: London Business students complete their BUSN 200 course while studying in London; students considering participation in this program should wait to complete BUSN 200 until that semester.

BUSN 295, 296 Topics (2 credits)  
BUSN 297, 298 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online,  
https://banner.stthomas.edu/pls/banner/prod/bwckschd.

BUSN 470 Small Business Institute Project (2 credits)
A Small Business Institute project course not associated with any specific discipline, which will provide an opportunity for undergraduate students of any major to transfer their classroom knowledge to a “real world” situation through the use of a professional consulting activity as outlined by SBA rules and procedures.
Prerequisites: Senior standing

BUSN 475, 476 Experiential Learning (2 credits)  
BUSN 477, 478 Experiential Learning (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

BUSN 483, 484 Seminar (2 credits)  
BUSN 485, 486 Seminar (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

BUSN 487, 488 Topics (2 credits)  
BUSN 489, 490 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online,  
https://banner.stthomas.edu/pls/banner/prod/bwckschd.

BUSN 269, 389, 491 Research (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.
BUS 243, 393, 495 Individual Study (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

Business Ethics Courses (BETH)
BETH 301 Business Ethics (4 credits)
This course plays a critical role in the principle-based education of St. Thomas business students, especially in introducing the responsibilities of a business professional. Through analysis of case studies, readings and other experiential exercises, students will develop an understanding of professional business conduct and judgment grounded in moral principles. This course is a pre-requisite for all 400 level business courses.
Prerequisites: Junior standing and eight credits from ACCT, BLAW, OPMT, FINC, MGMT, MKTG

Business Law Courses (BLAW)
BLAW 301 Legal Environment of Business (4 credits)
An examination of the business law rules and principles of particular relevance to entrepreneurship, finance, management, and marketing. Subjects include contracts, negligence, products liability, and warranty, sales of goods, intellectual property, employment law, as well as general notions of legal reasoning and legal process and alternative dispute resolution.
Prerequisite: Junior standing

BLAW 302 Business Law for Accounting (4 credits)
An examination of the business rules and principles of particular relevance to the accounting profession. Subjects include the law of contracts, the Uniform Commercial Code, the law of debtor-creditor relations, the legal structure governing the formation and operation of business organizations (agency, partnership, and corporations), securities regulations, as well as general notions of legal reasoning and legal process.
Prerequisites: Junior standing and ACCT 210

BLAW 303 International Business Law (4 credits)
An exploration of the international legal environments and some of the legal issues and problems confronting businesses as they cross international boundaries. Topics include international trade, foreign investment, transfer of technology, international dispute resolution, international contracting, employment law, and the role of multinational enterprises.
Prerequisite: Junior standing

BLAW 304 Real Estate Law (4 credits)
Principles of law regarding real property with emphasis on contractual relationships, purchase and sales transactions; title and transfer of ownership, mortgages, zoning and land use, development, commercial and residential leasing, and professional liability. Offered in spring semester.
Prerequisite: Junior standing

BLAW 351 Environmental Law (4 credits)
Environmental law will survey relevant federal and state statutes and case law to examine how well they serve to maintain and improve the quality of the air, water, soil and life, and strike an appropriate balance between the present consumption of resources and their maintenance for future generations. The course also will explore emerging environmental trends and the formulation of environmental policy.
Prerequisite: Junior standing

BLAW 352 Gender Issues and the Law (4 credits)
This course explores the principle that men and women stand as equals before the law. It will examine the ways in which courts and legislatures have interpreted the principle of equal opportunity to resolve gender issues in the workplace, as well as in other aspects of society that affect access to the workplace, including education, marriage, and the family. It also provides an historical overview of the law of equal opportunity and will touch upon modern notions of feminist legal theory. This course fulfills the Human Diversity requirement in the core curriculum.
Prerequisite: Junior standing

BLAW 353 Employment & Labor Law (4 credits)
This course addresses in-depth legal issues that every employer and employee needs to understand regarding the legal environment of employment, including federal and state employment discrimination laws, sexual harassment, workers’ compensation, first amendment rights, privacy, wrongful termination, covenants not to compete, federal laws governing the right to organize and bargain collectively, and emerging employment law issues.
Prerequisite: Junior standing
BLAW 354 Marketing Law (4 credits) (formerly BLAW 403)
This course explores the legal principles and government regulation relating to marketing, advertising, and intellectual property. Topics include intellectual property protection such as patents, trademarks, and copyrights; the law of advertising and promotion; and possibly other timely topics relevant to marketing law.
Prerequisite: BLAW 301, 302, or 303

BLAW 401 Legal Research, Advocacy, and Dispute Resolution (4 credits)
An examination of the nature of legal process and of the means the legal system adopts to resolve business disputes. The course will follow a problem-solving approach emphasizing critical thinking and oral and written legal advocacy skills. Topics include an overview of jurisprudence, the sources of law, business and the Constitution, the regulatory process, judicial and alternative dispute resolution, and the basics of legal research and written and oral advocacy.
Prerequisite: BLAW 301, 302, or 303 or consent of instructor; BETH 301

BLAW 402 Law of Electronic Commerce (4 credits)
An exploration of the evolving legal environment that shapes business strategy for conducting business online. Topics include global e-commerce regulatory schemes, issues of privacy, security and data protection, online payment and banking regulation, intellectual property considerations, and censorship and defamation concerns.
Prerequisite: BLAW 301, 302, or 303; BETH 301

Entrepreneurship Courses (ENTR)
ENTR 200 Foundations of Entrepreneurship (4 credits)
Students will learn the concepts of opportunity scanning and opportunity recognition. Students will conduct a self assessment to help them better understand their personal values and aspirations to help guide their entrepreneurial career. Students will be exposed to the variety of types of entrepreneurial ventures.
Prerequisite: Sophomore standing; not open to Seniors

ENTR 300 Entrepreneurship for Non-majors (4 credits)
This course focuses on the functional skills and knowledge that are necessary in the smaller business growth and development. It also will help the student develop an understanding and awareness of the way the critical areas of law, management, finance, accounting and marketing need to be integrated and applied for successful small business management. Not open to entrepreneurship majors.
Prerequisite: Junior standing

ENTR 340 Social Entrepreneurship (4 credits)
This course introduces students to the field of social entrepreneurship, the practice of identifying, designing, starting and growing successful mission-driven for profit and nonprofit ventures. These include “non-profit” enterprises designed to respond to a special social need, as well as more traditional ventures working to incorporate “socially-responsible” practices into their business models. The course provides an overview of the processes, challenges, and demands associated with creating ventures that seek to integrate financial and social/environmental benchmarks of success. This course is designed to appeal to business majors who want to learn more about the social sector, and non-business majors with interests in social causes, who want to learn more about business.
Prerequisite: Junior standing

ENTR 348 Franchising Management (4 credits)
This course examines several of the most important aspects of starting and managing a franchise business. Specific attention is placed on the following: the characteristics of the franchiser and franchisee; evaluation of franchising opportunities; legal concerns of franchising; the development of appropriate franchising strategies; and the successful planning, implementation, and launching of a new business.
Prerequisite: Junior standing

ENTR 349 Family Business Management (4 credits)
This course will explore the challenges and opportunities facing individuals and families involved in business relationships. Topics addressed will include family-business culture, entrepreneurial influences, key issues and conflicts, career planning, succession and strategic planning, counseling and consulting, professional support relationships and survival skills as a son or daughter in the family business. Parents or other significant family members are invited to audit this course with their son or daughter.
Prerequisite: Junior standing

ENTR 350 Entrepreneurial Research (4 credits)
This course focuses on developing students’ knowledge and thinking about opportunities by researching new business ideas and concepts in an entrepreneurial environment. The course requires students to complete a series of exploratory field studies, and develop
an opportunity identification report for an original entrepreneurial concept.
Prerequisites: ENTR 200 and MKTG 300

ENTR 360 Creativity and Change (4 credits)
This course will acquaint students with theories and strategies for exercising the creative process. Leadership and change will also be examined to help the student understand how to effectively introduce and implement new and creative ideas.
Prerequisites: ENTR 200 and Junior standing

ENTR 370 Entrepreneurial Financial Resource Management (4 credits)
Students will learn a broad array of tools to more efficiently manage scarce resources in a new venture. Bootstrapping techniques in marketing, administration, fixed assets, and many other areas will be examined. Students will learn applied approaches to current asset and liability management. Students planning to start their own business within the first year or two of graduation will benefit most from this course. Students are expected to have a proficiency in computer spreadsheet programming.
Prerequisites: ENTR 200, ACCT 210, and Junior standing

ENTR 380 Entrepreneurship in Practice (4 credits)
Students will integrate experiences from placements in entrepreneurial companies with required readings, class discussion, and class assignments related to their placement experience. Students will complete 100 hours of work in the placement. They will perform appropriate, significant and relevant tasks directly under the supervision of either the lead entrepreneur or a key member of the entrepreneurial team. In addition, students will meet regularly during the semester in a classroom setting to share their experiences and learn from classmates in other placements. Finally, the instructor will also hold regular one-on-one sessions with students to provide overall supervision for the placement experience and to assure that the student is integrating classroom learning with the placement experience.
Prerequisites: ENTR 200 and Junior standing

ENTR 449 Family Business Innovation and Entrepreneurship (4 credits)
Develop governance processes that establish innovation and entrepreneurship in the family business. Owners will participate in defining desired family outcomes that align with family mission and goals; identifying and assessing entrepreneurial opportunities in light of business and family resources and capabilities; and desired social and economic impact; and developing decision processes to assess entrepreneurial opportunities. Family members involved in the business are expected to either audit this course or to actively participate in course projects.
Prerequisites: ACCT 210, FINC 300 or FINC 321; BETH 301; and Senior standing.

ENTR 450 Entrepreneurship: Management and Strategy (4 credits)
This is the capstone course in entrepreneurship. It will include guest speakers from the entrepreneurial business world, extensive case analysis of entrepreneurial ventures and intensive personal business plan development. Students are expected to have a proficiency in computer spreadsheet programming.
Prerequisites: BETH 301, one ENTR elective, FINC 321, OPMT 310, and MKTG 300

Finance Courses (FINC)
FINC 300 Finance for Non-Business Majors (4 credits)
Introduction to the concepts of finance in analyzing decisions. Topics include how to determine the economic value of a company's investment projects, the value of financial securities, the cost of funds used to purchase assets, and the overall management of the firm's assets and liabilities. This course may not be used to meet any requirement for a business major. Not open to business majors.
Prerequisite: Junior standing

FINC 321 Financial Management (4 credits)
An examination of the elements of the finance function of the organization as well as the financial analysis of decisions. Topics include working capital management, acquisition of capital, capital budgeting, cost of capital, theories of valuation, and present value.
Prerequisites: ACCT 210 and ACCT 215, (or ACSC 320 for actuarial majors) STAT 220 (MATH 313 or STAT 314 for actuarial majors), ECON 251, 252, and Junior standing

FINC 324 Corporate Finance (4 credits)
Scope and objectives of financial management in the corporate setting at an advanced level. The course will explore working capital management, risk, valuation, capital structure theory, capital budgeting and other current topics in finance. It will utilize computer-based financial modeling and forecasting.
Prerequisites: FINC 321, and MATH 109 or 111 or 113 (may be taken concurrently), and CISC 200 (may be taken concurrently)

FINC 325 Investments (4 credits)
The focus of this course is to provide an overview of investment concepts and an exposure to a broad range of investment alterna-
The principle concern of the course is to develop skills necessary to make prudent investment decisions. Prerequisites: FINC 321, and MATH 109 or 111 or 113, and CISC 200 (CISC 130 for actuarial science)

**FINC 410 Derivatives (4 credits)**
This is a mathematically-oriented course which gives an introduction to the theory of derivative contracts such as futures and options. Issues of valuation, arbitrage pricing, trading strategies, and hedging strategies will be covered. The course will include elements of stochastic calculus and other mathematical techniques needed for understanding the derivative pricing. Among the applications to be explored are uncertainty in commodity prices, stock prices, exchange rates and interest rates. Prerequisites: FINC 324 or 325 and BETH 301

**FINC 430 Financial Intermediaries (4 credits)**
Concepts, practices and organization for financial management of various financial intermediaries. Asset-liability management, duration, swaps, hedges and other concepts will be covered. Banks will be the primary area for study, but the course also will look at other institutions including insurance, funds and thrifts. The course will be based on text, lectures, guest speakers, computer modeling, a bank simulation and examination. Prerequisites: FINC 324 or 325 and BETH 301

**FINC 440 Security Analysis and Portfolio Management (4 credits)**
This course will cover knowledge and develop skills necessary to carry out prudent and in-depth analysis of investments and create investment portfolio. The major topics covered include portfolio theory, macroeconomic analysis, industry analysis, financial statement analysis, company analysis, valuation models, creating investment policy statement, asset allocation, professional money management and portfolio strategies, and portfolio performance evaluation. The course also includes discussions of most recent developments in the investments industry. Students will apply course concepts to the analysis of actual companies and present their analysis and recommendations to investment professionals. Prerequisites: FINC 325, and BETH 301

**FINC 442 Fixed Income Securities (4 credits)**
This mathematically-oriented course provides extensive coverage of a wide range of fixed income securities, investment strategies and the interest rate environment. General determinants of value on standard instruments and analysis of the newer instruments including zeroes, mortgages derivatives, interest rate swaps, and structured notes will be covered. Necessary mathematical concepts covered in this course will include stochastic calculus and differential calculus. Prerequisites: FINC 325, and BETH 301

**FINC 450 International Financial Management (4 credits)**
The management of foreign and multinational financial operations. On the basis of international finance theory, students will learn foreign exchange risk management, foreign investment analysis, the financing of foreign operations, comparative accounting, international banking and international tax management. Prerequisites: FINC 324, and BETH 301

**FINC 480 Strategic Finance (4 credits)**
Building on the finance theory learned in prior courses, this course focuses on financial strategies for a broad range of finance issues faced by corporations including capital budgeting, capital raising, optimal capital structure, dividend policy, and corporate restructuring and mergers and acquisitions. This is an applied, case-based course the students will be engaged in extensive case analysis, discussion, and presentations to develop and refine analytical skills. Prerequisites: FINC 324, and BETH 301

**International Business Courses (IBUS)**
**IBUS 450 Transnational Business Issues in Management, Marketing, or Business Law (4 credits)**
This course is to be taken abroad. Final determination as to the specific course will be decided before the course is taken in consultation with the international business adviser. Prerequisite: Approval of undergraduate business adviser

**IBUS 460 Transnational Business Issues in Finance or Accounting (4 credits)**
This course is to be taken in the country of choice. International accounting and finance practices are significantly different from those in the U.S. Therefore, the student should be extremely careful in choosing the course. Selection will be made only in consultation with the international business adviser. Prerequisite: Approval of undergraduate business adviser

**IBUS 470 Transnational Issues in International Business (4 credits)**
This course is to be taken abroad and may include an internship. Students incorporating an internship experience in this course must
Business Administration - Opus College of Business

have prior approval from the international business adviser. If the student is working for an American company, s/he must work in a section of the company where the student’s second language is required.
Prerequisite: Approval of undergraduate business adviser

Management Courses (MGMT)

MGMT 305 Management & Organizational Behavior (4 credits)
This course is designed to introduce students to the complexities of working within organizations, regardless of whether it is a for-profit, non-profit, or governmental organization. Certain complexities are common across organizations, irrespective of their goals or size. Understanding these complexities is critical to becoming an effective member of any organization, and this course will develop students’ understanding and expertise in leading and managing themselves and others within organizations.
Prerequisite: Sophomore standing

MGMT 360 Organizational and Employee Development (4 credits)
This course focuses on the theories, concepts, research and practice of organization change and development, performance management, and employee training and development that impact organizational employee behavior. Topics include an overview of human resource management, organization entry and socialization, employee performance management, career choices, employee motivation, job design, organization structure, culture, group dynamics, teamwork, power and influence, organization restructuring, change management, and employee training and development.
Prerequisites: MGMT 305 and Junior standing. Offered Fall semester.

MGMT 362 Attracting, Acquiring, and Rewarding Talent (4 credits)
This course focuses on the theories, concepts, research and practice of staffing and compensation/reward programs that impact organizational employee behavior. Topics include, law, labor markets, human resource planning, including recruiting, hiring and layoffs, job analysis, staffing and selection, compensation strategy, policies and practices, and benefits programs. Offered fall semester.
Prerequisite: MGMT 305 and Junior standing.

MGMT 364 Employee and Labor Relations (4 credits)
The course is designed to prepare students to be successful human resource generalists, general managers or entrepreneurs. These careers require both HR knowledge and interpersonal skills. Thus, this course focuses on the concepts, research and practice of employee and labor relations and related organization processes that impact employee behavior. Topics include leadership, worker representation, conflict resolution and negotiation, employee counseling and discipline, global and workplace diversity, and health and safety.
Prerequisites: MGMT 305 and Junior standing. Offered Spring semester.

MGMT 382 Leadership (4 credits)
This course explores the concepts and skills involved in exercising effective leadership from both an organizational and an individual perspective. The course covers the concepts of leadership in diverse cultures, how organizational conditions affect competent ethical leadership, and the actual work of leadership in organizations. Concepts such as shared-leadership and rotating leadership are explored. This course examines the complexity of business leadership through a review of the key theories of leadership and their managerial applications using a combination of methods.
Prerequisites: MGMT 305 and Junior standing.

MGMT 384 Project Management (4 credits)
This course presents the concepts, techniques, software tools, and behavioral skills needed for managing projects effectively. It introduces the students to a project’s life cycle (from project definition and goals to completion of the project) and the behavioral dynamics that need to be managed to achieve success. The multiple roles of the project manager are explored. These include being a team leader responsible for timely execution, design and meeting specifications, budgeting, and managing people. The technical and human aspects of project management will receive approximately equal focus.
Prerequisites: MGMT 305 and OPMT 310; and Junior standing. Offered fall semester.

MGMT 386 Advanced Organizational Behavior (4 credits)
This course is designed to increase your effectiveness as a manager and team member by utilizing frameworks for understanding organizations and the behavior of people and groups within an organization. This course will focus on critical activities related to managerial and team effectiveness including managing interdependence, making decisions, motivating performance, negotiating differences, and working within an organization’s structural, political, cultural, and global environment.
Prerequisites: MGMT 305 and Junior standing. Offered spring semester.

MGMT 430 International Management (4 credits)
Managers operating in a global environment need to manage the differences in doing business with people from other cultures. This goes beyond knowing that people have different customs, goals, and thought patterns. Today’s managers need to be able to understand...
stand the cross-cultural subtleties imbedded in any interpersonal working relationships, regardless of whether operating in a foreign location, interacting with foreign nationals from a distance, or working with a culturally diverse American workforce. A manager’s ability to understand, accept, and embrace these differences is critical to his or her success. This course is designed to address the complexities of intercultural management and facilitate the student’s ability to manage successfully in a cross-cultural environment. Topics include intercultural ethics, intercultural negotiations, and work values.

Prerequisites: OPMT 310, FINC 321, MKTG 300 or concurrent registration and prerequisite waived by instructor, MGMT 305, BETH 301. Offered spring semester.

**MGMT 460 Human Resource Strategy (4 credits)**
This course focuses on the theories, concepts, research, and practice of human capital management that impacts organizational employee behavior. Topics include systems theory, human capital strategy, human resource best practices, configurations or market and human capital practices, human resource metrics and ROI analysis, and the evolving role of the human resource function in contemporary organizations. Offered spring semester.

Prerequisites: MGMT 360 or 390, MGMT 362 or 420, BETH 301, and Senior standing.

**MGMT 480 Strategic Management (4 credits)**
This course examines organizational issues from an integrative perspective. It draws on concepts from the entire business curriculum to view the organization as a whole. The focus of the course is to have you view the organization from the perspective of the president, rather than that of a manager of a particular function (e.g., VP of marketing). It examines the development of core competence and a sustainable competitive advantage as part of an organization’s strategic planning process. Offered each semester.

Prerequisites: OPMT 310, FINC 321, MGMT 305, MKTG 300, BETH 301, and Senior standing. Absolutely no exceptions will be made to these prerequisites.

**MGMT 482 Managerial Applications of Leadership (4 credits)**
This course addresses the application of leadership principles in the context of business, political, and social organizations. It emphasizes how leadership affects the functions of the organization, with particular emphasis on managerial applications. The course explores both current topics in leadership and examines historical and current leaders to examine how the personality, style, ethics and strategy of a leader affects their organization and community. Leadership examples are drawn from literature, film, and politics.

Prerequisites: BETH 301, MGMT 382 and Senior standing. Offered spring semester.

**Marketing Courses (MKTG)**

**MKTG 300 Principles of Marketing (4 credits)**
This course uses a managerial point of view. It focuses on understanding the needs and desires of customers in order to develop effective strategies for business. Students are taught to consider organizational, social, competitive, technological, economic, behavioral, and legal forces in crafting effective marketing programs.

Prerequisite: Junior standing

**MKTG 310 Professional Selling (4 credits)**
In this course students learn how individuals interact with each other in a competitive environment. The course covers one-on-one selling techniques, persuasive communication, oral and verbal presentation skills useful for one-to-one presentations and when groups present to groups. The student will learn skills useful in both the industrial and consumer areas.

Prerequisite: MKTG 300

**MKTG 320 Integrated Marketing Communications (4 credits) (formerly Promotions Management)**
This course is designed to develop an appreciation for the promotion mix (personal selling, advertising, public relations, sales promotion) by exploring how and why these elements are used by organizations to reach their goals and objectives. Concept fundamentals are explored and then integrated into case analysis.

Prerequisite: MKTG 300

**MKTG 330 International Marketing (4 credits)**
In this course students consider basic concepts, principles and theories of international marketing, as well as the essential and complex problems encountered in the international marketplace. The emphasis is on problem solving and decision-making within the international marketing environment.

Prerequisite: MKTG 300

**MKTG 340 Marketing Research (4 credits)**
In this course, students learn to develop surveys, observation, experiments, and other tools for learning about customer characteristics and requirements. They learn about analytical techniques, data sources, research planning and costs.

Prerequisites: MKTG 300, MATH 101 or 109 or 111 or 113, STAT 220
MKTG 350 Marketing Channels and Distribution Systems (4 credits)
Students examine relevant theories, concepts, and practices related to the flow of goods and services in and between organizations from the point of view of the total distribution system. The goal of the course is to help business students think about and learn to create and integrate marketing and logistics strategy.
Prerequisite: MKTG 300

MKTG 360 Retailing (4 credits)
In this course students learn the principles and practices of retailing, non-store retailing services and direct marketing from a management perspective. Topics include roles-in-channel, demographics, consumer behavior, trends, strategy formulation, ownership and formats, trade area and location, buying and sourcing, store design and visual merchandising, operations management promotion, service delivery, controls, non-store retailing, human resource issues, database management, and international retailing.
Prerequisite: MKTG 300.

MKTG 370 Consumer Behavior (4 credits)
In this course, students examine how consumers and organizations go about making purchase decisions. Major theoretical contributions and empirical research findings from marketing and the behavioral sciences are reviewed and attention is given to applying this information to practical business and marketing situations.
Prerequisite: MKTG 300

MKTG 380 Interactive Marketing (4 credits)
Interactive marketing (i.e. website marketing, social media, email marketing, display advertising, search marketing and mobile marketing) applies the concepts and strategies introduced in Principles of Marketing to today’s business environment. The goal of Interactive Marketing is to acquire and strengthen customer relationships by leveraging the online space. This allows businesses to uniquely engage with customers around the world in relevant “real time” dialog based on customer insights, while allowing customers to engage with businesses whenever, wherever and however they choose.
Prerequisites: MKTG 300 or COJO 234

MKTG 390 Marketing Strategy (4 credits)
This course provides the framework for developing and implementing strategies that are distinctive and sustainable. Topics include: market, industry and competitive analysis; market segmentation, targeting, positioning and branding; uses of secondary and marketing research information; analysis and development of market entry and strategy alternatives; and integration of marketing strategy with financial, operations and corporate culture on the firm. The course is designed for those who are involved in marketing strategies, doing marketing planning and managing markets.
Prerequisites: MKTG 300, MATH 101 or MATH 109 or 111 or 113; STAT 220

MKTG 430 Marketing Management (4 credits)
Small Business Institute clients present student teams with business problems that require solutions. Student teams diagnose the client’s problem and craft and present a solution to the client. Time is divided between reviewing and integrating the students’ marketing background, facilitating the student contact with the client, and providing consulting to the client.
Prerequisites: MKTG 340; one additional Marketing elective; BETH 301; and Senior standing

Operations and Supply Chain Management
OPMT 310 Operations Management (4 credits)
Operations management focuses on planning, coordination and control of activities involved in the transformation of resources into goods and services. This course will examine the concepts and techniques utilized in the management of manufacturing and service operations. The course will focus on the strategic use of the tactical tools of operations management. Topics covered include the management of process, technology, production, six-sigma quality, inventory, supply chain, workforce, business process improvement and lean management in operating systems. After completing this course, students will have a great appreciation for the strategic power of the operations function and greater knowledge of how effective operations management can enable an organization to attain a sustainable competitive advantage.
Prerequisites: Junior standing; STAT 220; and MATH 101 or higher; concurrent or previous enrollment in MGMT 305 recommended

OPMT 320 Decision Analysis (4 credits)
This course is focused on developing the quantitative, analytical skills needed to gain insight into the resolution of practical business problems. Students will learn how to analyze and solve management problems using spreadsheet based methods. Specific methods for clarifying objectives, developing alternatives, addressing trade-offs, and conducting a defensible quantitative analysis will be presented. Topics include spreadsheet modeling, linear programming, transportation modeling, decision analysis, project management, and simulation. Students will also be introduced to building decision support models using Visual Basic Applications (VBA).
Prerequisites: OPMT 310, STAT 220, and MATH 101 or higher and Junior standing
OPMT 330 Quality Management (4 credits)
This course provides an introduction to the principles and practices of quality management. The course focuses on the application of quality philosophies and quality tools in both manufacturing and service organizations. The course will provide practice in using the tools and techniques of quality such as Statistical Process Control (SPC) and Quality Function Deployment (QFD). Modern approaches to quality management such as the Baldrige criteria, ISO certification, and Six-Sigma programs will be included, as well as the philosophies of quality pioneers such as Deming and Juran.
Prerequisite: OPMT 310

OPMT 340 Process Analysis & Improvement (4 credits)
This course is focused on learning and applying the theories and techniques of process analysis and improvement. Students will learn how to analyze and improve business processes in different contexts, using different process improvement tools. In addition to simple process mapping, more programmatic improvement tools including Business Process Reengineering (BPR), Just-In-Time (JIT), lean/flexible/agile processes, and Theory of Constraints (TOC) will be included in this course.
Prerequisite: OPMT 310

OPMT 350 Supply Chain Management (4 credits)
This course will develop a basic understanding of supply chain management both within and beyond organizational boundaries. It will provide the conceptual and analytical framework for the materials management function of business including purchasing, inventory management (MRP), capacity planning, scheduling, and manufacturing planning and control systems; as well as a broader supply chain view.
Prerequisite: OPMT 310

OPMT 360 Service Operations Management (4 credits)
The service sector is the fastest growing sector of the economy. This course is designed to explore the dimensions of service operations management and the process of ongoing improvement. Outstanding service organizations are managed differently than their manufacturing counterparts. The results show not only in terms of conventional operational measures of performance, but also in the enthusiasm of the employees and degree of customer satisfaction, where efficient and effective service is taken as a positive experience. This course aims at applying tools learned in Operations Management as well as integrating student learning from other areas such as strategy, marketing, technology and organizational issues in the service industry. Service sectors in this course include airlines, health care, hotels, restaurants, entertainment and recreation, and service consulting. Offered Spring semester.
Prerequisite: OPMT 310

OPMT 480 Operations Strategy with Integrative Project (4 credits)
This course is the capstone course for majors in operations management. This integrative course in Operations Strategy has a strong managerial focus on the operating decisions that can impact a firm’s profitability in various manufacturing and service sectors. It serves as an integrator for the courses that had preceded it by giving students the opportunity to incorporate and refine the knowledge and skills developed in previous coursework. This course utilizes real-life cases and projects to understand managerial issues in operations and to develop a strategic perspective in the decision making process. Offered spring semester.
Prerequisites: Senior standing; BETH 301; OPMT 320, and 350; and concurrent or prior enrollment in OPMT 330

Real Estate Courses (REAL)
REAL 200 Real Estate Principles (4 credits)
Explores the theories and practices of real estate with emphasis on the “why” and “how” of buying, financing, owning and selling real estate. Real estate brokerage, property management, mortgage finance, appraisal, investment and development are examined within a legal, economic and social context. Open to non-majors. Offered Spring semester.
Prerequisite: Sophomore standing

REAL 360 Real Estate Property Management (4 credits)
Owner, management and tenant relations within context budgeting, marketing and management planning is examined. Management for multi-family, office, retail and industrial property differentiated. Entrepreneurial roles of managers for finding tenants and conducting lease negotiations is explored. Offered in fall semester.
Prerequisites: REAL 200 and Junior standing

REAL 370 Real Estate Market Analysis (4 credits)
This course provides students with the skills and knowledge necessary to evaluate the productive attributes of parcels of real estate as they relate to the demand for a particular use and the supply of competitive properties within a specified market. Focus is placed on the role of market analysis in real estate decision making and valuation. Students will learn the process of evaluative property analysis through the study of property productivity; demand for and supply of property; comparative analysis; and forecasting. Topics include the urban growth process; market conditions; market analysis; data collection; financing; governmental and legal consider-
REAL 460 Real Estate Finance and Investment (4 credits)
Examines mortgage, lease, contract and construction financing with related underwriting standards and analytical techniques. Integrates the role of banks, pension funds, insurance companies with government, secondary mortgage markets, and purpose, function and operation of the U.S. financial and federal reserve systems. Acquisition and disposition analysis of income producing real property including tax liability and strategy. Market, feasibility and income analysis integrated with profitability and rate of return measures pertaining to investments with optimal financing. Offered in spring semester.
Prerequisites: REAL 200 and FINC 321, or FINC 324 and 325; and BETH 301

REAL 461 Real Estate Appraisal (4 credits)
Valuation of residential and commercial real estate using the cost, market and income approaches to value. Professional ethics and standards of professional appraisal practice explored. Professional quality narrative appraisal with comparable sales, depreciated cost and discounted cash flow analysis required. Offered in fall semester.
Prerequisites: REAL 200, FINC 321, and BETH 301

REAL 470 Real Estate Development (4 credits)
Capstone course integrating all functional areas of real estate for production of housing, commercial and industrial real estate. Use of market research, feasibility studies and market analysis in contract negotiation for project construction, marketing and management. Offered in spring semester.
Prerequisites: REAL 460 or 461, and BETH 301

CATHOLIC STUDIES (CATH)
College of Arts and Sciences, Department of Catholic Studies
Sitzmann Hall, (555) (651) 962-5703
Kennedy (chair), Boyle (Director of Graduate Program), Foote, Junker, Keating, Kidd, Naughton

The Department of Catholic Studies allows students to encounter the broad and diverse expressions of Catholic culture. While grounded in Catholic philosophy and theology, the curriculum engages students with the imaginative and sacramental expressions of Catholic life in literature, the arts, social systems and personal experience. The interdisciplinary dimension gives students insight into Catholicism’s dynamic interaction with and interpenetration of cultures, traditions, and intellectual life throughout history. By examining the role it has played in various cultures, students are challenged to take seriously Catholicism’s transforming power in every aspect of intellectual, spiritual, and social life.

Faculty are united by a profound respect for Catholicism, and are committed to a high degree of interaction among themselves as well as with students. Students thus enter into a community at once faithful and intellectual.

The curriculum can appeal to students of any faith tradition who seek to deepen their knowledge of Catholicism’s rich and living heritage. Its interpersonal approach and opportunities for sustained reflection on important issues invite students to a more profound and mature experience of faith.

Students graduating with a major in Catholic studies will have a knowledge of the living Catholic tradition, and will be conversant with resources from the Catholic intellectual tradition that will permit them to explore critically the history and contemporary significance of Catholicism. They will be familiar with major Catholic figures from a variety of cultural and historical settings, and will be able to demonstrate a knowledge of the complex and broad history of the Catholic intellectual tradition.

The major consists of 36 credits: 16 credits in required core courses, 16 credits in required distribution area electives, and additional 4 credits for single-majors. At least 7 courses (28 credits), must have a CATH designation. The minor consists of 20 credits: 8 credits in required core courses, 12 credits in required distribution area electives. At least 16 credits (4 courses), must have a CATH designation.

Students who participate in the Rome single-semester program may use up to three courses towards their major or minor course of studies. Students who participate in the full-year Rome program may use up to four courses towards their major.

Major in Catholic Studies
Sixteen credits in core requirements:
CATH 101 The Search for Happiness (4 credits)
CATH 201 Paths and Practices of Catholic Spirituality (4 credits)
CATH 301 The Catholic Vision (4 credits)
CATH 401 The Church and Culture: Social Dimensions of Catholicism (4 credits)

Plus:
Catholic Studies (CATH)

Eight credits chosen from the following category:
Philosophical/Aesthetic based course

Plus:
Eight credits chosen from the following category:
Historical/Theological/Social based course

Plus:
Four additional credits chosen from any of the above areas

Minor in Catholic Studies

Eight credits chosen from the core requirements above

Plus:
Four credits in approved electives chosen from the following category:
Philosophical/Aesthetic based course

Plus:
Four credits in approved electives chosen from the following category:
Historical/Theological/Social based courses

Plus:
Four additional credits from any of the categories above
Approved electives include (but may not be limited to) the following courses. Please consult the office of the department chair for an up-to-date list of approved courses.

Philosophically/Literary/Aesthetics Based courses:
CATH 222 The Catholic Literary Tradition (4 credits)
CATH 234 Love, Sex and Friendship (4 credits)
CATH 240 Faith and Doubt (4 credits)
CATH 250 Christian Mysteries from a Philosophical Viewpoint (4 credits)
CATH 308 Woman and Man (4 credits)
CATH 334 Literature from a Christian Perspective (4 credits)
CATH 357 Sacred Music of the Catholic Heritage (4 credits)
CATH 392 Dante's Divine Comedy (4 credits)
CATH 297/397 Topics in Catholic Studies (4 credits each)
CATH 298/398 Topics in Catholic Studies (4 credits each)
PHIL 460 Philosophy of God (4 credits)
ARTH 280 Sacred Architecture and Space (4 credits)
ARTH 323 Colonial Latin America (4 credits)
ARTH 330 Churches and Mosques in the First Millennium (4 credits)
ARTH 335 Cathedrals, Monasteries, and Caliphatstes (4 credits)
ARTH 340 Southern Renaissance Art and Society (4 credits)
ARTH 345 Baroque and Rococo Art (4 credits)

Historically/Theologically/Social Based courses
CATH 306 Christian Faith and Management Professions (4 credits)
CATH 321 Modernity and the Catholic Church: French Revolution to the Present (4 credits)
CATH 322 English Writers in the Catholic Tradition
CATH 346 Christian Faith and the Education Profession (4 credits)
CATH 364 Science and Christian Theology (4 credits)
CATH 379 Christian Faith and the Medical Profession (4 credits)
CATH 387 John Henry Newman (4 credits)
CATH 297/397 Topics in Catholic Studies (4 credits each)
CATH 298/398 Topics in Catholic Studies (4 credits each)
HIST 222 Early Modern Europe: 1450-1750 (4 credits)
HIST 306 The World of Late Antiquity: A.D. 284-641 (4 credits)
HIST 307 The Church in the Roman Empire to A.D. 395 (4 credits)
HIST 310 The Making of Europe: Middle Ages to 1000 (4 credits)
HIST 311 The Dawn of a New Era: Europe from 1000 to 1450 (4 credits)
HIST 366 The History of the Catholic Church in the United States (4 credits)

CATH 101 The Search for Happiness (4 credits)
This course provides a critical investigation into the quest for meaning and happiness as found in the Catholic tradition. Beginning with fundamental Catholic claims about what it means to be a human being, this course explores the call to beatitude in materials from several disciplines, including theology, philosophy, literature, and art, as well as ancient, medieval, and contemporary sources. Topics explored include a consideration of human beings in relation to divine beings, the supernatural end to human life, the human being as experiencing desire and suffering, the Christian paradox that joy may be found in the giving of one’s self, and the search for happiness through friendship and love. Through all these topics, the course particularly examines the question, “What is the specifically unique character of Christian happiness?”

CATH 201 Paths, Expressions and Practices in Catholic Spirituality (4 credits)
This course provides an investigation into the various forms and expressions of spirituality which derive their inspiration from a common origin in Christian Revelation and the teachings of the Catholic Church. We will examine in depth a selection of topics and themes having to do with differing expressions and practices of Catholic spirituality across a number of historical eras and cultures. Possible topics include prayer and contemplation; the varieties of Catholic spirituality in both their solitary and communal dimensions; virtue; and vocation and work. Interdisciplinary course materials will draw on sources in theology, philosophy, history, literature, and art or music.

CATH 222 The Catholic Literary Tradition: Medieval to Modern (4 credits) (equivalent to ENGL 222)
This course surveys literary works with theological or spiritual themes that have contributed to the vitality of Catholic culture. The purpose of the course is to help students realize that Catholic culture has fostered a variety of literary expressions and has produced works that speak compellingly of human experience and sacramental life.
Prerequisites: ENGL 121 and/or ENGL 201, 202, 203, or 204

CATH 234 Love, Sex and Friendship (4 credits) (equivalent to PHIL 234)
A philosophical examination of the nature of human love. Possible topics include reciprocity and permanence, fidelity, romantic love, human sexuality, kinds of friendship. Special attention will be given to the thought of John Paul II.
Prerequisite: PHIL 115

CATH 240 Faith and Doubt (4 credits) (equivalent to PHIL 240)
 Philosophical arguments for and against the possibility of divine revelation. Special attention will be given to the claim that the faith of the Catholic Church is revealed. Possible topics include tests of alleged revelations and miracles, evil as a barrier to belief in revelatory claims, the compatibility of science and religion, the role of reason and faith in religious commitment, and personal decision-making in a state of doubt about evidence.
Prerequisite: PHIL 115

CATH 250 Christian Mysteries from a Philosophical Viewpoint (4 credits) (equivalent to PHIL 250)
A consideration of philosophical problems associated with Catholicism. Possible topics include divine providence, creation, the soul, freedom of the will, faith, the Eucharist, the Incarnation, and the variety of religious beliefs.
Prerequisite: PHIL 115

CATH 295, 296 Topics (2 credits)
CATH 297, 298 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online,
https://banner.stthomas.edu/pls/banner/prod/bwckschd.

CATH 301 The Catholic Vision (4 credits)
At the center of the Catholic vision are the two great works of divine love: creation and redemption. This course considers the implications of these divine works for a radical reconsideration of the world and the human person. Students will examine characteristic Catholic approaches to and emphases concerning creation, redemption and ecclesiology, and discuss how Catholic understandings of creation and redemption inform, respond to, and critique Catholic practices in various cultural settings. In addition, the course will compare and contrast contemporary Catholic cultural monuments with that produced in earlier eras, and compare and contrast Catholic Christianity with other forms of Christian and non-Christian belief and practices. In illustrating its themes, the course draws upon sources in art, literature, history, philosophy, and theology with special attention given to the intellectual, spiritual, and cultural consequences of Catholic doctrine.
Prerequisites: Junior standing and CATH 101 and CATH 201
CATH 306 Christian Faith and the Management Professions (4 credits) (equivalent to THEO 422)
What is a good manager and how does he or she contribute to the common good? This course pursues these questions within the Christian social tradition broadly understood through an exploration of the theological relationship between work as a vocation and leisure as contemplation. Within this theological context, the course examines the financial, organizational, technological, and cultural forces that managers and organizations encounter daily.
Prerequisites: THEO 101 (or 102 and 103) and one 200-level THEO course

CATH 308 Woman and Man (4 credits)
This course examines the definition of “woman” and “man” from both the historical and the philosophical perspective. Readings and discussion center on the question of (1) whether there are important philosophical differences between women and men and (2) whether such differences are natural or socially constructed. The implications of various answers to those questions are then examined, with special attention given to the Catholic tradition’s reflections on the nature and ends of marriage, the character of priestly ordination, friendship between women and men, and human sexuality. The purpose of the course is to examine the ways in which thinkers from a wide spectrum have construed male/female relationships. A major component this course consists in the study of power and the way it operates both in history and in contemporary culture. This course fulfills the Human Diversity requirement in the core curriculum.
Prerequisite: PHIL 115

CATH 321 Modernity and the Catholic Church: French Revolution to the Present (4 credits)
It is hard to overestimate the impact of the striking changes that have occurred in the world during the last two hundred years, changes that have had their focal point in European civilization. These have also been years of great moment for the Catholic Church. This course aims both at dealing with key people, events and developments in the Church in its relation to Europe since the French Revolution, beginning with an overview of the Ancien Regime and examining the social, political and ecclesiastical changes that came about through Enlightenment thought, political revolution, and scientific discovery. At the same time we will investigate what it means to do history and to do history from a Catholic perspective. We will pay particular critical attention to the historical vision of Christopher Dawson, and will read mostly from primary sources. Students will write weekly short assignments and one longer paper.
Prerequisite: CATH 101 or permission of the instructor

CATH 322 English Writers in the Catholic Tradition (4 credits)
English authors writing in the Catholic tradition have been a small minority in modern England, but have produced an extraordinary number of first-rank writers. Coincidence? Or is there something about the Catholic position in England that has attracted a certain kind of artist and thinker? We will attempt to look at crucial historical questions concerning modern England and English Catholicism using the lens of literature, paying special attention to: the rise of romanticism and its relationship to classicism, the emerging challenge of modernity and the Church’s place in responding to that challenge, and the personalities of certain important literary figures. The course will include English Catholic writers such as John Henry Newman, Gerard Manley Hopkins, Alice Meynell, Robert Hugh Benson, Ronald Knox, Hilaire Belloc, J. R. R. Tolkien, and G.K. Chesterton. In addition, it will include study of Protestant authors who were instrumental in the development of Catholic thought, such as William Wordsworth, Samuel Taylor Coleridge, and C. S. Lewis. Students will write weekly short assignments and one longer paper.

CATH 334 Literature from a Christian Perspective (4 credits) (equivalent to ENGL 334)
This course examines methods of reading and literary texts from a Christian perspective. The general question of the course is, “how does a reader engage works of imaginative literature from an intellectually serious Christian perspective?” The course studies works of criticism representing a variety of Christian viewpoints and applies them to literary texts that are explicitly Christian in themes as well as those which invite, or are enriched by, a Christian perspective.
Prerequisites: ENGL 201, 202, 203, or 204

CATH 346 Christian Faith and the Education Profession (4 credits)
This course explores education through its grounding in the Christian understanding of God and the human person. Theological topics relevant to education include: the nature of truth, the relationship between faith and reason, and freedom in moral and intellectual formation. We will also examine questions about faith-based education in a pluralistic context and the relevance of an interdisciplinary search for truth. In light of the growing trend toward academic specialization, this course aims to help students learn how various disciplines are integrated in the search for wisdom.
Prerequisites: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course

CATH 357 Sacred Music of the Catholic Heritage (4 credits) (equivalent to THEO 357)
Music both expresses and shapes religious experience. This course explores the practice and theory of music-making in Catholic worship and devotion. Special emphasis will be given to the study of Gregorian chant as foundational for Roman Rite worship music, the historical development of other forms of Catholic church music, and contemporary issues of music, culture and spirituality.
Prerequisites: THEO 101 (or 102 and 103) and one 200-level THEO course
CATH 364 Science and Christian Theology (4 credits) (equivalent to THEO 434)
This course is an introduction to the interrelationship between Christian theology (the understanding of the Christian faith), and the natural sciences. It explores the relationship between scientific and theological methods and modes of knowledge, and considers some of the central topics of Christian theology – God, creation, providence, resurrection, and afterlife – in the light of modern scientific evidence and theories.
Prerequisites: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course, PHIL 115, some college-level background in science, preferably biology, physics, or chemistry

CATH 397, 398 Topics (4 credits)
This course will examine in detail a small focused set of questions arising from one or more areas of the interdisciplinary program in Catholic Studies. Topics will vary from year to year but will not duplicate existing courses. The selection in any given semester will depend upon the interest of the students and instructors and on the availability of community resources (for example, guest lecturers). Some examples of subject matter include: Is Christian tragedy possible? Does Catholic belief conflict with the findings of modern science? What is the relationship of Catholicism to various economic systems? The odd number is used if the course fulfills a core curriculum requirement.

CATH 387 John Henry Newman (4 Credits)
John Henry Newman has been called, somewhat misleadingly, the father of the Second Vatican Council. The church historian, Jaroslav Pelikan, argued that he was the most important theological thinker of the modern era. T.S. Eliot had insisted that he is one of the two most eloquent sermon writers in the English language. Pope Benedict XVI stressed his importance as the theologian of conscience. In this course we will examine not only Newman’s most important theological works focusing on the development of doctrine and the role of conscience in relation to Church authority, but also his philosophical works addressing the relations of faith and reason, his work on university education and selected poetry, meditations and devotions, and sermons.
Prerequisite: THEO 101

CATH 379 Christian Faith and the Medical Profession (4 credits) (equivalent to THEO 437)
What is a good doctor? This course pursues this question and possible answers to it, from a historical, moral, and theological point of view. Reading and discussion will be guided by a detailed investigation of the scientific/technological, economic, and cultural forces that are presently complicating our traditional understanding of medical practice. Emphasis throughout will be on the Christian tradition of moral inquiry as a resource for responding to this question.
Prerequisites: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course

CATH 392 Dante’s Divine Comedy (4 credits)
This interdisciplinary Catholic Studies/literature course explores Dante Alighieri’s Divine Comedy in its literary, historical, theological, religious, political, and linguistic contexts. The course studies in critical detail the complete text of the Commedia in English as well as portions of related works such as Dante’s La Vita Nuova. Throughout the course, particular attention will be paid to the Divine Comedy’s Catholic Christian themes
Prerequisites: English 111/112 or 190.

CATH 401 Church and Culture: Social Dimensions of Catholicism (4 credits)
This course provides an investigation into the ways in which Catholicism is inherently social and ecclesial. Its specific focus is on the Christian engagement with the world. The course’s framework will be taken from the analysis of society into three spheres of action (culture, politics, and economics) as described in Centesimus annus. We will examine the ways that Revelation, the sacramental life, and the teachings of the Church call Catholics to seek holiness and to witness to their faith in the world. Specific topics may include social and economic justice, politics and public policy, lay and religious apostolates, education, and marriage and family. Course material may include sources from philosophy, theology, history, economics, and political science.
Prerequisite: CATH 101 and Junior standing

CATH 483, 484 Seminar (2 credits)
CATH 485, 486 Seminar (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

CATH 487, 488 Topics (2 credits)
CATH 489, 490 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.
Chemistry (CHEM)

CATH 269, 389, 491 Research (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

CATH 243, 393, 495 Individual Study (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

CHEMISTRY (CHEM)

College of Arts and Sciences, Department of Chemistry
O’Shaughnessy Science Hall (OSS) 402, (651) 962-5575
Borgerding (chair), Donato, Fink, Fort, Guino-o, Honigschmidt, Ippoliti, Layfield, Mabbott, Marcus, Marsh, Ojala, Prevette, Uzcategui, Wammer

The Department of Chemistry offers two degree programs in the field of chemistry: a Bachelor of Science (B.S.) degree and a Bachelor of Arts (B.A.) degree. The department is accredited by the American Chemical Society (ACS) for the professional training of chemists, and the B.S. degree is certified by the American Chemical Society. The B.S. has either a chemistry or a biochemistry concentration option. This degree is recommended for students who plan to pursue graduate study in chemistry in preparation for college teaching or advanced research in academic, industrial or government laboratories. The B.S. degree is also an advantage to those students who choose to work as a professional chemist in industry immediately following graduation.

The B.A. degree requires fewer chemistry courses and offers the possibility of completing a double major if students have a strong interest in another field. Both degrees offer some latitude in the selection of upper level courses, thus providing the student with flexibility to pursue an interest in a particular area of chemistry. Students graduating with either the B.S. or the B.A. may also qualify for departmental honors.

Students graduating with a major in chemistry will have the necessary knowledge to prepare them for a career in chemistry or for graduate school, and the confidence and skill to succeed. They will have the ability to read, comprehend, write, and speak with clarity and understanding in technical areas. They will constantly apply critical thinking to their readings in the technical literature. They will have developed good laboratory skills and be familiar with modern instrumentation and with the use of computers in technical fields. They will have developed the skills necessary to analyze their data and to draw conclusions from it.

Chemistry is an excellent major for students interested in chemistry, biochemistry, food science, forensic science, medicine, medicinal chemistry, dentistry, pharmaceutical chemistry, pharmacology, pharmacy, patent law, polymer science, chemical engineering, environmental science, materials science and other interdisciplinary fields. The major is also suited to students with a complementary interest in other sciences, or in computers, education, economics or business.

Students interested in teacher licensure should consider the various combinations of science education in the Department of Teacher Education in this catalog.

The Departments of Chemistry and Biology jointly offer a B.S. degree in biochemistry. The curriculum for this degree may be found under “Biochemistry” in this catalog.

All graduating senior majors are required to take an achievement test for purposes of assessment of the major and College accreditation.

In order to receive a degree in chemistry from the University of St. Thomas, transfer students must complete a minimum of sixteen credits in chemistry at the university in addition to the two-credit seminar sequence.

The department offers a number of courses for non-majors to fulfill the laboratory science component of the core curriculum.

Graduation with Honors in Chemistry
Students graduating with a B.A. or B.S. degree in chemistry may also qualify for departmental honors. Students interested in this designation must consult with the department chair one year (or more) prior to their graduation date. Requirements include:

1. a minimum cumulative GPA of 3.25 and a major field GPA of 3.50;
2. completion of four credits in research (CHEM 491); (participation in one summer of research in chemistry at St. Thomas may be applied in place of two credits; research must be completed at least one semester before graduation);
3. preparation of a written thesis in the format of the primary literature;
4. successful defense of the thesis before a panel composed of:
   - thesis director (chair of committee)
   - two additional UST chemistry faculty
   - one UST faculty member outside the chemistry department
   - one faculty member from another institution selected in consultation with the thesis adviser
   (while off-campus examiners are typically chemists, committee members from other disciplines such as biochemistry and physics may be employed when appropriate).
5. presentation of research at an off-campus meeting such as the Minnesota Section ACS Undergraduate Research Symposium, Minnesota Academy of Sciences, NCUR, regional ACS meeting, or national ACS meeting.
6. All requirements must be completed by April 20 for spring commencement, or early enough to allow for notification of the registrar and academic dean when graduating in another term.
Major in Chemistry (B.S.) (ACS-certified)

CHEM 111 General Chemistry I (4 credits) and CHEM 112 General Chemistry II (4 credits)

or

CHEM 115 Accelerated General Chemistry (4 credits)

Plus:
CHEM 201 Organic Chemistry I (4 credits)
CHEM 202 Organic Chemistry II (4 credits)
CHEM 300 Quantitative Analysis (4 credits)
CHEM 320 Instrumental Analysis (4 credits)
CHEM 331 Chemical Thermodynamics and Reaction Dynamics (4 credits)
CHEM 332 Quantum Chemistry and Molecular Spectroscopy (4 credits)
CHEM 340 Organic Spectroscopy (2 credits)
CHEM 400 Advanced Inorganic Chemistry (4 credits)

Note: CHEM 332 is a prerequisite for CHEM 400

CHEM 440 Biochemistry I (4 credits)
CHEM 481-484 Student Seminar Sequence (2 credits total)

Plus four credits from:
CHEM 250 Organometallic Chemistry (2 credits)
CHEM 295 Topics (2 credits)
CHEM 296 Topics (2 credits)
CHEM 298 Topics (4 credits)
CHEM 391, 392 Research (1 credit each)
CHEM 420 Bioanalytical and Forensic Chemistry (2 credits)
CHEM 430 Polymer Chemistry (2 credits)
CHEM 442 Biochemistry II (4 credits)*
CHEM 487, 488 Topics (2 credits each)
CHEM 491 Research (2 credits each)

*required for a B.S. in Chemistry with a biochemistry concentration, plus a research project in biochemistry

A research requirement that can be satisfied by taking CHEM 491 Research (2 or 4 credits) in the list above or by completing a summer research project approved by the department.

Allied requirements
MATH 113 Calculus I (4 credits) (or equivalent)
MATH 114 Calculus II (4 credits)
PHYS 111 Introduction to Classical Physics I (4 credits)
PHYS 112 Introduction to Classical Physics II (4 credits)

Strongly recommended:
MATH - additional courses numbered 200 or above (MATH 200 and 240 are highly recommended).

Course Sequence
All chemistry majors are advised to take General Chemistry (CHEM 111-112 or CHEM 115) and MATH 113-114 (Calculus) during the freshman year, then CHEM 201-202 and PHYS 111-112 (Introductory Physics) during the sophomore year. (Note that PHYS 109-110 is not acceptable for the chemistry major). Other sequences of math and physics are much less desirable. If necessary, MATH 113 can be started in the second semester of freshman year; then MATH 114 can be taken concurrently with PHYS 111 during first semester sophomore year.

Major in Biochemistry (B.S.)
See Biochemistry
Chemistry (CHEM)

**Major in Chemistry (B.A.)**
CHEM 111 General Chemistry I (4 credits) and CHEM 112 General Chemistry II (4 credits)
or
CHEM 115 Accelerated General Chemistry (4 credits)

*Plus:*
CHEM 201 Organic Chemistry I (4 credits)
CHEM 202 Organic Chemistry II (4 credits)
CHEM 300 Quantitative Analysis (4 credits)
CHEM 320 Instrumental Analysis (4 credits)
CHEM 481-484 Seminar (2 credits total)

*Plus four credits from the following:*
CHEM 331 Chemical Thermodynamics and Reaction Dynamics (4 credits)
CHEM 332 Quantum Chemistry and Molecular Spectroscopy (4 credits)

*Plus at least eight credits in courses chosen from the following list:*
CHEM 250 Organometallic Chemistry (2 credits)
CHEM 295 Topics (2 credits)
CHEM 296 Topics (2 credits)
CHEM 331 Chemical Thermodynamics and Reaction Dynamics (4 credits)
CHEM 332 Quantum Chemistry and Molecular Spectroscopy (4 credits)
CHEM 340 Organic Spectroscopy (2 credits)
CHEM 391, 392 Research (1 credit)
CHEM 400 Advanced Inorganic Chemistry (4 credits)

*Note: CHEM 332 is a prerequisite for CHEM 400*
CHEM 420 Bioanalytical and Forensic Chemistry (2 credits)
CHEM 430 Polymer Chemistry (2 credits)
CHEM 440 Biochemistry I (4 credits)
CHEM 442 Biochemistry II (4 credits)
CHEM 487, 488 Topics (2 credits each)
CHEM 491 Research (2 credits each)

*Note: Only 4 credits of research may be applied to the degree.*

**Allied requirements**
MATH 113 Calculus I (4 credits) and MATH 114 Calculus II (4 credits)*
PHYS 111 Introductory Physics I (4 credits) and PHYS 112 Introductory Physics II (4 credits)

*Students not placing into MATH 113 must take MATH 108, 109 and 114 in order to satisfy the overall calculus requirement.

*Note: Math and physics requirements are specified above. MATH 200 and 240 are highly recommended.*

**Teacher Licensure**
Elementary Education with a Co-major in Science and Mathematics for Elementary Education
Elementary Education with a Specialty in Science (5-8)
Co-major in Science (5-8) – Chemistry (9-12) and a Co-major in Secondary Education

*See Education*

**Minor in Chemistry**
A minor in chemistry shall consist of 20-24 credits in chemistry courses. A minimum of 8 credits in chemistry must be successfully completed at St. Thomas to earn a minor in the field.
CHEM 111 General Chemistry I (4 credits) and CHEM 112 General Chemistry II (4 credits)
or
CHEM 115 Accelerated General Chemistry (4 credits)

*Plus:*
CHEM 201 Organic Chemistry I (4 credits)

*Plus 12 additional credits from the following:*
Note: Some of these courses have prerequisites beyond the core, or require permission of the instructor.

CHEM 202 Organic Chemistry II (4 credits)
CHEM 250 Organometallic Chemistry (2 credits)
CHEM 295 Topics (2 credits)
CHEM 296 Topics (2 credits)
CHEM 298 Topics (4 credits)
CHEM 300 Quantitative Analysis (4 credits)
CHEM 320 Instrumental Analysis (4 credits)
CHEM 331 Chemical Thermodynamics and Reaction Dynamics (4 credits)
CHEM 332 Quantum Chemistry and Molecular Spectroscopy (4 credits)
CHEM 340 Organic Spectroscopy (2 credits)
CHEM 420 Bioanalytical and Forensic Chemistry (2 credits)
CHEM 430 Polymer Chemistry (2 credits)
CHEM 440 Biochemistry I (4 credits)
CHEM 442 Biochemistry II (4 credits)
CHEM 487, 488 Topics (2 credits each)
CHEM 491 Research (2 credits each)*

*A student may take four credits of research for the minor with the approval of the department chair.

CHEM 100 Chemistry in Our World (4 credits) (CHEM 101)
An introduction to chemistry and its applications to modern society and personal life. The course is intended for non-majors and satisfies a general requirement for one semester of a laboratory science course. The chemistry studied includes the structure of matter, elements and compounds, chemical bonding, reactions, energy changes and an introduction to organic chemistry. The emphasis in the course is the relevance of chemistry to everyday life, and the applications studied will include various topics such as environmental problems, energy resources, chemistry and health, and consumer chemistry. Lecture plus three laboratory hours per week. This course fulfills the core-area in natural science in the Natural Science and Mathematical and Quantitative Reasoning requirement in the core curriculum for non-majors. Offered fall semester and summer (when enrollment allows).

NOTE: Students who receive credit for CHEM 100 may not receive credit for CHEM 101.

CHEM 101 Environmental Chemistry (4 credits) (CHEM 100)
An introduction to chemistry with particular emphasis on environmental science. Basic chemistry topics covered include the structure of matter, elements, compounds, reactions, energy and energy changes. These fundamentals lead to the study of currently relevant environmental problems and their proposed solutions, for example the depletion of ozone in the stratosphere, global warming, acid rain, smog, water pollution, and the study of energy resources. Lecture plus three laboratory hours per week. This course fulfills the core-area in natural science in the Natural Science and Mathematical and Quantitative Reasoning requirement in the core curriculum for non-majors. Offered spring semester.

NOTE: Students who receive credit for CHEM 101 may not receive credit for CHEM 100.

CHEM 109 General Chemistry for Engineering (4 credits)
Principles of chemistry and the properties of matter explained in terms of modern chemical theory with emphasis on topics of general interest to the engineer. Topics include atomic structure, chemical bonding, solids, liquids, gases, acids and bases, thermodynamics, kinetics, polymer chemistry and materials science. This is an accelerated course requiring excellent preparation in math and science and is a terminal course intended only for those engineering students who do not plan to take additional courses in chemistry. Offered spring semester.
Prerequisite: Math placement at 108. NOTE: Students who receive credit for CHEM 109 may not receive credit for CHEM 100, 101, 111 or 115.
This course is not equivalent to CHEM 111, CHEM 112 or CHEM 115 and will not substitute for them.

CHEM 110 Introduction to Chemistry (1 credits)
An introduction to fundamental concepts in chemistry with an emphasis on problem solving. Topics to be covered include measurement in scientific study, the fundamentals of the periodic table, chemical bonding, chemical equations, and stoichiometry. This course is designed as a preparatory course for students who do not pass the chemistry placement exam but wish to eventually enroll in CHEM 111. Offered January term.
Prerequisite: Math placement at 108 or above

CHEM 111 General Chemistry I (4 credits) (CHEM 100, 101, 115)
This course, together with CHEM 112, provides a two-semester introduction to chemistry. Topics include atomic structure, molecular structure, chemical bonding, the periodic table, states of matter, reaction types, stoichiometry, thermochemistry, intermolecular forces, and properties of the common elements and their ions in aqueous solution. Lecture plus four laboratory hours per week. This course fulfills the core-area in natural science in the Natural Science and Mathematical and Quantitative Reasoning requirement in
Chemistry (CHEM)

the core curriculum. Offered fall and spring semesters.
Prerequisite: Math placement at 108 or above and satisfactory performance on the chemistry placement examination
NOTE: Students who receive credit for CHEM 111 may not receive credit for CHEM 100, 101, 109, or 115.

CHEM 112 General Chemistry II (4 credits) (CHEM 115)
This course continues the study of chemistry begun in 111. Topics include thermodynamics, kinetics, equilibrium, acid-base chemistry, electrochemistry, and nuclear chemistry. Lecture plus four laboratory hours per week. This course fulfills the core-area in natural science in the Natural Science and Mathematical and Quantitative Reasoning requirement in the core curriculum. Offered spring semester and summer (when enrollment allows).
Prerequisite: A minimum grade of C- in CHEM 111
NOTE: Students who receive credit for CHEM 112 may not receive credit for CHEM 115.

CHEM 115 Accelerated General Chemistry (4 credits) (CHEM 100, 101, 111, 112)
A one semester general chemistry class that blends significant topics from CHEM 111 and 112 for very strong students interested in majoring in science or engineering. Approximately one-third of the course content is drawn from CHEM 111 with the balance coming from CHEM 112. Topics include atomic theory, stoichiometry, gas laws, phases of matter, atomic and molecular structure, bonding, kinetics, thermodynamics, equilibrium, electrochemistry, nuclear chemistry, and descriptive chemistry. Lecture plus four laboratory hours per week. This course fulfills the core-area in natural science in the Natural Science and Mathematical and Quantitative Reasoning requirement in the core curriculum. Offered fall semester.
Prerequisite: Math placement at the 113 level, high school chemistry, and satisfactory performance on the chemistry placement examination.
NOTE: Students who receive credit for CHEM 115 may not receive credit for CHEM 100, 101, 109, 111, or 112.

CHEM 201 Organic Chemistry I (4 credits)
Study of the various families of organic compounds. Emphasis is placed on structure determination, reaction mechanisms, stereochemistry and spectroscopy in addition to a survey of various reaction types. An introduction to biochemical topics is included.
Lecture plus four laboratory hours per week. Offered fall semester.
Prerequisite: A minimum grade of C- in CHEM 112 or 115

CHEM 202 Organic Chemistry II (4 credits)
Continuation of 201. Offered spring semester.
Prerequisite: A minimum grade of C- in CHEM 201

CHEM 250 Organometallic Chemistry (2 credits)
A study of the structure, bonding, and reactions of compounds that contain direct metal-carbon bonds. Emphasis is placed on the role these compounds play as stoichiometric and catalytic reagents in organic and inorganic synthesis. Additional topics include electronic and structural theory, reaction mechanisms, and the role of organometallics in biochemistry and material science. Offered alternate January terms.
Prerequisite: CHEM 201

CHEM 295, 296 Topics (2 credits)
CHEM 297, 298 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

CHEM 300 Quantitative Analysis (4 credits)
An introduction to quantitative chemical analysis. Topics include sample treatment, the statistical handling of data, equilibria governing acid/base chemistry and complex formation, and fundamentals underlying measurements using the following techniques: titrimetry (using acid/base, complexation and redox reactions), spectrophotometry (atomic absorption and emission spectroscopy and molecular absorption spectroscopy), and analytical separations (GC, HPLC, and capillary electrophoresis). Lecture plus four laboratory hours per week. Offered fall and spring semesters.
Prerequisite: A minimum grade of C- in CHEM 112 or 115

CHEM 320 Instrumental Analysis (4 credits)
Principles and techniques of operation of modern chemical instrumentation not covered in CHEM 300. Topics include the capabilities, limitations and data interpretation of advanced optical spectroscopies (luminescence, Raman, etc.), voltammetry, potentiometry, differential scanning calorimetry, thermal gravimetric analysis and mass spectrometry. Fundamentals of signal processing, basic circuitry and optical components are also included. The laboratory consists of both structured exercises and a student designed project and report based on an industrial problem or on an analysis problem of interest to the student. Lecture plus four hours of lab each week.
Chemistry (CHEM)

Offered spring semester.
Prerequisites: CHEM 202, 300

CHEM 331 Chemical Thermodynamics and Reaction Dynamics (4 credits)
Physical chemical introduction to the fundamentals of kinetic-molecular theory, statistical thermodynamics, classical thermodynamics, and chemical reaction dynamics. Emphasis on the in-depth study of chemical reaction equilibria, phase equilibria, and chemical reaction kinetics in gaseous, liquid and solid systems. Laboratory work involves modern computational methods in physical chemistry, as well as physicochemical measurements related to thermodynamics and reaction dynamics. Lecture plus six laboratory hours per week. Offered fall semester.
Prerequisites: CHEM 202, MATH 114 and PHYS 111

CHEM 332 Quantum Chemistry and Molecular Spectroscopy (4 credits)
Study of chemical systems from the point of view of molecular theory. Introduction to the fundamentals of quantum chemistry and atomic/molecular spectroscopy. Laboratory work involves computational methods in molecular quantum mechanics and spectroscopic measurements of atomic/molecular systems. Lecture plus six laboratory hours per week. Offered spring semester.
Prerequisites: CHEM 202, MATH 114 and PHYS 112

CHEM 340 Organic Spectroscopy (2 credits)
A more detailed study of various spectroscopic methods, especially as they are employed to determine structures of organic molecules. Coverage includes H-1, F-19, and C-13 NMR, mass spectrometry, ultraviolet and visible and infrared spectroscopies. Offered spring semester.
Prerequisite: A minimum grade of C- in CHEM 202

CHEM 391 Research (1 credit)
Work on a problem under the direction of the staff. Primarily literature work.
Prerequisite: Permission of the department chair

CHEM 392 Research (1 credit)
Work on a problem under the direction of the staff. Primarily laboratory work.
Prerequisite: CHEM 391

CHEM 400 Advanced Inorganic Chemistry (4 credits)
A study of the preparation, structure, bonding and reactions of inorganic compounds. Selected topics include group theory, periodicity, catalysis, bonding theories; main group, coordination, solid state and organometallic chemistry. Lecture plus four laboratory hours per week. Offered fall semester.
Prerequisites: CHEM 202 and 332 or permission of the instructor

CHEM 420 Bioanalytical and Forensic Chemistry (2 credits)
The chemistry behind criminal investigations as well as some developments in analysis of biologically important molecules. Topics to be covered include enzyme and DNA analysis, mass spectrometry and spectral interpretation, the detection and identification of explosives and fire accelerants, methods of connecting the suspect to the scene of a crime (analysis of fingerprints, fibers, glass fragments, soil and gunshot residue), the analysis of drugs and poisons, and the detection of forgeries using ink, paint and materials analysis. The course is designed to have a lab component that uses both instrumental and “wet chemical” methods of analysis. Offered alternate January terms.
Prerequisite: CHEM 201

CHEM 430 Polymer Chemistry (2 credits)
An introduction to the science associated with polymers accomplished by discussing some of the fundamental aspects of polymer science and engineering. Three general subject areas will be addressed: 1) polymer synthesis and characterization, 2) polymer structure including melt, glassy, semicrystalline, rubbery, and solution states, and 3) selected physical properties (e.g. viscoelasticity, toughness, failure, permeability) and processing characteristics.
Prerequisite: CHEM 202

CHEM 440 Biochemistry I (4 credits)
The first course in a two-semester sequence examining the chemistry underlying biological processes. The topics addressed include a review of the properties of aqueous solutions and buffers; the structure and function of proteins, carbohydrates and lipids; an introduction to the properties, reaction kinetics and catalytic mechanism of enzymes; membrane structure and function; qualitative and quantitative models of bioenergetics; and an introduction to metabolic regulation and control featuring carbohydrate metabolism as well as the citric acid cycle. Lecture plus four laboratory hours per week. Offered fall and spring semester.
Prerequisite: A minimum grade of C- in CHEM 202
**Classical Civilization (CLAS)**

**CHEM 442 Biochemistry II (4 credits)**  
The second course in a two-semester sequence examining the chemistry underlying biological processes. Topics include a continued investigation of bioenergetics focusing on oxidative phosphorylation and photophosphorylation; fatty acid metabolism; amino acid metabolism; nucleotide synthesis; mechanisms and regulation of gene expression; protein synthesis; and methods in genetic engineering. Lecture plus four laboratory hours per week. Offered spring semester.  
Prerequisite: A minimum grade of C- in CHEM 440

**CHEM 475, 476 Experiential Learning (2 credits)**  
**CHEM 477, 478 Experiential Learning (4 credits)**  
See the description of these courses at the beginning of the “Curricula” section of this catalog.

**CHEM 481, 484 Student Seminar (1 credit)**  
**CHEM 482, 483 Student Seminar (0 credit)**  
This sequence of courses begins in the fall semester of the junior year and progresses for a total of four semesters. The first (CHEM 481) and last (CHEM 484) courses are each one credit and are graded on the usual letter grade scale. The interior two courses (CHEM 482, 483) are zero credit and are graded on a pass-fail basis (S/R). Seminars are presented by guest speakers, St. Thomas faculty, and St. Thomas students throughout all four courses. In CHEM 481, juniors are introduced to the chemical literature, literature search techniques including use of computer databases, and write a short paper based on literature research. In CHEM 483 seniors meet in small groups with faculty and discuss articles from the current literature. In CHEM 484, seniors research a topic from the chemical literature and present it in both written and oral formats. Information about career opportunities for students holding a chemistry degree is presented throughout the seminar sequence. Required of all chemistry majors. CHEM 481 and 483 are offered fall semester. CHEM 482 and 484 are offered spring semester.

**CHEM 487, 488 Topics (2 credits)**  
**CHEM 489, 490 Topics (4 credits)**  
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

**CHEM 491 Individual Research (2 or 4 credits)**  
See the description of this course at the beginning of the “Curricula” section of this catalog.

**CHEM 495 Individual Study (2 or 4 credits)**  
See the description of this course at the beginning of the “Curricula” section of this catalog.

**CLASSICAL CIVILIZATION (CLAS)**

College of Arts and Sciences, Interdisciplinary Program  
O’Shaughnessy Education Center (OEC) 328, (651) 962-5163  
Quartarone, director

The study of Classical civilization – the cultures of ancient Greece and Rome and their relationship to the societies of the Mediterranean and the Near East – is the origin and foundation of the modern university. To this day, it continues to be a model of an interdisciplinary approach to the study of culture, combining fields of literature and language, history, archaeology and art history, religious studies, and philosophy.

As a major or minor field of study at St. Thomas, Classical Civilization is an opportunity for students to include various disciplines under one rubric, thus allowing them to explore their talents and demonstrate their versatility. It also enhances students’ understanding of the origins of modern western culture - including its relationship to the ancient Near East -- while training them to work as different disciplines require. As a major or minor this interdisciplinary program includes introductory foundations courses and a series of courses from a variety of supporting disciplines. For the major, there is also a capstone senior paper requirement.

**Major in Classical Civilization**

The major in Classical Civilization is comprised of five components: 1) Foundations courses, 2) Language courses, 3) Art History courses, 4) History courses, and 5) Elective courses.

Foundations courses (16 credits -- all required)

**CLAS 225 The Classical Hero, Epic and Film (4 credits)**

**CLAS 245 Classical Mythology (4 credits)**

**CLAS 480 Senior Paper (0 credits)**
ENGL 220 The Classical Tradition (4 credits)
PHIL 200 Ancient Philosophy (4 credits)

**Language Courses (complete a minimum of four credits)**
GREK 212 Intermediate Greek II (4 credits) (prerequisites may be necessary)
LATN 212 Intermediate Latin II (4 credits) (prerequisites may be necessary)
GREK or LATN - Four credits numbered above 212

**Art History Courses (complete a minimum of four credits)**
ARTH 260 Women in Ancient Art & Culture (4 credits)
ARTH 305 Greek Art and Archaeology (4 credits)
ARTH 310 Roman Art and Archaeology (4 credits)

**History Courses (complete a minimum of eight credits)**
HIST 111 Origins of the Modern World to 1550 (4 credits)
HIST 203 Ancient Egypt and the Near East (4 credits)
HIST 205 The Ancient Greek World (4 credits)
HIST 208 History of the Roman World (4 credits)
HIST 386 Historical Archaeology (4 credits)

**Elective Courses (complete a minimum of eight credits, in two different areas)**
CLASS 397 Topics (4 credits)
Any ARTH course listed above not already taken
Any GREK or LATN course above 212 not already taken
Any HIST course listed above not already taken

---

**Minor in Classical Civilization**
The minor in Classical Civilization will be comprised of four components: 1) Foundations courses, 2) Language courses, 3) History courses, and 4) Elective courses.

**Foundations Courses (complete a minimum of eight credits)**
CLASS 225 The Classical Hero, Epic and Film (4 credits)
CLASS 245 Classical Mythology (4 credits)
CLASS 397 Topics (4 credits)

**Language Courses (complete a minimum of four credits)**
GREK or LATN - Four credits numbered 212 or above

**History Courses (complete a minimum of four credits)**
HIST 203 Ancient Egypt and the Near East (4 credits)
HIST 205 The Ancient Greek World (4 credits)
HIST 208 History of the Roman World (4 credits)
HIST 386 Historical Archaeology (4 credits)

**Elective Courses (complete a minimum of eight credits)**
ARTH 260 Women in Ancient Art & Culture (4 credits)
ARTH 305 Greek Art and Archaeology (4 credits)
ARTH 310 Roman Art and Archaeology (4 credits)

Any CLAS course listed above not already taken (4 credits)
ENGL 220 The Classical Tradition (4 credits)
Any GREK/LATN above 212 (4 credits)
Any HIST course listed above not already taken (4 credits)
PHIL 200 Ancient Philosophy (4 credits)
PHIL 320 Aristotelian Logic (4 credits)

**CLASS 225 The Classical Hero, Epic and Film (4 credits)**
This Course focuses on analyzing and understanding Classical epic poetry, the ancient presentation of heroic figures and heroic exploits, and recognizing the influence of epic/heroic literature on the modern storytelling device of film. While the genre of epic is central to the course, other genres (both literary and cinematic) which present heroic figures, e.g., tragedy, history, comedy, action, fantasy, will also be explored. Analyzing the works read or viewed via writing and class discussion will constitute the primary course
Classical Civilization (CLAS)
activities; students will engage in reading, viewing and writing outside of class, while class time will include some writing, viewing and discussion. In order to allow ample time for discussion and analysis, the majority of films in their entirety will be viewed outside of class. The course grade will be based substantially on written analysis (i.e., essays, papers) of the texts and films studied.

CLAS 245 Classical Mythology (4 credits)
Mythology is the embodiment and encoding of the beliefs, principles, and aspirations of ancient cultures. This course provides an interdisciplinary introduction to mythology as an introduction and foundation to Classical civilization. Both Greek and Roman myths will be examined from a variety of theoretical perspectives, including aetiological, structuralist, and psychological theories. Consideration will also be given to the study of literature in translation, art history, religion, and history. The course grade will be principally based on writing assignments and class discussions.

CLAS 397 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.sthomas.edu/pls/banner/prod/bwckschd.

CLAS 475, 476 Experiential Learning (2 credits)
CLAS 477, 478 Experiential Learning (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

CLAS 480 Senior Paper (0 credit)
During the senior year or earlier majors are expected to write a major research paper with an abstract and to describe the results of their research in a short oral presentation to a panel of faculty. Normally this requirement is accomplished by rewriting and submitting a paper from one of the major field courses. The topic should be chosen in consultation with the program director and should be completed no later than 6 weeks prior to graduation. Papers will be presented to students and faculty at least annually at a symposium.

CLAS 483, 484 Seminar (2 credits)
CLAS 485, 486 Seminar (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

CLAS 487, 488 Topics (2 credits)
CLAS 489, 490 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.sthomas.edu/pls/banner/prod/bwckschd.

CLAS 269, 389, 491 Research (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

CLAS 243, 393, 495 Individual Study (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.
In the Department of Communication & Journalism, we focus on the theory and practice of communication in all its forms – interpersonal, organizational, intercultural, and mass-mediated through advertising, journalism and public relations. We create effective messages with words, images and sounds that are presented as speeches, news stories, documentaries, web sites, and advertising or public relations campaigns. We study the processes by which messages are sent and received so that we understand the effects and meanings of communication. We teach students to think critically, to communicate clearly and accurately, and to consider their personal and professional obligations to serve the common good. We emphasize excellence in communication and journalistic practices that reflect the professional and ethical development of the whole person.

Our students take a core of courses that give them basic competence in writing, speaking, and production, and then work with faculty advisers to select courses that help them specialize in a particular area of communication. All our students end their major with a capstone seminar in Communication Ethics, which ensures they understand how ethical principles apply to all forms of communication and are ready as professionals to work toward the common good. Ultimately, courses in communication and journalism prepare students for a variety of careers in advertising and public relations agencies, in news organizations that publish newspapers, magazines or web sites, in broadcast and digital media operations, in corporate, government, political, advocacy and non-profit organizations, or for graduate or law school.

Student media opportunities can be found on the TommieMedia.com web-based news organization, which provides news and advertising for UST students and the larger university community. A digital television studio, Mac-equipped graphics labs and an Avid video-editing lab support student work. Student organizations include chapters of the American Advertising Federation, Communication Club, the Lambda Pi Eta honor society and the Public Relations Student Society of America.

COJO majors must complete six of their 11 courses in COJO at UST. COJO minors must complete three of their five courses in COJO at UST.

**Major in Communication and Journalism**

All Communication and Journalism majors must take 11 courses totaling 44 credits.

- COJO 111 Introduction to COJO-I (4 credits)
- COJO 112 Introduction to COJO-II (4 credits)

*Note: COJO 111 and/or 112 are the prerequisite courses for many other courses in the department. They may be waived for students majoring in departments outside COJO. They will not be waived for COJO majors.*

*Note: COJO majors are strongly encouraged to complete COJO 111 and 112 before enrolling in any 300- or 400-level COJO courses.*

**Plus one theory and research course (4 credits) from the following:**
- COJO 211 Communication Theories and Methods (4 credits)
- COJO 212 Rhetorical Criticism (4 credits)
- COJO 213 Mass Communication Research (4 credits)

**Plus three theory and analysis courses (12 credits), with at least two numbered 300 or above, from the following:**
- COJO 211 Communication Theories and Methods (4 credits)
- COJO 212 Rhetorical Criticism (4 credits)
- COJO 213 Mass Communication Research (4 credits)

*Note: Majors may count these courses in this category only if they have not used them to fulfill the above theory and research requirement*

- COJO 220 Interpersonal Communication (4 credits)
- COJO 230 Foundations in Media and Society (4 credits)
- COJO 232 Visual Communication (4 credits)
- COJO 234 Principles of Advertising and Public Relations (4 credits)
- COJO 320 Organizational Communication (4 credits)
- COJO 326 Modern American Rhetoric (4 credits)
- COJO 328 Communication of Race, Class, and Gender (4 credits)
- COJO 330 Communication History (4 credits)
- COJO 332 Documentary in American Culture (4 credits)
- COJO 334 Literary Journalism (4 credits)
Communication and Journalism (COJO)

COJO 336 Media Law (4 credits)
COJO 338 Political Communication (4 credits)
COJO 340 Television Criticism (4 credits)
COJO 372 Environmental Communication (4 credits)
COJO 428 Social Media in Advertising and Public Relations (4 credits)
COJO 430 Society, Culture and the Media (4 credits)
COJO 432 Media Structure and Power (4 credits)

Plus three practice and application courses (12 credits), with at least one numbered 300 or above, from the following:
COJO 251 Multimedia Reporting (4 credits)
COJO 252 Editing (4 credits)
COJO 254 Photojournalism (4 credits)
COJO 256 Design Concepts of Communication (4 credits)
COJO 258 Writing and Designing for the Web (4 credits)
COJO 260 Electronic Media Production (4 credits)
COJO 262 Radio Production (4 credits)
COJO 264 Media Communication Skills (4 credits)
COJO 268 Advertising Copywriting (4 credits)
COJO 270 Public Relations Writing (4 credits)
COJO 272 Advertising Media and Connections Planning (4 credits)
COJO 274 Small Group Communication (4 credits)
COJO 276 Argumentation and Advocacy (4 credits)
COJO 350 Magazine Writing (4 credits)
COJO 360 Videography: TV Production in the Field (4 credits)
COJO 362 Persuasion (4 credits)
COJO 368 Advanced Advertising Copywriting (4 credits)
COJO 370 Intercultural Communication (4 credits)
COJO 451 Advanced Multimedia Reporting (4 credits)
COJO 456 Graphic Design Studio (4 credits)
COJO 460 Advanced Video Production (4 credits)
COJO 470 Advertising and Public Relations Campaigns (4 credits)
COJO 472 Family Communication (4 credits)

Note: To develop a coherent area of emphasis in these six courses, students must meet with the department chair and obtain the chair’s signature on a COJO major planning form.

Plus:
One elective course (4 credits) taken from any category and level in COJO, which may include independent study, experiential learning (internship) credit, a study abroad course or a topics course.

Plus a senior capstone seminar:
COJO 480 Communication Ethics (4 credits)

Majors may take these two courses only with the permission of the department chair:
COJO 100 Public Speaking (4 credits)
COJO 105 Communication and the Workplace (4 credits)

Teacher Licensure
Elementary Education with a Specialty in Communication Arts and Literature (5-8)
Co-major in Communication Arts and Literature (5-12) and a Co-major in Secondary Education

See Education

Minor in Communication and Journalism
All Communication and Journalism minors must take five courses totaling 20 credits, as follows:
COJO 111 Communication and Citizenship (4 credits)

Plus one of the following:
COJO 100 Public Speaking or COJO 105 Communication in the Workplace
or COJO 112 Public Communication: Speaking and Writing (4 credits)
Plus any three other COJO courses (12 credits): one course from the Theory and Analysis category and one course from the Practice and Application category and one course numbered 300 or higher

**COJO 100 Public Speaking (4 credits)**
Preparation, presentation, and evaluation of original speeches by each student throughout the semester; special emphasis given to selecting and researching topics, organizing evidence, analyzing audiences, sharpening style and tone, communicating ethically and listening critically. This class may be taken by Communication and Journalism majors only with the permission of the department chair.

**COJO 105 Communication in the Workplace (4 credits)**
Introduction to basic communication theories and skills as they pertain to the business setting. Text, lecture, class discussion and exercises, and individual and group presentations will better prepare students to become more effective communicators at work. The course will focus on presentational skills, dyadic communication and interviewing, and group communication. This class may be taken by Communication and Journalism majors only with the permission of the department chair.

**COJO 111 Communication and Citizenship (4 credits)**
This is the first of a two-course sequence that introduces students to essential skills in the communication and journalism discipline. Students develop skills to communicate thoughtfully, professionally and ethically with a variety of public audiences. Essential writing and public speaking skills are paired so that students master a writing style and then convert that writing to an oral presentation, or vice versa. Students learn how to appropriately and effectively speak and write to academic, professional and citizen audiences and develop basic skills in digital production. Students are strongly encouraged to complete this course and COJO 112 before taking any 300- or 400-level COJO courses.

**COJO 112 Public Communication: Speaking and Writing (4 credits)**
This is the second of a two-course sequence that introduces students to essential skills in the communication and journalism discipline. In this course, students build upon the skills developed in COJO 111, applying more sophisticated theoretical and analytical concepts and producing more advanced writing, speaking and multimedia projects. Prerequisite: COJO 111 or permission of instructor. Students are strongly encouraged to complete COJO 111 and this course before taking any 300- or 400-level COJO courses.

**COJO 211 Communication Theories and Methods (4 credits)**
This course will focus on the differing methods used by communication scholars to ask and answer questions about the nature of human interaction. Emphasis will be on the process of symbolic message exchange as it intersects all communication contexts. Various approaches to conceptualizing and measuring communication acts will be addressed in topic areas such as: perceptions and attributions; creating shared meaning; linguistic and nonverbal message systems; persuasive and ethical dimensions of communication; and the nature of inquiry. While lecture oriented, the class also may participate in discussions, experiential exercises, and group projects. Prerequisite: COJO 111 or permission of instructor

**COJO 212 Rhetorical Criticism (4 credits)**
This course teaches students to become more critical consumers and producers of public messages. Students will examine a mix of historical and contemporary examples of persuasive communication in order to develop an awareness of the rhetorical power of messages in everyday life. Critical tools will be covered to help the student learn how to approach a communicative act systematically, identifying crucial interactions and suggesting ways of understanding how those interactions function. The emphasis on critical consumption also enables students to become more effective creators of public messages. Prerequisite: COJO 111 or permission of instructor

**COJO 213 Mass Communication Research (4 credits)**
This course examines theories and methodologies underlying mass communication research, including quantitative and qualitative approaches. Among the areas covered: public opinion research, content analysis, participant observation, historical and legal methods, and discourse analysis. Students will be expected to design and conduct a mass communication research project. Prerequisite: COJO 111 or permission of instructor

**COJO 220 Interpersonal Communication (4 credits)**
Theory and practice of interpersonal communication, including how self-concept, language, nonverbal communication, and relationships effect and are affected by communication. Common problems in interpersonal communication, options for managing these problems, and ethical issues in interpersonal communication are examined. Students apply theory and concepts through class exercises, simulations and individual projects.

**COJO 230 Foundations in Media and Society (4 credits)**
A survey of the media industry, providing a fundamental grounding in the history, regulation, programming strategies, advertising and rating systems of television, radio, and new forms of media. The course will develop an increased awareness of the social, eco-
**Communication and Journalism (COJO)**

nomic, and political roles that the media play in our society.
Prerequisite: COJO 111 or sophomore standing

**COJO 232 Visual Communication (4 credits)**
Introduction to the history, theory and principles of communicating visually through art, illustration, photography, design, typography, film, video and other visual forms.
Prerequisite: COJO 111 or permission of instructor

**COJO 234 Principles of Advertising and Public Relations (4 credits)**
An integrated approach to advertising and public relations, highlighting how these disciplines relate to marketing, business and media institutions. Incorporates a case study approach to understanding the principles and practices of the strategic communication process of research, planning, communication and evaluation.
Prerequisite: COJO 111 or permission of instructor

**COJO 251 Multimedia Reporting (4 credits)**
This course concentrates on news reporting, teaching skills in news judgment, observation, interviewing, information gathering, organization and writing. Students learn to report news for a variety of media platforms, preparing text audio and video versions of stories for the web, television, print and radio.
Prerequisite: COJO 112

**COJO 252 Editing (4 credits)**
Preparation of copy for publication; evaluation of news; headline writing; news display, including typography; picture editing; and editing magazines.
Prerequisite: COJO 112

**COJO 254 Photojournalism (4 credits)**
An entry-level course on still photography as used in the mass media. Imparts mechanical skills to practice photography, creates an awareness of the aesthetics involved and introduces principles of communicating via photojournalism. Students supply own camera. Lecture and laboratory.
Prerequisite: COJO 232 or permission of instructor

**COJO 256 Design Concepts of Communication (4 credits)**
This course has been developed to provide students with an elementary understanding of graphic design elements and principles. Applied projects in typography and publication layout will be completed via the Macintosh.
Prerequisite: COJO 111 or permission of instructor

**COJO 258 Writing and Designing for the Web (4 credits)**
This course teaches students HTML and Web-page production. The goal is to help students develop strategies for writing, editing, designing and publishing a Website that meets professional standards.

**COJO 260 Electronic Media Production (4 credits)**
Students will learn the process of producing electronically mediated messages in the studio and in the field. Students produce projects designed to develop their skills in the planning and execution of a variety of media genres. Students will operate studio and field equipment, act as talent, and do final editing of individual and team-produced work. Analysis and criticism of student produced programs is integral to the course.
Prerequisite: COJO 112 or permission of instructor

**COJO 262 Radio Production (4 credits)**
An introduction to radio production. Students will produce projects digitally that are designed to acquaint them with genres, styles and production techniques, with emphasis on the radio industry. Production planning, scripting, the use of sound effects, field production, multi-track recording, mixing and editing are covered. In addition, the students in this course will produce shows for KUST, the university’s Internet radio station, which is also cablecast on campus. Each student will learn how to operate live production techniques, as with radio DJs, announcers and interviewers.
Prerequisite: COJO 112 or sophomore standing

**COJO 264 Media Communication Skills (4 credits)**
The components and requirements of effective media performance are addressed. Development of critical assessment skills is emphasized via the evaluation of news, commercial and informational broadcasts in both the audio and video media. Particular attention is given to students’ development of performance techniques, emphasizing the use of voice, interviewing, ad-libbing and TelePrompTer use. Application and evaluation of performance choices are achieved through the production of video and audio projects.
Prerequisite: Sophomore standing

COJO 268 Advertising Copywriting (4 credits)
The acquisition of advertising copywriting skills as applied to the creative advertising process. The dovetailing of creative copy with the marketing and media strategies. Execution of advertising copy.
Prerequisites: COJO 112 and COJO 234

COJO 270 Public Relations Writing (4 credits)
This course provides practical experience in public relations writing including: news releases, position statements, brochure writing, features, query letters and a variety of other public relations writing forms. The emphasis is on weekly assignments which are critiqued by the instructor and discussed in class.
Prerequisites: COJO 112 and COJO 234

COJO 272 Advertising Media and Connections Planning (4 credits)
Students will develop an understanding of the use of mass media as advertising vehicles, the language of media planning, key media information sources, and how to develop a media plan.
Prerequisites: COJO 112 and COJO 234

COJO 274 Small Group Communication (4 credits)
This course covers the theory and principles of communication in task-oriented small groups, including role emergence and functions, leadership development, stages of decision-making, and development and effects of group culture. Students apply theory through participation in small group class projects.
Prerequisite: COJO 211 or sophomore standing

COJO 276 Argumentation and Advocacy (4 credits)
This course provides an introduction to practical reasoning in public controversy. Students will apply argumentation theories and methods to the analysis of public controversy and the development of their own oral advocacy skills. Topics include: Tests of evidence, invention, reasoning, oral presentation or arguments. Activities may include: Lecture, discussion, examinations, analysis papers, speaking assignments, small group discussion and presentation.
Prerequisite: COJO 212 or sophomore standing

COJO 295, 296 Topics (2 credits)
COJO 297, 298 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

COJO 320 Organizational Communication (4 credits)
This course will examine organizational structures and the dynamics of the communication process. Major components of this class include the analysis of organizational communication including culture, socialization, roles, leadership, formal and informal communication structures, and issues of cultural diversity. Students will be involved in activities such as applying theories, examining case studies, and analyzing communication in real-life organizations.
Prerequisite: COJO 211, 212, 213 or permission of instructor

COJO 326 Modern American Rhetoric (4 credits)
This course focuses on the creation and use of rhetoric in public persuasion settings, including social movements and political campaigns. The diversity of rhetorical acts examined may include campaign ads, speeches, films, advertisements, music, memorials, architecture and other nonverbal strategies. Topics of study may include: The rhetoric of domination and resistance, national identity formation, and the rhetoric of public memory. This course fulfills a requirement in American Culture and Difference.
Prerequisite: Junior standing, or permission of instructor

COJO 328 Communication of Race, Class, and Gender (4 credits)
This course focuses on theories and research of the historical and contemporary correlation between gender, race, class, and communicative practices, including rhetorical practice and mass communication content. It includes the influence of gender and racial stereotypes on public speech and debate, political campaigns and communication, organizational leadership, news coverage and advertising. Topics include: gendered perceptions of credibility; who is allowed to communicate and who is silenced due to class and racial privilege; and the impact of gender, race and class stereotypes about human nature, expertise, and abilities on individuals and groups that want to participate in public culture and communication. Students analyze and evaluate their own communicative styles in light of course readings and activities. This course fulfills a requirement in American Culture and Difference, Justice and Peace Studies, Women’s Studies, and the Human Diversity requirement in the core curriculum.
Communication and Journalism (COJO)
Prerequisite: COJO 211 or 212 or 213, or junior standing

COJO 330 Communication History (4 credits)
Early forms of communication, including art and symbols of ancient humans, civilizations without writing, the idea of an alphabet, medieval libraries, European background of the American news media system, development of American journalism, photography, film and telegraphy, and the mass media as a cultural institution.
Prerequisite: COJO 111 or permission of instructor

COJO 332 Documentary in American Culture (4 credits)
This course provides an overview of documentary television and film as part of American culture. Class sessions will focus on how to analyze and interpret claims particular documentaries make, while providing a foundation for understanding aesthetic, rhetorical, and political economic conventions that help shape the meaning of each documentary. To this end, this course will center on current theoretical dilemmas and debates in documentary filmmaking, including questions of how to define documentary, what constitutes the ethical treatment of documentary subjects and subject matter, and how documentaries construct and position audiences. We will explore the concepts of reality, truth and authority, through a variety of readings and viewings.

COJO 334 Literary Journalism (4 credits)
A look at journalistic writing style as a literary prose form, with emphasis upon late 19th- and 20th-century American writing, and upon the tradition of literary journalism. Newspaper and magazine articles from both centuries and book-length works from the past 50 years will be read and discussed. Students will have the option of writing a research essay or a literary journalistic article for the final project.
Prerequisite: Junior or senior standing

COJO 336 Media Law (4 credits)
Freedom and responsibility of the news media viewed as public institutions; constitutional and legal developments with emphasis upon landmark court decisions; interpretation of current areas of tension.
Prerequisite: COJO 111 and junior or senior standing, or permission of instructor

COJO 338 Political Communication (4 credits)
Political Communication is a survey of how politicians use various communication strategies, particularly during campaigns, in local, state and national elections to influence public and legislative audiences. Examination of oral presentations, electronic media, written materials, and web-based appeals will be central to the course. Students will apply theory to specific political situations and candidates, will conduct interviews, and will write papers and make presentations on their findings.
Prerequisite: COJO 212 or junior standing

COJO 340 Television Criticism (4 credits)
This course will provide students with the opportunity to understand television as a text situation in a cultural context. It will examine television from a critical perspective, review a wide variety of program genres and incorporate several theoretical orientations to the qualitative analysis of TV. Students, along with reading about and discussion of critical perspectives, watch programs such as comedies, dramas, news, advertisements, miniseries, etc., and write several critical analysis of the programs.

COJO 350 Magazine Writing (4 credits)
Explores the nature of writing for magazines as a staff writer or free-lance writer. Students will write service articles, profiles, human interest pieces and in-depth issue articles common to both commercial and trade magazines.
Prerequisite: COJO 112

COJO 360 Videography: Television Production in the Field (4 credits)
This course will examine the aesthetic and technical components associated with producing video projects outside of the television studio. Students will examine current theory and practice of field production and will engage in the conceptualization, execution and analysis of field-produced video.
Prerequisite: COJO 260

COJO 366 Persuasion (4 credits)
Study of the various strategies used to influence choice in modern society, including sources, content (such as evidence and argumentation) and audience factors (such as beliefs, attitudes, and values) that influence the persuasive process. Ethical consideration of persuasive tactics will be discussed. Students apply theory through analysis of, and practice in, written, mediated and oral forms of persuasion. A final project in applied persuasion is developed in the course.
Prerequisite: COJO 212 or sophomore standing
COJO 368 Advanced Advertising Copywriting (4 credits)
This course develops strengths in the team concept of creative advertising, refines skills used in evaluating the effectiveness of messages and strategies used in various media, and develops greater awareness of production skills used in copywriting. Students will develop a major, multimedia campaign and have it evaluated by advertising professionals.
Prerequisites: COJO 268

COJO 370 Intercultural Communication (4 credits)
Study of the influence of cultural values on social behavior; examination of theories of intercultural communication; emphasis on effective intercultural interaction. This course fulfills the Human Diversity requirement in the core curriculum.
Prerequisite: Junior Standing

COJO 372 Environmental Communication (4 credits)
This course focuses on the communication of mediated information about the environment. Students will examine what makes (and what has made) the environmental stories we tell about ourselves, from writing about agriculture, nature and spirituality to green advertising, the rhetoric of the environmental movement, and environmental movies and music.
Prerequisite: COJO 111 or permission of instructor

COJO 428 Social Media in Advertising and Public Relations (4 credits)
This course examines the ways social media are affecting human interaction and communication practices, especially in the advertising and public relations professions. The course will ask such questions as how social media may foster discourse between communicators and audiences, and whether social media help create communities or isolate audiences into niches. Students will gain familiarity with social media tools and how to use them strategically. The course will combine in-class learning and online activities.
Prerequisite: COJO 234 or permission of instructor

COJO 430 Society, Culture and the Media (4 credits)
Society, Culture and the Media examines the role media play in social and cultural formations. The course looks beyond the media as transmitters of information to their broadest social and cultural effects. Students study media as agents of enlightened social modernism, as political and economic institutions, as purveyors of popular culture, and as aspects of cultural and sub-cultural rituals. History, political economy, critical studies, cultural anthropology, semiotics and sociology are among the areas from which approaches for studying the media are considered in the course.
Prerequisite: COJO 211, 212 or 213, or permission of instructor

COJO 432 Media Structure and Power (4 credits)
Examines recent changes in mass media structures. Readings focus on how changes in ownership, media regulation and new technology have affected media-organizations and their performance. Subjects and issues covered include: media ownership trends, including internationalization and their effect on content; media monopolies; the effects of new media technology; the effects of advertising on news; media choice in society; the media’s role in the political system; and the increasing globalization of mass media.
Prerequisite: COJO 211, 212 or 213, or permission of instructor

COJO 451 Advanced Multimedia Reporting (4 credits)
This course concentrates on refining skills in interviewing, storytelling, use of documents, choice of media format, and creation of multi-part news stories. Students report news for a variety of media platforms, preparing text, audio and video versions of stories for the web, television, print and radio.
Prerequisite: COJO 251

COJO 456 Graphic Design Studio (4 credits)
Graphic Design Studio is an advanced graphic design course. Students study the history of graphic design and typography, the elements of fine typography, and produce a portfolio of graphic designs.
Prerequisite: COJO 256

COJO 460 Advanced Video Production (4 credits)
This course offers students familiar with basic video production a chance to further develop their skills and to acquire a greater understanding of the video communication process. Students will plan, script, produce and edit pieces of extended length that combine studio and field production techniques. This course is for majors who have sufficient interest and prior experience in video production.
Prerequisites: COJO 360

COJO 470 Advertising and Public Relations Campaigns (4 credits)
Students work as strategic communicators in advertising and public relations to develop an integrated communication campaign plan that will successfully influence key audiences’ attitudes and behaviors for the ultimate goal of building and maintaining good relationships with audiences’ key audiences.
Communication and Journalism (COJO)

Prerequisites: COJO 234 and COJO 268, or 270 or 272, or permission of instructor

COJO 472 Family Communication (4 credits)
Examination of communication dynamics within the family system. Patterns of interaction, message exchange, developmental stages, and satisfaction and stability will be explored in light of today’s ever-changing family structure. Focus will include traditional (nuclear) and non-traditional family types.
Prerequisite: Junior or senior standing, or permission of instructor

COJO 480 Communication Ethics (4 credits)
This capstone seminar for graduating seniors explores ethical issues that confront communication professionals and audiences. Students explore theoretical perspectives on communication ethics, work from case studies to understand professional ethical standards, discuss current ethical issues in communication, work in teams to perfect oral and written ethical analysis skills, and write an individual thesis paper.
Prerequisites: graduating seniors only and permission of department chair

COJO 475, 476 Experiential Learning (2 credits)
COJO 477, 478 Experiential Learning (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog. COJO experiential learning credit is restricted to COJO majors and minors.

COJO 483, 484 Seminar (2 credits)
COJO 485, 486 Seminar (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

COJO 487, 488 Topics (2 credits)
COJO 489, 490 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online.
https://banner.stthomas.edu/pls/banner/prod/bwckschd.

COJO 269, 389, 491 Research (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

COJO 243, 393, 495 Individual Study (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.
Computer and Information Sciences (CISC)

Computer and Information Sciences is part of the liberal arts curriculum at the University of St. Thomas. Computing is constantly evolving. There is a growing family of computing related disciplines that have joined the initial discipline of Computer Science. Recognizing these many areas within the broader discipline in computing, this department offers four majors: (1) Computer Science, (2) Information Systems, (3) Information Security, and (4) Statistics. In addition, two tracks within the Computer and Information Science majors are offered for those students who wish to complete a Master of Science degree through the Graduate Programs in Software (GPS). Each is described in detail below.

These majors are concerned with the collection, organization, processing, storage, retrieval, communication, and use of information in today’s society. The emphasis is on the core of knowledge required to become an effective user of information; to design and implement system and application software; and to understand the concepts involved in areas such as database design, systems analysis, networking, security, artificial intelligence, statistics, and operations research. Program goals can be found on the department website: www.stthomas.edu/cisc.

The department has arranged its program to prepare students to work in business, industry, education, and government as designers or users; or to pursue entrepreneurial interests in technologically supported areas; or to continue study in graduate school. Courses are arranged to encourage participation of students from other disciplines. The department encourages majors to obtain a minor in another field. Students interested in teacher licensure should see the various science and mathematics programs in the Department of Teacher Education section of this catalog. A dual degree program with Engineering is also available, which is described in the catalog section under School of Engineering.

**Major in Computer Science**

Computer Science is a foundation for many different computing careers. Computer scientists design and build software and create efficient solutions to real-world problems in such fields as robotics, computer architecture, software engineering, and computer networking.

CISC 130* Introduction to Programming and Problem Solving in the Sciences (4 credits) or CISC 131* Introduction to Programming and Problem Solving (4 credits)

*Note: CISC 131 is recommended for this major

CISC 210 Information Security (4 credits)
CISC 230* Object-Oriented Design and Programming (4 credits)
CISC 231 Data Structures Using Object-Oriented Design (4 credits)
CISC 310 Operating Systems (4 credits)
CISC 340 Computer Architecture (4 credits)
CISC 370 Computer Networking (4 credits)
CISC 450 Database Design I (4 credits)
STAT 220 Statistics I (4 credits)

* Note: A grade of C- or above must be earned by majors in these courses.

Plus eight credits from the following:

CISC 320 Systems Analysis and Design I (4 credits)
CISC 342 Computer Applications in Experimental Sciences (4 credits)
CISC 440 Artificial Intelligence and Robotics (4 credits)
CISC 451 Database Design II (4 credits)

Allied requirements

COJO 100 Public Speaking (4 credits) or COJO 105 Communications in the Workplace (4 credits)
MATH 114 Calculus II (4 credits)
MATH 128 Introduction to Discrete Mathematics (4 credits)

**UST Undergraduate Fast-Track Majors with Computer Science (CS) or Information Systems (IS) Major**

Students in the fast track program will take 4 Graduate Programs in Software (GPS) cross-listed classes and, after completing their undergraduate degree, continue on to take 10 additional GPS classes, instead of 14, to obtain their Master of Science degree in either Software Engineering or Software Management.
For each of the courses in the list below that a UST undergraduate student completes with a grade of at least C-, Graduate Programs in Software (GPS) will grant a three credit reduction in the number of credits required to complete the Master of Science (MS) degree (either major-software engineering or software management) and waive the corresponding required GPS course up to a maximum of 12 credits.

The courses required for CS or IS are shown below*.

The courses covered by this policy are:
- CISC 605: Technical Communications (CS, IS)*
  - corresponds to SEIS 605
- CISC 610: Software Engineering (CS)*
  - corresponds to SEIS 610
- CISC 625: Software Project Management (CS, IS)*
  - corresponds to SEIS 625
- CISC 630: Database Management Systems and Design (CS, IS)*
  - corresponds to SEIS 630
- CISC 707: Enterprise Architecture and Development (IS)*
  - corresponds to SEIS 707

The MS degree with either major, software engineering or software management, requires the student to complete 42 graduate credits. With the above credit reductions for CISC courses taken as a UST undergraduate, that student as a graduate student must complete a minimum of 30 graduate credits (10 graduate courses) at the University of St. Thomas for GPS to award the MS degree.

The student must begin their GPS MS program within one year of completing their UST undergraduate degree to be eligible for these credit reductions.

**Operational Considerations**

1. To be admitted to the track when the student declares a major field, the student must have a current overall GPA of 2.70. To continue with the program after attaining a Bachelor’s Degree in CISC (CS or IS major) the student must have a GPA of 3.00 in the courses identified above.
2. When the student is admitted to the track, GPS is also notified.
3. When the student graduates with a BA degree in this track, he or she will apply to GPS for admission. They will be automatically qualified to be admitted if they satisfy number 1 above but will need to submit an application so that GPS department can flag them to process admission. If they do not satisfy that requirement, they may apply but will not be automatically admitted.

**(I) Fast track to a Master of Science degree in Software Engineering (with undergraduate degree in CS)**

See description above called UST Undergraduate Fast-Track Students with Computer Science (CS) or Information Systems (IS) Major

The following are the requirements for that program:
- CISC 130* Introduction to Programming and Problem Solving in the Sciences (4 credits)
  or CISC 131* Introduction to Programming and Problem Solving (4 credits)
  *Note: CISC 131 is recommended for this major
- CISC 210 Information Security (4 credits)
- CISC 230* Object-Oriented Design and Programming (4 credits)
- CISC 231 Data Structures Using Object-Oriented Design (4 credits)
- CISC 310 Operating Systems (4 credits)
- CISC 340 Computer Architecture (4 credits)
- CISC 370 Computer Networking (4 credits)
- CISC 605 Technical Communications (4 credits)
- CISC 610 Software Engineering (4 credits)
- CISC 625 Software Project Management (4 credits)
- CISC 630 Database Design (4 credits)
- STAT 220 Statistics I (4 credits)
One CISC or IDTH elective course numbered 100 through 499
* Note: A grade of C- or above must be earned by majors in these courses.

Allied requirements
MATH 114 Calculus II (4 credits)
MATH 128 Introduction to Discrete Mathematics (4 credits)

(II) Fast track to a Master of Science degree in Software Management
(with undergraduate degree in IS)

See description above called UST Undergraduate Fast-Track Students with Computer Science (CS) or Information Systems (IS) Major

The following are the requirements for the Fast-Track in Software Engineering with undergraduate major in IS:

CISC 130* Introduction to Programming and Problem Solving in the Sciences (4 credits)
or CISC 131* Introduction to Programming and Problem Solving (4 credits)
Note: CISC 131 is recommended for this major
CISC 230* Object-Oriented Design and Programming (4 credits)
CISC 320 Systems Analysis and Design I (4 credits)
CISC 321 Systems Analysis and Design II (4 credits)
CISC 370 Computer Networking (4 credits)
CISC 430 Information Technology Management (4 credits)
CISC 605 Technical Communications (4 credits)*
CISC 625 Software Project Management (4 credits)*
CISC 630 Database Design (4 credits)*
CISC 707 Enterprise Architecture and Development*
STAT 220 Statistics I (4 credits)

* Note: A grade of C- or above must be earned by majors in these programming courses.

Plus eight credits from the following:
CISC 110 Introduction to Information Processing (4 credits) or CISC 200 Introduction to Computer Technology and Business Applications (4 credits)
CISC 210 Information Security (4 credits)
CISC 270 Web Development (4 credits)
CISC 325 E-Commerce (4 credits)
CISC 419 Accounting Information Systems (4 credits)
IDTH 400 Data Mining (4 credits)

Plus four credits from the following:
MATH 109 Calculus with Review II (4 credits)
MATH 111 Calculus for Business and Social Science (4 credits)
MATH 113 Calculus I (4 credits)

Plus:
ACCT 210 Financial Accounting (4 credits)

Major in Information Systems (IS)

Information Systems majors design computing solutions that provide companies, non-profit organizations, and governments with the information they need to achieve their goals. They work with the life cycle of information systems, including efficiency and reliability, meeting customers’ budgets, proper testing, and maintenance.

CISC 130* Introduction to Programming and Problem Solving in the Sciences (4 credits) or CISC 131* Introduction to Programming and Problem Solving (4 credits)
Note: CISC 131 is recommended for this major
CISC 230* Object-Oriented Design and Programming (4 credits)
CISC 320 Systems Analysis and Design I (4 credits)
CISC 321 Systems Analysis and Design II (4 credits)
CISC 325 E-Commerce (4 credits)
CISC 450 Database Design I (4 credits)
Computer and Information Sciences (CISC)

STAT 220 Statistics I (4 credits)
  * Note: A grade of C- or above must be earned by majors in these courses.

Plus eight credits from the following:
CISC 110 Introduction to Information Processing (4 credits) or CISC 200 Introduction to Computer Technology and Business Applications (4 credits)
CISC 210 Information Security (4 credits)
CISC 270 Web Development (4 credits)
CISC 370 Computer Networking (4 credits)
CISC 419 Accounting Information Systems (4 credits)
CISC 430 Information Technology Management (4 credits)

Allied requirements
ACCT 210 Financial Accounting (4 credits)
COJO 100 Public Speaking (4 credits) or COJO 105 Communications in the Workplace (4 credits)
MGMT 305 Management & Organizational Behavior (4 credits)

Plus four credits from the following:
MATH 109 Calculus with Review II (4 credits)
MATH 111 Calculus for Business and Social Science (4 credits)
MATH 113 Calculus I (4 credits)

Major in Information Security
Information security studies the problem of protecting information stored on computing systems and travelling on computer networks. The discipline has emerged from a synthesis of software engineering, network technology, sociology of computing, and the mathematics of computer science. This major prepares students in the areas of computer security, network security, cryptography, and information assurance.

CISC 130* Introduction to Programming and Problem Solving in the Sciences (4 credits) or CISC 131* Introduction to Programming and Problem Solving (4 credits)
  Note: CISC 131 is recommended for this major
CISC 210 Information Security (4 credits)
CISC 230* Object-Oriented Design and Programming (4 credits)
CISC 310 Operating Systems (4 credits)
CISC 320 Systems Analysis and Design I (4 credits)
CISC 370 Computer Networking (4 credits)
CISC 410 Information Security Analysis (4 credits)
STAT 220 Statistics I (4 credits)
  * Note: A grade of C- or above must be earned by majors in these courses.

Plus eight credits from the following:
CISC 270 Web Development (4 credits)
CISC 321 Systems Analysis and Design II (4 credits)
CISC 325 E-Commerce Systems (4 credits)

Allied requirements
COJO 100 Public Speaking (4 credits) or COJO 105 Communications in the Workplace (4 credits)
MATH 128 Introduction to Discrete Mathematics (4 credits) or ENGR 230 Digital Design (4 credits)

Plus four credits from the following:
MATH 109 Calculus with Review II (4 credits)
MATH 111 Calculus for Business and Social Science (4 credits)
MATH 113 Calculus I (4 credits)

Major in Statistics
This is an interdisciplinary major in the department of Mathematics and Computer and Information Sciences. This joint major allows students to pursue an interest in mathematical statistics, applied statistics, and related areas including biostatistics, operations research, and data mining.
See Statistics
Teacher Licensure
Elementary Education with a co-major in Science and Mathematics for Elementary Education
See Education

Minor in Computer and Information Sciences
Required: Five courses
CISC 130 Introduction to Programming and Problem Solving in the Sciences (4 credits) or CISC 131 Introduction to Programming and Problem Solving (4 credits)
Note: CISC 131 is recommended for this minor
Four additional CISC courses, at least two of which must be numbered 300 or above.
Note: One of these four may be chosen from IDTH numbered 300 or above.
Students should choose courses appropriate to their major field of study in consultation with the department chair or a member of the CISC department faculty.

Minor in Information and Decision Theory
CISC 130 Introduction to Programming and Problem Solving in the Sciences (4 credits) or CISC 131 Introduction to Programming and Problem Solving (4 credits)
Note: CISC 131 is recommended for this minor
STAT 220 Statistics I (4 credits)
STAT 320 Statistics II (4 credits)
IDTH 460 Senior Project/Practicum (4 credits)

Plus one elective IDTH course taken from this list:
IDTH 400 Data Mining and Machine Learning (4 credits)
IDTH 410 Operations Research I (4 credits)
One approved IDTH Topics Course (IDTH 489 or 490)

Allied requirements
MATH 113 Calculus I (4 credits)

Plus, depending on the IDTH Course choice, either:
MATH 114 Calculus II (4 credits) or MATH 128 Introduction to Discrete Mathematics (4 credits)

Computer and Information Sciences (CISC)

CISC 110 Introduction to Information Processing (4 credits) (CISC 200 or 216) (formerly QMCS 110)
Introduction to basic concepts of hardware, software and information processing systems. Introduction to computer programming concepts. Use of microcomputer application packages, including spreadsheets and database packages. Introduction to the Internet and World Wide Web. Investigation of the impact of the computer and future trends.
NOTE: Students who receive credit for CISC 110 may not receive credit for CISC 200 or 216.

CISC 120 Computers in Elementary Education (4 credits) (formerly QMCS 120)
This course is intended for elementary education majors. Topics include the role of the computer in elementary and middle-school education, computer applications in science and mathematics, data analysis, software packages for use in elementary and middle-school classrooms, Computer-Assisted-Instruction (CAI), multimedia, electronic portfolios, telecommunication and software creation using tools such as MicroWorlds, Scratch, and HTML. This course fulfills the third course in the Natural Science and Mathematical and Quantitative Reasoning.
Prerequisite: Elementary Education or SMEE major

CISC 130 Introduction to Programming and Problem Solving in the Sciences (4 credits) (CISC 131)
(formerly QMCS 130 and 230)
Introduction to problem solving with computers, using programming languages common to science and engineering disciplines; logical thinking, design and implementation of algorithms; and basic programming structures. Introduction to hardware and software: how computers acquire, store, process, and output information; how computer systems are designed, programmed, and tested. Students will use both a scientific programming language and an application package designed to implement programming features at a level more accessible to non-programmers. This course is designed for students majoring in Engineering or the sciences. Majors in the Department of Computer and Information Sciences should take CISC 131. Please see your academic adviser to ensure you select the appropriate class. Lab included.
NOTE: Students who receive credit for CISC 130 may not receive credit for CISC 131.
CISC 131 Introduction to Programming and Problem Solving (4 credits) (CISC 130) (formerly QMCS 130 and 230)
This course is designed for students with majors in the Department of Computer and Information Sciences and focuses on logical thinking, the design and implementation of algorithms in a procedural language, testing, correctness, and the use of common programming structures such as arrays. In addition, basic machine concepts are covered including hardware organization and representation of information in the machine. The typical student will be adept at using the computer but will have no prior programming experience. Engineering and science majors should take CISC 130. Please see your academic adviser to ensure you select the appropriate class. Lab included.

NOTE: Students who receive credit for CISC 131 may not receive credit for CISC 130.

CISC 200 Introduction to Computer Technology and Business Applications (4 credits) (CISC 110 or 216) (formerly QMCS 200)
This course will prepare students to use computers in a business environment and in daily life. This course will prepare students to use computers in a business environment and in daily life. It will provide an introduction to programming and problem solving for non-majors. Spreadsheet and database software will be used to solve problems related to business. The course includes an overview of hardware and software, how computers acquire and process information, and related topics.

NOTE: Students who receive credit for CISC 200 may not receive credit for CISC 110 or 216

CISC 210 Information Security (4 credits)
An introductory course in computer security.
Topics include operating system security, cryptography, user authentication, application security, secure programming, web security and privacy issues, and ethical issues in the field of computer security. Emphasis is on understanding the technical aspects of how adversaries exploit systems and the techniques for defending against these attacks.
Prerequisites: 1) MATH 128 or ENGR 230 or STAT 220 (may be taken concurrently), and 2) A minimum grade of C- in CISC 130 or 131

CISC 216 Quantitative Techniques in Business (2 credits) (CISC 200) (formerly QMCS 216)
The use of microcomputer spreadsheet software to aid in solving quantitative business problems. This course is to be taken by students who have been given transfer credits for the equivalent of some part but not all of CISC 200 and who are required to take CISC 200.

NOTE: Students who receive credit for CISC 216 may not receive credit for CISC 110 or 200

CISC 230 Object-Oriented Design and Programming (4 credits) (formerly QMCS 281)
Programming and problem solving using an object-oriented approach. Builds on the procedural language foundation developed in CISC 130 or 131. Topics include: how procedural design differs from object-oriented design, algorithms, modeling, design requirements and representation, Uniform Modeling Language specification, implementation of object-oriented models, testing, and verification, and elementary design patterns. Lab included.

Prerequisites: A minimum grade of C- in CISC 130 or 131

CISC 231 Data Structures Using Object-Oriented Design (4 credits) (formerly QMCS 350)
Presents the fundamental suite of data structures and the algorithms used to implement them. Topics include: abstract data types, algorithm development and representation, searching, sorting, stacks, queues, lists, trees, measuring algorithm complexity, object-oriented design and implementation of moderately large and complex systems. Course assumes the student has proficiency in object-oriented specification, design, and implementation.

Prerequisites: A minimum grade of C- in CISC 230, MATH 128

CISC 238 Software Design Using Business Languages (4 credits) (formerly QMCS 238)
Introduction to software development using current and other business languages. Topics include algorithm development, sequential and direct-access file processing, tables, sorting, structured programming and software validation.

CISC 270 Web Management (4 credits) (formerly QMCS 310)
This course will introduce students to the many technical and non-technical issues related to designing and constructing an effective World Wide Web (WWW) site. Students will be introduced to the Internet and the WWW, how they function, and what they do. The course will cover basic relational database principles and introduce the various tools necessary to implement an electronic commerce (e-commerce) WWW site. Students will work in small teams, using their own WWW server, and develop a fully functional site using many of the tools introduced in the course.

Prerequisite: A minimum grade of C- in CISC 230

CISC 295, 296 Topics (2 credits)
CISC 297, 298 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online,
CISC 310 Operating Systems (4 credits) (formerly QMCS 360)
The basic principles of designing and building operating systems. Sequential versus concurrent processes, synchronization and mutual exclusion, memory management techniques, CPU scheduling, input/output device handling, file systems design, security and protection.
Prerequisite: A minimum grade of C- in CISC 230

CISC 320 Systems Analysis and Design I (4 credits) (formerly QMCS 420)
A study of systems analysis methodologies used in the analysis and design of information systems. Emphasis on data, process, and modeling by use of a CASE tool: entity relationship diagrams and data normalization, data flow diagrams, use case diagrams, and data dictionaries. This is a “hands-on” course where students form teams to analyze the needs of a business client in the community.
Prerequisite: A minimum grade of C- in CISC 230

CISC 321 Systems Analysis and Design II (4 credits) (formerly QMCS 421)
Continuation of CISC 320. Concentration on user-centered design (UCD), physical design, low- and high- fidelity prototyping, and agile methods. Emphasis on managerial problems in systems development. Continued use of CASE and project-management tools. A “real world” design and prototyping project is an integral part of this course.
Prerequisite: CISC 320

CISC 325 E-Commerce (4 credits) (formerly QMCS 425)
A study of relevant technologies and how they are used in today’s modern organizations to help manage the information resource of the organization. Emphasis is placed on the use of the Internet and World Wide Web and how they have changed organizational operations and strategies. This is an “active learning” course in which students will be researching current information systems technologies (such as Electronic Commerce [e-commerce]) and will be participating in the design and development of an e-commerce website for a fictitious organization.
Prerequisite: A minimum grade of C- in CISC 230

CISC 340 Computer Architecture (4 credits) (formerly QMCS 300 and 340)
Structure and organization of computer systems and components, including the design of central processors, memory, and input/output systems. Instruction sets and basic machine language programming.
Prerequisites: CISC 231

CISC 342 Computer Applications in Experimental Sciences (4 credits) (formerly QMCS 342)
Introduction to the use of computers in the collection and analysis of scientific information. The course is designed to meet the needs of both natural science majors with an interest in scientific computing and computer science majors with an interest in laboratory science. Emphasis is placed on application of concepts and techniques in addition to LabVIEW programming. Topics include laboratory device interfacing, analog-signal acquisition and processing, frequency transformations, data analysis, image processing, and math modeling and simulation.
Prerequisites: CISC 130 or 131; MATH 109 or 111 or 113; one course in a laboratory science

CISC 370 Computer Networking (4 credits) (formerly QMCS 370)
An introduction to computer networking covering theory and implementation of basic networking concepts including communication protocols, local area networks, http protocol and client-server and peer-to-peer computing.
Prerequisites: A minimum grade of C- in CISC 230

CISC 410 Advanced Information Security (4 credits)
A more in-depth study of security issues than CISC 210. This course will focus on modern attack techniques and defenses in the areas of application security, network security, cryptographic protocols, and web security.
Prerequisite: A minimum grade of C- in CISC 210

CISC 419 Accounting Information Systems (4 credits) (formerly QMCS 419)
This course will provide an understanding of the conceptual framework and practices of accounting information systems and the ability to work effectively with computer specialists and management to design, implement and audit such systems. Examples of subjects included are: systems development life cycle (SDLC), systems analysis phase of the SDLC, data and process models, operations of a corporate data center, including internal controls, database integrity, audit considerations for both internal and external auditors, unit integration, and system testing.
Prerequisites: CISC 110 or 200, and previous or concurrent enrollment in ACCT 316
Computer and Information Sciences (CISC)

CISC 430 Information Technology Management (4 credits)
Issues and topics surrounding the management of an Information Technology (IT) department within an organization: issues surrounding IT personnel and IT clients or customers; trade offs regarding IT – time versus money, technological elegance versus real-world applicability, use of new technologies versus organizational success; IT controls; and other current issues. 
Prerequisites: CISC 320 and senior standing

CISC 440 Artificial Intelligence and Robotics (4 credits) (formerly QMCS 380)
Theory and implementation techniques using computers to solve problems, play games, prove theorems, recognize patterns, create artwork and musical scores, translate languages, read handwriting, speak and perform mechanical assembly. Emphasis placed on implementation of these techniques in robots. Lab included.
Prerequisites: CISC 230 and STAT 220

CISC 450 Database Design I (4 credits) (formerly QMCS 450)
Introduction to database management systems design philosophy. Design considerations for satisfying both availability and integrity requirements. Data models used to structure the logical view of the database. Schema, subschemas, and database administration. Emphasis on general purpose relational database management systems using SQL.
Prerequisite: A minimum grade of C- in CISC 230

CISC 451 Database Design II (4 credits)
Advanced database analysis, design, and implementation including data warehousing, distributed databases, materialized views, grid computing, and replication. Storage and efficient retrieval of temporal data, objects, and non-textual information. Prerequisite: CISC 450 or 630

CISC 460 Senior Project (4 credits)
Work on a software analysis, design, and implementation project or on a computer support project under the direction of a faculty member.
Prerequisite: Senior standing and permission of the instructor

CISC 475, 476 Experiential Learning (2 credits)
CISC 477, 478 Experiential Learning (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

CISC 483, 484 Seminar (2 credits)
CISC 485, 486 Seminar (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

CISC 487, 488 Topics (2 credits)
CISC 489, 490 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

CISC 269, 389, 491 Research (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

CISC 243, 393, 495 Individual Study (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

CISC 605 Technical Communications (4 credits)
Instructors present the fundamentals of technical communication as practiced in industry, emphasizing clarity and organizational skills. Students engage in exercises that focus on technical writing, editing, public speaking and graphic design, and apply their skills across a broad range of activities, including critique of presentations and writing of proposals, reports, memoranda, user manuals, instructional modules, and specifications. The course includes techniques that assist an understanding of the structure of the language, and an appreciation for format and content, to better prepare students for project documentation.
Note: This course can only be taken by students who have been admitted to the Fast Track to a Master’s Degree within the Computer Science major (see Major in Computer Science)

CISC 610 Software Engineering (4 credits)
This is a survey course covering software engineering concepts, techniques, and methodologies. Topics covered include software engineering; software process and its difficulties; software life-cycle models; project planning including cost estimation; design meth-
Computer and Information Sciences (CISC)

CISC 625 Software Project Management (4 credits)
Students gain a management perspective and a development process for planning, estimating, and controlling software development. They learn to develop a well-defined plan before beginning any software development effort; how to handle changes during the execution of the plan; how to incorporate quality criteria in the development cycle; and how to use methods to keep the project on track. Included in the course is the use of project management software and simulation software in the development and control of the project plan.
Note: This course can only be taken by students who have been admitted to the Fast Track to a Master’s Degree within the Computer Science major (see Major in Computer Science)

CISC 630 Database Design (4 credits)
This course focuses on relational database design and system concepts. Database design includes database concepts, data models, conceptual (EER) and relational schema designs, query languages (SQL), physical data storage and access methods, and physical schema designs. Database systems includes query processing, transaction concepts and management such as concurrency control and recovery from failure, and database security and authorization. Students will complete a relational database design project.
Note: This course can only be taken by students who have been admitted to the Fast Track to a Master’s Degree within the Computer Science major (see Major in Computer Science)

Information and Decision Theory (IDTH)
IDTH 201 - See STAT 201 Introductory Statistics II

IDTH 220 - See STAT 220 Statistics I

IDTH 295, 296 Topics (2 credits)
IDTH 297, 298 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.sthomas.edu/pls/banner/prod/bwckschd.

IDTH 320 - See STAT 320 Statistics II

IDTH 360 Advanced Statistical Software (4 credits)
This course introduces students to an advanced statistical software package to effectively apply statistical methods, in general. Students create data sets from raw data files, create variables within a data set, append and/or modify data sets, create subsets, then apply a whole host of statistical procedures, create graphs and produce reports. The course will be based on several leading advanced statistical software packages, which will be chosen from semester to semester to match the needs of the community.
Prerequisites: MATH 113, STAT 220 Statistics I, or STAT 314 Math Statistics (MATH 314)

IDTH 400 Data Mining and Machine Learning (4 credits)
Introduction to statistical learning methods, from a statistical and computational perspective, to deal with massive and complex data. Topics include: Introduction; creating a project and diagram. Data preparation; defining and exploring data sources. Pattern discovery; cluster analysis, market basket analysis. Decision trees; cultivating and pruning decision trees, autonomous tree growth. Regression; transforming inputs, categorical inputs, polynomial regression. Neural Networks; input selection, stopped training. Model assessment; fit statistics, graphs, separate sampling. Model implementation; scored data sets, score code models. Applications. This course will give the basic ideas and intuition behind these methods, and special emphasis will be placed on their application through statistical software.
Prerequisites: MATH 113, and one of MATH 128 or MATH 240, and one of STAT 320 or STAT 333

IDTH 410 Operations Research I (4 credits) (formerly QMCS 410)
Introduction to computer and analytic techniques to support the decision-making process. Topics include: Introduction to linear programming algorithms, sensitivity, duality, transportation, assignment, transshipment, integer linear programming, network models, project scheduling, inventory models, and waiting line models. Prerequisites: MATH 113 or MATH 114 or MATH 128; and either STAT 220 or STAT 314
**Economics (ECON)**

**IDTH 411 Operations Research II (4 credits) (formerly QMCS 411)**
Advanced modeling and analytic techniques to support the decision-making process. Topics include: forecasting, decision analysis, multicriteria decision problems, simulation, Markov processes, dynamic programming, and nonlinear programming.
Prerequisites: IDTH 410 and MATH 114

**IDTH 460 Senior Project (4 credits)**
Work on a software analysis, design, and implementation project or on a computer support project under the direction of a faculty member.
Prerequisite: Senior standing and permission of the instructor

**IDTH 475, 476 Experiential Learning (2 credits)**
**IDTH 477, 478 Experiential Learning (4 credits)**
See the description of these courses at the beginning of the “Curricula” section of this catalog.

**IDTH 483, 484 Seminar (2 credits)**
**IDTH 485, 486 Seminar (4 credits)**
See the description of these courses at the beginning of the “Curricula” section of this catalog.

**IDTH 487, 488 Topics (2 credits)**
**IDTH 489, 490 Topics (4 credits)**
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

**IDTH 269, 389, 491 Research (2 or 4 credits)**
See the description of these courses at the beginning of the “Curricula” section of this catalog.

**IDTH 243, 393, 495 Individual Study (2 or 4 credits)**
See the description of these courses at the beginning of the “Curricula” section of this catalog.

**CRIMINAL JUSTICE**
See Sociology and Criminal Justice

**ECONOMICS (ECON)**
College of Arts and Sciences, Department of Economics
O’Shaughnessy Education Center (OEC) 427, (651) 962-5675
Riley (chair), Fairchild, Hartmann, Hendrickson, Kim, Marcott, Papagapitos, Rho, Saavedra, Schipper, Vincent, Walrath, Wilson, Wisniewski, Wu

The economics program develops a logical, consistent and rigorous method of thinking about the world and its problems. The economic way of thinking can be applied to a wide variety of topics including inflation, unemployment, financial markets, international trade, poverty, income inequality, currency depreciation, monopoly power, bank failures, sports, budget deficits and health-care costs.

The Department of Economics offers two majors and a minor in economics. All three programs are designed to provide excellent career-entry skills and those skills providing preparation for possible career shifts.

Whether a major or minor in economics is pursued, students are strongly encouraged to complement their studies with work in other fields. In recent years, for example, graduates have done complementary coursework in such fields as mathematics, foreign languages, business, environmental studies, computer science, international studies and English.

The choice of major and of a complementary field depends upon the path the student wishes to pursue. For example, students pursuing a liberal arts major, wishing to double major, or who are interested in continuing studies in professions other than economics would likely find the Bachelor of Arts (B.A.) best suited to their needs. Students wishing to engage the discipline at a deeper level would find the Bachelor of Science (B.S.) a better alternative.

Students graduating with a major in economics will be able to integrate the tools and concepts of the discipline in the analysis of an economic issue. The background provided by this major should equip the student with sound preparation for career advancement.

The core for each degree consists of five economics courses and two allied requirements. The B.A. requires three additional electives of the student’s choosing. The B.S. has four possible paths. Each path requires three specified electives, two additional electives of the student’s choosing, and additional allied requirements suitable to the different paths.
Students wishing to pursue graduate study in economics should consider the path in Mathematical Economics. Students interested in international affairs should consider the path in International Economics. Students seeking an economics degree supplemented with additional technical skills and an introduction to the business field or who are looking towards an eventual MBA degree should consider the Business Economics path. Finally, students wishing to pursue careers in the government sector or graduate study in public policy should consider the path in Public Policy Economics.

Majors must complete a minimum of twenty credits in economics at St. Thomas. Minors must complete a minimum of twelve credits in economics at St. Thomas.

**Economics Honor Society**
Omicron Delta Epsilon, the international fraternity in economics, was organized at St. Thomas in 1967. Candidates must have completed at least sixteen credits in economics and have an average of 3.40 or better in both economics and their overall work.

**Economics Honors Program**
Candidates for honors in economics must complete a research paper and an additional four credits in economics chosen in consultation with the department chair. The research papers of honors candidates are to be read by a committee of three faculty, appointed by the department chair. Each will determine if the paper is suitable for the honors requirement, with a majority rule determining honors designation. Candidates must achieve a grade-point average of 3.50 or higher in the major and 3.25 or higher overall.

**Major in Economics (B.A.)**
ECON 251 Principles of Macroeconomics (4 credits)
ECON 252 Principles of Microeconomics (4 credits)
ECON 315 Introduction to Econometrics (4 credits)
ECON 351 Macroeconomic Theory (4 credits)
ECON 352 Microeconomic Theory (4 credits)

*Plus:*
Twelve credits in courses numbered 300 and above.

*Note:* Students are strongly encouraged to take ECON 315, 351 and 352 by the end of the junior year.

**Allied requirements**
*Four credits from the following:*
MATH 109 Calculus with Review II (4 credits)
MATH 111 Calculus for Business and Social Science (4 credits)
MATH 113 Calculus I (4 credits)

*Plus either:*
STAT 220 Statistics I (4 credits) or MATH 303 Statistics for the Applied Sciences (4 credits)
or
MATH 313 Probability (4 credits) and STAT 314 Mathematical Statistics (4 credits)

**Major in Economics (B.S.)**
ECON 251 Principles of Macroeconomics (4 credits)
ECON 252 Principles of Microeconomics (4 credits)
ECON 315 Introduction to Econometrics (4 credits)
ECON 351 Macroeconomic Theory (4 credits)
ECON 352 Microeconomic Theory (4 credits)

*Note:* Students are strongly encouraged to take ECON 315, 351 and 352 by the end of the junior year.

*Plus:*
A set of courses in one of the four paths below: Business, International, Public Policy, or Mathematical.

**Allied requirements**
*Four credits from the following:*
MATH 109 Calculus with Review II (4 credits)
MATH 111 Calculus for Business and Social Science (4 credits)
MATH 113 Calculus I (4 credits)
Economics (ECON)

Plus either:
STAT 220 Statistics I (4 credits) or MATH 303 Statistics for the Applied Sciences (4 credits)

or

MATH 313 Probability (4 credits) and STAT 314 Mathematical Statistics (4 credits)

Business Economics
A path which emphasizes additional tools for analyzing business situations as well as incorporating a basic foundation in the field of business.
ECON 311 Forecasting (4 credits)
ECON 332 Industrial Organization (4 credits)
ECON 401 Managerial Decision Making (4 credits)

Plus:
Eight credits in elective economics courses numbered 300 or above

Plus:
ACCT 210 Introduction to Financial Accounting (4 credits)

Plus eight credits from the following:
ACCT 215 Managerial Accounting (4 credits)
FINC 300 Finance for Non-Business Majors (4 credits)
FINC 321 Financial Management (4 credits)
MGMT 305 Management and Organizational Behavior (4 credits)

International Economics
A path which prepares students for careers in which an understanding of the complexities of cultural differences and international economic relationships is crucial.

Twelve credits from the following:
ECON 345 Economics of Development and Growth (4 credits)
ECON 346 Country and Area Studies in Economics (4 credits)
ECON 341 Economics of International Finance (4 credits)
ECON 342 International Trade (4 credits)

Plus:
Eight credits in elective economics courses numbered 300 or above (ECON 346 can only be included one time in fulfillment of the path requirement, and not as one of the additional electives)

Plus:
A minor in a foreign language or significant study abroad experience approved by the department chair

Public Policy Economics
A path which prepares students for careers in the government or non-profit sectors, or for graduate study in public policy.
ECON 337 Economics of the Public Sector (4 credits)

Plus eight credits from the following:
ECON 326 Industry Studies (4 credits)

Note: There are several topics offered through ECON 326, however “Health” is the only topic that is eligible for this path.
ECON 333 Regional and Urban Economics
ECON 370 Environmental and Natural Resource Economics

Plus:
Eight credits in elective economics courses numbered 300 or above

Plus:
POLS 104 American Government in Comparative Perspective (4 credits)
POLS 205 Introduction to the American Public Policy Process (4 credits)

Plus:
Four credits in elective political science courses numbered 300 through 319
**Mathematical Economics**
A path which prepares students for the core competencies necessary for graduate study in economics.
ECON 355 Game Theory (4 credits)
ECON 418 Mathematical Economics (4 credits)

*Plus four credits from the following:*
ECON 301 History of Economic Thought (4 credits)
ECON 337 Economics of the Public Sector (4 credits)
ECON 339 Labor Economics (4 credits)

*Plus:*
Eight credits in elective economics courses numbered 300 or above

*Plus:
MATH 114 Calculus II (4 credits)
MATH 200 Multi-Variable Calculus (4 credits)
MATH 240 Linear Algebra (4 credits)

Note: STAT 333 Applied Statistical Methods may be substituted for ECON 315
Students applying to graduate school are advised to complete MATH 240 prior to submitting their application.

**Teacher Education**
Elementary Education with a Specialty in Social Studies (5-8)
Co-major in Social Studies (5-12) and a Co-major in Secondary Education
See Education

**Minor in Economics**
ECON 251 Principles of Macroeconomics (4 credits)
ECON 252 Principles of Microeconomics (4 credits)

*Plus four credits from the following:*
ECON 351 Macroeconomic Theory (4 credits)
ECON 352 Microeconomic Theory (4 credits)

*Plus:
Twelve credits in elective economics courses numbered 300 and above.

**ECON 211 Current Economic Issues (4 credits)**
Poverty, health care, tax reform, international trade, crime, income inequality, inflation, and business mergers are some of the contemporary topics that raise interesting questions for public policy and economic analysis. This course will focus on a series of these macroeconomic and microeconomic topics. The goal is to develop economic concepts and analytical tools within a context of direct application to economic issues. Consideration of equity or fairness will be included in discussions of public policy. Student preferences will be considered in selecting many of the issues. This course fulfills the Social Analysis requirement in the core curriculum.

*NOTE: Not open to students who have completed ECON 251 or 252.*

**ECON 251 Principles of Macroeconomics (4 credits)**
An introduction to macroeconomics: national income analysis, unemployment, price stability, and growth; monetary and fiscal policies; international trade and finance; application of economic theory to current problems. Students who enroll in this course are expected to be able to use high-school algebra. This course fulfills the Social Analysis requirement in the core curriculum.

**ECON 252 Principles of Microeconomics (4 credits)**
An introduction to microeconomics: theory of household (consumer) behavior, theory of the firm, market structures, market failures, economic efficiency, factor markets, and income distribution. Students who enroll in this course are expected to be able to use high-school algebra. This course fulfills the Social Analysis requirement in the core curriculum.

**ECON 295, 296 Topics (2 credits)**
**ECON 297, 298 Topics (4 credits)**
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses
Economics (ECON)

are available in the Searchable Class Schedule on Murphy Online,
https://banner.stthomas.edu/pls/banner/prod/bwckschd.

ECON 301 History of Economic Thought (4 credits)
A survey of the content and method of economics and an analysis of the theories of the great economists from the ancient Greeks to the present; mercantilism, physiocracy, the classical school and its critics, particularly Marx; the marginalist school; Alfred Marshall and Keynes, recent developments in economic thought.
Prerequisites: ECON 251 and 252

ECON 311 Forecasting (4 credits)
An introduction to techniques used in forecasting with emphasis on analyzing economic and business data. The emphasis is on time-series data, although cross-sectional analysis is also covered. Techniques presented include variants of moving averages, variants of exponential smoothing, regression and ARIMA processes.
Prerequisites: ECON 251, 252 and STAT 220

ECON 315 Introduction to Econometrics (4 credits)
An introduction to the application of statistical models and methods to economic problems; simple and multiple linear regression models; generalized least-squares; model building and related topics. Emphasis is on use of econometric software to analyze data and to test hypotheses.
Prerequisites: Eight credits of Economics at the 300- or 400-level, STAT 220 or MATH 303

ECON 321 Law and Economics (4 credits)
The relationship between legal and economic aspects of selected issues: property rights, liability laws, product-safety legislation, discrimination, crime control, and related topics.
Prerequisites: ECON 251 and 252 or permission of instructor

ECON 324 Health Economics (4 credits)
This course provides an application of economic principles to the health care system and health policy topics with the focus on the critical economic issues in producing, delivering and financing health care. The course focuses on the U.S. health care sector but will also feature discussion of other developed and developing countries.
Prerequisite: ECON 252

ECON 326 Industry Studies (4 credits)
This course provides an analysis of a particular industry or sector of the U.S. economy. Among the topics included in the analysis will be: identification and description of the industry in question, past and present performance of the industry, the importance of the industry within the national and global economy, the level of competition present in the industry, and the role of government in this industry. Among the anticipated course offerings are Agricultural Economics, Economics of the Arts, Economics of Sports, Economics of Health Care, and Transportation Economics.
Prerequisites: ECON 251 and 252

ECON 327 Sports Economics (4 credits)
The application of industrial organization, public finance, labor economics, and economic history to the sports entertainment industry with a view toward better understanding the many economic issues in sports, such as Major League Baseball’s antitrust exemption, the deontological and consequentialist bases for the public subsidization of sports stadiums, and the underpayment of salaries to professional athletes in North America.

ECON 332 Industrial Organization (4 credits)
Relationship between market structure, behavior and performance of business enterprises; government intervention and regulation; antitrust and other public-policy issues.
Prerequisites: ECON 251 and 252

ECON 333 Regional and Urban Economics (4 credits)
Principles underlying the location of economic activity; land-use patterns; transfer cost; location and structure of urban areas; growth of cities and regions; urban and regional problems and policies.
Prerequisite: ECON 252

ECON 335 Money, Financial Markets, and the Economy (4 credits)
The nature, evolution, and functions of money; the role of depository financial institutions; structure of financial markets; principles of central banking; monetary theory and monetary policy; introduction to international banking and finance.
Prerequisites: ECON 251 and 252
ECON 337 Economics of the Public Sector (4 credits)
This course examines the role of government in a modern economy. It develops a set of concepts that will allow students to evaluate policy alternatives. The following are among the particular topics likely to be addressed: externalities and environmental protection, education, the redistribution of income, health care, social insurance, taxation and tax reform, cost-benefit analysis, fiscal federalism, and state and local government finance. In each case, the focus is on whether intervention by government is appropriate, what the most effective form of any such intervention is, and how alternative policy interventions affect the private decisions made by citizens and business firms.
Prerequisite: ECON 252

ECON 339 Labor Economics (4 credits)
Labor supply and demand; determinants of the wage structure; education and training decisions; the role of labor unions; mobility and migration, discrimination; public policies in labor markets.
Prerequisite: ECON 252

ECON 341 International Macroeconomics (4 credits)
This course introduces students to a variety of tools and methods used to analyze international asset flows with a view toward better understanding issues and problems arising in the global financial world. Topics include: exchange rate determination; balance of payments; foreign exchange and derivatives markets; the international monetary system; optimum currency areas; and monetary policy in an open economy.
Prerequisites: ECON 251 and ECON 252

ECON 342 International Trade (4 credits)
This course examines the economics of international trade and trade policy. Topics include: theories of why countries trade and their implications for income distribution and gains from trade; implications of policies that affect trade; strategic trade policy; regional agreements (including multilateral trade agreements, free trade areas, customs unions, common markets and economic unions); international factor movements; trade issues related to developing countries, the environment and economic growth.
Prerequisite: ECON 251 and ECON 252

ECON 345 Economics of Development and Growth (4 credits)
Nature and measures of economic growth and development; theories of growth; developed and less-developed nations; economic planning; selection and financing of projects for economic growth and human development; environment, resources, and limits to growth. This course fulfills the Human Diversity requirement in the core curriculum.
Prerequisites: ECON 251 and 252

ECON 346 Country and Area Studies in Economics (4 credits)
An analysis of the economic system(s) of a particular country or region of the world. Among the topics included in the analysis will be: functioning of key sectors of the system; the role of government in the economy; the resource base; the income distribution; trade and financial relations with other countries; contemporary economic issues and policies; past and present economic performance. Course offerings are anticipated for Japan, Russia, European Union, Latin America, China, and Australia. Students may take this course more than once provided the specific country/region is not duplicated. Some offerings of this course fulfill the Human Diversity requirement in the core curriculum.
Prerequisites: ECON 251 and 252

ECON 348 International Economics (4 credits)
Analysis of trade between nations and regions of the world; trade and trade policy; economic integration; foreign-exchange markets; global financial system and world payments; cross-border movement of resources; economic interdependency of nations and regions; the economic system in a global framework.
Prerequisites: ECON 251 and 252

ECON 349 Comparative Economic Systems (4 credits)
Analysis of the tools used to evaluate alternative economic systems; study of the structure and performance of laissez faire, centralized planning, democratic socialism and market socialism; historical evolution of economic systems; consideration of efficiency, growth, and social welfare; case studies: United States., CIS, China, the new market economies of Central Europe, others.
Prerequisites: ECON 251 and 252

ECON 351 Macroeconomic Theory (4 credits)
Theories of money, interest, income and expenditure, employment, and inflation; monetary and fiscal policies; introduction to the theory of growth.
Economics (ECON)

Prerequisites: 251 and 252

ECON 352 Microeconomic Theory (4 credits)
Analysis of consumer behavior and demand theory; theory of production and costs; analysis of the firm and industry under various market structures; factor pricing; general equilibrium. Selected additional topics such as market failure, economics of information, welfare economics, income distribution.
Prerequisites: ECON 251, 252, and MATH 109 or 111 or 113 or equivalent.

ECON 355 Game Theory (4 credits)
Game theory seeks to explain how rational people make decisions when outcomes are mutually interdependent. This course introduces the methods of game theory from a historical perspective with primary emphasis on applications to economics. Applications to the other social sciences, business and biology are also considered. Topics covered include: normal and extensive forms of games, strict and weak dominance, sub-game perfections, pure and mixed strategies, Nash equilibrium, bargaining, oligopoly, New Keynesian and Classical Economics, trade policy, environmental economics and conflict resolution.
Prerequisites: ECON 251 and 252, plus completion of the core curriculum mathematics requirement.

ECON 360 Experimental Economics (4 credits)
Experimental economics refers to the practice of testing economic hypotheses by conducting controlled experiments rather than relying on more traditional econometric testing. This course provides a survey of experiments conducted by economists in a variety of areas. Discussion will focus on the basics of the theory being tested, the methodology employed, and the results for each experiment. In addition, attempts will be made to replicate some results by conducting these same experiments in the classroom. Topics may include experiments conducted in the theory of competitive markets, oligopoly markets, auctions, decision-making under risk and uncertainty, public goods and search theory.
Prerequisites: ECON 251, 252, and one additional ECON course numbered 300 or higher.

ECON 370 Environmental and Natural Resource Economics (4 credits)
This course employs economic principles to analyze the problems of environmental pollution and natural-resource depletion. Economic systems, such as the private-market mechanism, are evaluated with respect to their effectiveness in the management of natural resources and the environment. Domestic and international environmental policies are examined and critiqued.
Prerequisite: ECON 252

ECON 401 Managerial Decision Making (4 credits)
Microeconomic theory applied to business decision making. Emphasis on quantitative techniques applied to business decision making under uncertainty, demand and cost estimation, linear production models, pricing decisions, capital budgeting, inventory problems, and group decision making. Quantitative tools include linear regression, statistical decision analysis and linear programming.
Prerequisites: ECON 352, and STAT 220 or MATH 303 or permission of the instructor

ECON 418 Mathematical Economics (4 credits)
Introduction to a mathematical treatment of models of economic behavior; economic content includes consumer theory, theory of the firm and selected topics in macroeconomics.
Prerequisites: ECON 352, and MATH 200 or MATH 114 with permission of instructor

ECON 470 Research in Economics (4 credits)
The Research in Economics course deals with data collection and statistical analysis of economic hypotheses. It culminates in writing a research paper on a topic of the student’s choosing.
Prerequisites: Senior standing and ECON 315, or permission of the instructor

ECON 475, 476 Experiential Learning (2 credits)
ECON 477, 478 Experiential Learning (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

ECON 483, 484 Seminar (2 credits)
ECON 485, 486 Seminar (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

ECON 487, 488 Topics (2 credits)
ECON 489, 490 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.
ECON 269, 389, 491 Research (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

ECON 243, 393, 495 Individual Study (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

**EDUCATION (EDUC) - SCHOOL OF EDUCATION**

School of Education, Department of Teacher Education
Minneapolis Opus Hall (MOH) 302, (651) 962-4420
Frank (chair), Cho, Monson, Nistler, Payne, Smith, Trout, Warring

Note: The University of St. Thomas Teacher Education programs are in alignment with Minnesota state licensure regulations. Changes in state regulations could affect the programs described below. Please maintain contact with the Department of Teacher Education for the most current information.

The University of St. Thomas Department of Teacher Education offers a full range of undergraduate and graduate programs for persons who wish to teach in elementary, middle, and secondary school settings. Candidates who become educators through the Department are part of a proud tradition that goes back over three-quarters of a century, completing programs that embrace the liberal arts, emphasize ethical practice, and prepare creative, reflective educators dedicated to the success of all learners. Current programs are offered within the School of Education’s mission:

- Inspired by Catholic intellectual tradition, the University of St. Thomas School of Education educates practitioners to be morally responsible leaders who think critically, act wisely and work skillfully to advance the common good.

Department of Teacher Education programs are based on a 5x5x10 model framework, representing:
- the five dispositions of the Mission Statement
  1. morally responsible leaders who 2. think critically, 3. act wisely, and 4. work skillfully to 5. advance the common good;
- the five developmentally progressive program stages or blocks,
  1. Exploration, 2. Learning and Teaching, 3. Curriculum and Instruction, 4. Reflective Practice, and 5. Continuing Professional Development
- and demonstrated competence in the ten nationally accepted Standards of Effective Practice
  1. subject matter, 2. student learning, 3. diverse learners, 4. instructional strategies, 5. learning environment, 6. communication, 7. planning instruction, 8. assessment, 9. reflection and professional development, and 10. collaboration, ethics, and relationships

The School of Education is accredited by the National Council for Accreditation of Teacher Education (NCATE) and the North Central Association of Colleges and Secondary Schools. Programs are designed to meet or exceed Minnesota State Board of Teaching licensure requirements.

Because of the number of required courses and the options available, it is suggested that students considering an education degree contact a department adviser as early as possible in their college career. Ongoing state licensure rule changes make careful planning particularly important. Department and School of Education handbooks and information supplements outline specific departmental programs and policies and are available on the Teacher Education Blackboard site for students and in the Teacher Education Department office in Minneapolis Opus Hall (MOH 302).

**Admission to the Program**
Students typically apply for admission to the Teacher Education program during their sophomore year (but may begin as freshmen), while enrolled in Block 1. Criteria for admission to the education program include:

- Cumulative GPA of at least 2.75 for all credits earned at UST
- Positive recommendations based on a department review of a personal essay

**Retention in the Program**
Students accepted into the program must:
**Education (EDUC) - School of Education**

- Maintain a 2.75 GPA
- Earn a grade of C or better in all education courses
- Earn a grade of C- or better for all content area and allied content courses required for licensure
- Demonstrate ability to consistently exhibit all program disposition standards
- Show evidence of satisfactory field experiences
- Complete (but not necessarily pass) all three components (reading, writing and mathematics) of the MTLE: Basic Skills (Candidates will need to pass all three components and all required MTLE II pedagogy and content exams by the time of program completion in order to apply for licensure in the state of Minnesota.)

The Department reserves the right to dismiss candidates from the licensure programs based on violations of the professional dispositions standards or unsatisfactory progress toward meeting state-mandated licensure standards.

**Block 4 and Clinical Practice (Student Teaching)**

In order to take Block 4 courses and participate in Clinical Practice, a candidate needs the following: senior status; successful completion of Assessments at Transition Points; satisfactory completion of all education courses in Blocks 1, 2, and 3 and licensure-related content courses; and satisfactory demonstration of all Minnesota Standards of Effective Practice through portfolio presentation. World Languages candidates must arrange to pass the Oral Proficiency Interview (based on ACTFL Guidelines). For information regarding this, contact the Director of Field and Clinical Practice in the Department of Teacher Education.

With Departmental approval, candidates may be able to complete half of their Clinical Practice in an international setting.

**Program Completion**

Following completion of all program requirements, a candidate may apply for Minnesota state licensure after passing all three sections of the MTLE: Basic Skills exam and passing all required MTLE II pedagogy and content area exams, or other Minnesota BOT approved licensure exams. On the basis of our approved Minnesota licensure program and our accreditation from the National Council for the Accreditation of Teacher Education (NCATE), many other states offer reciprocal entry licenses for candidates completing our program requirements. Since all states’ requirements are unique, any candidate planning to teach in another state is strongly advised to check with that state in advance in order to satisfy those requirements.

**Minor in Education**

Some students who cannot complete the entire Teacher Education licensure program in four years may decide to complete the coursework to meet the requirements of a content major and come back to complete their licensure requirements on the graduate level. Declaring a minor in Teacher Education would designate this on their transcript and also be beneficial for them as they seek employment. All courses must be a 2.75 GPA or higher. This minor is also available to any undergraduate student who completes the required courses with the approval of the Chair of Teacher Education. While the minor alone does not complete the requirements for teaching licensure, the remaining courses, field experience, and clinical practice may be completed at the graduate level through the Department of Teacher Education.

Students wishing to complete the Education Minor must complete the following courses (20 credits):
- EDUC 210 Education’s Place in Society and Field (4 credits)
- EDUC 211 Field Experience I: Exploration (0 credits)
- EDUC 329 Diverse Learners & Families (4 credits)
- EDUC 330 Psychology for Teaching & Learning (4 credits)
- EDUC 332 Field Experience II: Learning & Teaching (0 credits)
- EDUC 355 Reading for the 5-12 Teacher OR EDUC 350 Language Dev., Literacy & Literature (4 credits)
- One elective (4 credits) selected in consultation with the Chair of Teacher Education
- Completion of Assessment at Transition Points I and II

**ESL Education Minor (22 cr)**

The number of people in the United States whose first language is not English is increasing rapidly. Those who are seeking teaching licensure, whether at the elementary, middle/secondary or K-12 level, may choose a minor in ESL Education to provide a base of knowledge in how to work with students who struggle with English.

This minor may also be useful for those pursuing other people/service related majors, such as social work, psychology, English, communications, etc., since these fields may also require work with people whose first language may not be English.

Courses required in this minor:
- EDUC 358 Additional Language Acquisition for Diverse Learners (4 cr)
- EDUC 361 Language and Culture for Academic Development (4 cr)
- EDUC 363 Introduction to Linguistics for Teachers of Diverse Learners (4 cr)
EDUC 364 Literacy and Oral Language Development for Diverse Learners (4 cr)
EDUC 368 Testing and Assessment for Diverse Learners (2 cr)
EDUC 378 Grammar Instruction for Diverse Learners (4 cr)

Special Education and Gifted Education Exceptionalities Minor (20 cr)
This minor supports the development of knowledge, skills, and dispositions for those adult learners who will be facilitating the learning and development of preschoolers/children/youth with disabilities, giftedness, or other areas of diversity. This minor is an excellent option for undergraduates who are teacher education majors, and those in related fields who want to expand their knowledge and skills with children/youth with disabilities and giftedness.

Courses required in this minor:
SPED 450 Survey of Exceptionality (4 credits)
SPUG 419 Social, Emotional and Behavioral Interventions (4 credits)
SPUG 414 Collaboration Skills for School Professionals (4 credits)
SPUG 485 Behavior Management (4 credits)
SPUG 421 Introduction to the Education of Twice Exceptional Learners (4 credits)

Elementary Education
Persons earning this major are licensed as K-6 generalists. Adding a Middle Level Endorsement to a K-6 license can be completed at either the undergraduate or graduate level. Contact the Department of Teacher Education for information and advising.

Majors must complete the following:

Core Elementary Education (K-6) Requirements

Block 1
- EDUC 210 Education's Place in Society and Field Experience (4 credits)
- EDUC 211 Field Experience I: Exploration (0 credits)
- MTLE: Basic Skills or other Minnesota BOT approved licensure exam

Block 2
- EDUC 330 Psychology for Teaching and Learning (4 credits)
- EDUC 332 Field Experience II: Learning & Teaching (0 credits)
- EDUC 329 Diverse Learners and Families (4 credits)
- EDUC 350 Language Development, Literacy, and Literature I (4 credits)

Block 3 (Note: Allied Math, Science, and Social Studies requirements must be completed as a prerequisite to Block 3.)
- EDUC 370 Language Development, Literacy, and Literature II (4 credits)
- EDUC 371 Teaching Mathematics and Technology (4 credits)
- EDUC 372 Teaching Science and Healthy, Active Living (4 credits)
- EDUC 373 Teaching Social Studies and Fine Arts (4 credits)
- EDUC 337 Field Experience III: Curriculum & Instruction (0 credit)

Block 4
- EDUC 431 Use of Technology for Instruction (2 credits)
- EDUC 460 Clinical Practice: Student Teaching and Seminar (10 credits)

Plus:
Demonstrated competence on all required state standards and MTLE II Pedagogy & Content Area Exams required for license

Plus:
Allied core curriculum math, science, and social studies courses to meet state competencies (must be completed before Block 3):
- MATH 100 Mathematical Sampler (4 credits)
- MATH 121 Structures of Elementary Mathematics (4 credits)
- MATH 259 Elements of Geometry & Statistics (4 credits)
- BIOL 101 General Biology (4 credits)
- CHEM 100 Chemistry in Our World (4 credits)
- PHYS 101 Physics as Liberal Art (4 credits)
- GEOL 111 Intro to Physical Geology (4 credits)
The above courses will also fulfill the Natural Science/Math Core Curriculum Requirements.
**Education (EDUC) - School of Education**

PSYC 111 General Psychology OR SOCI 100 Intro to Sociology (4 credits)
POLS 104 American Government (4 credits)
The above courses will also fulfill the Social Analysis Core Curriculum Requirement.

HIST 113 Early Amer. in Global Perspective OR HIST 114 The Modern US in Global Perspective (4 credits)
HIST 115, 116, 118, or 119 (all non-US history courses) (4 credits)
The above courses will also fulfill the Historical Studies Core Curriculum Requirement.

GEOG 113 World Geography (4 credits)
The above course will also fulfill the Human Diversity Core Curriculum Requirement.

A concentration or minor is strongly recommended in one or more of the following areas:

SMEE (Science and Math for Elementary Education)
Engineering Education
ESL Minor
SPED Minor
20-24 additional credits or minor in a content area such as English, History, Spanish, etc.

**Science and Mathematics for Elementary Education (SMEE)**
Rezac (MATH) (director), Hickson (GEOL), Marcus (CHEM), Besser (ENGR), Verhoeven (BIOL), Wehner (PHYS), Werness (CISC)

Co-major with Elementary Education (K-6).

*Note: A Co-major cannot be a stand-alone major.*

This co-major provides an integrated background in science and mathematics appropriate for individuals who will teach in the elementary grades. The SMEE major was designed as a co-major along with elementary education and should be considered by students planning to pursue a degree in elementary education who wish to emphasize science and mathematics. Students should contact the program director, the Department of Teacher Education, or members of program faculty for further information on this co-major. SMEE is only available as a co-major for those students also majoring in elementary education.

*Four credits from the following:*
GEOL 111 Introductory Physical Geology (4 credits)
GEOL 114 The Science of Natural Disasters (4 credits)
GEOL 115 Environmental Geology (4 credits)
GEOL 162 The Earth’s Record of Climate (4 credits)

*Plus either:*
BIOL 101 General Biology (4 credits)

*or the course sequence:*
BIOL 207 Genetics, Ecology and Evolution (4 credits)
BIOL 208 Biological Communication and Energetics (4 credits)
BIOL 209 Biology of Sustainability (4 credits)

*Plus either:*
CHEM 100 Chemistry in Our World (4 credits)

*or the course sequence:*
CHEM 111 General Chemistry I (4 credits)
CHEM 112 General Chemistry II (4 credits)

*or*
CHEM 115 Advanced General Chemistry (4 credits)

*Plus either:*
PHYS 101 Physics as a Liberal Art (4 credits)

*or the course sequence:*
PHYS 109 General Physics I (4 credits)
PHYS 110 General Physics II (4 credits)
or the course sequence
PHYS 111 Introduction to Classical Physics I (4 credits)
PHYS 112 Introduction to Classical Physics II (4 credits)

Plus:
SMEE 181 Science Seminar (0 credit)
SMEE 182 Science Seminar (0 credit)
SMEE 359 Integrated Studies in Science and Mathematics (4 credits)

Plus:
CISC 120 Computers in Elementary Education (4 credits)

Plus:
A specialization sequence consisting of eight or more additional credits in one department, to be approved by the student's SMEE advisor. These courses will build on the “core courses” above and develop specialized knowledge in one of the areas served by the Division of Science and Mathematics.

Note: PHYS 104 Astronomy (4 credits) is for persons who may want to add 5-8 general science. Please see your advisor.

Middle/Secondary Level and K-12 Education
Programs are designed to provide professional preparation for teaching in middle, and secondary, or K-12 settings. Licensure is available in the following areas:
Chemistry (9-12)
Communication Arts and Literature (5-12)
Earth and Space Science (9-12)
Health (5-12)
Life Science (9-12)
Mathematics (5-12)
Music: Instrumental and Classroom (K-12)
Music: Vocal and Classroom (K-12)
Physical Education (K-12)
Physics (9-12)
Social Studies (5-12)
World Languages and Cultures (French, German, Spanish) (K-12)

The following additional areas are offered in conjunction with the College of St.Catherine: Family and Consumer Science (5-12), Visual Arts (K-12). Please see an Education adviser for information.

NOTE: Students have the option of adding the General Science (5-8) licensure to 9-12 Chemistry, Earth and Space Science, Life Science, or Physics by taking the following courses:
BIOL 101 General Biology (4 credits)
or BIOL 207 Genetics, Ecology, and Evolution (4 credits) and BIOL 208 Biological Communication and Energetics (4 credits) and BIOL 209 Biology of Sustainability (4 credits)
PHYS 101 Physics as a Liberal Art (4 credits)
or PHYS 109 General Physics I (4 credits) and PHYS 110 General Physics II (4 credits)
or PHYS 111 Introduction to Classical Physics I (4 credits) and PHYS 112 Introduction to Classical Physics II (4 credits)

Physics II (4 credits)
GEOL 111 Introductory Physical Geology or one of GEOL 110, 113, 114, 115 (4 credits each)
PHYS 104 Astronomy (4 credits)

Majors must complete the following:

1) Core Secondary Education Requirements
   Block 1
   EDUC 210 Education’s Place in Society and Field Experience (4 credits)
   EDUC 211 Field Experience I: Exploration (4 credits)
   MTLE: Basic Skills or other Minnesota BOT approved licensure exams
   Block 2
   EDUC 330 Psychology for Teaching and Learning (4 credits)
Education (EDUC) - School of Education

EDUC 332 Field Experience II: Learning & Teaching (0 credit)
EDUC 329 Diverse Learners and Families (4 credits)
EDUC 355 Reading for the 5-12 Teacher (4 credits)*

*Taken by all licensure areas except Music Education

Block 3
Methods Courses as noted in individual licensure area requirements and corresponding Field Experience III:
EDUC 336 Field Experience III: Communication Arts and Literature (0 credit)
EDUC 339 Field Experience III: Health (0 credit)
EDUC 341 Field Experience III: Mathematics (0 credit)
EDUC 342 Field Experience III: Music (0 credit)
EDUC 343 Field Experience III: Physical Education (0 credit)
EDUC 344 Field Experience III: Science (0 credit)
EDUC 346 Field Experience III: Social Studies (0 credit)
EDUC 347 Field Experience III: World Languages (0 credit)

Block 4
EDUC 431 Use of Technologies for Instruction (2 credits)
EDUC 460 Clinical Practice: Student Teaching and Seminar (10 credits)

Plus:
Demonstrated competence on all required state standards and MTLE II Pedagogy & Content Area Exams or other Minnesota BOT approved exams required for licensure

2) A Second Major or Co-Major and methods courses in the chosen area for licensure:

Chemistry (9-12)
Co-major in Chemistry (9-12) and a Co-major in Middle/Secondary Education.
Note: A Co-major cannot be a stand-alone major.
Note: Students have the option of adding the General Science (5-8) licensure

Blocks 1, 2, 3 and 4 as listed at the beginning of this section

Plus Block 3 curriculum and instruction special methods course and field experience III:
EDUC 318 Curriculum and Instruction for Science (5-12) (4 credits)
EDUC 344 Field Experience III: Science (0 credit)

Plus:
CHEM 111 General Chemistry I (4 credits) and CHEM 112 General Chemistry II (4 credits)
or
CHEM 115 Accelerated General Chemistry (4 credits)

Plus:
CHEM 201 Organic Chemistry I (4 credits)
CHEM 202 Organic Chemistry II (4 credits)
CHEM 300 Quantitative Analysis (4 credits)
CHEM 331 Chemical Thermodynamics and Reaction Dynamics (4 credits)
CHEM 391 Research (1 credit)
CHEM 392 Research (1 credit)
CHEM 481 Seminar (1 credit)
CHEM 484 Seminar (1 credit)
MATH 113 Calculus I (4 credits)
MATH 114 Calculus II (4 credits)
PHYS 111 Introduction to Classical Physics I (4 credits)
PHYS 112 Introduction to Classical Physics II (4 credits)

Plus:
Demonstrated competence on all required state standards
To complete a major in Chemistry (B.A.), additional courses are required. See Chemistry section in the catalog.

Communication Arts and Literature (5-12)
Co-major in Communication Arts and Literature (5-12) and a Co-major in Middle/Secondary Education

*Note:* A Co-major cannot be a stand-alone major. Students seeking licensure in this area who also want to complete an English major and a Communication minor should consult the English Department section of the catalog and follow the Major in English with a Teacher Education Emphasis.

Blocks 1, 2, 3, and 4 as listed at the beginning of this section

*Plus Block 3 curriculum and instruction special methods courses and field experience III:*
EDUC 345 Adolescent Literature (2 credits)
EDUC 316 Curriculum and Instruction for Communication Arts and Literature (5-12) (4 credits)
EDUC 336 Field Experience III: Communication Arts and Literature (0 credits)

*Plus:*
COJO 100 Public Speaking (4 credits)
COJO 211 Communication Theories and Methods (4 credits)
COJO 212 Rhetorical Criticism (4 credits)
COJO 260 Electronic Media Production (4 credits)
ENGL 121 Critical Thinking: Literature and Writing (4 credits)
Select One: ENGL 201, 202, 203, or 204 Texts in Conversation (4 credits)
ENGL 300 Theory and Practice of Writing (4 credits)
ENGL 305 Linguistics: English Language (4 credits)
ENGL 361 Shakespeare and the Early Modern Period (4 credits)
ENGL 380 Issues in English Studies (4 credits)

*Plus four credits from each of the following areas for a total of sixteen credits:*
ENGL 211 British Authors I (4 credits) or ENGL 212 British Authors II (4 credits)
ENGL 214 American Authors I (4 credits) or ENGL 215 American Authors II (4 credits)
ENGL 220 The Classical Tradition (4 credits) or ENGL 221 The Modern Tradition (4 credits)
ENGL 217 Multicultural Literature (4 credits) or ENGL 218 Literature by Women: Critical History (4 credits)

To complete a major in Communication, additional courses are required. See Communication section in the catalog.

Earth and Space Science (9-12)
Co-Major in Earth and Space Science (9-12) and a Co-Major in Middle/Secondary Education

*Note:* A Co-major cannot be a stand-alone major.

*Note:* Students have the option of adding the General Science (5-8) licensure

Blocks 1, 2, 3 and 4 as listed at the beginning of this section

*Plus Block 3 curriculum and instruction special methods course and field experience III:*
EDUC 318 Curriculum and Instruction for Science (5-12) (4 credits)
EDUC 344 Field Experience III: Science (0 credit)

*Plus four credits from the following:*
GEOL 111 Introductory Physical Geology (4 credits)
GEOL 113 The Earth's Record of Climate (4 credits)
GEOL 114 The Science of Natural Disasters (4 credits)
GEOL 162 The Earth's Record of Climate (4 credits)

*Plus:*
BIOL 207 Genetics, Ecology, and Evolution (4 credits)
CHEM 111 General Chemistry I (4 credits)
CHEM 112 General Chemistry II (4 credits)
GEOL 211 Earth Materials (4 credits)
**Education (EDUC) - School of Education**

GEOL 252 Earth Surface Processes and Geomorphology (4 credits)
GEOL 260 Regional Geology and Geological Field Methods (4 credits)
GEOL 320 Sedimentology and Stratigraphy (4 credits)
GEOL 340 Fundamentals of the Lithosphere I (Petrology) (4 credits)
GEOL 360 Fundamentals of the Lithosphere II (Structural Geology) (4 credits)
GEOL 430 Advanced Earth History (4 credits)
PHYS 101 Physics as a Liberal Art (4 credits)
PHYS 104 Astronomy (4 credits)

*Plus either:*
MATH 113 Calculus I (4 credits)

*or*
MATH 108 Calculus with Review I (4 credits) and MATH 109 Calculus with Review II (4 credits)

*Plus:*
Demonstrated competence on all required state standards

To complete a major in Geology, additional courses are required. See Geology section in the catalog.

**Health Education (5-12)**

Major in Health Education -Teaching (5-12) and a Co-major in Middle/Secondary Education.
Note: A Co-major cannot be a stand-alone major.

Blocks 1, 2, 3, and 4 as listed at the beginning of this section

*Plus Block 3 curriculum and instruction special methods courses and field experience III:*
HLTH 341 Health Education: 5-12 Curriculum and Assessment (4 credits)
HLTH 351 Health Education: 5-12 Methods and Instruction (4 credits)
EDUC 339 Field Experience III: Health Education (0 credit)

*Plus:*
HLTH 250 Personal Health and Wellness (4 credits)
HLTH 275 Lifelong Stress Management (2 credits)
HLTH 285 Alcohol, Tobacco and Other Drugs (2 credits)
HLTH 310 Global Health (4 credits)
HLTH 341 Health Education: 5-12 Curriculum and Assessment (4 credits)
HLTH 345 Nutrition for Health and Fitness (4 credits)
HLTH 351 Health Education: 5-12 Methods and Instruction (4 credits)
HLTH 353 Consumer, Community and Environmental Health (4 credits)
HLTH 400 Epidemiology (4 credits)
HLTH 462 Human Sexuality Education (4 credits)
HLTH 464 Critical Issues in Health Education (4 credits)
PHED 208 Human Anatomy and Physiology (4 credits)
EDUC 339 Field Experience III: Health Education (0 credit)

Allied Courses:
Four credits from the following:
PSYC 111 General Psychology (4 credits)
SOCI 100 Introduction to Sociology (4 credits)

Four credits from the following:
BIOL 101 General Biology (4 credits)
BIOL 105 Human Biology (4 credits)

**Life Science (9-12)**

Co-Major in Life Science (9-12) with Co-Major in Middle/Secondary Education

*Note: A Co-major cannot be a stand-alone major.*
Note: Students have the option of adding the General Science (5-8) licensure blocks 1, 2, 3 and 4 as listed at the beginning of this section.

**Plus Block 3 curriculum and instruction special methods course and field experience III:**
EDUC 318 Curriculum and Instruction for Science (5-12) (4 credits)
EDUC 344 Field Experience III: Science (0 credit)

**Plus:**
BIOL 207 Genetics, Ecology, and Evolution (4 credits)
BIOL 208 Biological Communication and Energetics (4 credits)
BIOL 209 Biology of Sustainability (4 credits)
CHEM 111 General Chemistry I (4 credits)
CHEM 112 General Chemistry II (4 credits)
CHEM 201 Organic Chemistry I (4 credits)
GEOL 111 Introductory Physical Geology or one of GEOL 110, 113, 114, 115 (4 credits each)
PHYS 104 Astronomy (4 credits)

**Plus:**
Sixteen additional BIOL credits in courses numbered 200 or above, chosen in consultation with an advisor.

To complete a major in Biology, additional courses are required. See Biology section in the catalog.

**Mathematics 5-12**
Major in Mathematics (5-12) and a Co-major in Middle/Secondary Education.

Note: A Co-major cannot be a stand-alone major.

Blocks 1, 2, 3 and 4 as listed at the beginning of this section.

**Plus Block 3 curriculum and instruction special methods course and field experience III:**
EDUC 317 Curriculum and Instruction for Mathematics (5-12) (4 credits)
EDUC 341 Field Experience III: Mathematics (0 credit)

**Plus:**
CISC 130 Introduction to Programming and Problem Solving in the Sciences (4 credits)
MATH 113 Calculus I (or 108-109) (4 credits)
MATH 114 Calculus II (4 credits)
MATH 200 Multi-Variable Calculus (4 credits)
MATH 210 Introduction to Differential Equations and Systems (4 credits)
MATH 240 Linear Algebra (4 credits)
MATH 301 Abstract Algebra I (4 credits)
MATH 317 Real Analysis (4 credits)
MATH 325 Geometry (4 credits)
MATH 450 Advanced Mathematics: Exploration and Exposition (4 credits)

**Plus either:**
MATH 303 Statistics for the Applied Sciences (4 credits) and one additional MATH course numbered 300 or above (4 credits)
or
MATH 313 Probability (4 credits) and STAT 314 Mathematical Statistics (4 credits)

**Instrumental Music Education (K-12) (BM)**
Co-major in Instrumental Music Education (K-12) and a Co-major in K-12 Music Education.

Note: A Co-major cannot be a stand-alone major.

Blocks 1, 2, 3 and 4 as listed at the beginning of this section.

**Plus Block 3 curriculum and instruction special methods courses and field experience III:**
EDUC 207 Early Elementary Music Methods (Pre K-2) (3 credits)
**Education (EDUC) - School of Education**

EDUC 307 Intermediate Elementary Music Methods (Grades 3-5) (3 credits)
EDUC 314 Secondary Music Methods (Grades 6-12) (3 credits)
EDUC 342 Field Experience III: Music (0 credit)
EDUC 418 Choral/Instrumental Music Methods (2 credits)

*Plus:*
EDUC 110 Introduction to Music Education I (1 credit)
Plus the following Instrumental Concentrations:
EDUC 218 Teaching Techniques for the Brass Family (2 credits)
EDUC 220 Teaching Techniques for the Percussion Family (2 credits)
EDUC 221 Teaching Techniques for the Woodwind Family (2 credits)
EDUC 324 Teaching Techniques for the String Family (2 credits)
EDUC 362 Vocal Pedagogy for Singers (1 credit)
MUSC 354 Advanced Conducting and Materials: Instrumental Concentration (2 credits)

*Plus:*
MUSC 001 Student Convocation Hour (0 credits) (6 semesters)
MUSC 101 Piano Skills I (1 credit)
MUSC 102 Piano Skills II (1 credit)
MUSC 113 Music Theory and Aural Skills I (4 credits)
MUSC 114 Music Theory and Aural Skills II (4 credits)
MUSC 133 Music of the United States: Aural and Written Traditions (2 credits)
MUSC 140 Music Media (2 credits)
MUSC 201 Piano Skills III (1 credit)
MUSC 202 Piano Skills IV (1 credit)

Students for whom piano or organ is the primary instrument will take the following courses in lieu of MUSC 101, 102, 201, and 202:
MUSC 192 Technical Skills for Keyboard Majors (1 credit)
MUSC 292 Functional Skills for Keyboard Majors I (1 credit)
MUSC 293 Functional Skills Keyboard Majors II (1 credit)
MUSC xxx Piano Elective (1 credit) to be chosen from the following: MUSP 121, 131
(organ majors only), 135 (piano majors only), 153, MUSN 171, 172, 182, or MUSW 501

MUSC 213 Music Theory and Aural Skills III (4 credits)
MUSC 214 Music Theory and Aural Skills IV (4 credits)
MUSC 231 Introduction to Conducting I (1 credit)
MUSC 232 Introduction to Conducting II (1 credit)
MUSC 233 Music of the World: Aural and Written Traditions (4 credits)
MUSC 341 Theory Elective: Musicianship Pedagogy for Music Educators (2 credits)
MUSC 411 History and Literature of Music I (4 credits)
MUSC 412 History and Literature of Music II (4 credits)
MUSN 1xx Ensemble (6 semesters) (0 credits each semester)*
MUSP 103 Skills for Piano Proficiency (0 credit) - Piano Majors Only
MUSP 3xx Performance studies (6 semesters) (2 credits each semester)
MUSR 200 Piano Proficiency (0 credit)
MUSR 270 Level I Recital (0 credit)
MUSR 350 Level II Recital (0 credit)

*Guidelines for choosing an ensemble:
Students must spend 6 semesters in a large instrumental ensemble.
Instrumental majors must spend at least 6 semesters in MUSN 181, 185 or MUSN 186.

**Allied Requirements:**
PHYS 105 Musical Acoustics (4 credits)

**Vocal Music Education (K-12) (BM)**
Co-major in Vocal Music Education (K-12) and a Co-major in K-12 Music Education.

*Note: A Co-major cannot be a stand-alone major.*

Blocks 1, 2, 3 and 4 as listed at the beginning of this section
Plus Block 3 curriculum and instruction special methods courses and field experience:
EDUC 207 Early Elementary Music Methods (Pre K-2) (3 credits)
EDUC 307 Intermediate Elementary Music Methods (Grades 3-5) (3 credits)
EDUC 314 Secondary Music Methods (Grades 6-12) (3 credits)
EDUC 342 Field Experience III: Music (0 credit)
EDUC 418 Choral/Instrumental Music Methods (2 credits)

Plus:
EDUC 110 Introduction to Music Education I (1 credit)
Plus the following for Vocal Concentrations:
EDUC 176 German Diction for Singers (1 credit)
EDUC 177 French Diction for Singers (1 credit)
EDUC 324 Teaching Techniques for the String Family (2 credits)
EDUC 362 Vocal Pedagogy for Singers (2 credits)
MUSC 355 Advanced Conducting and Materials: Vocal Concentration (2 credits)

Plus:
MUSC 001 Student Convocation Hour (0 credits) (6 semesters)
MUSC 101 Piano Skills I (1 credit)
MUSC 102 Piano Skills II (1 credit)
MUSC 113 Music Theory and Aural Skills I (4 credits)
MUSC 114 Music Theory and Aural Skills II (4 credits)
MUSC 133 Music of the United States: Aural and Written Traditions (2 credits)
MUSC 140 Music Media (2 credits)
MUSC 201 Piano Skills III (1 credit)
MUSC 202 Piano Skills IV (1 credit)

Students for whom piano or organ is the primary instrument will take the following courses in lieu of MUSC 101, 102, 201, and 202:
MUSC 192 Technical Skills for Keyboard Majors (1 credit)
MUSC 292 Functional Skills for Keyboard Majors I (1 credit)
MUSC 293 Functional Skills Keyboard Majors II (1 credit)
MUSC xxx Piano Elective (1 credit) to be chosen from the following: MUSP 121, 131 (organ majors only), 135 (piano majors only), 153, MUSN 171, 172, 182, or MUSW 501

MUSC 213 Music Theory and Aural Skills III (4 credits)
MUSC 214 Music Theory and Aural Skills IV (4 credits)
MUSC 231 Introduction to Conducting I (1 credit)
MUSC 232 Introduction to Conducting II (1 credit)
MUSC 233 Music of the World: Aural and Written Traditions (4 credits)
MUSC 341 Theory Elective: Musicianship Pedagogy for Music Educators (2 credits)
MUSC 411 History and Literature of Music I (4 credits)
MUSC 412 History and Literature of Music II (4 credits)
MUSN 1xx Ensemble (6 semesters) (0 credits each semester)*
MUSP 3xx Performance studies (6 semesters) (1 credits each semester)
MUSR 200 Piano Proficiency (0 credits)
MUSR 270 Level I Recital (0 credits)
MUSR 350 Level II Recital (0 credits)

*Guidelines for choosing an ensemble:
Students must spend 6 semesters in a large choral ensemble.
Voice majors must spend at least 4 semesters in MUSN 142 or MUSN 160.

Allied Requirements:
PHYS 105 Musical Acoustics (4 credits)

**Physical Education (K-12)**

Major in Physical Education-Teaching (K-12) and a Co-major in K-12 Teaching Physical Education.

Note: A Co-major cannot be a stand-alone major.
Education (EDUC) - School of Education

Blocks 1, 2, 3 and 4 as listed at the beginning of this section

Plus Block 3 curriculum and instruction special methods courses and field experience III:
PHED 302 Physical Education Methods for Elementary School (4 credits)
PHED 304 Physical Education Methods for Middle and Secondary Schools (4 credits)
EDUC 343 Field Experience III: Physical Education (0 credit)

Plus:
EXSC 326 Kinesiology (4 credits) (formerly PHED 326)
EXSC 332 Exercise Physiology (4 credits) (formerly PHED 332)
HLTH 250 Personal Health and Wellness (4 credits)
PHED 105 Water Safety and Lifeguard Training (2 credits)
PHED 202 Physical Education Curriculum, Instruction, and Assessment (4 credits)
PHED 208 Human Anatomy and Physiology (4 credits)
PHED 215 Rhythms and Dance (2 credits)
PHED 300 Motor Development (4 credits)
PHED 302 Physical Education Methods for Elementary Level (4 credits)
PHED 304 Physical Education Methods for Middle and Secondary Level (4 credits)
PHED 351 Teaching Students with Special Needs (4 credits)

Allied Courses:
PSYC 111 General Psychology (4 credits)

Plus four credits from the following:
BIOL 101 General Biology (4 credits)
BIOL 105 Human Biology (4 credits)

First Aid/CPR/AED Certification required (Must provide proof of certification)

Physics (9-12)

Co-major in Physics (9-12) plus a Co-Major in Middle/Secondary Education

Note: A Co-major cannot be a stand-alone major.
Note: Students have the option of adding the General Science (5-8) licensure

Blocks 1, 2, 3 and 4 as listed at the beginning of this section

Plus Block 3 curriculum and instruction special methods course and field experience III:
EDUC 318 Curriculum and Instruction for Science (5-12) (4 credits)
EDUC 344 Field Experience III: Science (0 credit)

Plus:
CHEM 111 General Chemistry I (4 credits)
CHEM 112 General Chemistry II (4 credits)
CISC 130 Introduction to Programming and Problem Solving in the Sciences (4 credits)
ENGR 350 Introduction to Electronics (4 credits)
GEOL 111 Introductory Physical Geology or one of GEOL 110, 113, 114, 115 (4 credits each)
MATH 113 Calculus I (4 credits)
MATH 114 Calculus II (4 credits)
MATH 200 Multivariable Calculus (4 credits)
MATH 210 Introduction to Differential Equations and Systems (4 credits)
PHYS 104 Astronomy (4 credits)
PHYS 111 Introduction to Classical Physics I (4 credits)
PHYS 112 Introduction to Classical Physics II (4 credits)
PHYS 215 Foundations of Modern Physics: From the Atom to the Big Bang (4 credits)
PHYS 225 Applications of Modern Physics: From the Atom to the Diode (4 credits)
PHYS 323 Methods of Experimental Physics (4 credits)

Plus:
Four additional credits in PHYS courses other than 101
Plus either:
BIOL 101 General Biology (4 credits)

or the three-course sequence
BIOL 207 Genetics, Ecology, and Evolution (4 credits)
BIOL 208 Biological Communication and Energetics (4 credits)
BIOL 209 Biology of Sustainability (4 credits)

Plus:
Demonstrated competence on all required state standards

To complete a major in Physics (B.A.), additional courses are required. See Physics section in the catalog.

Social Studies (5-12)
Co-Major in Social Studies (5-12) (Economics, Geography, History, Political Science, Psychology, or Sociology) with a Co-Major in Middle/Secondary Education

Note: A Co-major cannot be a stand-alone major.

Blocks 1, 2, 3 and 4 as listed at the beginning of this section

Plus Block 3 curriculum and instruction special methods course and field experience III:
EDUC 319 Curriculum and Instruction for Social Studies (5-12) (4 credits)
EDUC 346 Field Experience III: Social Studies (0 credit)

Plus:
ENVR 151 Environmental Challenges and Sustainable Solutions (4 credits)
POLS 104 American Government in Comparative Perspective (4 credits)
PSYC 111 General Psychology (4 credits)
SOCI 100 Introduction to Sociology (4 credits)
SOCI 301 Cultural Anthropology (4 credits)

Plus four credits from the following:
ECON 211 Current Economic Issues (4 credits)
ECON 251 Principles of Macroeconomics (4 credits)

Plus four credits from the following:
HIST 111 Origins of the Modern World to 1550 (4 credits)
HIST 112 The Modern World Since 1550 (4 credits)

Plus four credits from the following:
HIST 113 Early America in Global Perspective (4 credits)
HIST 114 The Modern U.S. in Global Perspective (4 credits)

Plus four credits from the following:
HIST 118 The Middle East and North Africa in Global Perspective (4 credits)
HIST 119 East Asian Civilizations in Global Perspectives (4 credits)
HIST 240 Foundations of Chinese Civilization (4 credits)
HIST 241 The History of Modern China (4 credits)
HIST 244 Modern East Asia (4 credits)
HIST 348 Japan: History Through Literature (4 credits)
HIST 349 History of the Ottoman Empire (1300-1922) (4 credits)

Plus four credits from the following:
GEOG 111 Human Geography (4 credits)
GEOG 113 World Geography (4 credits)

Plus:
Twenty-four additional credits in courses in one of the social science disciplines (economics, geography, history, political science, psychology, or sociology). Choice of these courses is subject to the approval of the department involved.
To complete a major in one of the Social Science disciplines, contact the chair of the department.

World Language and Cultures Education (K-12)

Major in French (K-12), German (K-12), or Spanish (K-12) with a Co-Major in K-12 World Language and Cultures

Note: A Co-major cannot be a stand-alone major.

Note: Students wishing to be licensed to teach World Language and Cultures K-12 in the state of Minnesota must demonstrate advanced level speaking proficiency (as defined in the American Council on the Teaching of Foreign Languages [ACTFL] Proficiency Guideline) in both English and in the target language.

Blocks 1, 2, 3 and 4 as listed at the beginning of this section

Plus Block 3 curriculum and instruction special methods course and field experience III:
EDUC 380 Curriculum and Methods for World Language and Cultures (K-12) (4 credits)
EDUC 347 Field Experience III: World Language and Cultures (0 credit)

Plus:
World Language candidates must arrange to pass the Oral Proficiency Interview (based on ACTFL Guidelines).
For information regarding this, contact the Director of Field and Clinical practice in the Department of Teacher Education.

Plus a major in French, German, or Spanish:
French
28 credits numbered FREN 300 and above with a minimum of six credits in each of the following areas:
   Oral and Written Language
   Culture/Civilization
   Literature

German
28 credits numbered GERM 300 and above with a minimum of six credits in each of the following areas:
   Oral and Written Language
   Culture/Civilization
   Literature

Plus:
HIST - Four credits in modern European history

Spanish
36 credits numbered SPAN 300 and above. All students must take SPAN 300, 301, 305, 315, and 335, plus sixteen additional credits following the requirements for either the Cultural and Literary Studies Track or the Linguistics and Applied Language Studies Track.

Teacher Education Courses

Note: Course numbers do not necessarily appear in block sequence.

EDUC 110 Introduction to Music Education I (1 credit)
An orientation to the profession of music education. Overview of historical, philosophical, sociological, and psychological foundations of music education and related music professions. Exploration of the relationships of these foundations to individual and group instructional settings, vocational issues, and concerns of musicians working as performers, teachers, administrators and business owners. Field observations in a variety of instructional settings. Offered fall semesters.

EDUC 176 German Diction for Singers (1 credit)
An introduction to German pronunciation, utilizing the International Phonetic Alphabet. A guide to the use of the dictionary in the language. Special emphasis on the problems encountered by the singer. Offered fall semester of even years.

EDUC 177 French Diction for Singers (1 credit)
An introduction to French pronunciation, utilizing the International Phonetic Alphabet. A guide to the use of the dictionary in the language. Special emphasis on the problems encountered by the singer. Offered fall semester of even years.
EDUC 207 Early Elementary Music Methods (Pre K-2) (3 credits)

EDUC 210 Education's Place in Society (4 credits)
This course is a critical analysis of education as a career choice, as a tool of society, and as a crucial path to a positive future in a rapidly changing world. Education's impact is examined from personal, historic, philosophic, social, and policy perspectives; schools are studied as complex organizations within an increasingly assessment and technology-driven context and global environment. The course is taken concurrently with EDUC 211 a guided, reflective, in-school field experience.

EDUC 211 Field Experience I: Exploration (0 credit)
The University of St. Thomas Teacher Education program utilizes a progression of structured, in-school field experiences to expand the vision and professionalism of program candidates. Field experiences are designed to complement university classroom learning by providing opportunities for candidates to practice the knowledge, skills and dispositions of effective educators across the grad ranges for which they will be licensed and with diverse student populations. The first field experience is a guided, reflective, in-school field experience that provides an opportunity for beginning teacher education candidates to explore schools, education, and teaching as well as their own motivation for choosing the profession of teaching. This field experience focuses on questions that begin a general exploration of the profession: What is a good school? What is a good education? What is good teaching? What filters and assumptions do I use in making these determinations? How can I maximize this opportunity to help me develop as a professional?
Co-requisite: EDUC 210

EDUC 218 Teaching Techniques for the Brass Family (2 credits)
This course will acquaint the prospective music teacher with the basic knowledge and skills of performance pedagogy of brass instruments which include proper embouchure, tone production, intonation, breathing, articulation, posture, and fingering patterns. Students will become familiar with the construction and operation of these instruments and be able to make minor repairs. The students will gain knowledge of representative beginning through grade 12 solo and ensemble repertoire from diverse periods and become acquainted with instructional materials for beginning, intermediate, and advance levels of students. Students will learn how to select instruments, mouthpieces, and other equipment appropriate for elementary and secondary instrumental pupils. Offered fall semester of odd years.

EDUC 220 Teaching Techniques for Percussion Family (2 credits)
This course will acquaint the prospective instrumental music teacher with the basic knowledge and skills of performance pedagogy of percussion instruments which include proper technique, tone production, intonation, articulation, posture, and patterns. Students will become familiar with the construction and operation of these instruments and be able to make minor repairs. The students will gain knowledge of representative beginning through grade 12 solo and ensemble repertoire from diverse periods and become acquainted with instructional materials for beginning, intermediate, and advance levels of students. Students will learn how to select instruments and other equipment appropriate for elementary and secondary instrumental pupils. Offered fall semester of even years.

EDUC 221 Teaching Techniques for the Woodwind Family (2 credits)
This course will acquaint the prospective instrumental music teacher with the basic knowledge and skills of performance pedagogy of woodwind instruments that include proper embouchure, tone production, intonation, breathing, articulation, posture, and fingering patterns. Students will become familiar with the construction and operation of these instruments and be able to make minor repairs. The students will gain knowledge of representative beginning through grade 12 solo and ensemble repertoire from diverse periods and become acquainted with instructional materials for beginning, intermediate, and advance levels of students. Students will learn how to select instruments, mouthpieces, and other equipment appropriate for elementary and secondary instrumental pupils. Offered spring semester of even years.

EDUC 295, 296 Topics (2 credits)
EDUC 297, 298 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.
EDUC 307 Intermediate Elementary Music Methods (Grades 3-5) (3 credits)
Prerequisites: EDUC 207 and MUSC 341

EDUC 308 Pedagogy and Literature for Music Performers I (2 credits)
Cross-listed with MUSC 308:
  Section 1: Voice
  Section 2: Keyboard
  Section 3: Guitar
  Section 4: Winds/Percussion/Brass
All 4 sections will meet concurrently.
This class will survey methods and materials for performance studies. Discussions will include principles of technique, learning theories, musicianship, and performance based upon a wide and diverse body of literature. Students should sign up for section numbers that correspond with primary area of performance.

EDUC 309 Pedagogy and Literature for Music Performers II (2 credits)
Cross-listed with MUSC 309:
  Section 1: Voice
  Section 2: Keyboard
  Section 3: Guitar
  Section 4: Winds/Percussion/Brass
All 4 sections will meet concurrently.
A continuation of Pedagogy and Literature for Music Performers I, this class will survey methods and materials for performance studies. Discussions will include principles of technique, learning theories, musicianship, and performance based upon a wide and diverse body of literature. Students should sign up for section numbers that correspond with primary area of performance.
Prerequisite: EDUC 308/MUSC 308

EDUC 314 Secondary Music Methods (Grades 6-12) (3 credits)

EDUC 316 Curriculum and Instruction for Communication Arts and Literature (4 credits)
This course is designed to prepare teachers who will effectively engage learners with the curriculum of Communication Arts and Literature. Emphasis is on application of developmentally appropriate practice and differentiated instruction for a range of learners in grades 5-12, including curriculum content and sources; national and state standards; performance-based assessment strategies; data literacy and data-driven instructional decisions; connections with community resources; lesson and unit planning; and technology integration. Prerequisites: EDUC 330, 332; successful completion of Assessment II and admission to advanced candidacy; Concurrent registration: EDUC 336 Field Experience III: 5-12 Communication Arts and Literature.(Fall semester)

EDUC 317 Curriculum and Instruction for Mathematics (4 credits)
This course is designed to prepare teachers who will effectively engage learners with the curriculum of Mathematics. Emphasis is on application of developmentally appropriate practice and differentiated instruction for a range of learners in grades 5-12, including curriculum content and sources; national and state standards; performance-based assessment strategies; data literacy and data-driven instructional decisions; connections with community resources; lesson and unit planning; and technology integration. Prerequisites: EDUC 330, 332; successful completion of Assessment II and admission to advanced candidacy; concurrent registration: EDUC 341 Field Experience III: 5-12 Mathematics. (Fall semester)

EDUC 318 Curriculum and Instruction for Science (4 credits)
This course is designed to prepare teachers who will effectively engage learners with the curriculum of Science. Emphasis is on application of developmentally appropriate practice and differentiated instruction for a range of learners in grades 5-12, including curriculum content and sources; national and state standards; performance-based assessment strategies; data literacy and data-driven
EDUC 319 Curriculum and Instruction for Social Studies (4 credits)
This course is designed to prepare teachers who will effectively engage learners with the curriculum of Social Studies. Emphasis is on application of developmentally appropriate practice and differentiated instruction for a range of learners in grades 5-12, including curriculum content and sources; national and state standards; performance-based assessment strategies; data literacy and data-driven instructional decisions; connections to community resources; lesson and unit planning; and technology integration. Prerequisites: EDUC 330, 332; successful completion of Assessment II and admission to advanced candidacy; concurrent registration: EDUC 344
Field Experience III: 5-12 Social Studies. (Fall semester)

EDUC 324 Teaching Techniques for the String Family (2 credits)
This course will acquaint the prospective instrumental music teacher with the basic knowledge and skills of performance pedagogy of string instruments which include proper technique, tone production, intonation, articulation, posture, and patterns. Students will become familiar with the construction and operation of these instruments and be able to make minor repairs. The students will gain knowledge of representative beginning through grade 12 solo and ensemble repertoire from diverse periods and become acquainted with instructional materials for beginning, intermediate, and advanced levels of students. Students will learn how to select instruments and other equipment appropriate for elementary and secondary instrumental pupils. Offered spring semester of odd years.

EDUC 327 Engineering in the P-12 Classroom (4 credits)
This course will focus on an overview of current P-12 engineering education programs; exploration of pedagogy and content; links to national and State Academic Standards; and a survey of assessment mechanisms that evaluate impact of classroom initiatives. A variety of delivery modes will be used to introduce students to methods and to educators who have successfully introduced engineering into a wide variety of courses across several disciplines. Engineering resources for teachers will be presented and discussed. A final project is required, in which students create a unit or module focused on a hands-on engineering activity for P-12 students in their licensure area.

EDUC 329 Diverse Learners and Families (4 credits)
This course is designed to equip prospective teachers with the knowledge, instructional practices, and dispositions to successfully manage diverse classrooms, using their understanding of multiple learning modalities and all types of diversity to promote all students’ personal and academic achievement. The course engages candidates with issues such as race, class, gender, exceptionality, oppression, and discrimination while examining the crucial role of educators in influencing positive, systemic change for social justice. Fulfills Minnesota Human Relations requirement.

EDUC 330 Psychology for Teaching and Learning (4 credits)
This course integrates principles of learning with evidence-based strategies for effective instruction. Prospective K-12 teachers explore the scientific knowledge base that underlies good teaching and build a repertoire of practices to support individual learner success within positive classroom environments. Participants analyze and personalize standards-based instruction, differentiation strategies, performance-enhancing assessment, and technology-assisted teaching and learning. Prerequisite: EDUC 210 or permission of chair.
Co-requisite: EDUC 332 Field Experience II: Learning and Teaching.

EDUC 332 Field Experience II: Learning & Teaching (0 credit)
The University of St. Thomas Teacher Education program utilizes a progression of structured, in-school field experiences to expand the vision and professionalism of program candidates. Field experiences are designed to complement university classroom learning by providing opportunities for candidates to practice the knowledge, skills and dispositions of effective educators across the grade ranges for which they will be licensed and with diverse student populations. The second formal field experience is a supervised, guided, reflective, in-school field experience that focuses on questions involving the exploration of learning and teaching: Who are the learners and how do they learn? In what ways are they diverse? What general approaches can I use to meet each learner’s needs? How can I maximize this opportunity to help me develop as a professional?
Prerequisite: EDUC 210 and concurrent registration with EDUC 330

EDUC 336 Field Experience III: Communication Arts and Literature (0 credits)
The University of St. Thomas Teacher Education program utilizes a progression of structured, in-school field experiences to expand the vision and professionalism of program candidates. Field experiences are designed to complement university classroom learning by providing opportunities for candidates to practice the knowledge, skills and dispositions of effective educators across the grade ranges for which they will be licensed and with diverse student populations. The third field experience is a supervised, reflective, in-school opportunity that focuses on questions involving the role of curriculum and instruction: What determines my curriculum choices? Why am I teaching what I’m teaching? What strategies can I use to differentiate instruction for diverse learners? How do I
assess student learning? How can I maximize this opportunity to help me develop as a professional?
Prerequisite: EDUC 330, 332 and concurrent registration with EDUC 316

EDUC 337 Field Experience III: Elementary (0 credits)
The University of St. Thomas Teacher Education program utilizes a progression of structured, in-school field experiences to expand the vision and professionalism of program candidates. Field experiences are designed to complement university classroom learning by providing opportunities for candidates to practice the knowledge, skills and dispositions of effective educators across the grade ranges for which they will be licensed and with diverse student populations. The third field experience is a supervised, reflective, in-school opportunity that focuses on questions involving the role of curriculum and instruction: What determines my curriculum choices? Why am I teaching what I’m teaching? What strategies can I use to differentiate instruction for diverse learners? How do I assess student learning? How can I maximize this opportunity to help me develop as a professional?
Prerequisite: EDUC 330, 332 and concurrent registration with EDUC 316

EDUC 339 Field Experience III: Health (0 credits)
The University of St. Thomas Teacher Education program utilizes a progression of structured, in-school field experiences to expand the vision and professionalism of program candidates. Field experiences are designed to complement university classroom learning by providing opportunities for candidates to practice the knowledge, skills and dispositions of effective educators across the grade ranges for which they will be licensed and with diverse student populations. The third field experience is a supervised, reflective, in-school opportunity that focuses on questions involving the role of curriculum and instruction: What determines my curriculum choices? Why am I teaching what I’m teaching? What strategies can I use to differentiate instruction for diverse learners? How do I assess student learning? How can I maximize this opportunity to help me develop as a professional?
Prerequisite: EDUC 330, 332 and concurrent registration with HLTH 351

EDUC 341 Field Experience III: Mathematics (0 credits)
The University of St. Thomas Teacher Education program utilizes a progression of structured, in-school field experiences to expand the vision and professionalism of program candidates. Field experiences are designed to complement university classroom learning by providing opportunities for candidates to practice the knowledge, skills and dispositions of effective educators across the grade ranges for which they will be licensed and with diverse student populations. The third field experience is a supervised, reflective, in-school opportunity that focuses on questions involving the role of curriculum and instruction: What determines my curriculum choices? Why am I teaching what I’m teaching? What strategies can I use to differentiate instruction for diverse learners? How do I assess student learning? How can I maximize this opportunity to help me develop as a professional?
Prerequisite: EDUC 330, 332 and concurrent registration with EDUC 317

EDUC 342 Field Experience III: Music (0 credits)
The University of St. Thomas Teacher Education program utilizes a progression of structured, in-school field experiences to expand the vision and professionalism of program candidates. Field experiences are designed to complement university classroom learning by providing opportunities for candidates to practice the knowledge, skills and dispositions of effective educators across the grade ranges for which they will be licensed and with diverse student populations. The third field experience is a supervised, reflective, in-school opportunity that focuses on questions involving the role of curriculum and instruction: What determines my curriculum choices? Why am I teaching what I’m teaching? What strategies can I use to differentiate instruction for diverse learners? How do I assess student learning? How can I maximize this opportunity to help me develop as a professional?
Prerequisite: EDUC 330, 332

EDUC 343 Field Experience III: Physical Education (0 credits)
The University of St. Thomas Teacher Education program utilizes a progression of structured, in-school field experiences to expand the vision and professionalism of program candidates. Field experiences are designed to complement university classroom learning by providing opportunities for candidates to practice the knowledge, skills and dispositions of effective educators across the grade ranges for which they will be licensed and with diverse student populations. The third field experience is a supervised, reflective, in-school opportunity that focuses on questions involving the role of curriculum and instruction: What determines my curriculum choices? Why am I teaching what I’m teaching? What strategies can I use to differentiate instruction for diverse learners? How do I assess student learning? How can I maximize this opportunity to help me develop as a professional?
Prerequisite: EDUC 330, 332 and concurrent registration with PHED 404 or HLTH 351

EDUC 344 Field Experience III: Science (0 credits)
The University of St. Thomas Teacher Education program utilizes a progression of structured, in-school field experiences to expand the vision and professionalism of program candidates. Field experiences are designed to complement university classroom learning by providing opportunities for candidates to practice the knowledge, skills and dispositions of effective educators across the grade ranges for which they will be licensed and with diverse student populations. The third field experience is a supervised, reflective, in-school opportunity that focuses on questions involving the role of curriculum and instruction: What determines my curriculum choices? Why am I teaching what I’m teaching? What strategies can I use to differentiate instruction for diverse learners? How do I
EDUC 345 Adolescent Literature (2 credits)
Survey of contemporary literature for adolescent; exploration of ways in which this literature meets the reading interests and needs of adolescents; emphasis on developing familiarity with literature read by adolescents; methods and programs to stimulate reading interests and practices.
Prerequisite: EDUC 210

EDUC 358 Additional Language Acquisition for Diverse Learners (4 credits)
This course is an overview of additional language acquisition principles, theories, issues and implications for teaching diverse learners in K-12 settings. Special attention will be paid to differences between first, and second or additional language acquisition. Part of this course involves collecting data from language learning situations and critically examining it against theories and our personal assumptions. (Spring semester)

EDUC 361 Language and Culture for Academic Development (4 credits)
This course examines the roles culture and society play in the acquisition of an additional language. Aspects of sociolinguistics and anthropology will be addressed as well the impact of social class and gender on student experiences with schooling. A primary focus will be on field observations and interactions with linguistically and culturally diverse learners in K-12 classrooms. The course will look specifically at some of the large immigrant and refugee populations in Minnesota, including newly arrived linguistic and cultural groups. (Spring semester)
EDUC 362 Vocal Pedagogy for Singers (1-2 credits)
Study of the physical structure of the vocal mechanism. Development of teaching techniques to promote life-long healthy singing, including appropriate vocal exercises and choral and solo repertoire; Special attention to unchanged child voice, adolescent changing voice, and adult singer. Offered fall semester of odd years.

EDUC 363 Introduction to Linguistics for Teachers of Diverse Learners (4 credits)
This course examines an array of tools that inform language teaching. The course will include an overview of phonetics, IPA, phonology, morphology, syntax, semantics, historical-comparative linguistics and language universals. This course explores how teachers can use the above tools to structure instruction such that diverse learners will develop academic language proficiency in the areas of listening, speaking, reading and writing. (Summers)

EDUC 364 Literacy and Oral Language Development for Diverse Learners (4 credits)
This course examines current theories, instructional methods and materials, and issues in teaching reading, writing and oral language development to diverse learners. The course will focus on the foundations for successful literacy instruction for linguistically and culturally diverse learners, including the importance of academic oral language practice and development. Relevant research will be investigated, and relationships between research and best practice will be discussed and applied. (Fall semester)

EDUC 366 Philosophy and Organization of Middle Schools (2 credits)
A comparison of the conceptual structure, curriculum and methodology of various organizational units in American education, with special focus on the unique characteristics of the middle school and the middle school child. Required for Middle Level Endorsement.

EDUC 367 Interdisciplinary Planning in Middle Schools (2 credits)
A basic inquiry into instructional skills, techniques and methods of developing actual experiences in literature, math, science, social studies, art, music, physical education, and language for all middle school children. Special emphasis will be placed on developing interdisciplinary units for middle level learners. Required for Middle Level Endorsement.
Prerequisite: EDUC 366

EDUC 368 Testing and Assessment for Diverse Learners (2 credits)
This course looks at issues involved in the testing and assessment of diverse learners in a variety of educational settings. Instruments and procedures for assessing the language proficiency, as well as content knowledge and skills will be examined and discussed. Uses of test results, assessing the four language domains and issues of advocacy will be included. (Summers)

EDUC 370 Language Development, Literacy, and Literature II (4 credits)
This course is Part II of a two-course literacy sequence designed to introduce the pre-service teacher to the theory and practice of elementary curriculum and instruction in the areas of reading, language arts, and children’s literature. Campus and elementary school experiences emphasize best practice in literacy instruction for meeting the diverse needs of all students. The course presents research-based best practices in teaching for kindergarten, primary, and intermediate grades. This second course in the literacy sequence extends the foundations in language, assessment, and interpretation of relevant data regarding literacy processes, and explorations into children’s literature to classroom applications in composing processes (writer’s workshop), assessment and evaluation as it informs teaching, planning and reflection, and interdisciplinary instruction. Participants will research critical issues in the field of literacy development.
Prerequisite: EDUC 330, 332 and 350; successful completion of Assessment II and admission to advanced candidacy; concurrent registration with EDUC 337, 371, 372 and 373 or permission of Chair

EDUC 371 Teaching Mathematics and Technology (4 credits)
This course is designed to prepare teachers who will effectively engage learners with mathematics and technology. Emphasis is on application of developmentally appropriate practice and differentiated instruction for a range of learners in grades K-6, including curriculum content and sources; national and state standards; performance-based assessment strategies; data literacy and data-driven instructional decisions; connections to community resources; lesson and unit planning; and technology integration. The course includes field-based experiences.
Prerequisites: EDUC 330, 332; MATH 100, 121; successful completion of Assessment II and admission to advanced candidacy; concurrent registration with EDUC 337, 370, 372, and 373 or permission of Chair.

EDUC 372 Teaching Science and Healthy, Active Living (4 credits)
This course is designed to prepare teachers who will effectively engage learners with science and help them have the skills for lifelong healthy, active living. Emphasis is on application of developmentally appropriate practice and differentiated instruction for a range of learners in grades K-6, including curriculum content and sources; national and state standards; performance-based assessment strategies; data literacy and data-driven instructional decisions; connections to community resources; lesson and unit planning; and technology integration. The course includes field-based experiences.
Prerequisites: EDUC 330, 332; successful completion of Assessment II and admission to advanced candidacy; concurrent registration with EDUC 337, 370, 371, and 373 or permission of Chair.

EDUC 373 Teaching Social Studies and Fine Arts (4 credits)
This course is designed to prepare teachers who will effectively engage learners with social studies and the fine arts. Emphasis is on application of developmentally appropriate practice and differentiated instruction for a range of learners in grades K-6, including curriculum content and sources; national and state standards; performance-based assessment strategies; data literacy and data-driven instructional decisions; connections to community resources; lesson and unit planning; and technology integration. The course includes field-based experiences.
Prerequisites: EDUC 330, 332; successful completion of Assessment II and admission to advanced candidacy; concurrent registration with EDUC 337, 370, 371, and 372 or permission of Chair.

EDUC 378 Grammar Instruction for Diverse Learners (4 credits)
This course systematically examines the grammar of English specifically as it relates to the teaching of English to non-native speakers and bilingual learners. The class will examine English structures in depth, recognize basic linguistic features of English including morphology, syntax and semantics. The relationship of English grammar to other languages will be explored, as will the history and development of English. (Fall semester)

EDUC 380 Curriculum and Instruction for World Languages (K-12) (4 credits)
This course is designed to prepare teachers who will effectively engage learners with the curriculum of World Languages and Cultures. Emphasis is on application of developmentally appropriate practice and differentiated instruction for a range of learners in grades K-12, including curriculum content and sources; national and state standards; performance-based assessment strategies; data literacy and data-driven instructional decisions; connections to community resources; lesson and unit planning; and technology integration. The course includes field-based experiences.
Prerequisites: EDUC 330, 332; successful completion of Assessment II and admission to advanced candidacy; concurrent registration: EDUC 347 Field Experience III: 5-12 World Languages and Cultures.

EDUC 418 Choral/Instrumental Music Methods (2 credits)

EDUC 424 Instrument Techniques for Vocal Music Educators (2 credits)
This course will acquaint the prospective choral music teacher with the basic knowledge and skills of performance pedagogy of woodwind, brass, percussion and string instruments which include proper embouchure, tone production, intonation, breathing, articulation, posture, bowing and fingering patterns. Students will become familiar with the construction and operation of these instruments and be able to make minor repairs. The students will gain knowledge of representative beginning through grade 12 solo and ensemble repertoire from diverse periods and become acquainted with instructional materials for beginning, intermediate, and advanced levels of students. Students will learn how to select instruments, mouthpieces, and other equipment appropriate for elementary and secondary instrumental pupils. Offered fall semester of even years.

EDUC 431 Use of Technology for Instruction (2 credits)
This course examines the key aspects of understanding the role and relevance of technology in today’s learning environment. The participants will develop the skills, knowledge, and strategies to effectively utilize instructional tools to facilitate teaching and learning activities. This course will provide resources to help educators develop 21st century skills to utilize technology for communication, collaboration, and creativity. Taken prior to or concurrently with EDUC 460 or EDUC 463

EDUC 456 Inclusive School Communities (2 credits)
Provides an overview of students identified as gifted/talented, students with disabilities (learning disabilities, mental retardation, emotional/behavioral disabilities, and sensory and physical impairments), etiology, and appropriate interventions for exceptional students. Also, current issues and research in the field of exceptionality (legal rights, integration, best practices) are also discussed. Prerequisite: MTLE; and concurrent registration in EDUC 460 or 463

EDUC 460 Clinical Practice: Student Teaching and Seminar (10 credits)
As the culminating experience of the teacher licensure program, clinical practice (student teaching) provides the opportunity for candidates to apply their knowledge and skills of teaching and learning in a classroom setting. Accompanying seminars assist candidates to reflect upon the experience and to increase their repertoire of strategies for dealing with topical, relevant issues. Clinical practice,
Education (EDUC) - School of Education

along with the accompanying seminars and the final components of EDUC 456, is a full-time, full-semester commitment under the supervision of university and school-based professionals.
Prerequisites: Senior status; unconditional admission to the teacher education program; satisfactory completion of all education courses in Blocks 1, 2, and 3; plus satisfactory completion of all licensure-related content courses; plus admission to clinical practice.
01 (K-8)
02 (5-12)
03 (K-12)

EDUC 463 Clinical Practice: Student Teaching and Seminar Dual License (12 credits)
This clinical practice section is intended for candidates seeking licensure in multiple fields or grade ranges requiring additional credits and time in the classroom. As the culminating experience of the teacher licensure program, clinical practice (student teaching) provides the opportunity for candidates to apply their knowledge and skills of teaching and learning in a classroom setting. Accompanying seminars assist candidates to reflect upon the experience and to increase their repertoire of strategies for dealing with topical, relevant issues. Clinical practice, along with the accompanying seminars and the final components of EDUC 456, is a full-time, full-semester commitment under the supervision of university and school-based professionals.
Prerequisites: Senior status; unconditional admission to the teacher education program; satisfactory completion of all education courses in Blocks 1, 2, and 3; plus satisfactory completion of all licensure-related content courses; plus admission to clinical practice.
01 (K-8)
02 (5-12)
03 (K-12)

EDUC 483, 484 Seminar (2 credits)
EDUC 485, 486 Seminar (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

EDUC 487, 488 Topics (2 credits)
EDUC 489, 490 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

EDUC 269, 389, 491 Research (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

EDUC 243, 393, 495 Individual Study (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

Science and Mathematics for Elementary Education (SMEE)
SMEE 181 Science Seminar (0 credit)
The seminar consists of five one-hour meetings per semester and is offered for SMEE students enrolled in the laboratory science courses. Two semesters of the seminar are required.

SMEE 182 Science Seminar (0 credit)
Same as SMEE 181. This number is used for the second semester of the seminar.

SMEE 359 Integrated Studies in Science and Mathematics (4 credits)
The capstone course in the SMEE interdisciplinary major. A number of currently important science and mathematics-related topics will be studied in depth, and will emphasize the integration of the natural sciences and mathematics. Consideration will be given to the relevance of the topics to modern society and their potential use in the elementary classroom.
Prerequisites: BIOL 101, CHEM 100, CISC 120, GEOL 111 (or 110 or 113 or 114 or 115), MATH 100 and 121, PHYS 101. (In certain cases, permission of the SMEE Director may allow a substitution.)

Special Education (SPUG)
Vandercook (chair), Berry, Neilson Gatti, Stansberry Brusnahan, Westberg

SPUG 405 Basic Skills Instruction: Mild/Moderate Handicaps (4 credits) (SPED 705)
Research supported instructional interventions and progress monitoring strategies emphasizing practical knowledge, theoretical foundations and classroom skills for the instruction of students with mild/moderate handicaps in the basic skills: reading, written expression, spelling and mathematics.
Prerequisite: Permission of the chair
SPUG 414 Collaboration Skills for School Professionals (4 credits) (SPED 714)
The purpose of this course is to develop an ethic of collaboration and the knowledge and skills needed to effectively collaborate with faculty, administrators, paraprofessionals, students, families, and community members. Students will explore the fundamentals of collaboration; applications of collaboration related to consultation, interagency agreements, team membership, staff development, and co-teaching; and the pragmatic aspects of collaboration. Students will have the opportunity to develop the personal and interpersonal skills necessary to be an effective collaborative partner in meeting diverse students’ needs.

SPUG 416 Fundamentals: Students with Mild-Moderate Needs (4 credits)
Provides an overview to the disabilities of autism spectrum disorder, developmental disabilities including developmental cognitive disabilities, emotional or behavioral disorders, specific learning disabilities and other health disorders. Definitions, eligibility criteria, characteristics, etiology and family and community supports and resources. Students will use this fundamental information and apply to IEP development, use of assistive technology and contemporary issues in the field.

SPUG 419 Social Emotional Behavioral Intervention (4 credits)
Examines the social, emotional, and behavioral development in students with mild to moderate disabilities and corresponding range of interventions to support these areas of development. This course uses the 3-tiered prevention pyramid model for supporting social, emotional, and behavioral competence. Students will gain knowledge and skill in designing, implementing and evaluating social, emotional, and positive behavioral interventions for universal, secondary, and individual positive behavioral support.

SPUG 421 Introduction to the Education of Twice Exceptional Learners (4 credits)
This on-line, asynchronous (or hybrid) course helps class members recognize and understand the needs of students with gifts or talents who also present with specified disabilities, including Autism Spectrum Disorders (ASD), Emotional/Behavioral Disorders (EBD), Attention Deficit Issues (ADD/ADHD), and Specific Learning Disabilities (SLD) categorical disorders, in heterogeneous and homogeneous (“Inclusive”) settings. The course will focus on: (1) the most recent developments in identification and assessment; and (2) research-based program, curricular, and instructional services that accommodate the needs of these four general categories of twice exceptional learners.

SPUG 450 Survey of Exceptionality (4 credits) (SPED 750)
Provides an overview of special education and specific categories of exceptionality. Examines the theories, legal mandates, definitions and terminology related to special education. Characteristics of individuals with exceptionalities are explored. These include but are not limited to: gifted and talented, learning disabilities, emotional and behavioral disorders, developmental disabilities, sensory disabilities, early childhood special education, speech and language disorders.

SPUG 478 Fundamentals of Preschoolers (4 credits) (SPED 778)
This course is designed to provide a foundation for working with preschoolers and their families in early childhood and early childhood special education programs. Emphasis is placed on early childhood typical and atypical development, developmentally appropriate practice, and developing curriculum that is functional, appropriate, adaptable and fun. Curriculum units are created that enhance child development and are adapted for children with a variety of disabilities.

SPUG 486 Fundamentals of Learning Disabilities (4 credits) (SPED 786)
Theoretical and practical knowledge about the field of learning disabilities. This course emphasizes school-based definitions, criteria, characteristics, and etiology, as well as community and family support systems. It includes an analysis of current trends at the local, state, and national levels for students with learning disabilities.
Faculty:  
Weinkauf (dean), Abraham, Acton, Baxter, Bennett, Ellingson, George, Greene, Hennessey, Jalkio, Mowry, Nelson-Cheeseman, Nepal, Rajagopalan, Shepard, Thomas, Wentz.  
Faculty from other departments and adjunct faculty from industry teach specialized courses.

Engineering Degrees and Tracks offered:  
The School of Engineering at the University of St. Thomas offers a range of tracks in engineering:  
- B.S. in Computer Engineering (BSCE)  
- B.S. in Electrical Engineering (BSEE)  
- B.S. in Mechanical Engineering (BSME)  
- Dual BS/BA degree programs with Business, Physics, and Computer & Information Sciences  
- Fifth Year Masters of Science (MS) in Mechanical and Electrical Engineering  
- Pre-engineering and 3-2 program  
- Minors in engineering  
- Peace Engineering Option

What is Engineering?:  
The value of an engineering education is a lifetime of opportunity. Engineering is the bridge between the ever expanding technological frontier and today’s societal needs. Engineers use design, science, mathematics, creativity and business analysis to create solutions to improve almost every facet of human life. The production of food, energy, clean water, medicine, cars, transportation systems, building materials, robotic machines, computers, communications equipment, electronic devices, paper, plastics, and even clothing fibers is all driven by engineers. Engineering is central to the creation of new technologies such as medical devices, renewable energy, efficient engines, advanced materials, micro-machines, biotechnology, and nanotechnology. Engineers are also leaders in broader fields such as business, medicine, patent law and government.

About Engineering at the University of St. Thomas:  
Our mission is to provide an applied, values-based learning experience that produces well rounded, innovative engineers and technology leaders who have the technical skills, passion and courage to make a difference. Our mechanical and electrical engineering programs are accredited by the Engineering Accreditation Commission of ABET, Inc. (www.abet.org)  
Program outcomes and objectives are designed to provide the graduate with a rigorous engineering experience balanced with the perspective of a liberal arts foundation. The educational objectives of each engineering program describes what we expect our graduates to accomplish in their work after graduation, as follows:

1. Create with Engineering Skills: Use engineering skills and principles to create systems, products, and services that meet articulated and unarticulated needs of people and improve the quality of their lives in a sustainable way.
2. Grow in a Learning Profession: Increase personal knowledge and skill through graduate or professional study, appropriate certifications, and work assignments.
3. Contribute through Citizenship: Contribute time, knowledge, and skills to the profession, community, and the world.
4. Lead through one’s Work: Serve as a team member or team leader, demonstrating ethical behavior, social sensitivity, and professional responsibility.

All said, the students stand at the center of our work. Our faculty are dedicated teachers and practitioners and work to foster a vibrant educational environment. We strongly believe that an Engineering education is about rolling up your sleeves, getting your hands dirty on projects, and wrapping your mind around ideas which have the potential to change our world. Graduates will demonstrate competence in a variety of skills that enhance their ability to solve problems in diverse ways to meet the needs of the global community. Graduates will also develop teamwork and effective communication skills while gaining a comprehensive understanding of the design process and engineering systems.

The School of Engineering curricula and programs are designed to foster an engaging engineering experience for our students. The year-long Senior Design Clinic pairs teams of students with members of industry in creating a prototype solution to a real technical problem in the field. Our industry partners in the Twin Cities area sponsor numerous co-op and summer internships for our students. Beyond the theory developed in the lectures, both the Electrical and Mechanical Engineering curricula are designed to continually develop the hands-on skills of our students. From the freshman to senior level laboratories, students continue to gain a working knowledge of the modern engineering tools necessary to solve advanced technical problems.
Degree in Computer Engineering (BSCE)
Computer Engineering is an interdisciplinary field that integrates the principles and techniques of the electrical engineering and computer science disciplines. Computer engineers study the close interaction between the hardware and software in a computer system and explore ways to integrate computing systems in general. A computer engineer is a sought-after job profile today requiring holistic hardware and software understanding and hands-on skills in embedded processing.

Computer Engineering Major Requirements
ENGR 150 Introduction to Engineering (1 credit)
ENGR 230 Digital Design (4 credits)
ENGR 240 Circuit Analysis (4 credits)
ENGR 330 Design with Microprocessors I (4 credits) OR CISC 340 Computer Architecture (4 credits)
ENGR 331 Design with Microprocessors II (4 credits)
ENGR 345 Electronics I (4 credits)
ENGR 431 Design of Embedded Systems (4 credits)
ENGR 480 Engineering Design Clinic I (4 credits)
ENGR 481 Engineering Design Clinic II (4 credits)

Allied Requirements
CISC 130 Introduction to Programming and Problem Solving (4 credits)
CISC 230 Object-Oriented Design and Programming (4 credits)
CISC 231 Data Structures using Object-Oriented Design (4 credits)
CISC 310 Operating Systems (4 credits)
CISC 610 Software Engineering (4 credits)
MATH 113 Calculus I (4 credits)
MATH 114 Calculus II (4 credits)
MATH 128 Introduction to Discrete Math (4 credits)
MATH 210 Introduction to Differential Equations and Systems (4 credits)
PHYS 111 Introduction to Classical Physics I (4 credits)
PHYS 112 Introduction to Classical Physics II (4 credits)

Electives
Science/Math electives:
A total of 8 credits in the sciences (PHYS, CHEM, BIO) or Math (MATH/STAT)

Technical electives:
A total of 8 credits at 200-level or higher in Computer Science (CISC) or Engineering (ENGR)

Degree in Electrical Engineering (BSEE)
The bachelor of science in electrical engineering (BSEE) curriculum includes courses in circuits and electronics, signal processing and control system design, digital electronics and microprocessors, and electromagnetic fields and waves with a focus on embedded system design. The electrical engineering program is academically rigorous, complemented with a full liberal arts experience of the University of St. Thomas Core Curriculum.

The Electrical Engineering program outcomes and objectives as well as sample degree plans may be found at: www.stthomas.edu/engineering/electrical. In addition to satisfying the University of St. Thomas Core Curriculum requirements (see page 22), students earning a BSEE degree must also meet the Electrical Engineering Major requirements and the Electrical Engineering allied requirements listed below. A four year degree plan for the BSEE is available in the School of Engineering main office or from any Engineering faculty advisor.

Electrical Engineering Major Requirements
ENGR 150 Introduction to Engineering (1 credit)
ENGR 230 Digital Design (4 credits)
ENGR 240 Circuit Analysis (4 credits)
ENGR 330 Design with Microprocessors I (4 credits)
ENGR 331 Design with Microprocessors II (4 credits)
ENGR 340 Signals and Systems (4 credits)
ENGR 342 Electromagnetic Fields and Waves (4 credits)
ENGR 345 Electronics I (4 credits)
Engineering (ENGR) - School of Engineering

ENGR 346 Electronics II (4 credits)
ENGR 410 Control Systems and Automation (4 credits)
ENGR 431 Design of Embedded Systems (4 credits)
ENGR 480 Engineering Design Clinic I (4 credits)
ENGR 481 Engineering Design Clinic II (4 credits)

Plus eight credits of engineering electives as approved by the Program:

Electrical Engineering Allied Requirements
CISC 130 Introduction to Programming and Problem Solving in the Sciences (4 credits) or CISC 131 Introduction to Programming and Problem Solving (4 credits)

Note: CISC 130 is recommended for this major
MATH 113 Calculus I (4 credits)
MATH 114 Calculus II (4 credits)
MATH 200 Multi-Variable Calculus (4 credits)
MATH 210 Introduction to Differential Equations and Systems (4 credits)
PHYS 111 Introduction to Classical Physics I (4 credits)
PHYS 112 Introduction to Classical Physics II (4 credits)
PHYS 225 Applications of Modern Physics (4 credits)
PHYS 341 Electricity and Magnetism (4 credits)

Degree in Mechanical Engineering (BSME)
The bachelor of science in mechanical engineering (BSME) is an applied-engineering program, blending theory and research with practical engineering fundamentals. The program is academically rigorous, complemented with a full Liberal Arts experience of the University of St. Thomas Core Curriculum. The mechanical engineering curriculum provides a foundation in theoretical and applied mechanics, materials, electrical-electronic fundamentals, computer aided design, automation systems, thermodynamics, heat transfer, fluid flow, manufacturing processes and practical design. The B.S.M.E. program is accredited by the Engineering Accreditation Commission (EAC) of ABET. Program outcomes and objectives may be found at: www.stthomas.edu/engineering/mechanical/.

In addition to satisfying the University of St. Thomas Core Curriculum requirements (see page 20), students earning a BSME degree must also meet the Mechanical Engineering Major requirements and the Mechanical Engineering allied requirements listed below. A four year degree plan for the BSME is available in the School of Engineering main office or from any Engineering faculty advisor.

Mechanical Engineering Major Requirements
ENGR 150 Introduction to Engineering (1 credit)
ENGR 171 Engineering Graphics and Design (4 credits)
ENGR 220 Statics (4 credits)
ENGR 221 Mechanics of Materials (4 credits)
ENGR 320 Machine Design and Synthesis (4 credits)
ENGR 322 Dynamics (4 credits)
ENGR 350 Introduction to Electronics (4 credits)
ENGR 361 Engineering Materials (4 credits)
ENGR 371 Manufacturing Processes (4 credits)
ENGR 381 Thermodynamics (4 credits)
ENGR 382 Heat Transfer (4 credits)
ENGR 383 Fluid Mechanics (4 credits)
ENGR 410 Control Systems and Automation (4 credits)
ENGR 480 Engineering Design Clinic I (4 credits)
ENGR 481 Engineering Design Clinic II (4 credits)

Plus four credits of engineering electives

Mechanical Engineering Allied Requirements
CHEM 109 General Chemistry for Engineers (4 credits) (or CHEM 111 however, CHEM 109 is preferred for this major)
CISC 130 Introduction to Programming and Problem Solving in the Sciences (4 credits) or CISC 131 Introduction to Programming and Problem Solving (4 credits)

Note: CISC 130 is preferred for this major
MATH 113 Calculus I (4 credits)
MATH 114 Calculus II (4 credits)
MATH 200 Multi-Variable Calculus (4 credits)
MATH 210 Introduction to Differential Equations and Systems (4 credits)
Dual Degree in Electrical or Mechanical Engineering (BSEE or BSME) and General Business Management (B.A.)
The dual degree program in electrical or mechanical engineering and general business management is designed for students with an interest in both engineering and business. The program combines the applied engineering concepts of electrical or mechanical engineering with knowledge of the financial, marketing and management disciplines of the business program. Students in this dual program will have skills to prepare them for a wide variety of opportunities in industry or advanced graduate education. The dual degree program requires approximately five years to complete. Upon completion, students receive a B.A. degree in business administration and a B.S. in either electrical or mechanical engineering.

Students must complete the appropriate Engineering Major Requirements and the respective Engineering allied requirements for the B.S. in Mechanical Engineering or Electrical Engineering listed above.

Plus:
ACCT 210 Introduction to Financial Accounting (4 credits)
ACCT 215 Managerial Accounting (4 credits)
BETH 301 Business Ethics (4 credits)
BUSN 200 Business Learning Through Service (0 credit)
OPMT 310 Operations Management (4 credits)
FINC 321 Financial Management (4 credits)
MGMT 305 Management and Organizational Behavior (4 credits)
MGMT 480 Strategic Management (4 credits)
MKTG 300 Principles of Marketing (4 credits)

Plus four credits from the following:
BLAW 301 Legal Environment of Business (4 credits)
BLAW 302 Business Law for Accounting (4 credits)
BLAW 303 International Business Law (4 credits)

Plus additional allied Requirements:
ECON 251 Principles of Macroeconomics (4 credits)
ECON 252 Principles of Microeconomics (4 credits)
STAT 220 Statistics (4 credits)
COJO 105 Communications in the Workplace (4 credits)

Dual Degree in Electrical Engineering (BSEE) and Physics (B.A.)
The dual degree program in electrical engineering and physics is designed for students interested in combining lab skills and theory with engineering principles and practice. Students in this dual program will have skills to prepare them for a wide variety of opportunities in industry or advanced graduate education. The dual degree program may require an additional semester to complete. Upon completion, students receive a B.A. degree in physics and a B.S.E.E. degree accredited by EAC of ABET.

Students must complete the Electrical Engineering major requirements (see above), the allied requirements for a B.S. in Electrical Engineering plus four credits of engineering electives.

Plus:
PHYS 215 Foundations in Modern Physics (4 credits)
And four credits of physics electives

Dual Degree in Electrical Engineering (BSEE) and Computer Science (B.A.)
The dual degree program in electrical engineering and computer & information science is designed for students interested in both hardware and software aspects of computing. Students in this dual program will have skills to prepare them for a wide variety of opportunities in industry or advanced graduate education. The dual degree program requires approximately five years to complete. Upon completion, students receive a B.A. degree in Computer Science and a B.S. degree in Electrical Engineering.

Students must complete the Electrical Engineering major requirements (see above) and the allied requirements for a B.S. in Electrical Engineering plus four credits of engineering electives.
Engineering (ENGR) - School of Engineering

Engineering.

Plus:
CISC 210 Security (4 credits)
CISC 230 Object-Oriented Design and Programming (4 credits)
CISC 231 Data Structures Using Object-Oriented Design (4 credits)
CISC 310 Operating Systems (4 credits)
CISC 370 Networking (4 credits)
CISC 450 Database Design I (4 credits)
Plus eight credits from the following:
CISC 320 Systems Analysis and Design (4 credits)
CISC 342 Computer Applications in Experimental Science (4 credits)
CISC 440 Artificial Intelligence and Robotics (4 credits)
CISC 451 Database Design II (4 credits)

PRE-ENGINEERING AND 3-2 PROGRAMS

See Pre-Professional Programs

Peace Engineering
Designed for engineering students interested in becoming responsible critics of contemporary societies and effective agents for positive social transformations. Students should expect this program to take one additional semester. The study option leads to B.S. degrees in either Electrical or Mechanical Engineering and a minor in Justice and Peace Studies.

Students must complete the major requirements and the allied requirements for a B.S. in either Electrical Engineering or Mechanical Engineering (see above).

Plus:
JPST 250 Introduction to Justice and Peace Studies (4 credits)
JPST 280 Active Nonviolence (4 credits)
THEO 421 Theologies of Justice and Peace (4 credits)

Plus:
Eight additional credits to be selected with the approval of the JPST program director. Some of these courses may have additional prerequisites; students will either need to meet those prerequisites or negotiate in order to be admitted into the courses. Appropriate courses include:
BLAW 351 Environmental Law (4 credits)
ECON 345 Economics of Development and Growth (4 credits)
ENVR 151 Environmental Challenges and Sustainable Solutions (4 credits)
ENVR 212 Society and Sustainability (4 credits)
ENVR 301 Environment Ethics (4 credits)
GEOG 111 Human Geography (4 credits)
GEOG 113 World Geography (4 credits)
POLS 326 International Law and Organizations (4 credits)
POLS 352 Third World Politics and Government (4 credits)
SOCCI 301 Cultural Anthropology (4 credits)

A significant experience is strongly recommended:
Appropriate experience of poverty and/or issues of societal sustainability. May be done for credit through JPST 475-478 experiential learning and used towards the eight additional credits mentioned previously.

Minor in General Engineering
The general engineering minor provides a broad overview of topics in both electrical and mechanical engineering. It offers the opportunity to explore the field of engineering and provides an understanding of the technology of products and processes. It also strengthens pre-med and pre-law candidates who intend to pursue specialized areas such as biomechanics or patent law. This minor is not available for students majoring in electrical or mechanical engineering.

Students must complete courses from the following list:
ENGR 150 Introduction to Engineering I (1 credit)
ENGR 171 Engineering Graphics and Design (4 credits)
ENGR 230 Digital Design (4 credits)

Plus one of the following courses:
ENGR 220 Statics (4 credits)
ENGR 240 Circuit Analysis (4 credits)
ENGR 330 Microprocessors (4 credits)
ENGR 381 Thermodynamics (4 credits)

Plus four additional credits of engineering (ENGR) classes

Minor in Electrical Engineering
The electrical engineering minor is designed for students with majors in the sciences, mathematics, mechanical engineering, quantitative methods, and business. This minor serves both those who plan to go on to graduate school in engineering and those entering business and industry. The engineering minor offers the opportunity to explore the field of engineering and provides an understanding of the technology of products and processes. It also strengthens pre-med and pre-law candidates who intend to pursue specialized areas such as biomechanics or patent law.

Students must complete sixteen credits from the following:
ENGR 230 Digital Design (4 credits)
ENGR 240 Circuit Analysis (4 credits)*
ENGR 330 Design with Microprocessors I (4 credits)
ENGR 331 Design with Microprocessors II (4 credits)
ENGR 340 Signals and Systems (4 credits)
ENGR 342 Electromagnetic Fields and Waves (4 credits)
ENGR 345 Electronics I (4 credits)
ENGR 346 Electronics II (4 credits)
ENGR 350 Introduction to Electronics (4 credits)*
ENGR 410 Control Systems and Automation (4 credits)
ENGR 431 Design of Embedded Systems (4 credits)
ENGR 460 Engineering Economics and Project Management (4 credits)
ENGR 470 Fundamentals of Mechatronic Engineering I (4 credits)

*Note: credit will not be given for both ENGR 240 and ENGR 350

Minor in Mechanical Engineering
The mechanical engineering minor is designed for students with majors in the sciences, mathematics, electrical engineering, quantitative methods, and business. This minor serves those who plan to go on to graduate school in engineering and those entering business and industry. The engineering minor offers the opportunity to explore the field of engineering and provides an understanding of the technology of products and processes. It also strengthens pre-med and pre-law candidates who intend to pursue specialized areas such as biomechanics or patent law.

Students must complete Sixteen credits from the following:
ENGR 171 Engineering Graphics and Design (4 credits)
ENGR 220 Statics (4 credits)
ENGR 221 Mechanics of Materials (4 credits)
ENGR 320 Machine Design and Synthesis (4 credits)
ENGR 322 Dynamics (4 credits)
ENGR 328 Fuel Cell Engineering (4 credits)
ENGR 361 Engineering Materials (4 credits)
ENGR 371 Manufacturing Processes (4 credits)
ENGR 381 Thermodynamics (4 credits)
ENGR 382 Heat Transfer (4 credits)
ENGR 383 Fluid Mechanics (4 credits)
ENGR 410 Control Systems and Automation (4 credits)
ENGR 420 Computer Aided Manufacturing (4 credits)
ENGR 430 Applications of Thermodynamics (4 credits)
ENGR 460 Engineering Economics and Project Management (4 credits)
ENGR 470 Fundamentals of Mechatronic Engineering I (4 credits)
Minor in Engineering Education

The Engineering Education minor is designed for students who are majoring in Education. The minor is intended to give pre-service teachers a solid background in basic engineering concepts that can be applied to a P-12 classroom. Special effort is made throughout the program to tie engineering concepts to the Minnesota academic standards in science.

Students must complete the following courses:

- ENGR 130 Fundamentals of Engineering for Educators I (4 credits)
- ENGR 171 Engineering Graphics and Design (4 credits)
- EDUC 327 Engineering in the P-12 Classroom (4 credits)

Plus eight elective credits from the following list:

- ENGR 123 Energy and the Environment (4 credits)
- ENGR 220 Statics (4 credits)
- ENGR 230 Digital Design (4 credits)
- ENGR 350 Introduction to Electronics (4 credits)
- ENGR 361 Engineering Materials (4 credits)
- ENGR 371 Manufacturing Processes (4 credits)
- ENGR 381 Thermodynamics (4 credits)

*Any other ENGR course may be substituted for elective credit with the permission of the minor advisor.

Plus four credits from the following list may be used towards the eight elective credits:

- PHYS 104 Astronomy (4 credits)
- PHYS 105 Musical Acoustics (4 credits)
- PHYS 109 General Physics I (4 credits)
- PHYS 110 General Physics II (4 credits)
- PHYS 111 Classical Physics I (4 credits)
- PHYS 112 Classical Physics II (4 credits)

Engineering Courses

ENGR 123 Energy and the Environment (4 credits)

The course examines the core concepts of energy and power technologies. A hands-on laboratory will examine how refrigerators, swamp coolers, generators, turbines, car engines, and solar panels work. The class covers how electricity from fossil fuels is generated and transported, and the status of the technology behind harnessing geothermal resources, solar power, fuel cells, wind power, and biomass energy. Students will be introduced to the 1st and 2nd laws of thermodynamics, trade-off charts and the design process. The cultural, social, and economic impacts of energy production are discussed as well as their effects on the environment. (This course is limited to non-majors or students with Freshman or Sophomore standing).

ENGR 130 Fundamentals of Engineering for Educators (4 credits)

This is a one-semester survey of engineering topics. Topics will span machine design, manufacturing, thermodynamics, electronics, computer programming, and chemical engineering. The course will have weekly lab sessions which will allow students to apply what they are learning from lectures in a hands-on setting. Emphasis will be placed on how the material is used by practitioners. Numerous examples will be given of how this material can be presented in a way that meets Minnesota education standards. Each topics unit will include a component dedicated to the historic and current relevance of the concepts and skills presented. Whenever appropriate, and feasible, guest lectures and field trips will be arranged. The goal of this course is to provide teachers with a short, hands-on introduction to a variety of engineering.

ENGR 150 Introduction to Engineering (1 credit)

This course focuses on design as the central activity of engineering. Students learn a disciplined approach to design through case studies and open ended design experiences.

ENGR 171 Engineering Graphics and Design (4 credits)

Through a combination of lectures, hands-on computer lab time, and design projects, students will learn to read, and create engineering drawings and use computer-aided design (CAD) terminology and technology. Topics covered will include the engineering design process, rapid prototyping, principles of projection, and introductory methods of representation and constructive geometry.

ENGR 175 Introduction to Electrical Engineering (2 credits)

A hands-on introduction to a variety of basic concepts in Electrical Engineering. The course includes lessons, labs, and projects that explore analog and digital electronics in both theory and practice. Students will develop proficiency in the basic tools and skills.
required for electrical engineering projects and coursework, and gain insight into EE as a potential major, minor, and/or career. The class will also take weekly field trips to local facilities that showcase applications of electrical engineering and introduce students to engineers in action.

**ENGR 220 Statics (4 credits)**
Principles of statics including such topics as rigid bodies, equilibrium, equivalent systems of forces, 2D structures, distributed forces, centroids and centers of gravity, moments of inertia, friction, forces in beams & cables, and the principle of virtual work. Emphasis on applications with integrated labs/hands-on projects.
Prerequisites: ENGR 171 and a minimum grade of C- in PHYS 111

**ENGR 221 Mechanics of Materials (4 credits)**
Principles of deformable body mechanics including stress, strain, basic loading situations, transformations of stress and strain, beam theory, and energy methods. Emphasis on applications with integrated labs/hands-on projects.
Prerequisites: A minimum grade of C- in ENGR 220

**ENGR 230 Digital Design (4 credits)**
Introduction to the design of digital logic. Topics include Boolean logic, design and optimization of combinational and sequential logic, the use of programmable logic devices, logic hazards, electronic implementation of logic gates. Students will be expected to specify, design, simulate, construct, and test digital circuits and document all phases of the process.

**ENGR 240 Circuit Analysis (4 credits)**
Introduction to linear circuit analysis and basic electronic instrumentation. Students will learn linear models of passive components and sources as well as how real components depart from those models. Circuit analysis techniques including nodal and mesh analysis, equivalence theorems and computer simulation will be covered. Laplace transform techniques will be used to examine sinusoidal steady state and transient circuit behavior. *Note: credit will not be given for both ENGR 240 and ENGR 350
Prerequisites: A minimum grade of C- in PHYS 112 and concurrent registration with or prior completion of MATH 210

**ENGR 295, 296 Topics (2 credits)**
**ENGR 297, 298 Topics (4 credits)**
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

**ENGR 320 Machine Design and Synthesis (4 credits)**
Focus is on advanced mechanics topics, failure theories (static and dynamic), and on an understanding of basic machine components. This course will develop the student’s creative skills in conceptualizing machines to meet performance criteria by means of a design project. Machine designs will require the understanding and use of machine components such as springs, screws, bearings, basic 4-bar linkages, cams, and gears. Finally, a number of mini-labs/workshops on topics that support the design project such as dynamic analysis software, machine component design, and design for manufacture are given.
Prerequisite: A minimum grade of C- in ENGR 221

**ENGR 322 Dynamics (4 credits)**
Principles of dynamics including such topics as kinematics of particles, Newton’s Second Law, energy and momentum methods, plane motion of rigid bodies, and forces and acceleration. Applied mathematics is used to solve resulting ordinary differential equations numerically with MATLAB. Emphasis on applications with integrated labs/hands-on projects.
Prerequisites: A minimum grade of C- in ENGR 220, MATH 200, and MATH 210

**ENGR 330 Design with Microprocessors I (4 credits)**
Introduction to computer architecture and assembly language programming. Topics include I/O and memory addressing modes, communication and bus protocols, A/D and D/A conversion, interrupts and common microcontroller peripherals. Tradeoffs between architectures and design approaches will be discussed.
Prerequisites: A minimum grade of C- in ENGR 230 and CISC 130

**ENGR 331 Design with Microprocessors II (4 credits)**
A continuation of ENGR 330.
Prerequisite: A minimum grade of C- in ENGR 330
ENGR 340 Signals and Systems (4 credits)
To develop an understanding of the analysis of continuous and discrete systems using Fourier series, Fourier transform, and Z transforms, and an understanding of frequency domain characteristics, state space concepts, effects of sampling and modulation. Prerequisites: A minimum grade of C- in ENGR 240 and MATH 210

ENGR 342 Electromagnetic Fields and Waves (4 credits)
A continuation of PHYS 341. An introduction to the practical consequences of Maxwell’s equations including propagation, reflection and absorption of electromagnetic waves. Applications include antennas, waveguides, transmission lines, and shielding from electromagnetic interference. Prerequisite: A minimum grade of C- in PHYS 341

ENGR 345 Electronics I (4 credits)
Analysis of electronic devices and circuits. Topics include linear and non-linear models of electronic devices, feedback and circuit design techniques. Applications include amplifiers, demodulation, oscillators, logic implementation. Prerequisites: A minimum grade of C- in ENGR 240 and PHYS 225

ENGR 346 Electronics II (4 credits)
Continuation of ENGR 345. Several special topics will be covered including an introduction to switch mode power supplies and an introduction to electrical noise and noise sources. Prerequisite: A minimum grade of C- in ENGR 345

ENGR 350 Introduction to Electronics (4 credits)
This course provides scientists and engineers with a background in electrical circuits, electronics and electric machines. Topics include DC, AC and transient circuit analysis, AC 3-phase and power, frequency response and filters, operational amplifiers and active filter, and electric machines; magnetism, magnetic materials, magnetic circuits, DC and AC motors and generators. The course consists of lectures, demonstrations, discussions and an associated hands-on laboratory. *Note: credit will not be given for both ENGR 240 and ENGR 350 Prerequisite: A minimum grade of C- in PHYS 112

ENGR 361 Engineering Materials (4 credits)
An introduction to materials and their properties. This course introduces students to the fundamentals of materials theory, properties and applications. Topics include properties and applications of metals, polymers, ceramics and composite materials. The course emphasizes characteristics of materials in manufacturing operations and service, including open-ended design issues. Prerequisites: CHEM 109 (preferred), or CHEM 111, or CHEM 115

ENGR 371 Manufacturing Processes and Statistical Control (4 credits)
This course covers such basic principles as metal forming, metal cutting, plastic molding, and continuous processes. Students will receive hands-on experience with modern production equipment. Students will learn statistical evaluation tools such as the meaning of population distributions, means, medians, regression analysis, and standard deviations. Statistical process control and acceptance testing in the context of modern manufacturing processes will be covered. Prerequisite: A minimum grade of C- in MATH 114

ENGR 381 Thermodynamics (4 credits)
A study of thermal and mechanical energy and their applications to technology. First law of thermodynamics (energy conservation); second law of thermodynamics (restrictions on energy transformations). Major topics include the analysis of closed and opened (steady state and transient) systems, power cycles, thermophysical properties of substances, humidity, dew point and other characteristics of non-reacting mixtures. Prerequisites: A minimum grade of C- in CHEM 115 or CHEM 109

ENGR 382 Heat Transfer (4 credits)
Introduction to the fundamentals of heat transfer in the context of engineering applications. The major topics to be covered include conduction, convection, and radiation. Students will solve steady and unsteady conduction heat transfer problems in both one-dimensional and multi-dimensional coordinate systems. Internal and external convection will be covered as well as heat exchangers and natural convection. Prerequisite: Grades of C- or higher in ENGR 381 and MATH 210

ENGR 383 Fluid Mechanics (4 credits)
Introduction to the fundamentals of fluid mechanics in the context of engineering applications. Topics covered include hydrostatics and pressure variations in non-moving fluids, conservation laws of flowing fluids (mass, momentum, and energy), potential flow and
viscous flow, boundary layer theory, internal flow, external flow, drag and lift. Also, the evaluation and design of turbomachinery and the use of pump/blower curves will be address. Use of advanced CFD software is integrated into the course.

Prerequisite: Grade of C- or higher in ENGR 382 and Math 210

ENGR 410 Control Systems and Automation (4 credits)
An introduction to the scope of control systems in manufacturing and their implementation. The course focuses on analog control loop theory, the use of transforms to describe and solve analog control systems. Emphasis is placed on the development and implementation of proportional, integral, derivative (PID) control algorithms. Simulation is emphasized as an important tool for plant design, layout and optimizing systems.
Prerequisites: A minimum grade of C- in ENGR 340 or 350, CISC 130, MATH 210

ENGR 420 Advanced Computer Aided Manufacturing (4 credits)
Provides a basic understanding of computer-aided design and manufacturing (CAD/CAM) systems in modern manufacturing operations. Topics covered include solid modeling, computer simulation, and implementation of CAD/CAM systems.
Prerequisites: A minimum grade of C- in ENGR 171 and junior standing

ENGR 430 Applications of Thermodynamics (4 credits)
Introduction to principle industrial applications of thermodynamics. The course will cover theory of operation, economics, and design considerations of these systems as well as examples of thermodynamic engineering design. Topics include heating, ventilation, and air conditioning systems (HVAC), engines, refrigeration technologies, reacting mixtures, and turbomachinery.
Prerequisite: A minimum grade of C- in ENGR 381

ENGR 431 Design of Embedded Systems (4 credits)
Advanced interfacing and programming of microprocessor systems. Applications include machine control, digital signal processing, and real time communications. Students will design microprocessor based systems as part of this course.
Prerequisite: A minimum grade of C- in ENGR 331

ENGR 460 Engineering Economics and Project Management (4 credits)
Fundamentals of Engineering Economics and associated analysis: basis analysis tools including cost of money, break even points, impact on financial accounting, life cycle cost, and risk management. Analysis of common Engineering Management issues such as product cost, capital equipment purchase, determining operating expenses, and managing R&D expenses. Case study review of a major Engineering project or proposal.
Prerequisite: Junior standing

ENGR 470 Fundamentals of Mechatronic Engineering (4 credits)
Introduction to basic electronic devices and microprocessor systems for measurement and control; electronic circuits; amplifiers; filters; logic gates and sequential logic applications; A/D and D/A conversion and interfacing; transducers; controllers; motors and actuators; microprocessor fundamentals and programming; data acquisition and feedback control.
Prerequisite: A minimum grade of C- in ENGR 410

ENGR 475, 476 Experiential Learning (2 credits)
ENGR 477, 478 Experiential Learning (4 credits)
Semester long internship or co-operative working experience in an engineering or technical field may be used to satisfy four credits of engineering electives. Students wishing to participate should contact the school of Engineering Co-op advisor.

ENGR 480 Engineering Design Clinic I (4 credits)
Serves as the first capstone course. Student design teams, under the direction of a faculty coordinator, will develop engineering solutions to practical, open-ended design projects conceived to demonstrate the value of prior basic science and engineering courses. Ethical, social, economic and safety issues in engineering practice will be considered as well.
Prerequisites: Either (ENGR 320 and 382) or (ENGR 331, 346, and 410)

ENGR 481 Engineering Design Clinic II (4 credits)
A continuation of ENGR 480 the application of engineering principles to the solution of real problems in an actual industrial setting. Student design teams will work under the direction of faculty advisers and industry liaisons. Opportunity will be provided for objective formulation, analysis, synthesis/build and evaluation/test of alternative solutions.
Prerequisite: ENGR 480
Engineering (ENGR) - School of Engineering

ENGR 483, 484 Seminar (2 credits)
ENGR 485, 486 Seminar (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

ENGR 487, 488 Topics (2 credits)
ENGR 489, 490 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.saintthomas.edu/pls/banner/prod/bwckschd.

ENGR 269, 389, 491 Research (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

ENGR 243, 393, 495 Individual Study (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.
The mission of the University of St. Thomas English Department is to foster empathy and imagination, critical insight, power of expression, and appreciation for the variety of human experience. We strive to create a community of readers and writers who value both tradition and innovation, and who understand literary art as a medium of moral reflection as well as aesthetic pleasure.

The Department of English offers three emphases.

1. The general major that allows students to take a variety of literature courses and to incorporate writing and cultural studies into their programs.
2. The writing emphasis that combines a foundation of literary study with a sequence of writing courses focused on poetry, fiction, and literary nonfiction.
3. The Minnesota teacher licensure program in Communication Arts and Literature that prepares students for teaching middle and secondary school. This program requires courses in linguistics, literature, writing, and writing pedagogy. It requires, therefore, early and careful planning. Students completing this program may complete a major in English.

The study of English helps students develop a broad range of practices that are valuable for a variety of career paths and life aspirations. Students graduating with a major in English will be able to write thoughtfully about literature and life, in forms that range from engaged responses, to close readings of primary texts, to critical papers using secondary resources. They will understand and practice writing as a process that involves substantial revision and be able to reflect thoughtfully upon the writing process that works best for them. They will be able to read sophisticated literary works with imagination and intelligence and will be able to respond critically to their empathic, ethical, and aesthetic dimensions.

The Major in English, the Major in English with Writing Emphasis, and the Major in English with a Teacher Education emphasis (5-12) consist of 44-credits each, including fulfillment of the core curriculum in literature and writing courses. The department offers courses for non-majors to fulfill the Literature and Writing component of the core curriculum and the Human Diversity requirement. English majors and minors are encouraged to study abroad. Specific courses taken abroad may substitute for St. Thomas requirements. See the chair of the department, a study abroad advisor in the International Education Center, or Academic Information & Programs in the front section of this catalog for program options.

English Honor Society
Sigma Tau Delta, the national English honor society, formed a chapter at St. Thomas in 1988. The honor society brings together students and faculty with a love of literature, language and writing; it sponsors a variety of scholarships, holds regional and national conventions, and provides a forum for both creative and critical writing. Students who have a grade point average of at least 3.0 in English courses, rank at least in the highest 35 percent of their class in general scholarship, and have completed at least three semesters of college are eligible to apply for membership.

Major in English

•ENGL 121: Critical Thinking: Literature and Writing

Plus one of:
•ENGL 201, 202, 203, or 204

Note: Students with qualifying ACT test scores may in enroll in one of ENGL 201 through 204 plus one of the following 4-credit literature courses in English:

In addition to the above core curriculum courses, students must also select courses that fulfill the following course level and area distribution requirements:

Course-Level Requirements
•At least 12 credits numbered ENGL 211-299
•At least 16 credits numbered ENGL 300-399

Note: 4 of these credits must be from ENGL 380 Issues in English Studies (4 credits)
•At least 4 credits numbered ENGL 400-499
English (ENGL)

Note: ENGL 481 Seminar in English (4 credits) is strongly recommended for all majors, especially those preparing for graduate or professional school

Plus:
• Four additional credits in English numbered 211 or above

Distribution Requirements

Four credits in Early Literature
• ENGL 211 British Authors I (4 credits)
• ENGL 214 American Authors I (4 credits)
• ENGL 220 The Classical Tradition (4 credits)
• ENGL 221 The Modern Tradition (4 credits)
• ENGL 324 Genre Studies (4 credits) (section 11 only)
• ENGL 325 Special Studies in Genre, Region, or Theme (4 credits) (section 11 only)
• ENGL 341 Literature by Women: Critical Questions (4 credits) (section 11 only)
• ENGL 360 Chaucer and the Medieval Period (4 credits)
• ENGL 361 Shakespeare and the Early Modern Period (4 credits)
• ENGL 362 Milton and Seventeenth-Century British Literature (4 credits)
• ENGL 364 Eighteenth-Century British Literature: The Age of Satire and the Novel (4 credits)
• ENGL 370 Colonial and Early-American Literature (4 credits)
• ENGL 371 Nineteenth-Century American Literature (4 credits)
• ENGL 390 Major Literary Figures (4 credits) (section 11 only)
• ENGL 395 Issues in Literature and Culture (4 credits) (section 11 only)

Four credits in American Literature
• ENGL 214 American Authors I (4 credits)
• ENGL 215 American Authors II (4 credits)
• ENGL 217 Multicultural Literature (4 credits) (section 21 only)
• ENGL 324 Genre Studies (4 credits) (section 21 only)
• ENGL 325 Special Studies in Genre, Region, or Theme (4 credits) (section 21 only)
• ENGL 337 The Literature of Human Diversity (4 credits) (section 21 only)
• ENGL 341 Literature by Women: Critical Questions (4 credits) (section 21 only)
• ENGL 370 Colonial and Early-American Literature (4 credits)
• ENGL 371 Nineteenth-Century American Literature (4 credits)
• ENGL 372 Modern American Literature (4 credits)
• ENGL 373 Contemporary American Literature (4 credits)
• ENGL 374 Issues in Literature and Culture (4 credits) (section 21 only)
• ENGL 395 Issues in Literature and Culture (4 credits) (section 21 only)

Four credits in British Literature
• ENGL 211 British Authors I (4 credits)
• ENGL 212 British Authors II (4 credits)
• ENGL 324 Genre Studies (4 credits) (section 31 only)
• ENGL 325 Special Studies in Genre, Region, or Theme (4 credits) (section 31 only)
• ENGL 341 Literature by Women: Critical Questions (4 credits) (section 31 only)
• ENGL 360 Chaucer and the Medieval Period (4 credits)
• ENGL 361 Shakespeare and the Early Modern Period (4 credits)
• ENGL 362 Milton and Seventeenth-Century British Literature (4 credits)
• ENGL 364 Eighteenth-Century British Literature: The Age of Satire and the Novel (4 credits)
• ENGL 365 The Romantic Age in Britain (4 credits)
• ENGL 366 The Victorian Age in Britain (4 credits)
• ENGL 367 Twentieth-Century British Literature (4 credits)
• ENGL 390 Major Literary Figures (4 credits) (section 31 only)
• ENGL 395 Issues in Literature and Culture (4 credits) (section 31 only)

Four credits in Diversity Literature
• ENGL 217 Multicultural Literature (4 credits)
• ENGL 218 Literature by Women: Critical History (4 credits)
• ENGL 297 Topics (4 credits) (section 61 only)
• ENGL 325 Special Studies in Genre, Region, or Theme (4 credits) (section 61 only)
• ENGL 337 The Literature of Human Diversity (4 credits)
• ENGL 341 Literature by Women: Critical Questions (4 credits)
• ENGL 390 Major Literary Figures (4 credits) (section 61 only)
• ENGL 395 Issues in Literature and Culture (4 credits) (section 61 only)

Four credits in Writing
• ENGL 251 Writing in the Academy (4 credits)
• ENGL 255 Introduction to Imaginative Writing: Writing Poetry, Fiction, and Creative Nonfiction (4 credits)
• ENGL 300 Theory and Practice of Writing (4 credits)
• ENGL 304 Analytical and Persuasive Writing (4 credits)
• ENGL 321 Writing Poetry (4 credits)
• ENGL 322 Writing Fiction (4 credits)
• ENGL 323 Writing Creative Nonfiction (4 credits)
• ENGL 326 Topics in Creative Writing (4 credits)
• ENGL 405 Advanced Poetry, Fiction, or Creative Nonfiction Writing (4 credits)

Four credits in Issues in English Studies
• ENGL 380 Issues in English Studies (4 credits)

All English majors should complete 44 credits in English and maintain a GPA of 2.0 in English. A minimum of 16 credits in English at or above ENGL 211 must be taken at St. Thomas.

**Major in English with Writing Emphasis**

• ENGL 121

Plus one of:
• ENGL 201, 202, 203, or 204

Note: Students with qualifying ACT test scores may enroll in one of ENGL 201 through 204 plus one of the following 4-credit literature courses in English:

In addition to the above core curriculum courses, students must also select courses that fulfill the following course level and area distribution requirements:

**Course-Level Requirements**
• At least 12 credits numbered ENGL 211-299
• At least 16 credits numbered ENGL 300-399

Note: 4 of these credits must be from ENGL 380 Issues in English Studies
• At least 4 credits numbered ENGL 400-499

Plus:
• Four additional credits numbered ENGL 211 or above

**Distribution Requirements**

Sixteen credits from the following writing courses:
• ENGL 251 Writing in the Academy (4 credits)
• ENGL 255 Introduction to Imaginative Writing: Writing Poetry, Fiction, and Creative Nonfiction (4 credits)
• ENGL 300 Theory and Practice of Writing (4 credits)
• ENGL 304 Analytical and Persuasive Writing (4 credits)
• ENGL 321 Writing Poetry (4 credits)
• ENGL 322 Writing Fiction (4 credits)
• ENGL 323 Writing Creative Nonfiction (4 credits)
• ENGL 326 Topics in Creative Writing (4 credits)
English (ENGL)
• ENGL 405 Advanced Poetry, Fiction, or Creative Nonfiction Writing (4 credits)
• ENGL 421 Literary Magazine Practicum, Part I (2 credits)
• ENGL 422 Literary Magazine Practicum, Part II (2 credits)

Note: The creative writing sequence normally includes:
• first – ENGL 255
• then – ENGL 321 and/or ENGL 322 and/or 323
• then – ENGL 405

Plus:

Twelve credits in literature to include:

Four credits in Early Literature
• ENGL 211 British Authors I (4 credits)
• ENGL 214 American Authors I (4 credits)
• ENGL 220 The Classical Tradition (4 credits)
• ENGL 221 The Modern Tradition (4 credits)
• ENGL 324 Genre Studies (4 credits) (section 11 only)
• ENGL 325 Special Studies in Genre, Region, or Theme (4 credits) (section 11 only)
• ENGL 341 Literature by Women: Critical Questions (4 credits) (section 11 only)
• ENGL 360 Chaucer and the Medieval Period (4 credits)
• ENGL 361 Shakespeare and the Early Modern Period (4 credits)
• ENGL 362 Milton and Seventeenth-Century British Literature (4 credits)
• ENGL 364 Eighteenth-Century British Literature: The Age of Satire and the Novel (4 credits)
• ENGL 370 Colonial and Early-American Literature (4 credits)
• ENGL 371 Nineteenth-Century American Literature (4 credits)
• ENGL 390 Major Literary Figures (4 credits) (section 11 only)
• ENGL 395 Issues in Literature and Culture (4 credits) (section 11 only)

Four credits in Diversity Literature
• ENGL 217 Multicultural Literature (4 credits)
• ENGL 218 Literature by Women: Critical History (4 credits)
• ENGL 297 Topics (4 credits) (section 61 only)
• ENGL 325 Special Studies in Genre, Region, or Theme (4 credits) (section 61 only)
• ENGL 337 The Literature of Human Diversity (4 credits)
• ENGL 341 Literature by Women: Critical Questions (4 credits)
• ENGL 360 Chaucer and the Medieval Period (4 credits)
• ENGL 361 Shakespeare and the Early Modern Period (4 credits)
• ENGL 362 Milton and Seventeenth-Century British Literature (4 credits)
• ENGL 364 Eighteenth-Century British Literature: The Age of Satire and the Novel (4 credits)
• ENGL 370 Colonial and Early-American Literature (4 credits)
• ENGL 371 Nineteenth-Century American Literature (4 credits)
• ENGL 390 Major Literary Figures (4 credits) (section 61 only)
• ENGL 395 Issues in Literature and Culture (4 credits) (section 61 only)

ENGL 380 Issues in English Studies (4 credits)

Four credits in another English course numbered 211 or above

All English with writing emphasis majors should complete 44 credits in English and maintain a GPA of 2.0 in English. A minimum of 16 credits in English at or above ENGL 211 must be taken at St. Thomas.

Major in English with a Teacher Education Emphasis (5-12)
• ENGL 121

Plus one of:
• ENGL 201, 202, 203, or 204

Note: Students with qualifying ACT test scores may in enroll in one of ENGL 201 through 204 plus one of the following 4-credit literature courses in English:
• ENGL 211 British Authors I (4 credits) or ENGL 212 British Authors II (4 credits)
• ENGL 214 American Authors I (4 credits) or ENGL 215 American Authors II (4 credits)
• ENGL 217 Multicultural Literature (4 credits) or ENGL 218 Literature by Women: Critical History (4 credits)
• ENGL 220 The Classical Tradition (4 credits) or ENGL 221 The Modern Tradition (4 credits)
• ENGL 300 Theory and Practice of Writing (4 credits)
• ENGL 305 Linguistics: English Language (4 credits)
• ENGL 361 Shakespeare and the Early Modern Period (4 credits)
• ENGL 380 Issues in English Studies (4 credits)

Four additional credits EITHER in English at the 300 or 400 level, or COJO 326 Modern American Rhetoric or COJO 328 Communication of Race, Class, and Gender

Students seeking licensure in Communication Arts and Literature (5-12) must also complete the following courses in Communication Studies: COJO 100, COJO 211, COJO 212, COJO 260, and the EDUC courses listed under Teacher Education for Communication Arts and Literature (5-12)*. See Education

Students seeking elementary licensure (K-6) may complete the standard English major, the English major with a Writing Emphasis, or the English major with a Teacher Education Emphasis. For a complete listing of requirements in the area, see Education.

*COJO 111, 326, and 328 are not required for licensure, but a student completing COJO 111 and either COJO 326 or 328 together with the COJO courses required for licensure will have also completed a minor in Communication and Journalism upon approval by the COJO department chair. To register for any of these courses without the prerequisite of COJO 111, please contact the instructor for permission to register.

LITERARY STUDIES

See Literary Studies

Minor in English

The minor in English consists of twenty-four credits:

ENGL 121

Plus one of:

ENGL 201, 202, 203, or 204

Note: Students with qualifying ACT test scores may in enroll in one of ENGL 201 through 204 plus one of the following 4-credit literature courses in English:

Eight credits numbered ENGL 211-299
Eight credits numbered ENGL 300-399

A minimum of eight credits in English at or above ENGL 211 must be taken at the University of St. Thomas.

ENGL 110 Intensive Writing (4 credits)

The course provides students with intensive practice in writing, enabling them to adapt to the demands of differing rhetorical contexts. Emphasis on understanding writing processes and learning to respond thoughtfully to writing at various stages. Critical reading will be practiced as an integral part of the writing process.

Prerequisite: participation in the Academic Development Program

ENGL 121 Critical Thinking: Literature and Writing (4 credits)

Students will read and write about literary texts critically and closely. The course emphasizes recursive reading and writing processes that encourage students to discover, explain, question and clarify ideas. To this end, students will study a variety of genres as well as terms and concepts helpful to close analysis of those genres. They will practice various forms of writing for specific audiences and purposes. Students will reflect on and develop critical awareness of their own strengths and weaknesses as readers and writers. The writing load for this course is a minimum of 12 pages of formal revised writing.
**English (ENGL)**

**Texts in Conversation Courses (ENGL 201-204)**

Students will develop their ability to read and write critically from a variety of perspectives with a specific focus. In these courses, students will read texts not only closely but also intertextually, understanding them in relationship to one another. They will develop reflective awareness of the process they use as readers and writers within a community. These courses emphasize how writing produced in the classroom engages a larger discourse community.

**ENGL 201 Texts in Conversation: Perspectives on Genre and Craft (4 credits)**

This course examines the conventions of, and developments within, a literary genre during a specific period or across literary history. It may also explore the particular choices made by writers working in several genres and the effects of those choices on us as readers. The course will examine both the conventions and innovations practiced by writers working within one or more genres or periods, and may include study of the authors’ reflections on their own work and the work of their fellow writers. The writing load for this course is a minimum of 15 pages of formal revised writing.

Prerequisite: ENGL 121

**ENGL 202 Texts in Conversation: Interdisciplinary Perspectives (4 credits)**

This course examines a body of literary texts in the framework of a discipline other than literary or English studies per se—e.g., the physical or social sciences, religion/theology, history, the other arts. The writing load for this course is a minimum of 15 pages of formal revised writing.

Prerequisite: ENGL 121

**ENGL 203 Texts in Conversation: Thematic and Intertextual Perspectives (4 credits)**

With its focus on thematic and intertextual perspectives, the readings in this course might be ordered any number of ways: according to theme, an idea that develops across genres or literary periods, or by their incorporation of specific oral or textual precedents (e.g. mythology, the Bible, classical writings, legends or folklore). The writing load for this course is a minimum of 15 pages of formal revised writing.

Prerequisite: ENGL 121

**ENGL 204 Texts in Conversation: Perspectives on Language, Culture, and Literacy (4 credits)**

This course examines artifacts of language and literature in their functions as social and cultural phenomena. The course will explore angles of analysis appropriate to the study of one or more of the following: everyday language, public rhetoric, or the various forms of mass and popular culture (film, music, blogging/texting). The course may also examine essential but critically contested concepts such as literacy, culture, or literature. The writing load for this course is a minimum of 15 pages of formal revised writing.

Prerequisite: ENGL 121

**ENGL 211 British Authors I (4 credits)**

This course will focus on extensive reading of a broad selection of British authors from the medieval period through the eighteenth century. Students will engage in close analysis of literary texts by such authors as Chaucer, Shakespeare, Donne, Milton, and Behn, with some attention to historical and cultural contexts.

Prerequisites: ENGL 201, 202, 203, or 204

**ENGL 212 British Authors II (4 credits)**

This course will focus on extensive reading of a broad selection of British authors from Romanticism to the present. Students will engage in close analysis of literary texts by such authors as Blake, Wordsworth, Tennyson, Conrad, and Woolf, with some attention to historical and cultural contexts.

Prerequisites: ENGL 201, 202, 203, or 204

**ENGL 214 American Authors I (4 credits)**

The study of significant American authors from the beginnings of American literature to the turn of the twentieth century. This survey course will consider the diverse literary, cultural, and historical contexts from which the American literary tradition has arisen. Possible authors studied include Hawthorne, Douglass, Jacobs, Fuller, Dickinson, Clemens, Jewett, Cooper, Wheatley, Whitman, and Native American voices.

Prerequisites: ENGL 201, 202, 203, or 204

**ENGL 215 American Authors II (4 credits)**

The study of significant American authors from the turn of the century to the present. This survey course will consider the diverse literary, cultural, and historical contexts from which the American literary tradition has been formed. Possible authors studied include Hemingway, Faulkner, Hurston, Wright, Morrison, Cather, Wharton, Rich, and O’Neill.

Prerequisites: ENGL 201, 202, 203, or 204
ENGL 217 Multicultural Literature (4 credits)
This course will focus on extensive reading of a broad selection of authors drawn from the literature of one of the following: (a) American communities of color; (b) postcolonial peoples; (c) diasporic peoples. Students will engage in close analysis of literary texts from at least one such literary tradition, with some attention to historical and cultural contexts. This course fulfills the Human Diversity requirement in the core curriculum.
Prerequisites: ENGL 201, 202, 203, or 204

ENGL 218 Literature by Women: Critical History (4 credits)
This course will focus on the history of literature by women. It will concentrate on the traditions in Britain and America, but also will include some attention to non-Western women writers. It will address issues of canon formation as well as the role of gender in the composition and reading of literary texts. This course fulfills the Human Diversity requirement in the core curriculum.
Prerequisites: ENGL 201, 202, 203, or 204

ENGL 220 The Classical Tradition (4 credits)
This course will focus on representative texts of Western literature in translation, from the origins of Greek literature through Early Modern Europe. Authors may include Homer, Sappho, Aeschylus, Sophocles, Virgil, Ovid, Dante, and Marie de France.
Prerequisites: ENGL 201, 202, 203, or 204

ENGL 221 The Modern Tradition (4 credits)
This course will focus on representative texts of Western literature in translation from the seventeenth century through the present, including some attention to the interactions of the European traditions with modern African, Latin American or Asian literatures. Authors may include Racine, Goethe, Flaubert, Dostoevsky, Sand, and Achebe.
Prerequisites: ENGL 201, 202, 203, or 204

ENGL 222 The Catholic Literary Tradition: Medieval to Modern (4 credits) (equivalent to CATH 222)
This course surveys literary works with theological or spiritual themes that have contributed to the vitality of Catholic culture. The purpose of the course is to help students realize that Catholic culture has fostered a variety of literary expressions and has produced works that speak compellingly of human experience and sacramental life.
Prerequisites: ENGL 201, 202, 203, or 204

ENGL 251 Writing in the Academy (4 credits)
This course focuses on principles of effective academic writing. Attention will be paid to strategies for development, patterns of organization, and rhetorical concerns such as voice, audience, purpose and style. Students will consider conventions of academic discourse, both as they are shared and as they vary across disciplines.
Prerequisites: ENGL 201, 202, 203, or 204

ENGL 255 Introduction to Imaginative Writing: Writing Poetry, Fiction, and Creative Nonfiction (4 credits)
This course introduces students to skills necessary for imaginative writing. It includes close readings of literary texts that model basic techniques, weekly writing exercises that encourage exploration and development of craft, and workshop discussions to develop students’ critical skills. This course will include instruction in setting, character, voice, point of view, literal and figurative imagery, rhythm and sound patterns, and literary structures.
Prerequisites: ENGL 201, 202, 203, or 204

ENGL 295, 296 Topics (2 credits)
ENGL 297, 298 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online or the English Department website.
Prerequisites: ENGL 201, 202, 203, or 204

ENGL 300 Theory and Practice of Writing (4 credits)
Working from a base of contemporary rhetorical theory, advanced writing students will write essays in a variety of forms. They will be encouraged to develop a vocabulary for talking about writing, as well as the ability to critique their own and others’ work. Directed reading in contemporary writing pedagogy for the elementary and secondary composition teacher. Required for secondary licensure in communication arts and literature students.
Prerequisites: ENGL 201, 202, 203, or 204; advanced writing skills

ENGL 304 Analytical and Persuasive Writing (4 credits) (formerly 403)
Intended for the experienced writer, this course will emphasize the theory and practice of writing in analytical, persuasive and research-based rhetorical modes as preparation for advanced or professional writing in a variety of disciplines.
Prerequisite: ENGL 201, 202, 203, or 204.
**English (ENGL)**

**ENGL 305 Linguistics: English Language (4 credits)**
The study of the historical, structural, and semantic features of the English language; systems of English grammar. Required for secondary licensure in communication arts and literature students.
Prerequisites: ENGL 201, 202, 203, or 204

**ENGL 321 Writing Poetry (4 credits)**
This intermediate course explores traditional and innovative patterns of poetry writing. Emphasis on experimentation with a variety of techniques and development of individual voice. This course will include critique sessions, readings to broaden possibilities of form and subject, and individual instruction. Open to students with some previous experience in writing poetry.
Prerequisite: ENGL 255 or permission of instructor.

**ENGL 322 Writing Fiction (4 credits)**
This intermediate course explores traditional and innovative patterns of fiction writing. Emphasis on experimentation with a variety of techniques and development of individual voice. This course will include critique sessions, readings to broaden possibilities of form and subject, and individual instruction.
Prerequisite: ENGL 255 or permission of instructor.

**ENGL 323 Writing Creative Nonfiction (4 credits)**
This intermediate course explores traditional and innovative patterns of creative nonfiction writing. Emphasis on experimentation with a variety of techniques and development of individual voice. This course will include critique sessions, readings to broaden possibilities of form and subject, and individual instruction.
Prerequisites: ENGL 255 or permission of instructor

**ENGL 324 Genre Studies (4 credits)**
This course will examine genre as an ordering principle in the study of literature. The particular genres to be studied will vary from year to year, namely, prose fiction, nonfiction prose, drama, and poetry. Credit may be earned more than once under this number for different emphases.
Prerequisites: ENGL 201, 202, 203, or 204

**ENGL 325 Special Studies in Genre, Region, or Theme (4 credits)**
This course will offer an intensive focus on a body of literature defined by its association with a special genre, locale, or theme. Such specialized topics as the epic poem, contemporary autobiography, Minnesota literature, or Genesis in literature might be studied. Students will also consider relevant critical approaches and issues. Credit may be earned more than once under this number for different emphases.
Prerequisites: ENGL 201, 202, 203, or 204

**ENGL 326 Topics in Creative Writing (4 credits)**
This intermediate course explores traditional and innovative topics and forms of imaginative writing. Emphasis on experimentation with a variety of techniques and development of literary voices. The focus of genre and writing for each section offered will vary. Some examples of possible topics include Postmodern Poetry Forms, Writing Magical Realism, Contemporary Autobiography, and Submersion Journalism. This course will include peer review, readings to broaden possibilities of form and subject, and individual instruction.
Prerequisites: ENGL 255 or permission of the instructor

**ENGL 334 Literature from a Christian Perspective (4 credits) (equivalent to CATH 334)**
This course examines methods of reading and literary texts from a Christian perspective. The general question of the course is, “how does a reader engage works of imaginative literature from an intellectually serious Christian perspective?” The course studies works of criticism representing a variety of Christian viewpoints and applies them to literary texts that are explicitly Christian in theme as well as those which invite, or are enriched by, a Christian perspective.
Prerequisites: ENGL 201, 202, 203, or 204

**ENGL 337 The Literature of Human Diversity (4 credits)**
Offered with specific subtitles, this course provides an intensive focus on a selected body of literature concerning one of the following aspects of human diversity: race, ethnicity, class, gender, sexual orientation. Students will also consider relevant critical approaches and concepts. Credit may be earned more than once under this number for different emphases. This course fulfills the Human Diversity requirement in the core curriculum.
Prerequisites: ENGL 201, 202, 203, or 204
ENGL 341 Literature by Women: Critical Questions (4 credits)
This course will offer an in-depth study of selected women’s writing, organized by period, genre, or theme. In any particular semester, the course might focus, for example, on 18th century women writers, contemporary women poets or marriage in women’s literature. The texts will be approached with regard to questions of canon formation, women’s history, and cultural constructions of gender. Credit may be earned more than once under this number for different emphases. This course fulfills the Human Diversity requirement in the core curriculum.
Prerequisites: ENGL 201, 202, 203, or 204

ENGL 360 Chaucer and the Medieval Period (4 credits)
This course offers an intensive focus on the literature and culture of the medieval period. Such authors as the Pearl poet, medieval dramatists, and Malory will provide a context for reading Chaucer’s Canterbury Tales. Critical approaches and issues will also be studied.
Prerequisites: ENGL 201, 202, 203, or 204

ENGL 361 Shakespeare and the Early Modern Period (4 credits)
This course offers an intensive focus on the literature and culture of the English early modern period. Such authors as Sidney, Spenser, Elizabeth I and Cary will provide a context for reading Shakespeare’s works. Critical approaches and issues will also be studied.
Prerequisites: ENGL 201, 202, 203, or 204

ENGL 362 Milton and Seventeenth-Century British Literature (4 credits)
This course offers an intensive focus on the literature and culture of the British seventeenth century. Such authors as Donne, Lanyer, Wroth and Herbert will provide a context for reading Milton’s Paradise Lost. Critical approaches and issues will also be studied.
Prerequisites: ENGL 201, 202, 203, or 204

ENGL 364 Eighteenth-Century British Literature: The Age of Satire and the Novel (4 credits)
This course offers an intensive focus on the literature and culture of eighteenth-century Britain. Such authors as Pope, Swift, Burney, and Johnson will be studied, along with critical approaches and issues relevant to the period.
Prerequisites: ENGL 201, 202, 203, or 204

ENGL 365 The Romantic Age in Britain (4 credits)
This course offers an intensive focus on the literature and culture of the Romantic Age in Britain. Such authors as Austen, Blake, Wolstonecraft, Byron, and the Shelleys will be studied, along with critical approaches and issues relevant to the period.
Prerequisites: ENGL 201, 202, 203, or 204

ENGL 366 The Victorian Age in Britain (4 credits)
This course offers an intensive focus on the literature and culture of the Victorian Age in Britain. Such authors as Tennyson, the Brownings, the pre-Raphaelites, Dickens, and Eliot will be studied. Special attention will be paid to the historical context, as well as to relevant critical approaches and issues.
Prerequisites: ENGL 201, 202, 203, or 204

ENGL 367 Twentieth-Century British Literature (4 credits)
This course offers an intensive focus on select aspects of the literature and culture of twentieth-century Britain. Such authors as Woolf, Joyce, Eliot, Lessing, and Walcott will be studied, along with critical approaches and issues relevant to the period.
Prerequisites: ENGL 201, 202, 203, or 204

ENGL 370 Colonial and Early-American Literature (4 credits)
This course offers an intensive focus on selected aspects of American literature from its beginnings to approximately 1820. Attention will be given to the diverse literary, cultural, and historical contexts of the literature being studied, as well as to relevant critical approaches and issues. Possible authors studied include Bradstreet, Franklin, Wheatley, Irving, Native American voices.
Prerequisites: ENGL 201, 202, 203, or 204

ENGL 371 Nineteenth-Century American Literature (4 credits)
This course offers an intensive focus on selected aspects of American literature from the early Romantic movement (approximately 1820) to the turn of the twentieth century. Attention will be given to the diverse literary, cultural, and historical contexts that inform the literature being studied, as well as to relevant critical approaches and issues. Possible authors studied include Emerson, Fuller, Douglass, Clemens, Dickinson.
Prerequisites: ENGL 201, 202, 203, or 204
English (ENGL)

ENGL 372 Modern American Literature (4 credits)
This course offers an intensive focus on selected aspects of American literature of the first half of the twentieth century, from approximately 1900 to 1945. Attention will be given to the diverse literary, cultural, and historical contexts that inform the literature being studied, as well as to relevant critical approaches and issues. Possible authors studied include Hemingway, Faulkner, Hurston, Eliot, Wharton, O’Neill.
Prerequisites: ENGL 201, 202, 203, or 204

ENGL 373 Contemporary American Literature (4 credits)
This course offers an intensive focus on selected aspects of American literature from approximately 1945 to the present. Attention will be given to the diverse literary, cultural, and historical contexts that inform the literature being studied, as well as to relevant critical approaches and issues. Possible authors studied include Erdrich, Morrison, Bellow, Ginsberg, Tennessee Williams, Adrienne Rich.
Prerequisites: ENGL 201, 202, 203, or 204

ENGL 380 Issues in English Studies (4 credits)
This course focuses on ideas and practices central to advanced work in the field of language and literature. In addition to refining students’ facility with critical concepts and scholarly methodology, this course will explore a number of key questions for current work in the discipline: How do we define such concepts as literacy, literature, and interpretation? How do we understand the relationship between reader, writer, and text? How do such factors as gender, culture, and history affect our understanding of literature and of ourselves as writers and readers?
Prerequisites: ENGL 201, 202, 203, or 204; at least two courses in ENGL at or beyond ENGL 211

ENGL 390 Major Literary Figures (4 credits)
This course will study a significant body of work by a major writer or pair of writers. Typical offerings: Jane Austen, Charles Dickens, Hawthorne and Melville, T.S. Eliot. Credit may be earned more than once under this number for different emphases.
Prerequisites: ENGL 201, 202, 203, or 204

ENGL 395 Issues in Literature and Culture (4 credits)
This course offers an intensive focus on a selected body of literature in relation to some significant “extraliterary” context, e.g., history, popular culture, other disciplines, other arts. The course will emphasize critical approaches and issues appropriate to this focus. The content of this course will vary from semester to semester. Some sections of this course may fulfill the Human Diversity requirement in the core curriculum.
Prerequisites: ENGL 201, 202, 203, or 204

ENGL 405 Advanced Poetry, Fiction, or Creative Nonfiction Writing (4 credits)
This advanced course will focus on the students development of a substantial body of work in a chosen genre: poetry, fiction, or creative nonfiction. Students will review their previous writing, do further exploration of a chosen genre, and produce significant new work in that genre. Reading will include theoretical and creative texts.
Prerequisite: ENGL 321 or 322 or 323 or permission of instructor based on examination of a portfolio.

ENGL 411 Criticism of Literature (4 credits)
Study in theoretical and applied literary criticism. Particular authors and works are closely examined in relation to various critical systems.
Prerequisites: ENGL 201, 202, 203 or 204 and 380

ENGL 421 and 422 Literary Magazine Practicum, Parts I and II
In this sequence of two, two-credit courses, participants will study the history and character of literary magazines from 1912 to the present, learn desktop publishing and Web design, and apply their knowledge to editing the university’s literary and visual arts magazine. The two courses are integrated and mutually dependent on each other; ENGL 421 is an absolute prerequisite for ENGL 422.

ENGL 421 Literary Magazine Practicum, Part I (2 credits)
Activities during the fall semester of the sequence include readings from The Little Magazine: A History and Bibliography and The Little Magazine in America: A Modern Documentary History; examining the design and content of fifteen professional literary magazines; learning InDesign CS5 desktop publishing program; providing design and layout for the COMPAS Arts Education Program anthology; creating preliminary Summit Avenue Review page designs; working collaboratively with other literary magazine editors to develop selection procedures and principles; and writing a comparison essay on two professional literary magazines.
Prerequisite: Previous or concurrent enrollment in ENGL 321 or 322 or 323 or instructor permission.

ENGL 422 Literary Magazine Practicum, Part II (2 credits)
The spring semester component of the sequence includes readings from The Art of Literary Editing; active involvement with other editors in the selection process; learning and applying principles of literary copyediting; using desktop publishing to produce the
new edition of Summit Avenue Review, from the creation of style sheets and master pages to final proofreading; writing a reflection essay on the editing process as you experienced it; examining the design and content of five professional literary magazine web sites; learning the Dreamweaver web design program; and managing the Summit Avenue Review web site.
Prerequisites: ENGL 421

ENGL 450 Advanced Literary Studies (4 credits)
This advanced course will focus on a closely defined group of literary and critical texts. Students will be asked to synthesize as they read and write, using extensive critical analysis to integrate their experience of literary texts with relevant critical insights and ongoing scholarship. Students will also be expected to take part in and lead discussion, and to write a substantial critical essay.
Prerequisites: completion of five English courses beyond the literature and writing core curriculum requirements including ENGL 380. Open to limited undergraduate student enrollment by permission of instructor and the graduate program director.

ENGL 475, 476 Experiential Learning (2 credits)
ENGL 477, 478 Experiential Learning (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

ENGL 481 Seminar in English (4 credits)
A seminar focused on the study of an issue or problem of literary significance. Through discussion and intensive reading, the seminar will consider common texts pertinent to an English major’s whole curriculum. Each student will execute and present a substantial critical or interpretive essay.
Prerequisites: completion of five English courses at or beyond ENGL 211, including ENGL 380; or, for non-majors, permission of the instructor and the department chair.

ENGL 483, 484 Seminar (2 credits)
ENGL 485, 486 Seminar (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

ENGL 487, 488 Topics (2 credits)
ENGL 489, 490 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online or the English Department website.
Prerequisites: ENGL 201, 202, 203, or 204

ENGL 269, 389, 491 Research (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

ENGL 243, 393, 495 Individual Study (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.
Prerequisites: ENGL 201, 202, 203, or 204
Environmental science is an interdisciplinary science program focused on solving environmental problems that lie at the interface between biology, chemistry, and geology. Students participate in one of three concentrations (biology, chemistry, or geology) leading to the Bachelor of Science degree, each of which contains substantial coursework from each of these disciplines. This program provides excellent preparation for students wishing to pursue graduate degrees in conservation biology, environmental science, earth system science, or other environmentally-focused programs of study in the sciences. It also provides solid preparation for students planning other types of environmental careers, such as environmental consulting, law, policy, or research.

Students entering this program should contact the program director or a committee member. Each student will be assigned an adviser appropriate to the concentration that they choose for their course of study.

**Major in Environmental Science: Concentration in Biology (B.S.)**

ESCI 310 Environmental Problem Solving (4 credits)
ESCI 430 Senior Research Seminar (4 credits)

**Biology courses (24 credits):**
- BIOL 207 Genetics, Ecology, and Evolution (4 credits)
- BIOL 208 Biological Communication and Energetics (4 credits)
- BIOL 209 Biology of Sustainability (4 credits)
- BIOL 333 Ecology (4 credits) or BIOL 335 Conservation Biology (4 credits)
- BIOL 435 Aquatic Biology (4 credits) or BIOL 486 Environmental Physiology (4 credits)

**Plus:**
Four additional BIOL credits at the 300-level, selected in consultation with the academic adviser. BIOL 211, or Individual Study or Research courses in biology, may be substituted for this requirement with prior approval of the academic adviser.

**Engineering course (4 credits):**
ENGR 123 Energy and the Environment (4 credits)

**Geology courses (8 credits):**
- GEOL 115 Environmental Geology (4 credits) or GEOL 162 Earth’s Record of Climate (4 credits)
- GEOL 211 Earth Materials (4 credits) or GEOL 252 Geomorphology (4 credits) or GEOL 260 Regional Geology and Geological Field Methods (4 credits)

**Chemistry courses (8-12 credits):**
- CHEM 111 General Chemistry I (4 credits) and CHEM 112 General Chemistry II (4 credits)
  or CHEM 115 Accelerated General Chemistry (4 credits)
- CHEM 201 Organic Chemistry I (4 credits)

**Mathematics courses (4-8 credits):**
- MATH 108 Calculus with Review I (4 credits) and MATH 109 Calculus with Review II (4 credits)
  or MATH 113 Calculus I (4 credits)

**Statistics course (4 credits):**
- STAT 220 Statistics I (4 credits) or MATH 303 Statistics for the Applied Sciences (4 credits)

**Humanities and Policy/Economics courses (choose two of the following) (8 credits):**
- ECON 370 Environmental and Natural Resource Economics (4 credits)
- ENVR 212 Society and Sustainability (4 credits)
- ENVR 301 Environmental Ethics (4 credits) or PHIL 358 Environmental Ethics (4 credits)
- ENVR 351 Environmental Policy (4 credits) or POLS 316 Environmental Policy (4 credits)

**NOTE:** Additional coursework in geographic information systems, environmental policy, economics, law, etc would lead to an even
stronger degree program. ESCI and ENVR affiliated faculty can provide suggestions for additional courses, co-majors, and/or minors that might be applicable. Students pursuing graduate degrees in environmental science are strongly encouraged to take introductory physics courses (PHYS 111 and 112).

**Major in Environmental Science: Concentration in Chemistry (B.S.)**

ESCI 310 Environmental Problem Solving (4 credits)

ESCI 390 Senior Research Seminar (4 credits)

**Chemistry courses (20-24 credits):**

CHEM 111 General Chemistry I (4 credits) and CHEM 112 General Chemistry II (4 credits)

or CHEM 115 Accelerated General Chemistry (4 credits)

CHEM 201 Organic Chemistry I (4 credits)

CHEM 300 Quantitative analysis (4 credits)

**Plus eight credits from the following:**

CHEM 202 Organic Chemistry II (4 credits)

CHEM 320 Instrumental Analysis (4 credits)

CHEM 331 Chemical Thermodynamics and Reaction Dynamics (4 credits)

CHEM 332 Quantum Chemistry and Molecular Spectroscopy (4 credits)

CHEM 440 Biochemistry I (4 credits)

**Engineering course (4 credits):**

ENGR 123 Energy and the Environment (4 credits)

**Biology courses (8 credits):**

BIOL 207 Genetics, Ecology, and Evolution (4 credits)

BIOL 208 Biological Communication and Energetics (4 credits)

**Geology courses (8 credits):**

GEOL 115 Environmental Geology (4 credits) or GEOL 162 Earth’s Record of Climate (4 credits)

GEOL 211 Earth Materials (4 credits) or GEOL 252 Geomorphology (4 credits) or GEOL 260 Regional Geology and Geological Field Methods (4 credits)

**Mathematics courses (4-8 credits):**

MATH 108 Calculus with Review I (4 credits) and MATH 109 Calculus with Review II (4 credits)

or

MATH 113 Calculus I (4 credits)

**Humanities and Policy/Economics courses (choose two of the following) (8 credits):**

ECON 370 Environmental and Natural Resource Economics (4 credits)

ENVR 212 Society and Sustainability (4 credits)

ENVR 301 Environmental Ethics (4 credits) or PHIL 358 Environmental Ethics (4 credits)

ENVR 351 Environmental Policy (4 credits) or POLS 316 Environmental Policy (4 credits)

**Plus eight credits from the following (it is strongly recommended that one of these courses be a field-based course):**

BIOL 211 Introduction to field research (4 credits)

BIOL 333 Ecology (4 credits)

BIOL 335 Conservation Biology (4 credits)

CHEM 491, 492 Research (4 credits)

GEOL 260 Regional Geology and Geological Field Methods (4 credits)

GEOL 310 Environmental Geochemistry (4 credits)

GEOL 410 Hydrogeology (4 credits)

STAT 220 Statistics I (4 credits)

**NOTE:** PHYS 111 or 112 and MATH 114 are required for those who wish to take CHEM 331 or CHEM 332 as a part of their chemistry coursework. Additional coursework in geographic information systems, environmental policy, economics, law, etc would lead to an even stronger degree program. ESCI and ENVR affiliated faculty can provide suggestions for additional courses, co-majors, and/or minors that might be applicable. Students pursuing graduate degrees in environmental science are strongly encouraged to take introductory physics courses (PHYS 111 and 112).

</table>

**NOTE:** Additional coursework in geographic information systems, environmental policy, economics, law, etc would lead to an even stronger degree program. ESCI and ENVR affiliated faculty can provide suggestions for additional courses, co-majors, and/or minors that might be applicable. Students pursuing graduate degrees in environmental science are strongly encouraged to take introductory physics courses (PHYS 111 and 112).

#### ESCI 310 Environmental Problem Solving (4 credits)

This course explores methods of solving environmental problems. These problems are by nature, interdisciplinary and are rarely addressed in a substantive fashion in traditional science textbooks. In this course, students and faculty work together to develop a working model of a critical earth system or biogeochemical cycle (i.e. the carbon or nitrogen cycle), and learn how to make calculations of human-induced changes to that system. Students from all concentrations of the environmental science major will work together on this interdisciplinary research project using modeling and systems analysis software to more fully understand specific environments and the quantitative methods of assessing challenges to those environments. This course should be taken by all ESCI students during their junior year.

Prerequisite: Environmental Science majors should have completed BIOL 204 or BIOL 209, CHEM 201, or GEOL 211/252. Environmental Studies (ENVR) majors that wish to take this course need to have completed one course each from BIOL, CHEM and GEOL.

#### ESCI 430 (previously 390) Senior Research Seminar (4 credits)

This course is designed to fulfill the senior capstone experience in Environmental Science as it brings together students from all of the environmental science concentrations (biology, chemistry, and geology) to complete interdisciplinary research projects. In the se-
mester prior to the course offering, Environmental Science majors, in consultation with their faculty advisers and the course instructor, will develop a research project that they will complete as part of this course. Students may also choose to more fully develop a research project in which they have been participating or propose a service-learning or community-based project. Furthermore, groups of students could propose to perform an interdisciplinary project. The format of this research is intentionally open-ended because it is meant to provide flexibility and choice to the students and the course instructor. Student-led seminars on topics of the students’ choosing will comprise most weekly meetings, along with updates on research progress and a final presentation to the St. Thomas community on the outcome of the student’s research projects. This course should be completed in the final Spring semester prior to graduation.

Prerequisite: ESCI 310 or permission of instructor; at least one ENVR course.

ENVIRONMENTAL STUDIES (ENVR)
College of Arts and Sciences, Interdisciplinary Program
John Roach Center for the Liberal Arts (JRC) LL56, (651) 962-5046
Amel (PSYC), program director; Environmental Studies Committee: Anthoney (THEO), Dahmus (ENVR), Emmbs (BIOL), Hoffman (POLS), Kay (ESCI), Lamb (GEOL), Laumakis (PHIL), Lorah (GEOG), Wammer (CHEM),

The Environmental studies program provides students with a broad interdisciplinary background as well as a basis for career specialization and practical application and problem solving. The program is based upon an investigation both of the Earth’s environment and the wide variety of human interactions with that environment.

The program has three basic objectives:
1. to transmit an understanding of environmental problems and their complexities,
2. to motivate productive responses to those problems, both vocational and avocational, based on that understanding, and
3. to foster the development of critical, inquiring minds.

All students majoring in Environmental studies are required to take 36 credits in core courses, another 24 credits in concentration-area courses, and four credits in an allied course. The core courses are designed to provide the student with a foundation in the physical, social and ethical dimensions of environmental issues. Students graduating with a major in environmental studies will demonstrate their ability to integrate their liberal arts and professionally-oriented education. Students are encouraged, but not required, to take additional courses in writing and computer applications, and should consult the chair of the Environmental Studies Committee for recommendations.

The concentration area consists of a minimum of an additional 24 credits beyond the core. These courses are meant to deepen the student’s understanding of the origin and complexity of environmental issues while focusing attention on one particular area of study (e.g., engineering, math, journalism, justice & peace, geology, English, sociology, etc.).

The student may
a. choose to specialize in an existing area of study or
b. may propose an individually designed concentration program.

In either case, students are required to submit a 6-course Concentration Area Proposal to the Governance Committee for approval. Students are strongly encouraged to discuss the formation of their concentration area with the director of the program or another member of the Governance Committee. Committee members can assist students in constructing successful concentration area proposals. Students are encouraged to identify their concentration area by the end of their sophomore year or the first semester of their junior year.

Major in Environmental Studies: Concentration Area in Social Science, Business, or Humanities
ENVR 151 Environmental Challenges and Sustainable Solutions (4 credits)
ENVR 212 Society and Sustainability (4 credits)
ENVR 301 Environmental Ethics (4 credits)
ENVR 351 Environmental Policy Formation (4 credits)
ENVR 401 Field Seminar (4 credits)

Plus:
BIOL 102 Conservation Biology (4 credits)
CHEM 101 Environmental Chemistry (4 credits)
GEOL 115 Environmental Geology (4 credits each)

Plus four additional credits from BIOL, CHEM, GEOL or ENGR as determined in consultation with the program director.
Environmental Studies (ENVR)

Plus four credits from the following:
- MATH 303 Statistics for the Applied Sciences (4 credits)
- STAT 220 Statistics I (4 credits)

Plus:
- Six courses in a Concentration area determined in consultation with the program director. ESCI 310 is highly recommended.

Major in Environmental Studies: Concentration Area in the Natural Sciences

Given that students electing to major in Environmental Studies with a concentration in Natural Science often double major in either Biology, Chemistry or Geology, we recommend that you seek the advice of your advisor as soon as possible to maximize the synergy of requirements between the two majors.

Concentration in Biology

ENVR 151 Environmental Challenges and Sustainable Solutions (4 credits)
ENVR 212 Society and Sustainability (4 credits)
ENVR 301 Environmental Ethics (4 credits)
ENVR 351 Environmental Policy Formation (4 credits)
ENVR 401 Field Seminar (4 credits)

Plus:
- BIOL 207 Genetics, Ecology and Evolution (4 credits)
- CHEM 111 General Chemistry I (4 credits)
- GEOL 115 Environmental Geology (or 110, 111, 114, 162, or 260) (4 credits)

Plus one additional non-natural-science course from the following:
- BLAW 351 Environmental Law (4 credits)
- COJO 372 Environmental Communication (4 credits)
- ECON 370 Environmental and Natural Resource Economics (4 credits)
- ENGR 123 Energy and the Environment (4 credits)
- GEOG 331 Conservation Geography (4 credits)
- PSYC 490 Eco-Psychology (4 credits)
- PSYC 490 Conservation Psychology (4 credits)
- THEO 459 Theology & the Environment
- Or other option with prior approval of the program director

Plus four credits from the following:
- STAT 220 Statistics I (4 credits)
- MATH 303 Statistics for the Applied Sciences (4 credits)

Plus:
- Six course concentration in Biology (courses must be BIOL 208 or above) determined in consultation with the program director. ESCI 310 is highly recommended.

Concentration in Chemistry

ENVR 151 Environmental Challenges and Sustainable Solutions (4 credits)
ENVR 212 Society and Sustainability (4 credits)
ENVR 301 Environmental Ethics (4 credits)
ENVR 351 Environmental Policy Formation (4 credits)
ENVR 401 Field Seminar (4 credits)

Plus:
- BIOL 102 Conservation Biology (4 credits)
- CHEM 111 General Chemistry I (4 credits)
- GEOL 115 Environmental Geology (or 110, 111, 114, 162, or 260) (4 credits)

Plus one additional non-natural-science course from the following:
- BLAW 351 Environmental Law (4 credits)
- COJO 372 Environmental Communication (4 credits)
- ECON 370 Environmental and Natural Resource Economics (4 credits)
ENGR 123 Energy and the Environment (4 credits)
GEOG 331 Conservation Geography (4 credits)
PSYC 490 Eco-Psychology (4 credits)
PSYC 490 Conservation Psychology (4 credits)
THEO 459 Theology & the Environment (4 credits)
Or other option with prior approval of the program director

Plus four credits from the following:
STAT 220 Statistics I (4 credits)
MATH 303 Statistics for the Applied Sciences (4 credits)

Plus:
Six course concentration in Chemistry determined in consultation with the program director. ESCI 310 is highly recommended

Concentration in Geology
ENVR 151 Environmental Challenges and Sustainable Solutions (4 credits)
ENVR 212 Society and Sustainability (4 credits)
ENVR 301 Environmental Ethics (4 credits)
ENVR 351 Environmental Policy Formation (4 credits)
ENVR 401 Field Seminar (4 credits)

Plus:
BIOL 102 Conservation Biology (4 credits)
CHEM 101 Environmental Chemistry (4 credits)
GEOL 115 Environmental Geology (or 110, 111, 114, or 162) (4 credits)

Plus one additional non-natural-science course from the following:
BLAW 351 Environmental Law (4 credits)
COJO 372 Environmental Communication (4 credits)
ECON 370 Environmental and Natural Resource Economics (4 credits)
ENGR 123 Energy and the Environment (4 credits)
GEOG 331 Conservation Geography (4 credits)
PSYC 490 Eco-Psychology (4 credits)
PSYC 490 Conservation Psychology (4 credits)
THEO 459 Theology & the Environment (4 credits)
Or other option with prior approval of the program director

Plus four credits from the following:
STAT 220 Statistics I (4 credits)
MATH 303 Statistics for the Applied Sciences (4 credits)

Plus:
Six course concentration in Geology determined in consultation with the program director. GEOL 260 and ESCI 310 are highly recommended

**Minor in Environmental Studies**
ENVR 151 Environmental Challenges and Sustainable Solutions (4 credits)
ENVR 212 Society and Sustainability (4 credits)
ENVR 301 Environmental Ethics (4 credits)
ENVR 351 Environmental Policy Formation (4 credits)

Plus one additional environmentally-related course from the following:
BLAW 351 Environmental Law (4 credits)
COJO 372 Environmental Communication (4 credits)
ECON 370 Environmental and Natural Resource Economics (4 credits)
ENGR 123 Energy and the Environment (4 credits)
GEOG 331 Conservation Geography (4 credits)
PSYC 490 Eco-Psychology (4 credits)
PSYC 490 Conservation Psychology (4 credits)
THEO 459 Theology & the Environment (4 credits)
Environmental Studies (ENVR)
Or other option with prior approval of the program director

ENVR 151 Environmental Challenges and Sustainable Solutions (4 credits)
A study of the interaction of humans and the environment over time and space; a broad introduction that integrates a variety of social-science perspectives into an understanding of the environment and the relations between humans and nature. Specific topics include ecology, population, economic development, resources and sustainable development.

ENVR 212 Society and Sustainability (4 credits)
An emphasis on the ways in which people have created, and attempted to solve, environmental problems in different cultural and historical contexts. Examines the roles of the entire spectrum of actors and human communities, including individuals, families, groups and formal organizations, neighborhoods, cities and nations. Students examine how individual dynamics (such as altruism and economic self-interest) and collective dynamics (such as competition, cohesion, social definitional processes and global interdependence) direct humans in their interactions with the environment.

ENVR 295, 296 Topics (2 credits)
ENVR 297, 298 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

ENVR 301 Environmental Ethics (4 credits) (equivalent to PHIL 358)
Consideration of the ethical issues arising from human interaction with the environment, including population pressure, pollution, conservation and preservation. Focus on the grounds of our obligation to resolve such issues; the question of what persons and things are worthy of moral consideration; and the respective roles of individuals, organizations and government in addressing environmental problems. Case studies will be used to trace the implications of various ethical and political theories.
Prerequisite: ENVR 151 and PHIL 214 or PHIL 215

ENVR 351 Environmental Policy Formation (4 credits) (equivalent to POLS 309)
An examination of environmental policy outcomes generated by institutions and organizations, including legislation, court decisions and administrative decisions. Additional focus on decision-making processes commonly used to assess environment-related legislation, including those rooted in economics and policy analysis.
Prerequisite: ENVR 212

ENVR 401 Field Seminar (4 credits)
A capstone course that combines field experience with classroom seminar. Student teams will conduct collaborative, broadly interdisciplinary analysis of selected environmental problems. Field-based projects are chosen by the students in consultation with course instructor. Classroom seminars are used for exchange of information between teams and for discussion of readings pertinent to individual research projects or, more broadly, to the interdisciplinary character of environmental problem-solving. Each team produces a major paper that examines ethical and natural- and social-science aspects of the selected problems.
Prerequisite: ENVR 301 and 351 or permission of the instructor

ENVR 475, 476 Experiential Learning (2 credits)
ENVR 477, 478 Experiential Learning (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

ENVR 483, 484 Seminar (2 credits)
ENVR 485, 486 Seminar (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

ENVR 487, 488 Topics (2 credits)
ENVR 489, 490 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

ENVR 479, 491 Research (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

ENVR 493, 495 Individual Study (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.
Family studies is an interdisciplinary field of study in which the family is the primary unit of analysis. The purpose of this major and minor is to enable students to critically examine the family using a variety of theories and methods. Family studies scholars can develop understanding of business and communication dynamics, health and social concerns, and psychological and theological matters affecting families and their members. A major and minor in family studies are flexible and multidisciplinary, providing for both broad exposure and disciplinary integration. Both the major and minor provide preparation for advanced study in family studies and the allied fields, as well as professional work in organizations focusing on families.

Major in Family Studies

A student may take no more than three courses from a single discipline toward the major in Family Studies. The major in family studies does not provide a license for a student to do therapy or counseling; it does provide a foundation for employment in the human services field and/or for graduate studies in multiple areas where a license can be earned, if so desired. Students will select elective courses in careful consultation with the director of family studies and/or his or her advisor, choosing those that best support the student’s future professional, graduate and/or personal goals and aspirations. The elective selections might also include strong recommendations for a double major in another discipline and/or courses in research methods taken in a constituent department - the latter especially recommended for students wishing to pursue graduate work in Family Social Science or Psychology, Social Work, or other related fields.

All students must take 8 credits (2 courses) of the following:
COJO 472 Family Communication (4 credits)
PSYC 288 Psychology of Marriage and the Family (4 credits)
SOCI 321 Marriages and Families (4 credits)

And 24 credits (6 courses) of the following, in consultation with student’s advisor, considering future goals:
CATH 234/PHIL 234 Love, Sex and Friendship (4 credits)
CDC 305 Chemical Dependency and the Family (4 credits)*
COJO 220 Interpersonal Communications (4 credits)
COJO 472 Family Communication (4 credits)
ENTR 349 Family Business Management (4 credits)
FAST 243, 393, or 495 Individual Study (2 or 4 credits)
FAST 498 Experiential Learning/Internship (2 or 4 credits)
HLTH 342 Health and Family Education: Curriculum, Assessment, and Administration (4 credits)
HLTH 462 Human Sexuality Education (4 credits)
IDSC 291 The Anatomy of Violence (4 credits)
PSYC 200 Psychology of Infancy and Childhood (4 credits)
PSYC 202 Lifespan Development (4 credits)
PSYC 203 Psychology of Adolescence (4 credits)
PSYC 204 Psychology of Adulthood and Aging (4 credits)
PSYC 288 (Psychology of Marriage and the Family (4 credits)
SOWK 2100C Relationships, Intimacy and Sexuality (4 credits)*
SOWK 340T Human Behavior and the Social Environment (4 credits)
SOWK 401T Generalist Practice I: Small Client Systems (available only to social work majors) (4 credits)
SOWK 441T Family Resilience and Diversity (4 credits)
SOCI 304 Adolescence in Society (4 credits)
SOCI 321 Marriages and Families (4 credits)
SOCI 354 Sex in Society (4 credits)
THEO 423 Christian Marriage (4 credits)

And 4 credits (1 course): FAST 400 Family Studies Capstone Seminar

TOTAL 36 Credits
Family Studies (FAST)

Minor in Family Studies

No more than eight credits may be taken from a single major field. Students interested in a minor in family studies should meet with the director.

FAST 400 Family Studies Seminar (4 credits)

Plus four credits from the following:
COJO 472 Family Communication (4 credits)
PSYC 288 Psychology of Marriage and the Family (4 credits)
SOCI 321 Marriages and Families (4 credits)

Plus twelve credits from the following:
CATH 234 Love, Sex and Friendship
CDC 305 Chemical Dependency and the Family (4 credits)
COJO 220 Interpersonal Communications (4 credits)
COJO 472 Family Communication (4 credits)
ENTR 349 Family Business Management (4 credits)
FAST 243, 393, 495 Individual Study (2 or 4 credits each)
FAST 476 (2 credits each) or 478 (4 credits each) Experiential Learning/Internship
HLTH 462 Human Sexuality Education (4 credits)
IDSC 291 Anatomy of Violence (4 credits)
PSYC 200 Psychology of Infancy and Childhood (4 credits)
PSYC 202 Lifespan Development (4 credits)
PSYC 203 Psychology of Adolescence (4 credits)
PSYC 204 Psychology of Adulthood and Aging (4 credits)
PSYC 288 Psychology of Marriage and the Family (4 credits)
SOWK 210 Relationship, Intimacy, and Sexuality (4 credits)
SOWK 340 Human Behavior and the Social Environment (4 credits)
SOWK 401 Generalist Practice with Individuals, Groups and Families (4 credits)
THEO 423 Christian Marriage (4 credits)

NOTE: available only to Social Work majors
SOWK 441 Family Resiliency and Diversity (4 credits)
SOCI 304 Adolescence in Society (4 credits)
SOCI 321 Marriages and Families (4 credits)
SOCI 354 Sex in Society (4 credits)

FAST 295, 296 Topics (2 credits)
FAST 297, 298 Topics (4 credits)

The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

FAST 400 Seminar in Family Studies (4 credits)

This advanced capstone course for the Family Studies minor is a multidisciplinary seminar taken after a student has completed at least four courses in the Family Studies minor. The course incorporates a variety of methods, theories, and pedagogies drawn from the family studies paradigm. A substantial portion of the course will be devoted to student experience in the community and professions, including reflections and analyses that incorporate family studies scholarship.

Prerequisite: PSYC 288 or SOCI 321 or COJO 472 and three other courses from the list of approved courses for the minor.

FAST 269, 389, 491 Research (2 or 4 credits)

See the description of these courses at the beginning of the “Curricula” section of this catalog.

FAST 243, 393, 495 Individual Study (2 or 4 credits)

See the description of these courses at the beginning of the “Curricula” section of this catalog.
The minor in film studies is an interdisciplinary program that provides students with a foundation of film history and theory and is enriched by offerings in film by departments across the College of Arts and Sciences. By completing this minor, students will be able to understand the historical development of film language (camera work, acting, and editing) including film's pre-history and relationship to photography and theatre; identify and analyze films from the major film traditions, movements, genres (narrative, documentary, and experimental-surreal), studios and directors; understand developments in world cinema, including expression, imagery and representations of nationhood, ethnicity, race, sex, gender, sexuality, social class, cultural values, religious values, political movements, etc; articulate and apply major film theories and critical approaches; understand the political and economic context of film, including the impact of distribution and circulation on the production and reception of film and video/DVD; and develop skills relevant to film production, such as writing, directing, acting, design, composition, and the acquisition & editing of images and sound.

**Minor in Film Studies**

Students will complete 20 credits for the FILM minor:

FILM 200 Introduction to Film Studies (4 credits)
FILM 300 World Cinema (4 credits)

**Plus four credits in film theory/history/criticism/analysis:**

COJO 332 Documentary in American Culture (4 credits)
CLAS 225 The Classical Hero, Epic, and Film (4 credits)
ENGL topics courses as appropriate and approved by FILM Studies. Examples of ENGL courses with recent or potential film studies topics:

- ENGL 324 Genre Studies ((Literature into Film)4 credits)
- ENGL 337 The Literature of Human Diversity (Arab Film) (4 credits)
- ENGL 395 Issues in Literature and Culture (Film) (4 credits)
- ENGL 481 Hispanic Cinema Studies (Third World Cinema) (4 credits)

FILM 350 Contemporary Issues in Film (4 credits)
FREN 490 French Cinema (4 credits)
MUSC 296 Music of Film (4 credits)
SPAN 415 Hispanic Cinema Studies (4 credits)

**Plus four credits in production/practice**

COJO 260 Electronic Media Production (4 credits)
COJO 360 Videography (4 credits)
COJO 460 Advanced Video Production (4 credits)
ENGL topics courses as appropriate and approved by director of FILM studies. Examples of ENGL courses with recent or potential film production/practice topics:

- ENGL 297 Topics (Introduction to Screen Writing) (4 credits)
- ENGL 326 Topics in Creative Writing (Screen Writing) (4 credits)

THTR 214 Beginning Acting (4 credits)
THTR 218 Acting for the Camera (4 credits)

**Plus four additional credits from those listed above, internship, experiential learning, or independent study as approved by FILM studies director**

At least two courses should be numbered 300 or higher

**FILM 200 Introduction to Film Studies (4 credits)**

FILM 200 introduces students to film analysis, providing the basic tools to understand, appreciate, and analyze the technical and aesthetic dimensions of film and to understand how these elements come together to create meaning. The course will focus on specific filmmaking techniques, provide a brief overview of film history, and introduce students to the concepts of genre, ideology and style. In addition to attending class sessions, students will be required to attend a weekly film screening (lab). This course fulfills the Fine Arts requirement in the core curriculum.
**Geography (GEOG)**

**FILM 300 World Cinema (4 credits)**
In this course, students will view feature-length films from Africa, Asia, the Americas, Europe, and possibly India and/or the Middle East. Via an introduction to directorial styles, film movements, and cinematic language and technique, students will become familiar with basic vocabulary and categories for discussing global cinema. Further, students will gain understanding of the development of cinema in several countries throughout the twentieth century and beyond, and will learn about the contribution of major directors from various continents and countries. Engaging in critical viewing of films both in class and outside of class, critical reflection, discussion, and analytical writing, students will practice the art of film analysis and will learn how cinema engages the world as a form of entertainment, as art, as historical document, and as an instrument of social change. This course fulfills the Human Diversity requirement of the core curriculum.

Prerequisite: FILM 200

**FILM 350 Contemporary Issues in Film (4 credits)**
This course is organized around a topic or area of inquiry and allows students to view, discuss, and read and write about feature-length films that engage with the topic of inquiry in depth. The course entails engaged viewing films in and outside of class, reading of several critical articles per week, writing a weekly film journal, completing quizzes and a midterm, completing research papers, and active in-class participation. Possible subject areas may include cinema and social or political conflict, cinema and the environment, cinema and science fiction, or a focus on the work of a particular director or genre. Course may be repeated for credit with a different topic.

Prerequisite: FILM 200

**FILM 295, 296 Topics (2 credits)**
**FILM 297, 298 Topics (4 credits)**
The subject matter of these courses will vary from year to year, but will not duplicate existing courses.

**FILM 243, 393, 495 Individual Study (2 or 4 credits)**
See the description of these courses at the beginning of the “Curricula” section of this catalog.
GEOG 480 Seminar in Geography (4 credits)

Plus eight credits in methods courses:
GEOG 223 Remote Sensing (4 credits)
GEOG 321 Geographic Information Systems (4 credits)
GEOG 322 Geographical Analysis (4 credits)
GEOG 421 Applied Geographic Information Systems (4 credits)

Plus four credits in a topical course:
GEOG 230 Weather and Climate (4 credits)
GEOG 330 Geography for Business and Planning (4 credits)
GEOG 331 Conservation Geography (4 credits)
GEOG 430 Urban Geography (4 credits)

Plus four credits in a regional course:
GEOG 241 Geography of Minnesota (4 credits)
GEOG 242 Latin America (4 credits)
GEOG 243 Africa (4 credits)
GEOG 298 Special Topics in Geography (different each offering.) (4 credits each)
GEOG 340 Geography of the U.S. and Canada (4 credits)
GEOG 384 Field Study in Geography (4 credits)

Plus:
Eight elective geography credits

Note: At least twelve of the credits used to fulfill the major must be at the 300-level or above.

Major in Geography - Geographic Information Systems (GIS)
GEOG 111 Human Geography (4 credits)
GEOG 112 Landscapes: Physical Systems (4 credits)
GEOG 113 World Geography (4 credits)
GEOG 321 Geographic Information Systems (4 credits)
GEOG 421 Applied Geographic Information Systems (4 credits)
GEOG 422 GIS Customization and Programming (4 credits)
GEOG 480 Seminar in Geography (4 credits)

Plus twelve credits from the following methods courses:
GEOG 223 Remote Sensing (4 credits)
GEOG 322 Geographical Analysis (4 credits)
GEOG 330 Geography for Business and Planning (4 credits)
GEOG 331 Conservation Geography (4 credits)
GEOG 478 Experiential Learning (4 credits) or GEOG 491 Research (4 credits)

Plus:
STAT 220 Statistics I (4 credits)

Minor in Geography
Eight credits in core courses
Eight credits in methods courses
Eight elective geography credits

Minor in Geographic Information Systems (GIS)
This minor is only available to non-geography majors.
GEOG 321 Geographic Information Systems (4 credits)
GEOG 421 Applied Geographic Information Systems (4 credits)

Plus twelve credits from the following methods courses:
GEOG 223 Remote Sensing (4 credits)
GEOG 322 Geographical Analysis (4 credits)
**Geography (GEOG)**

GEOG 330 Geography for Business and Planning (4 credits)
GEOG 331 Conservation Geography (4 credits)
GEOG 422 GIS Customization and Programming (4 credits)
GEOG 478 Experiential Learning (4 credits) or GEOG 491 Research (4 credits)

**Teacher Licensure**

Elementary Education with a Specialty in Social Studies (5-8)
Co-major in Social Studies (5-12) and a Co-major in Secondary Education
See Education

GEOG 111 Human Geography (4 credits)
This course explores the effects of social, economic, environmental, political, and demographic change from a geographic perspective. It introduces students to a broad range of topics, including the effects of population growth, human impact on the environment, globalization and how cultural landscapes are shaped by power and privilege. Offered every semester. This course fulfills the Social Analysis and Human Diversity requirements in the core curriculum.

GEOG 112 Landscapes: Physical Systems (4 credits)
This course asks why the natural environment looks and acts the way it does and addresses the interrelationships between climate, soils, water, landforms, and the biosphere. The emphasis of the course is on natural processes with some discussion of how humans interact with their surroundings. Exercises from a lab manual written specifically for this course provide hands-on experiences through inquiry-based learning and GIS. Offered every semester.

GEOG 113 World Geography (4 credits)
A country-by-country study of the world. The goal of this course is to emphasize whatever best explains the character of each country. This may be population, economics, resources, or any aspect of nature or humanity that gives an insightful understanding of each country. Offered every semester. This course fulfills the Social Analysis and Human Diversity requirements in the core curriculum.

GEOG 223 Remote Sensing (4 credits)
The principles and techniques of remotely sensed data are presented including photographic and digital sensing. The applicability of these techniques to land use analysis and environmental studies will be emphasized. Students will become familiar with aerial photography and digital imagery interpretation through inquiry-based learning and GIS. Offered alternate years.

GEOG 230 Weather and Climate (4 credits)
This course explores the causes and consequences of weather and climate, from global-scale processes of climate dynamics, the greenhouse effect and El Niño to regional and local-scale processes of fronts, thunderstorms, hurricanes and tornadoes. Students are introduced to weather map analysis, forecasting, and observational techniques through data collection and hands-on exercises.

GEOG 231 Global Migrations (4 credits)
A broad study of the history of human migrations from the earliest to modern times, and an examination of migration issues, such as why people migrate, where they come from and where they go. Part of the course will focus on the experiences of local immigrant groups: Somali, Hmong, Latino, and others.

GEOG 241 Geography of Minnesota (4 credits)
Minnesota is a land rich with diversity. In this course, students will explore the state’s people, landscapes, natural resources, rural issues, economic opportunities, and many other aspects of Minnesota. The course will examine regional and topical issues to develop an understanding of what makes Minnesota unique. This will be accomplished through class discussions, hands-on activities, and readings.

GEOG 242 Latin America (4 credits)
A country-by-country tour of Latin America, this course addresses the physical geography and resources, as well as key features of history, ethnicity, government, economy, and modern issues of each country. Such issues may include land tenure, social conditions, environmental problems, indigenous movements, or any topic that is important to understand a particular country.

GEOG 243 Africa (4 credits)
A broad tour of Africa, including geography, history, and political economy. The course addresses both the broad physical and human geography of Africa, and includes specific topics such as indigenous governance, colonialism, independence leaders, Cold War politics, modern governance, ethnic conflicts, and health and environmental problems.
GEOG 295, 296 Topics (2 credits)
GEOG 297, 298 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

GEOG 321 Geographic Information Systems (4 credits)
The theme of this course is how to perform data analysis using Geographic Information Systems. Specific topics include spatial database operations, buffers, map overlay and address matching. The course illustrates the principles of Geographic Information Systems using a variety of real-world applications from demography to environmental studies. Usually offered spring semester.

GEOG 322 Geographical Analysis (4 credits)
This project based course uses Geographic Information Systems (GIS) to explore, model and better understand the American landscape. It focuses on collecting, organizing, analyzing and presenting spatial data. Statistical methods are applied in a real-world context, providing insight into issues ranging from urban sprawl to economic development. Offered alternate years.

GEOG 330 Geography for Business and Planning (4 credits)
Geographic techniques for business and planning applications include demographic analysis of customer characteristics, consumer’s geographic behavior, trade areas, patterns of retailing, store location problems, site appraisals, optimal routing, and marketing. Offered every semester.

GEOG 331 Conservation Geography (4 credits)
This course uses basic Geographic Information Systems (GIS) to study a wide range of conservation issues. GIS is ideal platform for exploring the relationships between the economic, political and environmental processes shaping our landscapes. Typical class projects include locating the best lands in Minnesota for carbon sequestration projects and helping the Minnesota Nature Conservancy target valuable forest habitat for conservation purchases.

GEOG 340 Geography of the U.S. and Canada (4 credits)
What does the notion of “America” mean? How is this different from other global regions? This course examines the historical creation and expansion of North America from European, African and Asian influences. It then explores the contemporary geography of the continent: different cultural regions, economic characteristics, political variations, and places both special and commonplace that help define the North American experience.

GEOG 384 Field Study in Geography (4 credits)
A geographic analysis through field experience. Includes study-abroad courses. Prerequisite: consent of instructor

GEOG 421 Applied Geographic Information Systems (4 credits)
A sequel to GEOG 321, this project-based course is designed around individual student interests to utilize advanced ArcGIS functions and analysis. Principles of geographic information systems will be implemented in a wide variety of applications. Usually offered fall semester. Prerequisite: GEOG 321 or consent of the instructor

GEOG 422 GIS Customization/Programming (4 credits)
This course is an introduction to customization and programming based on Python for Geoprocessing in ArcGIS, and is designed for geography students. Basic concepts of object-oriented programming and scripting will be presented. Students will develop skills in customization techniques to explore, manipulate, and model spatial data using the Geoprocessor methods. Prerequisite: Enrollment in the GIS program and a minimum grade of C- in GEOG 321, or consent of instructor

GEOG 430 Urban Geography (4 credits)
This course will focus on themes in the development of contemporary cities with special attention to patterns and trends within the Twin Cities metropolitan area e.g. ethnicity, housing, transportation, historical evolution, and urban growth. Prerequisite: GEOG 111 or 113 or consent of instructor

GEOG 475, 476 Experiential Learning (2 credits)
GEOG 477, 478 Experiential Learning (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

GEOG 480 Seminar in Geography (4 credits)
The seminar explores the nature of geography as a discipline. The areas to be covered: history of geographic thought, perspectives
Geology (GEOL)

and insights unique to geography, contemporary debates among geographers, and geography as a vocational and academic career. Research papers will cover these themes and be tailored to the student’s interests. Usually offered alternate years.

Prerequisites: four geography courses, including one methods course

GEOG 481 Advanced Field Study in Geography (4 credits)
A geographic analysis through field experience. Designed for advanced students in geography. Includes study-abroad courses. Prerequisite: consent of instructor

GEOG 483, 484 Seminar (2 credits)
GEOG 485, 486 Seminar (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

GEOG 487, 488 Topics (2 credits)
GEOG 489, 490 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

GEOG 269, 389, 491 Research (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

GEOG 243, 393, 495 Individual Study (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

Geology (GEOL)

College of Arts and Sciences, Department of Geology
Owens Science Hall (OWS) 153, (651) 962-5216
Theissen (chair), Clotts, Donatelle, Hickson, Lamb, McDermott, Navratil, Vislova

Geology is the field of study that tackles a wide range of issues facing society today: preparing for natural disasters, finding and extracting natural resources in responsible and sustainable ways, understanding and preparing for global environmental change, preventing, assessing and mitigating environmental pollution, and public health issues, to name a few. Many of us grew up thinking geologists simply study rocks. Although it is true rocks provide some of the fundamental clues to understanding these issues, geologists also study soil, sediments, lakes, groundwater, and the interior of the earth. Spatial analysis using ArcGIS, numerical computer modeling, and geochemical analysis using sophisticated instrumentation are common methods used by different geoscientists.

In the Geology Department, we strive to develop the whole student by emphasizing critical thinking and analytical, quantitative, public speaking and writing skills. Students have the opportunity to work collaboratively with geology faculty on research projects, in addition to learning the key field, lab and research skills of a professional geologist. These skills are transferable to many different fields and help prepare students for a range of career paths. The geology curriculum has been designed to provide students with a solid core, but with sufficient flexibility to allow students with particular interests to pursue a more customized Geology program. At the heart of this program are a number of hands-on learning opportunities, a fundamental and basic component of a St. Thomas geoscience degree. Department faculty emphasize the fact that geology must be learned by practicing skills and as a result offer analytical experiences in all courses that extend from a short afternoon trip to a multi-week field course on field methods and regional geology. Majors will visit many of the geologically significant localities throughout the upper Midwest as part of their program as well as use analytical instrumentation.

Major in Geology (B.A.)
Four credits from the following
GEOL 111 Introductory Physical Geology (4 credits)
GEOL 114 The Science of Natural Disasters (4 credits)
GEOL 115 Environmental Geology (4 credits)
GEOL 162 The Earth’s Record of Climate (4 credits)

Plus:
GEOL 211 Earth Materials (4 credits) or GEOL 310 Environmental Geochemistry (4 credits)
GEOL 260 Regional Geology and Geological Field Methods (4 credits)
GEOL 320 Sedimentology and Stratigraphy (4 credits)
GEOL 340 Fundamentals of the Lithosphere I (Petrology) (4 credits)
GEOL 360 Fundamentals of the Lithosphere II (Structural Geology) (4 credits)
Plus sixteen credits from the following (and four credits of which must be at the 300 or 400-level):
GEOL 130 Earth History (4 credits)
GEOL 161 Medical Geology (4 credits)
GEOL 162 The Earth’s Record of Climate (if not chosen above) (4 credits)
GEOL 211 Earth Materials (if not chosen above) (4 credits)
GEOL 220 Oceanography (4 credits)
GEOL 252 Earth Surface Processes and Geomorphology (4 credits)
GEOL 310 Environmental Geochemistry (4 credits) (if not chosen above)
GEOL 410 Hydrogeology (4 credits)
GEOL 460 Advanced Field Methods (4 credits)
GEOL 461 Medical Geology (unless receiving credit for 161) (4 credits)
GEOL 462 The Earth’s Record of Climate (unless receiving credit for 162) (4 credits)
GEOL 491 Research (4 credits)

Note: GEOG 321 Geographic Information Systems and geology courses offered at Macalester College may fulfill one of these courses with permission of chair.

Allied requirements
MATH 113 Calculus I (4 credits)

or
MATH 108 Calculus with Review I (4 credits) and MATH 109 Calculus with Review II (4 credits)

Plus one of the following sequences:
CHEM 111 General Chemistry I (4 credits) and CHEM 112 General Chemistry II (4 credits)
PHYS 111 Introduction to Classical Physics I (4 credits) and PHYS 112 Introduction to Classical Physics II (4 credits)
CHEM 111 General Chemistry I (4 credits) and PHYS 111 Introduction to Classical Physics I (4 credits)

For students wishing to pursue careers in paleontology, geobiology, or geomicrobiology:
BIOL 207 Genetics, Ecology, and Evolution (4 credits) and BIOL 208 Biological Communication and Energetics (4 credits)

Biology may be substituted for one of the CHEM/PHYS sequences with permission of chair

Strongly recommended for students considering graduate study:
additional courses in the allied sciences and mathematics

Major in Geology (B.S.)
Four credits from the following:
GEOL 111 Introductory Physical Geology (4 credits)
GEOL 114 The Science of Natural Disasters (4 credits)
GEOL 115 Environmental Geology (4 credits)
GEOL 162 The Earth’s Record of Climate (4 credits)

Plus:
GEOL 211 Earth Materials (4 credits) or GEOL 310 Environmental Geochemistry (4 credits)
GEOL 260 Regional Geology and Geological Field Methods (4 credits)
GEOL 320 Sedimentology and Stratigraphy (4 credits)
GEOL 340 Fundamentals of the Lithosphere I (Petrology) (4 credits)
GEOL 360 Fundamentals of the Lithosphere II (Structural Geology) (4 credits)
One additional 300-or 400-level elective course in Geology (4 credits)

Plus sixteen credits from the following (four credits of which must be at the 400-level and four credits of which must be at the 300 or 400 level):
GEOL 130 Earth History (4 credits)
GEOL 161 Medical Geology (4 credits)
GEOL 162 The Earth’s Record of Climate (if not chosen above) (4 credits)
GEOL 211 Earth Materials (if not chosen above) (4 credits)
GEOL 220 Oceanography (4 credits)
GEOL 252 Earth Surface Processes and Geomorphology (4 credits)
GEOL 310 Environmental Geochemistry (4 credits) (if not chosen above)
GEOL 410 Hydrogeology (4 credits)
GEOL 460 Advanced Field Methods (4 credits)
Geology (GEOL)

GEOL 461 Medical Geology (unless receiving credit for 161) (4 credits)
GEOL 462 The Earth’s Record of Climate (unless receiving credit for 162) (4 credits)
GEOL 491 Research (4 credits)

Note: GEOG 321 Geographic Information Systems and geology courses offered at Macalester College may fulfill one of these courses with permission of chair

Allied requirements
MATH 113 Calculus I (4 credits) or MATH 109 Calculus with Review II (4 credits)
MATH 114 Calculus II (4 credits)
CHEM 111 General Chemistry I (4 credits)
CHEM 112 General Chemistry II (4 credits)
PHYS 111 Introduction to Classical Physics I (4 credits)
PHYS 112 Introduction to Classical Physics II (4 credits)
MATH 303 Statistics for the Applied Sciences (4 credits) or STAT 220 Statistics I (4 credits)

For students wishing to pursue careers in paleontology, geobiology, or geomicrobiology:
BIOL 207 Genetics, Ecology, and Evolution (4 credits) and 208 Biological Communication and Energetics (4 credits)

Biology may be substituted for one of the CHEM/PHYS sequences with permission of chair

Depending on a student’s interest and career goals, substitutions may be made for other advanced courses in Biology, Chemistry, or Physics for certain listed courses, in consultation with the geology department chair.

Teacher Licensure
Elementary Education with a Co-major in Science and Mathematics for Elementary Education
Elementary Education with a Specialty in Science (5-8)
Co-major in Science (5-8) – Earth and Space Science (9-12) and a Co-major in Secondary Education

See Education.

Minor in Geology
Four credits from the following:
GEOL 111 Introductory Physical Geology (4 credits)
GEOL 114 Natural Disasters (4 credits)
GEOL 115 Environmental Geology (4 credits)
GEOL 130 Earth History (4 credits)
GEOL 161 Medical Geology (4 credits)
GEOL 162 The Earth’s Record of Climate (4 credits)

Plus four credits from the following:
GEOL 211 Earth Materials (4 credits)
GEOL 310 Environmental Geochemistry (4 credits)
GEOL 320 Sedimentology and Stratigraphy (4 credits)

Plus:
GEOL 340 Fundamentals of the Lithosphere I (Petrology) (4 credits)

Plus eight credits from the following (only four of which may be at the 100-level):
GEOL 130 Earth History (4 credits)
GEOL 161 Medical Geology (4 credits)
GEOL 162 The Earth’s Record of Climate (if not chosen above)(4 credits)
GEOL 211 Earth Materials (4 credits) (if not chosen above)
GEOL 220 Oceanography (4 credits)
GEOL 252 Earth Surface Processes and Geomorphology (4 credits)
GEOL 260 Regional Geology and Geological Field Methods (4 credits)
GEOL 310 Environmental Geochemistry (4 credits) (if not chosen above)
GEOL 320 Sedimentology and Stratigraphy (4 credits) (if not chosen above)
GEOL 360 Fundamentals of the Lithosphere II (Structural Geology) (4 credits)
GEOL 410 Hydrogeology (4 credits)
GEOL 460 Advanced Field Methods (4 credits)
GEOL 101 Origins and Methods (4 credits) (GEOL 110, 111, 114, 115)
A study of the basic concepts of geology that were first developed by James Hutton in the late 18th century and their application today. This is an introductory science course specifically designed to reduce the mystique that often is associated with the scientific method. Following Hutton’s example, the student will focus on the materials which make up the Earth and on the geologic processes that operate on these materials. This course fulfills the core-area in natural science in the Natural Science and Mathematical and Quantitative Reasoning requirement in the core curriculum. Offered in January term.

NOTE: Students who receive credit for GEOL 101 may not receive credit for GEOL 110, 111, 114, or 115.

GEOL 110 Geology of the National Parks (4 credits) (GEOL 102, 111, 114, 115)
This course introduces fundamental geologic concepts, processes, and materials using examples from the national parks. Emphasis is placed on the specific geologic materials, natural processes, landforms and sequence of events responsible for the outstanding scenery in selected U.S. national parks. Laboratories will include study of the rocks common to the national parks; analysis of geomorphic, topographic and geologic maps of the national parks; and field studies of local sites. Lecture and two laboratory hours per week. This course fulfills the core-area in natural science in the Natural Science and Mathematical and Quantitative Reasoning requirement in the core curriculum.

NOTE: Students who receive credit for GEOL 110 may not receive credit for GEOL 102, 111, 114, or 115.

GEOL 111 Introductory Physical Geology (4 credits) (GEOL 102, 110, 114, 115)
A study of the Earth’s properties; the formation and classification of minerals, rocks, ore deposits, and fuels; and the nature and origin of the Earth’s surface and interior. Emphasis will be placed upon a changing Earth, and the geologic processes operating at the surface and in the interior. Lecture and two laboratory hours per week. This course fulfills the core-area in natural science in the Natural Science and Mathematical and Quantitative Reasoning requirement in the core curriculum.

NOTE: Students who receive credit for GEOL 111 may not receive credit for GEOL 102, 110, 114, or 115.

GEOL 114 The Science of Natural Disasters (4 credits) (GEOL 102, 110, 111, 115)
This introductory geology course focuses on how and why natural disasters occur, as well as on their effects and how scientists study them. The course will examine internal and external Earth processes and in particular how these processes impact humans. Course emphases will be upon the principles underlying natural disasters such as earthquakes, volcanic eruptions, landslides, floods, coastal processes, and extinctions. We will use case studies of recent and historic events to understand these natural processes. This course fulfills the core-area in natural science in the Natural Science and Mathematical and Quantitative Reasoning requirement in the core curriculum.

NOTE: Students who receive credit for GEOL 114 may not receive credit for GEOL 102, 110, 111, or 115.

GEOL 115 Environmental Geology (4 credits) (GEOL 102, 110, 111, 114)
This course emphasizes the interactions between humans and their environment, focusing on those processes and issues that are fundamentally geological in nature. Early in the course, students will be introduced to basic geoscience concepts and principals, the scientific method, plate tectonics, and Earth materials (rocks and minerals). The remainder of the course will focus on specific topics at the interface between humans and their environment, including volcanic and earthquake hazards, human impacts on the hydrological cycle, surface and groundwater contamination, climate and the carbon cycle, nuclear waste storage, soil erosion, non-renewable resources, and slope stability. This course fulfills the core-area in natural science in the Natural Science and Mathematical and Quantitative Reasoning requirement in the core curriculum.

NOTE: Students who receive credit for GEOL 115 may not receive credit for GEOL 102, 110, 111, or 114.

GEOL 130 Earth History (4 credits)
The course introduces fundamental geologic concepts while examining the major tectonic, chemical and biological events that shaped the Earth through time. It will include a study of fossils, sedimentary structures, depositional environments, radiometric dating techniques, and other tools geoscientists use to interpret the past. Throughout the course global events will be studied but focus will be on the North American continent. This course fulfills the core area in natural science in the Natural Science and Mathematical and Quantitative Reasoning requirement in the core curriculum.

GEOL 161 Medical Geology (4 credits)
The course explores the effects of geologic materials and processes on human health. Topics include, exposure to or deficiency of trace metals and minerals, inhalation of ambient and anthropogenic mineral dusts and volcanic emissions, transportation, modification and concentration of organic compounds and exposure to radionuclide’s microbes and pathogens in various geologic settings. The knowledge and skills covered in this course will provide an understanding of the geological and biological processes controlling various public health concerns and thus provide a preparation to contribute to important societal questions. This course fulfills the core area in natural science in the Natural Science and Mathematical and Quantitative Reasoning requirement in the core curriculum.
**Geology (GEOL)**

Prerequisites: one of GEOL 110, 111, 114, 115, 130, 162, or CHEM 100, 101, 111, 115 or permission of instructor

**GEOL 162 The Earth’s Record of Climate (4 credits)**

Climate change is among the most pressing challenges in our world today. In this course we will explore the Earth’s climate system and the climate changes that have occurred during the history of our planet. We will use a number of geological “fingerprints” to examine past climate and modern data to examine climate change in recent decades. You will gain hands-on experience collecting, analyzing, and interpreting climate data in several laboratory projects and in course exercises designed with an emphasis on scientific inquiry and problem solving. This course fulfills the core area in natural science in the Natural Science and Mathematical and Quantitative Reasoning requirement in the core curriculum.

**GEOL 211 Earth Materials (4 credits)**

Earth’s materials record the vast history of the earth, help us understand current earth processes and are vital to our daily living. By the end of this course, you will be able to identify many common Earth materials and their components, describe how they formed, state where on or in Earth they typically form, and describe their economic and environmental importance. We will travel to the Badlands and Black Hills, SD to collect data from several field sites for analysis during the rest of the semester. This course fulfills the core-area in natural science in the Natural Science and Mathematical and Quantitative Reasoning requirement in the core curriculum.

**GEOL 212 The Earth’s Record of Climate (4 credits)**

The Earth’s surface is dominated by vast oceans known for the beauty of their wildlife and waters. The oceans are also increasingly recognized for their critical importance to the functioning of the Earth’s climate system and for their endangered natural resources. For example, the ocean-atmospheric climate phenomenon known as the El Niño Southern Oscillation has gained household name recognition for its global impact on the weather, economy, and public health. In this course we will explore the physical, chemical, and biological processes that characterize the oceans. Students will develop research and analytical skills by making observations and interpretations of oceanographic processes using data, demonstrations, and field experiences. This course fulfills the core-area in natural science in the Natural Science and Mathematical and Quantitative Reasoning requirement in the core curriculum.

**GEOL 213 Earth Materials (4 credits)**

This course emphasizes the physical processes that are responsible for shaping the Earth’s surface. The qualitative description of landforms is pursued, in light of student’s newly-gained analytical and quantitative understanding of processes. The labs focus on techniques used by geomorphologists to characterize landforms, soils, and the processes that shape, including: air photo interpretation, analysis of digital topographic data, experimental simulation of landforms evolution, and field techniques in geomorphology. This course fulfills the core-area in natural science in the Natural Science and Mathematical and Quantitative Reasoning.

**GEOL 220 Oceanography (4 credits)**

This course will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

**GEOL 252 Earth Surface Processes and Geomorphology (4 credits)**

Students will learn how to collect, synthesize, and analyze geological data in the field. Techniques will be taught in the context of the regional geology of an area so students will gain a critical appreciation of a geological terrain outside of their usual experience. Students will spend 2-3 weeks in the field examining geological structures, modern-day faults, modern processes that shape the Earth’s surface, and examining the ancient record of past climate and environments preserved in the rock record. Student teams will learn basic techniques and instruments of geological mapping and rock description, how to recognize geological structures like faults and folds, ways to interpret the evolution of the Earth from sedimentary, igneous, and metamorphic rocks, and to link surface processes with the rock record. This course fulfills the core-area in natural science in the Natural Science and Mathematical and Quantitative Reasoning requirement in the core curriculum. Offered in January-term. Prerequisite: one of GEOL 102, 110, 111, 114, 115, 130, 161, 162, and permission of the instructor.

**GEOL 260 Regional Geology and Geological Field Methods (4 credits)**

The field is geology’s laboratory. This course is an introduction to the major concepts of geology, as well as the methods of field geology. Students will learn how to collect, synthesize, and analyze geological data in the field. Techniques will be taught in the context of the regional geology of an area so students will gain a critical appreciation of a geological terrain outside of their usual experience. Students will spend 2-3 weeks in the field examining geological structures, modern-day faults, modern processes that shape the Earth’s surface, and examining the ancient record of past climate and environments preserved in the rock record. Student teams will learn basic techniques and instruments of geological mapping and rock description, how to recognize geological structures like faults and folds, ways to interpret the evolution of the Earth from sedimentary, igneous, and metamorphic rocks, and to link surface processes with the rock record. This course fulfills the core-area in natural science in the Natural Science and Mathematical and Quantitative Reasoning requirement in the core curriculum. Offered in January-term. Prerequisite: one of GEOL 102, 110, 111, 114, 115, 130, 161, 162, and permission of the instructor.

**GEOL 262 Marine Geology (4 credits)**

The Earth’s surface is dominated by vast oceans known for the beauty of their wildlife and waters. The oceans are also increasingly recognized for their critical importance to the functioning of the Earth’s climate system and for their endangered natural resources. For example, the ocean-atmospheric climate phenomenon known as the El Niño Southern Oscillation has gained household name recognition for its global impact on the weather, economy, and public health. In this course we will explore the physical, chemical, and biological processes that characterize the oceans. Students will develop research and analytical skills by making observations and interpretations of oceanographic processes using data, demonstrations, and field experiences. This course fulfills the core-area in natural science in the Natural Science and Mathematical and Quantitative Reasoning requirement in the core curriculum.

**GEOL 295, 296 Topics (2 credits)**

GEOL 297, 298 Topics (4 credits)

The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

**GEOL 310 Environmental Geochemistry (4 credits)**

Environmental geochemistry is a growing and dynamic field in geology which explores past and present environments for their chemical characteristics and environmental quality. In this course we will explore the applications of chemistry to solve geological and environmental problems, with an emphasis on freshwater environments. Students will get hands-on field and laboratory experience investigating Minnesota rock formations and lake sediments using several different geochemical methods. Prerequisite: one of GEOL 110, 111, 114, 115, 130, 161, 162; and CHEM 111 or permission of instructor.
GEOL 320 Sedimentology and Stratigraphy (4 credits)
Sedimentology is the study of sediment, particularly focusing on how it is transported and deposited. Stratigraphy emphasizes the analysis of sedimentary strata, the layers of sedimentary (and some volcanic) rocks that cover about three-quarters of the Earth's surface. Sedimentary rocks illuminate many of the details of the Earth's history: effects of sea level change, global climate, tectonic processes, and geochemical cycles are all recorded in the sedimentary strata of the Earth. This course will cover basics of fluid flow and sediment transport, sedimentary structures and textures, and – forming the bridge between modern landforms and ancient rocks – depositional sedimentary environments.
Prerequisite: one of GEOL 110, 111, 114, 115, 130, 161 or 162; GEOL 211 recommended

GEOL 340 Fundamentals of the Lithosphere I (Petrology) (4 credits)
This is the first course in a year-long sequence that covers the fundamentals of petrology and structural geology in a global tectonic framework. The course begins with a discussion of plate tectonics and then examines each of the major plate settings and their boundaries. It will include the formation of igneous, sedimentary and metamorphic rocks. Labs will include hand specimen identification and the use of the petrographic microscope. The course will also examine the conditions of rock deformation and the typical structural features of each tectonic setting. Labs will cover structural geology techniques including recognition and analysis of features in the field and in hand samples. In the fall semester the focus will be on the petrology of the mantle and lithosphere as well as divergent margins. In the spring semester, the focus will be on convergent margins. There will be several field trips as part of this course, ranging from 1-4 days, in the early fall and late spring.
Prerequisites: one of GEOL 110, 111, 114, 115, 130, 161 or 162; GEOL 211 and 320 or permission of the instructor

GEOL 360 Fundamentals of the Lithosphere II (Structural Geology) (4 credits)
Continuation of GEOL 340.
Prerequisite: GEOL 260 and 340

GEOL 410 Hydrogeology (4 credits)
This course focuses on groundwater and how geology influences its recharge, movement, storage, and withdrawal. The course will cover basic concepts of surface- and subsurface water flow, aquifer properties, well testing, heterogeneity in aquifers, groundwater chemistry and contamination, the role of groundwater in geological processes, and regional groundwater systems. Examples, labs, and projects will focus on groundwater in Minnesota and its immediate surroundings.
Prerequisite: one of GEOL 110, 111, 114, 115, 130, 161 or 162; GEOL 360 recommended

GEOL 421 Geophysics (4 credits)
Fundamental principles of geophysical methods commonly used for subsurface exploration, including: gravity, magnetic, seismic and electrical measurements. Emphasis on field procedures and interpretation techniques used for geologic investigations. Lecture and three laboratory hours per week.
Prerequisite: GEOL 360

GEOL 430 Advanced Earth History (4 credits)
This course serves as a senior capstone experience in the geology major. Using the tools and concepts from previous coursework—including geochronology, plate tectonics, and other Earth processes—students will examine in-depth some aspect of Earth history. The specific subject matter and focus of this course will vary from year to year, and will be chosen based on input from the students in consultation with the instructor. Some examples of topics include: Precambrian tectonics of the Great Lakes region; Global Mesozoic tectonics; Sedimentary basins and basin analysis; or the Phanerozoic amalgamation of Asia.
Prerequisite: C- or better in GEOL 260, 320, and 340

GEOL 460 Advanced Field Geology (4 credits)
In this course, students will use skills developed in the introductory field methods course, Geology 260, to tackle more complex geologic problems. We will spend 3 weeks in the field mapping in an area that is more structurally complicated and learning additional techniques not introduced in the first course. Students will have the option of starting a research project and collecting data to be analyzed and written up in the following semester. Students not choosing this option will complete a field project during the course.
Prerequisites: GEOL 260 and permission of the instructor

GEOL 461 Medical Geology (4 credits)
The course explores the effects of geologic materials and processes on human health. Topics include, exposure to or deficiency of trace metals and minerals, inhalation of ambient and anthropogenic mineral dusts and volcanic emissions, transportation, modification and concentration of organic compounds and exposure to radionuclide’s microbes and pathogens in various geologic settings. The knowledge and skills covered in this course will provide an understanding of the geological and biological processes controlling various public health concerns and thus provides a preparation to contribute to important societal questions. This course fulfills the core area in natural science in the Natural Science and Mathematical and Quantitative Reasoning requirement in the core curriculum.
Health and Human Performance

Prerequisites: GEOL 310 or ESCI 310 or permission of instructor

NOTE: Students who receive credit for GEOL 161 may not receive credit for GEOL 461

GEOL 462 The Earth’s Record of Climate (4 credits)
Climate change is among the most pressing challenges in our world today. In this course we will explore the Earth’s climate system and the climate changes that have occurred during the history of our planet. We will use a number of geological “fingerprints” to examine past climate and modern data to examine climate change in recent decades. You will gain hands-on experience collecting, analyzing, and interpreting climate data in several laboratory projects and in course exercises designed with an emphasis on scientific inquiry and problem solving. This course fulfills the core area in natural science in the Natural Science and Mathematical and Quantitative Reasoning requirement in the core curriculum.
Prerequisites: GEOL 211, 220, 252 or 260 or permission of the instructor
NOTE: Students who receive credit for GEOL 162 may not receive credit for GEOL 462

GEOL 475, 476 Experiential Learning (2 credits)
GEOL 477, 478 Experiential Learning (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

GEOL 483, 484 Seminar (2 credits)
GEOL 485, 486 Seminar (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

GEOL 487, 488 Topics (2 credits)
GEOL 489, 490 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

GEOL 269, 389, 491 Research (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

GEOL 243, 393, 495 Individual Study (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

HEALTH AND HUMAN PERFORMANCE

College of Arts and Sciences, Department of Health and Human Performance
Anderson Athletic Recreation Center (AARC) 206, (651) 962-5970
Duooos (Chair), Mead, Mellick, Scibora

Health and Human Performance offers the following undergraduate professional programs of study:
1. A major in physical education teaching leads to licensure at the elementary, middle, and secondary levels. Candidates successfully completing all coursework and MN teacher licensure requirements will be able to effectively execute and teach numerous physical activities in a K-12 setting.
2. A major in health education teaching leads to licensure at the middle and secondary school levels. Candidates successfully completing all coursework and MN teacher licensure requirements will be able to effectively teach numerous health topics in a 5-12 setting.
3. A major in public health studies prepares students for work in public and community health. Students graduating with a major in public health studies will be able to effectively apply the knowledge and skills required in public health, community health education, preventive health care and nonprofit health advocacy settings.
4. A major in health promotion prepares a student for work as a fitness specialist outside the school setting. Students graduating
with a major in health promotion will have had experience either at a work site or fitness setting. They will demonstrate the skill and knowledge expected of the entry-level exercise science professional in the areas of designing, implementing and evaluating health promotion programs, assessing fitness, prescribing exercise and facilitating lifestyle behavior change, both in a normal and special population. They will effectively assess theory and interface it with practice.

5. A major in exercise science prepares the student for entrance into a doctor of physical therapy program, graduate programs - in exercise science or other related fields. A student graduating with a major in exercise science will be trained on highly sophisticated assessment equipment and will have gained real-world experience in a variety of settings outside the classroom.

6. A minor in public health studies provides students with basic public health concepts and skills that complement the student’s major.

7. A minor in exercise science is intended for students looking to enhance their career objectives and goals who may be considering work in the allied health, wellness or fitness world. A minor increases a student’s knowledge base, enhances qualifications, provides for a greater competitive edge in the job market and builds individual credibility. This minor is a good complement to a number of other disciplines such as business, marketing, communications and psychology.

**Major in Public Health Studies**

- HLTH 250 Personal Health and Wellness (4 credits)
- HLTH 285 Alcohol, Tobacco, and Other Drugs (2 credits)
- HLTH 310 Global Health (4 credits)
- HLTH 342 Health and Family Education: Curriculum and Assessments (4 credits)
- HLTH 345 Nutrition for Health and Fitness (4 credits)
- HLTH 352 Community Health Education: Methods and Instruction (4 credits)
- HLTH 353 Consumer, Community and Environmental Health (4 credits)
- HLTH 400 Epidemiology (4 credits)
- HLTH 462 Human Sexuality Education (4 credits)
- HLTH 464 Critical Issues in Health Education (4 credits)
- HLTH 465 Health Research Methods (4 credits)
- HLTH 470 Health Internship 100 hours (2 credits)

**Allied requirements**

- PHED 208 Anatomy and Physiology (4 credits)
- PSYC 111 General Psychology (4 credits)

*Four credits from the following:*

- PHED 430 Measurements and Evaluations (4 credits)
- STAT 220 Statistics (4 credits)

*Four credits from the following:*

- SOCI 100 Introduction to Sociology (4 credits)
- SOCI 110 Social Problems (4 credits)

*Four credits from the following:*

- BIOL 101 General Biology (4 credits)
- BIOL 105 Human Biology (4 credits)
- BIOL 106 Women, Medicine and Biology (4 credits)

*Four credits from the following:*

- COJO 105 Communication in the Workplace (4 credits)
- COJO 111 Intro to COJO I (4 credits)

*Four credits from the following:*

- ENVR 151 Humans and the Environment (4 credits)
- ENVR 212 Social Dynamics of the Environment (4 credits)
- GEOL 161 Medical Geology (4 credits)

**Major in Health Promotion (B.S.)**

- HLTH 120 Foundations of Health Promotion (2 credits)
- HLTH 250 Personal Health and Wellness (4 credits)
- HLTH 275 Lifelong Stress Management (2 credits)
- HLTH 285 Alcohol, Tobacco and Other Drugs (2 credits)
**Health and Human Performance**

HLTH 345 Nutrition for Health and Fitness (4 credits)
HLTH 465 Health Research Methods (4 credits)
EXSC 213 Human Anatomy (4 credits) *(formerly PHED 213)*
EXSC 214 Physiology (4 credits) *(formerly PHED 214)*
EXSC 326 Kinesiology (4 credits) *(formerly PHED 326)*
EXSC 332 Exercise Physiology (4 credits) *(formerly PHED 332)*
EXSC 426 Biomechanics (4 credits) *(formerly PHED 426)*
PHED 430 Measurement and Evaluation (4 credits)
EXSC 432 Advanced Exercise Physiology (4 credits) *(formerly PHED 432)*
EXSC 450 Health Promotion/Exercise Science Internship (2 credits) *(formerly PHED 432)*
First Aid/CPR/AED Certification recommended (Must provide proof of certification)

**Allied requirements**
MKTG 300 Principles of Marketing (4 credits)

*Plus four credits from the following:*
MGMT 305 Management and Organizational Behavior (4 credits)
MKTG 320 Integrated Marketing Communication (4 credits)

*Plus four credits from the following:*
BIOL 101 General Biology (4 credits)
BIOL 105 Human Biology (4 credits)

*Plus four credits from the following:*
CHEM 100 Chemistry in our World (4 credits)
CHEM 101 Environmental Chemistry (4 credits)
CHEM 111 General Chemistry (4 credits)

*Plus four credits from the following:*
COJO 105 Communication in the Workplace (4 credits)
COJO 112 Public Communication (4 credits)

*Note: Eighty-four credits are required outside the areas of EXSC, PHED, and HLTH.*

**MAJOR IN PHYSICAL EDUCATION K-12**
See Education

**MAJOR IN HEALTH EDUCATION 5-12**
See Education

**Major in Exercise Science (B.S.)**
This program is designed for students interested in applying to a doctor of physical therapy (DPT) program or other clinical graduate programs, such as physician assistant, chiropractic school or medical school or graduate school in Biomechanics or Exercise Physiology. Additional coursework may be required for some professional fields. (Consult Advisor)
HLTH 250 Personal Health and Wellness (4 credits)
HLTH 275 Lifelong Stress Management (2 credits)
HLTH 345 Nutrition for Health and Fitness (4 credits)
EXSC 130 Foundations of Exercise Science (2 credits)
EXSC 213 Human Anatomy (4 credits) *(formerly PHED 213)*
EXSC 214 Physiology (4 credits) *(formerly PHED 214)*
EXSC 240 Medical Terminology (2 credits) *(formerly PHED 240)*
EXSC 326 Kinesiology (4 credits) *(formerly PHED 326)*
EXSC 332 Exercise Physiology (4 credits) *(formerly PHED 332)*
EXSC 426 Biomechanics (4 credits) *(formerly PHED 426)*
EXSC 432 Advanced Exercise Physiology (4 credits) *(formerly PHED 432)*
EXSC 449 Exercise Science Research Methods (4 credits) *(formerly PHED 449)*
EXSC 450 Health Promotion/Exercise Science Internship (2 credits) *(formerly PHED 450)*
Allied requirements
BIOL 207 Genetics, Ecology, and Evolution (4 credits)
BIOL 208 Biological Communication and Energetics (4 credits)
CHEM 111 General Chemistry I (4 credits)
CHEM 112 General Chemistry II (4 credits)
PHYS 109 General Physics I (4 credits)
PHYS 110 General Physics II (4 credits)
PSYC 111 General Psychology (4 credits)
PSYC 301 Psychopathology (4 credits)
STAT 220 Statistics (4 credits)

Plus one of the following:
MATH 113 Calculus I (4 credits)
MATH 108 Calculus with Review I (4 credits) and MATH 109 Calculus with Review II (4 credits)

Note: Eighty four credits are required outside the areas of EXSC, PHED, and HLTH.

Minor in Public Health Studies
HLTH 250 Personal Health and Wellness (4 credits)
HLTH 310 Global Health (4 credits)
HLTH 400 Epidemiology (4 credits)

Elective Courses (8 credits): Given that Public Health is a very broad discipline, students are allowed to choose from a wide variety of supporting courses, focusing on the issues which interest them most. Students must select four credits from each of the following groups.

Group 1
Four credits from the following:
PSYC 151 Cross Cultural Psychology (4 credits)
BIOL 105 Human Biology (lab) (4 credits)
BIOL 106 Women, Medicine, and Biology (lab) (4 credits)
SOCI 110 Social Problems (4 credits)
ENVR 151 Humans and Environment (4 credits)
GEOL 161 Medical Geology (lab) (4 credits)
HLTH 275 Lifelong Stress Management (2 credits)
HLTH 285 Alcohol, Tobacco, and Other Drugs (2 credits)
PSYC 207 Alcohol, Other Drugs, and Behavior (4 credits)
PHED 208 Human Anatomy and Physiology (4 credits)
ENVR 212 Social Dynamics / Environment (4 credits)
WMST 205 Foundations in Women's Studies (4 credits)
ESCI 310 Environmental Problem Solving (4 credits)

Group 2
Four credits from the following:
HLTH 345 Nutrition for Health and Fitness (4 credits)
HLTH 353 Consumer, Community, and Environmental Health (4 credits)
HLTH 462 Human Sexuality Education (4 credits)
HLTH 464 Critical Issues in Health Education (4 credits)

Minor in Exercise Science
EXSC 213 Human Anatomy (4 credits) (formerly PHED 213)
EXSC 214 Human Physiology (4 credits) (formerly PHED 214)
EXSC 326 Kinesiology (4 credits) (formerly PHED 326)
EXSC 332 Exercise Physiology (4 credits) (formerly PHED 332)

Plus four credits from the following:
EXSC 426 Biomechanics (4 credits) (formerly PHED 426)
EXSC 432 Advanced Exercise Physiology (4 credits) (formerly PHED 432)

Students majoring in Health Promotion are not eligible to declare this minor.
**Health and Human Performance**

**Exercise Science Courses (EXSC)**

**EXSC 130 Foundations of Exercise Science (2 credits) (formerly PHED 130)**
This is the introductory course in the Exercise Science major and provides an overview of the field of applied exercise science. The student will gain exposure to various career options and possible settings for professional practice of exercise science, and will be introduced to the foundations of Biomechanics, Exercise Physiology, Exercise Psychology and Sociology.

**EXSC 213 Human Anatomy (4 credits) (formerly PHED 213)**
This course is a study of the anatomical structure of the human body, from microscopic to gross structure across the organ systems. Of particular importance is 1) the complementarity of human anatomy structure and function, 2) the interrelationships between organ systems, and 3) the application of anatomical knowledge to common diseases and clinical conditions. Technology is utilized in both the laboratory and lecture components of the course to facilitate achievement of course learning goals. The co-requisite laboratory component of this course parallels and reinforces concepts and material covered in lectures. Two laboratory hours per week.

**EXSC 214 Physiology (4 credits) (formerly PHED 214)**
This course is designed to provide students with an understanding of the regulation and function of the human body and physiological integration for the maintenance of homeostasis. Areas of study include muscular, neural, cardiovascular, respiratory, renal, endocrine and reproductive systems. This course is a three-hour lecture course with a two-hour lab section. Two laboratory hours per week.

**EXSC 240 Medical Terminology (2 credits) (formerly PHED 240)**
This course is intended to introduce students to technical terminology used in the health profession. Emphasis will be placed on nomenclature, medical vocabulary, pronunciation, spelling, and accurate definition. The Greek and Latin root words that form the basis of the technical terminology used in the health profession will be studied, thus providing students with an understanding of the fundamental building blocks of this terminology.

**EXSC 295, 296 Topics (2 credits) (formerly PHED 295, 296)**
**EXSC 297, 298 Topics (4 credits) (formerly PHED 297, 298)**
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.sthomas.edu/pls/banner/prod/bwckschd.

**EXSC 326 Kinesiology (4 credits) (formerly PHED 326)**
Structure and function of the human skeletal and muscular systems with respect to movement will be examined. Neuromuscular aspects of movement, forces, torque, balance and stability are studied with applications to sport, physical activity and activities of daily living. Observing and analyzing skill performance are experienced. Laboratory experiences will be done within the scheduled class time.
Prerequisites: PHED 208 or EXSC 213

**EXSC 332 Exercise Physiology (4 credits) (formerly PHED 332)**
This course is designed to provide an introduction to physiological responses experienced when training for, and participating in, sport and physical activity. Basic exercise physiology topics will be covered including the principles of exercise as well as adaptations to exercise for the purposes of cardiovascular fitness, muscular strength and/or endurance. Training for sport, detraining and ergogenic aids, cardiovascular disease, and obesity will also be studied. Laboratory experiences will be done within the scheduled class time.
Prerequisites: PHED 208 or EXSC 214

**EXSC 426 Biomechanics (4 credits) (formerly PHED 426)**
This course is designed to build on the basic understanding of the skeletal and muscular systems as they relate to human movement, data collection and analyzing sport performance and movement will be emphasized. Research techniques will be introduced and students will participate in designing and conducting a Biomechanics research project. Two hour laboratory per week.
Prerequisite: EXSC 326

**EXSC 432 Advanced Exercise Physiology (4 credits) (formerly PHED 432)**
Application of the principles of anatomy and physiology to the study of metabolic, respiratory, cardiovascular, musculoskeletal and nervous system changes during exercise and physical activity. The student will gain an understanding for the acute and chronic adaptations of these systems and how to impose those adaptations. In addition, students will gain hands-on experience in the testing and measurement of individuals in an exercise physiology laboratory. This course is a three-hour lecture course with a two-hour lab section.
Prerequisites: PHED 208 and PHED 304 for physical education majors only; EXSC 332 for Exercise Science and Health Promotion majors
EXSC 449 Research Methods in Exercise Science (4 credits) (formerly PHED 449)
This course is designed to teach research methodology specific to the field of Exercise Science. Students are required to engage in hands-on research focused on an area of interest in the field of Exercise Science. Students will learn research skills through locating primary literature sources, formulating a research question, conducting original research and presenting it in several formats. Prerequisite: EXSC 426 and EXSC 432

EXSC 450 Health Promotion/Exercise Science Internship (2 credits) (formerly PHED 450)
This course meets the internship requirement for majors in the Exercise Science program. The required 100 observational hours fulfills a requirement for application to graduate clinical programs (e.g., physical therapy, chiropractic school, physician assistant school) for the Exercise Science majors. S-R grading option only. Prerequisite: Permission of instructor, First Aid/CPR/AED Certification required (must provide proof of certification)

EXSC 475, 476 Experiential Learning (2 credits)
EXSC 477, 478 Experiential Learning (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

EXSC 483, 484 Seminar (2 credits)
EXSC 485, 486 Seminar (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

EXSC 487, 488 Topics (2 credits) (formerly PHED 487, 488)
EXSC 489, 490 Topics (4 credits) (formerly PHED 489, 490)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

EXSC 269, 389, 491 Research (2 or 4 credits) (formerly PHED 269, 389, 491)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

EXSC 243, 393, 495 Individual Study (2 or 4 credits) (formerly PHED 243, 393, 495)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

Physical Education Courses (PHED)
PHED 101 Physical Fitness (2 credit)
A physical activity course that will cover planned, structured and repetitive instruction to improve or maintain one or more components of physical fitness. These activity courses are also designed to improve proficiency in a selected physical activity. Students will learn basic skills, strategy and rules of the activity. Students will also learn how physical fitness can contribute to personal lifelong health and wellness through assessment, monitoring and discipline. There will be a written test(s) along with proficiency test(s) depending on the type of physical activity. Credits may be earned twice (for a maximum of 4 credits) under this number for different activities.

PHED 110 Team Sports
Motor skill acquisition, strategies and knowledge, and approach tendencies toward team sports. A variety of team sports will be analyzed, practiced, and assessed both cognitively and physically. This class will also better meet the Minnesota Subject Standards for Physical Education.

PHED 111 Technical Skills for Individual and Lifetime Activities (2 credits)
Motor skill acquisition, strategies and knowledge, and approach tendencies toward individual lifetime sports. A variety of individual lifetime activities will be analyzed, practiced, and assessed both cognitively and physically. This class will also better meet the Minnesota Subject Standards for Physical Education.

PHED 208 Human Anatomy and Physiology (4 credits)
This course is designed to meet the needs of students requiring fundamental knowledge of the structure and function of the human body. The human skeleton, bones, articulations and the muscular system will be examined in regards to human movement. The functions of the cardiovascular, respiratory, nervous, muscular and metabolic systems will be studied.

PHED 300 Motor Development (4 credits)
This course provides an in-depth study of the principles of human growth and life span motor development and motor learning. Topics of study will include physical growth and aging, development of motor skills across the life span, perceptual motor development...
Health and Human Performance

and the interaction of exercise and structural constraints.

PHED 302 Physical Education Methods for Elementary Level (4 credits)
Orientation to the physical education profession: the nature of the profession, professional opportunities, certification requirements, including current trends and research in elementary physical education. Skills include accelerated units of elementary physical activities and the different methods of presenting lessons. Students learn to perform and teach activities at each of the three developmental levels of elementary school children. Students will learn how to use the AAHPERD Fitnessgram Computer Programs. Successful completion of a clinical site teaching experience at the elementary level is required.
Prerequisite: PHED 202

PHED 304 Physical Education Methods for Middle and Secondary Level Schools (4 credits)
Orientation to the physical education profession pertaining to current trends and research in middle and secondary level schools physical education. Factors affecting adolescent and multicultural students in physical education will be discussed and analyzed. Appropriate and effective teaching methods utilizing the Tactical Approach to Teaching Games and the Sports Education Model will be introduced and practiced through peer and clinical site teaching experience. Successful completion of a clinical site teaching experience at the middle and secondary school level is required. Concurrent registration with EDUC 343 required.
Prerequisite: PHED 202

PHED 351 Teaching of the Special-Needs Student (4 credits)
Knowledge and applications of physical education methods for teaching students with disabilities and diverse learning needs.
Prerequisite: PHED 202

PHED 430 Measurement and Evaluation (4 credits)
This course is designed to provide a statistical background for students planning to work in the health promotion field. The purpose of measurement, testing and evaluation as they relate to human performance will be examined. Areas of study will include descriptive statistics, normal distribution, correlation and prediction, norm-referenced reliability and validity, and criterion-referenced reliability and validity. Students will gain experience measuring physical fitness, activity and health in adults, and statistically analyzing the data.

PHED 475, 476 Experiential Learning (2 credits)
PHED 477, 478 Experiential Learning (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

PHED 483, 484 Seminar (2 credits)
PHED 485, 486 Seminar (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

PHED 487, 488 Topics (2 credits)
PHED 489, 490 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

PHED 269, 389, 491 Research (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

Health Courses (HLTH)

HLTH 120 Foundations of Health Promotion (2 credits)
This course is designed as an entry-level foundations course for Health Promotion majors and those considering entering the Health Promotion field. This course examines the historical foundations of worksite health promotion, and methods of identification and assessment of employee needs. Students will learn effective ways of planning worksite Health Promotion programs, selecting healthy lifestyle programs, and preparing for the financial aspects of Health Promotion program delivery. They will also learn how to launch worksite health programs and evaluate them. Shadowing Health Promotion professionals in the field is a required component of this course.

HLTH 250 Personal Health and Wellness (4 credits)
This course will examine the components of a healthful lifestyle. The interrelationship of physical, intellectual, spiritual and emotional health will be emphasized. Specific areas such as mental health, stress and coping, human sexuality, resiliency enhancement, disease prevention, aging, grief and loss will be addressed.
HLTH 275 Lifelong Stress Management (2 credits)
The focus of the course is on exploration of effective, healthful strategies of stress management. This course is an opportunity to expand one’s understanding of how to redirect stress responses into positive sources of energy. For those going into health education either in the field or for licensure, there will be ample items that you could adopt into your own teaching and classroom. This course is open to students from all fields.

HLTH 280 Exploring Medicine (2 credits)
Exploring Medicine: A physician or faculty-physician taught 2-credit course that applies basic science to clinical cases. This course involves job shadowing.
Prerequisites, other than an interest in medicine, include sophomore standing and completion of or concurrent registration in BIO 207 or EXSC 213 (formerly PHED 213)

HLTH 285 Alcohol, Tobacco and Other Drugs (2 credits)
This course will introduce students to the current drug abuse issues. An overview of the various drugs of abuse, public policies concerning those drugs, and the related consequences and concerns will be discussed. The primary goals of the course are to provide students with current information regarding drugs of abuse and to increase their awareness of the issues and consequences surrounding drug use, abuse, and addiction. Trends in drug abuse, legal issues, determinants of use, pharmacology, and other issues will all be covered in this course.

HLTH 310 Global Health (4 credits)
Interacting among the Twin Cities’ many global health organizations and communities, students will research, wrestle with, and uncover solutions to global health issues from a community health framework. This foundational perspective will allow students to apply their learning on an international scale.

HLTH 341 Health Education: 5-12 Curriculum and Assessment (4 credits)
Learners will explore effective strategies for development and evaluation of 5-12 health education curriculum with emphasis on comprehensive and coordinated school health education concepts. Growth and developmental concerns, innovative learning theories, learner-centered and proactive learning, dynamic partnerships with families and communities (including medical, business, and health agencies), interactive and interdisciplinary learning paradigms, global networking, appreciation for diversity, and current mind-body-spirit approaches to health care will be discussed. There will be opportunities for learners to actively engage in review and development of authentic assessment strategies. Learners will evaluate real-world health programs in the field and demonstrate effective in-service strategies and networking. Learners will engage in leadership approaches in enhancement of quality coordinated health education programs for families, schools, and communities.

HLTH 342 Health and Family Education: Curriculum and Assessments (4 credits)
Learners will explore effective strategies for development and evaluation of Community Health Education and Family Life Education curriculum. This exploration will include growth and developmental concerns, innovative learning theories, participant-centered and proactive learning, and best practices in pedagogy. There is an emphasis on interactive and interdisciplinary learning paradigms, population assessment, and curricula development and evaluation. Strategies for educating students and families from diverse populations will be incorporated.

HLTH 345 Nutrition for Health and Fitness (4 credits)
An examination of essential nutrients, energy balancing, metabolism, nutritional deficiencies and over-consumption, diet fads and fallacies, healthful eating patterns and nutritional needs throughout the life cycle. Individual nutritional analysis and recommendations will be included. This course is open to all students from all fields of study.

HLTH 351 Health Education: 5-12 Methods and Instruction (4 credits)
Learners will identify, practice, and demonstrate effective methods of facilitating 5-12 health education. Off-campus observations and teaching of health lessons in middle and secondary school settings are included in the requirements. An off-campus tutorial experience with middle school or high school aged learners is required. Learners will also explore and assess various educational resources from medical, insurance, health agency, business and private organizations that effectively could be used with 5-12 learners. This will include development of a professional telecommunications network. Learners will learn strategies for effectively using and evaluating telecommunications and interactive multimedia for 5-12 health education. Learners will also investigate and design active partnerships with parents/guardians and communities.

HLTH 352 Community Health Education: Methods and Instruction (4 credits)
Learners will identify, practice, and demonstrate effective methods for facilitating community health education. Off-campus observations and presentations of health issues in community settings are required. Learners will explore and assess various resources from medical, insurance, health agency, business and private organizations that could effectively be used in community health settings.
Health and Human Performance

Strategies for effectively using and evaluating telecommunications and interactive multimedia in community health programs will be discussed. In addition, learners will investigate and design active partnerships with clients, representatives of the medical field, health insurance agencies and business communities.

HLTH 353 Consumer, Community and Environmental Health (4 credits)
This course uses popular and academic texts and video and online technology as well as external educators and events to bring to life the reality of community health. In the course, you will examine the theories and principles of health promotion, disease prevention and health behavior change within the context of consumer, environmental and community health. Community health is emphasized because it encompasses consumer and environmental health. In addition, many examples used are from adolescent health. This course provides a foundation for future health professionals, allied health professionals, teachers, journalists, clergy and others with the ability to provide population centered, interdisciplinary, prevention oriented health care through an understanding of what creates health in individuals and more so in communities. Models are examined for effectiveness within various social, psychological, cultural, political and economic contexts.

HLTH 400 Epidemiology (4 credits)
Epidemiology provides an overview of the approaches used in epidemiological studies to measure the disease or health state in a population and to identify possible causes of a disease or health state. Included will be an examination of study designs, strengths and weaknesses of each. The ability to evaluate the findings from epidemiological studies will be emphasized. Learners will explore associations and correlations, between disease or health state and possible causes. The factors of bias, confounding or chance causes will be included. This course invites learners to study causality and criteria for assessing causality.
Prerequisite: PHED 430 or STAT 220

HLTH 462 Human Sexuality Education (4 credits)
The examination of the strategies and techniques for the development of human sexuality education for personal and professional needs. The course also addresses the curricular and community needs and concerns of K-12 students. Effective and appropriate teaching strategies and learning activities reflecting approved educational content and guidelines for a variety of audiences will be examined and practiced.
Prerequisite: Sophomore standing

HLTH 464 Critical Issues in Health Education (4 credits)
An in-depth examination of relevant, critical health issues. Techniques for identifying and researching the issues plus appropriate teaching strategies will be addressed along with effective health and wellness promotional strategies. Examples of health issues include stress management, death education, HIV/AIDS, teen pregnancy, national and global health issues. Advanced helping skills will be included. Emphasis on mastery of telecommunication including: Web page design, Internet research, grant writing, and computer-enhanced presentations and teaching.
Prerequisites: HLTH 341/342 and 351/352 (may be taken concurrently) or permission of instructor

HLTH 465 Health Research Methods (4 credits)
This course is designed to teach research methodology specific to the fields of Community Health and Health Promotion. Students will be required to engage in hands-on research focused on an area of interest in the field of Community Health and Health Promotion. Students will learn research skills through locating primary literature sources, formulating a research question, conducting original research and presenting it in several formats
Prerequisites: HLTH 464 or EXSC 426 and EXSC 432

HLTH 470 Health Internship 100 hours (2 credits)
This is the internship courses that meets the internship requirement for a major or minor in Community Health Education. HLTH 470 is designed to provide the student with an opportunity to observe and when appropriate assist with a community health educational program in a medical clinic, community or public health center or agency setting. Students are required to complete 100 hours at a site that is directly involved in some aspect of the community health education field. Students will be under the direct guidance of an on-site community health supervisor. S-R grading option only.
Prerequisite: Permission of instructor

HLTH 475, 476 Experiential Learning (2 credits)
HLTH 477, 478 Experiential Learning (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

HLTH 483, 484 Seminar (2 credits)
HLTH 485, 486 Seminar (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

HLTH 269, 389, 491 Research (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

HLTH 243, 393, 495 Individual Study (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

History (HIST)

College of Arts and Sciences, Department of History
John Roach Center for the Liberal Arts (JRC) 413, (651) 962-5730
Cory (chair), Cavert, Kameya, Karatas, Klejment, Nagy, Schrunk, Woytanowitz, Williard, Zimmerman

The Department of History offers a wide variety of courses dealing with the principal periods and topics of American, European, and World history, as well as selected non-European/non-U.S. fields such as East Asia, Latin America, the Atlantic World, and the Middle East. All history courses are designed to increase students’ knowledge about how human agency and contingency, patterns of continuity and change, and the interactions of cultures affect our understanding of history. Thus, students not only learn historical content, but they also develop the habits of mind needed for the critical investigation and appreciation of history.

Among our regular offerings are 100-level courses that fulfill the Historical Studies component of the core curriculum. The learning objectives for these courses are:

1. To teach basic methods of historical inquiry and analysis of sources;
2. To increase knowledge of the history of the modern world and its origins;
3. To raise awareness of diversity within human history and the importance of intercultural learning;
4. To address issues related to the professional ethics of historians and the ethical use of historical materials.

The organizing theme of these courses is “Contact and Change,” which affords students an opportunity to examine two of the principal challenges facing historians: accounting for change and understanding people and societies separated from us by space and time.

The History Department also offers a history major and a minor. Students may pursue the history major by itself or paired with another major or minor to prepare for careers in education, business, law, communications, government, and library, museum, or archival work. The history major also prepares students for graduate work in History or in other history-related academic disciplines. Interested students may also select individual history courses as electives that complement and enhance another major. History majors especially well with majors or minors in Political Science, International Studies, Education, Justice and Peace Studies, Art History, English, Modern and Classical Languages, American Culture and Difference, Communication and Journalism, and Legal Studies. Students who pursue liberal arts majors like History are also eligible for the Renaissance program.

The history major consists of a combination of 100-, 200-, and 300-level courses and a 400-level capstone seminar. Because the 100-level courses are survey courses, they provide our majors and minors with a broad base of knowledge in a relatively long period of history and in a large geographic area. Students also learn basic critical thinking skills and close reading of primary source materials and secondary texts. Likewise, the 200-level courses are survey courses, but they are somewhat more narrowly defined and require more in-depth reading and writing assignments than the 100-level courses. Basic critical thinking skills and close reading of primary source materials and secondary texts are reinforced at this level, and students begin to acquire a few more skills in historical research, evaluating historical evidence, and crafting arguments in support of or against particular interpretations of historical events. The 300-level history courses focus on a specific historical period or event or a particular methodological approach to doing history. In terms of skill development, these courses ask students not only to employ evidence in support of historical interpretations but also to think critically about the relationship between varying types of evidence, to engage in prevalent debates within fields of historical scholarship, and to evaluate historical questions themselves for their utility and manageability. In the 400-level capstone seminar, students employ the knowledge they have acquired throughout their course of studies and the skills necessary to the discipline of History to research, write, and present a significant research project of their own. The 400-level capstone seminar is required for the history major but is optional for the history minor.

The learning objectives for the history major can be found at http://www.stthomas.edu/history/majors/default.html.

History Honor Society
A campus chapter of Phi Alpha Theta, the national honor society in History, was established at St. Thomas in 1950. Candidates must have completed at least three courses in History and maintained a GPA of at least 3.1 in their history courses and a GPA of 3.0 overall to qualify.
History (HIST)

Major in History
Forty-four credits (11 courses) complete the major, no more than twelve credits (3 courses) of which may be at the 100-level and at least sixteen credits (4 courses) of which must be numbered HIST 300 or above.

Transfer students: At least twenty-four (24) of the total credits needed for the history major must be taken at the University of St. Thomas or in a St. Thomas approved study abroad program. 200- and 300-level transfer courses require the approval of the department chair in order to be counted toward the major. The capstone seminar (HIST 463, 464, or 465) must be taken at St. Thomas.

1. Select 8 credits from two of the following areas:

Four credits from World History:
HIST 111 Origins of the Modern World to 1550 (4 credits)
HIST 112 The History of the Modern World since 1550 (4 credits)
HIST 115 The World Since 1900 (4 credits)

Four credits of American History:
HIST 113 Early America in Global Perspective (4 credits)
HIST 114 The Modern U.S. in Global Perspective (4 credits)
HIST 116 African American History in Global Perspective (4 credits)

Four credits of non-Western History:
HIST 118 The Middle East and North Africa in Global Perspective (4 credits)
HIST 119 East Asian Civilizations in Global Perspective (4 credits)

Note: No more than three 100-level History courses may be applied to the major.

2. Select at least four credits from each of the following areas:

Ancient and Medieval World:
HIST 203 Ancient Egypt and the Near East (4 credits)
HIST 205 The Ancient Greek World (4 credits)
HIST 208 History of the Roman World (4 credits)
HIST 310 Europe: Middle Ages to 1000 (4 credits)
HIST 311 Europe from 1000 to 1450 (4 credits)
HIST 386 Historical Archaeology (4 credits)

Europe since 1450:
HIST 222 Early Modern Europe, 1450-1750 (4 credits)
HIST 223 Survey of Irish History: Celtic Ireland to 1972 (4 credits)
HIST 225 The Making of Modern Europe, 1750 to 1914 (4 credits)
HIST 226 Modern Europe since 1914 (4 credits)
HIST 322 Tudor and Stuart Britain, 1485-1714 (4 credits)
HIST 324 Britain Since 1815 (4 credits)
HIST 328 The French Revolution and Napoleonic Era (4 credits)
HIST 333 East-Central Europe: From Monarchy to the European Union (4 credits)

The Americas and Their Colonial Antecedents:
HIST 210 Modern Latin America, 1800 to the Present (4 credits)
HIST 262 American Colonial History (4 credits)
HIST 266 Minnesota History (4 credits)
HIST 268 History of Women in the United States (4 credits)
HIST 353 History of the American Revolution (4 credits)
HIST 355 The Civil War Era (4 credits)
HIST 358 Twentieth-Century United States (4 credits)
HIST 365 U.S. Constitutional History (4 credits)
HIST 366 History of the American Catholic Church (4 credits)
HIST 371 History of U.S. Foreign Policy (4 credits)
HIST 372 Vietnam and the United States (4 credits)

The Non-Western World:
HIST 240 Foundations of Chinese Civilization (4 credits)
HIST 241 The History of Modern China (4 credits)
HIST 244 Modern East Asia (4 credits)
HIST 253 Cities of the Middle East (4 credits)
HIST 348 Japan: History Through Literature (4 credits)
HIST 349 History of the Ottoman Empire (1300-1922) (4 credits)

At least twelve credits (3 courses) must be numbered HIST 300-399 or above. A student may choose to take a second capstone seminar to complete four credits (1 course) of this requirement, but this should only be in consultation with his/her major advisor.

3. Plus four credits from among the following:
   HIST 463 Capstone Seminar in European History (4 credits)
   HIST 464 Capstone Seminar in Non-Western History (4 credits)
   HIST 465 Capstone Seminar in History of the Americas (4 credits)

Teacher Licensure
Middle Level Teaching Endorsement in Social Studies (5-8)
Co-major in Social Studies (5-12) and a Co-major in Secondary Education
See Education

Minor in History
Twenty credits (5 courses) in history, no more than eight credits (2 courses) of which may be at the 100-level and at least four credits (1 course) of which must be numbered HIST 300 or above. Selection of the specific courses to fulfill the requirements should be done in consultation with a member of the department faculty.

Transfer students: At least twelve credits (3 courses) of the total needed for the history minor must be taken at the University of St. Thomas or in a St. Thomas approved study abroad program. 200- and 300-level transfer courses require the approval of the department chair in order to be counted toward the minor.

HIST 111 Origins of the Modern World to 1550 (4 credits)
This course examines significant political, social, economic, religious and cultural developments of ancient Near East, ancient India, Greco-Roman civilizations, ancient and medieval China, ancient Japan, Islamic civilization, ancient African and American societies, and Medieval and Renaissance Europe. As beliefs and social-political concepts and practices of various civilizations formulated and developed during this period still heavily influence our modern world, this course provides a foundation to our understanding of the highly interdependent and interrelated contemporary world. This course fulfills the Historical Studies requirement in the core curriculum.

HIST 112 The History of the Modern World since 1550 (4 credits)
The Modern World Since 1550 surveys the sixteenth century European foundation and expansion throughout the world down to the end of the twentieth century. The course examines the resulting breakthroughs in communication and cultural exchanges between Western civilization and the Middle East, Asia, Africa, and Latin America. Emphasis is placed on the emergence of an interdependent global civilization. This course fulfills the Historical Studies requirement in the core curriculum.

HIST 113 Early America in Global Perspective (4 credits)
Social, political, cultural, and economic history of the peoples of North America from the European-American encounter through the aftermath of the U.S. Civil War. Special emphasis is given to the relation of minority groups (American Indians, African Americans, Hispanic peoples, European immigrants, etc.) to the dominant culture. Major themes include: colonization, slavery, revolution, nation building, territorial expansion, industrialization, reform movements, nativism, sectionalism, and the Civil War. This course fulfills the Historical Studies requirement in the core curriculum.
HIST 114 The Modern U.S. in Global Perspective (4 credits)
Social, political, cultural, and economic history of the peoples of the United States from the Reconstruction period following the Civil War to the present. Special emphasis is given to the relation of racial minorities, ethnic groups, and immigrants to the dominant culture, and to the changing role of the U.S. within its larger global context. Major themes include: Reconstruction, domestic and overseas expansion, industrialization, racism and nativism, world wars, cold war, movements of liberation and reform, and selected contemporary issues. This course fulfills the Historical Studies requirement in the core curriculum.

HIST 115 The World Since 1900 (4 credits)
This course is an introduction to the history of the world since 1900. Students will learn about the historical processes that led to the emergence of an interdependent world. Topics will include: the establishment of Europe's world hegemony in the years leading up to World War I, the internal conflicts which beset European civilization in the years between the wars, in particular, the rise of Communism and Fascism and the world economic crisis of the 1930s which pushed Europe and Asia toward World War II. Students will also examine the character of the world order that emerged after 1945, the origins of the Cold War between the United States and the Soviet Union, and the problems of some of the nations newly emerging from colonial domination. Finally, we discuss the role of religion and international politics in one major world region: the Middle East. This course fulfills the Historical Studies requirement in the core curriculum.

HIST 116 African American History in Global Perspective (4 credits)
An introductory social history survey of African-American experience in global perspective. This course will cover developments from the beginnings of the trans-Atlantic slave trade through the present. Topics include: West African cultures; origins of the international slave trade; African American life in the colonies and during the Revolution; development of slavery in global comparative perspective; resistance to slavery; and the role of African Americans in the Civil War and Reconstruction eras; Jim Crow culture; African American culture; migration; black nationalism and independent Africa; the freedom movements of the North and South; and African American popular culture. This course fulfills the Historical Studies requirement in the core curriculum.

HIST 118 The Middle East and North Africa in Global Perspective (4 credits)
This course will introduce students to the history and cultures of the Middle East and North Africa with special attention to the impact of successive Islamic movements that shaped the modern-day political system of Islam and that continues to inform their interactions with Europe and the West today. The organizing theme of the course is “Contact and Change,” which will afford an opportunity to examine two of the principal challenges facing historians: accounting for change and understanding people and societies separated from us by space and time. This course fulfills the Historical Studies requirement in the core curriculum.

HIST 119 East Asian Civilizations in Global Perspective (4 credits)
This course uses a culture of East Asia (China or Japan) as a focal point for investigating the history of the region. Students will gain a broad-based historical and cultural understanding of East Asia in its global context, beginning with the origins of this culture, and including its inter-regional connections and its encounters with the West. In this way, this course addresses the preconception that East Asia existed unchanged until the arrival of Europeans. The theme of this course is “Contact and Change,” which will afford an opportunity to examine two of the principal challenges facing historians: accounting for change and understanding people and societies separated from us by space and time. This course fulfills the Historical Studies requirement in the core curriculum. Fall semester focuses on Japan; spring semester focuses on China.

HIST 203 Ancient Egypt and the Near East (4 credits)
A historical, comparative survey of the origins and diversity of human societies in northeastern Africa (Egypt, Nubia) and western Asia (Anatolia, Levant, Mesopotamia, Arabia, Persia), from the earliest organized political and religious communities to the Arab conquest (8000 B.C. to A.D. 750). Historical processes of special emphasis will include: transition to agriculture; urbanization; state and empire building; emergence of major religious traditions; migrations and cultural crosscurrents. Topics will be explored taking into account the latest textual and archaeological evidence. The course should provide historical understanding of the current ethnic, linguistic, and religious diversity in the region.

HIST 205 The Ancient Greek World (4 credits)
This course is a study of ancient Greek social structures, political processes, culture, beliefs, and moral values, from the Mycenaean society in the Bronze Age to the Hellenistic world of Alexander’s legacy. The objective is to learn about major social, political, economic, and cultural change over time in the Greek world, with regard to the wider context of the surrounding cultures. We examine textual and material evidence in order to learn about the nature, value, and explication of primary sources and about historical, archaeological and anthropological methods of inquiry and analysis. Overall, we seek to understand the historic roots of modern issues and the relevance of past experiences, while keeping abreast of recent research and current scholarly debate.

HIST 208 History of the Roman World (4 credits)
From Britain to Africa and from Spain to Iran, the Roman Empire seemingly united diverse peoples and cultures. All roads led to Rome, the City - Urbs, a cosmopolitan and overcrowded metropolis. In this course we study written records and material remains
from the beginnings of Rome in the eight century BCE to the late Empire in the fourth century of our era. We follow political, social, economic, and cultural changes over time, examining a variety of evidence and voices and keeping abreast of current problematic areas and scholarly debate. The Roman material is supplemented with comparative evidence from non-Roman societies within and bordering the Empire, as we account for the relevance of past experiences to our current issues.

HIST 210 Modern Latin America, 1800 to the Present (4 credits)
A survey of the historical and cultural developments of Latin America from the movement for Latin American independence to the present. Selected topics include: the struggle for social justice, political instability, economic dependence, race relations, revolution, rural societies, militarism and the relationship between the United States and Latin American countries. This course fulfills the Human Diversity requirement in the core curriculum.

HIST 222 Early Modern Europe, 1450-1750 (4 credits)
Political, religious, and cultural development of the early modern Europe: Late Renaissance; Religious Reformations; Age of Discovery and the rise of the Atlantic Economy; State building in Early Modern Europe; the New Science.

HIST 223 A Survey of Irish History: Celtic Ireland to 1972 (4 credits)
As a survey of Irish History, the course covers early Irish history and society, the Viking and Norman invasions, and special attention is given to the early modern period and the origins of Ulster during the Tudor-Stuart Period in English History. In the 18th century the origins of Irish nationalism and the Rising of 1798 is highlighted. In the 19th century the course covers Catholic Emancipation, the Great Famine and emigration and the movement for Home Rule. Twentieth century Ireland includes the creation of the Irish Free State and the history of contemporary Ireland to the present.

HIST 225 The Making of Modern Europe, 1750-1914 (4 credits)
This course is a close examination of the cultural, social, economic, and political development of Europe from the Age of Enlighten-ment to the outbreak of WW I. The course will investigate Europe’s transformation from pre-modern to modern and the continent’s rise to hegemony throughout a very long nineteenth century. Topics include, but are not limited to, Enlightenment and enlightened absolutism, French Revolution, liberalism, Napoleonic Wars, nationalism and the rise of the nation-state, 1848 revolutions, origins of Communism, Crimean War, Colonialism, and the unification of Italy and Germany.

HIST 226 Modern Europe since 1914 (4 credits)
This course is a close examination of twentieth century European history or, as some historians refer to it, the “short twentieth century” of the “dark continent.” It follows the cultural, social, economic, and political development of Europe through wars and re-construction. Topics include, but are not limited to, imperial and national rivalry, WW I and its aftermath, Russian Revolution, Fascism and Nazism, WW II and its aftermath, Cold War and the division of Europe, 1989, and the emergence of the European Union.

HIST 240 Foundations of Chinese Civilization (4 credits)
This course introduces students to the formation and evolution of fundamental elements of Chinese civilization to about 1800. Topics include: major Chinese thought, Confucianism, Taoism and Legalism with special emphasis on how Confucianism became a prevailing influence on Chinese government, family and society; the development of the Chinese imperial government including the Civil Service Examination; the flourishing of Buddhism in a Confucian China; Chinese written characters, calligraphy and poetry; the cosmopolitan T’ang dynasty; the T’ang-Sung commercial transformation; the Mongol rule in China; and the state and society before encountering Western expansion. This course fulfills the Human Diversity requirement in the core curriculum.

HIST 241 The History of Modern China (4 credits)
This course studies the impact of Imperialism on Chinese state and society and China’s subsequent transformation from about 1800 to the 1980s. Topics include: early Chinese and Western contacts; the Canton System; the Opium War and unequal treaties; China’s reforms and domestic tensions — the Taiping Rebellion, the Boxer Uprising and the 1911 Revolution; the May Fourth cultural icono-clasm; Chiang Kai-shek and the Nationalist government; the Sino-Japanese War; the nature of Mao Zedong’s Communism; the Great Proletarian Cultural Revolution; Deng Xiaoping, revisionism and the democratic crackdown. This course fulfills the Human Diversity requirement in the core curriculum.

HIST 244 Modern East Asia (4 credits)
In this course, we will read about and discuss the development of “modern” societies in China, Korea, and Japan from early modern times to the present. We will focus on problems such as empire, historical memory, and the formation of modern nation-states. Readings include memoirs and other personal writings as historical texts, as a way to understand the times.

HIST 253 Cities of the Middle East (4 credits)
A survey of the history of major cities in the Middle East and Africa. This course will trace the region’s history through the foundation and development of the cities that served as the centers of the significant political entities since 600 A.D. Each week will focus on the
symbolism and functionality of urban space and architecture as well as the role of politics, religion, and global trade in the formation of one of the following cities: Jerusalem, Mecca and Madina, Baghdad, Cairo, Istanbul, Isfahan, Beirut and Algiers. The course will seek an answer to the question of whether history shapes the city or the city shapes history.

**HIST 262 American Colonial History (4 credits)**
An examination of several aspects of colonial history including the European background to colonization, and the political, economic and social development of British North American colonies to the end of the Seven Years War.

**HIST 266 Minnesota History (4 credits)**
Minnesota from the French explorations of the 17th century to the present, with an examination of political, social and economic development and with intensive research in selected topics of local history.

**HIST 268 History of Women in the United States (4 credits)**
An overview of the changing social, cultural and political roles of women from the 17th century to the present. Topics include: family economy, slavery and servitude, industrialization of home and workplace, voluntary associations, women social activists, women’s rights, and various approaches to achieving social equality for women. This course fulfills the Human Diversity requirement in the core curriculum.

**HIST 297, 298 Topics (4 credits)**
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, [https://banner.sthomas.edu/pls/banner/prod/bwckschd](https://banner.sthomas.edu/pls/banner/prod/bwckschd).

**HIST 310 The Making of Europe: Middle Ages to 1000 (4 credits)**
Origins of the middle ages: the late Roman Empire; Germanic migrations and settlements; the Frankish Dynasties of the Merovin-gians and Carolingians; Anglo-Saxon England; development of the early Medieval Papacy and Western Church. Recovery of Byzantine Empire; Islamic World under Umayyad and Abbasid Caliphates.
Prerequisite: One 100-level history course.

**HIST 311 The Dawn of a New Era: Europe from 1000 to 1450 (4 credits)**
Rebirth of Europe in the high and late Middle Ages: the Feudal Revolution; the world of knights and chivalry; the emergence of Western Monarchies; the Crusades; the Renaissance of the 12th Century; the rise of Medieval Christendom in the 13th century: papacy; mendicant orders; universities; heresy; Inquisition. Political and economic crises of the 14th century. Ecclesiastical crises of the later middle ages. Recovery and renaissance in the 15th century.
Prerequisite: One 100-level history course.

**HIST 322 Tudor and Stuart Britain, 1485-1714 (4 credits)**
Prerequisite: One 100-level history course.

**HIST 324 Britain Since 1815 (4 credits)**
An examination of the British economy, society, politics and culture since 1815. The course examines the rise of modern Britain through a study of industrialization, democratic government, the empire, the two world wars and post 1945 issues such as the Cold War and the European Union.
Prerequisite: One 100-level history course.

**HIST 327 18th Century Ireland and England (4 credits)**
The course offers an examination of the predominant themes which run through 18th century Irish and English history: 17th century backgrounds (The Restoration, the Glorious Revolution and the Jacobite War); Queen Anne and The Ascendancy; Hanoverian England and Ireland; Jonathan Swift and the 18th century Enlightenment; colonialism and the American Revolution; The Industrial Revolution; England and Ireland in the French Revolutionary Era; and Wolfe Tone’s Rising of 1798.
Prerequisite: One 100-level history course.

**HIST 328 The French Revolution and Napoleonic Era (4 credits)**
Prerequisite: One 100-level history course.
HIST 333 East-Central Europe: From Monarchy to the European Union (4 credits)
This course is an examination of the history of East-Central Europe from 1848 to 2010. The subject of our study is one of the most fascinating places one can learn about. The “other Europe,” as some people refer to it, is a multietnic and multicultural region with a turbulent history. The geographical focus of our course will be Poland, Czech Republic, Slovakia, Hungary, and the former Yugoslavia. The course allows students to gain knowledge of the region’s history and culture. It promises to be a captivating ride, for the “land between” often served as a laboratory for the various ideological and political movements of the nineteenth and twentieth century (liberalism, nationalism, fascism, socialism/communism, capitalism etc).
Prerequisite: One 100-level history course.

HIST 348 Japan: History Through Literature (4 credits)
This course examines modern Japanese history through novels and short stories written between the turn of the century to the present. We will consider how and why fiction can be used as historical texts even while it has not “facts.” As we read and analyze works of literature as historical texts we will address the question, “How do various people negotiate change at different points in time?” Throughout the course we will discuss themes such as modernization, empire, postwar society, and consumer culture.
Prerequisite: One 100-level history course.

HIST 349 History of the Ottoman Empire (1300-1922) (4 credits)
This course is a survey of the history of the Ottomans from its origins as a small medieval principality in Asia Minor to a major global power in the sixteenth century, and to its eventual disintegration by the end of World War I. The course will concentrate on the main political, social and cultural institutions of the Ottoman society, and how these changed over time. It will also introduce students to some of the major themes and recent trends in Ottoman historiography, including debates on the origins and decline of the Ottomans, the issue of Ottomans’ legacy for the successor states, as well as the growing research on the formerly underrepresented groups such as women, minorities, etc.
Prerequisite: One 100-level history course.

HIST 353 History of the American Revolution (4 credits)
A study of the American Revolutionary Period from the end of the Seven Years’ War through the Constitutional Convention of 1787. Emphasis will be placed on the changes wrought by the Revolution in American society, politics and constitutional arrangements.
Prerequisite: One 100-level history course.

HIST 355 The Civil War Era (4 credits)
The American Civil War was a pivotal event, followed by incomplete efforts at changing the shape of the nation through Reconstruction. The causes of the war, its conduct on both sides, and the consequences of this “War of Rebellion,” including Reconstruction, form the three parts of this course.
Prerequisite: One 100-level history course.

HIST 358 Twentieth-Century United States (4 credits)
An intensive study of 20th-century United States domestic history, with emphasis on social change and social thought. Topics include: reform movements, industrialization, urbanization, the economy, the homefront, consumer culture, suburbanization, liberation movements, and deindustrialization.
Prerequisite: One 100-level history course.

HIST 365 U.S. Constitutional History (4 credits)
The origins and evolution of the American constitutional system from the colonial period to the present. Students explore the constitutional system created by Americans, and the way in which this system and its corresponding institutions have articulated Americans’ constantly changing perception of the proper relationship between the people and their government.
Prerequisite: One 100-level history course.

HIST 366 History of the American Catholic Church (4 credits)
Analysis of the American Catholic church from the mission era through the post Vatican II period, with emphasis on the diverse populations who have comprised the American Catholic church throughout its history. The focus of the course examines the changing relationship between Catholics, their church, and American society. Topics analyzed include anti-Catholicism and nativism; slavery and the other forms of racial and ethnic injustice; economic justice and peace; ethnic and gendered spiritualities; the nature of the pre-Vatican II and post-Vatican II Catholic church. Extensive use of sources generated by minority American Catholics emphasize the rich thought and religious experiences of Catholics from diverse backgrounds. This course fulfills the Human Diversity requirement in the core curriculum.
Prerequisite: One 100-level history course.

HIST 371 History of U.S. Foreign Policy (4 credits)
History (HIST)
Historical analysis of principles and conduct of U.S. foreign policy; emergence of the United States as a world power; isolationism; interventionism; development of the cold war. Emphasis may vary from year to year.
Prerequisite: One 100-level history course.

HIST 372 Vietnam and the United States (4 credits)
The causes, events, personalities and consequences of U.S. involvement in the Vietnam War. Background on Vietnamese culture, nationalism, colonial status, wartime occupation, social revolution, and civil war. Role of cold war culture and politics, the media, public opinion, and military strategy in defining the U.S. commitment in Southeast Asia. Analyzes the strategies of opponents of the war and the aftermath of the war in the U.S. and Vietnam. This course fulfills the Human Diversity requirement in the core curriculum.
Prerequisite: One 100-level history course.

HIST 386 Historical Archaeology (4 credits)
The course offers an understanding of archaeological theories, methods, and interpretations in discovering, reconstructing, and understanding past societies in Africa, the Americas, Asia, Australia, and Europe. Archaeology primarily deals with material remains of societies and time periods that lack written documents. Historical archaeology combines the methods of archaeology with analysis of written and oral sources. Together, archaeology and history provide a critical reappraisal of historical events and cultural change around the world.
Prerequisite: One 100-level history course.

HIST 463 Capstone Seminar in European History (4 credits)
History seminars involve students (primarily, though not exclusively, majors and minors) with the methodological and historiographical dimensions of research in the seminar’s topic. Students in the seminar will complete and present to other members of the class a significant research project.
Prerequisites: at least three History courses numbered 200 or above, including at least one of the following: HIST 222, 223, 225, 226, 310, 311, 322, 324, 328, 333.

HIST 464 Capstone Seminar in Non-Western History (4 credits)
History seminars involve students (primarily, though not exclusively, majors and minors) with the methodological and historiographical dimensions of research in the seminar’s topic. Students in the seminar will complete and present to other members of the class a significant research project.
Prerequisites: at least three History courses numbered 200 or above, including at least one of the following: HIST 240, 241, 244, 253, 348, 349.

HIST 465 Capstone Seminar in History of the Americas (4 credits)
History seminars involve students (primarily, though not exclusively, majors and minors) with the methodological and historiographical dimensions of research in the seminar’s topic. Students in the seminar will complete and present to other members of the class a significant research project.
Prerequisites: at least three History courses numbered 200 or above, including at least one of the following: HIST 210, 262, 266, 268, 353, 355, 358, 366, 371, 372.

HIST 475, 476 Experiential Learning (2 credits)
HIST 477, 478 Experiential Learning (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

HIST 489, 490 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.srthomas.edu/pls/banner/prod/bwckschd.

HIST 269, 389, 491 Research (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

HIST 243, 393, 495 Individual Study (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

HUMAN RESOURCE MANAGEMENT
See Business Administration
INTERDISCIPLINARY COURSES (IDSC)

Cross-College Program
Michael C. Jordan, Associate Vice President for Undergraduate Studies and Academic Advisement, director

IDSC 150 Development of the Natural World (4 credits)
Minneapolis and St. Paul owe their existence and location to the Mississippi River. The “Mighty Mississippi” provides the focal point for an integrated exploration of the scientific disciplines of astronomy, biology, chemistry, geology, and physics. The past and present human impact on the water and land is also explored, including environmental and life style sustainability issues. Consisting of lectures, discussions, labs, and field trips, this course is designed for non-science majors and fulfills the laboratory science core requirement. This course also addresses the science content and skills required by the state of Minnesota for elementary and middle school teachers and models an inquiry-based pedagogy.

IDSC 180 English as a Second Language I (4 credits)
Special and individual attention to speaking, writing, reading, listening and study skills. For students whose native language is not English. Offered in fall semester.

IDSC 181 English as a Second Language II (4 credits)
Continuation of IDSC 180. Offered in spring semester.
Prerequisite: IDSC 180 or permission of instructor

IDSC 260 Environment and Agriculture: Sustainable Food Systems (HECUA) (4 credits) (summer term)
Explore sustainability first-hand through the lens of the U.S. food system. This interdisciplinary, field-based program analyzes the environment, economic, political, social, and cultural issues that define modern farming. A three-day farm stay is included in the program. Students will use critical frameworks to examine a variety of farms, farming communities, and research and food production facilities, and to understand the complex connections between the environment and agriculture. An optional 2-credit internship (a minimum of eighty hours) is available for students who want to contribute more deeply to sustainable agriculture, either directly on a farm or in an urban organization.

IDSC 261 Civil Rights Movement: History and Consequences (HECUA) (4 credits) (summer term)
Critically examine the events of the Civil Rights Movement by visiting important sites and interviewing leaders of the movement. After several days in the Twin Cities, students embark on a two-week field study tour through the South. A final week of integration seminars in the Twin Cities help students bring their experiences back to bear on their own lives. An optional 2-credit volunteer experience/internship is available at a Twin Cities-based organization addressing current issues of civil and human rights; eighty hours or structured volunteer work takes place within an eight-week period in July and August.

IDSC 280 Topics in American Culture (4 credits)
An interdisciplinary approach to a particular period in American life (the 1920s, the 1950s, etc.). Course will seek to isolate the basic themes that characterized the cultural life of the period and examine their manifestations in the art, music, literature and popular culture of the era. Particular emphasis will be given to the interdisciplinary perspective in approaching the topic.

IDSC 284 Introduction to Teach Religion (2 credits)
The course includes a six-hour seminar including at least three basic skills related to the act of teaching as well as a year of teaching in a local parish religious education program once a week. The teaching placement is done through consultation with each student and cooperating teachers who have a sound understanding of the life and ministry of teacher education in the church. Specific seminar content will enable students to do the following: define the term “concept” and explain how key concepts are developed by learners; explain the relationship of objectives to overall goals of religious education; define the term “strategy” and develop workable plans for teaching within a typical church/school setting.
Prerequisite: Acceptance into St. John Vianney Seminary

IDSC 287 The German Cultural Heritage (4 credits)
An historic survey of German cultural development from the beginnings in antiquity through the present. Attention is given to significant events in the history of Germany, Austria, Switzerland and Liechtenstein and the development of historic events into the living German culture of today. Events and significant achievements in the areas of politics, music, literature, science, philosophy and theology are examined. The course is usually offered online with no classroom meetings.

IDSC 291 The Anatomy of Violence (4 credits)
The purpose of this course is to increase the knowledge and understanding of cultural, racial and interpersonal violence and de-
Interdisciplinary Courses (IDSC)

IDSC 293 Grief, Loss and Coping (4 credits)
This course focuses on understanding loss and grief in the human experience. Emphasis is given to recognizing loss in various forms and to understand grief from different perspectives. Content includes theory from psychology, sociology, social work, and medicine/nursing along with materials from literature, lay persons and a spectrum of multicultural influences. Skills are taught for coping with personal loss and for relating in helpful ways to others who are experiencing grief. Special topics related to death and dying in our society including trauma, suicide, child loss and chronic illness are covered. A variety of teaching methods will engage learners to better understand the many influences on grief, loss and coping.

IDSC 295, 296 Topics (2 credits)
IDSC 297, 298 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

IDSC 310 Washington Semester (16 credits)
The University of St. Thomas is affiliated with the American University’s Washington Semester Program, Washington, D.C. Students selected to participate in the program have the option of studying one of the following: American Politics; Economic Policy; Education Policy and Special Education; Foreign Policy; International Business and Trade; International Environment and Development; Journalism; Justice; Peace and Conflict Resolution; Public Law; Transforming Communities; Visual and Performing Arts. The Washington Semester involves seminars, research and internships drawing on governmental and private organization resources in the Washington, D.C. area. Nominations to participate are made by the university, with final acceptance decided by American University.

IDSC 313 A Vision of Community Action and Change in Guatemala (4 credits)
The majority of this course will occur among the Mayan people of the Guatemalan highlands. Students will study the politics, history, cultures and economy of Guatemala as a case study on some of the major issues facing many Third World countries at the beginning of the 21st century. Particular attention will be given to topics such as Guatemala’s struggles over ethnic and national identity, its place in the global economy, its peace process, and the role of the church. Speakers, readings, and field trips will allow students to compare alternative models of social change and human development in the region. Complementing academic engagement with these issues, students will engage in practical service-learning activities that relate to the goals of the course. The class will also follow the VISION Program’s six-point philosophy.
Prerequisite: Permission of the instructor

IDSC 320 Seminar in the Human Side of Medicine: Patient and Physician (2 credits)
This course will concentrate on learning about how patients, their families, and professionals who care for them experience illness; how stories patients tell become the basis for diagnosis and therapeutic action; what it’s like to be a physician; and the therapeutic relationship. Didactic presentations, interactive discussion using stories from patients’, students’ and the instructor’s experience, and related literature will provide the content of the course. Others, including faculty members, professional colleagues, and patients will help provide material for the course work and participate in the discussions.
Prerequisite: Sophomore, junior or senior student interested in a career in medicine or related health profession

IDSC 330 Renaissance Program Internship (0 credit)
Participants in the Renaissance Program complete one internship in a career-related field. Students are encouraged to be creative and to search for inventive ways of implementing a plan of practical work experience. A variety of options and opportunities is available through the Career Center.

IDSC 333 Renaissance Program Studies (4 credits)
In accord with the Renaissance Program’s commitment to foster the integration of theoretical and practical learning, the design of this course is to promote the investigation of some theme or problem having a particularly interdisciplinary focus. This course will rely upon concepts and models stemming from both theoretical and practical sources in an attempt to further integrate aspects of these distinct branches of higher learning. Among the types of issues or topics that could fall within the scope of this course are: the meaning and value of work; the nature and place of technology; the relationship of individual to community; views of self – as worker and theoretician; models and parameters of authority.

IDSC 395 Introduction to Pastoral Ministry (2 credits)
This is a semester-long pastoral education program that provides for personal involvement and the practical exercise of pastoral
ministry. Designed to implement the church’s documents and the U.S. Bishops’ Program for Priestly Formation, emphasis is placed on the future pastoral ministry of the student. Each student is placed in one of three broad areas of ministry: family crises; chemical dependency counseling; and death, dying and grief arenas. Training and on-going supervision by qualified professionals is provided. Prerequisite: Acceptance into St. John Vianney Seminary

**IDSC 455 Reading for Social Change (HECUA) (4 credits)**
In this course, students critically examine the roles that creative writers and literature play in societies. Through readings and discussion, they identify ways in which creative writers and the literary arts impact social issues and help to create social change. Students read and critique a wide variety of academic and creative texts. They produce critical and creative work examining the theories raised in readings and discussion.

**IDSC 456 Writing for Social Change: A Writing Workshop in Fiction, Poetry, and Creative Nonfiction (HECUA) (4 credits)**
This seminar challenges students to “test” the theoretical, political, social, and historical perspectives developed in Reading for Social Change by writing fiction, poetry, and creative nonfiction, and by engaging in intensive workshops to critique the work they produce. Through large and small group critiques, one-on-one mentoring, and an ongoing commitment to move their work from the initial “inspiration” stage into the work and craft of revision, students develop a strong portfolio of both creative and critical/analytical writing.

**IDSC 457 Writing for Social Change: Internship Integration Seminar (HECUA) (4 credits)**
In the Integration Seminar, students reflect on the successes and challenges of their internships and integrate their internship learning and their work in the Reading for Social Change and Writing for Social Change Seminars.

**IDSC 458 Writing for Social Change: Internship (HECUA) (4 credits)**
Writing for Social Change students work 16-20 hours a week, for a minimum of 200 hours, in an internship. Students may elect to work as reading and writing tutors with at-risk students in a K-12 school, or they may elect to work with a literary arts organization such as The Loft, SASE: The Write Place, the Minnesota Center for Book Arts, or one of the many small literary presses located in the Twin Cities. The goal of internship placements is to establish an internship that resonates with Writing for Social Change program themes, meets a need at the hosting organization, and fits students’ individual interests and objectives. The internship is comprised of professional, project-related work similar in composition to a staff position, with clerical duties limited to those specific to the students’ project or at the same shared level as other staff.

**IDSC 462 ESTC: Adaptive Ecosystem Management (HECUA) (4 credits)**
In Adaptive Ecosystem Management students gain a practical hands-on understanding of the basic ecological and physical processes that underlie environmental degradation. They develop a basic understanding of how to set up large and small scale ecological monitoring projects, and how to evaluate environmental decision making on appropriate time and spatial scales.

**IDSC 463 ESTC: Social Dimensions of Environmental Change (HECUA) (4 credits)**
In Social Dimensions of Environmental Change students explore how world views impact a society’s underlying value system regarding the human relationship with the natural world. The course situates local environmental challenges in the context of global sustainability, and encourages students to reflect about the meaning of civic responsibility in local and global contexts.

**IDSC 464 ESTC: Field Research Methods and Investigation (HECUA) (4 credits)**
In the Field Methods course students have an opportunity to work with scientists and community members to conduct research in a methodologically rigorous manner. Students design and carry out either a social science or natural science based field project.

**IDSC 465 ESTC: Internship and Integration Seminar (HECUA) (4 credits)**
In their internships students interact with one of the most active networks of citizens’ organizations in the country. Practitioners in the Twin Cities work on a wide range of environmental issues, and Minnesota’s environmental policies are among the most progressive in the nation. Internships get students directly involved in this dynamic work.

**IDSC 466 City Arts: Creating Social Change: Art and Culture in Political, Social, and Historical Context (HECUA) (4 credits)**
Students critically examine the notion of dominant culture and the purposes of art and popular culture. They identify ways in which the arts and popular culture impact urban social issues and create social change. Students gain the tools to become critical analysts as both consumers and producers of art and popular culture.

**IDSC 467 City Arts: Arts Praxis: Social Justice Theory and Practice in the Field (HECUA) (4 credits)**
In the field seminar, students “test” theoretical perspectives by meeting with artists, policy makers, and community activists, as well as attending and participating in art and cultural activities. Students observe how art and popular culture maintain or change social structures.

**IDSC 468 City Arts: Internship (HECUA) (4 credits)**
Interdisciplinary Courses (IDSC)

Each student works in a half-time internship, with a wide variety of placements available, including arts organizations, artistic groups, and community organizations using the arts in programs and service.

IDSC 469 City Arts: Internship Seminar (HECUA) (4 credits)
Students reflect on their internship experience with other students in the program and connect their real-life experience with the learning taking place in the reading and field seminars.

IDSC 471 Metro Urban Studies Term (MUST) Seminar: Contested Theories of Poverty, Inequality, and Social Change (HECUA) (4 credits)
MUST focuses on issues of poverty and inequality and ways to address these critical issues. Students explore key institutions that impact urban poverty and inequality, namely the economy, education and welfare. The role of urban sprawl, segregation and racial, class and gender discrimination are also analyzed. Students examine an array of strategies to rebuild the city more equitably.

IDSC 472 Metro Urban Studies Term (MUST) Seminar: Social Policy and Anti-Poverty Strategies in Theory and Practice (HECUA) (4 credits)
Students meet with a wide variety of community leaders, educators, urban planners, corporate executives and others as a way to connect the theories studied with actual practice in the field.

IDSC 473 Metro Urban Studies Term (MUST): Urban Studies Internship (HECUA) (4 credits)
Each student works in a half-time internship, with a wide variety of placements available, including public, private and community non-profit organizations working on urban issues.

IDSC 474 Metro Urban Studies Term (MUST): Urban Studies Internship Seminar (HECUA) (4 credits)
Students reflect on their internship experience with other students in the program and connect their real-life experience with the learning taking place in the reading and field seminars.

IDSC 475, 476 Experiential Learning (2 credits)
IDSC 477, 478 Experiential Learning (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

IDSC 479, 480 Honors Seminar (2 credits)
These interdisciplinary seminars are intended to develop integrating insights through an analysis of topics chosen from different disciplines. Often they are taught by two faculty members or by a visiting lecturer who holds one of the endowed chairs at the university. Although these seminars are part of the Aquinas Scholars program, any student who receives the permission of the instructor(s) may enroll on a space-available basis. (IDSC 479 is used if the seminar has been approved to partially fulfill a requirement in the core curriculum.)

IDSC 481 Seminar in International Studies (4 credits)
Directed readings and discussions on political, economic and historical aspects of the international system and the completion of a major research paper on a specific topic to be chosen in consultation with the instructor. The seminar will feature guest lecturers in political science, economics and history.

IDSC 483, 484 Seminar (2 credits)
IDSC 485, 486 Seminar (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

IDSC 487, 488 Topics (2 credits)
IDSC 489, 490 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/bwckschd.

IDSC 269, 389, 491 Research (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

IDSC 243, 393, 495 Individual Study (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.
This major seeks to give the student a basic understanding of the contemporary international system. It combines study in economics, history and political science with a concentration in one of these fields, along with the study of a foreign language beyond the College’s general education requirement. The program enables students to relate international interests to a broad range of careers including government, international business, nonprofit associations and teaching.

Students graduating with a major in international studies should have adequate preparation for their professional lives, and the capacity for intellectually stimulating lives. They will be capable of critical thought and writing in the discipline. They will have pursued opportunities for broader governmental and international experience, and should be well-prepared to undertake post-baccalaureate studies.

**Major in International Studies**

ECON 251 Principles of Macroeconomics (4 credits)
GEOG 113 World Geography (4 credits)
HIST 112 The Modern World Since 1550 (4 credits) OR HIST 115 The World Since 1900 (4 credits)
IDSC 481 Seminar in International Studies (4 credits)
POLS 104 American Government in Comparative Perspective (4 credits)

*Plus:*

Twenty-eight credits from the following list or other approved globally-focused courses. A student must choose 16 credits from one discipline, and the remaining 12 must include courses from each of the other two disciplines.

ECON 252 Principles of Microeconomics (4 credits)
ECON 341 Economics of International Finance (4 credits)
ECON 342 International Trade (4 credits)
ECON 345 Economics of Development and Growth (4 credits)
ECON 346 Country and Area Studies in Economics (4 credits)
ECON 349 Comparative Economic Systems (4 credits)
HIST 210 Modern Latin America, 1800 to the Present (4 credits)
HIST 225 The Making of Modern Europe, 1750 to 1914 (4 credits)
HIST 226 Modern Europe since 1914 (4 credits)
HIST 240 Foundations of Chinese Civilization (4 credits)
HIST 241 History of Modern China (4 credits)
HIST 244 Modern East Asia (4 credits)
HIST 253 Cities of the Middle East (4 credits)
HIST 324 Britain Since 1815 (4 credits)
HIST 333 East-Central Europe From Monarchy to the European Union (4 credits)
HIST 347 The Modernization of Taiwan, Hong Kong, and China (4 credits)
HIST 348 Japan: History through Literature (4 credits)
HIST 349 History of the Ottoman Empire (4 credits)
HIST 371 History of U.S. Foreign Policy (4 credits)
HIST 372 Vietnam and the United States (4 credits)
POLS 225 Introduction to World Politics (4 credits)
POLS 320 American Foreign Policy (4 credits)
POLS 321 Comparative Foreign Policy (4 credits)
POLS 326 International Law and Organizations (4 credits)
POLS 328 International Security (4 credits)
POLS 350 Comparative Politics of the New Europe (4 credits)
POLS 352 Politics of the Developing World (4 credits)
POLS 354 Politics of Post-Soviet States (4 credits)
POLS 356 Politics of South Asia (4 credits)
POLS 424 Seminar in International Politics (4 credits)
POLS 454 Seminar in Comparative Politics (4 credits)

**GEOG** - The Department of Geography from time to time offers courses on the geography of selected regions of the world. With the approval of the director of international studies, these courses may be elected to fulfill non-concentration requirements.
Justice and Peace Studies (JPST)

Allied requirements
At least twelve credits beyond the core curriculum requirement in a particular modern foreign language

Recommended courses:
While the student who might eventually seek employment in international business may choose any courses in business administration, the following four courses would be most appropriate for gaining general background in the field:
ACCT 210 Introduction to Financial Accounting (4 credits)
BLAW 301 Legal Environment of Business (4 credits)
MGMT 305 Management and Organizational Behavior (4 credits)
MKTG 300 Principles of Marketing (4 credits)
STAT 200 Statistics (4 credits)
CISC 200 Introduction to Computer Technology and Business Applications (4 credits)

ACTC courses:
A student with particular academic and/or career interests should consult with the director about courses offered by the Associated Colleges of the Twin Cities that would be appropriate to the major.

Opportunities for studying human diversity:
Students should particularly note the opportunities in the major for enhancement of their understanding of other cultures. Courses with a non-Western focus meeting the requirements of the major are available both on campus and at the other ACTC schools.

Opportunities for study abroad:
Students majoring in international studies should seriously consider one or more of the opportunities to study abroad offered by the International Education Center.

Opportunities for internships:
Students majoring in international studies should discuss with the director opportunities to relate academic and career interests through internship experiences in the Twin Cities or Washington, D.C.

Justice and Peace Studies (JPST)
College of Arts and Sciences, Interdisciplinary Program
O’Shaughnessy Education Center (OEC) 470, (651) 962-5420
Finnegan (JPST) (chair), Klein (JPST), Nelson-Pallmeyer (JPST)

Justice and peace studies is an interdisciplinary department designed to prepare students to be responsible critics of contemporary societies and effective agents for positive social transformation. The program offers a general major or minor, along with three optional tracks for major concentrations:

- The Conflict Transformation concentration prepares students to analyze the dynamics and identify transformative opportunities in conflicts at multiple levels, from interpersonal to international, while developing practical skills in mediation and conflict resolution through partnerships with local practitioners and organizations that exemplify best practices in the field.
- The Public Policy Analysis and Advocacy concentration develops social analysis skills for public policy formation, evidence-based research and argumentation, as well as communication and networking skills for effective advocacy around issues such as environmental sustainability and climate change, foreign policy and peacebuilding, and economic justice and social welfare.
• The Leadership for Social Justice concentration helps students anticipate and begin preparing for the full arc of a career in which successful community organizing requires them to institutionalize the changes they seek, through social entrepreneurship and nonprofit management.

Core courses for the major and minor, and the pattern of the program in general, make use of the four stages of the Circle of Praxis:

1. Experience (actual and vicarious) of poverty, injustice, social conflict, or marginalization.
2. Descriptive analysis: Empirical study of the economic, political, social, and cultural realities of society, and the historical events that produce them.
3. Normative analysis: Moral judgment on existing societies; study of alternative possibilities; and analysis of the moral values at stake.
4. Action possibilities: Strategies and skills for transforming society from its present condition to a better condition.

The justice and peace studies program is strongly interdisciplinary and interfaith. It promotes understanding and appreciation of widely diverse ideologies, cultures, and world views. Special attention is given to the rich tradition of Roman Catholic social thought in the context of pluralistic world societies.

Students graduating with a major in justice and peace studies will understand how the circle of praxis works, as well as the role of each of its components. They will also know how to use skills associated with each component. They will know the principles of active nonviolence, how it operates to promote social change, and historical examples of its use. Students will also learn the techniques and appropriate uses of other methods of social change, with special focus on community organizing, social entrepreneurship, nonprofit management and public policy advocacy. They will be able to engage in respectful dialogue with people whose values and positions differ widely from their own. They will understand and be able to use conflict resolution skills in personal life and small groups, and they will understand how these techniques are used in inter-group and international conflicts. They will have developed the personal skills and confidence to work effectively in organizations committed to justice and peace.

While all core courses utilize all four steps of the Circle of Praxis, JPST 250 concentrates on experience and descriptive analysis, and THEO 421 concentrates on normative analysis. Others core courses focus on action possibilities. All students who major in justice and peace studies take each of the signature courses from the three concentration areas: JPST 375 Conflict Analysis and Transformation, JPST 355 Public Policy Analysis and Advocacy, and JPST 365 Leadership for Social Justice.

**Major in Justice and Peace Studies: Concentration in Leadership for Social Justice**

JPST 250 Introduction to Justice and Peace Studies (4 credits)
JPST 280 Active Nonviolence (4 credits)
JPST 355 Public Policy (4 credits)
JPST 365 Leadership for Social Justice (4 credits)
JPST 375 Conflict Analysis and Transformation (4 credits)
JPST 473 Vocational Internship Seminar (0 credits, in conjunction with internship)
THEO 421 Theologies of Justice and Peace (4 credits) — Based on student career interests, other THEO 400 classes may substitute for this course, with permission of the program director.

Significant experience engaging student directly with situation of poverty, injustice, social conflict, or marginalization (0 credits — see section below for more information)

Internship during junior or senior year (0-4 credits — see section below for more information)

Plus:
SOCI 110 Social Problems

THEO 421 Theologies of Justice and Peace (4 credits) — Based on student career interests, other THEO 400 classes may substitute for this course, with permission of the program director.

Significant experience engaging student directly with situation of poverty, injustice, violence, and/or marginalization (0 credits — see section below for more information)

Internship during junior or senior year (0-4 credits — see section below for more information)

Recommendations:
• As students fulfill their social analysis requirement in the core curriculum, they should anticipate which
of the disciplines below they will focus upon, in order to meet prerequisites for classes in this concentration.

- As students fulfill their lab science requirements in the core curriculum, they are encouraged to take one of the following courses:
  - BIOL 102 Conservation Biology
  - CHEM 101 Environmental Chemistry
  - GEOL 113 Earth’s Record

- As students fulfill their third math and science requirement in the core curriculum, they are encouraged to take the following course:
  - STAT 220—Statistics 1

*Plus at least 3 courses in one discipline from the following clusters, plus 1 course each in 2 other disciplines (5 total):*

**Economics:**
- ECON 211 Current Economic Issues (4 credits)
- ECON 252 Principles of Microeconomics (4 credits)
- ECON 326 Industry Studies (4 credits)
- ECON 333 Regional and Urban Economics (4 credits)
- ECON 370 Environmental and Natural Resource Economics (4 credits)

**Environmental studies:**
- ENVR 151 Environmental Challenges and Sustainable Solutions (4 credits)
- ENVR 212 Society and Sustainability (4 credits)
- ENVR 301 Environmental Ethics (4 credits)
- ENVR 351 Environmental Policy Formation (4 credits)

**Geography:**
- GEOG 298 Geography for Social Analysis (4 credits)
- GEOG 321 Geographic Information Systems (4 credits)
  *And one of the following:*
  - GEOG 322 Geographical Analysis (4 credits)
  - GEOG 331 Conservation Geography (4 credits)
  - GEOG 421 Applied GIS (4 credits)

**Public policy in the U.S.:**
- POLI 104 American Government in Comparative Perspective (4 credits)
- POLI 205 Introduction to the American Public Policy Process (4 credits)
- POLI 303 Urban and Metro Politics (4 credits)

**Foreign policy and international relations:**
- POLI 225 Introduction to World Politics (4 credits)
- POLI 320 American Foreign Policy (4 credits)
- POLI 321 Comparative Foreign Policy (4 credits)

**Sociology and Social Work:**
- SOCI 110 Social Problems (4 credits)
- SOCI 251 Race and Ethnicity (4 credits)
- SOCI 350 Social Inequality: Privilege and Power (4 credits)
- SOWK 281 Introduction to Social Work (4 credits)
- SOWK 391 Social Policy for Social Change (4 credits)

**Two applied communication courses:**
- COJO 111 Communication & Citizenship (4 credits)
- COJO 276 Argumentation & Advocacy (4 credits)
- COJO 320 Organizational Communication (4 credits)
- COJO 338 Political Communication (4 credits)
- COJO 366 Persuasion (4 credits)
- COJO 372 Environmental Communication (4 credits)
- JPST 370 Conflict Mediation (4 credits)
- JPST 478 Experiential Learning [internship taken for 4 hours credit]
Major in Justice and Peace Studies (generalist track)
JPST 250 Introduction to Justice and Peace Studies (4 credits)
JPST 280 Active Nonviolence (4 credits)
JPST 355 Public Policy (4 credits)
JPST 365 Leadership for Social Justice (4 credits)
JPST 375 Conflict Analysis and Transformation (4 credits)
JPST 473 Vocational Internship Seminar (0 credits, in conjunction with internship)
THEO 421 Theologies of Justice and Peace (4 credits) — Based on student career interests, other THEO 400 classes may substitute for this course, with permission of the program director.

Significant experience engaging student directly with situation of poverty, injustice, social conflict, or marginalization (0 credits — see section below for more information)

Internship during junior or senior year (0-4 credits — see section below for more information)

Plus four additional credits in descriptive analysis
Appropriate courses include:
ACST 200 Introduction to American Culture and Difference (4 credits)
BIOL 102 Conservation Biology (4 credits)
COJO 326 Modern American Rhetoric (4 credits)
COJO 328 Communication of Race, Class, and Gender (4 credits)
COJO 370 Intercultural Communication (4 credits)
COJO 430 Society, Culture and the Media (4 credits)
COJO 432 Media Structure and Power (4 credits)
ECON 211 Current Economic Issues (4 credits)
ECON 337 Economics of the Public Sector (4 credits)
ECON 339 Labor Economics (4 credits)
ECON 345 Economics of Development and Growth (4 credits)
ENVR 151 Environmental Challenges and Sustainable Solutions (4 credits)
ENVR 212 Society and Sustainability (4 credits)
GEOG 111 Human Geography (4 credits)
GEOG 113 World Geography (4 credits)
GEOG 113 The Earth’s Record of Climate (4 credits)
GEOL 115 Environmental Geology (4 credits)
HIST 116 African American History in Global Perspective (4 credits)
HIST 210 Modern Latin America, 1800 to the Present (4 credits)
HIST 371 History of U.S. Foreign Policy (4 credits)
HIST 372 Vietnam and the United States (4 credits)
IDSC 467 City Arts: Field Seminar (HECUA) (4 credits)
IDSC 472 MUST Seminar: Field Studies in the Twin Cities (HECUA) (4 credits)
POLS 225 Introduction to World Politics (4 credits)
POLS 301 American Political Behavior (4 credits)
POLS 302 Women and Politics (4 credits)
POLS 314 Constitutional Rights and Liberties (4 credits)
POLS 326 International Law and Organizations (4 credits)
POLS 350 Comparative Politics of the New Europe (4 credits)
POLS 352 Third World Politics and Government (4 credits)
PSYC 121 Social Psychology (4 credits)
PSYC 151 Cross-Cultural Psychology (4 credits)
SOCI 110 Social Problems (4 credits)
SOCI 200 Introduction to Criminal and Juvenile Justice (4 credits)
SOCI 251 Race and Ethnicity (4 credits)
SOCI 301 General Anthropology (4 credits)
SOCI 350 Social Inequality: Privilege & Power (4 credits)
SOCI 353 Global Perspectives on Gender (4 credits)
SOCI 365 Social Psychology (4 credits)
SOWK 340 Human Behavior and the Social Environment (4 credits)
Plus four additional credits in normative analysis

Appropriate courses include:
- BETH 301 Business Ethics (4 credits)
- BLAW 303 International Business Law (4 credits)
- BLAW 351 Environmental Law (4 credits)
- BLAW 352 Gender Issues and the Law (4 credits)
- CATH 401 Church and Culture: Social Dimensions of Catholicism (4 credits)
- COJO 276 Argumentation and Advocacy (4 credits)
- COJO 366 Persuasion (4 credits)
- ENGL 217 Multicultural Literature (4 credits)
- ENGL 218 Literature by Women: Critical History (4 credits)
- ENGL 337 The Literature of Human Diversity (4 credits)
- ENGL 341 Literature by Women: Critical Questions (4 credits)
- ENVN 301 Environmental Ethics (4 credits)
- IDSC 291 The Anatomy of Violence (4 credits)
- IDSC 466 City Arts: Reading Seminar (HECUA) (4 credits)
- IDSC 471 MUST Seminar: Research on Urban Issues (HECUA) (4 credits)
- PHIL 350 Advanced Ethical Theory (4 credits)
- PHIL 353 Machiavelli, Hobbes, and Nietzsche (4 credits)
- PHIL 357 Political Philosophy (4 credits)
- POLS 275 Introduction to Political Thought (4 credits)
- POLS 375 American Political Thought (4 credits)
- THEO 325 The Catholic Social Traditions (4 credits)
- THEO 365 Prophetic Literature of the Old Testament (4 credits)
- THEO 422 Christian Faith and the Management Professions (4 credits)
- THEO 432 Black Religious Experience (4 credits)
- THEO 447 Faith, Social Transformation and Social Work
- THEO 449 Christian Faith and the Engineering Profession
- THEO 454 The Morality of War
- THEO 455 The Church in Latin America
- THEO 456 Christianity and Consumer Culture
- THEO 457 Theology and Public Discourse
- THEO 458 The Bible from a Multicultural Perspective
- THEO 459 Theology and the Environment
- THEO 460 Christian Ethics and U.S. Immigration
- THEO 465 The Bible and Justice

Note: Additional 300- and 400-level Theology courses may also qualify, with approval of the JPST director.

WMST 205 Foundations in Women's Studies (4 credits)

Plus:

Additional courses to be selected with the approval of the program director, to bring the total number of credits to 44 (40 for a double major). These courses may deal with any part of the Circle of Praxis. Students seeking further opportunities to learn the theories behind, or honing of, skills for action might consider:

- ENTR 360 Creativity and Change (4 credits)
- ENVN 351 Environmental Policy Formation (4 credits)
- JPST 385 Globalization and Social Movements (4 credits)
- SOWK 391 Social Policy for Social Change (4 credits)

Students majoring only in Justice and Peace Studies are strongly encouraged to take a “methods” course from a department that uses approaches relevant to the way they are choosing to complete the JPST major. The purpose of this recommendation is to strengthen abilities in data interpretation, manipulation and generation.

Possibilities include:
- GEOG 221 Computer Skills in Geography (4 credits)
- POLS 205 Introduction to the American Public Policy Process (4 credits)
- SOCI 210 Research Methods in Sociology (4 credits)
- SOCI 220 Sociological Analysis (4 credits)

Minor in Justice and Peace Studies
**Justice and Peace Studies (JPST)**

JPST 250 Introduction to Justice and Peace Studies (4 credits)
JPST 280 Active Nonviolence (4 credits)
THEO 421 Theologies of Justice and Peace (4 credits)

**Plus one of the following:**
JPST 355 Public Policy (4 credits)
JPST 365 Leadership for Social Justice (4 credits)
JPST 375 Conflict Analysis and Transformation (4 credits)

**Plus:**
Eight additional credits to be selected with the approval of the program director. At least four of these credits must be outside the student’s major department. Any of the courses listed for the major may be applied to the minor.

**Note:** A focused version of the JPST minor is available to Engineering students. See the sub-section on “Peace Engineering” in the Engineering (ENGR) section of the catalog.

**Significant experience:**
Appropriate experience of poverty, injustice, social conflict, or marginalization. May be done for credit through 475-478 Experiential Learning.

It may also be done on a non-credit basis (e.g., in the context of another course or through volunteer activities). Possibilities include a trip taken as part of JPST 385, Campus Ministry programs, and off-campus study programs that expose students to poverty and oppression.

Examples of appropriate off-campus study programs include those run by: HECUA (e.g., conflict resolution in Northern Ireland, poverty in the Twin Cities; development in Ecuador; environment in Guatemala; immigration in Norway); Augsburg’s Center for Global Education (e.g., in Cuernavaca Mexico); American University’s Washington Semester (e.g., on homelessness); and UMAIE. Campus Ministry programs include VISION trips during January term, spring break or summer sessions (to Guatemala, Appalachia, the border of Mexico, a Native American reservation, etc.), and VIA programs located in the Twin Cities (e.g., working at a shelter, tutoring immigrant students, etc.).

**Internship and seminar in the area of justice and peace studies. The internship may, but need not, carry credit:**

**JPST 473 Vocational Internship Seminar (0 credit)**
Students are required to take this seminar during the semester they are doing an internship. At the core of this mini course is a reflective process designed to lead students to: a deeper understanding of the practical means of working for social change; an evaluation of their internship experience (both in terms of gaining a deeper understanding of their own vocation and a better understanding of the type of institutions they are working with); and applying these insights to future course work and career planning. Five 2-hour seminars through the course of the semester provide opportunities for those engaged in individual placements to get peer support for their discernment process.

The internships themselves involve at least 7-10 hours a week of justice and peace work. Students doing internships for credit by enrolling for JPST 475-478 Experiential Learning are usually required to do a total of 100 hours of work for 2 credit hours, or 200 hours of work for 4 credit hours.

Students doing a concentration in Conflict Transformation, Public Policy Analysis and Advocacy, or Leadership for Social Justice must choose an internship that allows them to develop skills in their area. In general, acceptable placements include work with a nonprofit or governmental group doing direct service; education for peace and justice; political action for peace and justice; and leadership positions in UST’s Students for Justice and Peace (SJP). There is no objection to using an appropriate internship from another major (such as social work) to fulfill this requirement as long as the student is enrolled in JPST 473 during the semester of the internship.

Alternatively, the internship and seminar requirement may sometimes be fulfilled by participating in appropriate off-campus academic programs which have reflective internship components, such as the programs of HECUA and Augsburg’s Center for Global Education. Students may also get credit for doing further research on, and analysis of, their internship experience by enrolling in JPST 475-478 Experiential Learning.

**JPST 250 Introduction to Justice and Peace Studies (4 credits)**
Major aspects of world and local conflict, theories of social science relating to conflict and violence, and various proposals for solutions. Among the aspects of conflict studied are cultural differences, scarcity of resources, economic and social structures, international trade, the arms race, corruption, oppression and war. Proposed solutions assessed include development, structural changes, world governance, multinational agencies, military power, civilian-based defense, active nonviolence for social change, conflict resolution, disarmament, cultural exchange, religious revival and prayer. These topics are considered in the light of theory, history, and literature. Students apply these concepts by investigating one country or geographic area in depth through a semester-long research project. Usually offered every semester. This course fulfills the Human Diversity requirement in the core curriculum.
JPST 295, 296 Topics (2 credits)
JPST 297, 298 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

JPST 280 Active Nonviolence (4 credits)
Active nonviolence as a means for societal defense and social transformation analyzed through case studies of actual nonviolent movements, examining their political philosophy and how this philosophy is reflected in their methods and strategies. Examples of possible case studies include: Mahatma Gandhi’s movement for a free India, Danish resistance to Nazi occupation, the struggle for interracial justice in the United States, an integrated Canada-to-Cuba peace-and-freedom walk, the campaign to close the U.S. Army School of the Americas (WHINSEC), fair trade movements, and the Honeywell Project. The course emphasizes the theory and active practice of nonviolence as well as oral histories of successful nonviolent movements. Usually offered every semester.

JPST 355 Public Policy (4 credits)
In this class students will investigate how and why particular public policies are developed, proposed, adopted, and implemented; will explore how social values shape and impact public policies; and will learn how to frame issues in ways that allow for more effective advocacy. The class will examine the relative power of diverse corporate and non-profit sectors in influencing policy debates and outcomes, including the role of think tanks. Students will analyze the limitations and strengths of diverse approaches to advocacy ranging from third-party appeals and solidarity efforts to elite decision makers, as well as the prospects for a politics of agency rooted in citizen-centered politics in which people mobilize to meet the needs of their communities. The course will integrate basic theory, interaction with public policy analysts and advocates, personal experience in persuasive advocacy, and case studies focused on issues such as climate change, economic inequality, land-food-hunger, and approaches to health care. Assignments will introduce students to various tools for persuasive advocacy and allow them develop skill sets for using them.

JPST 365 Leadership for Social Justice (4 credits)
Leadership for Social Justice examines the arc of leadership through the process of creating, sustaining, then institutionalizing positive social change. The course examines models and case studies of authoritative, positional, influential and situational leadership in diverse settings such as community organizing, social movements, social entrepreneurship and nonprofit management. The course also explores approaches to ethical leadership and provides opportunities for students to develop the skills and vision needed to become ethical leaders for social justice. Students will analyze the role of leadership in the tensions between preserving order and promoting transformation. They will develop a critical approach to the dynamics of power in order to effect systemic change.

JPST 370 Conflict Mediation (4 credits)
This course will focus on mediation and the third-party role of the mediator. Much class time will be spent learning the process of mediation and the skills needed to be a mediator whether in a formal sense or informally as a life skill. Experiential in nature, the course will elicit and build upon students’ own experiences of conflict and will use various experiential learning tools to develop practical mediation skills. Students will also survey various streams in the practice of mediation as they have developed historically, along with its theoretical basis. Special attention will be given to arenas/situations in which mediation is and is not appropriate or indicated, to cultural implications of mediation and to some of the ethical dilemmas mediators face. For Justice and Peace Studies majors doing a concentration in Conflict Transformation, the course will complement JPST 375 Conflict Analysis and Transformation, but there are no prerequisites and the course is open to students in other majors.

JPST 375 Conflict Analysis and Transformation (4 credits)
An introduction to issues surrounding conflict and the resolution of conflict in today’s world focusing primarily on its contextual manifestation at the international, regional and intrastate levels. The course will explore important structural, social and psychological explanations of conflict. Attention will be given to ethnic and nationalist themes surrounding conflicts and their resolution at the intrastate and international levels. The course will examine how different types of intervention affect conflicts (the media, force, other types of third party intervention). Effective methods that foster an environment conducive to resolving or managing disputes will be studied. As part of this final task, the course will critically study how institutions such as power-sharing arrangements, federalism, and the rule of law figure into establishing a lasting basis for peaceful coexistence. For Justice and Peace Studies majors doing a concentration in Conflict Transformation, the course will complement JPST 375 Conflict Mediation, but there are no prerequisites and the course is open to students in other majors.

JPST 385 Globalization and Social Movements (4 credits)
Our class will analyze social movements through the events that shape their struggles for justice in the context of an increasingly interconnected, globalized world. Historical survey and key theoretical concepts will provide context for examining the methods used to advance social change and strengthen civil society. The course will give major attention to exploring the U.S. Civil Rights Movement through primary documents, video and classroom analysis, applying the lessons of this and other historical movements to contem-
Legal Studies

porary movements. We will explore local manifestations of global movements through immersion, service-learning projects, guest
speakers, student research and final presentations.

JPST 470 Conflict Resolution (4 credits)
An introduction to issues surrounding conflict and the resolution of conflict in today’s world focusing primarily on its contextual
manifestation at the international, regional and intrastate levels. The course will explore important structural, social and psychologi-
cal explanations of conflict. Attention will be given to ethnic and nationalist themes surrounding conflicts and their resolution at the
intrastate and international levels. The course will examine how different types of intervention affect conflicts (the media, force,
other types of third party intervention). Effective methods that foster an environment conducive to resolving or managing disputes
will be studied. As part of this final task, the course will critically study how institutions such as power-sharing arrangements, federal-
ism, and the rule of law figure into establishing a lasting basis for peaceful coexistence. Usually offered spring semester.

Note: Active nonviolence and conflict resolution focus on different stages of conflict. Active nonviolence is a sanction
employed when conflict resolution has broken down; it is designed to move the parties toward conflict resolution. Active
nonviolence also is employed when one or more of the parties to a conflict believe that conflict resolution is maintaining an
unjust situation i.e., peace without justice.

JPST 472 Justice and Peace Senior Seminar (4 credits)
This seminar brings together what students have learned throughout their justice and peace studies, activities, internships and
service projects and applies it to a project of their own choice negotiated with the professor through a learning contract. In carrying
out that project, students will pay attention to the four steps of the circle of praxis. Results of the project are shared with the other
members of the seminar. In addition, common topics studied include basic statistics needed to understand, judge, and use statistics
responsibly; writings of key theoreticians in justice and peace studies; and an introduction to a broad range of organizations working
for the relief of suffering and for structural and social change. Usually offered spring semester.

JPST 473 Vocational Internship Seminar (0 credit)
Students are required to take this seminar during the semester they are doing an internship of 7-10 hrs/wk. The seminar meets three
times (at the beginning, middle, and end of the semester), to provide opportunities for those engaged in individual placements to get
deer support for their discernment process. At its core is a reflective process designed to lead students to: a deeper understanding of
the practical means of working for social change; an evaluation of their internship experience (both in terms of gaining a deeper un-
derstanding of their own vocation and a better understanding of the type of institutions they are working with); and applying these
insights to future course work and career planning.

JPST 475, 476 Experiential Learning (2 credits)
JPST 477, 478 Experiential Learning (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

JPST 483, 484 Seminar (2 credits)
JPST 485, 486 Seminar (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

JPST 487, 488 Topics (2 credits)
JPST 489, 490 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses
are available in the Searchable Class Schedule on Murphy Online,
https://banner.stthomas.edu/pls/banner/prod/bwckschd.

JPST 269, 389, 491 Research (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

JPST 243, 393, 495 Individual Study (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

See Modern and Classical Languages

LEGAL STUDIES
The minor in legal studies enables students to undertake a multidisciplinary examination of the relationship of law to culture and society. Understanding the foundations and nature of law and legal process is an integral element of a liberal arts education. Several departments within the university offer courses that examine the sociological, political, philosophical, journalistic, historical, economic and business aspects of legal behavior and legal systems.

By drawing on those courses, the legal studies minor exposes students to a variety of perspectives on the study of law and provides a broad understanding of the role of law in society.

The legal studies minor is not intended as a pre-law program, although it may prove especially attractive to students interested in careers in law, public administration or related professions. Its objective is to allow students to undertake an examination of law and legal process within a liberal arts context.

**Minor in Legal Studies**

Twenty credits from the following list, or other courses selected with the approval of the program director. To ensure an interdisciplinary base of study, no more than eight credits may come from any one department.

- BLAW 301 Legal Environment of Business (4 credits)
- BLAW 302 Business Law for Accounting (4 credits)
- BLAW 303 International Business Law (4 credits)
- BLAW 304 Real Estate Law (4 credits)
- BLAW 351 Environmental Law (4 credits)
- BLAW 352 Gender Issues and the Law (4 credits)
- BLAW 353 Employment and Labor Law (4 credits)
- BLAW 401 Legal Research, Advocacy, and Dispute Resolution (4 credits)
- BLAW 402 Law of Electronic Commerce (4 credits)
- BLAW 403 Marketing Law (4 credits)
- COJO 336 Media Law (4 credits)
- ECON 321 Law and Economics (4 credits)
- HIST 365 U.S. Constitutional History (4 credits)
- PHIL 357 Political Philosophy (4 credits)
- PHIL 359 Philosophy of Law (4 credits)
- PHIL 398 Advanced Critical Thinking (4 credits)
- POLS 311 Political Trials (4 credits)
- POLS 312 Judicial Process (4 credits)
- POLS 313 Constitutional Law and Politics (4 credits)
- POLS 314 Constitutional Rights and Liberties (4 credits)
- POLS 326 International Law and Organizations (4 credits)
- POLS 414 Seminar in Law and Judicial Politics (4 credits)
- THEO 436 Christian Faith and the Legal Profession (4 credits)

**LEGAL STUDIES IN BUSINESS**

*See Business Administration*
**Literary Studies**

**LITERARY STUDIES**

College of Arts and Sciences, Interdisciplinary Program
John Roach Center for the Liberal Arts (JRC) 335, (651) 962-5611
Scheiber (English) and Miller (Modern and Classical Languages), directors

Students wishing an excellent preparation for the many occupations in which the ability to use language effectively is absolutely essential may be interested in the following major, which is not basically career-oriented.

The primary aims of the major in literary studies are to extend to highly motivated students the opportunity:

1. To deepen their mastery of two languages.
2. To provide them with double evidence that literature, as the highest form of language art, is based on the skillful use of adequately developed languages in the creation of an esthetic world of the human spirit.
3. To enable them to experience firsthand that much is lost in the translation of a great literary work.
4. To help them appreciate more deeply that literature transcends national and cultural boundaries.

**Major in Literary Studies**

**Prerequisite:**
At least three high school years of a second language, accepted for this major by the Department of Modern and Classical Languages. Either 212 in that language, or its equivalent, must also be taken.

**Option I (administered by the Department of Modern and Classical Languages):**
Twenty credits in courses numbered 300 or higher in the literature of a non-English language, chosen in consultation with the chair of the Department of Modern and Classical Languages

**Plus:**
Sixteen credits in courses numbered 300 or higher in English literature, chosen in consultation with the chair of the Department of English

**Option II (administered by the Department of English):**
Twenty credits in courses numbered 300 or higher in English literature, chosen in consultation with the chair of the Department of English

**Plus:**
Sixteen credits in courses numbered 300 or higher in the literature of a non-English language, chosen in consultation with the chair of the Department of Modern and Classical Languages

**Plus:**
(required under both options)
Four credits in European history

**Recommended:**
An additional four credits in European history, four credits in aesthetics, and courses in a third language, preferably a classical language if the second language is modern

Courses such as phonetics, conversation, composition and civilization (if not based on literature) will not count as courses in literature.

**MANAGEMENT**

*See Business Administration*

**MARKETING**

*See Business Administration*

**MASS COMMUNICATION**

*See Journalism and Mass Communication*
The Department of Mathematics offers major tracks that can satisfy a variety of student interests and careers. Majors in mathematics can prepare themselves for graduate study in mathematics or related areas, for the teaching of mathematics at the secondary school level, for professional school in law or health science, or for the application of mathematics and statistics in science, business, industry and government.

Students majoring in mathematics are encouraged to use elective courses to broaden their background in mathematics or in a related area of special interest. Coursework in biology, chemistry, economics, engineering, finance, geology, physics, psychology and computer and information sciences combines well with a major in mathematics.

Students graduating with a major in mathematics will be able to demonstrate an understanding of the fundamental notions of mathematics, including rigorous proof. They will be able to model and solve real-world problems arising in business and industry. They will be able to effectively communicate, both orally and in writing, mathematical concepts to their peers and to an audience of non-majors. They will be able to learn and apply mathematics on their own through independent study, research and participation in non-class-related lectures.

In all of the department’s major tracks, a student must successfully complete at least 16 credits in mathematics courses numbered 300 and above at the University of St. Thomas.

A minor in mathematics is available to support majors in many other departments. A strong mathematical background is of great benefit to students majoring in engineering, actuarial science and the physical sciences.

In addition to the mathematics tracks described below, the department offers a major in actuarial science (see Actuarial Science) and has programs to prepare students for teacher licensure (see Education). An interdisciplinary major in statistics is offered jointly with the Department of Computer and Information Sciences (see Statistics).

Students should see the chair of the Department of Mathematics for advice in selecting courses for a particular purpose. The department offers a number of courses for non-majors to fulfill the mathematics portion of the core curriculum.

**Center for Applied Mathematics**

Within the Department of Mathematics, the Center for Applied Mathematics (CAM) provides opportunities for students to work on significant mathematical problems of current interest to business, industry, and government. The CAM summer student research program funds a number of student projects each year.

**Major in Mathematics**

MATH 113 Calculus I (4 credits) (or 108 and 109)
MATH 114 Calculus II (4 credits)
MATH 200 Multi-Variable Calculus (4 credits)
MATH 210 Introduction to Differential Equations and Systems (4 credits)
MATH 240 Linear Algebra (4 credits)
MATH 301 Abstract Algebra I (4 credits)
MATH 317 Real Analysis (4 credits)

**Allied requirement**

CISC 130 Introduction to Programming and Problem Solving in the Sciences (4 credits) or CISC 131 Introduction to Programming and Problem Solving (4 credits)

*Note: CISC 130 is recommended for this major*

*Plus one of the mathematics tracks below:*

**Pure Mathematics Track**

*Eight credits from the following:*

MATH 302 Abstract Algebra II (4 credits)
MATH 419 Complex Variables (4 credits)
MATH 420 Topology (4 credits)

*Plus:*

Eight credits of courses MATH 300 or higher not already taken
Mathematics (MATH)

Applied Mathematics Track
MATH 315 Applied Mathematics and Modeling I (4 credits)
MATH 316 Applied Mathematics and Modeling II (4 credits)

Plus eight credits from the following:
MATH 300 Advanced Differential Equations (4 credits)
MATH 302 Abstract Algebra II (4 credits)
MATH 303 Statistics for the Applied Sciences (4 credits)
MATH 313 Probability (4 credits)
STAT 314 Mathematical Statistics (4 credits)
MATH 385 Mathematical Methods of Numerical Analysis (4 credits)
MATH 400 Dynamical Systems and Chaos (4 credits)
MATH 419 Complex Variables (4 credits)
MATH 420 Topology (4 credits)

Statistics Track
MATH 313 Probability (4 credits)
STAT 314 Mathematical Statistics (4 credits)
STAT 333 Applied Statistical Methods: Regression, Time Series, Forecasting (4 credits)
MATH 385 Mathematical Methods of Numerical Analysis (4 credits)

Plus:
STAT 320 Statistics II (4 credits)

Math Education Track
MATH 325 Geometry (4 credits)
MATH 450 Advanced Mathematics: Exploration and Exposition (4 credits)

Plus:
MATH 313 Probability (4 credits) and STAT 314 Mathematical Statistics (4 credits)
or
MATH 303 Statistics for the Applied Sciences and any MATH 300+ not already included

Minor in Mathematics
MATH 113 Calculus I (4 credits) (or 108-109)
MATH 114 Calculus II (4 credits)
Plus at least four credits from the following:
MATH 200 Multi-Variable Calculus (4 credits)
MATH 210 Introduction to Differential Equations and Systems (4 credits)

Plus:
A minimum of twelve additional credits in courses numbered above 200 (or approved by the department chair)
A student minoring in mathematics must successfully complete a minimum of 8 credits in mathematics numbered 200 and above at St. Thomas.

See Education
Remedial Mathematics

Entry-level mathematics courses require students to have an appropriate Math Placement Level. This placement level is determined by the student’s ACT Math score or performance on the Math Placement Exam. Students that do not have the placement level required for their desired course can now take MATH 005 and/or MATH 006. These are 0-credit courses, offered every summer and J-term. MATH 005 has no placement requirement, and successful completion would allow a student to take MATH 006, MATH 100 or MATH 101. MATH 006 requires a Math Placement Level of 101 or of MATH 005 and successful completion allows a student to take MATH 103 or MATH 108.

Both MATH 005 and MATH 006 have affordable registration fees instead of regularly priced tuition, as they are 0-credit courses.

MATH 005 Basic Math Skills I (0 credit)
The objective of this course is to provide background knowledge necessary for students to place into MATH 006, MATH 100 or MATH 101. This course serves as a prerequisite for MATH 006, MATH 100, or MATH 101. Topics covered include the real numbers, operations with real numbers, first degree equations and inequalities, Cartesian coordinate system and lines, linear functions, and problem solving. This non-credit course is typically offered two weeks during J-term and two weeks during July/August. This course does not satisfy the core requirement in Natural Science and Mathematical and Quantitative Reasoning. Offered during July/August and J-Term.

Prerequisite: Successful completion of MATH 005 or a mathematics placement score of 101.

MATH 006 Basic Math Skills II (0 credit)
The objective of this course is to provide background knowledge necessary for students to place into MATH 108. This course serves as a prerequisite for MATH 108. Topics covered include polynomials, rational expressions, exponents and radicals, quadratic equations, problem solving. This non-credit course is typically offered 2 weeks during J-term and 2 weeks during August. This course does not satisfy the core requirement in Natural Science and Mathematical and Quantitative Reasoning. Offered during July/August and J-term.

Prerequisite: Successful completion of MATH 005 or a mathematics placement score of 101.

MATH 100 Mathematical Sampler (4 credits)
This survey of basic mathematical concepts includes both modern and historical perspectives. Emphasis is on the development and appreciation of mathematical ideas and their relationship to other disciplines. Topics include, among others: mathematical problem-solving, set theory, graph theory, an introduction to randomness, counting and probability, statistics and data exploration, measurement and symmetry, and recursion. This course fulfills the core-area in mathematics in the Natural Science and Mathematical and Quantitative Reasoning requirement in the core curriculum and is also recommended as the first course in mathematics for prospective elementary teachers. Offered every semester.

Prerequisite: A satisfactory score on the mathematics placement exam.

MATH 101 Finite Mathematics (4 credits)
Elementary set theory, linear equations and matrices, linear programming, finite probability, applications primarily in business and the social sciences. This course fulfills the core-area in mathematics in the Natural Science and Mathematical and Quantitative Reasoning requirement in the core curriculum. Offered every semester.

Prerequisite: A satisfactory score on the mathematics placement examination.

MATH 103 College Algebra (2 credits)
The purpose of this course is to provide knowledge of pre-calculus topics necessary for MATH 111. This course serves as a prerequisite for MATH 111 and can also serve as a prerequisite for MATH 104. This 2-credit course does not satisfy a student’s core curriculum requirement in mathematics. Topics covered include solving equations, inequalities, and systems of equations; graphing functions; inverse functions; polynomials; complex numbers; rational functions; exponential functions; properties of logarithms and logarithmic functions; applications. Offered as a directed study every semester. Note: students who receive credit for this course may not receive credit for MATH 105, MATH 108, or MATH 109

Prerequisite: Math placement at 108 or above or MATH 006

MATH 104 Trigonometry (2 credits)
The purpose of this course is to provide knowledge of trigonometric topics necessary for MATH 113. This course serves as a prerequisite for MATH 113. This 2-credit course does not satisfy a student’s core curriculum requirement in mathematics. Topics covered include radian/degree measure; trigonometric and inverse trigonometric functions; graphs of trig functions; applications of trigonometry; analytic trigonometry; trigonometric formulae. Offered as a directed study every semester. Note: students who receive credit for this course may not receive credit for MATH 105, MATH 108, or MATH 109

Prerequisite: Math placement at 111 or above or MATH 103

MATH 105 Precalculus (4 credits)
The real numbers; basic algebra; analytical treatment of the elementary functions emphasizing the exponential, logarithmic and
Mathematics (MATH)

trigonometric functions and their graphs. (This course is intended as preparation for 113 and does not fulfill a general graduation requirement.)
Prerequisite: a satisfactory score on the mathematics placement examination. NOTE: students who receive credit for MATH 105 may not receive credit for MATH 108 or 109.

MATH 108 Calculus with Review I (4 credits) (MATH 105, 111, 113)
The first course of a two-course sequence designed to integrate introductory calculus material with the algebraic and trigonometric topics necessary to support that study. Review topics include: number systems, basic algebra, functions, the Cartesian coordinate system and graphing. Calculus topics include limits, continuity, derivatives for algebraic functions, applications of derivatives and more graphing. This course is intended only for students planning to take 109 and does not satisfy the mathematics requirement in the core curriculum. Offered every semester.
Prerequisite: A satisfactory score on the mathematics placement examination
NOTE: Students who receive credit for MATH 108 may not receive credit for MATH 105, 111, or 113.

MATH 109 Calculus with Review II (4 credits) (MATH 105, 111, 113)
The second course of a two-course sequence designed to integrate introductory calculus material with the algebraic and trigonometric topics necessary to support that study. Review topics include: exponential and logarithmic functions, trigonometric functions and their inverses and associated graphs. Calculus topics include: derivatives of the transcendental functions, applications of those derivatives and an introduction to integration. This course fulfills the core-area in mathematics in the Natural Science and Mathematical and Quantitative Reasoning. Offered every semester.
Prerequisite: a grade of C- or better in MATH 108
NOTE: Students who receive credit for MATH 109 may not receive credit for MATH 105, 111, or 113.

MATH 111 Calculus for Business and Social Science (4 credits) (MATH 108, 109, 113)
An introductory course in calculus with motivation and examples drawn from business and the social sciences whenever possible. Does not include the calculus of trigonometric functions. This course fulfills the core-area in mathematics in the Natural Science and Mathematical and Quantitative Reasoning requirement in the core curriculum. Offered every semester.
Prerequisite: a grade of C- or above in MATH 103 or MATH 105 or a satisfactory score on the mathematics placement examination. (Four years of high school mathematics, including college algebra, also are recommended as background for this course.) Students who are considering taking MATH 114 should take MATH 113 instead of MATH 111.
NOTE: Students who receive credit for MATH 111 may not receive credit for MATH 108, 109, or 113.

MATH 112 The Calculus of Trigonometric Functions (2 credits)
This course is designed for students who have taken MATH 111 but need to have credit for MATH 113; it covers the material in MATH 113 that is not covered in MATH 111. This course serves as a prerequisite for MATH 114. This 2-credit course does not satisfy a student’s core curriculum requirement in mathematics. Topics covered include trigonometric functions, inverse trig functions, trigonometric identities, solving trigonometric equations, limits of trigonometric functions, derivatives of trigonometric functions, and integrals of trigonometric functions, and applications. To successfully complete this course, a student must also pass the MATH 114 placement exam, which will cover calculus topics from MATH 111 as well as the calculus of trigonometric functions learned in this course. Successfully completing this course is equivalent to successfully completing MATH 113. Offered every semester as a directed study.
Prerequisite: MATH 111

MATH 113 Calculus I (4 credits) (MATH 108, 109, 111)
An introductory course in calculus: limits; derivatives and integrals of algebraic, exponential, logarithmic and trigonometric functions of one real variable; applications of the derivative in engineering and the natural sciences. This course fulfills the core-area in mathematics in the Natural Science and Mathematical and Quantitative Reasoning. Offered every semester.
Prerequisite: a grade of C- or above in MATH 104 or MATH 105 or a satisfactory score on the mathematics placement examination. (Four years of high school mathematics, including college algebra and trigonometry, also are recommended as background for this course.)
NOTE: Students who receive credit for MATH 113 may not receive credit for MATH 108, 109, or 111.

MATH 114 Calculus II (4 credits)
Techniques of integration; applications of integration; infinite series; parametric/polar equations. This course fulfills the core-area in mathematics or the third course in the Natural Science and Mathematical and Quantitative Reasoning requirement in the core curriculum. Offered every semester.
Prerequisite: a grade of C- or above in MATH 112, 113 or 109

MATH 121 Structures of Elementary Mathematics (4 credits)
An examination of the mathematical underpinnings of the elementary school curriculum with an emphasis on the understanding of
Mathematical concepts. Topics will include foundations of integer and rational arithmetic, notions of place-value and base, number sense and estimation, functions and their applications, Euclidean geometry, and mathematical problem-solving. This course is recommended as a second course in mathematics for prospective elementary teachers. It also fulfills the core-area in mathematics or the third course in the Natural Science and Mathematical and Quantitative Reasoning requirement in the core curriculum. Offered every semester.
Prerequisite: MATH 100 and an EDUC course, or permission of the instructor

**MATH 128 Introduction to Discrete Mathematics (4 credits)**
A survey of basic discrete mathematical concepts. Topics include: Boolean algebra, logic, analysis of algorithms, mathematical induction and matrices. Focus on applications to computer science. This course fulfills the core-area in mathematics or the third course in the Natural Science and Mathematical and Quantitative Reasoning requirement in the core curriculum. Offered spring semester.
Prerequisite: MATH 111 or 113 or 109 (may be taken concurrently with consent of the instructor)

**MATH 200 Multi-Variable Calculus (4 credits)**
Vector algebra in two and three dimensions, partial derivatives, multiple integrals, line integrals, surface integrals, Green’s Theorem, Stoke’s Theorem, divergence theorem. Offered every semester.
Prerequisite: a grade of C- or higher in MATH 114

**MATH 210 Introduction to Differential Equations and Systems (4 credits)**
An introduction to ordinary differential equations (ODEs), with an emphasis on linear differential equations and linear systems, including applications. Topics covered include first-order equations, ODE models in the physical and biological sciences and engineering, numerical methods of solution, higher order linear equations, matrix tools, the role of eigenvalues and eigenvectors, and LaPlace transforms. Offered every semester.
Prerequisite: a grade of C- or above in MATH 114

**MATH 240 Linear Algebra (4 credits)**
An introductory course in linear algebra, beginning with linear equations and matrix algebra. Subsequent topics include the study of vector spaces, orthogonality, eigenvectors, and innerproducts. The course combines theoretical and applied perspectives, including concepts of rigorous proof. Offered every semester.
Prerequisite: A grade of C- or above in MATH 200 (may be taken concurrently)

**MATH 259 Elements of Geometry and Statistics (4 credits)**
Intended for elementary education majors who plan a licensure endorsement in mathematics for grades 5-8. Includes intermediate concepts in geometry and statistics essential for a middle school teacher of mathematics. Topics will include: axiomatic systems of geometry with emphasis on Books I and VI of Euclid’s Elements; an introduction to non-Euclidean geometry; geometric and inductive reasoning, with applications; introduction to geometric probability and the geometric display of data; organization and analysis of data sets; statistical support of decisions, including applications in education; prediction; the role of randomness in both formal and empirical probability. Offered spring semester of odd-numbered years. Offered spring semester of odd-numbered years.
Prerequisites: MATH 100 and 121, or permission of instructor

**MATH 295, 296 Topics (2 credits)**
**MATH 297, 298 Topics (4 credits)**
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.
NOTE: Depending on the subject matter of topics course, the course may or may not count towards a minor in Mathematics.

**MATH 300 Advanced Differential Equations (4 credits)**
A second course in differential equations and their applications. Topics are selected from a continued study of linear differential equations and systems, Laplace transforms, series solution methods, non-linear equations and systems, partial differential equations and other topics chosen by the instructor. Offered spring semester of odd-numbered years.
Prerequisite: A grade of C- or above in MATH 210

**MATH 301 Abstract Algebra I (4 credits)**
Properties of sets, relations and mappings; introduction to groups, rings and fields. Offered every spring semester
Prerequisite: A grade of C- or above in MATH 240

**MATH 302 Abstract Algebra II (4 credits)**
Topics in modern algebra with applications. Includes material selected from the theory of groups, rings, and fields; linear algebra;
**Mathematics (MATH)**

Boolean algebra and discrete structures. Offered fall semester of even-numbered years.
Prerequisite: A grade of C- or above in MATH 301

**MATH 303 Statistics for the Applied Sciences (4 credits) (MATH 313, 314)**
Probability, Estimation, Hypothesis Testing, Analysis of Variance, Regression Analysis, Topics selected from Experimental Design, Statistical Process Control, Non-Parametric Methods, Factor Analysis as time permits. Offered fall semester.
Prerequisite: A grade of C- or above in MATH 200
*NOTE:* Students who receive credit for MATH 303 may not receive credit for MATH 313 or STAT 314.

**MATH 313 Probability (4 credits) (MATH 303)**
Probability theory in discrete and continuous sample spaces; random variables and distribution functions; moments; the moment-generating function; functions of random variables; law of large numbers; central limit theorem. Offered spring semester.
Prerequisites: A grade of C- or above in MATH 200 (may be taken concurrently with consent of instructor)
*NOTE:* Students who receive credit for MATH 313 may not receive credit for MATH 303.

**STAT 314 (formerly MATH 314)**

See Statistics

**MATH 315 Applied Mathematics and Modeling I (4 credits)**
This is a topics course in applied mathematics. Course content will be drawn from topics that coincide with expertise of department members. Recent topics include finite element methods, techniques in scientific computing, wavelets and applications, mathematical biology, and weather modeling. Offered fall semester.
Prerequisites: A grade of C- or above in MATH 210 and MATH 240, or permission of instructor.

**MATH 316 Applied Mathematics and Modeling II (4 credits)**
This is a second topics course in applied mathematics. It does not require MATH 315 as a prerequisite. Course content will be drawn from the topics listed under MATH 315. Students will work in teams on projects of current interest in applied mathematics. Offered spring semester.
Prerequisites: A grade of C- or above in MATH 200 and 210, or permission of instructor

**MATH 317 Real Analysis (4 credits)**
Topology of the real numbers. Functions of one real variable. Rigorous development of continuity and uniform continuity; differentiability; uniform convergence. Sequences and series. Offered fall semester.
Prerequisites: A grade of C- or above in MATH 240

**MATH 325 Geometry (4 credits)**
Axioms for geometries; geometrical transformations and their invariants; non-Euclidean geometries; additional topics. Offered spring semester of even-numbered years.
Prerequisites: A grade of C- or above in MATH 114; MATH 128 or MATH 240 recommended

**STAT 333 (formerly MATH 333)**

See Statistics

**MATH 385 Mathematical Methods of Numerical Analysis (4 credits)**
Rigorous mathematical treatment of standard topics in numerical analysis including solutions to linear and nonlinear systems, interpolation, numerical integration and differentiation, differential equations, and iterative techniques in matrix algebra. This course provides a theoretical foundation for the numerical solution of mathematical problems. Offered fall semester of even-numbered years
Prerequisites: A grade of C- or above in MATH 210 and 240, or permission of instructor

**MATH 400 Dynamical Systems and Chaos (4 credits)**
An introduction to discrete and continuous dynamical systems and applications with topics including: iterated mappings in one and two dimensions, phase-plane theory, nonlinear differential equations, and chaos. Additional topics will be chosen from among bifurcations, stability, attractors, Lyapunov functions, Julia sets and Mandelbrot sets. Offered spring semester of even-numbered years.
Prerequisite: A grade of C- or above in MATH 210 or MATH 240, or permission of instructor

**MATH 419 Complex Variables (4 credits)**
Analytic functions; theorems of Cauchy; Laurent series; residue calculus; entire and meromorphic functions; conformal mapping. Offered fall semester of odd-numbered years.
Prerequisite: A grade of C- or above in MATH 210 or MATH 240, or permission of instructor
MATH 420 Topology (4 credits)
Properties of Euclidean spaces; general spaces; mappings; separation properties; connectedness; compactness; metrizable spaces.
Offered spring semester of even-numbered years.
Prerequisite: A grade of C- or above in MATH 240, or permission of instructor

MATH 450 Advanced Mathematics: Exploration and Exposition (4 credits)
A capstone mathematics course for students seeking to teach secondary mathematics. Students make substantial oral and written presentations. Topics are included from discrete and continuous mathematics. Students use publications, e.g., The American Mathematical Monthly, Mathematics Magazine, Mathematical Intelligence and Scientific American, as well as standard texts, as sources for their work. Offered fall semester.
Prerequisite: one of MATH 301 or 317 with concurrent registration in the other or permission of instructor

MATH 475, 476 Experiential Learning (2 credits)
MATH 477, 478 Experiential Learning (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

MATH 483, 484 Seminar (2 credits)
MATH 485, 486 Seminar (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

MATH 487, 488 Topics (2 credits)
MATH 489, 490 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

MATH 269, 389, 491 Research (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

MATH 243, 393, 495 Individual Study (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

MODERN AND CLASSICAL LANGUAGES

College of Arts and Sciences, Department of Modern and Classical Languages
O'Shaughnessy Education Center (OEC) 337, (651) 962-5150
Pinto (chair); Arabic – Khalek; Chinese (Mandarin) – He; Classics (coordinator) – Quartarone; French – Dziekowicz (coordinator), Lohse, Shams; German – Wagner (coordinator); Irish Gaelic – Jeffers; Italian- Faggioli; Japanese – Matsumoto; Spanish – Ehrmantraut, Kroll, Miller, Nieto, Pinto, Rey-Montejo, Scham, Tar, Tight, Vigil

The Department of Modern and Classical Languages offers major and minor concentrations in Classical Languages, French, German, Latin and Spanish, with additional minors in Greek and Japanese. Other language majors, minors and courses are available through the Associated Colleges of the Twin Cities and through Individualized Majors/Minors at UST (contact department chair for details).
Language classes are also available in Arabic, Chinese, Irish Gaelic, and Italian. In cooperation with the ACTC, courses in other languages not offered at UST are also available.

The department also offers additional majors in International Business – language intensive (French, German and Spanish) and Literary Studies (foreign language and English literature).

Students graduating with a major in Classical Languages will have acquired a working vocabulary and knowledge of the structures of Classical Greek and/or Latin adequate to read the works of Greek and/or Latin authors. They will have gained experience in reading major authors in the languages, and will perceive the relationship between the authors and their cultural context.

Students graduating with a major in French will have a solid understanding of the French language and the ability to use the language effectively in speaking, listening comprehension, reading, and writing. They will have developed the skills necessary for the study, analysis, and interpretation of a wide range of cultural texts, including literary texts.

Students graduating with a major in German will have acquired a solid command of the German language for use in academic and/or professional life. They will gain the ability to use the language effectively in all four skills (speaking, listening, reading, and writing) with a cultural emphasis. They will have become acquainted with the literature and culture of the German-speaking countries and with the role these countries and their culture have historically played and continue to play in the world today.

Students graduating with a major in International Business – language intensive will be able to demonstrate a command
Modern and Classical Languages

of the appropriate language for use in business and professional life, will understand the historical and cultural development of the countries of that language, and will understand the business practices and economic structure of those countries.

Students graduating with a major in Spanish will have a solid understanding of the Spanish language and the ability to use the language effectively in speaking, listening, reading, and writing. Additionally, they will have developed 1) the skills necessary for the study, analysis, and interpretation of a wide range of cultural and literary texts; or 2) a foundation in Hispanic linguistics from both a theoretical and an applied perspective.

The department also offers courses for the non-major to fulfill the Language and Culture requirement of the core curriculum.

Teacher Licensure

Students seeking licensure for languages may pursue licensure programs in Elementary Education with a Specialty in World Languages and Cultures (K-8) or World Languages and Cultures (K-12) with a co-major in French, German, or Spanish. For details on these types of programs:

See Education

Arabic

ARAB 111 Elementary Arabic I (4 credits)
The first year of elementary Arabic is designed for non-native beginners in the Arabic language to primarily learn the formal form of Arabic also known as Modern Standard Arabic. During the year, students will learn how to express basic communication idioms and needs in Arabic. The year begins with learning the alphabet and progresses into learning how to read elementary level Arabic, writing simple sentences, and speaking basic and introductory idioms. Listening drills and exercises are also practiced in class and in the language lab.

ARAB 112 Elementary Arabic II (4 credits)
Continuation of ARAB 111.
Prerequisite: ARAB 111 or equivalent completed with a C- or better

ARAB 211 Intermediate Arabic I (4 credits)
Intermediate Arabic I is a continuation of Elementary Arabic II. It is designed to further develop language proficiency in modern standard Arabic in the four language skills. In speaking, the focus is on the use of everyday expressions through discussion and presentations. In reading, the focus is on reading authentic materials from Arabic journals and magazines. Writing is emphasized especially through writing weekly journals and homework assignments. Listening exercises and drills are utilized in class as well as in the language lab by listening and watching audio and video materials. The course is also aimed at familiarizing students with the cultures of the Arab world.
Prerequisite: ARAB 112 or equivalent completed with a C- or better

Chinese

CHIN 111 Elementary Chinese I (4 credits)
Introduction to fundamentals of Mandarin (Chinese) language structure and vocabulary. Practice in speaking, reading, writing and listening/understanding. Basic rules of grammar will be introduced, along with instruction of approximately 300 words.

CHIN 112 Elementary Chinese II (4 credits)
Continuation of CHIN 111.
Prerequisite: CHIN 111 or equivalent with a C- or better

CHIN 211 Intermediate Chinese I (4 credits)
Continuation of CHIN 112.
Prerequisite: CHIN 112 or equivalent with a C- or better

Classical Languages

This major engages students in the study of the languages, literatures and cultures of two ancient cultures that have left a lasting impact upon the modern world: classical Greece and Rome. This major prepares students to read both languages, introduces significant works of essential authors, and provides analytical tools for examining the relationship between language and the unique identity of different cultures.

Major in Classical Languages

A minimum proficiency in each language at the 211-level; a total of 28 credits in Greek and Latin. (see descriptions below under...
Greek and Latin

For administrative purposes, students will complete assessment measures at the beginning of their major (in their 111 class) and during their final semester (211).

Plus:
Twelve additional credits in Greek or Latin, ancient history, ancient philosophy, classical art, mythology, or classical literature in translation.

Minor in Classical Languages
Twelve credits in Greek (see descriptions below under Greek)
Twelve credits in Latin (see descriptions below under Latin)

French
The primary goal of the department is to provide opportunity to its majors for acquiring:
   a. A solid command of the French language
   b. A thorough introduction to the literary and cultural origins of France and the role of French in today’s world
   c. Enough diversity in courses to prepare for a variety of potential careers or possible co-careers for which their French skills will be of primary importance
   d. The intellectual background which characterizes those educated in a liberal arts setting.

Major in French
Each prospective major will present a program to the major French adviser for departmental approval. Two tracks are allowed: a literary track stressing courses needed for graduate study; and a general track stressing the cultural and communication skills necessary for double, combined or co-career majors. A minimum of 28 credits at the 300-level or above is required for a French major. At least twelve of these credits must be completed at the University of St. Thomas.

The major normally consists of eight credits in civilization or culture, eight credits in literature, and eight credits in advanced language study (grammar, composition or oral-intensive), plus elective courses at the 300-level or beyond.

Courses in a second foreign language are highly recommended.

The department strongly encourages all students planning a major in French to spend some time (a summer, a January term, a semester or an academic year) in a French-speaking country and to participate in a French course on campus upon their return.

For administrative purposes, students will complete assessment measures at the beginning of their major (in their 300 class) and during their final semester.

Minor in French
A minimum of sixteen credits at the 300-level or above is required for a French minor.
A minimum of eight credits in FREN must be completed at St. Thomas.

A typical minor consists of courses in the following areas:
Four credits in French language study at the FREN 300-level or beyond
Four credits in French literature
Four credits in French civilization
Four additional credits in FREN to be selected in consultation with the French faculty.

FREN 111 Elementary French I (4 credits)
Practice in understanding, speaking, reading and writing simple French for beginners.

FREN 112 Elementary French II (4 credits)
Continuation of FREN 111.
Prerequisite: FREN 111 or equivalent completed with a C- or better

FREN 211 Intermediate French I (4 credits)
Introduction to cultural and literary materials along with rapid review of basic skills in reading, speaking, writing and understanding
Modern and Classical Languages

oral French.
Prerequisite: FREN 112 or equivalent completed with a C- or better

FREN 212 Intermediate French II (4 credits)
Continuation of FREN 211 with emphasis on oral and written use of complex sentence structure.
Prerequisite: FREN 211 or equivalent completed with a C- or better

FREN 295, 296 Topics (2 credits)
FREN 297, 298 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.srthomas.edu/pls/banner/prod/bwckschd.

FREN 300 Advanced Oral and Written French I (4 credits)
A course required for all potential majors or co-majors as a preliminary to the upper-division courses they may take, as well as for any student wishing to investigate fine points of grammar and inherently intricate areas of pronunciation and intonation. Oral and written skills will be assessed.
Prerequisite: FREN 212 or equivalent completed with a C- or better

FREN 301 French Poetry (4 credits)
Individualized and group exercises in oral expression and comprehension focusing on the elements of French versification from the 16th century to the present.
Prerequisite: FREN 300 or equivalent

FREN 302 Questions de langage (4 credits)
Intensive practice in both oral and written French using selected materials to acquire a high level of oral comprehension and communication as well as competence in writing French.
Prerequisite: FREN 300 or equivalent

FREN 309 Introduction to French Literature I (4 credits)
Excerpts of French literature from the Middle Ages to the 18th century will be studied. Emphasis will be placed on reading skills and the tools for literary analysis. Recommended as a prerequisite for upper-level literature courses.
Prerequisite: FREN 300 or equivalent

FREN 310 Introduction to French Literature II (4 credits)
Excerpts of post-revolutionary French literature. Emphasis will be placed on reading skills and the tools for literary analysis. Recommended as a prerequisite for upper-level literature courses.
Prerequisite: FREN 300 or equivalent

FREN 311 French Civilization I (4 credits)
An introduction to the most significant historical, cultural, social, religious and economic realities of France from the prehistoric period through the 17th century.
Prerequisite: FREN 300 or equivalent

FREN 312 French Civilization II (4 credits)
An introduction to the most significant historical, cultural, social, religious and economic realities of France from the 18th century to the present.
Prerequisite: FREN 300 or equivalent

FREN 370 French Phonetics (4 credits)
A course designed to improve pronunciation and intonation by means of phonetic transcription and technological aids.
Prerequisite: FREN 300 or equivalent

FREN 371 French Conversation (4 credits)
Individualized French conversation practice in comprehension and speaking involving group and individualized activities.
Prerequisite: FREN 300 or permission of instructor

FREN 401 French Theater (4 credits)
Intensive study of the trends in French theater with analysis and interpretation of selected works from the seventeenth century to the present.
Modern and Classical Languages

Prerequisite: FREN 300 or equivalent

FREN 402 The French Novel (4 credits)
In depth study of selected works of fiction primarily from the 19th and 20th centuries.
Prerequisite: FREN 300 or equivalent

FREN 475, 476 Experiential Learning (2 credits)
FREN 477, 478 Experiential Learning (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

FREN 483, 484 Seminar (2 credits)
FREN 485, 486 Seminar (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

FREN 487, 488 Topics (2 credits)
FREN 489, 490 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

FREN 269, 389, 491 Research (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

FREN 243, 393, 495 Individual Study (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

German
The department strives to offer a diversified program capable of accommodating a variety of student interests and professional goals connected with German studies. The aims of the department are:
1. To give a command of the German language for use in professional and academic life
2. To acquaint students with the history, literature and culture of the German-speaking countries
3. To familiarize students with the role these countries and their culture play in the world today.
Lectures, reports, and discussion in courses numbered above 300 will be conducted in German.

Major in German
Completion of GERM 212 or its equivalent
GERM 300 Introduction to German Studies (4 credits)

Plus:
Twenty-four additional credits numbered above GERM 300
At least six of these 28 credits must be literature courses.
At least twelve of these 28 credits must be completed at the University of St. Thomas.
No more than twelve credits may be in the area of advanced language skills development.
Elective courses for the major in German should be selected in consultation with a member of the German faculty.

Plus:
Four credits in European history
For administrative purposes, students will complete assessment measures at the beginning of their major (in their 300 class) and during their final semester.

Recommended:
Courses in a second foreign language.
The department strongly urges all students planning to major in German to spend some time, usually one semester, studying in a German-speaking country. See a member of the German faculty for information on study-abroad opportunities for St. Thomas students in Germany or Austria.

Minor in German
Completion of GERM 212 or its equivalent
Modern and Classical Languages

GERM 300 Introduction to German Studies (4 credits)

Plus:
Twelve additional credits numbered above GERM 300
At least three of these credits must be a literature course.
Elective courses for the minor in German should be selected in consultation with a member of the German faculty.

GERM 111 Elementary German I (4 credits)
Introduction to fundamentals of language structure and vocabulary. Practice in speaking, reading, writing and understanding.

GERM 112 Elementary German II (4 credits)
Continuation of GERM 111.
Prerequisite: GERM 111 or equivalent completed with a C- or better

GERM 211 Intermediate German I (4 credits)
Review of fundamentals. Study of cultural texts with practice in speaking, reading, writing and understanding.
Prerequisite: GERM 112 or equivalent completed with a C- or better

GERM 212 Intermediate German II (4 credits)
Continuation of GERM 211.
Prerequisite: GERM 211 or equivalent completed with a C- or better

GERM 295, 296 Topics (2 credits)
GERM 297, 298 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

GERM 300 Introduction to German Studies (4 credits)
Intended as an introduction to more advanced work in German, this course, which is required of all majors and minors, will offer an overview of the evolution of German culture and civilization (society, politics, the arts) within an historical context. The course will also contain a review of advanced grammar and offer students an opportunity to improve their reading, writing, and speaking skills. Oral and written skills will be assessed.
Prerequisite: GERM 212 or equivalent completed with a C- or better

GERM 311 Conversation and Composition (4 credits)
Advanced practice in speaking and writing German in formal and informal situations. Instruction in the social patterns that govern language usage in various situations and discussion of contrasting linguistic and social practices among the German-speaking nations and among the regions within those nations.
Prerequisite: GERM 300

GERM 315 Influential Ideas in Non-fictional German (4 credits)
A study of the initiation and development of influential ideas on the part of German-speaking thinkers such as Hildegard von Bingen, Luther, Angeles Silesius, Novalis, Büchner, Marx, Nietzsche and Freud. Works selected have had a profound impact not only in German-speaking areas, but also on a worldwide scale. In addition, students will read selections from the writings and speeches of influential German political figures, past and present.
Prerequisite: GERM 300

GERM 320 Contemporary Germany and Current Events (4 credits)
Examinations of the development of the Federal Republic of Germany since 1949, and examination, evaluation and discussions of events as they develop during the course of the semester. Course materials include German pamphlets, newspapers, magazines, speeches by leading figures, and materials from the Internet. Attention is given to domestic developments in the Federal Republic of Germany as well as to international events as they concern Germany.
Prerequisite: GERM 300

GERM 341 Highlights of German Literature I (4 credits)
A survey of German literature from 1770 to 1890. The course will focus on important works by Goethe and Schiller, German Romanticism, and the literature of the later-19th century.
Prerequisite: GERM 300
GERM 342 Highlights of German Literature II (4 credits)
Continuation of 341 with emphasis on literary developments in the 20th century. The course will focus on the period preceding World War I, on literary developments during the Weimar Republic, and on the attempts by postwar German authors to deal with the legacy of the World War II. The course also will discuss more recent literature.
Prerequisite: GERM 300

GERM 345 Austria: The Golden Age (4 credits)
The course will examine historical and cultural developments in Austria from 1815 to 1918 with special emphasis on the literature and culture of turn-of-the-century Vienna. Students will read works by important Austrian writers such as Stifter, Nestoy, Schnitzler, Hofmannsthal, Freud and Stefan Zweig; listen to music by composers such as Schubert, Mahler and Lehar; and discuss relevant topics such as the Habsburg Empire, Biedermeier culture, art nouveau and operetta.
Prerequisite: GERM 300

GERM 350 Genre Studies in German Literature (4 credits)
This course will focus on genres of literature in German. The particular genres to be studied will vary with each offering. They will include German Drama, the German Novel of the 20th century, German Novellas, German Film, and German Poetry. May be taken twice with different topic.
Prerequisite: GERM 300

GERM 401 German Poetry (4 credits)
A critical study of selections from important German poets.
Prerequisite: GERM 300

GERM 410 The German Opera (4 credits)
Operas of the German masters from Mozart to Weill are studied. The primary emphasis is given to the German texts of the operas, but students are given the opportunity to listen to German language recordings of the operas and to investigate the unity of poetry and music. Attention is given to the literary trends of the times.
Prerequisite: GERM 300

GERM 440 Introduction to Business German and German Business (4 credits)
An introduction to the vocabulary of business and economics in German. A survey of German business structure, economic principles, business-government-union interrelationships and international trade status. Readings, discussions and tests are primarily in the German language.
Prerequisite: GERM 300

GERM 475, 476 Experiential Learning (2 credits)
GERM 477, 478 Experiential Learning (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

GERM 483, 484 Seminar (2 credits)
GERM 485, 486 Seminar (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

GERM 487, 488 Topics (2 credits)
GERM 489, 490 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

GERM 269, 389, 491 Research (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

GERM 243, 393, 495 Individual Study (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

Greek
Through courses in Greek, the student learns to read classical Greek, and at the intermediate level begins reading selections from ancient Greek authors. In addition to facility in reading classical Greek, the student gains an awareness of the unique character of classical Greek culture and its contribution to succeeding ages.
Modern and Classical Languages

Minor in Greek
Sixteen credits in Greek language

Plus:
Eight additional credits in Greek, Latin, ancient history, ancient philosophy, classical art, mythology or classical literature in translation.

GREK 111 Elementary Greek I (4 credits)
A beginning course, with emphasis on reading classical Greek prose in passages of increasing complexity. Introduction to essential forms, syntax and vocabulary. Practice in reading Greek aloud and composing simple sentences. Exploration of the social and cultural context of the Greek language.

GREK 112 Elementary Greek II (4 credits)
Continuation of GREK 111.
Prerequisite: GREK 111 or equivalent completed with a C- or better

GREK 211 Intermediate Greek I (4 credits)
Selected readings in Greek prose; review of grammar.
Prerequisite: GREK 112 or equivalent completed with a C- or better

GREK 212 Intermediate Greek II (4 credits)
Readings in classical Greek prose, particularly Plato.
Prerequisite: GREK 211 or equivalent completed with a C- or better

GREK 295, 296 Topics (2 credits)
GREK 297, 298 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

GREK 342 Greek Reading and Exegesis: John (4 credits)
Careful reading of the Gospel of John in Greek combined with theological commentary from the Greek text, adapted to intermediate-level Greek students.
Prerequisite: GREK 112 or equivalent (Recommended: THEO 205 or THEO 210)

GREK 475, 476 Experiential Learning (2 credits)
GREK 477, 478 Experiential Learning (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

GREK 483, 484 Seminar (2 credits)
GREK 485, 486 Seminar (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

GREK 487, 488 Topics (2 credits)
GREK 489, 490 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

GREK 269, 389, 491 Research (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

GREK 243, 393, 495 Individual Study (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog. The content of seminars, topics, and individual study courses will vary. Material will be chosen from Homer, Greek philosophers, tragedians or historians.

International Business – Language Intensive
Students seeking a good mastery of a language (French, German, Spanish) and training in one or more business areas may enroll in this major which is administered by the Department of Modern and Classical languages.
A program of study abroad is strongly recommended.

For administrative purposes, students will complete assessment measures at the beginning of their major (in their first 300 level class) and during their final semester.

**International Business – French Intensive**
FREN 300 Advanced Oral and Written French (4 credits)
One course in French on contemporary France

*Plus:*
Twenty additional credits in French courses numbered above FREN 300, including literature and civilization, selected in consultation with the French section coordinator

**International Business – German Intensive**
GERM 300 Introduction to German Studies (4 credits)
GERM 440 Introduction to Business German and German Business (4 credits)

*Plus:*
Twenty additional credits in German courses numbered above GERM 300

**International Business – Spanish Intensive**
SPAN 300 Advanced Spanish Grammar (4 credits)
SPAN 301 Advanced Written Spanish and Culture (4 credits)
SPAN 305 Spanish Oral Expression (4 credits)
SPAN 320 Business Spanish (4 credits)

*Plus:*
Twelve additional credits in Spanish courses numbered above SPAN 300

**Allied requirements for all languages**
Twenty credits in business administration

*Plus:*
CISC 200 Introduction to Computer Technology and Business Applications (4 credits)
ECON 251 Principles of Macroeconomics (4 credits)
ECON 252 Principles of Microeconomics (4 credits)
ECON 348 International Economics (4 credits)

*Plus four credits from the following:*
MATH 101 Finite Mathematics (4 credits)
MATH 111 Calculus for Business or Social Science (4 credits)
MATH 113 Calculus I (4 credits)

*Other recommended courses:*
ECON 345 Economics of Development and Growth (4 credits)
ECON 349 Comparative Economic Systems (4 credits)
IDSC 481 Seminar in International Studies (4 credits)
JPST 250 Introduction to Justice and Peace Studies (4 credits)
POLS 104 American Government in Comparative Perspective (4 credits)
POLS 326 International Law and Organizations (4 credits)
POLS 350 Comparative Politics of the New Europe (4 credits)
THEO 325 The Catholic Social Traditions (4 credits)

**Irish Gaelic**
IRGA 111 Irish Gaelic I (4 credits)
Introduction to the pronunciation, structure, and culture of Irish Gaelic by developing basic skills in conversation, writing, and read-
Modern and Classical Languages

ing. Progress is evaluated through classroom interaction (dialogue, role-playing, oral drills, etc.), written assignments, song-learning, and an interview in Irish with the instructor.

IRGA 112 Irish Gaelic II (4 credits)
Continuation of IRGA 111 with further development of the same skills in conversation, writing, and reading and an expanded awareness of the culture of Irish Gaelic. Progress is evaluated through classroom interaction (dialogue, role-playing, oral drills, etc.), written assignments, and a brief presentation in Irish before the class at the end of the semester.
Prerequisite: IRGA 111 or equivalent completed with a C- or better

IRGA 211 Irish Gaelic III (4 credits)
Continuation of IRGA 112 with an emphasis on increasing comprehension of, and fluency in, Irish Gaelic. The course will take place in a Gaelic-speaking community in Co. Galway, Ireland at a campus of the National University of Ireland. Students will learn and practice their Gaelic in the classroom and in the community with native speakers. Students will engage the Gaelic culture, history, and traditions at seminars in the late afternoon and evening and on four field trips to locations of literary and cultural importance. Students will be evaluated on the basis of three interviews with their instructor and a third party.
Prerequisite: IRGA 112 or equivalent with instructor’s approval

Italian
ITAL 111 Elementary Italian I (4 credits)
Pronunciation, essentials of grammatical structures, aural-oral practice, writing, reading of simple Italian prose, introduction to the cultures of the Italian-speaking world.

ITAL 112 Elementary Italian II (4 credits)
Continuation of ITAL 111. Emphasis on grammatical structures, aural-oral practice, writing, reading. Continuation of Italian culture.
Prerequisite: ITAL 111 or its equivalent with C- or better.

ITAL 211 Intermediate Italian I (4 credits)
Designed to increase listening, speaking, reading, and writing skills in Italian. Reinforcement and expansion of grammatical structures of Elementary Italian I and II. Continued exposure to Italian culture.
Prerequisite: ITAL 112 or its equivalent completed with a C- or better.

ITAL 212 Intermediate Italian II (4 credits)
Continuation of ITAL 211. Focus on intermediate grammatical structures. Emphasis on Italian culture, conversation, writing, and expansion of vocabulary based on thematic discussions and cultural readings.
Prerequisite: ITAL 211 or its equivalent completed with a C- or better.

Japanese
Courses in Japanese are offered with the assumption that many of the students will be visiting Japan in the near future. Thus, the Japanese program strives to:
1. lay a solid foundation in the areas of speaking, listening, reading and writing. All three writing systems (hiragana, katakana and kanji) are covered.
2. give students basic language skills sufficient to manage day-to-day life in Japan
3. promote interest in Japan, Japanese people, and their culture
4. help students fulfill professional and personal endeavors at an international level
5. eliminate fear of speaking Japanese in front of people.
6. To provide the foundation for earning a major or minor in the language.

Students wishing to major or minor in Japanese may do so by special arrangement with Macalester College and approval of the St. Thomas Department of Modern and Classical Languages.

Minor in Japanese
Completion of JAPN 212 or equivalent

Plus:
Eight additional credits selected in consultation with the department adviser

JAPN 111 Elementary Japanese I (4 credits)
Mastering 46 hiragana alphabets. Introduction to basic sentence structures, particles, polite forms of verbs, and simple kanjis (Chinese characters). Students are encouraged to converse in given situations utilizing whatever has been learned in the class.
JAPN 112 Elementary Japanese II (4 credits)
Prerequisite: JAPN 111 or equivalent completed with a C- or better

JAPN 211 Intermediate Japanese I (4 credits)
Continuation of JAPN 112. Some of the volitional forms, hypothetical forms, and desirative forms are introduced. Continued study of kanjis. Daily free speaking. Introduction to the use of Japanese word processor.
Prerequisite: JAPN 112 or equivalent completed with a C- or better

JAPN 212 Intermediate Japanese II (4 credits)
Continuation of JAPN 211. Potential forms, transitive-intransitive verbs, respectful-humble forms, giving-receiving verbs, and some more hypothetical forms are introduced. Practice in situational and functional Japanese. Daily free conversation and further study of kanjis are continued.
Prerequisite: JAPN 211 or equivalent completed with a C- or better

JAPN 311 Advanced Japanese I (4 credits)
In-depth study of sentence patterns. Additional kanji characters will be presented to increase reading skills. Prerequisite: 212 or equivalent
Prerequisite: JAPN 212 or equivalent

JAPN 312 Advanced Japanese II (4 credits)

Latin
The courses in Latin are offered with the following objectives:
1. To give students the necessary grasp of the language to read the works of Latin authors, and to read them with some degree of appreciation
2. To acquaint students with the unique character of Roman culture and its contribution to succeeding ages
3. To improve students’ understanding of the structures of language.

These objectives are pursued with a view to the needs of students who are preparing to do graduate work in the field of Latin, who are preparing to teach Latin in secondary schools, or who are seeking a background for the study of theology, philosophy, history, law, science, English or the Romance languages.

The major engages students in the study of the language, literature and culture of ancient Rome. It prepares students to read Latin, introduces significant works of essential authors, and provides analytical tools for examining the relationship between language and the unique identity of different cultures.

For administrative purposes, students will complete assessment measures at the beginning of their major (in their 300 class) and during their final semester.

Major in Latin
Four years of high school Latin or the completion of LATN 212 or 255

Plus:
Twenty-eight credits in Latin numbered above LATN 255

Plus:
Eight additional credits in ancient history, ancient philosophy, classical art, mythology or classical literature in translation.

For administrative purposes, students will complete assessment measures at the beginning of their major (in their 212 class) and during their final semester.

Minor in Latin
Completion of twelve credits above LATN 211
Modern and Classical Languages

Plus:
Eight additional credits in ancient history, ancient philosophy, classical art, mythology or classical literature in translation.

LATN 111 Elementary Latin I (4 credits)
A beginning course, with emphasis on reading Latin prose in passages of increasing complexity. Introduction to essential forms, syntax and vocabulary. Practice in reading Latin aloud and composing simple sentences. Exploration of the social and cultural context of the Latin language.

LATN 112 Elementary Latin II (4 credits)
Continuation of LATN 111. More graded readings, further mastery of forms, syntax and vocabulary.
Prerequisite: LATN 111 or equivalent completed with a C- or better

LATN 211 Intermediate Latin I (4 credits)
Readings of narrative prose. Review and further study of grammar.
Prerequisite: LATN 112 or equivalent completed with a C- or better

LATN 212 Intermediate Latin II (4 credits)
Selections from Virgil's epic poem, the Aeneid.
Prerequisite: LATN 211 or equivalent completed with a C- or better

LATN 255 Latin Readings in the Old and New Testament (4 credits)
Prerequisite: LATN 211 or equivalent

LATN 295, 296 Topics (2 credits)
LATN 297, 298 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.srthomas.edu/pls/banner/prod/bwckschd.

LATN 311 Latin Composition (4 credits)
A thorough review of Latin grammar. Practice in the writing of continuous Latin prose.
Prerequisite: LATN 212 or 255 or equivalent

LATN 320 Readings in St. Augustine (4 credits)
Selected readings from the texts of St. Augustine. Focal points will include pertinent background on the author, his times, philosophical influences, and the grammatical features of Medieval Latin.

LATN 325 Catullus and Horace (4 credits)
Selections from the lyric poetry of Catullus and Horace. Poetic sources, influence, the principal lyric meters.
Prerequisite: LATN 212 or 255 or equivalent

LATN 360 Philosophy in Latin Texts (4 credits)
A survey of various kinds of treatises principally from the works of St. Thomas Aquinas for students who want to acquire a facility in reading philosophical and theological texts in medieval Latin.
Prerequisites: LATN 211 and three courses in PHIL or permission of the instructor.

LATN 421 Vergil (4 credits)
Reading of extensive selections from the Aeneid in Latin and of the entire poem in English translation. Discussion of the sources, themes and techniques of the epic.
Prerequisite: LATN 212 or 255 or equivalent

LATN 430 Caesar and Cicero (4 credits)
Extensive reading of the Gallic War and of the Orations of Cicero. A study of the character and career of each author.
Prerequisite: LATN 212 or 255 or equivalent

LATN 475, 476 Experiential Learning (2 credits)
LATN 477, 478 Experiential Learning (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.
LATN 483, 484 Seminar (2 credits)
LATN 485, 486 Seminar (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

LATN 487, 488 Topics (2 credits)
LATN 489, 490 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

LATN 269, 389, 491 Research (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

LATN 243, 393, 495 Individual Study (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

Spanish
The Spanish program provides students the opportunity to develop a solid command of the Spanish language, and an understanding of the literature, culture, and linguistics of the Hispanic world. Diverse course offerings allow students, in consultation with their advisers, to tailor a program of studies consistent with various goals: to prepare for graduate school, to usefully complement a variety of majors (business, political science, psychology, etc.), to interact with Spanish-speaking people in the US and abroad, to analyze the Spanish language and apply what is learned to a variety of contexts, and to read great Spanish and Spanish American literature. We offer (and strongly recommend) study abroad as a fundamental component of the Spanish major.

Major in Spanish
Completion of SPAN 212 or its equivalent

In consultation with their major field adviser, students must complete thirty-two (32) credits in courses numbered 300 and above:

Required Core Courses (12 credits):
SPAN 300 Advanced Spanish Grammar (4 credits)
SPAN 301 Advanced Written Spanish and Culture (4 credits)
SPAN 305 Spanish Oral Expression and Culture (4 credits)

Areas of Concentration: Cultural and Literary Studies or Linguistics and Applied Language Studies

For the remaining 20 credits, students must choose an area of concentration and take a minimum of 12 credits in that area. Up to 8 of the 20 remaining credits may be taken from the other concentration.

Cultural and Literary Studies

Required for concentration (8 credits):
SPAN 335 Introduction to Spanish Literature (4 credits)
Plus
SPAN 331 Spanish Culture and Civilization (4 credits) OR SPAN 332 Latin American Culture and Civilization (4 credits)

For the remaining 12 credits, students may choose from the following electives. Up to eight (8) credits may be taken from the Linguistics and Applied Language Studies area. A minimum of four (4) credits must be numbered 340 or above:
SPAN 340 Themes in Spanish Literature (4 credits)
SPAN 380 Themes in Latin American Literature (4 credits)
SPAN 405 Spanish Genre Studies (4 credits)
SPAN 410 Women and Discourse of the Spanish-speaking World (4 credits)
SPAN 411 Ethnicity and Multiculturalism of the Spanish-speaking World (4 credits)
SPAN 412 Chicano and U.S. Latino Culture(s) and Literature(s) (4 credits)
Modern and Classical Languages
SPAN 415 Hispanic Cinema Studies (4 credits)

Linguistics and Applied Language Studies

Required for concentration (4 credits):
SPAN 315 Introduction to Hispanic Linguistics (4 credits)

For the remaining 16 credits, students may choose from the following electives. Up to eight (8) credits may be taken from the Cultural and Literary Studies area:
SPAN 316 Studies in Spanish Linguistics (4 credits)
SPAN 317 Spanish Phonetics and Pronunciation (4 credits)
SPAN 320 Business Spanish (4 credits)
SPAN 434 Spanish Applied Linguistics (4 credits)

Students in teacher licensure programs must include a course in linguistics (recommended SPAN 315).

Students majoring in Spanish must take a minimum of twelve (12) credits in Spanish at the 300-level or above at St. Thomas or in a St. Thomas-approved study abroad program.

Students must complete the introductory and intermediate language program (SPAN 111, 112, 211, 212), or its equivalent, with a C- or above in all coursework before moving on to SPAN 300. Spanish majors/minors must complete SPAN 300, 301, and 305 with a C- or above in each course before proceeding on to further courses in the Spanish major.

For administrative purposes, students will complete assessment measures at the beginning of their major (in their 300 class) and during their final semester.

Note: The rare student who majors in Spanish, but begins her/his language training at St. Thomas with SPAN 111 may need to complete 136 units to graduate rather than the normal 132.

Minor in Spanish
In consultation with their minor field adviser, students must complete twenty (20) credits in courses numbered 300 and above. After completing the core courses (SPAN 300, 301, 305), students may select two additional courses from any of the remaining upper-division Spanish courses (numbered above 305). Students must complete the introductory and intermediate language program (SPAN 111, 112, 211, 212), or its equivalent, with a B- average or above in all coursework before moving on to SPAN 300. Spanish minors must complete SPAN 300, 301 and 305 with a C- or above in each course before proceeding on to further courses in Spanish.

Students minoring in Spanish must take a minimum of eight (8) credits in Spanish at the 300-level or above at St. Thomas or in a St. Thomas-approved study abroad program.

SPAN 111 Elementary Spanish I (4 credits)
Pronunciation, essentials of grammatical structures, aural-oral practice, writing, reading of simple Spanish prose, introduction to the culture of the Spanish-speaking world.

SPAN 112 Elementary Spanish II (4 credits)
Continuation of SPAN 111. Emphasis on grammatical structure, aural-oral practice, writing, reading. Continuation of Hispanic culture. Prerequisite: SPAN 111 or its equivalent completed with a C- or better.

SPAN 211 Intermediate Spanish I (4 credits)
Designed to increase listening, speaking, reading, and writing skills in Spanish. Reinforcement of grammatical structures of Elementary Spanish I and II. Continued exposure to Hispanic culture. Prerequisite: SPAN 112 or its equivalent completed with a C- or better.

SPAN 212 Intermediate Spanish II (4 credits)
Continuation of SPAN 211. Emphasis on Hispanic culture, conversation, writing, and expansion of vocabulary based on thematic discussions and cultural readings. Prerequisite: SPAN 211 or its equivalent completed with a C- or better.
Modern and Classical Languages

SPAN 295, 296 Topics (2 credits)
SPAN 297, 298 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

SPAN 300 Advanced Spanish Grammar (4 credits)
Advanced Grammar with emphasis on review of grammatical structures, language development, mechanics, and expansion of vocabulary. Writing of basic structures in expository prose. Language skills will be assessed.
Prerequisite: Completion of SPAN 212 or its equivalent with a C- or better in all lower division language courses (SPAN 111, 112, 211, 212).

SPAN 301 Advanced Written Spanish and Culture (4 credits)
Intensive practice in written Spanish using selected materials to acquire a high level of competence in writing Spanish. This writing course aims to improve technique, expand syntactic depth, increase vocabulary and learn good writing through a process approach involving stages of idea development, thesis construction, structural development, bibliographic notation, evaluation of ideas and rewriting of the text. Lectures and class discussions are based on major topics that relate to the cultures of the Spanish-speaking world. Written skills will be assessed.
Prerequisite: Completion of SPAN 300 or its equivalent with a C- or better.

SPAN 305 Spanish Oral Expression and Culture (4 credits)
The aim of this course is to develop aural and oral skills through the analysis and interpretation of representative cultural expressions of the Spanish-speaking world. This course is intended to stimulate creative, critical thinking in Spanish through activities that require students to argue, persuade, analyze, and interpret other points of view. Oral skills will be assessed.
Prerequisite: Successful completion of SPAN 300 or its equivalent with a C- or better. May be taken simultaneously with SPAN 301 or 315.

SPAN 315 Hispanic Linguistics (4 credits)
An introduction to both contemporary and historical Hispanic linguistics. Descriptive Spanish phonetics and phonology. Systematic study of dialectal variation in both Spain and Spanish America. Offered in fall semester.
Prerequisites: Successful completion of SPAN 301 and 305 or their equivalents with a C- or better in each course, (may be taken simultaneously with SPAN 305).

SPAN 316 Studies in Spanish Linguistics (4 credits)
This course provides an in-depth study into a particular area of Spanish Linguistics. Topics may vary with each offering and may include Phonology/Morphology, Syntax, Dialectology, Semantics/Pragmatics, Discourse Analysis, and Second Language Acquisition. Credit may be earned more than once under this number for different emphases.
Prerequisites: Successful completion of SPAN 301 and 305 or their equivalents with a C- or better in each course, (may be taken simultaneously with SPAN 305).

SPAN 317 Spanish Phonetics and Pronunciation (4 credits)
This course provides undergraduate students with an understanding of the basic concepts of phonetics and phonology. Students apply these concepts to achieve more native-like pronunciation in Spanish. Tasks include recognizing, producing, transcribing and describing in linguistic terms the sounds of Spanish.
Prerequisites: Successful completion of SPAN 301 and 305 or their equivalents with a C- or better in each course, (may be taken simultaneously with SPAN 305).

SPAN 318 Introduction to Spanish Translation (4 credits)
In this course students will learn introductory techniques and principles of translation, review Spanish grammar and improve their reading and writing skills. The main objective of this course will be to develop the necessary skills in order to become proficient communicators in bilingual contexts. We will mainly use Spanish as a source language to translate an array of journalistic, literary, academic, and technical texts into English. At some specific instances, we will translate from English to Spanish to give students the opportunity to practice this skill as well. To enhance the practical component of the course, we will reflect on key theoretical issues related to translation practice through selected readings on translation as a process and as a product, cultural issues in translation, and the role of the translator today.
Prerequisites: SPAN 301 and SPAN 305

SPAN 320 Business Spanish (4 credits)
Practice in the language skills and vocabulary needed to conduct business in the Hispanic world; an overview of political, economic, social and cultural factors which affect business in the Hispanic countries.
Prerequisites: Successful completion of SPAN 301 and 305 or their equivalents with a C- or better in each course, (may be taken simultaneously with SPAN 305).
SPAN 331 Survey of Spanish Culture and Civilization (4 credits)
A study of the evolution of the civilization of Spain from the time of early human settlements through the present. This course examines socioeconomic developments, political movements and artistic creations within an historical context.
Prerequisites: Successful completion of SPAN 300, 301, 305 or their equivalents with a C- or better in each course.

SPAN 332 Survey of Latin American Culture and Civilization (4 credits)
Prerequisites: Successful completion of SPAN 300, 301, 305 or their equivalents with a C- or better in each course.

SPAN 335 Introduction to Spanish Literature (4 credits)
An introduction to Spanish and Spanish American narrative, drama and poetry. Strongly recommended for students who minor in Spanish. The course is designed to teach students the skills of critical reading and literary analysis.
Prerequisites: Successful completion of SPAN 300, 301, 305 or their equivalents with a C- or better in each course.

SPAN 340 Themes in Spanish Literature (4 credits)
A comparative study of major themes in the literature of Spain with the goal of understanding their cultural relevance. Works studied represent several of the following: the medieval era, the Golden Age, the baroque, romanticism, naturalism, modernism, and texts of the twentieth and twenty-first centuries. Genres may include poetry, theater, narrative, and essays, among others.
Prerequisites: Successful completion of SPAN 300, 301, 305 and 335 or their equivalents with a C- or better in each course.

SPAN 341 Themes in Latin American Literature (4 credits)
A comparative study of major themes in Latin American literature with the goal of understanding their cultural relevance. Works studied represent several of the following historical periods: the pre-Columbian era, the age of Spanish exploration of the Americas, the colonial era, the nineteenth and twentieth centuries, and beyond. Genres may include poetry, theater, narrative, and essays, among others.
Prerequisites: Successful completion of SPAN 300, 301, 305 and 335 or their equivalents with a C- or better in each course.

SPAN 345 Spanish Genre Studies (4 credits)
An examination of particular genres of Spain and Spanish America during defined literary periods. Topics will vary with each offering and may include the novel, non-fictional prose, short story, poetry, and theater of Spain and Spanish America. Credit may be earned more than once under this number for different emphases. May be taken twice with different topics.
Prerequisites: Successful completion of SPAN 300, 301, 305 and 335 or their equivalents with a C- or better in each course.

SPAN 340 Themes in Spanish Literature (4 credits)
A comparative study of major themes in the literature of Spain with the goal of understanding their cultural relevance. Works studied represent several of the following: the medieval era, the Golden Age, the baroque, romanticism, naturalism, modernism, and texts of the twentieth and twenty-first centuries. Genres may include poetry, theater, narrative, and essays, among others.
Prerequisites: Successful completion of SPAN 300, 301, 305 and 335 or their equivalents with a C- or better in each course.

SPAN 405 Spanish Genre Studies (4 credits)
An examination of particular genres of Spain and Spanish America during defined literary periods. Topics will vary with each offering and may include the novel, non-fictional prose, short story, poetry, and theater of Spain and Spanish America. Credit may be earned more than once under this number for different emphases. May be taken twice with different topics.
Prerequisites: Successful completion of SPAN 300, 301, 305 and 335 or their equivalents with a C- or better in each course.

SPAN 410 Women and Discourse of the Spanish-Speaking World (4 credits)
Focuses on the production of women’s multiple discourses (including those of a literary, political, social and cultural register) as manifested across the centuries and throughout the Spanish-speaking world. Credit may be earned more than once under this number for different emphases. Possible course offerings may include: “Women and the Spanish Empire,” “Women and the Spanish Civil War,” “Memory, Trauma and Resistance in the Works of Southern Cone Women Writers,” “Women and Contemporary Spanish Theater,” among others.
Prerequisites: Successful completion of SPAN 300, 301, 305 and 335 or their equivalents with a C- or better in each course.

SPAN 411 Ethnicity and Multiculturalism of the Spanish-speaking World (4 credits)
This course aims to analyze the concepts of race, ethnicity and multiculturalism in the Spanish-speaking world. Due to the multiculturalism and diversity in the Hispanic world, this course could include topics such as literary/social interpretations of Islam, Judaism and Christianity in Muslim Spain, Gypsies in film, culture, music and poetry, Equatorial Guinean culture and the poetry of resistance and idealism, abolitionist and neo-slave narratives and their cultural contexts, indígenismo and indigenous cultures in Latin American literature, among many others. Emphasis will vary in the different offerings of the course. May be taken twice with different topics.
This course fulfills the Human Diversity requirement in the core curriculum.
Prerequisites: Successful completion of SPAN 300, 301, 305 and 335 or their equivalents with a C- or better in each course.

SPAN 412 Chicano and U.S. Latino Culture(s) and Literature(s) (4 credits)
Overview of the different issues that concern the U.S. Latino population. This course studies cultural artifacts and literary texts (in Spanish) relating to the multiple cultures of the Spanish-speaking U.S. Topics of class discussion could include: The United Farmers Workers and the Chicano Power movement in the 1960s, the role of César Chávez and Luis Valdez, and literary interpretations of the Hispanic/Latino/Chicano experience. Authors will be selected from a broad range of writers such as Cherríe Moraga, Sandra Cisneros, Rolando Hinojosa, Miguel Mendez, Julia Álvarez, Cristina García, Gustavo Pérez Firmat, Achy Obejas, Esmeralda Santiago, among others. This course fulfills the Human Diversity requirement in the core curriculum.
Prerequisites: Successful completion of SPAN 300, 301, 305, and 335 or their equivalents with a C- or better in each course.
SPAN 415 Hispanic Cinema Studies (4 credits)
Examination of the cinematic arts as they relate to the cultures and literatures of the Spanish-speaking World. Course topics may include some of the following: gender, class, and/or ethnicity/race in Hispanic Cinema, discussion of film techniques, narrative structures, major directors, cinematic movements of Spain, Latin America, and/or U.S. Latino film, or the relationship of film to history, culture and society. May be taken twice with different topics. This course fulfills the Human Diversity requirement in the core curriculum.
Prerequisites: Successful completion of SPAN 300, 301, 305, and 335 or their equivalents with a C- or better in each course.

SPAN 434 Spanish Applied Linguistics (4 credits)
This course focuses on the theory and development of the field of Spanish second language acquisition and pedagogy. Special attention will be dedicated to the most common grammatical, linguistic, and methodological issues related to teaching Spanish to English native speakers. Topics covered will also include the role of technology in language teaching and methods for evaluating the linguistic competence of learners of Spanish.
Prerequisites: Successful completion of SPAN 300, 301, 305, and 315 or their equivalents with a C- or better in each course.

SPAN 475, 476 Experiential Learning (2 credits)
SPAN 477, 478 Experiential Learning (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

SPAN 483, 484 Seminar (2 credits)
SPAN 485, 486 Seminar (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

SPAN 487, 488 Topics (2 credits)
SPAN 489, 490 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.suffolks.edu/pls/banner/prod/bwckschd.

SPAN 269, 389, 491 Research (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

SPAN 243, 393, 495 Individual Study (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.
The Mission of the University of St. Thomas Department of Music is to provide outstanding music instruction through our progressive curriculum; enable students to realize their full potential in the development of their musical, artistic and career goals; and instill ethical professional behavior. Our accomplished faculty offers musical and academic excellence while mentoring students in a creative environment, which enhances the cultural, spiritual and intellectual life of the university and community.

Beyond the specific area of study, all students majoring in music take courses in six areas: performance studies, ensembles, music theory, musicology, music media, and conducting.

Through the study of music, students develop an aural comprehension of tonal and non-tonal music, an understanding of the harmonic language and voice-leading principles, and an understanding of musical vocabulary, analytical systems, and structural and formal principles. Students develop the necessary skills to read musical scores and to write in standard musical notation for a variety of instruments and voices. Students develop the ability to understand a wide range of musical traditions and cultural practices, ranging from the western classical tradition to the music of selected non-western cultures to today’s popular music. Students will be able to discuss music critically and will be prepared to engage in meaningful research in musical fields. Student performers will develop an expressive interpretation of solo repertoire through an understanding of compositional process and historical style with the necessary technical proficiency. Students will demonstrate advanced ensemble skills and contextual understanding of repertoire by artistically performing music representing a variety of genres, stylistic periods and cultures.

Transfer students must:
• take a theory placement test. This placement test should be taken at the beginning of the first semester of studies at UST. Review sheets and information on time and place of the placement test are available from the Music Department Office (651) 962-5850.
• file an Application for Major Field with the department chair.
• take at least one semester of music history at UST.
• pass the performance level audition.
• take at least four semesters of performance level lessons at UST.
• perform their final level recital at UST.
• take a minimum of four semesters of an appropriate ensemble.
• complete 32 of their last 36 credits at UST.

Students intending on majoring in music must pass a performance audition. Students majoring in music may not have a letter grade lower than C- in a required music course.

For information concerning the department’s current policies and procedures, consult the Handbook for Music Majors and Minors, which is available on the Music Department website.

The department offers minors for those students who have an interest in music, but do not wish to major in the field. A variety of musical ensembles are available for instrumentalists and vocalists, regardless of major.

The department also offers a number of courses for non-majors that fulfill the Fine Arts and Human Diversity components of the core curriculum.

The University of St. Thomas is fully accredited by the National Association of Schools of Music.

**Major in Music – Performance (B.M.)**

MUSC 001 Student Convocation Hour (0 credits) (6 semesters)
MUSC 101 Piano Skills I (1 credit)
MUSC 102 Piano Skills II (1 credit)
MUSC 140 Music Media (2 credits)
MUSC 113 Music Theory and Aural Skills I (4 credits)
MUSC 114 Music Theory and Aural Skills II (4 credits)
MUSC 133 Music of the United States: Aural and Written Traditions (2 credits)
MUSC 201 Piano Skills III (1 credit)
MUSC 202 Piano Skills IV (1 credit)

Students for whom piano or organ is the primary instrument will take the following courses in lieu of MUSC 101, 102, 201, and 202:
MUSC 192 Technical Skills for Keyboard Majors (1 credit)
MUSC 292 Functional Skills for Keyboard Majors I (1 credit)
MUSC 293 Functional Skills for Keyboard Majors II (1 credit)
Music (MUSC)

MUSC xxx Piano Elective (1 credit) to be chosen from the following: MUSP 121, 131 (organ majors only), 135 (piano majors only), 153, MUSN 171, 172, 182, or MUSW 501.

MUSC 213 Music Theory and Aural Skills III (4 credits)
MUSC 214 Music Theory and Aural Skills IV (4 credits)
MUSC 231 Introduction to Conducting I (1 credit)
MUSC 232 Introduction to Conducting II (1 credit)
MUSC 233 Music of the World: Aural and Written Traditions (4 credits)
MUSC 340 Theory Elective (2 semesters) (2 credits per semester)
MUSC 411 History and Literature of Music I (4 credits)
MUSC 412 History and Literature of Music II (4 credits)
MUSC 420 Senior Research Paper (2 credits)
MUSN 1xx Eight semesters of Ensemble participation (0 credits)

Guidelines for choosing an ensemble:
If principal instrument is:
Piano - at least two semesters in MUSN 171; at least two semesters in one of: MUSN 140, 142, 143, 160, 181, 185, 186, 190: two semesters may be in 161, 182, 183.
Voice - voice majors must participate in a minimum of eight semesters in MUSN 140, 142, 143, or 160.
Woodwind, Brass or Percussion - at least eight semesters in MUSN 185 or 186.
Orchestral String - at least eight semesters in MUSN 181.
Guitar - at least six semesters in MUSN 173; at least two semesters in MUSN 174.
Other Instruments - at least eight semesters chosen from: MUSN 140, 142, 143, 160, 171, 172, 181, 185, 186, 190.

MUSP xxx Piano Elective (1 credit) to be chosen from the following: MUSP 121, 131 (organ majors only), 135 (piano majors only), 153, MUSN 171, 172, 182, or MUSW 501.

MUSR 200 Piano Proficiency (0 credits)
MUSR 270 Level I Recital (0 credits)
MUSR 350 Level II Recital (0 credits)
MUSR 450 Level III Recital (0 credits)

Plus:
EDUC 308 Pedagogy and Literature for Music Performers I (2 credits)

MUSC 231 Intro to Conducting I (1 credit)
MUSN 1xx Four semesters of Ensemble (1 credit per semester)
including at least one semester of MUSN 176 New Music Ensemble.
MUSP 165 Four semesters of Composition Studies (50 minute lessons) (1 credit per semester)
MUSR 270 Level 1 Composition Recital (0 credits)

Plus four credits from the following, two of which need to be at the 200 level or above:
MUSC 101 Piano Skills I (1 credit)
MUSC 102 Piano Skills II (1 credit)
MUSC 201 Piano Skills III (1 credit)
MUSC 202 Piano Skills IV (1 credit)
MUSC 213 Music Theory and Aural Skills III (4 credits)
MUSC 224 Songwriting (2 credits)
MUSC 232 Intro to Conducting II (1 credit)
MUSC 260 Fundamentals of Musicianship in Popular Music (4 credits)
Music (MUSC)
MUSC 340 Music Theory Elective: Topics (2 credits)
MUSC 354 Advanced Conducting and Materials: Instrumental Concentration (2 credits)
MUSC 355 Advanced Conducting and Materials: Vocal Concentration (2 credits)

Music Courses (MUSC)
MUSC 001 Student Convocation Hour (0 credit)
The student convocation hour is for all music majors regardless of specialization. This course meets three times per semester for each semester of enrollment and gives the community of learners performance opportunities, lectures/discussions on topics applicable to all music concentrations, and lecture/discussions on topics specific to each music concentration.

MUSC 101 Piano Skills I (1 credit)
This course teaches the keyboard skills required for music majors whose principal instrument is not piano. It includes training in basic keyboard technique, sight reading, score reading, accompanying, transposing, playing by ear, harmonizing melodies, and making practical applications of music theory.

MUSC 102 Piano Skills II (1 credit)
This course teaches the keyboard skills required for music majors whose principal instrument is not piano. It includes training in basic keyboard techniques, sight reading, score reading, accompanying, transposing, playing by ear, harmonizing melodies, making practical applications of music theory, and the development of other skills studied in Piano Skills I.

MUSC 113 Music Theory and Aural Skills I (4 credits)
This course, designed for those intending to major or minor in music, covers basic materials and structures of music, approached through analysis and experience. This course is the first of a four-semester sequence that integrates sight-singing and ear training with the analysis of harmony, form and contrapuntal procedures from the 16th through the 21st centuries. Assignments include the development of compositional and arranging skills. Lecture plus 90 minutes laboratory per week. Offered fall semester.

MUSC 114 Music Theory and Aural Skills II (4 credits)
Continuation of MUSC 113. Offered in spring semester.
Prerequisite: MUSC 113 or successful placement test

MUSC 115 Understanding Music and Culture (4 credits) (MUSC 118, 119)
This survey course explores the classics of European and American music in their historical, cultural and social contexts. It will investigate the many ethnic, religious, political, philosophical, economic and scientific influences that have shaped these traditions. This course is designed to enable students, regardless of musical background, to increase their understanding of music. The listening skill and knowledge acquired will provide a foundation for students to become more critical and discerning listeners of music of all types. This course fulfills the Fine Arts requirement in the core curriculum.

NOTE: Students who receive credit for MUSC 115 may not receive credit for MUSC 118 or 119.

MUSC 120 Orchestral Literature (4 credits)
This course presents an overview of orchestral and instrumental chamber music, combining a critical and historical study of music with the regular experience of hearing live music. The course includes preparation for seven Thursday evening concerts at venues such as Orchestra Hall and the Ordway and elsewhere as well as in-class presentations that address critical listening skills, musical performance, and the creative process. Thursday class meetings designated as concert attendance sessions will necessarily convene later than the regular campus meeting times posted. Students will be expected to purchase their own tickets for admission to all required concert events (student discount prices will be available), and to arrange for transportation to concerts as part of the “Lab Fees” for this course. This course fulfills the Fine Arts requirement in the core curriculum.

MUSC 130 Introduction to World Music (4 credits)
This course studies the phenomenon of music as an activity in people’s lives. Students will be guided to think critically about music employing an anthropological and multicultural perspective. Models will be presented to provide a context in which music serves as part of larger social ritual. The music of selected cultures such as from Africa, the Middle East, China, Japan, India, Native American and American popular music in addition to European classical music will be covered. Designed for the non-major. This course fulfills the Fine Arts and the Human Diversity requirements in the core curriculum.

MUSC 133 Music of the United States: Aural and Written Traditions (2 credits)
This course focuses on the study of U.S. music within its cultural context. The course, with its emphasis on listening, analysis, and vocabulary development will contain 1) music of aural traditions to include jazz, popular, and ethnic music and 2) music of written traditions to include art music and jazz.
Prerequisite: Music majors or permission of the instructor.
MUSC 140 Music Media (2 credits)
This course will serve to introduce first semester freshmen music majors to software, hardware, techniques and issues surrounding digital music media. Learners will engage in the retrieval, generation, and distribution of musical notation, digital recordings, and MIDI sequences.

MUSC 150 MIDI Studio (2 credits)
Work with synthesizers and record the results with a Macintosh computer in a state-of-the-art MIDI studio. Special emphasis is placed on sequencing techniques and music editing on multi-track arrangements. Basic-to-advanced MIDI functions will be explained and utilized in team studio sessions.

MUSC 160 Introduction to Music Business (4 credits)
This course provides an overview of the music industry, exploring and examining aspects of technology, economics, industry structures, marketing, audiences, and artistic innovations and trends. Students will begin exploring personal career interests.

MUSC 161 Elements of Popular Music (4 credits)
This course will expose the student to the basic harmonic and rhythmic vocabulary used in popular music composition and explore analysis of modal and diatonic melodic content, upper structure harmony, and chord voicing. Further analysis of compositional techniques including form and style as employed by rock, blues, jazz, country, hiphop, and pop will also be discussed. Additionally, this course will contain ear-training exercises designed for us in improvisation with the intent of providing the student with tools for musical composition. Topics include: scale and chord construction, rhythm applications, and analysis of song form.

MUSC 162 The Roots of Blues, Rock and Country Music (4 credits)
This course traces the development of American popular music from its roots through multiple genres such as minstrelsy, jazz, big band, swing, crooning, jump blues, gospel, rhythm and blues, country, western, folk/protest, and rock ‘n’ roll, concluding with the British Invasion. Popular music development is critically examines through four interrelated driving forces: identity (ethnicity, gender, culture, generation), centers vs. peripheries (the established vs. the innovative), technology (impact on musical performance and listening), and business/law (commercial competition and development). Multimedia presentations include extensive audio and video support. Designed for the Popular Music minor, this course fulfills the Fine Arts and Human Diversity requirement in the core curriculum.

MUSC 170 The Music of Film (4 credits)
Film is a form of communication that can be analyzed in terms of its images, as a historical record, and as a critical statement of the audience for which it is intended. Film music is a discreet yet complimentary component used in some way and to some degree by nearly every filmmaker throughout history. Through readings, class discussion, and extensive directed viewing of movies, this course will provide a framework for analyzing the images and the sounds of films throughout the 20th and 21st centuries. Students will prepare and deliver oral presentations analyzing the images and sounds of select films.

MUSC 176 German Diction for Singers (1 credit)
An introduction to German pronunciation, utilizing the International Phonetic Alphabet. A guide to the use of the dictionary in the language. Special emphasis on the problems encountered by the singer. Offered fall semester of even years.

MUSC 177 French Diction for Singers (1 credit)
An introduction to French pronunciation, utilizing the International Phonetic Alphabet. A guide to the use of the dictionary in the language. Special emphasis on the problems encountered by the singer. Offered fall semester of even years.

MUSC 192 Technical Skills for Keyboard Majors (1 credit)
This course teaches the technical keyboard skills required for music majors whose principal instrument is piano or organ. It includes study and performance of all major and minor scales, triad and seventh arpeggios, and chord progressions in every key.

MUSC 201 Piano Skills III (1 credit)
This course teaches the keyboard skills required for music majors whose principal instrument is not piano. It includes training in basic keyboard technique, sight reading, score reading, accompanying, transposing, playing by ear, harmonizing melodies, and making practical applications of music theory, and the development of other skills in Piano Skills II.

MUSC 202 Piano Skills IV (1 credit)
This course teaches the keyboard skills required for music majors whose principal instrument is not piano. It includes training in basic keyboard technique, sight reading, score reading, accompanying, transposing, playing by ear, harmonizing melodies, and making practical applications of music theory, and the development of other skills in Piano Skills III.
Music (MUSC)

MUSC 205 Advanced Studio Recording (4 credits)
This course will explore advanced recording techniques in a studio environment. Students will learn how to best record, manage, and edit studio recording sessions and projects. This course will meet off campus; students are required to provide their own transportation.
Prerequisite: MUSC 140

MUSC 213 Music Theory and Aural Skills III (4 credits)
Continuation of MUSC 114. Offered in fall semester.
Prerequisite: MUSC 114 or successful placement test

MUSC 214 Music Theory and Aural Skills IV (4 credits)
Continuation of MUSC 213. Offered in spring semester.
Prerequisite: MUSC 213 or successful placement test

MUSC 216 Jazz in America (4 credits)
The origins and history of jazz in the United States. Various phases in the development of jazz style are discussed. Blues, ragtime, Dixieland, swing, bop, cool jazz, fusion, as well as other recent developments in jazz performances are investigated. An essential part of the course is the analysis and evaluation of recorded performances by outstanding jazz musicians. Designed for non-majors as well as an elective for music majors interested in jazz. Offered fall semester. This course fulfills the Fine Arts and Human Diversity requirements in the core curriculum.

MUSC 217 Music of the Americas (4 credits)
A survey of music from the sixteenth century to the present as found in the Western hemisphere. Primarily concerned with the European influence brought by the various colonizing nations, some time is spent with the folk music of Canada, the United States and Latin America. Music of non-Western cultures are discussed as they relate to the native American and African-American influences in the New World. Designed for the non-major. This course fulfills the Fine Arts and Human Diversity requirements in the core curriculum.

MUSC 218 Black American Music: A Historical Survey (4 credits)
An exploration of the components of Black American musical traditions from its West African and European roots to contemporary forms of expression in the United States. A primary goal of the course is to develop the student’s understanding of how African Americans have used music to articulate issues of social justice, personal and community identity, and self-expression. In addition, students will learn to use musical terminology toward describing how a musical work, genre, or body of repertoire reflects significant historical events and perspectives of human societies past and present. Some coursework will require attendance at a variety of events and concerts off campus that relate to the course topics. This course fulfills the Fine Arts and Human Diversity requirements in the core curriculum.

MUSC 219 Music in the United States (4 credits)
A survey of music heard in the United States from pre-Revolutionary days to the present, including discussions of the popular, folk and concert music. Particular emphasis will be given to forms of music which are distinctive to this country because of the diversity of its population. Designed for the non-major. This course fulfills the Fine Arts requirement in the core curriculum.

MUSC 220 Digital Recording and Sampling (2 credits)
Recording music and sound effects into the Macintosh and combining the results with MIDI sequences will be covered in this course. Students will sample both live sounds and material from compact-disc libraries, then edit them and finally place them alongside instrumental MIDI tracks. Subjects covered: digital recording theory and practice, digital media, evolution of digital technology, new equipment, musical applications.
Prerequisite: MUSC 150

MUSC 223 Arranging (2 credits)
The emphasis of this course is to introduce arranging concepts for instrumental and vocal applications. A basic overview of arranging materials (i.e. chord voicing, discussion of forms, music notation, ranges, vocal and instrumental differences, transpositions, rhythm section writing, and the construction of introductions and codas) will be covered. In addition, several scores will be discussed and analyzed. Offered alternate semesters to MUSC 140 Music Media.
Prerequisite: MUSC 161

MUSC 224 Songwriting/Composition (2 credits)
This course presents the basic principles related to the composition of popular vocal and instrumental forms: lyric, melody, progression, and rhythm. Applications of these elements in Rock, Pop, Jazz, Blues, Hip-Hop, Christian, and Country are explored.

MUSC 231 Introduction to Conducting I (1 credit)
This course includes basic conducting patterns and gestures, general knowledge of score types (choral, band, orchestral, etc.), score
Music (MUSC)

study and basic rehearsal planning. Practice in conducting small ensembles will be provided. Offered fall semester.

MUSC 232 Introduction to Conducting II (1 credit)
This course includes basic conducting patterns and gestures, general knowledge of score types (choral, band, orchestral, etc.), score study and basic rehearsal planning. Practice in conducting small ensembles will be provided. Offered fall semester.

MUSC 233 Music of the World: Aural and Written Traditions (4 credits)
This course studies music as a ritual activity among the peoples of the non-Western world. It employs an anthropological approach that analyzes music in cultural context rather than as an object of art. The musical and cultural activities of a diverse number of countries will be investigated each semester. This course fulfills the Human Diversity requirement in the core curriculum.

MUSC 240 Music/Audio Post Production (2 credits)
Emphasis is placed on the creation of soundtracks for video. Source material will come from taped television broadcasts, commercial tapes and in-house video productions. Elements of synchronization (VITC, SMPTE) will be explored. Writing musical soundtracks for advertisements and programs, students will have the opportunity to lay-in sound effects and dialogue using the Macintosh computer and digital recording and sequencing software and hardware. Offered in spring semester.
Prerequisite: MUSC 220

MUSC 260 Fundamentals of Musicianship in Popular Music (4 credits)
This course is designed to give the student a working knowledge of the skills required for popular music improvisation and performance. Study will include practical application of the rhythm, melody, and harmony of all styles of popular music. Genres that will be examined include: rock, blues, jazz, hip-hop, country and pop. This course is open to all instrumentalists and singers.

MUSC 261 Elements of Popular Music II (4 credits)
This course will explore both modal and diatonic melodic content, upper structure harmony, and chord voicing. Further analysis of compositional techniques including form and style as employed by rock, blues, jazz, country, hip-hop, and pop will also be discussed. Additionally, this course will contain ear training exercises designed for use in improvisation with the intent of providing the student with tools for musical composition.
Prerequisite: MUSC 161

MUSC 281 Introduction to Accompanying (2 credits)
This course focuses on topics related to the accompanying of singers and solo instrumentalists.

MUSC 292 Functional Skills for Keyboard Majors I (1 credit)
This course teaches the functional keyboard skills required for music majors whose principal instrument is piano or organ. It includes practical training in sight reading, harmonization, improvisation, playing by ear, transposing, score reading, and other applications of basic musicianship.

MUSC 293 Functional Skills for Keyboard Majors II (1 credit)
This course teaches the advanced functional keyboard skills required for music majors whose principal instrument is piano or organ. It includes practical training in sight reading, harmonization, improvisation, playing by ear, transposing, score reading, and other applications of basic musicianship.

MUSC 295, 296 Topics (2 credits)
MUSC 297, 298 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

MUSC 302 Introduction to Liturgical Music (2 credits)
Introduction to Liturgical Music is a study of instructions and guidelines for music in divine worship, and a survey of repertoire appropriate for use in liturgical celebrations.

MUSC 303 Music Notation on Computer (2 credits)
Develop skills in using music publishing software. Intended for composers, music educators, choral and instrumental conductors and anyone interested in producing print-quality music using the Macintosh or IBM.

MUSC 305 The Art of Mixing (4 credits)
This course will be an in-depth exploration of mixing music in a studio environment. Students will begin to master digital plug-ins such as equalization, reverb, delay, compression, and other advanced mixing techniques currently used in commercial music.
**Music (MUSC)**

Prerequisite: MUSC 205

**MUSC 308 Pedagogy and Literature for Music Performers I (2 credits)**

Cross-listed with EDUC 308:
- Section 1: Voice
- Section 2: Keyboard
- Section 3: Guitar
- Section 4: Winds/Percussion/Brass

This class will survey methods and materials for performance studies. Discussions will include principles of technique, learning theories, musicianship, and performance based upon a wide and diverse body of literature. Students should sign up for the section number that corresponds with their primary area of performance.

**MUSC 309 Pedagogy and Literature for Music Performers II (2 credits)**

Cross-listed with EDUC 309:
- Section 1: Voice
- Section 2: Keyboard
- Section 3: Guitar
- Section 4: Winds/Percussion/Brass

All 4 sections will meet concurrently.

A continuation of Pedagogy and Literature for Music Performers I, this class will survey methods and materials for performance studies. Discussions will include principles of technique, learning theories, musicianship, and performance based upon a wide and diverse body of literature. Students should sign up for the section number that corresponds with their primary area of performance.

Prerequisite: EDUC 308/MUSC 308

**MUSC 335 Topics in World Music (2 credits)**

Each time this course is offered, it presents an in-depth survey of the music of a particular culture, exploring the music of a diverse array of cultures.

**MUSC 340 Theory Elective: Topics (2 credits)**

The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

Offered once per year - consult the Schedule of classes

**MUSC 341 Theory Elective: Musicianship Pedagogy for Music Educator (2 credits)**

Study and practical application of historical pedagogic systems for teaching melody, rhythm, form, and harmony, using moveable-do tonic solfège and rhythm syllables. Analysis of small forms in pentatonic, diatonic, and modal systems. Rhythmic and melodic improvisation and composition in question-answer, strophic, ABA, rondo forms. Offered spring semester of odd numbered years.

**MUSC 354 Advanced Conducting and Materials: Instrumental Concentration (2 credits)**

Advanced Conducting and Materials: Instrumental Concentration: Continuation of Introduction to Conducting I and II. Study of advanced conducting patterns and refined expressive gestures. Survey of orchestral and band literature and in-depth study of selected pieces. Rehearsal planning, rehearsal techniques, and classroom management. Offered fall semester of even years.

Prerequisite: MUSC 232

**MUSC 355 Advanced Conducting and Materials: Vocal Concentration (2 credits)**

Continuation of Introduction to Conducting I and II. Study of advanced conducting patterns and refined expressive gestures. Survey of choral literature and in-depth study of selected pieces. Rehearsal planning, rehearsal techniques, and classroom management. Offered fall semester of even years.

Prerequisite: MUSC 232

**MUSC 360 History of Music Industry and Music Careers (4 credits)**

Focusing on Western music (classical, popular, jazz, rock, folk, and other genres), this course explores the historical context of the music industry from a social and cultural perspective, along with the career development and opportunities of professional musicians within it, from about 1600 to the present day.

Prerequisite: MUSC 160 or permission of instructor.

**MUSC 411 History and Literature of Music I (4 credits)**

A survey of Western European music to 1750: the medieval, Renaissance, and Baroque eras. Historical development, social context, forms, styles and issues of expression are explored. Writing assignments are designed for teaching to the “Writing in the Discipline”
Music (MUSC)

objectives for the Writing Across the Curriculum initiative. This is a core course for students seeking a major degree in music. Students must be at junior-level standing and have passed at least Theory II before enrolling in this course. Offered in fall semester.

MUSC 412 History and Literature of Music II (4 credits)
A survey of Western European music from 1750 to the present: the Classical and Romantic eras and the twentieth century. Emphasis of study is on social context and issues of meaning and expression. Continuation of MUSC 411. Writing assignments are designed for teaching to “Writing in the Discipline” objectives for the Writing Across the Curriculum initiative. This is a core course for students seeking a major degree in music. Students must be at junior-level standing and have passed at least Theory II before enrolling in this course. Offered in spring semester.

MUSC 416 Orchestration (2 credits)
Ranges, timbres, and performance characteristics of string, winds and percussion instruments in the western tradition. Scoring for small and large ensembles of such instruments.
Prerequisite: 114

MUSC 420 Senior Research Paper (2 credits)
This course allows music students to demonstrate research and writing skills by utilizing standard music resources (Music Index, RILM, Grove, Baker’s, etc.). The paper may contain theoretical analysis, and/or it may be connected to the student’s performance area or degree focus
Prerequisite: MUSC 412.

MUSC 475, 476 Experiential Learning (2 credits)
MUSC 477, 478 Experiential Learning (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

MUSC 480 Music Business Seminar (4 credits)
A course involving individual research that is shared among the participants. Guest speakers from various areas of music business, the electronic media industries and arts management make presentations to the seminar, which is under the direction of a faculty coordinator. A major research project is required.
Prerequisite: At least Junior standing

MUSC 483, 484 Seminar (2 credits)
MUSC 485, 486 Seminar (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

MUSC 487, 488 Topics (2 credits)
MUSC 489, 490 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online,
https://banner.stthomas.edu/pls/banner/prod/bwckschd.

MUSC 269, 389, 491 Research (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

MUSC 243, 393, 495 Individual Study (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

Music Ensembles (MUSN)
Membership in music ensembles is based upon a successful audition. Students may register for the same ensemble in as many semesters as desired.

The Fine Arts requirement may be fulfilled by four semesters of participation in one of the following ensembles: MUSN 140, 142, 143, 160, 181, 185, 186. A total of four semesters in MUSN 140, 142, 143 and 160; or 185 and 186 will also fulfill the requirement. Other combinations must be approved by the department chair. There is no tuition charged for ensemble registration.

See specific ensemble requirements for various music major emphases in the first part of the music section of this catalog, or consult the Handbook for Music Majors and Minors available from the Department of Music office. Music majors audit all ensembles.

MUSN 140 Women’s Choir (0-1 credit)
A vocal ensemble that explores the wide variety of secular and sacred repertoire composed for women’s voices. Major performances are given each semester and may include exchange/joint concerts with other choirs. Two rehearsals a week. Membership by audi-
Music (MUSC)

A combination of four semesters in 140, 142, 143, and 160 fulfills the fine arts requirement for graduation.

MUSN 142 Chamber Singers (0-1 credit)
A mixed vocal ensemble of 30-40 members that will study and perform materials appropriate to the chamber ensemble; repertoire will include secular and sacred literature. Major performances are given each semester and may include exchange/joint concerts with other choirs. Three rehearsals per week. Membership by audition. A combination of four semesters in 140, 142, 143, and 160 fulfills the fine arts requirement for graduation.

MUSN 143 Liturgical Choir (0-1 credit)
Liturgical Choir is an ensemble of students of varied faith and cultural backgrounds that sings for services in the UST chapel. Local, regional and international tours are part of the choir’s ministry as well as concert performances with other Music Department ensembles. Two rehearsals a week plus bi-weekly Sunday chapel liturgies. Membership by audition. A combination of four semesters in 140, 142, 143, and 160 fulfills the fine arts requirement for graduation.

MUSN 151 Schola Cantorum (0-1 credit)
This vocal ensemble focuses primarily on early Plainchant from the Gregorian chant tradition as well as contemporary chant repertoire. Historical and modern chant notations are studied and repertoire will be performed in the context of both liturgical service and concert. Membership by audition.

MUSN 160 Concert Choir (0-1 credit)
A mixed vocal ensemble that performs a variety of secular and sacred repertoire from the Middle Ages to the 21st century. Choral literature performed includes unaccompanied works as well as works with professional chamber orchestra. Major performances are given each semester and may include exchange/joint concerts with other choirs. Tours locally, nationally and internationally. Three rehearsals a week. Membership by audition. A combination of four semesters in 140, 142, 143, and 160 fulfills the fine arts requirement for graduation.

MUSN 161 String Ensemble (0-1 credit)
Ensemble meets weekly and are conducted by a member of the string faculty. Membership by audition.

MUSN 162 Flute Ensembles (0-1 credit)
Formation of trios, quartets and other small ensembles, dependent upon personnel available. Ensembles may include piccolo, soprano flutes, alto flute and bass flute. Ensembles meet once a week and are coached by a member of the woodwind faculty. Membership by audition.

MUSN 163 Clarinet Ensembles (0-1 credit)
Formation of small ensembles involving various members of the clarinet family. Ensembles meet once a week and are coached by a member of the woodwind faculty. Membership by audition.

MUSN 164 Saxophone Ensembles (0-1 credit)
Formation of small ensembles involving various members of the saxophone family. Ensembles meet once a week and are coached by a member of the woodwind faculty. Membership by audition.

MUSN 165 Chamber Wind Ensemble (0-1 credit)
Formation of mixed woodwinds, brass and percussion. Ensembles meet once a week and are conducted by a member of the faculty. Membership by audition.

MUSN 166 Brass Choir (0-1 credit)
Formation of small and large ensembles using only brass and sometimes percussion instruments. The choir, directed by a member of the brass faculty, gives regularly scheduled public performances. Membership by audition.

MUSN 167 Percussion Ensembles (0-1 credit)
A variety of mallet and stick instruments are used to form these ensembles. Ensembles meet once a week and are coached by a member of the percussion faculty. Membership by audition.

MUSN 169 African Music Ensemble (0-1 credit)
This course provides a non-Western music performance experience. The repertoire to be studied includes traditional genres such as Adowa, Agbadza, Gota, Kpanlogo, Boboobo, and includes contemporary compositions. Three main areas in the ensemble are drumming, flutes and vocal. No prior experience is necessary for this ensemble. An audition is required.
MUSN 170 Handbell Choir (0-1 credit)
This instrumental ensemble performs with both English and Dutch handbells. Repertoire consists of arrangements for two to five octaves from a variety of musical periods and styles as well as music composed specifically for the expanding contemporary handbell literature. Performances include monthly appearances in chapel liturgical settings as well as regular campus and public performances. No previous handbell experience necessary but ability to read music is required. Membership by audition or permission of instructor.

MUSN 171 Piano Ensembles (0-1 credit)
Study and performance of duets and two-piano music. One major performance per semester. Membership by audition.

MUSN 172 Accompanying Ensembles (0-1 credit)
Qualified pianists have the opportunity to accompany solo vocalists and solo instrumentalists through individual instruction. Membership by audition.

MUSN 173 Guitar Ensemble (0-1 credit)
Study, performance and recording of music for multiple guitars and bass from Renaissance through twentieth-century composers including American jazz and rock styles. Repertoire includes original works, transcriptions, and arrangements. Opportunities provided for students to learn improvisation, composition, and arrangement. Four semesters of participation fulfill the Fine Arts requirement in the core curriculum.

MUSN 174 Guitar Small Ensemble (0-1 credit)
The study and performance of all styles in popular and classical music for guitar and diverse instruments, including bass and drums.

MUSN 175 Popular Music Ensemble (0-1 credit)
This course provides individual coaching for small ensembles on the performance of all genres and types of American popular music.

MUSN 176 New Music Ensemble (0-1 credit)
A mixed instrumental ensemble devoted to the study and performance of new music. Repertoire may include non-tonal, avant-garde, indeterminate, and experimental genres, collaborative improvisation, and original composition. The ensemble meets once per week and presents at least one major performance per semester. Membership by audition.

MUSN 181 Orchestra (0-1 credit)
Study and performance of music from early Baroque through contemporary. Basic orchestral performance skills and player responsibilities are discussed for ensemble playing. Four major performances a year. Membership by audition. Four semesters of participation fulfill the Fine Arts requirement in the core curriculum.

MUSN 182 Instrumental Jazz Ensemble (0-1 credit)
Study and performance of instrumental jazz in various styles with exposure to improvisation. Formal concert is presented each semester, and informal campus appearances occur on a regular basis. Membership by audition.

MUSN 183 Jazz Singers (0-1 credit)
Study and performance of vocal jazz in various styles. Group is limited in size, thus allowing each member to develop independence in singing and microphone technique. Membership by audition.

MUSN 185 Symphonic Band (0-1 credit)
Study and performance of original works for wind-band; transcriptions, manuscripts, and solo repertoire with band accompaniment. Two rehearsals per week; regular series of concerts, tours. Private lessons recommended. Membership by audition. Four semesters of participation fulfill the Fine Arts requirement in the core curriculum.

MUSN 186 Symphonic Wind Ensemble (0-1 credit)
This course is designed for the advanced woodwind, brass and percussion student. A select group of approximately forty musicians studies and performs music primarily written for the symphonic wind ensemble genre. Literature studied and performed comes from a diversity of cultures and style periods. The Wind Ensemble gives public performances on a regular basis throughout the school year including regional, national and international tours. Meets two times a week. Membership by audition. Four semesters of participation or a combination with MUSN 186 fulfills the Fine Arts requirement in the core curriculum.

MUSN 190 Music Theater Production (0-1 credit)
Musical and dramatic preparation of a musical show or opera, leading to complete performance with costumes, set and orchestra. Participation by audition.
Music (MUSC)

MUSN 191 Music Theater Scenes (0-1 credit)
Musical and dramatic preparation of scenes from musical shows or operas. An informal performance may be presented. Participation by audition.

MUSN 196 Topics Ensembles (0-1 credit)
The ensemble(s) will be announced in the annual Class Schedule. Content will vary but will not duplicate existing ensembles.

Performance Studies (MUSP)
Performance studies are generally on an individual basis, although some group lessons are available.
A course fee is charged for all performance studies, based on the length of the lesson.

Elective Level
Performance studies on the elective level are available for all students. No audition is required for elective studies. These courses are designed for non-majors who are interested in beginning or continuing study on an instrument or voice. Students wishing to study piano, having little or no previous study on the instrument, are encouraged to register for group lessons. 30-minute or 50-minute lessons. Twelve lessons are scheduled each semester. A minimum of six hours a week practice is required. These courses must be taken for credit. They cannot be audited. Performance studies do not fulfill the Fine Arts requirement.

MUSP 101 Group Piano (1 credit)
This course is designed for students who have little or no piano background. The small group setting includes work on keyboard technique, reading music, transposing, improvising, playing by ear and harmonizing melodies. Groups are limited to six students and meet for an hour each week. This course may be repeated.

MUSP 108 Class Voice (1 credit)
Designed for non-music majors who wish to study voice and also for non-vocal music majors who wish to develop their singing in a class situation.

MUSP 110 Digital Music Lessons (1 credit)
These lessons focus on Hard-Disk Recording and MIDI-Sequencing and are designed with the modern musician in mind. Each week students witness the demonstration of professional recording techniques in one of the UST computerized recording studios. Then they apply their new skills to original compositions in scheduled studio sessions. Some of the subjects covered: Multi-tracking, Automation, Groove Quantizing, Harmonizing, Music Notation, and miking. Students may have their choice of MIDI-controllers: guitar, keyboard, or drum-machine pads.
Prerequisite: Basic computer and music-making skills

MUSP 113 Individual Lessons for Aural Skills Proficiency (1 credit)

MUSP 121 Harpsichord: elective (1 credit)

MUSP 122 Lute: elective (1 credit)

MUSP 128 Recorder: elective (1 credit)

MUSP 131 Piano: elective (1 credit)

MUSP 133 Voice: elective (1 credit)

MUSP 135 Organ: elective (1 credit)

MUSP 136 Flute: elective (1 credit)

MUSP 137 Oboe: elective (1 credit)

MUSP 138 Clarinet: elective (1 credit)

MUSP 139 Bassoon: elective (1 credit)

MUSP 141 Saxophone: elective (1 credit)
MUSP 144 Trumpet: elective (1 credit)

MUSP 145 French horn: elective (1 credit)

MUSP 146 Trombone: elective (1 credit)

MUSP 147 Euphonium: elective (1 credit)

MUSP 148 Tuba: elective (1 credit)

MUSP 149 Percussion: elective (1 credit)

MUSP 152 Jazz/Pop Vocal: elective (1 credit)
Covers techniques for communicative lyric singing, including repertoire from different eras of the American music spectrum. Considers stage presence, microphone technique, vocal inflection and communication with an accompanist or rhythm section. Improvisation may also be explored.

MUSP 153 Jazz Piano: elective (1 credit)
Individual studies with a jazz pianist, developing jazz style and working on improvisation.
Prerequisite: Some facility on the piano.

MUSP 154 Violin: elective (1 credit)

MUSP 155 Viola: elective (1 credit)

MUSP 156 Cello: elective (1 credit)

MUSP 157 Double Bass: elective (1 credit)

MUSP 158 Guitar: elective (1 credit)
Students will study all styles of music including classical, blues, rock, folk and others on acoustic, nylon and electric guitars. Topics include all forms of notation (standard, tab, chord symbols, etc.), improvisation and performance practice.

MUSP 159 Harp: elective (1 credit)

MUSP 160 Banjo: elective (1 credit)

MUSP 161 Harmonica: elective (1 credit)

MUSP 162 Mandolin: elective (1 credit)

MUSP 165 Music Composition (1 credit)
The course aims at developing the student’s own imagination and musical style, as well as providing studies for the developing of technical and notational skills.
Prerequisite: MUSC 114 or permission of instructor

MUSP 168 African Drumming: elective (1 credit)
Study the art and techniques of both hand and stick drumming in West African traditions. Covers a wide variety of repertoire (Agbadza, Kpanlogo, Adowa, Gota, etc.), including those performed by the African Music Ensemble.

MUSP 187 Electric Guitar: elective (1 credit)
Students will study basic to advanced plectrum and fingerstyle techniques as they apply to the amplified guitar. Other topics will include fretboard theory, improvisation, ensemble performance practice and current technologies in amplification and MIDI applications. Repertoire will include all American popular music styles.

MUSP 188 Flamenco Guitar: elective (1 credit)
Students will study the techniques involved in picado, arpeggio, tremolo, and rasqueado. The course includes intensive study of various rhythms and styles including Sevillanas, Soleareas, Alegrías, Siguiryas, Tango, Bulerias, Tiento, etc., and an introduction to basic flamenco dance and song accompaniment. Students will learn about the Gypsy and Moorish influences on the history of this artform.
Music (MUSC)

Performance Level
Performance studies at the performance level are required of music majors on their principal instrument. Students pursuing major in music, music business, or liturgical music should register for 2xx level lessons. Students pursuing a major in music education or performance should register for 3xx level lessons. An audition before the music faculty is required for performance-level studies. Qualified non-majors also may audition. Twelve 50-minute lessons are scheduled each semester. A minimum of 12 hours a week practice is required. These lessons provide an in-depth study of representative literature for the instrument. Juries and recitals are required of all students taking performance-level studies. See the current Handbook for Music Students.

MUSP 221 Harpsichord: performance (1 credit)
MUSP 231 Piano: performance (1 credit)
MUSP 233 Voice: performance (1 credit)
MUSP 235 Organ: performance (1 credit)
MUSP 236 Flute: performance (1 credit)
MUSP 237 Oboe: performance (1 credit)
MUSP 238 Clarinet: performance (1 credit)
MUSP 239 Bassoon: performance (1 credit)
MUSP 241 Saxophone: performance (1 credit)
MUSP 244 Trumpet: performance (1 credit)
MUSP 245 French horn: performance (1 credit)
MUSP 246 Trombone: performance (1 credit)
MUSP 247 Euphonium: performance (1 credit)
MUSP 248 Tuba: performance (1 credit)
MUSP 249 Percussion: performance (1 credit)
MUSP 254 Violin: performance (1 credit)
MUSP 255 Viola: performance (1 credit)
MUSP 256 Cello: performance (1 credit)
MUSP 257 Double Bass: performance (1 credit)
MUSP 258 Guitar: performance (1 credit)
MUSP 259 Harp: performance (1 credit)
MUSP 321 Harpsichord: performance (2 credits)
MUSP 331 Piano: performance (2 credits)
MUSP 333 Voice: performance (2 credits)
MUSP 335 Organ: performance (2 credits)
MUSP 336 Flute: performance (2 credits)
MUSP 337 Oboe: performance (2 credits)
MUSP 338 Clarinet: performance (2 credits)
MUSP 339 Bassoon: performance (2 credits)
MUSP 341 Saxophone: performance (2 credits)
MUSP 344 Trumpet: performance (2 credits)
MUSP 345 French horn: performance (2 credits)
MUSP 346 Trombone: performance (2 credits)
MUSP 347 Euphonium: performance (2 credits)
MUSP 348 Tuba: performance (2 credits)
MUSP 349 Percussion: performance (2 credits)
MUSP 354 Violin: performance (2 credits)
MUSP 355 Viola: performance (2 credits)
MUSP 356 Cello: performance (2 credits)
MUSP 357 Double Bass: performance (2 credits)
MUSP 358 Guitar: performance (2 credits)

**Music Proficiencies and Recitals (MUSR)**

Piano proficiency is required in all of the major emphases.
- Recitals are required in all major emphases and in some minor emphases.
- Recitals and proficiencies carry no course credit. All MUSR courses are graded on an S-R basis.

**MUSR 114 Aural Skills Proficiency (0 credit)**
Required of all students completing MUSC 114 (Music Theory and Aural Skills II). A combined grade for the final ear-training and sight-singing quizzes in Theory II Aural Skills Lab or C- or above will result in a grade of Satisfactory for this proficiency designation. See the Handbook for Music Majors and Minors for specific details. Taken concurrently with MUSC 114.
Prerequisite: MUSC 113 or successful placement test

**MUSR 200 Piano Proficiency (0 credit)**
Required of all majors, piano proficiency should be completed by the end of the last semester of Piano Skills study. See the Handbook for Music Students for specific details of the proficiency examination.

**MUSR 214 Aural Skills Proficiency (0 credit)**
Required of all students completing MUSC 214 (Music Theory and Aural Skills IV). A combined grade for the final ear-training and sight-singing quizzes in Theory IV Aural Skills Lab of C- or above will result in a grade of Satisfactory for this proficiency designation. See the Handbook for Music Majors and Minors for specific details. Taken concurrently with MUSC 214.
Prerequisite: MUSC 213 or successful placement test

**MUSR 270 Level I Recital (0 credit)**
A Level I recital can be given in any semester. It requires a minimum of 15 minutes of music. A student performing at this level usually will be presented on a program with two or three other students.

**MUSR 350 Level II Recital (0 credit)**
A Level II recital can be given in any semester. It requires a minimum of 25 minutes of music. Students performing at this level usually will be presented with one or two other students in the recital.
Prerequisite: MUSR 270
Neuroscience

MUSR 400 Festival Orchestra Honors Concert (0 credit)
This concert is presented in the spring semester. Professional musicians from the Twin Cities area are hired to form the orchestra, and students are auditioned in December to perform vocal or instrumental music that originally was intended to be presented with orchestra. Festival Orchestra auditions are open to all full-time St. Thomas undergraduate students and graduate students currently enrolled in performance studies. See the Handbook for Music Students for details.

MUSR 450 Level III Recital (0 credit)
A Level III recital usually is given in the last semester of the student’s work. This is a solo recital and requires a minimum of 45 minutes of music.
Prerequisite: MUSR 350

NEUROSCIENCE
College of Arts and Sciences, Interdisciplinary Program
John Roach Center for the Liberal Arts (JRC) LL56, (651) 962-5030
Beckmann (PSYC); Hankerson (PSYC); Heimovics (BIOL); Husak (BIOL); Illig (BIOL); Jackson (BIOL); Kay (BIOL); Prichard (PSYC); Robinson-Riegler (PSYC); Wolfe (PSYC)

The Neuroscience Program is an interdisciplinary, research-intensive major leading to the Bachelor of Science degree. Training in neuroscience requires a broad foundation in the natural sciences, and the major requires students to complete foundational courses in Biology, Chemistry, Mathematics and Psychology. Flexibility in course selection at the upper division level allows specialization in concert with student interest. Students who successfully complete this major will be well-prepared for graduate study in neuroscience or in related disciplines. The Program is jointly administered by the Biology and Psychology Departments, and students choosing this major may not take a second major or a minor in either Biology or Psychology.

Neuroscience Honor Society
Nu Rho Psi, the national Neuroscience Honor Society encourages professional interest and excellence in scholarship, particularly in neuroscience. The St. Thomas chapter was established in 2007. To qualify, students must have a 3.2 or higher overall grade point average and a 3.5 or higher grade point average in specific neuroscience courses. For more information, go to http://www.stthomas.edu/neuroscience/clubs/

Major in Neuroscience (B.S.)
Required Foundational Courses (36 credits)
- BIOL 207 Genetics, Ecology, and Evolution (4 credits)
- BIOL 208 Biological Communication and Energetics (4 credits)
- BIOL 209 Biology of Sustainability (4 credits)
- CHEM 111 General Chemistry I (4 credits) and CHEM 112 General Chemistry II (4 credits)
  or CHEM 115 Accelerated General Chemistry (4 credits)
- CHEM 201 Organic Chemistry 1 (4 credits)
- STAT 220 Statistics 1 (4 credits)
- MATH 113 Calculus I (4 credits) or MATH 109 Calculus with review II (4 credits)
- PSYC 111 General Psychology (4 credits)

Plus Introductory Neuroscience Core Courses (8 credits)
- PSYC 212 Research Methods (4 credits)
- NSCI 301 Principles of Neuroscience (4 credits)

Plus Advanced Neuroscience Core Courses, (8 credits, including at least four from * courses)
- BIOL 330 Animal Behavior (4 credits)
- BIOL 354 Neurobiology (4 credits)*
- PSYC 322 Sensation and Perception (4 credits)
- PSYC 401 Physiological Psychology (4 credits)*

Plus Electives (4 courses, 16 credits)
Four additional elective courses should be chosen from the following categories that reflect the student’s academic or professional goals. Courses completed to fulfill the Advanced Neuroscience Core requirements do not double-count as electives. At least two courses must be taken from the Neuroscience Elective category. No more than one elective course without a laboratory component may be counted toward the degree.
Human understanding of the brain and nervous system has improved dramatically over the past three decades. With the rapid expansion of knowledge has come an understanding that behavioral and cognitive disorders associated with both childhood development and with aging have a biological basis, and many have their origins in the interaction between the nervous system and environmental factors. Recent research has revealed that a healthy brain and nervous system depends on sound biologic function. Therefore, a basic understanding of the biology of the brain and nervous system—and of how the nervous system interacts with environmental factors—is necessary. This course will cover fundamental biological processes in the brain and nervous system, the role of the nervous system in human and animal behavior, and how environmental influences impact these processes at the cellular and organismal levels.

Prerequisite: C- or better in BIOL 209

**NSCI 301 Principles of Neuroscience (4 credits)**

Cognitive neuroscience is the study of “how the brain enables the mind.” The purpose of this course is to develop an advanced understanding of the biological basis of mental activity. We will examine the biological roots of various mental phenomena including perception, attention, learning, memory, language, emotion and consciousness. In particular, we will focus on the roles of plasticity and evolutionary pressure in shaping the mind, and on the treatment of cognitive neuroscience in popular media.

Prerequisite: C- or better in NSCI 301 or permission of the instructor
Neuroscience

**NSCI 320 Human and Comparative Neurology (4 credits)**
All neuroscience is a multidisciplinary enterprise that draws on findings from diverse fields, ranging from molecular genetics to comparative psychology. Comparative Neurology involves scrutinizing brain anatomy and physiology, relating brain structure to function, and linking each of these to behavior and ecology. In this course, we will explore how the human brain has emerged, discover some rules of how brains generally evolve, and determine what factors have guided the phylogenetic development of this complex structure. Throughout the course, laboratory projects and problem sets will support our classroom discussions.
Prerequisite: C- or better in NSCI 301 or permission of the instructor.

**NSCI 330 Neuropharmacology (4 credits)**
Neuropharmacology is the study of how drugs affect the cells of the nervous system and their ability to communicate with other target systems in the body. This course will cover different classes of neurotransmitters and neurohormones and the receptors on target cells that recognize and bind these substances, using a “clinical model” framework that ties these principles to the therapeutic use of drugs. A significant amount of time will be spent covering the transduction mechanisms involved in converting the signals into a biological response, the gaps in a therapeutic approach, and new technologies that are improving the study and application of neurochemistry in modern neuroscience.
Prerequisite: C- or better in NSCI 301 or permission of the instructor.

**NSCI 340 Computational Neuroscience (4 credits)**
The brain is a complex, dynamical system consisting of billions of neurons. Computational models are essential for understanding how brain functions arise through neuronal interactions. This course covers current computational approaches of studying neural codes, network dynamics, and learning. In the process, we will learn how to characterize the coding and decoding in nervous systems, how the visual and auditory systems work, how to model individual neurons and network dynamics, how neural integrators function, and how learning occurs through synaptic plasticity, self-organization, and reinforcement learning. The goal is to understand how cognitive growth and human-level cognition emerge from interactions of neuronal networks.
Prerequisite: C- or better in NSCI 301 or permission of the instructor.

**NSCI 398 Topics in Neuroscience (4 credits)**
The subject matter of this course will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online.
Prerequisite: C- or better in NSCI 301 or permission of the instructor.

**NSCI 450 Integrative Neuroscience (4 credits)**
If we are to understand how behavior is guided by environmental cues, we must first understand how sensory information about the world is represented and processed in the brain. In this seminar-style course we will examine the neural organization of sensory systems, particularly the organization of cortical structures. We will first explore how various organizational strategies are used in different systems to perform specific functions, leading to the focus of our course: how information from different sensory modalities is integrated in higher-order cortical areas, and how this integration ultimately influences behavior.
Prerequisite: C-or better in any two elective courses in neuroscience

**NSCI 490 Topics in Neuroscience (4 credits)**
The subject matter of this course will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online. With the approval of the program director, this course may be used to fulfill the Capstone requirement for the major.
Prerequisite: C- or better in NSCI 301 or permission of the instructor.
Philosophy (PHIL)

College of Arts and Sciences, Department of Philosophy
John Roach Center for the Liberal Arts (JRC) 241, (651) 962-5350
Menssen (chair), Atkinson, Clemenson, Coulter, Deavel, Degnan, Distelzweig, Feeney, Frost, Giebel, Grant, Heaney, Kemp, Kronen, Laumakis, Lemmons, Lu, Pawl, Rota, Spencer, Stoltz, Stuchlik, Toner, van Ingen, Winter

Philosophy engages questions such as:

- Is the human mind just a very complicated machine?
- Can we have free will if the mind is a machine?
- Must we have free will in order for life to be meaningful?

- What makes an act moral or immoral?
- When, if ever, can a government mandate moral acts or outlaw immoral acts?
- Is it ever permissible to start a war with a preemptive strike?

- Is the design in the world evidence that there is a God?
- Do the world’s evils show that a good God cannot exist?
- What is the role of philosophy in dealing with questions about God?

- What is knowledge?
- Can we know anything with certainty?
- Are warrants for knowledge relative to particular cultures?

Philosophy considers these questions, and countless others, from the standpoint of human reason and experience. It emphasizes precise and careful argument, and sharpens your thinking skills.

The philosophy program at St. Thomas will introduce you to distinguished philosophical work over the centuries and into our own time. While attending carefully to philosophers whose works are foundational to the Catholic intellectual tradition, particularly Aristotle and Aquinas, the program is committed to broad integration of our understanding of reality. As you work to construct a philosophical worldview you will engage a variety of traditions, including non-Western, and confront questions prompted by the study of such subjects as the natural and social sciences, mathematics, medicine, business, law, theology, the fine arts, and literature.

Major in Philosophy

PHIL 115 Philosophy of the Human Person (4 credits)
PHIL 214 Introductory Ethics (4 credits) or PHIL 215 Introductory Ethics: East and West (4 credits)
PHIL 220 Logic (4 credits)

Plus eight credits in the history of philosophy
Four credits in classical Western philosophy
  PHIL 200 Ancient Philosophy (4 credits)
  PHIL 202 Medieval Philosophy (4 credits)
  PHIL 340 Thought of Thomas Aquinas (4 credits)
  or another course approved by the department

Four credits in an elective in the history of philosophy
  PHIL 200 Ancient Philosophy (4 credits)
  PHIL 202 Medieval Philosophy (4 credits)
  PHIL 210 Chinese Philosophy (4 credits)
  PHIL 304 Modern Philosophy (4 credits)
  PHIL 306 Contemporary Philosophy (4 credits)
  PHIL 308 Indian Philosophy (4 credits)
  PHIL 340 Thought of Thomas Aquinas (4 credits)
  PHIL 353 Machiavelli, Hobbes, and Nietzsche (4 credits)
  or another course approved by the department

Plus:
Sixteen credits at the 300-level or above, including four credits at the 400-level (all 400-level courses require public presentation of a paper)
Philosophy (PHIL)

Plus:
Additional coursework in Philosophy to bring the total number of credits in philosophy either to forty-four (for single majors) or thirty-six (for double or triple majors).

Philosophy majors who are single majors must complete twenty-eight of their credits in philosophy at UST’s St. Paul campus; philosophy majors who are double majors must complete twenty-four of their credits in philosophy at UST’s St. Paul campus.

Minor in Philosophy
PHIL 115 Philosophy of the Human Person (4 credits)
PHIL 214 Introductory Ethics (4 credits) or PHIL 215 Introductory Ethics: East and West (4 credits)

Plus:
Twelve additional credits in philosophy. It is recommended that minors take PHIL 220 Logic (4 credits).

Philosophy minors must complete twelve of their credits in philosophy at UST’s St. Paul campus.

PHIL 115 Philosophy of the Human Person (4 credits)
An examination of fundamental conceptions of the human person in ancient, medieval and modern philosophy. Possible topics include: the existence and immortality of the human soul, free will and determinism, the immateriality of the intellect, the relationship between mind and body, and the relevance of different conceptions of the human person for ethics and religion. Attention is given to relevant issues of human diversity. The development of logical and critical thinking receives special attention. This course, with PHIL 214, fulfills the Moral and Philosophical Reasoning requirement in the core curriculum.

PHIL 200 Ancient Philosophy (4 credits)
A survey of the roots of philosophical inquiry in the classical period. The pre-Socratics, Plato, and Aristotle.
Prerequisite: PHIL 115

PHIL 202 Medieval Philosophy (4 credits)
An investigation of major philosophical problems in their medieval context. Possible topics include: faith and reason, free will, the role of authority, and the existence of God.
Prerequisite: PHIL 115

PHIL 210 Chinese Philosophy (4 credits)
An examination of the primary texts and problems that form the basis of Confucianism, Daoism, or Chinese Buddhism. Metaphysical and ethical themes will be considered. This course fulfills the Human Diversity requirement in the core curriculum.
Prerequisite: PHIL 115

PHIL 214 Introductory Ethics (4 credits) (PHIL 215)
An inquiry into the rational foundations and methods of ethics, with attention to the application of ethical principles to areas of personal conduct, institutional behavior and public policy, and diversity within and across cultures. The Aristotelian-Thomistic tradition receives special consideration. This course, with PHIL 115, fulfills the Moral and Philosophical Reasoning requirement in the core curriculum.
Prerequisite: PHIL 115
NOTE: Students who receive credit for PHIL 214 may not receive credit for PHIL 215.

PHIL 215 Introductory Ethics: East and West (4 credits) (PHIL 214)
An inquiry into the rational foundations and methods of ethics, with attention to the application of ethical principles to areas of personal conduct, institutional behavior and public policy, and diversity within and across cultures. This course, a study-abroad version of PHIL 214 taught in locations that foster the study of Eastern thought, focuses on similarities and differences between important Eastern and Western ethical theories. Eastern theories may include Confucian, Hindu, Buddhist, or Taoist accounts of ethics. Among Western accounts the Aristotelian-Thomistic tradition receives special consideration. This course with PHIL 115 fulfills the Moral and Philosophical Reasoning requirement in the core curriculum. This course fulfills the Human Diversity requirement in the core curriculum.
Prerequisite: PHIL 115
NOTE: Students who receive credit for PHIL 215 may not receive credit for PHIL 214.

PHIL 220 Logic (4 credits)
This course provides students with skills for identifying, analyzing, and evaluating the sorts of reasoning encountered in natural language. Emphasis will be placed on attaining facility with different formal systems for representing and evaluating arguments – including propositional logic, Aristotelian syllogistic, and first-order predicate calculus, as well as on acquiring the ability to apply these systems in the analysis and evaluation of arguments in ordinary and philosophical discourse.
Philosophy (PHIL)

Prerequisite: PHIL 115

PHIL 234 Love, Sex and Friendship (4 credits) (equivalent to CATH 234)
A philosophical examination of the nature of human love. Possible topics include reciprocity and permanence, fidelity, romantic love, human sexuality, kinds of friendship. Special attention will be given to the thought of John Paul II.
Prerequisite: PHIL 115

PHIL 240 Faith and Doubt (4 credits) (equivalent to CATH 240)
Philosophical arguments for and against the possibility of divine revelation. Special attention will be given to the claim that the faith of the Catholic Church is revealed. Possible topics include tests of alleged revelations and miracles, evil as a barrier to belief in revelatory claims, the compatibility of science and religion, the role of reason and faith in religious commitment, and personal decision-making in a state of doubt about evidence.
Prerequisite: PHIL 115

PHIL 250 Christian Mysteries from a Philosophical Viewpoint (4 credits) (equivalent to CATH 250)
A consideration of philosophical problems associated with Catholicism. Possible topics include divine providence, creation, the soul, freedom of the will, faith, the Eucharist, the Incarnation, and the variety of religious beliefs.
Prerequisite: PHIL 115

PHIL 258 Environmental Ethics (4 credits) (equivalent to ENVR 301)
Consideration of the ethical issues arising from human interaction with the environment, including population pressure, pollution, conservation and preservation. Focus is on the grounds of our obligation to resolve such issues; the question of what persons and things are worthy of moral consideration; and the respective roles of individuals, organizations and government in addressing environmental problems. Case studies will be used to trace the implications of various ethical and political theories.
Prerequisites: PHIL 214 or 215; and ENVR 151 (ENVR 151 is waived for philosophy majors and minors)

PHIL 272 Evolution and Creation (4 credits) (equivalent to CATH 272)
A philosophical examination of the relation between the doctrine of creation and theories in the evolutionary sciences. The course will consider arguments concerning evolution and creation from a variety of disciplines (including philosophy, theology, and natural science). The course will also examine historical and philosophical aspects of the relation between science and religion on the origins of the material world and the human race.
Prerequisite: PHIL 115

PHIL 295, 296 Topics (2 credits)
PHIL 297, 298 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

PHIL 304 Modern Philosophy (4 credits)
An examination of major philosophers of the early modern period from René Descartes to Immanuel Kant, with emphasis on methodology and claims to knowledge.
Prerequisite: PHIL 115 and one other PHIL Course

PHIL 306 Contemporary Philosophy (4 credits)
An investigation of major philosophical problems from the late nineteenth century to the present, with a focus on prominent philosophers, including thinkers from both the analytic and continental traditions.
Prerequisite: PHIL 220

PHIL 308 Indian Philosophy (4 credits)
An examination of foundational philosophical problems discussed in classical Indian schools of thought. Metaphysical, epistemological, and ethical themes will be considered. Though the primary aim of this course is to study Indian philosophy in its own terms, a secondary aim is to examine some ways in which Western thinkers have viewed Indian philosophy through lenses that have distorted its nature and value. This course fulfills the Human Diversity requirement in the core curriculum.
Prerequisite: PHIL 115 and one other PHIL course

PHIL 320 Aristotelian Logic (4 credits)
A study of Aristotle’s Organon, covering such topics as the categories, the nature of propositions, and forms of argument. Emphasis on demonstration (proof of necessary truths) and its distinction from dialectical reasoning. Applications to philosophical texts.
Prerequisite: PHIL 220
Philosophy (PHIL)

PHIL 325 Intermediate Symbolic Logic (4 credits)
A study of developments in twentieth-century symbolic logic. Possible topics include axiomatic systems, set theory, extensions of predicate logic (such as predicate logic with identity, quantified modal logic, relevance logic, deviant logics), and metatheorems (such as soundness and completeness theorems).
Prerequisite: PHIL 220

PHIL 330 Philosophy of Mind (4 credits)
A study of central issues in the philosophy of mind and soul. Possible topics include the relation between mind and body; the senses, emotions, intellect and will; and personal identity. Attention will be given to both the Aristotelian/Thomistic tradition and contemporary philosophy.
Prerequisites: PHIL 115; and 220 or permission of instructor

PHIL 335 Aesthetics (4 credits)
This course addresses philosophical questions that arise in connection with art and aesthetic experience. Possible topics include: the nature of beauty, artistic representation, aesthetic properties, and the relationship between art and insight, between art and emotion, between art and morality, and between art and religious experience.
Prerequisites: PHIL 115 and one other PHIL course

PHIL 340 Thought of Thomas Aquinas (4 credits)
An examination of some major topics in the philosophy of Thomas Aquinas. Possible topics include: Aquinas’s conception of philosophy and its relation to faith; God; and the destiny of the human being.
Prerequisite: PHIL 115 and one other PHIL course

PHIL 350 Advanced Ethical Theory (4 credits)
An advanced treatment of central aspects in ethical theory. Possible topics include metaethical issues (e.g. the is/ought problem, moral realism, naturalism) and the justification of normative theories (e.g., eudaimonism, deontology, consequentialism).
Prerequisite: PHIL 214 or 215

PHIL 353 Machiavelli, Hobbes, and Nietzsche (4 credits)
An examination of three central figures in the history of political theory, and the challenge each presents to the moral evaluation of the use of political power.
Prerequisite: PHIL 214 or 215

PHIL 354 Biomedical Ethics (4 credits)
An investigation of ethical problems in medicine and biological technology. Possible topics include: genetic engineering, experimentation with human subjects, the right to health care, and the concept of mental illness.
Prerequisite: PHIL 214 or 215

PHIL 356 Contemporary Social Issues (4 credits)
An investigation into conceptions of the human person, ethics, and the law related to current issues with public policy implications. Issues chosen at the discretion of the instructor.
Prerequisite: PHIL 214 or 215

PHIL 357 Political Philosophy (4 credits)
A study of the nature and justification of political authority. Possible topics include natural rights, liberty and equality, the common good and its relation to the individual good, the place of liberty and equality, and the common good in justifying state action. Attention is given to both classical and contemporary authors.
Prerequisite: PHIL 214 or 215

PHIL 359 Philosophy of Law (4 credits)
A study of philosophical problems connected with human law and legal institutions. Possible topics include the nature and kinds of law, the relation of law and morality, analysis of legal concepts, the nature and justification of punishment, and the principles of legal interpretation and reasoning. Attention will be given to both classical and contemporary authors.
Prerequisite: PHIL 214 or 215

PHIL 360 Philosophy of Religion (4 credits)
Western and non-Western philosophical arguments concerning the nature and justifying bases of religious belief, with special attention to the philosophical implications of religious pluralism.
Prerequisites: PHIL 115 and one other PHIL course
PHIL 365 Natural Philosophy and Metaphysics (4 credits)
This course examines central topics in the philosophy of nature and in metaphysics. Possible topics include substance and accident, change and the conditions of substantial generation, matter and form, causality, necessity and possibility, time and persistence through time, universals and particulars, essence and existence, and the transcendentals (unity, truth, goodness, beauty). Attention will be paid both to classical and to contemporary authors.
Prerequisite: PHIL 220 and one other PHIL course

PHIL 380 Epistemology (4 credits)
This course considers various accounts of the nature, origin, and limits of human knowledge. Attention will be paid to the main figures in the Western tradition as well as to contemporary authors.
Prerequisite: PHIL 220

PHIL 385 Philosophy of Science (4 credits)
This course examines central topics in the philosophy of science. Possible topics include scientific explanation, realism and the nature of scientific theories, reductionism in science, and the nature of scientific change.
Prerequisite: PHIL 115; and PHIL 220 or consent of instructor. The prerequisite of PHIL 220 may be waived for science or math majors or minors.

PHIL 398 Topics (4 credits)
The subject matter of the courses taught under PHIL 398 will vary from year to year, but will not duplicate existing courses. Descriptions of the courses are available from the philosophy department, and in the Searchable Class Schedule on Murphy Online, https://banner.saintthomas.edu/pls/banner/prod/bwckschd.
Prerequisite: at least two philosophy courses (prerequisites may be further specified; see individual course descriptions)

PHIL 410 Colloquium: Philosophical Research (4 credits)
An advanced course in philosophical research, writing, and presentation. On a topic chosen in consultation with the instructor, students will submit at least two drafts of a substantial paper on a major problem or debate in philosophy. Students will be expected to meet every other week as a group to discuss the progress of their projects and critique preliminary drafts of one another’s work. An oral presentation of the final draft is required.
Prerequisites: PHIL 214 or 215; and 220

PHIL 460 Philosophy of God (4 credits)
Systematic treatment of philosophical arguments concerning the existence and attributes of God.
Prerequisites: PHIL 220 and 365

PHIL 475, 476 Experiential Learning (2 credits)
PHIL 477, 478 Experiential Learning (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

PHIL 483, 484 Seminar (2 credits)
PHIL 485, 486 Seminar (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

PHIL 487, 488 Topics (2 credits)
PHIL 489, 490 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.saintthomas.edu/pls/banner/prod/bwckschd.

PHIL 269, 389, 491 Research (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

PHIL 243, 393, 495 Individual Study (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.
Physics majors learn the fundamental laws that govern the physical universe, from the smallest subatomic particle to the largest galaxies to the very structure of space and time. Emphasis is placed on general understanding, problem solving, and the communication skills essential for success in a career grounded in science. In the laboratory, students use state-of-the-art instrumentation in applying physics to a wide variety of systems. Opportunities are available for students to participate in research projects during the school year and over the summer.

There are three educational options from which to choose: a Bachelor of Science (B.S.) degree; a Bachelor of Arts (B.A.) degree; or a minor in physics. The B.S. degree provides the necessary background for students interested in graduate school, engineering or industrial work; the Bachelor of Arts degree gives a solid background in physics with the flexibility to meet other needs, including preparation for professional programs such as medicine or patent law, or for students double majoring in areas such as mathematics or electrical engineering.

For students interested in teacher licensure, see the various combinations of science education in the School of Education Department of Teacher Education in this catalog.

Transfer students can transfer a maximum of 16 credits in physics towards the physics degree. Physics courses taken at other colleges by students already matriculated at St. Thomas may be credited toward the requirements of the major only with prior and explicit written approval of the department chair.

The department offers courses for non-majors to fulfill the laboratory science component of the core curriculum.

Graduation with Honors in Physics
Students graduating with a B.A. or B.S. degree in physics may also qualify for departmental honors. Students interested in this designation must consult with the department chair one year or more before graduation. All requirements must be met one month before graduation.

1. Complete four credits in 400-level physics research or the equivalent research experience
2. Prepare a written thesis in the format of primary literature
3. Defend the thesis before a panel composed of:
   - thesis director (chair of committee)
   - two additional UST physics faculty
   - one UST faculty member outside of physics
4. Achieve a final cumulative grade point average in physics department courses of 3.50 and 3.50 overall
5. Present their research at a scientific meeting beyond the St. Thomas community

Major in Physics (B.S.)

PHYS 111 Introduction to Classical Physics I (4 credits)
PHYS 112 Introduction to Classical Physics II (4 credits)
PHYS 215 Foundations of Modern Physics: From the Atom to the Big Bang (4 credits)
PHYS 225 Applications of Modern Physics: From the Atom to the Diode (4 credits)
PHYS 323 Methods of Experimental Physics (4 credits)
PHYS 331 Theoretical Mechanics (4 credits)
PHYS 341 Electricity and Magnetism (4 credits)
PHYS 347 Optics (4 credits)
PHYS 410 Statistical Mechanics and Thermodynamics (4 credits)
PHYS 431 Quantum Mechanics (4 credits)

Plus:
Four PHYS credits 104 or greater

Allied requirements
MATH 113 Calculus I (4 credits)
MATH 114 Calculus II (4 credits)
MATH 200 Multi-Variable Calculus (4 credits)
MATH 210 Introduction to Differential Equations and Systems (4 credits)
MATH 240 Linear Algebra (4 credits)

Plus:
ENGR 240 Circuit Analysis (4 credits) or ENGR 350 Introduction to Electronics (4 credits)
Major in Physics (B.A.)
PHYS 111 Introduction to Classical Physics I (4 credits)
PHYS 112 Introduction to Classical Physics II (4 credits)
PHYS 215 Foundations of Modern Physics: From the Atom to the Big Bang (4 credits)
PHYS 225 Applications of Modern Physics: From the Atom to the Diode (4 credits)
PHYS 323 Methods of Experimental Physics (4 credits)

Plus:
Four PHYS credits 104 or greater
Eight PHYS credits above 301

Allied requirements
MATH 113 Calculus I (4 credits)
MATH 114 Calculus II (4 credits)
MATH 200 Multi-variable Calculus (4 credits)
MATH 210 Introduction to Differential Equations and Systems (4 credits)

Plus:
ENGR 240 Circuit Analysis (4 credits) or ENGR 350 Introduction to Electronics (4 credits)
CISC 130 Introduction to Programming and Problem Solving in the Sciences (4 credits) or CISC 131 Introduction to Programming and Problem Solving (4 credits)

PRE-ENGINEERING

See Pre-Professional Programs

Teacher Licensure
Elementary Education with a Co-major in Science and Mathematics for Elementary Education
Elementary Education with a Specialty in Science (5-8)
Co-major in Science (5-8) – Physics (9-12) and a Co-major in Secondary Education

Minor in Physics
PHYS 111 Introduction to Classical Physics I (4 credits)
PHYS 112 Introduction to Classical Physics II (4 credits)

Plus:
Twelve PHYS credits from the following list:
PHYS 104 Astronomy (4 credits)
PHYS 105 Musical Acoustics (4 credits)
PHYS 215 Foundations of Modern Physics: From the Atom to the Big Bang (4 credits)
PHYS 225 Applications of Modern Physics: From the Atom to the Diode (4 credits)
Additional credits from other courses above PHYS 225

PHYS 101 Physics for Liberal Arts I (4 credits) (PHYS 109, 111)
Intended for non-science majors; treats fundamental principles of physics and their application to familiar phenomena, stressing qualitative understanding. The course will survey topics from mechanics, fluids, temperature and heat, oscillations, waves and sound, light and optics, and properties of matter. The course meets three times a week for two consecutive periods consisting of integrated lecture, discussion and laboratory. This course is designed especially for elementary education majors. It is not intended for students who have had high school physics. This course fulfills the core-area in natural science in the Natural Science and Mathematical and Quantitative Reasoning requirement in the core curriculum. Offered fall semester.
Prerequisite: Three years of high school mathematics
Physics (PHYS)

NOTE: Students who receive credit for PHYS 101 may not receive credit for PHYS 109 or 111.

PHYS 104 Astronomy (4 credits)
Introduction to physical principles and their application to astronomy for non-science majors. Emphasis is on comprehension of ideas and principles. Topics include the motions of the sun, moon, stars and planets; properties of the solar system; the stars including giants, dwarfs, pulsars and black holes; nebulae, galaxies and quasars; cosmology and life. The course consists of lecture, discussion and laboratory. This course fulfills the core-area in natural science in the Natural Science and Mathematical and Quantitative Reasoning requirement in the core curriculum. Offered fall and spring semester
Prerequisite: Three years of high school mathematics

PHYS 105 Musical Acoustics (4 credits)
An introductory course intended for non-science majors; treats fundamental principles of physics and acoustics as they relate to musical sounds and musical instruments. The course meets three times a week for two consecutive periods consisting of integrated lecture, discussion and laboratory. This course fulfills the core-area in natural science in the Natural Science and Mathematical and Quantitative Reasoning. Offered spring semester.
Prerequisites: High school algebra and a music background (one year practice, instrument or voice, or one course)

PHYS 109 General Physics I (4 credits) (PHYS 111)
This course and its continuation PHYS 110 serve as a two-semester introduction to classical and modern physics. Applications are chosen that focus on the life-sciences. Topics include principles of classical mechanics: description of motion, force, torque and rotational motion, energy, momentum and their conservation, fluid mechanics; thermodynamics. The course meets three times a week for two consecutive periods consisting of integrated lecture, discussion and laboratory. This course fulfills the core-area in natural science in the Natural Science and Mathematical and Quantitative Reasoning requirement in the core curriculum. Offered fall semester.
Prerequisite: Math placement at a level of MATH 111 or above.
NOTE: Students who receive credit for PHYS 109 may not receive credit for PHYS 111.

PHYS 110 General Physics II (4 credits) (PHYS 112)
Continuation of PHYS 109. Topics include oscillations, waves and sound, electricity and magnetism; light and optics; atomic, quantum and nuclear physics. The course meets three times a week for two consecutive periods consisting of integrated lecture, discussion and laboratory. This course fulfills the core-area in natural science in the Natural Science and Mathematical and Quantitative Reasoning requirement in the core curriculum. Offered spring semester.
Prerequisite: A minimum grade of C- in PHYS 109 or 111
NOTE: Students who receive credit for PHYS 110 may not receive credit for PHYS 112.

PHYS 111 Classical Physics I (4 credits) (PHYS 110)
This course and its continuation PHYS 112 serve as a two-semester introduction to classical physics. Applications are chosen that focus on engineering and the physical sciences. Topics include principles of classical mechanics: vectors, kinematics, particle and rigid body rotational dynamics and statics; conservation laws; and thermodynamics. The course meets three times a week for two consecutive periods consisting of integrated lecture, discussion and laboratory. This course fulfills the core-area in natural science in the Natural Science and Mathematical and Quantitative Reasoning. Offered fall and spring semester.
Prerequisite: A minimum grade of C- in MATH 109 or MATH 113
NOTE: Students who receive credit for PHYS 111 may not receive credit for PHYS 109.

PHYS 112 Classical Physics II (4 credits) (PHYS 111)
Continuation of PHYS 111. Topics include waves and sound; electricity and magnetism; geometric and physical optics. The course meets three times a week for two consecutive periods consisting of integrated lecture, discussion and laboratory. This course fulfills the core-area in natural science in the Natural Science and Mathematical and Quantitative Reasoning. Offered fall and spring semester.
Prerequisites: A minimum grade of C- in both PHYS 111 and MATH 114
NOTE: Students who receive credit for PHYS 112 may not receive credit for PHYS 109.

PHYS 215 Foundations of Modern Physics: From the Atom to the Big Bang (4 credits)
This course connects the subatomic world of particle and nuclear physics to the evolution of the universe after the Big Bang through the study of relativity and the four fundamental forces of nature. The course consists of lecture, discussion and laboratory. Offered fall semester
Prerequisite: A minimum grade of C- in either PHYS 110 or 112 and in MATH 114.

PHYS 225 Applications of Modern Physics: From the Atom to the Diode (4 credits)
This course investigates the quantum theory of light, wave-particle duality, quantum mechanics in one-dimension, statistical physics, lasers, and solid state physics. The course consists of lecture, discussion and laboratory.
Prerequisites: A minimum grade of C- in PHYS 112 and in either MATH 200 or MATH 210.
Offered spring semester

**PHYS 295, 296 Topics (2 credits)**
**PHYS 297, 298 Topics (4 credits)**
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

**PHYS 323 Methods of Experimental Physics (4 credits)**
Standard tools and techniques used in experimental physics are introduced while conducting an in-depth investigation of a non-linear system. Technical topics include: identifying and characterizing chaotic systems, data acquisition and instrument control using LabVIEW, signal conditioning, data and error analysis, and experimental design. This course consists of lecture, discussion and laboratory. Offered spring semester of odd-numbered years
Prerequisite: A minimum grade of C- in PHYS 112 and MATH 200

**PHYS 331 Theoretical Mechanics (4 credits)**
Newtonian dynamics of particles and systems of particles; conservation laws; moving coordinate systems; central-force motion; collisions and scattering; plane and general motion of rigid bodies; free, forced and coupled oscillations; Lagrangian dynamics. This course consists of lecture and discussion. Offered fall semester of even-numbered years.
Prerequisites: A minimum grade of C- in either PHYS 215 or 225 and in MATH 200 and MATH 210

**PHYS 341 Electricity and Magnetism (4 credits)**
Electrostatic and magnetostatic fields in vacuum and material media; energy and force relations; methods for the solution of static problems; fields and currents in conducting media; Maxwell’s equations and time-dependent fields. This course consists of lecture and discussion. Offered fall semester.
Prerequisites: A minimum grade of C- in either PHYS 215 or 225 and in MATH 200 and MATH 210

**PHYS 342 Electromagnetic Waves (4 credits) (equivalent to ENGR 342)**
A continuation of PHYS 341. An introduction to the practical applications of Maxwell’s equations including propagation, reflection and absorption of electromagnetic waves. Applications include antennas, waveguides, transmission lines, and shielding from electromagnetic interference. This course consists of lecture and discussion. Offered spring semester.
Prerequisite: A minimum grade of C- in PHYS 341

**PHYS 347 Optics (4 credits)**
Foundations of geometric optics: Fermat’s Principle of Stationary Time. Nature of electromagnetic waves: dipole radiation, energy, momentum, polarization, coherence, interference, diffraction, Fourier optics. Interactions between light and matter: scattering, reflection, refraction, absorption, dispersion, birefringence, dichroism, nonlinear effects. Quantum optics: nature of the photon, lasers, detectors, other modern topics. This course consists of lecture and laboratory. Offered fall semester.
Prerequisites: A minimum grade of C- in PHYS 225, MATH 200, and MATH 210

**PHYS 410 Statistical Mechanics and Thermodynamics (4 credits)**
Concepts and laws of thermodynamics and of statistical mechanics. Applications of these to various systems, including gases, liquids, solids and chemical systems. This course consists of lecture and discussion. Offered spring semester of even-numbered years.
Prerequisite: A minimum grade of C- in PHYS 215, 225, and both MATH 200 and MATH 210

**PHYS 431 Quantum Mechanics (4 credits)**
The foundation of Quantum Mechanics will be explored with mathematical rigor. Specific topics include the time-independent Schrödinger equation, the hydrogen atom, and angular momentum including spin. Discussion of identical particles will lead to an introduction of quantum statistical mechanics. This course consists of lecture and discussion. Offered spring semester of odd-numbered years.
Prerequisite: A minimum grade of C- in PHYS 215, 225, MATH 200, 210, and 240

**PHYS 483, 484 Seminar (2 credits)**
**PHYS 485, 486 Seminar (4 credits)**
See the description of these courses at the beginning of the “Curricula” section of this catalog.

**PHYS 487, 488 Topics (2 credits)**
**PHYS 489, 490 Topics (4 credits)**
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.
Political Science (POLS)

PHYS 269, 389, 491 Research (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

PHYS 243, 393, 495 Individual Study (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

POLITICAL SCIENCE (POLS)
College of Arts and Sciences, Department of Political Science
John Roach Center for the Liberal Arts (JRC) 432, (651) 962-5720
Hoffman (chair), Buhr, High-Pippert, Mazumdar, Winters

The program of courses offered by the Political Science Department is designed to enable students to acquire an understanding of political processes, governmental institutions, and theories of politics.

As one of the liberal arts, political science enables students to develop skills in communication and analytic problem solving that are useful in a wide variety of careers, including business. More specifically, the major in political science prepares students for the study of law, graduate programs in political science or public administration or for careers in government, politics, the non-profit sector, or teaching.

Students graduating with a major in political science will have a broad overview of the discipline, as well as substantive familiarity with at least two of the five political science sub-fields: American politics, comparative politics, international politics, law and judicial politics, and political thought. At various points in their study of political science, majors will develop a wide variety of skills, including skills related to the carrying out of research projects, the interpretation of empirical data, and the presentation of their work to a wider audience.

Students majoring in political science must take a minimum of twenty-eight credits in political science at St. Thomas. No more than eight of the credits taken outside the department shall be numbered 300 or above. Students minoring in political science must take a minimum of sixteen credits in political science at St. Thomas. The department also offers courses for non-majors to fulfill the Social Analysis component of the core curriculum.

Political Science Honor Society
Pi Sigma Alpha, the national political science honor society, established the Chi Theta chapter at St. Thomas in 1999. The purpose of Pi Sigma Alpha is to acknowledge superior performance in the study of political science, to forge closer links between faculty and political science majors and minors, and to stimulate political interest in the St. Thomas community.

Pi Sigma Alpha is open to juniors and seniors who meet the following qualifications for membership. Students must have completed at least three political science courses and be currently enrolled in or have taken a fourth. Two of the four courses must be UST political science courses, and one of the four must be at least a 300-level course. Additionally, students must have a grade point average of at least 3.00 in political science courses and be within the top third of their graduating class.

Major in Political Science
POLS 104 American Government in Comparative Perspective (4 credits)
POLS 205 Introduction to the American Public Policy Process (4 credits)
POLS 225 Introduction to World Politics (4 credits)
POLS 275 Introduction to American Political Thought (4 credits)

Plus:
Sixteen credits in POLS 300-level courses
(completed in at least two of the five sub-fields)

Plus:
One POLS 400-level seminar
Four elective POLS credits

Note: Students are encouraged to take an experiential learning and/or individual research course.
**Teacher Licensure**
Elementary Education with a Specialty in Social Studies (5-8)
Co-major in Social Studies (5-12) and a Co-major in Secondary Education
*See Education.*

**Minor in Political Science**
POLS 104 American Government in Comparative Perspective (4 credits)

*Plus eight credits from the following:*
POLS 205 Introduction to the American Public Policy Process (4 credits)
POLS 225 Introduction to World Politics (4 credits)
POLS 275 Introduction to American Political Thought (4 credits)

*Plus:*
Twelve credits in 300-level courses
(completed in at least two of the five sub-fields)
One 400-level seminar may be completed in place of a 300-level course.

**Prerequisites**
1. Students who intend to complete a major or minor in political science may not enroll in a 400-level seminar unless they have completed successfully a 200-level or 300-level course in the sub-field of the 400-level seminar.
2. Students who are not pursuing a major or minor in political science must obtain permission of the instructor of a 400-level seminar and the department chair to enroll in that seminar if a 200-level or 300-level course has not been completed in the sub-field of the seminar.
3. All students enrolling in a 400-level seminar must have senior status or obtain permission of the chair.

**POLS 104 American Government in Comparative Perspective (4 credits)**
An introduction to the concepts basic to an understanding of politics and government with an emphasis on the political systems of the United States. A comparative examination of political processes, decision making institutions and policy issues relevant to the contemporary world. An introduction to basic research methods used in the discipline. The course fulfills the Social Analysis requirement in the core curriculum.

**POLS 205 Introduction to the American Public Policy Process (4 credits)**
A survey of the way public policy is made in the American political system including agenda-setting, formulation of alternative policy choices, representation of interests and selection and implementation of policy options. Public policy case studies will be used as illustrations. Students also will be introduced to data analysis as a tool for policy evaluation.
Prerequisite: POLS 104 or permission of the instructor

**POLS 225 Introduction to World Politics (4 credits)**
An overview of the contemporary international political system that examines the nature of power in global politics, particularly the transition from a bipolar to a post-cold war world. Emphasis is given to the changing relationships among the great powers, such as the United States and Russia, and to the interaction between the industrialized democracies of the North and the less-developed states of the South. Issues that cut across international politics – arms proliferation, the debt crisis, terrorism, resurgent nationalism – are examined. The course also analyzes the role and impact of non-state actors, such as the United Nations and multi-national corporations, on the international system.
Prerequisite: POLS 104 permission of the instructor

**POLS 275 Introduction to American Political Thought (4 credits)**
This course offers a survey of important American political themes, essays, and writers. Critical foundational documents such as the Declaration of Independence, the Federalist Papers, and the Emancipation Proclamation, as well as debates and speeches central to American Political thought, including the Lincoln-Douglas debates, the Gettysburg address, and great political speeches of the 20th century, are examined. Mainstream writers such as Jefferson, Thoreau, Dewey, Debs, Menchen, and Walzer are reviewed as well as generally overlooked women and minority writers such as Sojourner Truth and Elizabeth Cady-Stanton.
Prerequisite: POLS 104 or permission of the instructor

**POLS 295, 296 Topics (2 credits)**
**POLS 297, 298 Topics (4 credits)**
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online,
Political Science (POLS)
https://banner.sthomas.edu/pls/banner/prod/bwckschd.

POLS 301 American Political Behavior (4 credits)
An examination of the political attitudes and behavior of the public, as well as the linkages between the public and their government. Topics include: public opinion; political psychology; political participation; voting; elections; political parties; interest groups; and the mass media. The emphasis is on the American system, but comparisons will be made with other democratic systems. Attention also will be paid to survey research as a principal method by which these topics are studied.
Prerequisite: POLS 104 or permission of instructor

POLS 302 Women and Politics (4 credits)
An examination of the political involvement of women. Topics include: the representation of women, feminism as a social movement, the campaign strategies and styles of women candidates, the election of women to local, state, and national office, and the differences that women make in public office. Emphasis is on women in the United States, but comparisons will be made with women in other countries.
Prerequisite: POLS 104 or permission of instructor

POLS 303 Urban and Metropolitan Politics and Government (4 credits)
An examination of the nature and role of urban and metropolitan places in American civic life. The evolution of cities from villages to metropolitan areas is examined. Topics examined include: the structure of American urban government, the role of community-based organizations in urban governance, the city as a vehicle for social segregation, the city as an economic entity and the relationship between cities and an increasingly global society.
Prerequisite: POLS 104 or permission of instructor

POLS 305 Congress and the Presidency (4 credits)
An examination of the development and contemporary operation of the legislative and executive branches of government, focusing particularly on the interaction between them in the policy-making process. Topics include: the evolution of selection processes; the growth of careerism in the legislature; increasing complexity and bureaucratization of both branches; the nature of representation; the role of political parties; and the expansion and contraction of each branch’s powers relative to the other. Primary attention will be on Congress and the presidency, but parallels also will be drawn with state legislatures and governors.
Prerequisite: POLS 104 or permission of instructor

POLS 307 Public Policy Analysis and Administration (4 credits)
An examination of the processes underlying the formation, implementation and administration of public policy. The nature of administrative organizations is studied, as is recent literature on contemporary organizational theory. A variety of techniques commonly used in public sector organizations, including experimental designs, benefit-cost analysis and risk assessment are explored. Emphasis will be placed upon the historical character of American public administration and its changing role in American society.
Prerequisite: POLS 104 or permission of instructor

POLS 309 Environmental Policy (4 credits) (equivalent to ENVR 351)
An examination of environmental policy outcomes generated by institutions and organizations, including legislation, court decisions and administrative decisions. Additional focus is on the nature of the decision-making process and those methods commonly used to assess public policy.
Prerequisite: POLS 104 or permission of instructor

POLS 311 Political Trials (4 credits)
An examination of a series of criminal and civil trials that highlight to an extraordinary degree the political implications of American law. Examples will be drawn from the seventeenth to the twenty-first centuries and may include such trials as presidential impeachment, religious liberty, military justice, press freedom and legislative representation. Individual research will seek to answer the ultimate question of whether justice was served or denied.
Prerequisite: POLS 104 or permission of the instructor

POLS 312 Judicial Process (4 credits)
An examination of the relationship of law and judicial policy-making to American political culture. The selection, powers and operation of American courts – trial and appellate, federal and state; the evolution of the judiciary in American constitutional history with emphasis on the decision-making process; relations with law enforcement agencies, the legal profession, interest groups, executive and legislative institutions.
Prerequisite: POLS 104 or permission of the instructor

POLS 313 Constitutional Law and Politics (4 credits)
The Supreme Court as a legal and political institution; leading cases and related materials on the presidency, Congress, the judiciary, federalism and national emergency.
Prerequisite: POLS 104 or permission of instructor

POLS 314 Constitutional Rights and Liberties (4 credits)
The Supreme Court as a legal and political institution; leading cases and related materials on the Bill of Rights and the Fourteenth Amendment, including the freedom of speech and press, the freedom of religion, the rights of the criminally-accused and equal protection of the laws.
Prerequisite: POLS 104 or permission of instructor

POLS 320 American Foreign Policy (4 credits)
Examination of the traditional American approach to foreign policy; America’s post-World War II role in the world; the roles of the president and Congress in the making of foreign policy; the foreign-policy bureaucracy; nuclear weapons policy; contemporary American foreign policies.
Prerequisite: POLS 104 or permission of instructor

POLS 321 Comparative Foreign Policy (4 credits)
Analysis of the domestic and external determinants of foreign-policy behavior. The general processes discovered by analysis will be examined on a comparative basis in the foreign policies of the major powers.
Prerequisite: POLS 104 or permission of instructor

POLS 326 International Law and Organizations (4 credits)
Aimed at upper-level undergraduates with an interest in international relations generally and the IR subfield of international organization (IO) specifically. An examination of the ways in which state behavior is affected by international norms, international legal documents such as UN declarations and bilateral treaties, and international organizations like the United Nations are examined. The course also looks closely at the ways in which states, individuals, and power relations shape the nature and objectives of international law and organizations.
Prerequisites: POLS 104 or permission of the instructor.

POLS 328 International Security (4 credits)
Theories of International Relations that apply to international security and focuses on both traditional and contemporary issues in security studies are examined. Among the traditional issues covered are defense strategy, conventional weapons, weapons of mass destruction, and military alliances. Contemporary issues addressed include ethnic conflict, genocide, democratic peace theory, and terrorism.
Prerequisites: POLS 104 or permission of the instructor.

POLS 350 Comparative Politics of the New Europe (4 credits)
Provides students with the skills and knowledge necessary to conduct comparative analysis of governmental structures, political culture, political economy, and political behavior in European states. The course covers West and East European states as diverse as Britain, France, Czech Republic and Poland, and also addresses the development and political/economic impact of regional organizations such as the European Union and NATO.
Prerequisites: POLS 104 or permission of the instructor.

POLS 352 Politics of the Developing World (4 credits)
A survey of the politics and economy of Asia, Africa and Latin America. Focuses on issues such as colonialism, democratization, human rights, gender, population, poverty, environment, political leadership, economic development and relations between developed and developing countries.
Prerequisites: POLS 104 or permission of the instructor.

POLS 354 Politics of Post-Soviet States (4 credits)
Provides an in-depth understanding of the dynamics of political change in general and of the history of the Soviet Union and the fifteen post-Soviet states. General topics include revolution, totalitarian and authoritarian regimes, and problems of democratic transition. These topics are illustrated with case studies from the former Soviet Union, including Russia, East European and Central Asian post-Soviet states.
Prerequisites: POLS 104 or permission of the instructor.

POLS 356 Politics of South Asia (4 credits)
An examination of the politics, economy and society of South Asian countries, including Afghanistan, Bangladesh, India, Nepal, Pakistan and Sri Lanka. Involves comparison between these countries utilizing themes such as political culture, political institutions, government structures and processes, political economy, interest groups and political development and transition.
Prerequisites: POLS 104 or permission of the instructor.
Political Science (POLs)

POLS 372 Theories of Political Constitution (4 credits)
Examines the theoretical underpinnings behind a workable, just, and enduring political constitution. Analyzes how the patterned constitutional structure of social relationships affects real world quality of life for those who live both inside and outside of any particular political constitution. Surveys the work of history’s greatest constitutional theorists and evaluates contemporary, cutting-edge problems of political constitution.
Prerequisites: POLS 104 or permission of the instructor.

POLS 373 Citizens and the State (4 credits)
Examines the role of the citizen in relation to the state. Examines the limits of what states have the right to ask of citizens and raises questions about citizen’s obligations to the state. Applies theoretical knowledge to questions of rights, legitimacy, rebellion, and resource distribution.
Prerequisites: POLS 104 or permission of the instructor.

POLS 375 American Political Thought (4 credits)
A survey of important American political thinkers, such as Jefferson, Thoreau, Dewey, Lincoln, Debs, Mencken, and Walzer from the 17th century to the present; includes analysis of the relevance of American political experience to abiding questions in normative political philosophy.
Prerequisite: POLS 104 or permission of instructor

POLS 404 Seminar in American Politics (4 credits)

POLS 414 Seminar in Law and Judicial Politics (4 credits)

POLS 424 Seminar in International Politics (4 credits)

POLS 454 Seminar in Comparative Politics (4 credits)

POLS 474 Seminar in Political Thought (4 credits)
Seminars in political science provide an opportunity for students to synthesize and further develop knowledge gained in earlier courses and enhance their critical and analytical skills. Students in the seminars will engage in reading and discussion and undertake a major research project pertinent to the seminar’s topic. Specific topics or themes of each seminar will vary. Seminars are offered in each of the sub-fields of the discipline. Prerequisite: POLS 104, senior status or permission of the instructor.

POLS 475, 476 Experiential Learning (2 credits)
POLS 477, 478 Experiential Learning (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog. Specific possibilities in political science include:

  Administrative internship
  Fifteen hours per week of supervised practical government experience in an administrative agency plus a term paper and regular conferences with the supervising instructor.
  Prerequisites: POLS 205

  Legislative internship
  Fifteen hours per week of supervised work assisting a legislator or legislative committee plus a term paper and regular conferences with the supervising instructor.
  Prerequisites: POLS 205 plus previous or concurrent enrollment in 305

  Field work in practical politics
  Fifteen hours per week of supervised work in a political campaign or with a political party or interest group plus a term paper and regular conferences with the supervising instructor.
  Prerequisites: POLS 205 plus previous or concurrent enrollment in 301

  Legal Internship
  Fifteen hours per week of supervised work experience in an agency or office engaged in the legal process plus assigned readings, a term paper and regular conferences with the supervising instructor.
  Prerequisites: POLS 205 plus previous or concurrent enrollment in 312.

POLS 480 Research Seminar (4 credits)
Empirical research in political science, building upon and furthering skills developed in POLS 104 and 205. Students will undertake an
Pre-Professional Programs

A carefully-crafted baccalaureate degree can prepare a student for entrance to a professional school. The following information will guide students toward the major field programs and supplementary courses that will prepare them for the various professional schools.

**Preparation for the Catholic Priesthood**

Cross-College Program

Preparation for entering a postgraduate seminary takes place best in a college-level seminary. St. John Vianney College Seminary, located on the University of St. Thomas campus, provides an integrated program of spiritual and apostolic formation, along with the academic coursework available through the university.

All seminarians major in Philosophy, with the possibility to double major in a variety of fields. In addition, seminarians must complete prerequisites of theology and languages, according to the direction of their diocese, as well as the graduation requirements of the University of St. Thomas. All of these together provide a large measure of the balance needed for the future study of theology at the major theologate. However, they must complete certain prerequisites in philosophy, theology and languages according to the direction of their diocese. St. John Vianney students will be expected to complete the following academic requirements in compliance with the Program of Priestly Formation:

- Forty credits of philosophy
- Twelve credits of theology
- Language requirements: Latin or Spanish, if determined by the student's diocese.

Interested students should contact the rector, Rev. Michael Becker, at St. John Vianney Seminary: beck8065@stthomas.edu

**Pre-Engineering (PNGR)**

Cross-College Program

Jalkio (PHYS) 3-2 advisor

The School of Engineering at the University of St.Thomas is home to two fully accredited engineering programs in electrical and mechanical engineering. The degrees offer students career paths into most fields of engineering and opportunities to specialize in graduate school. For those students wishing to specialize in other fields of engineering at the undergraduate level, the University of St. Thomas offers a Liberal Arts-Engineering (3-2) program.

The Liberal Arts-Engineering (3-2) program is offered formally in cooperation with the University of Notre Dame and the University of Minnesota. Students typically spend three years at St. Thomas and, upon approval of St. Thomas and acceptance by the partnering engineering school, two additional years at the partnering school in an engineering field. Upon satisfying the requirements for graduation of both institutions, the student will receive a bachelor of arts (B.A.) degree from the University of St. Thomas and a bachelor of science degree in the selected field of engineering from the partnering engineering school.

Courses prerequisite to an engineering school program are available in areas of mathematics, physics, chemistry, computer programming, and engineering. There are few significant differences in courses taken in the first two years of undergraduate study toward any type of engineering field. All pre-engineering students take mathematics, physics, and chemistry courses, along with a seminar introducing them to the various fields of engineering and to the work of engineers.
Pre-Professional Programs
Contact the 3-2 advisor in the Department of Physics for program specifics.

3-2 Liberal Arts – Engineering Program (Pre-Engineering)
CHEM 109 General Chemistry for Engineers (4 credits)

or

CHEM 111 General Chemistry I (4 credits)
CISC 130 Intro to Programming and Problem Solving in the Sciences (4 credits)
ENGR 150 Introduction to Engineering (1 credit)
MATH 113 Calculus I (4 credits)
MATH 114 Calculus II (4 credits)
MATH 200 Multi-Variable Calculus (4 credits)
MATH 210 Introduction to Differential Equations and Systems (4 credits)
PHYS 111 Introduction to Classical Physics I (4 credits)
PHYS 112 Introduction to Classical Physics II (4 credits)
At least three additional courses are required, which will depend upon the field of engineering.
Students must discuss their program with the 3-2 advisor. Each student, field, and school has different needs and requirements.

Pre-Health Professions
Cross-College Program

Medically oriented professional schools recognize the desirability of a broad liberal education that includes a strong foundation in the natural sciences (biology, chemistry, physics, and mathematics), well developed communication skills, and a background in the social sciences and humanities. The common curriculum of St. Thomas’ liberal arts and sciences program incorporates courses that provide all of these perspectives.

Students interested in health-related careers will need to declare a major as well as take specific courses required for admission to the professional graduate programs of their choice. Courses for selected areas of study are shown below. The Office of Academic Counseling provides resource and support to students in choosing specific coursework necessary to meet professional school admission requirements and understanding procedures.

Pre-dentistry
Most schools of dentistry require a minimum of three years of college coursework prior to admission to their programs. However, the majority of first-year dental students complete four or more years of college.
Specifically required or highly recommended courses vary from one dental school to another. Most dental schools require study in each of the following subjects:
- two semesters of biology
- two semesters of general chemistry
- two semesters of organic chemistry
- one semester of biochemistry
- two semesters of physics
- two semesters of English
- one semester of psychology
- college algebra, pre-calculus, computer science or statistics

Pre-medicine
Most medical schools require a baccalaureate degree before entrance into their programs.
Two semesters of study in each of the following subjects are required for admission to most medical schools:
- Biology
- General Chemistry
- Organic Chemistry
- Physics
- English

Medical schools generally do not require a specific undergraduate major. In addition, courses in the following subjects are highly recommended:
- Biochemistry
- Ethics
- Genetics
- Psychology
Pre-Professional Programs

Pre-pharmacy
Required courses vary from one school to another, and students are encouraged to research various programs early in their undergraduate program. Most Pharm D. programs require completion of the following courses:
- one semester of biology
- two semesters of anatomy and physiology
- one semester of microbiology
- two semesters of general chemistry
- two semesters of organic chemistry
- two semesters of physics
- one semester of calculus
- two semesters of behavioral science
- two semesters of English
- one semester of economics
- one semester of public speaking

Pre-veterinary
Required courses vary from one school to another, and students are encouraged to research various programs early in their undergraduate program. Most veterinary programs require completion of the following coursework:
- two semesters of biology
- two semesters of general chemistry
- one semester of organic chemistry
- one semester of biochemistry
- one semester of mathematics
- two semesters of physics
- one semester of genetics
- one semester of microbiology
- two semesters of English
Four courses from history and social sciences, arts and humanities are also typically required. No more than two of these courses should be from one single department.

Pre-Physical Therapy
Required courses vary from one school to another, and students are encouraged to research various programs early in their undergraduate program. Typical requirements include:
- two semesters of biology
- two semesters of general chemistry
- two semesters of physics
- two semesters of psychology
- one semester of statistics
- two semesters of college mathematics or one semester of calculus
Other specific coursework and experiential learning are required by many programs

Other Pre-Health Professions
Many courses are offered at St. Thomas to prepare students for admission to the following health professional schools: chiropractic, occupational therapy, optometry, osteopathic medicine, physical therapy, physician assistant, podiatric medicine, and public health. Students are encouraged to research the programs at each professional school and to seek the guidance of a representative from the Office of Academic Counseling.
Pre-Professional Programs

Pre-Law
Cross-College Program
Hatting (POLS) and Marsnik (BLAW) advisers

The best preparation for the study of law is a rigorous undergraduate program that combines depth of study in a major field with breadth of study in the liberal arts. The only true criterion for choice of a major is that it challenge the student's intellectual capabilities. Regardless of major, pre-law students should include as wide a selection of the following courses, listed alphabetically by departmental designation, as their degree program allows. Each is beneficial for:

A. Increasing the student's knowledge of law
BLAW 301 Legal Environment of Business (4 credits)
BLAW 303 International Business Law (4 credits)
BLAW 304 Real Estate Law (4 credits)
BLAW 351 Environmental Law (4 credits)
BLAW 352 Gender Issues and the Law (4 credits)
BLAW 353 Employment and Labor Law (4 credits)
BLAW 401 Legal Research, Advocacy, and Dispute Resolution (4 credits)
BLAW 403 Marketing Law (4 credits)
COJO 336 Media Law (4 credits)
ECON 321 Law and Economics (4 credits)
ECON 332 Industrial Organization (4 credits)
HIST 365 U.S. Constitutional History (4 credits)
POLS 205 Introduction to the American Public Policy Process (4 credits)
POLS 311 Political Trials (4 credits)
POLS 312 Judicial Process (4 credits)
POLS 313 Constitutional Law and Politics (4 credits)
POLS 314 Constitutional Rights and Liberties (4 credits)
POLS 326 International Law and Organizations (4 credits)
POLS 414 Seminar in Law and Judicial Politics (4 credits)

B. Fostering critical thinking about society
ENGL 402 Writing Literary Nonfiction (4 credits)
PHIL 357 Political Philosophy (4 credits)
PHIL 359 Philosophy of Law (4 credits)
POLS 373 Political Thought from Marx to the Present (4 credits)
POLS 375 American Political Thought (4 credits)

C. Providing useful skills and improving analytical ability
ACCT 210 Introduction to Financial Accounting (4 credits)
ACCT 215 Managerial Accounting (4 credits)
COJO 100 Public Speaking (4 credits)
COJO 276 Argumentation and Advocacy (4 credits)
COJO 366 Persuasion (4 credits)
ECON 251 Principles of Macroeconomics (4 credits)
ECON 252 Principles of Microeconomics (4 credits)
ECON 355 Game Theory (4 credits)
ENGL 251 Writing in the Academy (4 credits)
ENGL 252 Writing Nonfiction Prose (4 credits)
ENGL 304 Analytical and Persuasive Writing (4 credits)
MATH 101 Finite Mathematics (4 credits) or MATH 113 Calculus I (4 credits)
PHIL 220 Logic (4 credits)
The courses and programs offered by the Department of Psychology are meant to be a part of a liberal arts education, teaching the basic principles and theory of psychology, the scientific study of human behavior, mental processes, and emotions. The psychology programs are designed to prepare students with the analytical and technical skills necessary for graduate study in psychology and for careers in human services and other occupations for which a psychology background is valuable. Courses are offered that introduce psychology to non-majors, enabling students to make practical applications of psychology to their own lives.

Students who graduate with a major in psychology will be able to produce a research paper written in accordance with American Psychological Association (APA) guidelines. They will be trained in those research and statistical skills frequently employed in the field of psychology. They will be able to complete an independent research project, and write a synthesis of the psychological literature in an area of psychological interest.

Students majoring in psychology must successfully complete a minimum of twenty-four credits in psychology at St. Thomas. Students minoring in psychology must successfully complete a minimum of 12 credits in psychology at St. Thomas. All courses counting toward the major or the minor must be graded using the regular (letter) grading system.

The department also offers General Psychology (PSYC 111) for students to fulfill the Social Analysis component of the core curriculum.

**Psychology Honor Societies**

Psi Chi, the National Honor Society in psychology, was founded in 1929 for the purpose of encouraging, stimulating, and maintaining excellence in scholarship and advancing the science of psychology. The St. Thomas chapter was established in 1997. Students who have a grade point average of at least 3.00 in psychology, rank in the highest 35 percent of their class, and who have completed at least three semesters of college coursework, including nine hours in psychology, are eligible to apply for membership.

Nu Rho Psi, the national Neuroscience Honor Society encourages professional interest and excellence in scholarship, particularly in neuroscience. The St. Thomas chapter was established in 2007. Students who have a 3.2 or higher overall grade point average and a 3.5 or higher grade point average in specific neuroscience courses are eligible to apply. For more information, go to http://www.stthomas.edu/neuroscience/clubs/default.html.

The Department of Psychology also recognizes selected students each year for outstanding research, service, and academic achievements.

**Major in Psychology**

- PSYC 111 General Psychology (4 credits)
- PSYC 212 Research Methods in Psychology (4 credits)
- PSYC 422 History and Systems (4 credits) (to be taken during the senior year)

Plus eight additional courses:
- At least one from each perspective
- Four of the eight must be 300/400 level
- Two must be lab courses (lab courses are italicized below; 212 is a prerequisite for all lab courses)

**Perspective-Based Courses**

**BIOLOGICAL**
- PSYC 206 Brain and Human Behavior
- PSYC 207 Alcohol, Other Drugs, and Behavior
- PSYC 322 Sensation and Perception
- PSYC 401 Physiological Psychology

**COGNITIVE**
- PSYC 315 Cognition
- PSYC 323 Psychology of Learning and Memory
- PSYC 400 Seminar in Cognition
- PSYC 415 Research Issues in Cognition

**SOCIAL**
- PSYC 121 Social Psychology
**Psychology (PSYC)**

PSYC 151 Cross-Cultural Psychology  
PSYC 321 Research Issues in Social Psychology  

**DEVELOPMENTAL**  
PSYC 200 Infancy and Childhood  
PSYC 202 Lifespan Development  
PSYC 203 Psychology of Adolescence  
PSYC 204 Adulthood and Aging  
PSYC 402 Developmental Psychology Research  

**CLINICAL**  
PSYC 301 Psychopathology  
PSYC 302 Personality Theories  
PSYC 313 Psychological Testing  
PSYC 428 Counseling and Psychotherapy  

**ELECTIVE COURSES**  
PSYC 205 Psychology of Women  
PSYC 250 Positive Psychology  
PSYC 288 Psychology of Marriage and Family  
PSYC 308 Motivation and Emotion  
PSYC 342 Industrial/Organizational Psychology  
PSYC 365 Health Psychology  

**Allied requirements**  
All of the following or an adequate substitute approved by the chair:  
BIOL 101 General Biology (4 credits) or BIOL 105 Human Biology (4 credits) or BIOL 106 Women, Medicine and Biology (4 credits) or BIOL 207 Genetics, Ecology, and Evolution (4 credits)  

*Plus:*  
MATH 101 Finite Mathematics (4 credits)  
(or MATH 108-109, 111 or 113; students should take highest level for which eligible)  
STAT 220 Statistics I (4 credits)  

Students should take the following courses in the following order:  
MATH 101 (or MATH 108-109 or 111 or 113)  
STAT 220  
PSYC 212  

*Note:* These courses should be taken early in the college career, since they are prerequisites for some required courses in psychology. A student should consult early with her/his department adviser to have her/his plan approved.  

**Teacher Licensure**  
Elementary Education with a Specialty in Social Studies (5-8)  
Co-major in Social Studies (5-12) and a Co-major in Secondary Education  

*See Education*  

**Minor in Psychology**  
PSYC 111 General Psychology (4 credits)  

*Plus eight credits from the following:*  
PSYC 121 Social Psychology (4 credits)  
PSYC 151 Cross-Cultural Psychology (4 credits)  
PSYC 200 Psychology of Infancy and Childhood (4 credits)  
PSYC 202 Lifespan Development (4 credits) (students may not receive credit for both 202 and 200)  
PSYC 203 Psychology of Adolescence (4 credits)  
PSYC 204 The Psychology of Adulthood and Aging (4 credits)  
PSYC 205 Psychology of Women (4 credits)  
PSYC 206 The Brain and Human Behavior (4 credits)  
PSYC 207 Alcohol, Other Drugs and Behavior (4 credits)
PSYC 212 Research Methods in Psychology (4 credits)
PSYC 288 Psychology of Marriage and the Family (4 credits)

Plus eight credits from the following:
PSYC 301 Psychopathology (4 credits)
PSYC 302 Personality Theories (4 credits)
PSYC 308 Motivation and Emotion (4 credits)
PSYC 313 Psychological Testing (4 credits)
PSYC 315 Cognition (4 credits)
PSYC 321 Current Research Issues in Social Psychology (4 credits)
PSYC 322 Sensation and Perception (4 credits)
PSYC 323 Learning and Memory (4 credits)
PSYC 342 Psychology and Work (4 credits)
PSYC 400 Seminar in Cognitive and Language Development (4 credits)
PSYC 401 Physiological Psychology (4 credits)
PSYC 415 Research Issues in Cognition (4 credits)
PSYC 422 History and Systems (4 credits)
PSYC 428 Theories of Counseling and Psychotherapy (4 credits)

Students should consult early with a department adviser to have their plan approved.

PSYC 111 General Psychology (4 credits)
An introduction to the research questions, concepts, theories, methods, and findings of psychological science. Although the selection varies with instructor, topics include brain function, psychological testing, sensation and perception, cognition (learning, memory, language), states of consciousness, motivation, human development, personality, origins and treatment of disorders, social behavior, stress and health, and applied psychology (workplace, community, environment). This course fulfills the Social Analysis requirement in the core curriculum.

PSYC 121 Social Psychology (4 credits)
This is an introduction to the field of social psychology, which examines how an individual’s thoughts, feelings, and behaviors are influenced by the social context. The course covers such topics as conformity, persuasion, stereotypes and prejudice, love and relationships, helping behavior and altruism, aggressions, the self-concept, and group dynamics.
Prerequisite: PSYC 111

PSYC 151 Cross-Cultural Psychology (4 credits)
This course is designed to cover the issues and themes current in the field of cross-cultural psychology. Examples of such issues include: cultural variation along the lines of collectivism and individualism; psychological principles that might be universal compared to those that are culturally specific; how content and context affect psychological functioning, and variation within as well as between cultures. A range of substantive areas within psychology will be examined, including social, developmental, organizational, cognitive, health psychology, and psychology of emotion. Examples will be drawn from a range of non-Western cultures (e.g., Japan, India, Liberia) as well as various cultures within the United States (e.g., African-American, Hispanic, American Indian). Emphasis will be placed on how Western and non-Western cultures differ from each other, on how non-Western cultures differ from each other, and on how intra-cultural variation also plays important roles in psychological functioning. This course fulfills the Human Diversity requirement in the core curriculum.
Prerequisite: PSYC 111

PSYC 200 Psychology of Infancy and Childhood (4 credits) (PSYC 202)
An introduction to issues and theories of development dealing with infancy, toddlerhood, and early and middle childhood. The course reviews the principles, theories, research and application of cognitive, emotional, personality, social and physical development. Also examined is how children develop the knowledge, skills, and personality characteristics that allow them to become successful adults as well as how differences among children come about.
Prerequisite: PSYC 111
NOTE: Students who receive credit for PSYC 200 may not receive credit for PSYC 202.

PSYC 202 Lifespan Development (4 credits) (PSYC 200)
An introduction to developmental principles and theories throughout the lifespan. The course also includes research, application and the interplay among the physical, emotional, social and intellectual variables in the process of growth and development. Also examined is how individuals develop the knowledge, skills, and personality characteristics that allow them to become successful later in life as well as how differences among individuals come about.
Prerequisite: PSYC 111
NOTE: Students who receive credit for PSYC 202 may not receive credit for PSYC 200 or 204.
Psychology (PSYC)

PSYC 203 Psychology of Adolescence (4 credits)
An introduction to issues and theories of development dealing with adolescence. The course reviews the principles, theories, research and application of cognitive, emotional, personality, social and physical development. Also examined is how adolescents develop the knowledge, skills, and personality characteristics that allow them to become successful adults as well as how differences among teens come about.
Prerequisite: PSYC 111

PSYC 204 The Psychology of Adulthood and Aging (4 credits)
Theories of and research in physical, emotional, social, personality and intellectual development in adulthood and in old age. This course will emphasize the psychological adjustment to the stresses and demands (e.g., vocation, marriage, retirement, bereavement) the individual encounters during those developmental stages.
Prerequisite: PSYC 111
NOTE: Students who receive credit for PSYC 204 may not receive credit for PSYC 202.

PSYC 205 Psychology of Women (4 credits)
An examination of physiological, experiential, and social factors affecting the psychological development of women and their status as adults. Addresses diversity among women and how factors such as class and race intersect with historical and contemporary gender inequalities in women’s lives. Topics include: biological and social influences on the development of gender, research on sex-related differences in psychological traits and cognitive abilities, media images and stereotypes of women, close relationships and sexuality, mothering, employment, aging, violence against women, and psychological health. This course fulfills the Human Diversity requirement in the core curriculum
Prerequisite: PSYC 111

PSYC 206 The Brain and Human Behavior (4 credits)
An examination of brain systems that subserve human behavior. Topics include: human development, consciousness, social behavior, cognition, emotion and abnormal behavior.
Prerequisite: PSYC 111

PSYC 207 Alcohol, Other Drugs and Behavior (4 credits)
The course surveys some basic facts and principles of administration, absorption, transport, action, deactivation and elimination of drugs. Various classes of drugs; their effects on mood, behavior, and consciousness; their use and misuse; and phenomena of chemical dependency and its treatment modalities are discussed. Lectures, readings, films, tapes and invited speakers are employed.
Prerequisite: PSYC 111

PSYC 212 Research Methods in Psychology (4 credits)
This laboratory course focuses on research designs and problems, with emphasis on operationalization of concepts, development of hypotheses, specific research designs, sources of error, literature reviews, data collection, data analysis and use of APA format.
Prerequisites: PSYC 111 and STAT 220

PSYC 250 Positive Psychology (4 credits)
This course explores current research on positive emotions, well-being, positive thinking, character strengths, virtues, values, wellness, resilience, positive relationships, and aspects of institutions (family, school, business, etc.) that cultivate positive experiences for their members. In addition to examining research on these topics, students will be expected to engage in positive psychology exercises related to the recognition of their own character strengths and the cultivation of gratitude.
Prerequisite: PSYC 111

PSYC 288 Psychology of Marriage and the Family (4 credits)
An examination of the psychological concepts, issues, challenges and changes relevant to marriage and family today. Topics include intimacy, liking and loving, power and control, gender, marriage and family therapy, and the psychological effects of marriage vs. non-marriage, divorce, and various parenting styles.
Prerequisites: PSYC 111 and junior standing or permission of the instructor

PSYC 295, 296 Topics (2 credits)
PSYC 297, 298 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.
PSYC 301 Psychopathology (4 credits)
This course sets forth a framework for understanding abnormal or maladaptive behavior. It will investigate specific diagnostic categories (such as depression and schizophrenia), causal factors and treatments of these maladaptive patterns.
Prerequisites: PSYC 111 and junior standing

PSYC 302 Personality Theories (4 credits)
A review of major theories of personality, including psychoanalytic, behavioristic, humanistic and trait-factor approaches.
Prerequisite: PSYC 111

PSYC 308 Motivation and Emotion (4 credits)
Survey of research and theories related to specific motives (such as hunger and thirst) as well as approaches to emotional states such as anger, happiness and sadness. Relevant research will be drawn from both the social and physiological branches of psychology.
Prerequisites: PSYC 111 and junior standing

PSYC 313 Psychological Testing (4 credits)
This course provides an overview of the principles of testing and measurement, particularly as they relate to the practice of psychology and education. The course examines the theories underlying individual and group-administered tests in such areas as intelligence, aptitude, achievement, interests, personality, neuropsychological and educational tests. Various controversial issues in the field of testing will also be addressed including ethics, bias, computer-based assessment, and testing of special populations. Counts toward fulfilling the Psychology major lab course requirement.
Prerequisite: PSYC 212

PSYC 315 Cognition (4 credits)
This course will provide an overview of cognitive processes, the processes that collectively comprise what is commonly termed “thinking.” Topics discussed will include perception, attention, remembering, language, problem solving, reasoning, and social cognition. The course will focus on how these processes operate in everyday situations, as well as empirical (laboratory) investigations of these processes. Connections between cognitive psychology and other areas of psychology (e.g., clinical, biological) will also be discussed.
Prerequisite: PSYC 111

PSYC 321 Current Research Issues in Social Psychology (4 credits)
This laboratory course provides hands-on experience in the design, implementation, and presentation of a social psychology experiment. Class readings and discussion introduce social psychological research, link classic social psychological research to current social issues, and teach students to do what social psychology researchers do.
Prerequisites: PSYC 212

PSYC 322 Sensation and Perception (4 credits)
This laboratory course includes discussion of the structure and function of sensory systems, the information that these systems provide the brain, and the subsequent interpretation of sensory information that we call perception. The course focuses on visual perception (e.g., brightness, color, form, depth, movement, constancy, illusions) and auditory perception (e.g., detection, discrimination, loudness, pitch) and incorporates art and music.
Prerequisite: PSYC 212

PSYC 323 Learning and Memory (4 credits)
In this laboratory course basic concepts involved in simple associative learning are presented, along with theoretical and applied concerns. The analysis and modification of animal and human behavior by means of classical and instrumental conditioning are discussed. The course also will trace the history of the study of learning from its roots in philosophy to the current cognitive approach.
Prerequisite: PSYC 212

PSYC 342 Psychology and Work (4 credits)
This course presents basic concepts of psychology as they apply everyday in the workplace. Topics to be covered include measurement and its applications in the workplace (e.g., personnel decisions and performance appraisals), worker training, worker attitudes and motivation, worker adjustment, health and safety, leadership, communication and group behavior and development of the organization.
Prerequisites: PSYC 111 and junior standing

PSYC 365 Health Psychology (4 credits)
This survey course will examine the contributions of psychological research to the understanding, prevention, and treatment of a variety of health concerns. This course will employ a biopsychosocial model, which means we will study how social, emotional, behavioral, biological, and spiritual factors influence health. The specific topics include injury, stress, pain management, addictions, sleep, patient-physician relations, and chronic illnesses such as Alzheimer’s, diabetes, and AIDS.
Psychology (PSYC)

Prerequisite: PSYC 111

PSYC 400 Seminar in Cognitive and Language Development (4 credits)
Current theory and research in a specific topic related to cognition. Topics will vary, but will include in-depth coverage of specific topics related to thinking and consciousness. Sample topics include (but will not be limited to) specific aspects of consciousness (e.g. Sleep and Cognition), memory (e.g. eyewitness memory or memory distortion), social cognition (e.g. stereotyping), developmental cognition (e.g. language development), cognitive neuroscience (e.g. brain mechanisms underlying attention), comparative cognition (e.g. animal language), and applied cognition (e.g. human-computer interaction).
Prerequisites: PSYC 111 and one additional PSYC course or permission of the instructor

PSYC 401 Physiological Psychology (4 credits)
This laboratory course includes study of the brain, its function and its control of behavior. Neuroanatomical, neurophysiological, and biochemical substrates of behaviors associated with feeding, drinking, sex, sleep, arousal, emotion, learning and memory are examined.
Prerequisites: PSYC 212; PSYC 206 or PSYC 322; and BIOL 101 or equivalent

PSYC 402 Developmental Psychology Research (4 credits)
This laboratory course presents methods and designs in developmental research methodology. The course examines observational, experimental and quasi-experimental research as well as analyses, ethics, and other core issues in developmental psychology.
Prerequisites: PSYC 200 or 202; and PSYC 212

PSYC 407 Seminar in Behavioral Neuroscience (4 credits)
Analysis and discussion of selected theories and new research concerning brain mechanisms that subserve behavior. Advances in methodology and instrumentation also will be examined.
Prerequisite: PSYC 401

PSYC 415 Research Issues in Cognition (4 credits)
This laboratory course explores research issues in cognitive psychology, with special emphasis on cognitive psychology methodology, current research issues, hands-on research, and discussion/analysis of primary research sources. Specific topics covered each semester may vary slightly. Examples of topics include: subliminal perception; automatic processing; implicit memory; eyewitness testimony; memory reconstruction; expertise and problem solving; the use of heuristics in decision making; person memory.
Prerequisites: PSYC 212

PSYC 422 History and Systems (4 credits)
This course explores how contemporary psychology developed from its remote and more recent roots. It emphasizes the contributions, contributors and perennial issues that led to psychology today and that could help to fashion its future.
Prerequisites: Senior standing and must be major in Psychology.

PSYC 428 Theories of Counseling and Psychotherapy (4 credits)
Theories and procedures of counseling and psychotherapy are discussed, including psychoanalysis, client-centered therapy, cognitive therapy, behavior therapy, and others.
Prerequisites: PSYC 301 and three psychology courses or permission of the instructor

PSYC 475, 476 Experiential Learning (2 credits)
PSYC 477, 478 Experiential Learning (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

PSYC 483, 484 Seminar (2 credits)
PSYC 485, 486 Seminar (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

PSYC 487, 488 Topics (2 credits)
PSYC 489, 490 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online,
https://banner.stthomas.edu/pls/banner/prod/bwckschd.

PSYC 269, 389, 491 Research (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.
Renaissance Program
College of Arts and Sciences, Interdisciplinary Program
John Roach Center for the Liberal Arts (JRC) 323, (651) 962-5693
MacKenzie (ENGL), director

The Renaissance Program is an interdisciplinary minor which provides students the opportunity to combine the distinct learning experiences of a concentration in a liberal or non-business related field with exposure to career-related studies and significant work experience. It is designed for students majoring in the liberal arts who want preparation for their career search.

Students who minor in the Renaissance Program elect a major field of study from any of the liberal arts disciplines — that is, from the humanities, social sciences, natural sciences and the like. Students who major in any of the Business fields or in Health and Human Performance are not eligible for the program.

The program’s requirements consist of coursework and an internship. Students choose a set of six courses (detailed below) from a broad range of pre-professional and professional areas. In their senior year, students take IDSC 333 Renaissance Program Studies, a capstone seminar that brings together the perspectives of economics, business, and the liberal arts. Students also complete an internship in a career-related field. A variety of options and opportunities are available through the Career Center; students are encouraged to be creative and to search for inventive ways of implementing a plan of practical work experience.

As part of its commitment to Renaissance Program students, the University of St. Thomas extends to graduates of the program the opportunity to take undergraduate business courses tuition-free, on a space-available basis. There is no limit on the number of such courses the student may take. Students may take these courses either for credit or as audits, but may not use the courses toward a major or minor in business.

Application for admission is made through the Renaissance Program director’s office, currently in the Department of English. Application should normally take place during the second semester of the sophomore year, but may occur later.

Renaissance Program Professional Minor

Four credits from the following:
ECON 251 Principles of Macroeconomics (4 credits)
ECON 252 Principles of Microeconomics (4 credits)

Note: Other courses from the Department of Economics may be acceptable if the necessary prerequisites have been met, and on the approval of the director of the Renaissance Program.

Plus four credits from the following:
CISC 130 Introduction to Programming and Problem-Solving Sciences (4 credits)
CISC 200 Introduction to Computer Business and Technical Applications (4 credits)
STAT 220 Statistics I (4 credits)

Note: Other courses from the Department of CISC may be acceptable if the necessary prerequisites have been met, and on the approval of the director of the Renaissance Program.

Plus twelve credits from the following:
ACCT 210 Introduction to Financial Accounting (4 credits)
ACCT 215 Managerial Accounting (4 credits)
BLAW 301 Legal Environment of Business (4 credits)
FINC 300 Finance for Non-Business Majors (4 credits)
MGMT 305 Management and Organizational Behavior (4 credits)
MKTG 300 Principles of Marketing (4 credits)

Note: Other courses from the College of Business may be acceptable if the necessary prerequisites have been met, and on the approval of the director of the Renaissance Program.

Plus:
IDSC 330 Renaissance Program Internship (0 credit)
IDSC 333 Renaissance Program Studies (4 credits)

Note: Another course that integrates themes involving the relation between the liberal arts and the world of work may be
Social Sciences
acceptable provided the necessary prerequisites have been met, and on the approval of the director of the Renaissance Program.

SOCIAL SCIENCES
College of Arts and Sciences, Interdisciplinary Program
O’Shaughnessy Education Center (OEC) 428, (651) 962-5686
Papagapitos (ECON), Cory (HIST), Hoffman (POL), Waldner (SOCI), advisers

The major in the social sciences is intended for the liberal arts student who wishes to become familiar with the perspective of the four disciplines traditionally defined as the social sciences – economics, history, political science, and sociology & criminal justice – and who wishes at the same time to study more intensively one of those disciplines. In requiring both introductory and advanced courses in each of the disciplines, irrespective of the area of concentration, the major provides both opportunity and challenge for the student seriously interested in understanding the order, structure and interrelationships involved in human behavior.

Major in Social Sciences
Either:
HIST 111 Origins of the Modern World to 1550 (4 credits) and HIST 112 The Modern World Since 1550 (4 credits)
or
HIST 113 Early America in Global Perspective (4 credits) and HIST 114 The Modern U.S. in Global Perspective (4 credits)

Plus:
ECON 251 Principles of Macroeconomics (4 credits)
ECON 252 Principles of Microeconomics (4 credits)
ECON - One additional course in economics numbered above 300
HIST - One history course numbered above 300
POLS 104 American Government in Comparative Perspective (4 credits)
POLS - Two additional political science courses
SOCI 100 Introduction to Sociology (4 credits)
SOCI 210 Research Methods in Sociology (4 credits)
SOCI - One additional sociology course numbered above 300

Plus:
Twelve additional credits in courses numbered above 300 from one of the following departments: Economics, History, Political Science, or Sociology & Criminal Justice. The choice of these courses is subject to the approval of the department involved.

Plus four credits from the following:
STAT 220 Statistics I (4 credits)
MATH 101 Finite Mathematics (4 credits)
MATH 111 Calculus for Business and Social Science (4 credits)
MATH 113 Calculus I (4 credits)

SOCIAL WORK (SOWK) - SCHOOL OF SOCIAL WORK
School of Social Work
Summit Classroom Building 201, (651) 962-5800
Shank (dean), Baboila, Bauer, Brenden, Carlson, Caron, Chovanec, Dhanju, Ferguson, Fletcher, Garrett, Graham, Hill, Hollidge, Hurley-Johncox, Husebo, Itzkowitz, Kiesel, Kuechler, Marrs Fuschel, Nesmith, Peterson, Richardson, Roseborough, Solomonson, Sy, Toft, Vang, Winkler

Your spark of idealism, belief in social justice and love of working with people, together with a degree from our accredited social work program, will prepare you for one of the fastest growing careers of the future. At St. Thomas, you’ll acquire professional knowledge, values and skills that will empower you for a challenging and rewarding career in social work.

St. Thomas’ social work program prepares students for work in a wide range of settings. Recent graduates have been hired in such diverse places as hospitals, community centers, human services departments, public schools, women’s shelters, nursing homes and mental health centers. Other graduates find work in private industry, group homes, chemical dependency programs, programs for the elderly, and privately supported family and children’s agencies.
The social work major is a joint offering of St. Catherine University and the University of St. Thomas. The curriculum is rooted in a philosophy of social responsibility and respect for individual's rights. Drawing from the Judeo-Christian traditions of social caring, we prepare students to use social work knowledge, values and skills to demonstrate the intrinsic value of all humankind as they serve those in need and promote social justice and human rights. Rooted in educational justice and community engagement, our program prepares generalist social workers committed to professional ethics and values, service, social justice and human rights. Our comprehensive program integrates theory, research, fieldwork and personal growth components. As a social work major, you’ll also take courses in human biology, introduction to sociology, general psychology, and lifespan developmental psychology.

Courses in the social work major will prepare you for beginning level social work and for graduate study. The program is accredited by the Council on Social Work Education at the baccalaureate level and qualifies graduates to take the examination for licensure at the licensed social worker level.

You will expand your knowledge of social work beyond the boundaries of the classroom by completing a fieldwork practicum. During your junior and senior years, you will complete 600 hours of fieldwork, giving you the opportunity for hands-on experience in a variety of settings. Approximately 50 social service agencies come to campus to interview students for fieldwork placements, and nearly 80 percent of our students receive their first choice for fieldwork. Local agencies, such as the Wilder Child Guidance Center, Catholic Charities, Shriners Hospital, the American Red Cross and the St. Paul and Minneapolis Public Schools will be potential sites for you to apply theory to real-life situations.

The fieldwork experience also gives you the opportunity to explore your perspectives about people and the challenges and potential they bring to a social service agency. These experiences will complement your academic work through integration of theory and practice. With this excellent on-the-job training and meaningful course work, nearly 80 percent of St. Thomas’ social work graduates secure positions in their field within six months of graduation.

The School of Social Work includes 30 St. Kate’s and St. Thomas faculty who are known for their teaching excellence and scholarship and are eager to lend their expertise concerning academic and professional issues. Our faculty members hold leadership positions in local, regional and national professional organizations and have expertise in areas such as medical social work, school social work, social policy, child welfare, AIDS and international social work. Your professors will enthusiastically challenge you and encourage your reach your full potential.

The School of Social Work has been recognized as a national leader for its strong commitment to social justice. Social Work for Social Justice: Ten Principles, developed by the program and used in the baccalaureate and graduate programs, have been adopted by programs across the country. The social work program also has an active Social Work Club and Honor Society, Phi Alpha.

The social work program requires students to be formally admitted to the major. This process takes place in February of the junior year. Prospective majors must have a grade point average of 2.25 and must be interviewed by the School of Social Work faculty.

The program described below is accredited by the Council on Social Work Education at the baccalaureate level and qualifies graduates to take the Minnesota Board of Social Work examination for State of Minnesota licensure at the licensed social worker level.

Social Work Honor Society
Beta Epsilon, the campus chapter of Phi Alpha National Social Work Honor Society, was established at the University of St. Thomas and St. Catherine University in 2002. The purpose of this organization is to advance excellence in social work practice and to encourage, stimulate and maintain scholarship of the individual members.

As a social work major, you are eligible for membership after achieving a junior or senior standing, earning a minimum of six semester hours or equivalent in social work, achieving an overall grade point average of 3.25 or above, and a social work grade point average of 3.50 or above.

International Study
As a social work student you will have an opportunity to study in Mexico in the spring semester of your junior year. This semester-long program will enable you to take all required social work courses as well as study Spanish.

Major in Social Work
SOWK 281 Introduction to Social Work (4 credits)
SOWK 340 Human Behavior and the Social Environment (4 credits)
SOWK 355 Communication and Interviewing Skills (4 credits)
SOWK 375 and 376 or 378 Junior Fieldwork in Social Work (4 credits)(only for students studying abroad fall or spring semester)
SOWK 380 Social Work Research (4 credits)
**Social Work (SOWK) - School of Social Work**

SOWK 385 Group Work Skills (4 credits)
SOWK 391 Social Policy for Social Change (4 credits)
SOWK 401 Generalist Practice I: Small Client Systems (4 credits)
SOWK 402 Generalist Practice II: Large Client Systems (4 credits)
SOWK 405 and 406 Senior Fieldwork in Social Work (4 credits each)

**Allied requirements**

- BIOL 105 Human Biology (4 credits) or BIOL 1120C Biology of Women (4 credits)
- PSYC 111 General Psychology (4 credits)
- PSYC 202 Lifespan Development (4 credits)
- SOCI 100 Introduction to Sociology (4 credits)

**Required Fieldwork Experience**

These experiences, arranged by the School of Social Work, provide practical learning in social work agencies, institutions and, or departments to complement your academic work through integration of theory and practice.

**Junior year:**

Two semesters of approximately eight to ten hours per week off campus field work totaling 200 hours, plus weekly seminar groups on campus. As a social work student, contact your social work adviser or program director during the second semester of sophomore year to discuss the placement process.

**Senior year:**

Two semesters of approximately 15-20 hours per week off campus field work totaling 400 hours, plus bi-weekly seminar groups on campus.

**Elective courses**

Electives are updated frequently. Visit www.stthomas.edu/socialwork/undergraduate/curriculum/default.html for a current list of electives.

- CDC 3000C Introduction to Chemical Dependency (4 credits)
- CDC 3050C Chemical Dependency and the Family (4 credits)
- IDSC 291T/INDI 2910C The Anatomy of Violence (4 credits)
- IDSC 293T/INDI 2940C Grief, Loss and Coping (4 credits)
- INDI 499C Multi-Professional Community Work and Learning Semester Abroad – Cuernavaca, Mexico
- SOWK 2100C Relationships, Intimacy and Sexuality (4 credits)
- SOWK 390T Faith, Social Transformation and Social Work (4 credits)*
- SOWK 441T Family Resilience and Diversity
- SOWK 423T Practice with Older Adults and their Families (4 credits)
- SOWK 490T Topics: Child Welfare
  
  *Crosslisted with THEO 397 which fulfills the 300 level theology course requirement at the University of St. Thomas. You must register for the course as THEO 397 in order to get THEO credit.

SOWK 490T: Practice with Military Service Members, Veterans & their Families
SOWK 299C: Social Justice: Social Development International

**Admission Process**

The School of Social Work requires you to be formally admitted to the major. This process takes place at the middle of the junior year. As a prospective major, you must have a GPA of 2.25 and be interviewed by faculty of the school. Contact your adviser for more details.

**Minor in Social Welfare**

A minor in social welfare is available through the joint School of Social Work at St. Catherine University and the University of St. Thomas. A minor in social welfare is not accepted by the Council on Social Work Education as preparation for beginning-level generalist social work practice. A minor is offered for your own learning in the area of social welfare.

SOWK 281 Introduction to Social Work (4 credits)
SOWK 340 Human Behavior and the Social Environment (4 credits)
SOWK 391 Social Policy for Social Change (4 credits)

**Plus eight credits from the following:**

PSYC 202 Lifespan Development (4 credits)
Minor in Social Services Management

The ability to administer programs, raise funds, and write grants is increasingly important in social service and nonprofit work. The purpose of this minor is to prepare students for administrative, management, or fundraising roles with nonprofits and social service agencies. Students will be introduced to social work and social services, gain an understanding of the impact of social policies on the provision and scope of social services in the United States as well as gain tangible skills, such as fundraising, grant writing, management, program evaluation, and accounting or marketing, for work in social services management. Students will learn critical leadership skills necessary for effective management. Upon completion of the minor, students will have enhanced skills that will help to position them to be successful advocates, administrators, and managers within social service and nonprofit agencies.

Minor Objectives

- Gain a broad understanding of social work and social services in the United States
- Understand the impact of social policies and government programs on the scope of and provision of social services in the United States
- Develop marketable skills in fundraising, grant writing, leadership, evaluation, and development for nonprofit agencies and programs
- Build a strong core of business skills, knowledge, and management ethics that will enhance students' work in social service and nonprofit agencies

Required Courses:

ACCT 210 Intro to Financial Accounting (4 credits)
BUSN 200 Business Learning Through Service (0 credit)
MGMT 305 Management and Organizational Behavior (4 credits)
MKTG 300 Principles of Marketing (4 credits)
SOWK 281 Introduction to Social Work (4 credits)
SOWK 391 Social Policy for Social Change (4 credits)
SOWK 430 Development and Fundraising for Social Service Agencies

(The C designation following a course number indicates the course is offered at St. Catherine University; the T designation indicates that the course is offered at the University of St. Thomas.)

SOWK 2100C Relationships, Intimacy and Sexuality (4 credits)
This course addresses three major areas: exploring values and societal influence on relationships, intimacy and sexuality – the influence of culture, religion, family and friends; understanding self-worth, communication patterns and the effect of family and other significant relationships on the development of one's needs/wants in relationships, intimacy and sexuality; discovering the basic attributes, purposes and powers of significant relationships, intimacy and sexuality. Participation in a structured small-group discussion is required. Open to non-majors.

SOWK 2810C/281T Introduction to Social Work (4 credits)
This course introduces the student to the profession of social work within the context of the social welfare system. It provides an overview of an integrative approach to generalist social work practice which emphasizes intervention on individual, community and societal levels. Special emphasis is placed on values, human diversity, social justice and social work fields of practice. Prerequisites: SOCI 100/1000 or PSYC 111/1001

SOWK 295T, 296T Topics (2 credits)
SOWK 297T, 298T Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

SOWK 3400C/340T Human Behavior and the Social Environment (4 credits)
The primary focus of this course is to investigate how humans interact with their social environments. This is a theory-heavy course focusing on metacognition—training students to think about the way we think. The course provides students with knowledge of theories of the social environments and how they impact, as well as are impacted, by human behavior. Further, theories on human behavior are examined through the multidimensional framework constituting biological, psychological, spiritual, socio-cultural, political,
and economic factors. Emphasis is on the role of and interaction between these multiple factors at the level of various systems: the individual, family, small group, organization, community, and society, including political and economic systems. The course consists of five modules: interpersonal relations and empowerment; social systems; political and economic systems; justice; and multiculturalism. The course investigates the multiple dimensions and intersections of diversity including gender, race/ethnicity, age, religion, ability, sexual orientation, nationality, and global and international perspectives. Students leave the class with a holistic understanding of the human experience within the environments that surround them.

Prerequisite or concurrent registration: SOWK 281/2810; Prerequisites: PSYC 202/2025; BIOL 105/106/1120 or consent of the program director.

SOWK 3550C/355T Communication and Interviewing Skills (4 credits)
This course is the first of a four-course practice sequence. The primary focus is on communication theory and skills as applied to social work with individuals, families, small groups, communities and organizations. There is an emphasis on self-awareness, beginning assessment skills and diversity issues. An integrative approach to generalist social work practice provides the context for intervention on individual, environmental and societal levels.

SOWK 355/3550 is taken with SOWK 375/3750 (or 378/3780) in the fall by day students and with SOWK 3760 (or 3780) in the winter by Weekend College students. Prerequisites or concurrent registration with: SOWK 281/2810 and SOWK 340/3400 or by consent of the program director.

SOWK 3750C/375T and 3760C/376T, or 3780C/378T Junior Fieldwork in Social Work (4 credits)
Junior fieldwork complements the student’s academic work through practical experience in a social work agency, institution or department. Under the supervision of an agency field instructor, the student learns beginning social work tasks and functions while applying theory to actual social work situations. Students participate in an on-campus seminar with other junior social work majors while in placement. The placement is 10 – 12 hours per week throughout two consecutive terms (fall and spring semesters).

Prerequisite or concurrent registration with: SOWK 281/2810 or consent of the program director and concurrent with SOWK 3550C/355T.

SOWK 380T Social Work Research (4 credits)
This course fosters competence in the research skills needed for generalist social work practice. Students will gain knowledge in the steps of conducting research; practice evaluation; conducting research with vulnerable participants; locating and critically evaluating relevant research to inform practice; and evidence-based practice. They will learn values of ethical research practice, using the Belmont Report and the NASW Code of Ethics as guidelines. Particular emphasis is placed on protecting vulnerable research participants. Students will also gain skills in writing and presenting a literature review, developing a research proposal, and applying relevant research to practice.

Prerequisites: SOWK 281/2810 and junior status or consent of the program director.

SOWK 3850C/385T Group Work Skills (4 credits)
This course is the second of the four-course practice sequence. The primary focus of the course is on the study of human behavior in groups with emphasis on the use of groups in generalist social work practice to accomplish individual, family, organizational and/or community goals. This course provides experiential learning opportunities to integrate knowledge, values, and skills as both a group leader and a group member. The effects of diversity on group interaction are stressed. SOWK 385/3850 is taken with 376/3760 (or 378/3780) in the spring semester.

Prerequisite: SOWK 355/3550 or consent of the Program Director.

SOWK 390T Faith, Social Transformation and Social Work (4 credits)
There are strong ties between the profession of social work and Christian social morality. Social workers promote social change, healthy human relationships and the enhancement of personal well-being. Many social workers see their work as a vocation. They are often moved to join the profession and are motivated in profession by spiritual beliefs. Christian social ethics affirms these goals. This course will explore the ties and the tensions between social work, social transformation and Christian ethics.

SOWK 3910C/391T Social Policy for Social Change (4 credits)
This course equips students to understand and critically analyze current and past social policies. Policy alternatives are explored with a focus on the values and attitudes as well as the societal, economic and political dynamics from which they originate. Roles and responsibilities of citizens and professionals in formulating and implementing policies responsive to actual social needs are addressed.

Prerequisite: SOWK 281/2810 or consent of the Program Director.

SOWK 4010C/401T Generalist Practice I: Small Client Systems (4 credits)
This is the third course in the four-part practice sequence. This course prepares students for generalist social work practice with individuals, families and groups in the context of their social environments with emphasis on aspects of diversity. A primary focus is the application of social work knowledge through increased development of skills. The overall goal of the course is integration and application of the stages of the generalist social work method. SOWK 401/4010 is taken with 405/4050 in the fall by seniors.
Prerequisites: SOWK 355/3550 and SOWK 385/3850.

SOWK 4020C/402T Generalist Practice II: Large Client Systems (4 credits)
This course is a continuation of SOWK 401/4010 and the final of four courses in the practice sequence of the social work curriculum. The focus is on prevention/intervention methods-based on generalist social work knowledge that can be applied to client systems of all sizes. A special emphasis is placed on effecting planned change in groups, organizations, communities, and national and global society toward the pursuit of social justice. A combination of lecture, discussion, experiential learning, and small-group activities provides students with knowledge and skills for client advocacy and social change. SOWK 402/4020 is taken with 406/4060 in the spring semester.
Prerequisites: SOWK 401/4010.

SOWK 4050C/405T Senior Fieldwork in Social Work (4 credits)
Senior Fieldwork complements the student’s academic work through practical experiences in a social work agency, institution or department. Under the supervision of an agency field instructor, the student learns social work tasks and functions while applying theory to actual social work situations. Students participate in an on-campus seminar with other senior social work majors while in placement. The placement is approximately 15-20 hours per week throughout two consecutive terms (fall and spring semesters). Concurrent registration in SOWK 401/4010 is required.

SOWK 4060C/406T Senior Fieldwork in Social Work (4 credits)
Concurrent registration in SOWK 402/4020 is required.

SOWK 416T Child Welfare Policy (4 credits) (GRSW 516)
This course is designed to give students an overview of important topics in child welfare practice and policy. Students will be asked to examine their own values about orientations toward child welfare, children’s rights and responsibilities, the nature of maltreatment, and other issues facing the field today, as they affect diverse families. Additionally, students will be given tools to advocate for children, and an opportunity to exercise new advocacy skills.

SOWK 423T Practice with Older Adults and Families (4 credits) (GRSW 523)
This course provides an introduction to, and overview of social work knowledge, skills, and values for working with older adults and their families. Content includes an examination of theories such as: “activity theory”, “substitution theory”, “continuity theory”, “labeling theory”, “transpersonal theories”, and the “transition model” as well as the “strengths perspective and empowerment principles” as they apply to an elderly population. Students are expected to examine their own and societal attitudes about aging, risk factors of aging, the nature and limitations of gerontological social work, forces shaping the delivery system, major bio-psychological and spiritual dimensions in practice, and differential models of intervention.

SOWK 434T Practice with Military Service Members, Veterans, and Their Families (3 credits)
This course provides an introduction to and overview of military social work knowledge, skills, and values for working with service members, veterans, and their families at the foundation level. Content includes an examination of topics relevant to a foundation in military social work practice such as military culture, at-risk populations, as well as risk and resilience among deployed service members and their families. Students are expected to examine their own and societal attitudes about social work with military-impacted populations. Students will demonstrate competency through integrative, multi-level applications grounded in literature, current initiatives and resources for military-impacted populations, and current research and policy.

SOWK 441T Family Resilience and Diversity (4 credits) (GRSW 523)
This course presents a family resilience framework for therapeutic and preventative efforts with families. The resilience lens shifts perspective from viewing distressed families as damaged to seeing them as challenged, affirming their potential for repair and growth. Students develop a knowledge base of experience of diversity through the study of cultural values, life style and family structure.

SOWK 475T, 476T Experiential Learning (2 credits)
SOWK 477T, 478T Experiential Learning (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

SOWK 483T, 484T Seminar (2 credits)
SOWK 485T, 486T Seminar (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

SOWK 487T, 488T Topics (2 credits)
SOWK 489T, 490T Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses
Sociology and Criminal Justice (SOCI)

are available in the Searchable Class Schedule on Murphy Online,
https://banner.stthomas.edu/pls/banner/prod/bwckschd.

SOWK 269, 389, 491T Research (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

SOWK 243, 393, 495T Individual Study (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

SOCIETY AND CRIMINAL JUSTICE (SOCI)

College of Arts and Sciences, Department of Sociology and Criminal Justice
O'Shaughnessy Education Center (OEC) 431, (651) 962-5630
Waldner (chair), Gladney (Law Enforcement Education Coordinator), Karraker, Kinney, Smith, Bruton; Caldie, David, Goldstein, Maddox, Plesha, Schuth

Sociology is the scientific study of society and social relations. A major in sociology provides knowledge and skills applicable to careers in business, education, government, law, public health, public policy, and social service. Additionally, an undergraduate degree prepares students for graduate study in sociology and other closely related fields.

Students who graduate with a major in sociology will understand the methodological and theoretical foundations of sociology and possess skills to apply this knowledge in a practical way. They will have the opportunity to specialize in crime and criminology, family and the life course, inequalities and stratification, and work and organizations. We also offer courses with comparative perspectives on global issues such as crime, gender, and religion. The sociology curriculum reflects the breadth of the discipline, its place in the liberal arts tradition, and the application of sociological theories and methods to the critical issues and problems facing societies today.

Students who graduate with a major in criminal justice will know the main components of the criminal and juvenile justice systems and will know the basics of criminal law and criminal procedure in the U.S. justice system. They will have the tools to understand the long standing and current dilemmas faced by society in trying to develop and maintain an effective and just criminal justice system. They will be prepared for employment in the field of criminal justice, including corrections or law enforcement.

Sociology and criminal justice majors pursue graduate and professional degrees in sociology and criminology, as well as business, law, public health, public policy, social work, and other fields. The Sociology and Criminal Justice Department and faculty also provide intensive support for students who wish to engage in individual research and preparation for graduate and professional school, as well as internships and career development.

A sociology major or minor is a strong complement to studies in American culture and difference, business administration (especially human resources, management, marketing), Catholic studies, family studies, international studies, communication and journalism, geography, justice and peace studies, legal studies, political science, psychology, social sciences, social work, urban studies, and women's studies.

Sociology majors and minors are encouraged to take advantage of HECUA, study abroad, and other special learning opportunities. Specific courses may substitute for St. Thomas requirements. Students should consult with their academic adviser, the department chair, or a study abroad advisor in the International Education Center for program options. Also, see Academic Information & Programs in the front section of this catalog for more information.

Students majoring in sociology or criminal justice must take a minimum of 16 credits in sociology from St. Thomas. Sociology and criminal justice minors need a minimum of 8 sociology credits from St. Thomas.

Sociology Honor Society
The Iota Chapter of Minnesota of Alpha Kappa Delta, the international sociology honor society, was chartered at the University of St. Thomas in 1991. The purpose of the society is to promote an interest in the study of sociology, research of social problems, and such other social and intellectual activities as will lead to improvement in the human condition. Membership is open to juniors and seniors who have completed at least sixteen credits in sociology registered through the university, who are officially declared majors or minors in sociology, criminal justice, the sociology concentration of social science, or social studies and who have a minimum overall grade point average in the top 35th of their class and who have maintained a 3.0 grade point average in sociology courses taken at the University of St. Thomas.

Major in Sociology
SOCI 100 Introduction to Sociology (4 credits)
SOCI 210 Research Methods in Sociology (4 credits)
SOCI 220 Sociological Analysis (4 credits)
SOCI 350 Social Inequality: Privilege and Power (4 credits)
SOCI 370 Sociological Theory (4 credits)
Sociology and Criminal Justice (SOCI)

SOCI 474 Seminar in Sociology (4 credits)

Plus four credits from the following:
- SOCI 365 Social Psychology (4 credits)
- SOCI 366 Self and Society (4 credits)

Plus:
Twelve additional credits in Sociology (eight of which must be 300-level or higher)

Strongly recommended:
It is recommended that students take the following courses in this order:
- MATH 101 Finite Mathematics (4 credits) (or adequate substitute) in the first year
- SOCI 210 Research Methods in Sociology (4 credits)
- SOCI 220 Sociological Analysis (4 credits)

Finally, we recommend that students begin the SOCI 210/220 sequence during their sophomore year. This sequence must be completed by the end of the junior year. Students who have a double major in sociology and psychology and complete SOCI 210, PSYC 212, and STAT 220 may contact the department chair to waive SOCI 220.

Major in Criminal Justice
The program in criminal justice provides students with an understanding of the entire criminal justice system while at the same time allowing them to take specific courses in an area of special interest.

- The program emphasizes the interrelationships among the various components of the criminal justice system (e.g., law enforcement, prosecution, courts and corrections) and examines how they deal with adult offenders and juvenile delinquents.
- The major reflects the interdisciplinary nature of criminal justice. It provides a concentration of courses which prepares students for careers in such areas as policing, private security, probation, parole and corrections. It also prepares students for advanced study in criminology, criminal justice and law.

The criminal justice program at St. Thomas, in conjunction with Alexandria Technical College and Hibbing Community College, is certified by the Board of Minnesota Peace Officers Standards and Training to prepare students for the peace officer licensing examination. Students who intend to take this examination must also complete SOCI 251 and PSYC 111. Please see the department’s Law Enforcement Education Coordinator for more information on POST.

Plus:
- CJUS 342 Criminal Law and Criminal Procedure (4 credits)

Plus four credits from the following:
- CJUS 345 Police Operations (4 credits)
- CJUS 347 Correctional Practice and Administration (4 credits)
- POLS 312 Judicial Process (4 credits)
- POLS 314 Constitutional Rights and Liberties (4 credits)

Plus four credits from the following (if not taken above):
- SOCI 130 Homicide (4 credits)
- SOCI 251 Race and Ethnicity (4 credits)
- SOCI 405 Internship in Criminal Justice (4 credits)
- SOCI 498 Individualized Study (4 credits) (for in-career students only)
- IDSC 291 Anatomy of Violence (4 credits)
- PSYC 207 Alcohol, Other Drugs and Behavior (4 credits)
- PSYC 301 Psychopathology (4 credits)
- POLS 314 Constitutional Rights and Liberties (4 credits)
**Sociology and Criminal Justice (SOCl)**

**Strongly recommended:**
SOCI 251 Race and Ethnicity (4 credits)

In addition, it is recommended that students take the following courses in this order:
- MATH 101 Finite Mathematics (4 credits) (or adequate substitute) in the first year
- SOCI 210 Research Methods in Sociology (4 credits) in first semester sophomore year
- SOCI 220 Sociological Analysis (4 credits) in second semester sophomore year

*Note:* Students with a double major in sociology and psychology who have completed SOCI 210, PSYC 212 and STAT 220 may contact the department chair to waive SOCI 220.

*Note:* Students choosing to double major in sociology and criminal justice are limited to five courses that can be applied to both majors. Only the following courses may count toward requirements in both majors: SOCI 100, 210, 220 and two of the following 312, 344, 346.

**Teacher Licensure**
Elementary Education with a Specialty in Social Studies (5-8)
Co-major in Social Studies (5-12) and a Co-major in Secondary Education

*See Education*

**Minor in Sociology**
SOCI 100 Introduction to Sociology (4 credits)

*Plus at least four credits from the following:*
- SOCI 210 Research Methods in Sociology (4 credits)
- SOCI 350 Social Inequality: Privilege and Power (4 credits)
- SOCI 365 Social Psychology (4 credits)
- SOCI 366 Self and Society (4 credits)
- SOCI 370 Sociological Theory (4 credits)

*Plus twelve additional credits from the list above or below:*
- SOCI 110 Social Problems (4 credits)
- SOCI 130 Homicide (4 credits)
- SOCI 220 Sociological Analysis (4 credits)
- SOCI 251 Race and Ethnicity (4 credits)
- SOCI 304 Adolescence in Society (4 credits)
- SOCI 312 Crime and Delinquency (4 credits)
- SOCI 321 Marriages and Families (4 credits)
- SOCI 330 Religion and Society (4 credits)
- SOCI 332 Urban Sociology (4 credits)
- SOCI 341 Work, Organizations, and Society (4 credits)
- SOCI 344 Police and Society (4 credits)
- SOCI 346 Corrections in America: Prisons, Probation and Parole (4 credits)
- SOCI 353 Global Perspectives on Gender (4 credits)
- SOCI 354 Sex in Society (4 credits)
- SOCI 380 Cross-Cultural Perspectives on Religion in Society (4 credits)
- SOCI 498 Individual Study (4 credits)
- SOCI 474 Seminar in Sociology (4 credits)

**Minor in Criminal Justice**
SOCI 100 Introduction to Sociology (4 credits)
SOCI 200 Introduction to Criminal Justice (4 credits)
SOCI 312 Crime and Delinquency (4 credits)

*Plus eight credits from the following, at least four of which must be in sociology:*
- CJUS 342 Criminal Law and Criminal Procedure (4 credits)
- CJUS 345 Police Operations (4 credits)
- CJUS 347 Correctional Practice and Administration (4 credits)
- POLS 312 Judicial Process (4 credits)
- POLS 314 Constitutional Rights and Liberties (4 credits)
Sociology and Criminal Justice (SOCI)

SOCI 100 Introduction to Sociology (4 credits)
Introduction to the concepts, theories, methods and applications of the scientific study of society and social concerns. Enables students to understand the connections between the individual and larger social and cultural forces. Heightens awareness of the diversity of American and other societies. This course fulfills the Social Analysis and Human Diversity requirements in the core curriculum.

SOCI 110 Social Problems (4 credits)
Contemporary society is confronted with a number of serious problems that are often global in their impact. This course explores the causes, effects, and proposed solutions to some of these major social issues. Special attention is given to issues of inequality (such as racism, sexism, and poverty) and problems in core institutions (such as family violence, unequal educational opportunities, and unemployment). This course meets a requirement in the Justice and Peace Studies program and fulfills the Social Analysis and Human Diversity requirements in the core curriculum.

SOCI 130 Homicide (4 credits)
Homicide is considered one of the most serious violent crimes. This course takes a sociological approach to examine the nature and extent of homicide with a focus on the history of homicides, the trends in homicide, and the patterns and sources of homicide. In addition to addressing more typical situations resulting in murder such as domestic violence, the course will cover serial murder and mass murders.

SOCI 200 Introduction to Criminal and Juvenile Justice (4 credits)
A critical introduction to the American criminal and juvenile justice system. Studies the role of the police, courts and corrections in the administration of criminal justice. This course meets a requirement in the Justice and Peace Studies program.

SOCI 210 Research Methods in Sociology (4 credits)
Consideration of both quantitative and qualitative strategies for each stage of the research process. Emphasis is on the skills required to design and successfully perform research projects: selection of topics, development and testing of hypotheses, collection and analysis of data and reporting of findings. Data entry and recoding with SPSS will also be introduced.
Prerequisite: SOCI 100

SOCI 220 Sociological Analysis (4 credits)
Methods of data analysis and hypothesis testing within the social sciences with an emphasis on sociological and criminal justice research questions. Emphasis is placed on applied statistics as employed in sociology with skill development in the use of data processing techniques and SPSS, the computer statistical package commonly employed by contemporary sociologists in the full range of research settings. Topics covered include descriptive statistics, confidence intervals, independent samples, t-test, analysis of variance, chi-square, correlation, regression, and quantitative reasoning. Students may not substitute STAT 220 for SOCI 220.
Prerequisite: SOCI 210 and MATH 101, 105, 108, 109, 111 or 113

SOCI 251 Race and Ethnicity (4 credits)
Race and ethnicity as significant components of U.S. social structure; the cognitive and normative aspects of culture which maintain and effect varying manifestations of social distance, tension, prejudice and discrimination between majority and minorities at both micro and macro levels, nationally and internationally. This course meets a requirement in American Culture and Difference and Justice and Peace Studies and fulfills the Human Diversity requirement in the core curriculum.
Prerequisite: sophomore standing

SOCI 295, 296 Topics (2 credits)
SOCI 297, 298 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

SOCI 301 General Anthropology (4 credits)
This course provides an overview of various components and dynamics of human societies throughout the world. It focuses on topics such as kinship patterns, language, religion, artistic expression, technology and economic/political organization. Major consideration

Note: Students wishing to combine a major in either Sociology or Criminal Justice with a minor in the other field may do so. However, the major and minor may not have more than eight credits or two courses in common. Non-majors can also earn a minor in Sociology and minor in Criminal Justice. However, the two minors many not have more than eight credits in common.
Sociology and Criminal Justice (SOCI)

is given to the practical significance of expanding intercultural awareness. This course fulfills a requirement in the Justice and Peace Studies program and the Human Diversity requirement in the core curriculum.
Prerequisite: SOCI 100 or SOCI 110

SOCI 304 Adolescence in Society (4 credits)
The transition between childhood and adulthood is examined using a general sociological framework and including life course, socioeconomic, and systems theories. Particular attention is given to the social construction of adolescence; institutional contexts (family, education, employment) of adolescent relationships with parents, peers, and others; gender and sexual socialization in society; cultures of achievement and risk; social diversity. This course meets a requirement in Family Studies and in Women’s Studies.
Prerequisite: SOCI 100 or SOCI 110 or permission of the instructor

SOCI 312 Crime and Delinquency (4 credits)
Why do people commit crime? Why do crime rates vary over time? Why do some communities and societies have more crime than others? This course focuses on sociological theories and research that are designed to answer these questions. It addresses various types of crime including homicide, corporate crime, drug use, domestic violence and hate crime.
Prerequisite: SOCI 100

SOCI 321 Marriages and Families (4 credits)
This course uses sociological theories and research to understand some of the most pressing social issues facing families today – single parenting, divorce and blended families, violence, and poverty. We study the social processes involved in choosing partners (and remaining single); sexualities and intimacy; parenting (or not); communication (and conflict); power (and satisfaction). Finally, we focus not just on family stress, but also on family resilience. This course meets a requirement in Family Studies and Women’s Studies.
Prerequisite: SOCI 100 or SOCI 110 or permission of the instructor

SOCI 330 Religion in America Society (4 credits)
Theoretical and empirical examination of the sociological dimensions of religion, with a special emphasis on the religious situation in America. Topics include diverse religious expressions and values of each religion, including Christian denominations and other world religions with members living in the U.S., for example, Buddhism, Hinduism, Islam, and Judaism, as well as cultural contexts, organizational structures, individual religiosity, and emerging new forms. This course meets a requirement in Catholic Studies and fulfills the Human Diversity requirement in the core curriculum.
Prerequisite: SOCI 100 or SOCI 110

SOCI 332 Urban Sociology (4 credits)
The study of the social organization of urban areas. Topics include the historical development of cities, interaction patterns in neighborhoods, cities and metropolitan areas, community power structures, and urban problems. This course meets a requirement in Urban Studies.
Prerequisite: SOCI 100 or SOCI 110

SOCI 341 Work, Organizations, and Society (4 credits)
This course provides students with knowledge about the importance and role of work and organizations in society and in our everyday lives. Key topics include conflict in organizations, occupational choice and prestige, social control in work environments, the labor movement, the “McDonaldization” of the work environment and American culture, the clash between personal and organizational life, and many others.
Prerequisite: SOCI 100 or SOCI 110

SOCI 344 Police and Society (4 credits)
An overview of the history of policing and the emergence of modern policing in democratic societies. This course takes a sociological approach in examining the changing roles and organization of police, police socialization, and police subculture as well as the impact of different organizational structures on service delivery. Topics include police conduct, community policing, professionalization of the police, ethical decision making in law enforcement and evidence-based policing.
Prerequisites: SOCI 100 and SOCI 200

SOCI 346 Corrections in America: Prisons, Probation, Parole (4 credits)
This course takes a sociological approach in examining the role of corrections in the criminal justice system focusing on the rationale for punishing offenders, the range of correctional placements, and the effectiveness of correctional policies in achieving social control. Topics include correctional treatment practices, mass incarceration, reentry, restorative justice, and ethical decision making in corrections.
Prerequisites: SOCI 100 and SOCI 200
SOCI 350 Social Inequality: Privilege & Power (4 credits)
This course identifies and investigates the following topics: general principles of stratification, theoretical explanations by which inequality emerges and is maintained, the relationship between social class and other forms of inequality in the United States including gender, race, and changes in social hierarchy over time. The course will explore issues such as poverty, welfare, occupational prestige, meritocracy, and class prestige. Although primary focus is on the United States, the course also examines global inequality. 
Prerequisite: SOCI 100 or SOCI 110 and Junior Standing

SOCI 353 Global Perspectives on Gender (4 credits)
How is gender socially constructed across culture? How does gender shape opportunity and quality of life across societies? In this course, we examine global social problems such as genital mutilation, the HIV/AIDS pandemic, rape in war, sex trafficking, and sex tourism. We use the lenses of migration and demographic transition, development and the legacies of colonialism, and globalization. We study empirical research and listen to the authentic voices of women and men through documentary and interview sources. We also consider international and transnational social policies and actions aimed at improving the quality of life, expanding opportunities, and building human rights for women and men, girls and boys. This course meets a requirement in Justice and Peace Studies; Women’s Studies; and fulfills the Human Diversity requirement in the core curriculum. 
Prerequisite: SOCI 100 or SOCI 110 or permission of the instructor

SOCI 354 Sex in Society (4 credits)
Sexuality as a social construction is explored with a specific focus on cultural and institutional influences including the family, government, religion, and the media. Current research finding are discussed within the context of historical change in American sexual behavior, attitudes and research methodologies. This course meets a requirement in Family Studies. 
Prerequisite: SOCI 100 or 110

SOCI 365 Social Psychology (4 credits)
This course provides a general survey of major social psychological theories and research. Topics include selfhood, socialization, conformity/deviance, attitudes, gender roles, and intergroup/intragroup dynamics. Through exposure to real life settings and simulations, students will explore key questions such as “What attracts us to each other?,” “How do we respond to deviant behavior?” and, “Why do we conform?” This course meets a requirement in the Justice and Peace Studies program. 
Prerequisite: SOCI 100 or SOCI 110

SOCI 366 Self and Society (4 credits)
In what ways does the world around us shape who we are as individuals? This course exposes learners to the ways in which various social forces such as family, social class, mass media, and school shape our lives. It includes the influence of “micro” elements of social structure (such as socialization processes and small groups), “macro” elements of social structure (organizations, communities society), and important sociological concepts (inequality, power, conflict, social control, etc.). 
Prerequisite: SOCI 100

SOCI 370 Sociological Theory (Previously SOCI 470) (4 credits)
Study of the place of sociological theory in understanding interaction and society. Examination of both classical and contemporary theories, including conflict, functionalism, and interactionism. Application of theories to contemporary social concerns. 
Prerequisite: SOCI 100 and 8 additional credit-hours in sociology

SOCI 380 Cross-Cultural Perspectives on Religion in Society (4 credits)
This course considers the relationship between religion and society on a world-wide basis. It examines why people are religious and how the beliefs and practices of various religious traditions have influenced family life, education, morality, politics, and other social dimensions of life. The course includes discussion of all the major religious traditions, such as Christianity, Judaism, Hinduism, Buddhism, and Islam. 
Prerequisite: SOCI 100 or SOCI 110

SOCI 405 Internship in Criminal Justice (4 credits)
This course is designed to provide the student with an opportunity to apply academic training in a criminal justice setting. Students will spend a minimum of 10 hours per week in an agency or organization directly involved in some aspect of criminal justice. Students will be supervised by an on-site supervisor. They also will participate in a weekly meeting with other interns and a St. Thomas faculty member. 
Prerequisites: SOCI 200, 210, and permission of the instructor

SOCI 474 Seminar in Sociology (4 credits)
The senior capstone experience offers graduating students an opportunity to actively reflect upon theory, methodology, and substantive sociological knowledge and to integrate these components to assess the role of sociology in understanding sociological problems. These issues will be explored in the context of a specific topic, chosen by the instructor. Careers, vocation, and preparation for
Sociology and Criminal Justice (SOCl)

graduate school will also be addressed.
Prerequisite: SOCI 210 and SOCI 370 (previously SOCI 470) and SOCI 220 or concurrent registration

SOCl 47S, 476 Experiential Learning (2 credits)
SOCl 477, 478 Experiential Learning (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

SOCl 480 Seminar in Criminal Justice (4 credits)
The senior seminar serves as a capstone experience for students to address several central issues in the study of crime and justice. The major focus is to build upon students’ knowledge from previous courses with a focus upon an integration of knowledge from material learned throughout the major. Students will complete a final project that demonstrates an in-depth understanding of a criminal Justice topic that could lead to future work in the criminal justice field.
Prerequisite: SOCI 210, 312 or permission of instructor

SOCl 483, 484 Seminar (2 credits)
SOCl 485, 486 Seminar (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

SOCl 487, 488 Topics (2 credits)
SOCl 489, 490 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

SOCl 269, 389, 491 Research (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

SOCl 243, 393, 495 Individual Study (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

Criminal Justice (CIUS)

CIUS 342 Criminal Law and Criminal Procedure (4 credits)
This course provides an overview of the key elements of criminal law and criminal procedure. Topics include the purpose of criminal law, criminal responsibility and intent. In addition, the legal elements of crime will be addressed. The course also examines the importance of due process and constitutional protections for persons accused and convicted of crime. A major focus of the course is Minnesota statutes and procedures.

CIUS 345 Police Operations (4 credits)
An overview on organization of police and practices with a special emphasis on policing in the state of Minnesota. Topics include patrol practices, criminal investigation, crime scene investigation, crisis intervention, use of force, patrol practices and ethical codes in law enforcement. This course is designed for students who are completing POST requirement to become a licensed officer in the state of Minnesota.
Prerequisite: SOCI 200

CIUS 347 Correctional Practices and Administration (4 credits)
This course examines the role of court services and corrections practitioners in the criminal justice system form presentence evaluations to ultimate release in the community. The focus is on corrections practices and the management of offenders within both institutional and community corrections settings and the administration of these organizations. There is a special emphasis on corrections within the state of Minnesota. Topics include correctional management, risk and needs assessment, programming options, and ethical codes in corrections.
Prerequisite: SOCI 200

SPANISH (SPAN)

See Modern and Classical Languages
Statistics is an interdisciplinary major that draws upon faculty and courses in the departments of Computer and Information Sciences and Mathematics. The major is administered by a committee of representatives from both departments. This joint major allows students to pursue an interest in mathematical statistics, applied statistics, and related areas including biostatistics, operations research, and data mining.

**Major in Statistics (B.S.)**

MATH 113 Calculus I (4 credits)
MATH 114 Calculus II (4 credits)
Plus four credits from the following:
MATH 128 Introduction to Discrete Mathematics (4 credits)

or
MATH 240 Linear Algebra (4 credits)

Plus:
CISC 130 Programming and Problem Solving (4 credits)
IDTH 360 Advanced Statistical Software (4 credits)
IDTH 400 Data Mining and Machine Learning (4 credits)
STAT 460 Statistical Research/Practicum - a capstone experience (4 credits)

**Concentration in Mathematical Statistics**

MATH 200 Multi-variable Calculus (4 credits)
MATH 313 Probability (4 credits)
STAT 314 Mathematical Statistics (4 credits)
STAT 333 Applied Statistics Methods (4 credits)

*Plus eight credits from the list of electives below.*

**Concentration in Applied Statistics**

STAT 220 Statistics I (4 credits)
STAT 320 Statistics II (4 credits)

*Plus sixteen credits from the list of electives below.*

**Electives**

ACSC 264 Theory of Interest (4 credits)
ACSC 464 Math Finance (4 credits)
IDTH 410 Operations Research I (4 credits)
IDTH 411 Operations Research II (4 credits)
MATH 315 Applied Mathematics and Modeling I (4 credits)
MATH 385 Mathematical Methods of Numerical Analysis (4 credits)
STAT 310 Bio-Statistics (4 credits)
STAT 370 Bayesian Statistical Models and Credibility Theory (4 credits)

**Allied Requirements:**

COJO 100 Public Speaking (4 credits) or COJO 105 Communication in the Workplace (4 credits)

**Joint Minor in Statistics from MATH and CISC Departments**

This joint minor allows students to pursue an interest in mathematical statistics, applied statistics, and related areas including biostatistics, operations research, and data mining.

Required courses (each of two tracks includes 6 courses with MATH, STAT, or IDTH designation numbered in the brackets):

MATH 113 Calculus I (1)
MATH 128 Introduction to Discrete Mathematics
Statistics (STAT)

or
MATH 240 Linear Algebra (2)

Plus:
For Mathematical Statistics track:
MATH 114 Calculus II (3)
MATH 200 Multivariable Calculus (4)
MATH 313 Probability (5)
STAT 314 Mathematical Statistics (6)

or
For Applied Statistics track:
STAT 220 Statistics I (3)
STAT 310 Bio-Statistics (4)
STAT 320 Statistics II (5)

Plus four credits from the following electives (6):
IDTH 360 Advanced Statistical Software
IDTH 400 Data Mining and Machine Learning
IDTH 410 Operations Research I
IDTH 411 Operations Research II

STAT 201 Introductory Statistics II (2 credits) (STAT 220) (formerly IDTH 201)
This course is for students desiring to satisfy the coverage of STAT 220 (a full semester of statistics) when less than one full semester of statistics has been taken. Review of inferential statistics; sampling distribution of the sample mean and sample proportion, central limit theorem, confidence intervals and hypothesis tests for one and two means and one and two proportions. Introduction to basic applications: tests of independence, analysis of variance and linear regression. A statistical package must be used as tool.
Prerequisite: STAT 206 or at least .35 semester, but less than one semester, of statistics
NOTE: Students who receive credit for STAT 201 may not receive credit for STAT 220.

STAT 220 Statistics I (4 credits) (STAT 201) (formerly IDTH 220)
Introductory applied statistics. Work environment; population, sampling frame, random sample, type of variables and studies. Descriptive statistics: collecting, displaying, summarizing, and interpreting data to extract information. Probability; relative frequency definition of probability, conditional probability, independence, discrete and continuous random variables, probability distribution and probability density, binomial, normal, standard normal, t, chi-square, and F distributions. Inferential statistics; sampling distribution of the sample mean and sample proportion, central limit theorem, confidence intervals and hypothesis tests for one and two means and one and two proportions. Basic applications: tests of independence, analysis of variance and linear regression. A statistical package must be used as tool. This course fulfills the third course in the Natural Science and Mathematical and Quantitative Reasoning.
Prerequisites: Math placement at level of MATH 111 or above; or MATH 100, or 101, or 105, or 108, or 109, or 111, or 113
NOTE: Students who receive credit for STAT 220 may not receive credit for STAT 201.

STAT 310 Biostatistics (4 credits)
This course provides students with the knowledge and skills needed to effectively apply basic statistical methods in health related fields, such as Biology, Medicine, and Public Health. Students learn inferential statistical techniques involving topics in estimation, hypothesis testing, nonparametric methods, clinical trials, contingency tables, review of analysis of variance and linear regression, and a brief introduction to experimental design.
Prerequisite: STAT 220 or STAT 314

STAT 314 Mathematical Statistics (4 credits) (formerly MATH 314)
Populations and random sampling; sampling distributions. Theory of statistical estimation; criteria and methods of point and interval estimation. Theory of testing statistical hypotheses; non-parametric methods. Offered fall semester.
Prerequisite: MATH 240 and 313
NOTE: Students who receive credit for STAT 314 may not receive credit for MATH 303.

STAT 320 Statistics II (4 credits) (formerly IDTH 320)
Applied linear regression models. Simple linear regression: introduction, inferences, diagnostics, remedial measures, simultaneous inferences. Matrix approach in linear regression. Multiple regression; inferences, remedial measures, extra sums of squares, partial determinations, standardized models, use of indicator and mixed variables, polynomial regression, model selection and validation, diagnostics, remedial measures, multicollinearity and effects, autocorrelation. Single and multi-factor analysis of variance: analysis of factor level means, interactions, inferences, diagnostics, and remedial measures. A statistical package must be used as tool. Optional
topics may include logistic regression, design of experiments, and forecasting.
Prerequisite: STAT 201 or STAT 220 or STAT 333

STAT 333 Applied Statistical Methods: Regression, Time Series, Forecasting (4 credits)
Regression and exponential smoothing methods; Stochastic Time Series: auto- and cross-correlation, autoregressive moving average models; application to forecasting. Offered spring semester.
Prerequisites: MATH 303 or STAT 314 or permission of instructor

STAT 370 Bayesian Statistical Models and Credibility Theory (4 credits)
This course covers a range of statistical models used in applications including Actuarial Science, Finance, Health and Social Sciences. It is oriented towards practical model construction and problem solving. Review of parametric statistical models and principles of statistical inference. Application to loss and ruin models. Construction of empirical and parametric models and model selection. Credibility theory. Simulation. Offered every other year.
Prerequisite: MATH 313 and STAT 314 or STAT 220 and STAT 320

STAT 460 Statistical Research/Practicum (4 credits)
Students will work individually with the instructor to identify a statistical research topic of current interest or to identify a real practical problem, for which statistics can be used to produce a feasible solution. State and local governments, companies, businesses, TV channels or even faculty doing research should be the natural source of real practical problems to be solved. For either the research or the practical problem, the final outcome should be a report with publication potential.
Prerequisite: Senior standing or permission of instructor

STUDY ABROAD
See Academic Information & Programs in the front section of this catalog

THEATER (THTR)
College of Arts and Sciences, Interdisciplinary Program

The study of theater develops personal creativity and confidence, collaborative skills, and knowledge of an art form that played a central part in ancient cultures and continues to provide a source of excitement, entertainment, and meaning in the contemporary world. Courses in Theater teach the creative skills and techniques of theater performance, the history of theater, and the ideas that have informed theater practice and criticism. In addition, Theater courses offer opportunities to study the history and theory of film as an artistic medium, as well as some techniques related to performance and production in that medium.

Theater offerings include several courses that fulfill the Fine Arts component of the core curriculum and one course that fulfills both the Fine Arts and Diversity requirement of the core curriculum.

THTR 111 Introduction to the Theater (4 credits)
Foundation in theater and drama for the non-major beginning student; orientation to the dramatic tradition through consideration of plays and playwrights from the Greeks to the present; history of theatrical customs, traditions and conventions as they affect modern stage design, acting, directing, costumes, make-up and criticism. Experience in seeing and analyzing CSC/UST and Twin City play productions and in producing a play. This course does not count towards a theater major. Open to all students. This course fulfills the Fine Arts requirement in the core curriculum.

THTR 214 Beginning Acting (4 credits)
Provides a foundation for acting through examination of the research process essential to achieving physical and psychological characterization. Emphasis is on theory and the practical application of performance.

THTR 218 Acting for the Camera (4 credits)
Acting for the camera is a laboratory course. The course illustrates the differences between stage acting and acting for the camera. Emphasis upon theory and the practical application of working with monologues, commercials, soap operas and scenes for the camera. Students will gain knowledge and experience of operating the cameras and working within a TV studio.

THTR 221 World Theater, Origins to 17th Century (History of Theater I) (4 credits)
The history and analysis of theater forms, Western and non-Western, from ancient rituals to the 18th century with attention to the relationships between the plays and the audience, performers, and production methods of various periods. This course fulfills the Fine Arts requirement in the core curriculum.
THEATER (THTR)

THTR 222 Modern and Contemporary World Theater (History of Theater II) (4 credits)
Examination of 18th, 19th and 20th century world theater with special attention to both the contemporary and historic perspectives. Deals with major movements and styles of modern theater. This course fulfills the Fine Arts requirement in the core curriculum.

THTR 223 American Theater (History of Theater III) (4 credits)
Development of theater in the United States from its 17th century roots to the present, with special attention to contemporary American drama. Emphasis on the connections between theater and culture. This course fulfills the Fine Arts requirement and the Human Diversity requirement in the core curriculum.

THTR 259 Film I: Introduction to the Art of Film (4 credits)
Analysis of the structure and social impact of film as an art form; extensive use of films in class; concentration on the fiction, documentary and animated film. This course fulfills the Fine Arts requirement in the core curriculum.

THTR 260 History of Film: The Silent Era (4 credits)
Examines the growth of popular film from the 16th century Italian camera obscura to the rise of Hollywood and the first talkies. Selected films will be studied in class and independently. This course fulfills the Fine Arts requirement in the core curriculum.

THTR 261 History of Film: Sound Era, 1926 to Present (4 credits)
Studies the ways in which such innovations as sound, color, wide-screen and present day computer technology continue to change world cinema. The impact of war and peace, economic conditions, nuclear age politics and the emergence of third world and feminist cinema will be examined as well. Selected films will be studied in class and independently. This course fulfills the Fine Arts requirement in the core curriculum.

THTR 295, 296 Topics (2 credits)
THTR 297, 298 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online or the English Department website. Topics listed under 297 fulfill the Fine Arts requirement in the core curriculum.

THTR 359 Film II: Film Theory and Criticism (4 credits)
An approach to film as text – as a constructed weave of images, sounds, speech, music and writing tracing the patterns and forces by which film produces its meanings and effect for spectators. Study of the impulses of the structuralist and semiotic movements which have combined since 1970 with those of feminism, Marxism and psychoanalysis. This course fulfills the Fine Arts requirement in the core curriculum.
Prerequisite: Any beginning film course or permission of instructor

THTR 412 Drama: Theory and Criticism (4 credits)
Study in abstract and applied dramatic theory. Selected playwrights and bodies of criticism that surround their work are examined closely in relation to various theoretical systems. Aristotle through post-modern. This course fulfills the Fine Arts requirement in the core curriculum.

THTR 475, 476 Experiential Learning (2 credits)
THTR 477, 478 Experiential Learning (4 credits)
See the description of these courses at the beginning of the "Curricula" section of this catalog.

THTR 243, 393, 495 Individual Study (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.
In every historical period and cultural context, there are fundamental questions that concern human beings: the nature of the universe, the existence and nature of God, the nature of human beings, the relationship of a human to God and to his world, the nature of evil and the possibility of redemption.

The Department of Theology has designed a sequence of courses that acquaint students with these questions and assists them in articulating thoughtful responses formulated in light of the Christian tradition and Christian faith. These courses contribute to the students’ liberal arts education at the University through the development of writing, reading and critical thinking skills.

The first course, “The Christian Theological Tradition,” introduces students to the theological framework that Christians have historically used to address questions of faith and human existence. The core readings for the course are from the Bible and from classic writers within the Christian tradition. The course provides students with an opportunity to reflect critically on the Catholic and Christian traditions within the context of contemporary life. Finally, it provides students with a basic level of theological literacy to prepare them for the second and third-level courses.

The second-level (200-numbered and 300-numbered) courses invite students to practice theology by engaging at a deeper level in the discipline of “faith seeking understanding.” Courses at this level focus on a particular area of the Christian tradition, namely; the Bible, historical theology, systematic theology or moral theology. Students critically examine core elements of the tradition, such as classic texts, concepts, persons, and events while remaining mindful of the contemporary context. Through these courses, students learn the skills and methods of the discipline. These second-level courses then serve as a foundation for the interdisciplinary Bridge Courses at the next level.

The “Bridge Course,” as the third course in the Faith and the Catholic Tradition sequence (400-numbered), will provide an opportunity for students to draw upon their entire program of studies. Serving as the culminating point for the curriculum, the Bridge Course prepares students to build connections between their studies in the liberal arts and the broader world for which their St. Thomas education has prepared them. A principal concern of the course is to guide students toward experiencing a sense of vocation in their professional, familial, and social lives. Because no single course can be expected to address all such areas, students will be offered three different types of bridge courses exploring different aspects of the broader world they are preparing to serve.

1. The first type of bridge course will address vocation in careers and in the professions and will be thoroughly interdisciplinary in nature and in many cases will be team-taught. These courses will develop a theological reflection on a specific profession (for example, medicine, law, management, and education). Other courses of this type will address the intellectual vocation of various academic disciplines, bringing theology into dialogue with academic disciplines that prepare students for a wide variety of careers. We will give priority to developing as many course of this first type as we can, although we will always be limited by the availability of faculty who are prepared to address the particular concerns of the professions and the particular academic disciplines from a theological perspective.

2. A second type of bridge course will cultivate in students a sense of vocation to serve the common good by bringing a theological viewpoint to bear upon significant contemporary social issues such as poverty, war and peace, marriage and family, and social issues related to gender. These courses may be team-taught. As involved citizens, all students will have some part to play in addressing such issues. Learning how to focus what they have learned at St. Thomas in a manner that will illuminate such social issues will strengthen their ability to act justly and wisely as they participate in public affairs.

3. A third type of bridge course will prepare students to understand and address the complex religious issues emerging in the context of contemporary multicultural and global social conditions and interactions. These courses will be taught from a theological perspective and will focus on ecumenical and/or inter-religious study and dialogue (for example, courses in world religions). These courses may be team-taught. Developing a nuanced understanding of such issues is becoming increasingly important in political, professional, and economic areas of life. Enabling students to bring the fruit of their undergraduate study to bear upon such issues will prepare them to meet pressing contemporary needs.

The three levels of courses, thus, form an integrated sequence in the Faith and Catholic Tradition core area requirement. The first course introduces the tradition of Christian theological reflection. The second-level courses invite students “to do” theology—that is, to engage in reasoning about faith. In the third-level courses, students bring theological concepts and methods into dialogue with other disciplines.

National Honor Society for Religious Studies and Theology
Theta Alpha Kappa is devoted to encouraging and rewarding excellence in theology and the study of religion. The Greek letters stand for theos (God), anthropos (humans), and koinonia (community). In addition to recognizing excellence through induction into TAK,
Theology (THEO)

The Society also sponsors an essay contest, the winners of which are published in the TAK journal. An induction ceremony is held at St. Thomas each spring. Those invited to join must meet academic criteria based on the number of theology courses taken, their GPA in theology courses, and their overall GPA. Study Abroad: Theology majors and minors are encouraged to study abroad. Specific courses taken abroad may substitute for St. Thomas requirements. The exchange with Australian Catholic University in Melbourne, Australia is particularly suitable. See the chair of the department or a study abroad advisor in the International Education Center, or Academic Information & Programs in the front section of this catalog for program options.

Major in Theology
THEO 101 The Christian Theological Tradition (4 credits)
or
THEO 102 The Christian Theological Tradition: The Bible and the Early Church (2 credits) and THEO 103 The Christian Theological Tradition: St. Augustine to the Present (2 credits)

Plus:
THEO 215 Christian Morality (4 credits)
THEO 301 Theological Methods and Resources (4 credits)
THEO 391 Seminar for Theology Majors and Minors (4 credits) or THEO 393 Research Thesis for Majors (4 credits)

Plus:
Four credits in Old Testament (OT)
Four credits in New Testament (NT)
(one course must be THEO 205 or 210)
Four credits in systematic theology
Four credits in historical theology

Major in Theology with a Ministry Concentration
The Lay Ministry Concentration is a specialization within the undergraduate theology major. It combines academic study (KNOW), observation of working ministers (SEE), and internship opportunities (DO), in order to provide students with the theological foundation, pastoral skills and spiritual formation necessary to assume entry-level positions in lay ecclesial ministry. Opportunities include pastoral ministry, youth ministry, religious education and faith formation, as well as a variety of support services for church and faith-based organizations.

Students who complete the program will have satisfied all of the theological competencies approved by the U.S. Conference of Bishops for lay ministers in the Roman Catholic Church, including the theology of revelation, God, church, sacraments and worship, morality and Catholic social teaching, ecumenism and interfaith relations. Ecumenical in nature and designed in cooperation with ministers from local Protestant churches, the program also welcomes students of other Christian traditions.

THEO 101 Christian Theological Tradition (4 credits)
THEO 205 Introduction to the Old Testament (4 credits) (or a 300-level course in Old Testament)
THEO 210 Introduction to the New Testament (4 credits) (or a 300-level course in New Testament)
THEO 215 Christian Morality (4 credits)
THEO 323 Church and Sacramentality (4 credits)
THEO 405 Spiritual Formation (0 credits)
THEO 406 Pastoral Ministry (4 credits)
THEO 407 Catechesis and Faith Formation (4 credits)

Plus four credits from the following:
THEO 200 Christian Belief: Ancient and Contemporary (4 credits)
THEO 220 Early Christian Theology (4 credits)
THEO 373 Person and Mission of Jesus (4 credits)

Plus eight credits from the following:
THEO 240 Theology of the Protestant and Catholic Reformation (4 credits)
THEO 302 Second Vatican Council (4 credits)
THEO 325 Catholic Social Tradition (4 credits)
THEO 310 Christian Worship (4 credits)
Plus four credits from the following:
THEO 417 Internship for Ministry (4 credits)
THEO 445 Theology and Education (4 credits)

**Minor in Theology**
THEO 101 The Christian Theological Tradition (4 credits)

or
THEO 102 The Christian Theological Tradition: The Bible and the Early Church (2 credits) and THEO 103 The Christian Theological Tradition: St. Augustine to the Present (2 credits)

Plus:
THEO 215 Christian Morality (4 credits)

Plus:
Four credits in Sacred Scripture
Eight additional credits in theology
Four credits in systematic theology or Four credits in historical theology

Note: At least eight of the credits used to fulfill the minor must be at the 300-level or above. The department recommends either THEO 301 or 393 be chosen as one of the two electives for the minor.

**Courses in areas of theological study:**

*Sacred Scripture*
THEO 205 Old Testament (4 credits) (OT)
THEO 210 New Testament (4 credits) (NT)
THEO 330 Wisdom Writings in the Biblical Tradition (4 credits) (OT)
THEO 335 Letters of St. Paul (4 credits) (NT)
THEO 340 The Gospel of John (4 credits) (NT)
THEO 343 Apocalyptic Literature (4 credits) (OT & NT)
THEO 345 Gospels of Matthew, Mark and Luke (4 credits) (NT)
THEO 350 Historical Literature of the Old Testament (4 credits) (OT)
THEO 352 The Pentateuch (4 credits) (OT)
THEO 365 Prophetic Literature of the Old Testament (4 credits) (OT)
THEO 387 Topics in Scripture (4 credits) (OT or NT)
THEO 392 Topics in Scripture Theology-Half Course (2 credits)
THEO 428 Women and the Old Testament (4 credits) (OT)
THEO 430 Music and the Bible (4 credits) (OT & NT)
THEO 458 The Bible from a Multicultural Prospective (4 credits)
THEO 463 The Bible and American Politics (4 credits)
THEO 465 Justice and the Bible (4 credits)
THEO 466 The Qur’an and the Bible (4 credits)

*Historical theology*
THEO 220 Early Christian Theology (4 credits)
THEO 230 Medieval Theology (4 credits)
THEO 231 American Catholicism (4 credits)
THEO 240 Theology of the Protestant and Catholic Reformation (4 credits)
THEO 310 Christian Worship (4 credits)
THEO 320 Readings from St. Thomas Aquinas (4 credits)
THEO 357 Sacred Music of the Catholic Heritage (4 credits)
THEO 369 Salvation and Damnation: Theology of Luther and Calvin (4 credits)
THEO 383 Topics in Historical Theology-Half course (2 credits)
THEO 388 Topics in Historical Theology (4 credits)
THEO 411 Catholicism and Modernity (4 credits)
THEO 429 Women and the Christian Tradition (4 credits)
THEO 431 Women in the Early Church (4 credits)
THEO 432 Black Religious Experience (4 credits)
THEO 433 Theology and Politics (4 credits)
THEO 439 History of Religion in America (4 credits)
Theology (THEO)

THEO 451 Christianity and Nazism (4 credits)

Systematic theology
THEO 200 Christian Belief: Ancient and Contemporary (4 credits)
THEO 301 Theological Methods and Resources (4 credits)
THEO 302 The Second Vatican Council (4 credits)
THEO 314 Christian Spirituality (4 credits)
THEO 323 Church and Sacramentality (4 credits)
THEO 360 Contemporary Catholic Theologians (4 credits)
THEO 373 The Person and Mission of Jesus Christ (4 credits)
THEO 380 Grace, Hope and Eschatology (4 credits)
THEO 381 Topics in Systematic Theology-Half Course (2 credits)
THEO 386 Topics in Systematic Theology (4 credits)
THEO 394 Death and the Afterlife (4 credits)
THEO 421 Theologies of Justice and Peace (4 credits)
THEO 422 Christian Faith and the Management Professions (4 credits)
THEO 423 Christian Marriage (4 credits)
THEO 424 Christianity and World Religions (4 credits)
THEO 425 Judaism (4 credits)
THEO 426 Islam (4 credits)
THEO 427 Evil and Suffering (4 credits)
THEO 434 Science and Christian Theology (4 credits)
THEO 435 Atheists and Apologists (4 credits)
THEO 436 Christian Faith and the Legal Profession (4 credits)
THEO 440 Hinduism and Buddhism (4 credits)
THEO 445 Theology and Education (4 credits)
THEO 446 Theology and Psychology (4 credits)
THEO 448 Theology and Literature (4 credits)
THEO 449 Theology and the Engineering Profession (4 credits)
THEO 450 Theology and Mass Media (4 credits)
THEO 452 Theology and Beauty (4 credits)
THEO 453 Theology and Art (4 credits)
THEO 455 The Church in Latin America (4 credits)
THEO 456 Christianity and Consumer Culture (4 credits)
THEO 457 Theology and Public Discourse (4 credits)
THEO 462 Theology and Literature of C.S. Lewis (4 credits)
THEO 464 Jesus Christ and Interreligious Dialogue (4 credits)
THEO 467 Muslim Christian Dialogue (4 credits)
THEO 471 Global Christianity (4 credits)

Moral theology
THEO 215 Christian Morality (4 credits)
THEO 325 Catholic Social Tradition (4 credits)
THEO 384 Topics in Moral Theology-Half Course (2 credits)
THEO 389 Issues in Christian Morality (4 credits)
THEO 420 Theology and the Biomedical Revolution (4 credits)
THEO 437 Christian Faith and the Health Care Professions (4 credits)
THEO 447 Faith, Social Transformation and Social Work (4 credits)
THEO 454 The Morality of War (4 credits)
THEO 459 Theology and the Environment (4 credits)
THEO 460 Christian Ethics and US Immigration (4 credits)

Certificate in Lay Ministry
The Certificate in Ministry will consist of eight (8) four-credit undergraduate courses chosen from among the approved courses in the Concentration in Lay Ministry. The specific choice of courses will be done in consultation with an adviser, who may, on occasion, substitute other courses if the person's previous experience warrants it. Otherwise, courses will be chosen from the following list:
THEO 101 Christian Theological Tradition (4 credits)
THEO 205 Introduction to the Old Testament (4 credits) (or a 300-level course in Old Testament)
THEO 210 Introduction to the New Testament (4 credits) (or a 300-level course in New Testament)
Theology (THEO)

THEO 215 Christian Morality (4 credits)
THEO 323 Church and Sacramentality (4 credits)

**Plus four credits from the following:**
THEO 200 Christian Belief: Ancient and Contemporary (4 credits)
THEO 220 Early Christian Theology (4 credits)
THEO 373 Person and Mission of Jesus (4 credits)

**Plus eight credits from the following:**
THEO 240 Theology of the Protestant and Catholic Reformation (4 credits)
THEO 302 Second Vatican Council (4 credits)
THEO 310 Christian Worship (4 credits)
THEO 325 Catholic Social Tradition (4 credits)

All of the courses in the Certificate program are part of the standard offerings of the Theology department, as described in the undergraduate catalogue of the University of St. Thomas. These courses are taught by St. Thomas faculty at the same level and with the same standards as the coursework for major in Theology. Thus, the coursework for the Certificate in Ministry would be applicable toward a Baccalaureate of Arts degree, should the student decide to complete his or her studies at that level. Because they will be applicable toward the Theology major, all program standards will be the same as for the major. This means that students must maintain a grade point average of 2.0 within the program. No course can be taken on a Pass/Fail basis. If the department passes any other regulations for the major, these would automatically apply to the certificate program as well.

Because the students for which this program is designed likely will come with very different educational backgrounds and ministerial experiences, an adviser (and/or the Concentration in Ministry director) will work with each individual student to select the coursework that best meets his or her needs. At the same time, insofar as their coursework will be chosen from the approved courses for the Concentration in Ministry, students will attain a common educational experience by the time they have concluded the program.

Applicants for the Ministry Certificate program should have at least 12 months of full-time or part-time professional ministry experience prior to admission. Prospective students will provide official high school transcript(s) or GED and official college transcript(s) (if any). They will also submit a writing sample, in which they reflect on their understanding of the vocation or theology of ministry, and a letter of recommendation from one of their supervisors in ministry. Students can transfer up to three courses approved by the program director.

THEO 101 The Christian Theological Tradition (4 credits) (THEO 102, 103)
This course is designed to acquaint students with the contents of the Bible and with Christian history, especially in the context of the Catholic tradition. Through careful reading of a core of common texts and a variety of written assignments, students are expected to attain a basic understanding of human experience in the light of major areas of theology, including revelation, God, creation, Jesus and the Church.

*NOTE:* Students who receive credit for THEO 101 may not receive credit for THEO 102 or 103.

THEO 102 The Christian Theological Tradition: The Bible and the Early Church (2 credits) (THEO 101)
The first half of THEO 101. This course is designed to acquaint students with the contents of the Bible and Christian history, especially in the context of the Catholic tradition, up through the Council of Chalcedon (but not including the work of St. Augustine). Through a careful reading of a core of common texts and a variety of written assignments, students are expected to attain a basic understanding of human experience in the light of major areas of theology, including revelation, God, creation, Jesus, and the Church. Offered in January term.

*NOTE:* Students who receive credit for THEO 102 may not receive credit for THEO 101.

THEO 103 The Christian Theological Tradition: St. Augustine to the Present (2 credits) (THEO 101)
The second half of THEO 101. This course is designed to acquaint students with the contents of the Bible and with Christian history, starting with St. Augustine, up to the present, especially in the context of the Catholic tradition. Through a careful reading of a core of common texts and a variety of written assignments, students are expected to attain a basic understanding of human experience in the light of major areas of theology, including revelation, God, creation, Jesus, and the Church.

*Prerequisite:* THEO 102

*NOTE:* Students who receive credit for THEO 103 may not receive credit for THEO 101.

THEO 200 Christian Belief: Ancient and Contemporary (4 credits)
This course introduces systematic theology, a discipline that tries to understand how Christian doctrines are interrelated with each other and with other beliefs about the world. It explores both traditional and contemporary interpretations of the most significant doctrines in Catholic and Protestant traditions, emphasizing the relationship of scripture, tradition, experience, and reason as sources
**Theology (THEO)**

for Christian theology. The course is structured on the classical “system” of the Nicene Creed, and will focus on the ongoing formation of the doctrines of God, Christ, the Spirit, creation, sin, salvation, and Church. Special emphasis will be given to the role of grace in history and human experience.

Prerequisite: THEO 101

**THEO 205 Old Testament (4 credits)**

An intensive reading and discussion of the Old Testament, also known as the Hebrew scriptures. The course investigates methods of biblical interpretation and the literature and theologies of the Israelite people in their ancient Near Eastern context. In addition, this course explores the Old Testament as a foundational document for the Jewish and Christian traditions (both ancient and modern) in the development of doctrine, in the expressions of worship and in the articulation of moral principles.

Prerequisite: THEO 101 (or 102 and 103)

**THEO 210 New Testament (4 credits)**

This course involves the student in an intensive historical, literary and theological reading of major portions of the New Testament in the Jewish and Greco-Roman contexts and from the perspective of modern methods of biblical interpretation. In addition, the course explores the New Testament as a foundational document for modern Christian traditions in the development of doctrine, in the expressions of worship and in the articulation of moral principles.

Prerequisite: THEO 101 (or 102 and 103)

**THEO 215 Christian Morality (4 credits)**

This course is an introduction to the principles, methods and topics of Christian theological ethics. The following themes will be addressed: the relation of Christian faith to moral reflection and decision making (both individual and social); the contribution of the Christian tradition to the understanding of the human person (including freedom, sin, conscience, character and grace); the role of the believing community in its relation to culture; and the connection of worship and spirituality to the Christian moral life. Some application will be made to selected issues in personal, professional and social ethics.

Prerequisite: THEO 101 (or 102 and 103)

**THEO 220 Early Christian Theology (4 credits)**

A theological and historical introduction to the origins and development of the Christian church from the first to the fifth centuries. Special attention will be given to the historical emergence of Christian doctrines, creeds and canon; the formation of Christian understandings of the human person; the development of liturgical and sacramental traditions; and the interaction of Christianity with other ancient cultures. Contemporary approaches to the study of Christian origins will be emphasized.

Prerequisite: THEO 101 (or 102 and 103)

**THEO 230 Medieval Theology (4 credits)**

A study of the development of Christian theology from the fall of the Roman Empire until the Renaissance. Special attention will be given to the main themes of the classical Christian views of faith/reason, grace/nature, God/creation in the theologies of such theologians as St. Thomas Aquinas and St. Bonaventure. Other themes that may be treated: the role of monasticism and mendicant life, medieval saints such as St. Francis of Assisi and Catherine of Siena, women's spirituality, mysticism, liturgical developments, religious art and architecture, and the interaction of Christians with Jews and Muslims.

Prerequisite: THEO 101 (or 102 and 103)

**THEO 231 American Catholicism (4 credits)**

This course emphasizes the impact of cultures on one another in the growth of the Catholic community in today's United States. These world and theological views and their practical application in the piety, politics and everyday life of Catholics will be the primary focus. By summarizing significant events and characters in the history of the Catholic experience, the student will develop an understanding both of the different ethnic experiences and the theological concerns which created a pluralism among American Catholics that makes the Church of the United States truly Catholic.

Prerequisite: THEO 101 (or 102 and 103)

**THEO 240 Theology of the Protestant and Catholic Reformation (4 credits)**

An investigation of the origins of the Protestant tradition through the writings of Martin Luther, John Calvin, Ulrich Zwingli, and the Radical reformers, among others. This course also examines the Roman Catholic response, especially as articulated by Ignatius of Loyola, Teresa of Avila, and the Council of Trent. Attention will be given to the theological issues which emerged, as well as views on marriage and family life, religious and political authority, and the status of women.

Prerequisite: THEO 101 (or 102 and 103)

**THEO 243 Individual Study (4 credits)**

See the description of these courses at the beginning of the “Curricula” section of this catalog.

Prerequisite: THEO 101 (or 102 and 103)
THEO 269 Research (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.
Prerequisite: THEO 101 (or 102 and 103)

THEO 301 Theological Methods and Resources (4 credits)
This course explores the role of scripture, history, tradition and common human experience in the understanding of religious mystery and the systematic expression of that mystery in the Christian tradition. It examines both ancient and contemporary formulations of theological knowledge, requirements for theological scholarship, and consideration of certain key theological questions.
Prerequisite: THEO 101 (or 102 and 103)

THEO 302 The Second Vatican Council (4 credits)
This course examines the roots of Vatican II in the unfinished work of the First Vatican Council, together with the movements and events in the period between the councils. In addition, it analyzes major documents of the Second Vatican Council with special attention to the dogmatic and pastoral constitutions of the Church.
Prerequisite: THEO 101 (or 102 and 103)

THEO 310 Christian Worship (4 credits)
A study of Christian communal worship from historical, social science, and theological perspectives. This course examines worship as the sanctification of time, space, and life. It also includes a comparison and contrast of Eastern (Orthodox) and Western (Lutheran, Anglican, Reformed, Baptist, Methodist, Quaker, Frontier, Pentecostal) worship practices with those of Roman Catholics.
Prerequisite: THEO 101 (or 102 and 103)

THEO 314 Christian Spirituality (4 credits)
This course explores the diverse expressions of Christian spirituality. Students will discuss the definitions given to the term “spirituality” and consider methodological issues in the academic study of spirituality whether these are historical, anthropological or theological in approach. Emphasis is placed on a wide reading in the Christian tradition of both primary and secondary literature in order to assist the student in grasping the integral link between the lived faith of Christians and the theological articulation of that faith. Spiritualities will be seen in the context of their historical emergence, the unique contributions each makes to Christianity, and the link they demonstrate between spiritual life and theological insight.
Prerequisite: THEO 101 (or 102 and 103)

THEO 320 Readings from St. Thomas Aquinas (4 credits)
An introduction to the theology of St. Thomas Aquinas, his influence and his contemporary significance.
Prerequisite: THEO 101 (or 102 and 103)

THEO 323 Church and Sacramentality (4 credits)
A study of past and present models of the Church, and of sacramentality as a central expression of Christian communities. Sacramentality recognizes God’s transformation of human beings through effective signs, such as Baptism and Eucharist. This course examines the implications of various models of Church and sacramentality for the status and functions of laity, forms of ministry and authority, and the relationship between the churches.
Prerequisite: THEO 101 (or 102 and 103)

THEO 325 Catholic Social Tradition (4 credits)
This course examines Catholic reflection on social structures and patterns of moral behavior as they are expressed in economic, social and political contexts. Focus topics might include: social virtues, the role of religion in the public realm, understanding of the person in relation to society and the state, the defense of the dignity of the person, the promotion of the common good, the use of force and the meaning of justice within and between communities. Possible sources for this course might include selections from classic biblical, patristic and medieval texts; papal, conciliar and episcopal documents; writings of modern and contemporary Catholic social theorists; and social movements inspired by the tradition.
Prerequisite: THEO 101 (or 102 and 103)

THEO 330 Wisdom Writings in the Biblical Tradition (4 credits)
This course introduces students to the structure and contents of some of the major wisdom writings of the Bible, such as Proverbs, Job, Ecclesiastes, Sirach (Ecclesiasticus), and Wisdom of Solomon. Special emphasis is given to the intellectual climate and essential controversies of ancient Israel which produced the wisdom movement and its literature. One of the aims of the course is for students to experience the unique relevance of this ancient quest for wisdom in today’s climate of secularity and skepticism.
Prerequisite: THEO 101 (or 102 and 103)
Theology (THEO)

THEO 335 Letters of St. Paul (4 credits)
Through a careful reading of the authentic letters of Paul, as well as some of the letters attributed to him, this course explores the religious and cultural world of Paul and the Christian communities with whom he interacted. It will also investigate some of the major theological themes of his letters and inquire into Paul’s understanding of the ethical life of first-century Christian communities. Finally, the course will examine the impact of Paul’s theological and ethical teaching for modern Christian life.
Prerequisite: THEO 101 (or 102 and 103)

THEO 340 The Gospel of John (4 credits)
This course focuses on the gospel of John and the New Testament letters attributed to John. Employing a variety of historical and literary critical methods, the course investigates Johannean literature’s unique portrait of Jesus, the theological themes of the gospel, and the worldview and social situation of the community of Christians from which this literature emerged. It also explores some of the ways the gospel of John has been interpreted over the centuries, with special attention to the question of the gospel’s attitude toward Judaism and the historical impact of that stance.
Prerequisite: THEO 101 (or 102 and 103)

THEO 343 Apocalyptic Literature (4 credits)
This course examines some of the apocalyptic literature of the Bible, specifically the books of Daniel and Revelation, as well as non-biblical Jewish and Christian apocalyptic literature of the same periods. It explores a variety of ways of interpreting apocalyptic literature with special attention given to the meaning and significance of its mythical imagery and symbolism. It also examines the nature and function of apocalypticism as a worldview and as a theological response to universal and compelling questions such as the justice of God and the problem of evil.
Prerequisite: THEO 101 (or 102 and 103)

THEO 345 Gospels of Matthew, Mark and Luke (4 credits)
This course introduces students to the major methods of modern biblical criticism (for example, source criticism, form criticism, historical criticism, redaction criticism, literary criticism, and sociological analysis) and develops expertise in the application of each of these methods to the synoptic gospels (Matthew, Mark and Luke-Acts). Students will learn the major theological teachings, social and historical contexts, and literary features of each of the synoptic gospels.
Prerequisite: THEO 101 (or 102 and 103)

THEO 350 Historical Literature of the Old Testament (4 credits)
Many books of the Old Testament, such as Joshua, Judges, 1 & 2 Samuel and 1 & 2 Kings, contain ancient Israel’s own understanding of its history. This course examines books such as these in order to examine their historical content, and to develop an appreciation for the way history was told in the ancient world. Students will learn to apply certain methods of biblical study to the texts. In addition, several major themes in the biblical histories will be explored, such as prophecy, monarchy and developments in Israelite worship. One aim of the course is to examine the relationship between the memorable story telling in these texts and the theological message for both the ancient and modern audience.
Prerequisite: THEO 101 (or 102 and 103)

THEO 352 The Pentateuch (4 credits)
Critical and in-depth investigations of various Pentateuchal traditions: Primeval Stories; Patriarchs; Exodus; Sinai Covenant; Laws; Entry into Canaan. Particular emphasis will be focused on their origin, transmission, mutual relationships and final theological unity.
Prerequisite: THEO 101 (or 102 and 103)

THEO 357 Sacred Music of the Catholic Heritage (4 credits) (equivalent to CATH 357)
Music both expresses and shapes religious experience. This course explores the practice and theory of music-making in Catholic worship and devotion. Special emphasis will be given to the study of Gregorian chant as foundational for Roman Rite worship music, the historical development of other forms of Catholic church music, and contemporary issues of music, culture and spirituality.
Prerequisite: THEO 101 (or 102 and 103)

THEO 360 Contemporary Catholic Theologians (4 credits)
This course concentrates on the study of two to four influential Catholic systematic theologians of the 20th and 21st centuries within their historical, cultural, and philosophical contexts. The course will alternate between the study of the prominent themes and concerns of the modern and post-modern world, and the theologians’ varied responses to these issues through substantial primary text reading and discussion. The Second Vatican Council’s impact upon systematic work will be measured as well.
Prerequisite: THEO 101 (or 102 and 103)

THEO 365 Prophetic Literature of the Old Testament (4 credits)
This course examines biblical prophetic activity and prophetic texts within their ancient Near Eastern context. Biblical texts will include both narratives about the prophets, and collections of oracles in the prophetic books. The course includes an examination of
the nature and function of prophetic activity from a cross-cultural perspective, the historical background of the prophets, as well as the literary forms and Israelite traditions utilized in the oracles. It will be seen that this background is essential to any discussion of the theology of the prophets.

Prerequisite: THEO 101 (or 102 and 103)

**THEO 369 Salvation and Damnation: Theology of Luther and Calvin (4 credits)**
How are humans saved? Do we have a free will? Does God choose some to be saved and others to be damned? This course examines the answers offered to these questions by two influential Protestant reformers: Martin Luther and John Calvin. It also explores their views on marriage and family life, work, religious and political authority, and the status of women.

Prerequisite: THEO 101 (or 102 and 103)

**THEO 373 The Person and Mission of Jesus Christ (4 credits)**
This course explores New Testament understandings of some of the titles of Jesus, such as Christ, Lord, and Savior, and investigates the development of Christological doctrine in the early centuries of Christianity. Consideration will also be given to some modern Christological questions.

Prerequisite: THEO 101 (or 102 and 103)

**THEO 380 Grace, Hope and Eschatology (4 credits)**
This course explores the connections among the life of grace, Christian hope and the traditional “last things” – death, judgment and eternal life using the death-resurrection of Jesus as the foundation and point of departure for study.

Prerequisite: THEO 101 (or 102 and 103)

**THEO 381 Topics in Systematic Theology-Half Course (2 credits)**
This course will consider particular topics in systematic theology. Topics covered will vary from section to section, but will not duplicate existing courses. Because topics vary, the course may be taken more than once. Intended primarily for January term, this course fulfills HALF (2 credits) of the second-level requirement for Faith and the Catholic Tradition.

Prerequisite: THEO 101 (or 102 and 103)

**THEO 383 Topics in Historical Theology-Half Course (2 credits)**
This course will consider particular thinkers, texts, themes, or movements in the history of theology. Topics covered will vary from section to section, but will not duplicate existing courses. Because topics vary, the course may be taken more than once. Intended primarily for January term, this course fulfills HALF (2 credits) of the second-level requirement for Faith and the Catholic Tradition.

Prerequisite: THEO 101 (or 102 and 103)

**THEO 384 Topics in Moral Theology-Half Course (2 credits)**
This course considers particular topics in moral theology. Topics covered will vary from section to section, but will not duplicate existing courses. Because topics vary, the course may be taken more than once. Intended primarily for January term, this course fulfills HALF (2 credits) of the second-level requirement for Faith and the Catholic Tradition.

Prerequisite: THEO 101

**THEO 386 Topics in Systematic Theology (4 credits)**
The subject matter of this course, announced in the Searchable Class Schedule on Murphy Online, https://banner.sthomas.edu/pls/banner/prod/bwckschd, will vary from year to year, but will not duplicate existing courses in systematic theology. Examines of topics are: Theologies of Global Economics, the Church in Latin America, Theology of the Catholic Worker Movement, Women Mystics, Ireland: Understanding Celtic Spirituality, and Newman and the Catholic Revival.

Prerequisite: THEO 101 (or 102 and 103)

**THEO 387 Topics in Scripture (4 credits)**
The subject matter of this course, announced in the Searchable Class Schedule on Murphy Online, https://banner.sthomas.edu/pls/banner/prod/bwckschd, will vary from year to year, but will not duplicate existing courses in scripture. The course introduces students to major methods of biblical criticism and helps students develop expertise in the application of appropriate methods to a given scriptural book or topic. The topic could consist of a focus on a particular text, such as Psalms or the Catholic Epistles, or on a theme related to scriptures, such as Biblical Ethics or History of Biblical Interpretation. The course may be taken more than once.

Prerequisite: THEO 101 (or 102 and 103)

**THEO 388 Topics in Historical Theology (4 credits)**
The subject matter of this course, announced in the Searchable Class Schedule on Murphy Online, https://banner.sthomas.edu/pls/banner/prod/bwckschd, will vary from year to year, but will not duplicate existing courses in historical theology. The course will consider particular historical thinkers, texts, themes or movements and help students to develop expertise in the theological consideration and analysis of them. This course may be taken more than once.
Theology (THEO)
Prerequisite: THEO 101 (or 102 and 103)

THEO 389 Issues in Christian Morality (4 credits)
This course focuses on the historical development and contemporary discussion of a specific moral issue to be announced in the Searchable Class Schedule on Murphy Online, https://banner.sanohomas.edu/pls/banner/prod/bwckschd--addressed within the Christian theological tradition. Examples of such issues include, but are not limited to: war and peace, sex and the body, wealth and poverty, family and society. Emphasis will be on the foundations (biblical, traditional) and development of a distinctively Christian approach to the issue. Substantial attention will be devoted to modern challenges. This course may be taken more than once.
Prerequisite: THEO 101 (or 102 and 103)

THEO 391 Seminar for Theology Majors and Minors (4 credits)
A capstone experience for theology majors and minors. The subject matter of this course, announced in the annual class schedule, will vary from year to year, but will not duplicate already existing theology courses. Students explore, in seminar format, a particular theological theme or issue from the perspective of at least three of the four sub-disciplines of theology (biblical, systematic, historical, moral). Under the guidance of the instructor, students will complete a major research project.
Prerequisite: a minimum of sixteen credits in theology, including THEO 101 (or 102 and 103)

THEO 392 Topics in Scripture Theology-Half Course (2 credits)
This course will consider selected topics, themes, or texts in the Christian scriptures, and will introduce students to the major methods of biblical criticism. Topics covered in this course will vary from section to section, but will not duplicate existing courses. Because topics vary, the course may be taken more than once. Intended primarily for January term. This course fulfills HALF (2 credits) of the second-level requirement for Faith and the Catholic Tradition.
Prerequisite: THEO 101 (or 102 and 103)

THEO 393 Research thesis for Majors (4 credits)
An independent research thesis for majors to be completed under the direction of a theology faculty member. The results of this thesis, at the student’s option, may be presented at the annual Senior Forum, in which theology majors present their research work before theology students and faculty members. The research thesis is best suited to students who intend to pursue an academic career in theology. See the department chair for further information.
Prerequisite: permission of chair

THEO 394 Death and the Afterlife (4 credits)
This course explores Christian and non-Christian conceptions of death and afterlife. It focuses on Christian theological views, but also considers Jewish, Muslim, Hindu, and Buddhist conceptions. Specific topics addressed will be ideas of judgment, heaven, purgatory, hell, reincarnation, and accounts of near-death experiences.
Prerequisite: THEO 101 (or 102 and 103)

THEO 395, 396 Special Seminar (2 credits)
THEO 397, 398 Special Seminar (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.sanohomas.edu/pls/banner/prod/bwckschd.
Prerequisite: THEO 101 (or 102 and 103)

THEO 403 Theology and Genetics (4 credits)
Our knowledge of the fundamental properties of organic life has grown exponentially in the last several decades, as has our ability to manipulate those properties for the relief of suffering and the improvement of human life. The application of that knowledge to human life has sparked vigorous debate on a variety of distinct but related levels of inquiry: scientific, practical, moral, political, philosophical, and theological. This course aims to introduce students to a representative sampling of these debates. It emphasizes the theological dimension underlying them all.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 405 Spiritual Formation (0 credits)
Person involved in lay ministry can provide appropriate spiritual leadership only if they themselves pursue a vibrant, adult faith life. This zero credit course introduces student to resources and religious practices from a variety of faith traditions that will contribute to their own spiritual development. Through group discussion and reflective assignments, they will also have opportunities to reflect upon their gifts, strengths and limitations for lay ministry. Required of all students completing the ministry concentration. Enrollment in the lay ministry program or permission of instructor required.
Prerequisite: Enrollment in lay ministry program or permission of instructor
THEO 406 Pastoral Ministry (4 credits)
This course explores some of the issues and challenges that pastoral leaders face in diverse ministries in local faith communities. Participants will examine the theological foundations of pastoral ministry that emerge from church teaching and magisterial documents; explore their own realities as emerging pastoral leaders; identify the functions of pastoral leadership; assess their preparation and gifts for pastoral leadership; practice a process of theological reflection that enhances the way they minister; and be able to identify the pertinent knowledge, competencies and spirituality needed to be effective pastoral ministers. Participants will also have an opportunity to examine, in more depth, ministry to a particular population in a faith community (e.g., needs addressed by your ministry, family ministry, ministry to the bereaved, ministry to young adults, ministry to the poor and marginalized, etc.) and determine how the faith community assess and responds to specific pastoral needs. Through the study of church documents and pastoral resources interviews with pastoral leaders, observations of pastoral ministry in local churches, library research, self-assessment inventories, reflective assignments, and case studies, participants in this course will articulate a theological foundation for their own vocation and identify a plan for their own continued personal, spiritual, and professional growth as pastoral leaders. This course is intended for students pursuing the concentration in lay ministry. Field observation is required.
Prerequisites: four college-level courses in theology

THEO 407 Catechesis & Faith Formation (4 credits)
Ecumenical in nature, this course is designed to help students connect the knowledge and skills they have gained in previous theology courses to the practice of catechetical ministry and adult faith formation in a parish or church setting. Students will investigate various strategies for evangelization, particularly for outreach to people of diverse backgrounds. They will learn how one’s faith development is related to the various stages of events in one’s life and investigate ways to relate church teachings and Christian scriptures to the faith development and formation of both youth and adults. To this end, they will study relevant catechetical documents and learn how to assess catechetical and faith formation programs for their appropriateness to a particular community of faith. Emphasis will be placed on the Rites of Christian Initiation of Adults as paradigmatic for Christian formation across the life span. This course is intended for students pursuing the concentration in lay ministry. Field observation is required.
Prerequisites: Four college-level courses in theology

THEO 411 Catholicism and Modernity (4 credits)
The course addresses the development of the Catholic Church and Catholic theology from the medieval age to contemporary times. A key theme in this history is an understanding of the “political culture” of Catholicism, that is to say, its developing theology of government, power, rights, revolution, geopolitics, and globalization. The course relies on history, Canon law, and political science as sources of its theological evaluation of the continuing encounter of Catholicism and modernity.
Prerequisites: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 417 Internship in Ministry (4 credits)
This internship complements the student’s academic work by providing supervised ministerial experience. Working with an on-site ministry staff person, the student will apply his or her academic training to a chosen area of ministry. A minimum of 10 hours per week at the selected agency or church is required, as well as a weekly seminar session led by a UST Theology faculty member.
Prerequisite: Completion of 24 credits in theology, including THEO 101 (or 102 and 103) and 215

THEO 420 Theology and the Biomedical Revolution (4 credits)
This course examines the contributions of Christian faith to reflecting upon, understanding, and resolving issues and ethical questions raised by revolutionary developments in the life sciences, e.g. innovative birth technologies, genetic manipulation and control, human experimentation, the prolonging of life and allocation of scarce medical resources.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 421 Theologies of Justice and Peace (4 credits)
An examination of the views of various religions and ideologies on issues of justice and peace, with special attention to the Catholic and other Christian teachings on such issues as war and peace, violence, economic justice, the environment, criminal justice, and social justice. Special attention is given to how fundamental presuppositions and principles of each group studied affect their views on justice and peace, and contribute to or hinder dialogue and peaceful interaction with other groups. In addition to Christianity, students will study (at least) one Far Eastern worldview (e.g. Buddhism, Hinduism, Jainism), one tribal religion (Native American, African tribal), Islam, and one secular worldview (e.g. Marxism, capitalism, secular humanism). Students are required to investigate one worldview in depth through a semester-long research project. This course fulfills the Human Diversity requirement in the core curriculum.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 422 Christian Faith and the Management Professions (4 credits) (equivalent to CATH 306)
What is a good manager and how does he or she contribute to the common good? This course pursues these questions within the Christian social tradition broadly understood through an exploration of the theological relationship between work as a vocation and leisure as contemplation. Within this theological context, the course examines the financial, organizational, technological, and cul-
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 423 Christian Marriage (4 credits)
This course is designed to acquaint students with the theology of Christian marriage, understood as covenant relationship and as sacrament, that is, an effective sign of God’s love in our world. Primary though not exclusive emphasis will be on the Roman Catholic tradition. Students will also examine contemporary cultural attitudes toward sexuality, marriage, and the family in the light of Christian theology.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 424 Christianity and World Religions (4 credits)
This course is a comparison of the teachings and practices of Christianity with the teachings and practices of selected non-Christian religions, for example, American Indian (Lakota), Judaism, Islam, Hinduism and Buddhism. The aim of the course will be to clarify similarities and differences between Christianity and other religions, to reflect on the problem posed by religious pluralism in modern culture, and to develop a Christian theology of world religions. This course fulfills the Human Diversity requirement in the core curriculum.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 425 Judaism (4 credits)
An examination of Judaism, its history, literature, religious concepts, practices and personalities. This course fulfills the Human Diversity requirement in the core curriculum.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 426 Islam (4 credits)
This course is designed to familiarize students with the basic beliefs and practices of Islam in its diverse cultural expressions worldwide, including worship, family life and intellectual and artistic traditions. Through a close reading of Qur’anic and biblical texts, students will consider how Islam is both similar to and different from the other two major monotheistic faiths, Judaism and Christianity. Finally, the course will examine how both Islam and Christianity are meeting the challenges of modern culture. This course fulfills the Human Diversity requirement in the core curriculum.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 427 Evil and Suffering (4 credits)
This course analyzes some of the most profound evils of the modern era, and attempts to relate them to traditional and contemporary discussions of divine and human responsibility. It is especially concerned with the unique features of modern evils, including their presence in certain social structures, political systems and scientific technologies. Specific subjects for study, which will vary from year to year, may include: the Holocaust; slave trade; genocidal colonization in Africa, Asia, and the Americas; the threat of nuclear annihilation. The course investigates how religious faith might be re-interpreted in light of these evils, and whether the notion of a suffering deity is theologically appropriate for Christian faith.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 428 Women and the Old Testament (4 credits)
This course explores the topic of women and the Old Testament from several different vantage points. In the first place, it will try to reconstruct the status and roles of women during the biblical periods at various points in their ancient Near Eastern context. This reconstruction will involve an examination of the legal and narrative material of the Old Testament and cross-cultural studies on women and family life in non-industrial countries. Secondly, the course investigates the conceptions of gender in the Old Testament, including key texts such as the creation stories, the stories about the ancestors, the stories about family honor, the female characters of the historical books of the Bible, the books named after women (Ruth, Esther, Judith), the texts symbolizing woman as evil (e.g., the foreign woman, the adulterous wife, the whore of Babylon). Finally, the course studies the interpretive work of biblical scholars and how they utilize various historical and literary-critical methodologies in order to bring issues of gender, race, and class to bear upon the biblical text. This course fulfills the Human Diversity requirement in the core curriculum.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 429 Women and the Christian Tradition (4 credits)
This course explores the ways in which the Judeo-Christian religious tradition has profoundly influenced our society’s definition of women. It will focus on what some of the major works of this tradition assert about the nature and place of women in their particular historical communities. Students will also read religious literature by women in order to acquire a sense of women’s religious experience both throughout history and in the present day. This course fulfills the Human Diversity requirement in the core curriculum.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115
THEO 430 Music and the Bible (4 credits)
This course explores the social, cultural and religious contexts for music-making among biblical peoples and the primitive Christian communities. Students will learn to do detailed analysis of psalm and canticle texts in the Old Testament and acclamations, infancy canticles, God-hymns, Christ-hymns and psalmody in the New Testament. Implications for present-day worship and spirituality will also be addressed.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 431 Women in the Early Church (4 credits)
The literature of early Christianity is filled with ambiguity concerning women’s role in the churches and in the story of salvation. Women’s subordination was justified on the basis of Eve’s role in bringing evil and sin into the world. At the same time, women were presented as heroines and models of the ideal Christian life. They held roles of leadership within early church communities, even while early church writers argued against their right to do so. This course will examine a wide range of primary texts by and about women in the early Christian churches in order to explore the relationship between faith and culture as the context for understanding women’s role and status in the early church. It will also look at ways in which these texts might be relevant for the modern context. This course fulfills the Human Diversity requirement in the core curriculum.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 432 Black Religious Experience (4 credits)
This course explores Black theological development as a cultural, functional and cognitive dimension of traditional Afro-American society, including belief, worship, expression, symbol, spirituality and God. Attention will be given to the meaning and roots of the notions of culture, nationalism and racism as they appear as questions in Black theological thought, including African religions, Islam and The Nation of Islam, along with Afro-American Christian theologies. African as well as Afro-American religious experience combined with the affirmation of the Christian creed are identified in order to evaluate the questions of Black Catholic theology in America today. This course fulfills the Human Diversity requirement in the core curriculum.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 433 Theology and Politics (4 credits)
A theological investigation of changing relationships between Christianity and the political order, principally in religious terms as understood by Christians themselves, but also from the vantage point of government. Emphasis in the first half of the course is on the foundational events of the New Testament and the early Christian era, and in the second half on Christianity’s experience with secular and democratic modernity in America. The aim of the course is to measure the effect, in changing historical contexts, of persecution, establishment, and disestablishment, on a religion which professes both to be rooted in transcendent reality, and to have direct implications for life in this world. Primary readings from scripture, ancient and modern theology, speeches, sermons, Supreme Court decisions, and political, sociological and religious reflections on the American experiment with democracy and freedom of religion.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 434 Science and Christian Theology (4 credits)
This course is an introduction to the interrelationship between Christian theology (the understanding of the Christian faith), and the natural sciences. It explores the relationship between scientific and theological methods and modes of knowledge, and considers some of the central topics of Christian theology God, creation, providence, resurrection, and afterlife—in the light of modern scientific evidence and theories.
Prerequisites: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course, PHIL 115, and one science course

THEO 435 Atheists and Apologists (4 credits)
This course explores the problem of religious belief in a secular society by focusing on the effects of the empirical and human sciences on the classical understanding of God. Considering original thinkers, such as Descartes, Kant, Hegel, Marx, Darwin, Nietzsche, and Freud, the course will explore the emergence of several types of atheism and the intellectual defense of religious belief. Students will do a detailed reading of selected texts, which may include theological, philosophical, scientific, and literary works.
Prerequisites: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 436 Christian Faith and the Legal Profession (4 credits)
If to work is to share in the creative activity of God, then what specific challenge does this pose for an attorney given the grinding realities of the legal profession? If to be a professional is to live out a tripartite relationship between self, client, and a higher standard, then how does an attorney determine, much less respond to such a standard? Through a close reading of a variety of theological texts, treatises, case studies and rules of professional conduct, this course will address these questions and, in so doing, attempt to fashion a paradigm for the Christian practice of law. Within this paradigm, emphasis will be placed on the meaning of justice, law, rights and responsibilities. An ethic of care that fosters the development of a compassionate world and a common life will be emphasized.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115
THEO 437 Christian Faith and the Health Care Professions (4 credits)
What is a good health care professional? This course pursues this question and possible answers to it, from a historical, moral, and theological point of view. Reading and discussion will be guided by a detailed investigation of the scientific/technological, economic, and cultural forces that are presently complicating our traditional understanding of health care. Emphasis throughout will be on the Christian tradition of moral inquiry as a resource for responding to this question.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 438 Theology of Crime, Punishment, and Forgiveness (4 Credits)
This course will explore U.S. criminal justice systems from several theological viewpoints and it will cultivate a conversation between the resources of theology and criminology in the search for responses to the current crisis in these systems. The overlapping themes in criminology and theology of crime and sin, punishment and penance, rehabilitation and redemption, restoration and forgiveness will shape the discussion. Students pursuing vocations in criminal justice will have an opportunity to consider the relationship between their work and Christian theology, while students who are interested in the topic as involved citizens may come to see how they may play a part in addressing this issue.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 439 History of Religion in America (4 credits)
This course traces the evolution of religion in the territories that constitute the United States of America today. This collection of believers (Native, Catholic, Protestant, Jewish, Muslim, etc.) initially emerged from the complex encounters between the indigenous Native American residents and a triduum of European explorers (Spanish, French, and English). Ultimately it not only incorporated several additional imported communities and belief systems, but also created a unique blend of the sacred and the secular. Attention will be given to the social dynamics of these communities, their understanding of God, and the theologies that developed. The polemical and harmonious relationships of these communities will serve as a backdrop to the development of key concepts (religion, culture, belief, common good, values, etc.) as they appear in the religious vocabulary of citizens of the USA.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 440 Hinduism and Buddhism (4 credits)
This course investigates Hinduism and Buddhism, the two great Asian religions that have had worldwide impact. We will examine the historical and theological foundations of each religion as well as the plurality of expressions within each. Considerable attention will be paid to classical Hindu and Buddhist texts. This course will also attend to issues of comparative religion and interreligious dialogue, particularly with regard to Christianity.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 445 Theology and Education (4 credits)
A study of topics and procedures for teaching religion. Using previously acquired theological knowledge, the course examines the tasks of translating and transmitting that knowledge as a series of insights to elementary and secondary students.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 446 Theology and Psychology (4 credits)
This course will investigate the relationship between psychology and theological approaches to human existence. This course will address interfacing issues such as how the human person is variously conceived, the relationship between pathology and sin, the purpose and meaning of human life, and the relationship between human flourishing and spiritual development. There is an inherent, creative tension between the assumption and methods of both discipline, one typically seeking adjustment and individuation and the other seeking holiness and realizing the reign of God. Through lecture, critical reading, class discussion, and student research this course shall examine how both academic disciplines inform and challenge each other.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115 and one Psychology course

THEO 447 Faith, Social Transformation and Social Work (4 credits)
There are strong ties between the profession of social work and Christian social morality. Social workers promote social change, healthy human relationships and the enhancement of personal well-being. Many social workers see their work as a vocation. They are often moved to join the profession and are motivated in profession by spiritual beliefs. Christian social ethics affirm these goals. This course will explore the ties and the tensions between social work, social transformation and Christian ethics.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 448 Theology and Literature (4 credits)
How do various writers explore and convey their understanding of theological categories such as God, humanity, creation, redemption, faith, doubt, good, and evil? How does looking at the interplay of form and content, the elements and purpose of storytelling, and the connection of culture and ideology to artistic expression shed light on key theological questions? This team-taught course will explore these literary and theological questions through critical engagement with texts from a variety of time periods, literary genres, and religious perspectives.
Theology (THEO)

ment in the core curriculum.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 456 Christianity and Consumer Culture (4 credits)
Consumerism can be defined as the tendency to reduce both the material and the spiritual to commodities. This course is an extended investigation of the dynamics of consumerism in American culture from the perspective of the Christian intellectual tradition. Sources drawn upon will include materials from theology, political theory, philosophy, and economic theory. Attention will be given to the history of consumerism, the theology implicit in consumerism, and different Christian reactions to the phenomenon of consumerism.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 457 Theology and Public Discourse (4 credits)
This course addresses students as citizen believers, mapping out what role they can play in public life. It first examines the Christian tradition and its teachings on responsible citizenship. It then examines the questions using legal and political theory form before our founding as a nation through the debates about the nature of our democracy today. The rest of the course is focused on preparing students as citizen believers to enter the public square with their own theological argument on contemporary political topic of interest to them, which they will make public through varied written formats and class debate.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 458 The Bible from a Multicultural Perspective (4 credits)
This course examines the interaction between biblical interpretation and diverse contemporary cultures. The course defines multiculturalism broadly to include race/ethnicity, gender, sexual orientation, class and/or religion. The course has three goals: a reconstruction of the cultural context of the ancient world; an examination of challenges posed by cultural theories; and the impact diverse readings have for contemporary theologies based on the Bible.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 459 Theology and the Environment (4 credits)
This course addresses environmental issues that are of mutual concern to theologians and the natural or social sciences; thus it will study scientific analysis along with theological perspectives. The course will also review contemporary practices and/or policies that address environmental problems.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 460 Christian Ethics and U.S. Immigration (4 credits)
This course will bring the tools and the methods of Christian ethics to bear on the issue of economic immigration in the contemporary, U.S. context. The first part of the course examines the economic, political, historical, social and cultural dimension of transnational migration in the U.S. context. The second part of the course will bring the resources of Christian ethics to the ethical issues of immigration raised in the first part of the course. This second part of the course will examine the centrality of lateritic (otherness) in the Bible and the Christian tradition. The course will conclude with the discussion of how Christian ethics can inform the national discourse on the issues and conversely, how the issues of migration must shape Christian ethics.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 462 Theology and Literature of C.S. Lewis (4 credits)
This course will focus primarily on C.S. Lewis’ literary works, especially, but not exclusively, on his fiction. The course will also include some critical works, both Lewis’ as well as others’ work about Lewis. In addition, numerous biblical passages will be examined, including the parables of Jesus, which, as a parallel to Lewis’ work, can demonstrate the theological possibility of narrative. Class lectures and readings in and about Lewis will explore Christian theology and its interdisciplinary relations to literature, especially myth. Through the lens of Lewis’ literature, historical, philosophical, moral, educational, and global issues will be considered.

THEO 463 The Bible and American Politics (4 credits)
This course examines the use and misuse of the Bible and its political teachings in American political history. Readings and discussions will address the political message of the Bible, the questions of whether the Bible played any substantial role in the creation of the American polity, and the way in which particular biblical passages, themes, and schools of interpretation have functioned in American political discourse and have influenced the development of American history.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 464 Jesus Christ and Interreligious Dialogue (4 credits)
This course will explore the identity and role of Jesus in Christianity in relation to Judaism, Islam, Hinduism, and Buddhism. It will show the similarities and differences in the various approaches to Jesus in the context of each of these respective religions and of interfaith dialogue.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 455 "THEO 460" Christian Ethics and U.S. Immigration (4 credits)
This course will bring the tools and the methods of Christian ethics to bear on the issue of economic immigration in the contemporary, U.S. context. The first part of the course examines the economic, political, historical, social and cultural dimension of transnational migration in the U.S. context. The second part of the course will bring the resources of Christian ethics to the ethical issues of immigration raised in the first part of the course. This second part of the course will examine the centrality of lateritic (otherness) in the Bible and the Christian tradition. The course will conclude with the discussion of how Christian ethics can inform the national discourse on the issues and conversely, how the issues of migration must shape Christian ethics.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 456 Christianity and Consumer Culture (4 credits)
Consumerism can be defined as the tendency to reduce both the material and the spiritual to commodities. This course is an extended investigation of the dynamics of consumerism in American culture from the perspective of the Christian intellectual tradition. Sources drawn upon will include materials from theology, political theory, philosophy, and economic theory. Attention will be given to the history of consumerism, the theology implicit in consumerism, and different Christian reactions to the phenomenon of consumerism.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 457 Theology and Public Discourse (4 credits)
This course addresses students as citizen believers, mapping out what role they can play in public life. It first examines the Christian tradition and its teachings on responsible citizenship. It then examines the questions using legal and political theory form before our founding as a nation through the debates about the nature of our democracy today. The rest of the course is focused on preparing students as citizen believers to enter the public square with their own theological argument on contemporary political topic of interest to them, which they will make public through varied written formats and class debate.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 458 The Bible from a Multicultural Perspective (4 credits)
This course examines the interaction between biblical interpretation and diverse contemporary cultures. The course defines multiculturalism broadly to include race/ethnicity, gender, sexual orientation, class and/or religion. The course has three goals: a reconstruction of the cultural context of the ancient world; an examination of challenges posed by cultural theories; and the impact diverse readings have for contemporary theologies based on the Bible.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 459 Theology and the Environment (4 credits)
This course addresses environmental issues that are of mutual concern to theologians and the natural or social sciences; thus it will study scientific analysis along with theological perspectives. The course will also review contemporary practices and/or policies that address environmental problems.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 460 Christian Ethics and U.S. Immigration (4 credits)
This course will bring the tools and the methods of Christian ethics to bear on the issue of economic immigration in the contemporary, U.S. context. The first part of the course examines the economic, political, historical, social and cultural dimension of transnational migration in the U.S. context. The second part of the course will bring the resources of Christian ethics to the ethical issues of immigration raised in the first part of the course. This second part of the course will examine the centrality of lateritic (otherness) in the Bible and the Christian tradition. The course will conclude with the discussion of how Christian ethics can inform the national discourse on the issues and conversely, how the issues of migration must shape Christian ethics.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 462 Theology and Literature of C.S. Lewis (4 credits)
This course will focus primarily on C.S. Lewis’ literary works, especially, but not exclusively, on his fiction. The course will also include some critical works, both Lewis’ as well as others’ work about Lewis. In addition, numerous biblical passages will be examined, including the parables of Jesus, which, as a parallel to Lewis’ work, can demonstrate the theological possibility of narrative. Class lectures and readings in and about Lewis will explore Christian theology and its interdisciplinary relations to literature, especially myth. Through the lens of Lewis’ literature, historical, philosophical, moral, educational, and global issues will be considered.

THEO 463 The Bible and American Politics (4 credits)
This course examines the use and misuse of the Bible and its political teachings in American political history. Readings and discussions will address the political message of the Bible, the questions of whether the Bible played any substantial role in the creation of the American polity, and the way in which particular biblical passages, themes, and schools of interpretation have functioned in American political discourse and have influenced the development of American history.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115

THEO 464 Jesus Christ and Interreligious Dialogue (4 credits)
This course will explore the identity and role of Jesus in Christianity in relation to Judaism, Islam, Hinduism, and Buddhism. It will show the similarities and differences in the various approaches to Jesus in the context of each of these respective religions and of interfaith dialogue.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115
THEO 465 Justice and the Bible (4 credits)
This course will investigate ways that the Bible has been and can be used to address issues of social justice and peace in today's world, both within Christian faith communities and in public debate. Topics of investigation may include war, poverty, oppression, human rights, world hunger, immigration, ecology, globalization, capital punishment, genocide, euthanasia, and racial, gender, and economic inequities. Attention will be given to contemporary approaches to the study of the Bible that lend themselves to exploring these issues. The instructor may opt to focus on the Old Testament or the New Testament of the Christian scriptures. 
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115.

THEO 466 The Qur'an and the Bible (4 credits)
This course will examine the Bible and the Qur'an and compare them. Points of comparison might include: competing claims of divine inspiration; creation, Adam and Eve; Joseph; the law; Mary and Jesus; Mohammed and Jesus. This course has three goals. First, to gain an understanding of each broad tradition (Islamic from the Qur'an, and Jewish and Christian from the Bible); second, to develop a method by which to approach sacred texts, a way to see their relevance and power and third, to appreciate both the differences and the similarities in these two sacred texts, both in their literary features, and in their effect upon society. This course fulfills the Human Diversity requirement in the core curriculum.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115.

THEO 467 Muslim Christian Dialogue (4 credits)
This course will explore what Christianity and Islam have in common, where they differ, and what are the most fruitful points of dialogue between the two religions. We will examine both Muslim and Christian perspectives on a range of topics, including God, revelation/prophecy, Jesus, Muhammad, scripture, human nature, women and marriage, morality, peace and war, religion and politics, salvation, and eschatology. We will also consider some ongoing examples of Muslim-Christian dialogue, as well as papal statements concerning Islam and Muslim responses to those statements.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115.

THEO 471 Global Christianity (4 credits)
The history of Christianity is a history of inculturation in diverse geographical and cultural settings. The axis of contemporary Christianity is shifting to the global South. This course examines the dramatic implications of this shift. The particular focus is on how differing cultural perspectives inform Christian teaching and how Christian teaching grounds and guides the process of inculturation. Specific topics may include: the growth of new Christian movements and the effect of this growth on historic established churches, the developing theology of engagement in the world and its implications, and the potential for Christian solidarity to reshape national, ethnic, and class loyalties.
Prerequisite: THEO 101 (or 102 and 103) and one 200-level or 300-level THEO course and PHIL 115.

THEO 475, 476 Experiential Learning (2 credits)
THEO 477, 478 Experiential Learning (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

THEO 483, 484 Seminar (2 credits)
THEO 485, 486 Seminar (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

THEO 487, 488 Topics (2 credits)
THEO 489, 490 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

THEO 491, 492 Research (2 credits)
THEO 493, 494 Research (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

THEO 495, 496 Individual Study (2 credits)
THEO 497, 498 Individual Study (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.
Urban studies is an interdisciplinary field of inquiry which treats the city as responsible for the creation of unique patterns of social and physical organizations. The minor provides students with an opportunity to study the “urban way of life” using the insights generated by the traditional social science disciplines. By exposing themselves to such variety, students obtain a more comprehensive and integrated view of the city than is possible within a single discipline. The minor is recommended for those students interested in entering careers or fields of academic study relating to urban issues and problems. These include fields such as public administration, urban planning, transportation, and planning. The minor also is recommended for students with career interests in the non-profit sector as well as for those interested in private sector careers which require substantial interaction with the public sector. Students are also encouraged to participate in the HECUA (Higher Education Consortium for Urban Affairs) programs. Descriptions of the HECUA programs are located under that title in this catalog.

**Minor in Urban Studies**

- ECON 252 Principles of Microeconomics (4 credits)
- ECON 333 Regional and Urban Economics (4 credits)
- POLS 303 Urban and Metropolitan Politics and Government (4 credits)
- SOCI 332 Urban Sociology (4 credits)

**WOMEN’S STUDIES (WMST)**

The Associated Colleges of the Twin Cities (ACTC) offer a cooperative major in women’s studies. Women’s studies is an interdisciplinary program which takes gender as its critical term of inquiry, exploring it as a social construct and analyzing its impact on traditional disciplines. As an interdisciplinary major and minor, women’s studies spans the curriculum, incorporating many disciplines in a diverse and stimulating package of courses. Courses consider historical and contemporary contexts from multicultural and multiracial perspectives, and focus on the intersections of race, class, gender, ethnicity, sexuality, religion, and culture.

Students in the program learn how to analyze social forces and assumptions that have shaped women’s lives on individual, national, and global levels. This flexible program of study combines theoretical, practical and research components and provides preparation for both advanced study and professional work, for example, in organizations focusing on women, in human relations departments of corporations, and in health or legal professions.

Women’s studies majors and minors are encouraged to study abroad. Specific courses taken abroad may substitute for St. Thomas requirements. See the director of women’s studies, a study abroad advisor in the International Education Center, or Academic Information & Programs in the front section of this catalog for program options.

**Major in Women’s Studies**

- WMST 205 Foundations in Women’s Studies (4 credits)
- WMST 327 Feminist Theory (4 credits)
- Internship Course (designated as Individual Study)
- WMST 480 Women’s Studies Seminar (4 credits) or a Directed Research Project may be substituted with approval of campus director

**Plus:**

- Approved Women’s Studies electives within the following categories:

  Eight elective credits
  Twelve upper-level elective credits
  Four credits in global/racial/ethnic elective

  **Note:** The elective credits must be either 8 credits within the Humanities and 12 credits within Social/Natural Sciences, or 12 credits within Humanities and 8 credits within Social/Natural Sciences.
Minor in Women’s Studies
WMST 205 Foundations in Women’s Studies (4 credits)

Plus:
Approved Women’s Studies electives within the following categories:

Eight credits in Humanities
Eight credits in Social Sciences/Natural Sciences

Recommended:
WMST 480 Women’s Studies Seminar (4 credits) or a Directed Research Project may be substituted with approval of campus director

Note: The seminar can count as one of the Humanities or Social/Natural science courses.

Transfer students:
Students who transfer to St. Thomas and wish to complete a major or minor in Women’s Studies are urged to consult with the director of Women’s Studies immediately upon transfer.

WMST 205 Foundations in Women’s Studies (4 credits)
This multi-disciplinary course is designed to raise awareness of women’s status and women’s diversity; to critically examine disciplines and social practices through the lens of feminist theory; to recover past achievements of women and survey the work that women do now; to expand perspectives; and to provide a basis for critical evaluation of future learning. Available each semester on at least one consortial campus, usually offered at UST Spring semester. This course fulfills the Human Diversity requirement in the core curriculum.

WMST 295, 296 Topics (2 credits)
WMST 297, 298 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

WMST 327 Feminist Theory (4 credits)
This interdisciplinary feminist theory course is designed as a mid-level course to serve as a bridge between the Foundations in Women’s Studies course and the Senior Seminar. The content of the course will focus on theorizing around multiple differences of gender, race, ethnicity, class, and sexuality. As an interdisciplinary course, it provides an overview of historical and ideological trends in feminist thought around these differences. The focus may vary, and may include feminist theories from the fine arts, history, literary studies, philosophy, psychology, the sciences, and sociology.

WMST 475, 476 Experiential Learning (2 credits)
WMST 477, 478 Experiential Learning (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

WMST 480 Women’s Studies Seminar (4 credits)
This advanced capstone course for the Women’s Studies major is a multi-disciplinary seminar usually taken during the student’s senior year. The course will include student research and presentations that incorporate feminist theory. It will rotate among the different campuses of the ACTC.
Prerequisite: WMST 205

WMST 483, 484 Seminar (2 credits)
WMST 485, 486 Seminar (4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

WMST 487, 488 Topics (2 credits)
WMST 489, 490 Topics (4 credits)
The subject matter of these courses will vary from year to year, but will not duplicate existing courses. Descriptions of these courses are available in the Searchable Class Schedule on Murphy Online, https://banner.stthomas.edu/pls/banner/prod/bwckschd.

WMST 269, 389, 491 Research (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.
Women’s Studies (WMST)

WMST 243, 393, 495 Individual Study (2 or 4 credits)
See the description of these courses at the beginning of the “Curricula” section of this catalog.

Courses available for this program
Letter following the course number indicates the institution offering the course:
A Augsburg College
C College of St. Catherine
H Hamline University
T University of St. Thomas

Note: Courses having a potential for duplication of material are marked with an asterisk (*). Students should consult with the director of the program to avoid duplicating courses. Credit will not be given toward the major for two courses that overlap substantially in content. Students cannot satisfy more than one distribution requirement within the program with any given course.

Topics courses in any of these categories may be selected with the approval of the program director.

The legal body that governs the university is the board of trustees. It is the final authority on setting our important policies, on the definition of major goals, and on the preservation of the academic mission. The financial health of the university is one of its chief responsibilities.

The board selects members who have demonstrated their understanding of the purpose of this institution, the commitment it has to higher education, and the unique contribution St. Thomas can make as a Catholic liberal arts university.

The chief executive officer of the university is the president. She is responsible to the board of trustees for the functioning of the university and the administration of its policies. She presides at the meetings of the university faculty, university faculty senate, and the academic council.

Under the direction of the governing board, the president of the university must make sure that adequate means exist for communication, decision-making, and governance.

The president delegates appropriate authority and responsibilities to the faculty, as described in the faculty organization plan, and to various members of the university administration, among them: the executive vice president/provost who is responsible for all academic units and academic support services; and for the day-to-day administrative operations of the university including fundraising, student affairs, information resources and technologies, and university and government relations; the vice president for mission; the vice president/rector, responsible for the administration of the Saint Paul Seminary School of Divinity; the vice president for finance and administration.

Professor of Mathematics  
1985; B.S., Moorhead State University; M.S., North Dakota State University; Ph.D., University of Minnesota

Leah Domine  
Limited Term Faculty of Biology  
2012; B.S., North Dakota State University; M.S., Miami University (Ohio); Ph.D., University of Minnesota

Angela Donatelle  
Member of Adjunct Instructor of Geology  
2010; B.A., University of St. Thomas; M.S., Michigan State University

Justin J. Donato  
Assistant Professor of Chemistry  
2010; B.S., University of Delaware; Ph.D., Cornell University

Peter Douglas  
Member of Adjunct Faculty in Music - Studio Instructor in Bassoon  
2006; Diploma in Orchestral Performance, Royal Conservatory of Music (Toronto)

Laura C. Dunham  
Associate Professor of Entrepreneurship  
2003; B.A., Miami University (Ohio); M.B.A., Ph.D., Darden Graduate School of Business Administration, University of Virginia

Bridget A. Duoos  
Associate Professor of Health and Human Performance  
1995; B.A., St. Olaf College; M.A., Ph.D., University of Minnesota
University Faculty

Donald J. Dziekowicz
Associate Professor of French
1983; A.B., Colgate University; M.A., University of Rochester; Ph.D., Indiana University

Alexis Easley
Associate Professor of English
2005; B.S., M.F.A., University of Alaska (Fairbanks); Ph.D., University of Oregon

Jay J. Ebben
Associate Professor of Entrepreneurship
2002; B.S., Marquette University; M.B.A., Ph.D., University of Wisconsin (Madison)

Paola B. Ehrmantraut
Assistant Professor of Spanish
2009; B.A., University of Missouri; M.A., Ph.D., Washington University (St. Louis)

Craig D. Eliason
Associate Professor of Art History
2002; B.A., Amherst College; M.A., Ph.D., Rutgers University

James L. Ellingson
Assistant Professor of Engineering
2009; B.A., Concordia College; M.S., Ph.D., University of Minnesota

Dawn R. Elm
Professor of Ethics and Business Law
1989; B.S. Chem. Engr., University of Massachusetts (Amherst); Ph.D., University of Minnesota

Simon K. Emms
Associate Professor of Biology
1996; B.A., Oxford University; M.S., Simon Fraser University; Ph.D., Princeton University

Massimo Faggioli
Assistant Professor of Theology
2009; Laurea, University of Bologna (Italy); Ph.D., University of Turin (Italy)

Daniel R. Fairchild
Professor of Economics
1976; B.S., Christian Brothers College (Memphis); M.B.A., Ph.D., Saint Louis University

Thomas D. Feeney
Assistant Professor of Philosophy
2014; B.A., University of Notre Dame; M.St., Oxford University; M.A. University of Notre Dame; M.Phil., M.A., Ph.D., Yale University

Nakeisha Ferguson
Assistant Professor of Marketing
2009; B.A., M.A., University of Missouri (Columbia); Ph.D., University of Texas (Austin)

Robert Ferguson
Member of Adjunct Faculty in Art History
2008; B. Arch. WAshington University; M. Phil., University of Minnesota, Ph.D. University of Cambridge (Pembroke College)

Sarah Ferguson
BSW Program Director, Associate Professor of Social Work
2006; B.A., Drake University; M.S.W., M.A., Ph.D., University of Minnesota

Sarah M. Fink
Laboratory Assistant in Chemistry
2011; B.S., University of St. Thomas

Thomas J. Fisch
Associate Professor of Sacramental Theology and Liturgy, School of Divinity
1981; B.A., St. Paul Seminary; M.A., University of St. Thomas; M.A., University of Minnesota; M.A. St. John's University (Minnesota); M.A., Ph.D., University of Notre Dame

Kari Fletcher
Assistant Professor of Social Work
1997: B.A., Gustavus Adolphus College; 1999; M.S.W., Widener University; 2012; Ph.D., Smith College

Fr. John Floeder
Assistant Professor of Moral Theology, School of Divinity
2010: B.A., University of St. Thomas; M.Div., The Saint Paul Seminary; S.T.L., Catholic University of America

David N. Foote
Associate Professor of Catholic Studies and History
2004; B.A., M.A., University of Florida; Ph.D., University of California (Davis)

Eric H. Fort
Assistant Professor of Chemistry
2010; B.S. University of St. Thomas; Ph.D., Boston College

Jan L. H. Frank
Associate Professor of Education
2011; B.A., Cardinal Stritch College (Milwaukee); M.S., Ph.D., University of Wisconsin (Milwaukee)

Gloria Frost
Assistant Professor of Philosophy
2009; B.A., The Catholic University of America; M.A., Ph.D., University of Notre Dame
Robert F. Gallagher
*Distinguished Service Faculty, Accounting*
2013; B.S. B.A. Creighton University; M.B.A., University of Minnesota

Kendra J. Garrett
*Professor of Social Work*
1991; B.A., M.S.W., University of Iowa; D.S.W., The Catholic University of America

Michael J. Garrison
*Associate Dean, Opus College of Business - Professor of Ethics and Business Law*
2005; B.S., North Dakota State University; J.D., University of North Dakota School of Law

Carmela J. Garritano
*Associate Professor of English*
2002; B.A., University of Notre Dame; M.A., Ph.D., Michigan State University

Jane Garvin
*Member of Adjunct Faculty in Music - Studio Instructor in Flute*
1999; B.M., M.M., New England Conservatory of Music

Dina Gavrilos
*Assistant Professor of Communication and Journalism*
2006; B.A., University of Illinois at Chicago; M.A., University of Kentucky; Ph.D., University of Iowa

Pavel (Paul) L. Gavrilyuk
*Aquinas Chair in Theology & Philosophy, Associate Professor of Theology*
2001; B.S. Moscow Institute of Physics and Technology; M.T.S., Ph.D., Southern Methodist University

Kurt Gehlert
*Associate Professor of Professional Psychology*
2007; B.S., M.A., Ph.D., University of Missouri

Alexander M.G. Gelardi
*Associate Professor of Accounting*
2004; Cert. Ed., University of Keele; M.S., University of Miami (Florida); Ph.D., Arizona State University, F.C.A.

Camille M. George
*Associate Professor of Engineering*
2002; B.A., University of Chicago; B.S., M.S., University of Illinois (Chicago); Ph.D., University of Minnesota

Matthew J. George
*Professor of Music*
1991; B.M., Ithaca College; M.M., Southern Methodist University; D.M.A., University of North Texas

Dobrina Georgieva
*Assistant Professor of Finance*
2008; M.Eg., University of Chemical Engineering (Sofia, Bulgaria); M.B.A., University of Montana; Ph.D., University of Arkansas

Marci Geriulis-Darcy
*Member of Adjunct Faculty in Sociology and Criminal Justice*
2008; B.A., University of Minnesota; M.A. and Ph.D., Northwestern University

Jennifer Gerth
*Member of Adjunct Faculty in Music - Studio Instructor in Clarinet*
2000; B.A., St. Olaf College; M.M., Northwestern University

Heidi M. Giebel
*Associate Professor of Philosophy*
2002; B.A., St. Norbert College; M.A., Ph.D., University of Notre Dame

Jean E. Giebenhain
*Professor of Psychology*
1983; B.A., College of St. Catherine; M.A., Ph.D., University of Mississippi

Peter J. Gittins
*Clinical Faculty in Chemistry*
2012; B.S., M.S., Lancaster University (UK); Ph.D., University of Sheffield (UK)

Katharina Glac
*Assistant Professor of Ethics and Business Law*
2008; B.A., M.B.A., Friedrich-Alexander University (Germany); Ph.D., University of Pennsylvania

Tanya Gladney
*Assistant Professor of Sociology and Criminal Justice - Law Enforcement Education Coordinator*
2007; B.A., M.A., Jackson State University (Mississippi); Ph.D., University of Nebraska (Lincoln)

Bruce P. Gleason
*Associate Professor of Music*
1999; B.A., Crown College; B.S., M.A., University of Minnesota; Ph.D., University of Iowa

Kyle Goldschmidt
*Assistant Professor of Operations and Supply Chain Management*
2014; B.A., M.B.A., Ph.D., The Pennsylvania State University

Michael S. Goldstein
*Member of Adjunct Faculty in Sociology and Criminal Justice*
2010; B.A., M.A., University of St. Thomas

Mitchell Gordon
*Director of Lawyering Skills, School of Law; Associate Professor of Law*
2003; B.A., Tufts University; M.A., University of Minnesota; J.D., University of Minnesota Law School
University Faculty

Mari Ann Graham  
Associate Professor of Social Work  
1993; B.S.W., M.S.W., University of Nebraska; Ph.D., Case Western Reserve University

W. Matthews Grant  
Associate Professor of Philosophy  
2002; B.A., Wake Forest University; M.A., Ph.D., Fordham University

Charles Melvin Gray  
Professor of Finance  
1976; B.A., Hendrix College; A.M., Ph.D., Washington University (St. Louis)

Adam S. Green  
Associate Professor of Physics  
2003; B.A., Gustavus Adolphus College; M.S., Ph.D., University of Nebraska (Lincoln)

Christopher S. Greene  
Assistant Professor of Engineering  
2001; B.Sc., University of Colorado; M.S.E.E., Ph.D., Massachusetts Institute of Technology

Joan E. Griffith  
Member of Adjunct Faculty in Music - Studio Instructor in Double Bass, Guitar, Lute  
1990; B.M., University of Missouri (Kansas City)

Stephanie Grimm  
Assistant Professor of Accounting  
2009; B.S., Boston University; M.Acc, Ph.D., University of Minnesota; C.F.A.

Xiaowen Guan  
Assistant Professor of Communication and Journalism  
2008; B.A., Beijing Foreign Studies University; M.A., Portland State University; Ph.D., Michigan State University

Marites A. Guino-o  
Assistant Professor of Chemistry  
2010; B.S., University of Philippines; Ph.D., Syracuse University

Rama K. Hart  
Associate Professor of Education  
2006; B.S., Louisiana State University (Baton Rouge); M.B.A., Rutgers University (New Brunswick); Ph.D., Case Western Reserve University (Cleveland)

Monica E. Hartmann  
Associate Professor of Economics  
2000; B.S., John Carroll University; M.A., Ph.D., University of Virginia

Nancy Z. Hartung  
Associate Professor of Biology  
1977; B.A., Macalester College; Ph.D., University of Minnesota

Frank Haug  
Instructor of Software Engineering  
2002; B.A., M.S., University of St. Thomas

Ruben G. Haugen  
Member of Adjunct Faculty in Music - Studio Instructor in Saxophone  
1984; B.M.Ed., M.Mu., MacPhail College of Music; National Superior, Conservatoire de Musique (Paris)

Anthony Hauser  
Member of Adjunct Faculty in Music - Studio Instructor in Flamenco Guitar  
1998; B.A., University of Minnesota; Free-lance professional

Stephen J. Heaney  
Associate Professor of Philosophy  
1987; B.A., College of the Holy Cross; Ph.D., Marquette University

Patricia R. Hedberg  
Associate Professor of Management  
1991; B.A., Ohio Northern University; Ph.D., University of Minnesota

Sarah Heimovics  
Assistant Professor of Biology  
2012; B.A., University of Kansas; Ph.D., University of Wisconsin (Madison)

Kevin E. Henderson  
Assistant Professor of Management  
2009; B.S.B.A., University of Arkansas; Ph.D., University of Arkansas

Jill S. Hendrickson  
Associate Professor of Economics  
2006; B.A., University of Puget Sound; M.A., Ph.D., University of Notre Dame

Michael P. Hennessey  
Associate Professor of Engineering  
2000; B.S., University of Minnesota; M.S., Massachusetts Institute of Technology; Ph.D., University of Minnesota

Mariana D. Hernandez Crespo  
Associate Professor of Law  
2006; J.D., Universidad Catolica Andres Bello; L.L.M., J.D., Harvard
University Faculty

Olga L. Herrera
Assistant Professor of English
2008; B.A., DePaul University; M.A., Ph.D., University of Texas (Austin)

James E. Heyman
Associate Professor of Marketing
2005; B.A., Macalester College; M.S., Naval Postgraduate School;
Ph.D., University of California (Berkeley)

Thomas A. Hickson
Associate Professor of Geology
2000; B.S., California State University; M.A., University of Texas
(Austin); Ph.D., Stanford University

Angela High-Pippert
Assistant Professor of Political Science
1999; B.J., M.A., Ph.D., University of Nebraska (Lincoln)

Katharine M. Hill
Assistant Professor of Social Work
2009; B.A., Macalester College; M.P.P., Humphrey Institute,
University of Minnesota; M.S.W., Ph.D., University of Minnesota

Nathan Hill
Assistant Professor of English
2012; B.A., University of Iowa; M.F.A., University of Massachu-
setts (Amherst)

Stephen Hipp
Assistant Professor of Systematic Theology, School of Divinity
2008; B.A., University of St. Thomas; M.A., Notre Dame; S.T.L.,
S.T.D., University of Fribourg

Andrew Hissey
Member of Adjunct Faculty in Music - Studio Instructor in Piano
2011; D.M.A., University of Michigan

Drew Hoag
Distinguished Service Professor, Accounting
2011; B.S., M.B.A., University of Minnesota; C.P.A.

Mary Margaret Hoden
Senior Member of Adjunct Faculty in Theology
1999; B.A., University of Minnesota; M.A., The St. Paul School of
Divinity

Steven M. Hoffman
Professor of Political Science
1987; B.S., University of Missouri (St. Louis); M.P.A., Arizona
State University; Ph.D., University of Delaware

Thomas Hoft
Assistant Professor of Mathematics
2012; B.A., St. Olaf; M.S., Ph.D., University of Minnesota

Michael J. Hollerich
Associate Professor of Theology
1993; B.A., University of Notre Dame; M.T.S., Harvard Divinity

School; Ph.D., University of Chicago

Colin F. Hollidge
Associate Professor of Social Work
1997; B.A., University of Waterloo (Ontario); M.S.W., Wilfrid
Laurier University (Ontario); Ph.D., Smith College

John D. Holst
Associate Professor of Education
2000; B.S., University of Wisconsin (Madison); M.S., Ph.D.,
Northern Illinois University

Nick Honigschmidt
Stockroom Manager in Chemistry
2013; B.S. University of St. Thomas; M.S. IUPUI

Rev. Jeff Huard
Director of Spiritual Formation, School of Divinity
2009; B.A., The University of St. Thomas; M.Div., The Saint Paul
Seminary

Jane Hurley-Johncox
Clinical Faculty in Social Work
2002; B.A., College of St. Catherine; M.S.W., University of St.
Thomas/College of St. Catherine

Jerry Husak
Assistant Professor of Biology
2011; B.S., Angelo State University; M.S., Ph.D., Oklahoma State
University

Stacy Husebo
Professional Faculty of Social Work
2007; B.A., University of Minnesota; M.S.W., College of St. Cath-
erine/University of St. Thomas

Kurt Illig
Assistant Professor of Biology
2009; B.S., Drake University; Ph.D., University of Wisconsin (Madison)

J. Thomas Ippoliti
Professor of Chemistry
1989; B.A., State University of New York (Potsdam); M.S., Univer-
sity of Wyoming; Ph.D., University of Wisconsin (Madison)

Kimberli D. Ishaug
Distinguished Service Faculty, Accounting
2013; B.S., University of Minnesota; M.B.A. University of Min-
nesota

Ora Itkin
Member of Adjunct Faculty in Music - Studio Instructor in Piano
2005; B.M., University of Tel-Aviv; M.M., Hebrew University of
Jerusalem
University Faculty

J

Catherine A. Jack Deavel
Associate Professor of Philosophy
2000; B.A., M.A., Ph.D., Fordham University

Jadin Jackson
Clinical Faculty of Biology
2011; B.S., Oregon State University; Ph.D., University of Minnesota

Ameeta Jaiswal-Dale
Associate Professor of Finance
1990; B.A., St. Francis College (India); M.S., Osmania University (Hyderabad, India); M.A., Ph.D., University of Rennes (France)

Jeffrey A. Jalkio
Associate Professor of Physics
1997; B.A., University of St. Thomas; B.S.E.E., M.S.E.E., Ph.D., University of Minnesota

Emily M. James
Assistant Professor of English
2012; B.A., M.A., Ph.D., University of Washington

David W. Jamieson
Associate Professor of Education
2010; B.S., Drexel University; Ph.D., University of California (Los Angeles)

Patrick L. Jarvis
Associate Professor of Computer and Information Sciences
1992; B.A., University of St. Thomas; J.D., Ph.D., University of Minnesota

David P. Jenkins
Director of Liturgical Music, School of Divinity - Studio Instructor in Organ
1988; B.M., Oberlin College Conservatory of Music; M.F.A., University of Iowa; D.M.A., Eastman School of Music

Lenny L. Jennings
Professor of Professional Psychology
1998; B.S., Missouri Western University; M.A., University of Missouri (Kansas City); Ph.D., University of Minnesota

Allison Jessee
Assistant Professor of Psychology
2012; B.A., Trinity University; M.A., Ph.D., University of Illinois (Champaign-Urbana)

Thadavillil Jithendranathan
Professor of Finance
1993; B.S., Calicut University (India); M.B.A., Baruch College; M. Phil., Ph.D., City University of New York; A.C.A. (India)

Rev. Jan Michael Joncas
Associate Professor of Catholic Studies
1991; B.A., University of St. Thomas; M.A., University of Notre Dame; S.L.L., S.L.D., Pontificio Instituto Liturgico, Ateneo S. Anselmo (Rome)

Alec C. Johnson
Associate Professor of Entrepreneurship
2001; B.S., M.S., Ph.D., University of Wisconsin (Madison)

Ann Johnson
Professor of Psychology
1988; B.A., Linfield College; M.A., Ph.D., Duquesne University

Kevin L. Johnson
Assistant Professor of Management
2010; B.A., Dartmouth College; M.B.A., Ph.D., Indiana University

Lyman P.Q. Johnson
Professor of Law
2008; B.A., Carleton College, J.D., University of Minnesota

Shersten Johnson
Associate Professor of Music
2002; B.A., Augsburg College; M.M., California State University (Northridge); Ph.D., University of Wisconsin (Madison)

Martin E. Johnston
Associate Professor of Physics
1995; B.S., Walla Walla College; M.S., Ph.D., University of California (Riverside)

Michael C. Jordan
Associate Vice President for Undergraduate Studies and Academic Advisement - Professor of English
1982; B.A., St. John's College (Annapolis); M.A., Ph.D., University of North Carolina (Chapel Hill)

Shirley (Sherry) E. Jordon
Associate Professor of Theology
1993; B.A., Swarthmore College; M.Div., Yale Divinity School; Ph.D., Yale University

Deanna Jorstad
Member of Adjunct Faculty in Music - Studio Instructor in Voice
1985; B.A., St. Olaf College; M.F.A., University of Minnesota

William Junker
Assistant Professor of Catholic Studies
2010; B.A., University of Dallas; M.A., University of Norte Dame; Ph.D., University of Chicago

K

Wulf A. Kaal
Associate Professor of Law
2011; M.B.A., Durham University; Ph.D., Humboldt Universitaet zu Berlin; LL.M. and J.D., University of Illinois College of Law

Christopher S. Kachian
Professor of Music - Studio Instructor in Guitar
Robert A. Kahn
Associate Professor of Law
2007; B.A. Columbia University; J.D., New York University Law School; Ph.D., Johns Hopkins University

Patti H. Kameya
Assistant Professor of History
2011; B.A., Pomona College; M.A., Ph.D., University of Chicago

Hasan Karatas
Assistant Professor of History
2011; B.A., Bogazici University (Istanbul); M.A., Ph.D., University of California (Berkeley)

Meg Wilkes Karraker
Professor of Sociology and Criminal Justice
1990; B.A., Clemson University; M.S., North Carolina State University; Ph.D., University of Minnesota

Adam D. Kay
Associate Professor of Biology
2004; B.A., University of North Carolina; Ph.D., University of Utah

Rev. Michael J. Keating
Associate Professor of Catholic Studies
2005; B.A., University of Michigan; M.A., University of Michigan; M.A., M.Div., Dominican Pontifical University of St. Thomas Aquinas (Rome); Ph.D., University of Notre Dame

David W. Kelley
Associate Professor of Geography
2000; B.A., St. Anselm College; M.S., California Polytechnic State University; Ph.D., University of Minnesota

Kenneth W. Kemp
Associate Professor of Philosophy
1989; B.S. Lang., Georgetown University; M.A., St. John’s College (Annapolis); M.A., Ph.D., University of Notre Dame

Bradley Kemp Wilson
Associate Professor of Economics
2002; B.A., University of Montana; Ph.D., University of Kansas

William E. Kemperman
Member of Adjunct Faculty in Music - Studio Instructor in Percussion
2001; B.A., Macalester College; M.M., University of Wisconsin (Madison)

Robert G. Kennedy
Professor of Catholic Studies
1988; B.A., University of St. Thomas; M.A., St. Paul Seminary; M.B.A., University of St. Thomas; M.M.S., Ph.D., University of Notre Dame

Erika Kidd
Assistant Professor of Catholic Studies
2013; B.A., Baylor University; Ph.D., Villanova University

Matthew H. Kim
Associate Professor of Economics
2007; B.A., Williams College; M.A., Ph.D., University of Wisconsin (Madison)

Elizabeth A. Kindall
Assistant Professor of Art History
2008; B.A., Missouri State University; M.A., Ph.D., University of Kansas

Anne H. King
Associate Professor of Theology
1985; A.B., Duke University; M.A., Duquesne University; Ph.D., Fordham University

William J. Kinney
Associate Professor of Sociology and Criminal Justice
1993; B.A., M.A., University of Northern Iowa; Ph.D., Iowa State University

Eric A. Kjellgren
Clinical Faculty Member in Art History and Director, American Museum of Asmat Art at the University of St. Thomas
2014; B.A., M.A. Harvard University; M.A., Ph.D. University of Hawai‘i

Michael C. Klein
Clinical Faculty of Justice and Peace Studies
1998; B.A., M.A., Ed.D., University of St. Thomas

Anne M. Klejment
Professor of History
1983; B.A., Nazareth College (Rochester); M.A., Ph.D., State University of New York (Binghamton)

Rev. John Klockeman
Associate Director of Spiritual Formation, School of Divinity
2009; B.S., Arizona State University; M.A., Franciscan University of Steubenville; M.Div., The Saint Paul Seminary

Daryl Koehn
Professor of Ethics and Business Law
1991; B.A., M.A., Ph.D., University of Chicago; M.A., Oxford University (London); M.B.A., Northwestern University

Debra Kotulski-Capener
Member of Adjunct Faculty in Music - Studio Instructor in Voice
2004; B.A., Edgewood College (Madison); M.M., D.M.A., University of North Carolina (Greensboro)

Joseph L. Kreitzer
Associate Vice President for Academic Affairs - Professor of Economics
1981; B.S., University of South Dakota; M.A., Ph.D., University of Iowa

Amelia Howe Kritzer
Professor of English and Theater
1997; B.S., Temple University; Ph.D., University of Wisconsin (Madison)
University Faculty

Juli A. Kroll
Associate Professor of Spanish
2006; B.A., M.A., Ph.D., University of Minnesota

John D. Kronen
Professor of Philosophy
1990; B.A., Marquette University; Ph.D., State University of New York (Buffalo)

Brenda K. Kroschel
Associate Professor of Mathematics
1999; B.A., St. Olaf College; M.S., Clemson University; Ph.D., College of William and Mary

Carol F. Kuechler
MSW Program Director, Professor of Social Work
1996; B.A., Marquette University; M.S.W., University of Wisconsin (Milwaukee); Ph.D., University of Minnesota

Sameer Kumar
Qwest Chair - Professor of Operations and Supply Chain Management
1997; B.S., M.S., University of Delhi (India); M.S., University of Nebraska; M.S., Ph.D., University of Minnesota

Richard G. Kunkel
Associate Professor of Ethics and Business Law
1990; B.A., University of St. Thomas; J.D., University of Minnesota

Rody W. Lageson, First Lieutenant, USAF
Assistant Professor of Aerospace Studies, Unit Admissions Officer
2011; B.S., University of New Hampshire

Chih Lai
Associate Professor of Software Engineering
2000; B.A., Fu-Jen Catholic University; M.S., Ph.D., Oregon State University

Donald R. LaMagdeleine
Professor of Education
1983; B.A., Loyola University (Chicago); M.A., Graduate Theological Union; Ph.D., Loyola University (Chicago)

Melissa A. Lamb
Associate Professor of Geology
2000; A.B., Dartmouth; Ph.D., Stanford University

David T. Landry
Associate Professor of Theology
1991; B.A., College of the Holy Cross; M.A., Ph.D., Vanderbilt University

Terence G. Langan
Dean of the College of Arts & Sciences - Associate Professor of Economics
1990; B.A., Saint John’s University (Collegeville); Ph.D., University of Minnesota

Clinton D. Lanier, Jr.
Assistant Professor of Marketing
2008; B.A., Loyola University (New Orleans); M.A., M.B.A., Texas A&M University; Ph.D., University of Nebraska

Kelli A. Larson
Professor of English
1990; B.A., Aquinas College; M.A., Ph.D., Michigan State University

Stephen J. Laumakis
Professor of Philosophy
1990; B.A., St. Charles Seminary; M.A., Villanova University; Ph.D., University of Notre Dame

David T. Lawrence
Associate Professor of English
2003; B.A., Rockhurst University; M.A., Creighton University; Ph.D., University of Missouri

Leigh Lawton
Professor of Operations and Supply Chain Management
1979; B.S., Valparaiso University; Ph.D., University of Wisconsin

Joshua P. Layfield
Assistant Professor of Chemistry
2014; B.S. Davidson College; Ph.D. Virginia Tech

N. Curtis LeMay
Director of Ireland Library/Theological Librarian
2004; B.A., University of Wisconsin (Oshkosh); M.A., University of Illinois

R. Mary Hayden Lemmons
Associate Professor of Philosophy
1991; B.S., State University of New York (Binghamton); M.A., Niagara University; Ph.D., Center for Thomistic Studies, University of St. Thomas (Houston)

Amy M. Levad
Assistant Professor of Theology
2009; B.A., University of Puget Sound; M.T.S., Candler School of Theology, Emory University; Ph.D., Emory University

Nekima Levy-Pounds
Associate Professor of Law
2003; B.A., University of Southern California; J.D., University of Illinois College of Law

Timothy L. Lewis
Professor of Biology
2009; B.A., Augustana College; M.S., Ph.D., University of Wisconsin-Madison

Anthony W. Lewno
Laboratory Coordinator and Instructor in Biology
1991; B.S., St. John’s University (Collegeville); M.S., University of Minnesota
Juan Li  
Associate Professor of English  
2006; B.A., Central University of Nationalities in China; M.A., The Graduate School of Chinese Academy of Sciences; M.A., Kansas State University; Ph.D., University of Washington

Hangkyo Lim  
Clinical Faculty of Biology  
2011; B.S., M.S., Seoul National University; Ph.D., University of Kansas

Christian J. Lingenfelder, Major, USAF  
Assistant Professor of Aerospace Studies - Education Officer  
2011; B.A., Northwestern College; M.A., United States Naval Postgraduate School

Kate Lockwood  
Assistant Professor of Computer and Information Sciences  
2014; B.S.E., M.S.I., University of Michigan; Ph.D., Northwestern University

Melissa S. Loe  
Associate Professor of Mathematics  
1989; B.A., St. Olaf College; M.S., Ph.D., University of Minnesota

Marie Lopez del Puerto  
Associate Professor of Physics  
2008; B.S., Universidad de las Americas - Puebla, Mexico (UDLA-P); M.S., Ph.D., University of Minnesota

Paul A. Lorah  
Associate Professor of Geography  
1996; B.A., M.A., University of Colorado (Boulder); Ph.D., Indiana University

Stephanie K. Lohse  
Assistant Professor of French  
2007; B.A., B.S., Montana State University; M.A., University of Oregon; Ph.D., University of Minnesota

Radhika Lunawat  
Assistant Professor of Accounting  
2010; Bachelor of Commerce, Calcutta University; Ph.D., University of Minnesota

Lorman L. Lundsten  
Professor of Marketing  
1981; B.S., Northland College; M.B.A., Fordham University; Ph.D., University of Michigan

Heather S. Lutz  
Assistant Professor of Operations and Supply Chain Management  
2009; B.S., Pennsylvania State University; M.B.A., George Washington University; Ph.D., Syracuse University

Mathew Lu  
Assistant Professor of Philosophy  
2008; B.A., University of Chicago; M.A., Ph.D., Cornell University

Gary A. Mabbott  
Associate Professor of Chemistry  
1989; B.A., College of Wooster; Ph.D., University of Wisconsin (Madison)

Raymond N. MacKenzie  
Professor of English  
1989; B.A., Concordia College (Moorhead); M.A., Ph.D., Kansas State University

Patricia Maddox  
Member of Adjunct Faculty in Sociology and Criminal Justice  
2008; B.A., Stetson University; M.A., Loyola University

Debasish N. Mallick  
Associate Professor of Operations and Supply Chain Management  
2006; B.Tech., Indian Institute of Technology; M.B.A., University of Arkansas; Ph.D., University of Texas

Mary M. Maloney  
Associate Professor of Management  
2005; B.A., Carleton College; M.I.A., Columbia University, Ph.D., University of Minnesota

Stephen D. Maloney  
Member of Adjunct Faculty in Political Science  
2008; B.A., Ph.D. University of Maryland

Avinash Malshe  
Associate Professor of Marketing  
2005; B.Pharm. M.M.S., University of Bombay; Ph.D., University of Nebraska

Jill M. Manske  
Professor of Biology  
1991; B.A., College of St. Catherine; M.A., Southern Illinois University; Ph.D., University of Minnesota

Craig S. Marcott  
Associate Professor of Economics  
1982; B.S., University of Minnesota; M.S., Ph.D., Purdue University

Mithra Marcus  
Clinical Faculty in Chemistry  
2008; B.S., North Carolina State University (Raleigh); Ph.D., University of Wisconsin (Madison)

Rev. Tom Margevicius  
Instructor in Liturgy, Sacraments and Homiletics, School of Divinity  
2003; B.S., West Virginia University; M.A.T., M.Div., The Saint Paul Seminary; S.T.L., Catholic University of America

Catherine Marrs Fuchsel  
Assistant Professor of Social Work  
2009; B.A., Arizona State University (Tempe); M.S.W., University of Michigan (Ann Arbor); Ph.D., Arizona State University (Phoenix)

1993; B.A., Iowa State University; M.A., Ph.D., University of Minnesota
University Faculty

Joel A. Nichols
Associate Professor of Law
2007; B.A., Abilene Christian University; M.Div., J.D., Emory University

Shirley G. Nieto-Flores
Clinical Faculty-Spanish/Lab Director
2009; B.A., M.A., Minnesota State University (Mankato)

Paul Niskanen
Associate Professor of Theology
2002; B.A., Seattle University; S.T.B., Pontifical University Teresianum (Rome); Ph.D., Graduate Theological Union (Berkeley)

Robert J. Nistler
Associate Professor of Education
1998; B.S., University of Wisconsin (Stevens Point); M.A., University of Minnesota; Ph.D., University of Texas (Austin)

Sarah J. Noonan
Associate Professor of Education
2000; B.A., University of Minnesota; M.S., University of St. Thomas; Ed.D., University of Wyoming

Michelle (Shelly) A. Nordtorg-Madson
Clinical Faculty Member in Art History and Director, University Collections
1994; B.A., M.A., Ph.D., University of Minnesota

Michael J. O'Donnell
Associate Professor of Communication and Journalism
1999; B.A., Central College; M.S., Iowa State University

Paul R. Ohmann
Associate Professor of Physics
2000; B.A., University of St. Thomas; M.S., Ph.D., University of Wisconsin (Madison)

William H. Ojala
Associate Professor of Chemistry
2007; B.S., College of Great Falls; Ph.D., University of Minnesota

John R. Olson
Associate Professor of Operations and Supply Chain Management
2004; B.S., University of Minnesota; M.B.A., St. Cloud State University; Ph.D., University of Nebraska (Lincoln)

Jerome M. Organ
Professor of Law
2001; A.B., Miami University (Ohio); J.D., Vanderbilt University School of Law

Douglas C. Orzolek
Associate Professor of Music
2000; B.M., Mansfield University of Pennsylvania; M.Ed., Pennsylvania State University; Ph.D., University of Minnesota

Julie A. Oseid
Associate Professor of Law
2004; B.A., University of Minnesota-Duluth; J.D., University of Minnesota Law School

Mark W. Osler
Professor of Law
2010; B.A., College of William and Mary; J.D., Yale Law School

Lon J. Otto
Professor of English
1974; B.A., Pomona College; Ph.D., Indiana University

Ernest L. Owens, Jr.
Assistant Professor of Management
1993; B.S.I.E., Northeastern University; M.B.A., Ed.D., University of St. Thomas

Jeff Oxman
Assistant Professor of Finance
2009; B.Com., University of Saskatchewan; M.B.A., Simon Fraser University; Ph.D., Syracuse University

Adil Ozdemir
Clinical Professor of Theology
2004; B.A., Ph.D., Institute of Social Sciences of Nine September University (Turkey)

P

Agapitos Papagapitos
Professor of Economics
1990; B.A., College of Wooster; M.A., Ph.D., Ohio State University

Jason M. Pattit
Instructor of Management
2010; B.S., M.S. Chem.E., University of Rochester; M.B.A., A.B.D., Syracuse University

Michael S. Paulsen
Professor of Law
2007; B.A., Northwestern University; M.A. Yale Divinity School; J.D., Yale Law School

Timothy J. Pawl
Associate Professor of Philosophy
2008; B.A., Valparaiso University; M.A., Ph.D., Saint Louis University

Lucia C. Pawlowski
Assistant Professor of English
2012; B.A., St. Vincent College; M.A., University of Missouri; Ph.D., University of Minnesota

Lucy L. Payne
Associate Professor of Education
1997; B.S., University of Iowa; M.A., California Polytechnic University; Ph.D., University of Iowa
David Penchansky  
Professor of Theology  
1989; B.A., Queens College City University of New York; M.A., Assemblies of God Theological Seminary (Missouri); Ph.D., Vanderbilt University

Cathy O. Peters  
Member of Adjunct Faculty in Art History  
2005; B.A., Augsburg College; M.A., University of St. Thomas

Debra L. Petersen  
Associate Professor of Communication and Journalism  
1990; B.A., University of Minnesota (Morris); M.A., Colorado State University; Ph.D., University of Minnesota

David W. Peterson  
Clinical Faculty of Education  
2000; B.A., Augustana College; M.S., Ed.S., Minnesota State University (Mankato); Ph.D., Iowa State University

Lance Peterson  
Assistant Professor of Social Work  
2010; B.A., Brigham Young University; M.S.W., Brigham Young University; Ph.D., Case Western Reserve University

Derrin R. Pinto  
Associate Professor of Spanish (Chair)  
2004; B.A., San Diego State University; M.A., University of California (Riverside); Ph.D., University of California (Davis)

Joan L. Piorkowski  
Professor of English  
1977; B.A., University of Delaware; M.A., Ph.D., Temple University

Rev. Robert Pish  
Vice Rector of Student Affairs, School of Divinity  
2007; B.S., University of Pennsylvania; M.Div., The Saint Paul Seminary

Terence Pitre  
Assistant Professor of Accounting  
2007; B.S., University of Louisiana; M.B.A., Tulane University; Ph.D., Michigan State University

Robert A. Plesha  
Member of Adjunct Faculty in Sociology and Criminal Justice  
2000; B.A., University of Minnesota; J.D., William Mitchell College of Law

Germán J. Pliego  
Associate Professor of Computer and Information Sciences  
1998; B.S., M.B.A., M.S., State of Mexico University; M.S., M.S., Interamerican Center for Social Security Studies; M.S., Ph.D., Purdue University

AnnMarie Polsenberg Thomas  
Assistant Professor of Engineering  
2006; B.S., Massachusetts Institute of Technology; M.S., Ph.D., California Institute of Technology

Mary C. Preus  
Member of Adjunct Faculty in Classics  
2000; B.A., Luther College; M.A., Harvard University; Ph.D., University of Minnesota

Lisa E. Prevete  
Assistant Professor of Chemistry  
2010; B.A., Transylvania University; Ph.D., University of Cincinnati

J. Roxanne Prichard  
Associate Professor of Psychology  
2006; B.A., Transylvania University; Ph.D., University of Wisconsin (Madison)

Lorina N. Quartarone  
Associate Professor of Classics  
2004; B.A., Columbia University; M.A. University of California (Los Angeles); Ph.D., University of Washington

AnnMarie Polsenberg Thomas  
Assistant Professor of Engineering  
2006; B.S., Massachusetts Institute of Technology; M.S., Ph.D., California Institute of Technology

Mary C. Preus  
Member of Adjunct Faculty in Classics  
2000; B.A., Luther College; M.A., Harvard University; Ph.D., University of Minnesota

Lisa E. Prevete  
Assistant Professor of Chemistry  
2010; B.A., Transylvania University; Ph.D., University of Cincinnati

J. Roxanne Prichard  
Associate Professor of Psychology  
2006; B.A., Transylvania University; Ph.D., University of Wisconsin (Madison)

Q

Janice M. Raffield  
Associate Professor of Accounting  
1991; B.A., Newberry College; M.S., California Lutheran College; M.P. Acc., Clemson University; C.P.A.

William D. Raffield  
Associate Professor of Operations and Supply Chain Management  
1991; B.S., Clemson University; M.A., Golden Gate University; Ph.D., Clemson University

Saeed Rahimi  
Associate Professor of Software Engineering  
1988; B.S., Arya Mehr University; M.S., Ph.D., University of Minnesota

Ramesh Rajagopalan  
Assistant Professor of Engineering  
2009; M.S., Ph.D., Syracuse University

Eric J. Rawdon  
Associate Professor of Mathematics  
2006; B.A., St. Olaf College; Ph.D., University of Iowa

W. Joseph Reed  
Member of Adjunct Faculty in Music - Studio Instructor in Voice  
2004; B.A., University of St. Thomas; M.M., D.M.A., University of Minnesota

Mary R. Reichardt  
Professor of Catholic Studies  
1988; B.A., Aquinas College; M.A., University of Illinois (Champaign-Urbana); Ph.D., University of Wisconsin (Madison)
University Faculty

Charles J. Reid, Jr.
Professor of Law
2002; B.A., University of Wisconsin (Milwaukee); J.D., J.C.L., The Catholic University of America; M.A., Ph.D., Cornell University

Salina Renninger
Assistant Professor of Professional Psychology
2011; B.A., M.A., Ph.D., University of Minnesota

Thomas H. Ressler
Associate Professor of Operations and Supply Chain Management
1989; B.M.E., M.S.I.E., Ph.D., University of Minnesota

Richard J. Rexeisen
Professor of Marketing
1990; B.A., University of Minnesota; M.B.A., University of Michigan; Ph.D., University of Minnesota

Sonia Rey-Montejo de Cesteros
Associate Professor of Spanish
2007; B.A., Knox College; M.A., University of Iowa; Ph.D., University of Colorado (Boulder)

Lisa M. Rezac
Associate Professor of Mathematics
2000; B.A., Concordia College (Moorhead); M.S., Ph.D., University of Nebraska (Lincoln)

Deborah Rho
Assistant Professor of Economics
2014; B.S. University of Southern California; M.A., Ph.D. (expected 2014) Duke University

Lisa M. Richardson
Director, MSW Field Education - Assistant Professor of Social Work
2007; B.A., Marlboro College; M.S.S., Bryn Mawr College

David P. Rigoni
Associate Professor of Education
2000; B.S., University of Wisconsin (Superior); M.Ed., University of Minnesota (Duluth); Ed.D., University of St. Thomas

Robert J. Riley
Professor of Economics
1991; B.A., University of St. Thomas; Ph.D., University of Wisconsin (Madison)

Jeffrey D. Rinear
Member of Adjunct Faculty in Music
2001; B.M., University of Minnesota; B.M. Berklee College of Music

Julie A. Risser
Clinical Faculty Member in Art History - Director of the American Museum of Asmat Art at the University of St. Thomas
2005; B.A., Carleton College; M.A., Indiana University; Ph.D., University of Iowa

Greg L. Robinson-Riegler
Professor of Psychology
1990; B.A., University of Cincinnati; M.S., Ph.D., Purdue University

Karen B. Rogers
Professor of Education
1984; B.A., University of California (Berkeley); M.S., Ph.D., University of Minnesota

Philip A. Rolnick
Professor of Theology
2003; B.A., Sonoma State University; M.A., Pacific School of Religion (Berkeley); Ph.D., Duke University

David J. Roseborough
Associate Professor of Social Work
2004; B.A., Valparaiso University; M.Div., Harvard University; M.S.W., College of St. Catherine/University of St. Thomas; Ph.D., University of Minnesota

Teresa J. Rothausen-Vange
Susan E. Heckler Endowed Chair in Business Administration & Professor of Management
1998; B.A., St. Olaf College; C.P.A., State of Minnesota; Ph.D., University of Minnesota

Michael W. Rota
Associate Professor of Philosophy
2005; B.A., Stanford; M.A., Franciscan University (Steubenville); Ph.D., St. Louis University

Vanessa Rousseau
Member of Adjunct Faculty in Art History
2001; B.A., University of Minnesota; M.A., University of St. Thomas

Brad Rubin
Associate Professor of Software Engineering
2003; B.S., M.S., University of Illinois (Urbana); Ph.D., University of Wisconsin (Madison)

Gerald T. Ruch, Jr.
Assistant Professor of Physics
2008; B.S., Ph.D., University of Minnesota

S

Luz Amparo Saavedra
Associate Professor of Economics
2001; B.A., Universidad del Valle (Cali, Colombia); M.S., Ph.D., University of Illinois (Urbana-Champaign)

Aaron Sackett
Assistant Professor of Marketing
2009; B.A., St. Olaf College; M.S., M.Phil, Ph.D., Yale University

Sister Paul Therese Saiko, SSND
Instructor in Sacred Scripture, School of Divinity
1985; B.A., Mount Mary College; M.A., University of San Francisco
John J. Sailors  
*Associate Professor of Marketing*  
2005; B.B.A., University of Michigan; Ph.D., Northwestern University

Barbara K. Sain  
*Assistant Professor of Theology*  
2002; B.A., University of Notre Dame; M.A., The Catholic University of America

Mark Salisbury  
*Dean, College of Education, Leadership & Counseling*  
2013; M.S., Ph.D., University of Oregon

Lalith P. Samarakoon  
*Professor of Finance*  
2001; B.Sc., University of Sri Jayewardenepura (Sri Lanka); M.B.A., University of New Hampshire; Ph.D., University of Houston; F.C.A., C.F.A.

Janine L. Sanders  
*Assistant Professor of Operations and Supply Chain Management*  
2007; B.S., Ohio University; M.S., Purdue University; Ph.D., University of Minnesota

Richard S. Sathe  
*Professor of Accounting*  
1990; B.A., Concordia College; M.B.A., University of Minnesota; Ed.D., University of St. Thomas; C.P.A.

Kevin O. Sauter  
*Professor of Communication and Journalism*  
1982; B.A., Moorhead State University; M.A., Miami University (Ohio); Ph.D., Pennsylvania State University

Deborah Savage  
*Clinical Faculty, School of Divinity*  
2008; B.A., San Jose State University; M.A.T., The Saint Paul Seminary; Ph.D., Marquette University

Jason Sawin  
*Assistant Professor of Computer and Information Sciences*  
2012; B.A., Lewis and Clark College; M.S., Ph.D., Ohio State University

Michael S. Scham  
*Associate Professor of Spanish*  
2001; B.A., Boston University; M.A., Middlebury College; Ph.D., Princeton University

Andrew J. Scheiber  
*Professor of English*  
1990; B.A., M.A., Ph.D., Michigan State University

Erika C. Scheurer  
*Associate Professor of English*  
1993; B.A., College of Notre Dame (Maryland); M.A., University of Delaware; Ph.D., University of Massachusetts (Amherst)

Gerald W. Schlabach  
*Professor of Theology*  
2000; B.A., Goshen College; M.A., Associated Mennonite Biblical Seminary; Ph.D., University of Notre Dame

Elizabeth R. Schiltz  
*Co-Director of Murphy Institute, School of Law; Professor of Law*  
2001; B.A., Yale University; J.D., Colombia University School of Law

Tyler Schipper  
*Assistant Professor of Economics*  
2014; B.S. Central College; Ph.D. (expected 2014) University of Oregon

Sarah C. Schmalenberger  
*Associate Professor of Music*  
2002; B.A., Capital University Conservatory; M.M., University of Michigan; Ph.D., University of Minnesota

Paul A. Schons  
*Professor of German*  
1967; B.A., University of St. Thomas; M.A., University of Colorado; Ph.D., University of Minnesota

Suzanne Schons  
*Member of Adjunct Faculty in Music - Studio Instructor in Piano*  
2006; Ph.D., University of Oklahoma

Doreen J. Schroeder  
*Laboratory Coordinator and Instructor in Biology*  
1989; B.S., M.A., University of South Dakota

Mark Schroepfer  
*Member of Adjunct Faculty in Music*  
2008; B.A., M.B.A., University of St. Thomas

Ivancica D. Schrunk  
*Senior Member of Adjunct Faculty in History*  
1990; B.A./M.A., University of Zagreb (Croatia); M.A., Ph.D., University of Minnesota

Paul Schulz  
*Member of Adjunct Faculty in Music - Studio Instructor in Bass Clarinet*  
2007; B.M., University of North Carolina (Greensboro); M.M., Arizona State University

Sister Katarina M. Schuth, OSF  
*Professor/Endowed Chair for the Social Scientific Study of Religion, School of Divinity*  
1991; B.A., College of St. Teresa; M.T.S., S.T.L., Weston Jesuit School of Theology; M.A., Ph.D., Syracuse University

Britain A. Scott  
*Associate Professor of Psychology*  
1996; B.S., University of Iowa; Ph.D., University of Minnesota
University Faculty

Jonathan M. Seltzer
Clinical Instructor in Marketing
2008; B.A., Lawrence University; M.B.A., University of Chicago

Angela M. Senander
Assistant Professor of Theology
2013; B.B.A, University of Notre Dame; M.A., Boston College; S.T.L., Weston Jesuit School of Theology; Ph.D., Boston College

Chehrzad (Cheri) Shakiban
Professor of Mathematics
1983; B.S., National University of Iran; M.S., Harvard University; Ph.D., Brown University

Ashley N. Shams
Assistant Professor French
2002; B.A., M.A., University of North Texas; Ph.D., Florida State

Barbara W. Shank
Dean, School of Social Work - Professor of Social Work
1978; B.A., Macalester College; M.S.W., Ph.D., University of Minnesota

Brian P. Shapiro
Professor of Accounting

Arkady Shemyakin
Professor of Mathematics
1993; Diploma (M.S.), Novosibirsk State University; C.S.D. (Ph.D.), Academy of Science (Siberia)

Thomas G. Shepard
Assistant Professor of Engineering
2011; B.A., Colorado College; M.S., Oregon State; Ph.D., University of Minnesota

Michael A. Sheppeck
Associate Professor of Management
1990; B.A., Slippery Rock University; M.A., Western Washington University; Ph.D., University of South Florida

Heather M. Shirey
Associate Professor of Art History
2006; B.A., University of Iowa; M.A., Tulane University; Ph.D., Indiana University

James A. Shovein
Clinical Faculty in Finance
2006; B.S., University of Northern Iowa; M.B.A., University of Minnesota; C.P.A.

Mikhail M. Shvartsman
Associate Professor of Mathematics
1998; B.S., M.S., Moscow Institute of Steel and Alloys (Russia); Ph.D., University of Maryland (College Park)

Gregory Sisk
Professor of Law
2003; Montana State University; J.D., University of Washington School of Law

Trygve Skaar
Member of Adjunct Faculty in Music - Studio Instructor in Tuba
2000; Free-lance professional

Gaston Small
Assistant Professor of Biology
2012; B.A., B.S., North Carolina State University; M.A., University of North Carolina; Ph.D., University of Georgia

Amy F. Smith
Associate Professor of Education
2001; B.A., M.A., University of St. Thomas; Ph.D., University of New Hampshire

Buffy Smith
Associate Professor in Sociology and Criminal Justice
2004; B.A., Marquette University; M.S., Ph.D., University of Wisconsin (Madison)

Susan I. Smith-Cunnien
Professor of Sociology and Criminal Justice
1990; B.A., University of Delaware; Ph.D., University of Minnesota

Kenneth D. Snyder
Assistant Professor of Church History, School of Divinity
1994; B.A., Mary College; M.T.S., Weston Jesuit School of Theology; Ph.D., The Catholic University of America

Ritch L. Sorenson
Opus Endowed Chair in Family Business - Professor of Entrepreneurship
2007; B.A., M.A., Brigham Young University; Ph.D., Purdue University

Peter B. Southard
Associate Professor of Operations and Supply Chain Management
2008; B.S., Iowa State University; M.B.A., Drake University; Ph.D., University of Nebraska

Marguerite L. Spencer
Senior Member of the Adjunct Faculty in Theology
1991; B.A., The College of St. Thomas (St. Paul); A.M.R.S., University of Chicago Divinity School; J.D., University of Minnesota

Mark K. Spencer
Assistant Professor of Philosophy
2012; B.A., M.A., Franciscan University (Steubenville); Ph.D., State University of New York (Buffalo)

Mark T. Spriggs
Associate Professor of Entrepreneurship, Director of the Schulze School of Entrepreneurship
1997; B.S., Ph.D., University of Wisconsin (Madison); M.B.A., University of Wisconsin (Eau Claire)

John A. Spry
Associate Professor of Finance
2003; B.S., The Ohio State University; M.A., Ph.D., University of Rochester
Susan J. Stabile  
Professor of Law  
2007; B.A., Georgetown University; J.D., New York University School of Law

Matthew S. Stallings  
Assistant Professor of Accounting  
2014; B.S. Colorado State University; B.S. University of Northern Colorado; M.S. Virginia Polytechnic Institute & State University; Ph.D. University of Nebraska

Patricia Stankovitch  
Clinical Faculty of Professional Psychology  
2007; B.S., Minnesota State University (Mankato); M.A., Psy.D., University of St. Thomas

Laroye L. Stansberry-Brusnahan  
Associate Professor of Education  
2006; B.S., Purdue University (West Lafayette); M.S., Ph.D., University of Wisconsin (Milwaukee)

Mark D. Stansbury-O'Donnell  
Professor of Art History  
1990; B.A., College of William and Mary; M.A., Williams College; Ph.D., Yale University

Magdalena A. Stolarska  
Associate Professor of Mathematics  
2006; B.S., M.S., Ph.D., Northwestern University

Jonathan E. Stoltz  
Associate Professor of Philosophy  
2006; B.A., Bucknell University; M.A., Ph.D., University of Virginia

Robert P. Strusinski  
Member of Adjunct Faculty in Music - Studio Instructor in Voice  
1977; B.A., B.S., M.A., M.M., University of Minnesota

Joshua Stuchlik  
Assistant Professor of Philosophy  
2011; B.A., University of Notre Dame; M.A., Ph.D., University of Pittsburgh

Michael F. Sullivan  
Associate Professor of Finance  
2000; B.A., St. John's University (Collegeville); Ph.D., University of Minnesota

Dawn Ranae Swink  
Associate Professor of Ethics and Business Law  
2002; B.A., Mankato State University; J.D., Drake University Law School

Felicia Sy  
Assistant Professor of Social Work  
2011; B.A., College of St. Benedict; M.S.W., University of Minnesota; Ph.D., University of Denver

Jane D. Tar  
Associate Professor of Spanish  
2001; B.A., University of Minnesota; M.A., Ph.D., University of Wisconsin (Madison)

John M. Tauer  
Associate Professor of Psychology  
2000; B.A., University of St. Thomas; M.S., Ph.D., University of Wisconsin (Madison)

Scott A. Taylor  
Professor of Law  
2002; B.S., M.A., University of New Mexico; J.D., University of New Mexico School of Law; LL.M., New York University School of Law

Andrey Tchekmazov  
Member of Adjunct Faculty in Music - Studio Instructor in Cello  
2012; Moscow State Conservatory, Juilliard School

Kevin Theissen  
Associate Professor of Geology  
2003; B.A., Carleton College; Ph.D., Stanford University

Richard A. Thomas  
Member of Adjunct Faculty in Physics  
2007; B.A., St. Olaf College; M.S., University of Wisconsin (Madison); Ph.D., University of Nebraska - Lincoln

Dale B. Thompson  
Associate Professor of Ethics and Business Law  
2006; B.A., Williams College (Massachusetts); Ph.D., Stanford University; J.D., Stanford Law School

Christopher J. Thompson  
Dean, School of Divinity  
1992; B.A., Creighton University; M.A., Saint Louis University; Ph.D., Marquette University

Jeffrey K. Thygeson  
Member of Adjunct Faculty in Music - Studio Instructor in Guitar  
2002; B.A., University of St. Thomas; M.M., University of Southern California

Daniel G. Tight  
Associate Professor of Spanish  
2007; B.A., Gustavus Adolphus College; M.A., Indiana University; Ph.D., University of Minnesota

Jessica E. Toft  
Associate Professor of Social Work  
2005; B.A., Grinnell College; M.S.W., University of Iowa; Ph.D., University of Minnesota

Christopher H. Toner  
Associate Professor of Philosophy  
2008; B.A., M.A., Ph.D., University of Notre Dame
University Faculty

Muffet Trout
Assistant Professor of Education
2012; B.A., Occidental College (Los Angeles); M.A., Stanford University; Ph.D., University of Minnesota

Ertugrul Tuzcu
Distinguished Service Faculty, Management
2013; B.S. Bosphorus University, M.S. University of Minnesota

Mary K. Twite
Senior Member of the Adjunct Faculty in Theology
1997; B.A., University of St. Thomas; M.A., Boston College

Edward T. Ulrich
Associate Professor of Theology
2000; B.S., University of Minnesota; M.A., St. John’s University (Minnesota); Ph.D., The Catholic University of America

Gabriela C. Uzcategui
Clinical Faculty in Chemistry
2012; B.S. Universidad Central de Venezuela; Ph.D., Baylor University

Patrick J. Van Fleet
Professor of Mathematics
1998; B.S., Western Illinois University; M.S., Ph.D., Southern Illinois University (Carbondale)

John F. Van Ingen
Associate Professor of Philosophy
1989; B.A., University of St. Thomas; M.A., Ph.D., University of Chicago

Terri L. Vandercook
Associate Professor of Education
1996; B.A., M.A., University of Northern Iowa; Ph.D., University of Minnesota

Greg Vandergrift
Clinical Professor of Communication and Journalism
2008; B.S., University of Kansas (Lawrence)

David O. Vang
Professor of Finance
1988; B.A., St. Cloud State University; Ph.D., Iowa State University

Pa Der Vang
Assistant Professor of Social Work
2011; B.A., University of Wisconsin (Madison); M.S.W., Ph.D., University of Minnesota

Amy S. Verhoeven
Associate Professor of Biology
1999; B.S., University of Iowa; Ph.D., University of Colorado

Chelly M. Vician
Associate Professor of Accounting
2010; B.A., Mundelein College; M.B.A., University of Notre Dame; Ph.D., University of Minnesota; C.D.P.; C.C.P., CISA

Robert Vickery
Director, Women’s Choir
2010; University of Minnesota

Donny A. Vigil
Assistant Professor of Spanish
2013; B.A., Brigham Young University; M.A., Ph.D., Purdue University

James W. Vincent
Professor of Economics
1988; B.A., University of Montana; M.S., Ph.D., University of Wisconsin (Madison)

Robert K. Vischer
Dean, School of Law; Professor of Law
2005; B.A., University of New Orleans; J.D., Harvard Law School

Tatiana Vislova
Member of Adjunct Instructor of Geology
2011; M.Sc., Moscow State University; Ph.D., University of Minnesota

Christopher A. Volpe
Member of Adjunct Faculty in Music - Studio Instructor in Trumpet
1996; B.M., Northwestern University; Free-lance professional

Gregory Voth, Major, USAF
Assistant Professor of Aerospace Studies - Commandant of Cadets
2011; B.A., University of St. Thomas; M.S., Air Force Institute of Technology

Kimberly J. Vrudny
Associate Professor of Theology
2001; B.A., Gustavus Adolphus College; M.A., United Theological Seminary; Ph.D., Luther Seminary

Stephen D. Vuolo
Clinical Instructor in Marketing
2007; B.S., Bucknell University; M.B.A., University of Pennsylvania

Christopher S. Vye
Associate Dean, College of Education, Leadership & Counseling - Associate Professor of Professional Psychology
1999; B.A., Ph.D., University of Minnesota

Susanne M. Wagner
Assistant Professor of German
2013: B.A. Albert-Ludwigs Universität Freiburg i. Br., Germany; M.A., Ph.D. University of Massachusetts Amherst
Lisa K. Waldner  
*Professor of Sociology and Criminal Justice*  
2001; B.A., M.A., Minnesota State University (Mankato); Ph.D., Iowa State University

Michael W. Walrath  
*Assistant Professor of Economics*  
2009; B.S., University of St. Thomas; M.A., Ph.D., University of Minnesota

Kristine H. Wammer  
*Associate Professor of Chemistry*  
2005; B.A., St. Olaf College; Ph.D., Princeton University

Martin L. Warren  
*Associate Professor of English*  
1998; B.A., Oscott College (Birmingham, England); M.A., St. John’s University (Minnesota); Ph.D., University of Minnesota

Douglas F. Warring  
*Professor of Education*  
1974; B.A., Bethel College; M.A., University of St. Thomas; Ph.D., University of Minnesota

Christian Washburn  
*Assistant Professor of Theology, School of Divinity*  
2008; M.A., The Saint Paul Seminary; Ph.D., Catholic University of America

Elizabeth Wehner  
*Assistant Professor of Physics*  
2012; B.A., Case Western Reserve University; M.S., Ph.D., University of Wisconsin (Madison)

Donald H. Weinkauf  
*Dean, School of Engineering*  
2008; Ph.D., University of Texas (Austin)

Elizabeth T. Welsh  
*Assistant Professor of Management*  
2009; B.S., Stanford University; M.B.A., M.S., University of California (Los Angeles); Ph.D., University of Minnesota

John T. Wendt  
*Associate Professor of Ethics and Business Law*  
2002; B.A., M.A., University of Minnesota; J.D., William Mitchell College of Law

John E. Wentz

2001; B.A., Loyola College; S.T.B., Pontifical Faculty of the Immaculate Conception; J.D., Duke University; J.C.L., J.C.D., The Catholic University of America

Virgil Wiebe  
*Director of Clinical Education, School of Law, Associate Professor of Law*  
2002; B.A., Kansas State University; M.Phil., Oxford University; J.D., New York University School of Law

Elizabeth L. Wilkinson  
*Assistant Professor of English*  
2008; B.A., M.Ed., Pennsylvania State University (University Park); M.A., Virginia Polytechnic and State University; Ph.D., University of North Carolina (Greensboro)

David C. Williard  
*Assistant Professor of History*  
2012; B.A., College of William and Mary; M.A., Ph.D., University of North Carolina (Chapel Hill)

Chester E. Wilson  
*Laboratory Coordinator and Instructor in Biology*  
1993; B.A., Duke University; M.S., University of Oregon; Ph.D., State University of New York (Stony Brook)

Carey Winkler  
*Clinical Faculty in Social Work*  
2008; B.S.W., College of St. Catherine; M.S.W., College of St. Catherine/University of St. Thomas

Michael J. Winter  
*Professor of Philosophy*  
1992; B.A., University of St. Thomas; M.A., Ph.D., University of Minnesota

Suzanne L. Wisniewski  
*Assistant Professor of Economics*  
2009; B.A., St. Olaf College; M.S., Ph.D., University of Minnesota (St. Paul)

Paul J. Wojda  
*Associate Professor of Theology*  
1992; B.A., University of Notre Dame; M.A., Yale University Divinity School; Ph.D., University of Notre Dame
University Faculty

Uta Wolfe
Assistant Professor of Psychology
2009; B.A., Ph.D., University of Minnesota

George M. Woytanowitz
Senior Member of Adjunct Faculty in History
1987; B.A., University of St. Thomas; M.A., University of Chicago; Ph.D., Johns Hopkins University

Jennifer L. Wright
Associate Professor of Law
2003; B.A., Swarthmore College; J.D., Stanford Law School

Hong Wu
Associate Professor of Economics
2006; B.A., Nankai University; M.A., Ph.D., West Virginia University

Wendy N. Wyatt
Associate Professor of Communication and Journalism
2003; B.A., Colorado State University; M.A., University of Montana; Ph.D., University of Oregon

Y

Muer Yang
Assistant Professor of Operations and Supply Chain Management
2011; B.S., M.S. Tsinghua University (P.R. China); Ph.D. University of Cincinnati

Yongzi (Peter) Yang
Professor of Mathematics
1993; B.S., M.S., Northeast University of Technology (People’s Republic of China); M.S., Ph.D., University of Illinois (Chicago)

Scott Yilek
Assistant Professor of Computer and Information Sciences
2011; B.S., University of Minnesota, M.S., Ph.D., University of California (San Diego)

Heekyung K. Youn
Professor of Mathematics/Actuarial Science
1984; B.S., Sogang Jesuit University (Seoul); Ph.D., University of Minnesota

Peter C. Young
3M Endowed Chair in International Business & Professor of Risk Management and Insurance
1994; B.A., Augustana College; M.P.A., University of Nebraska; Ph.D., University of Minnesota

Victoria M. Young

2000; B.A., New York University; M.ArchH., University of Virginia

Wen Yu
Assistant Professor of Accounting
2007; B.Econ., Central University of Finance and Economics (Beijing); M.A., Ph.D., Case Western Reserve University (Cleveland)

Z

Kyle D. Zimmer
Associate Professor of Biology
2003; B.A., Luther College; M.A., St. Cloud State University; Ph.D., North Dakota State University

Kari E. Zimmerman
Assistant Professor of History
2013; B.A. University of San Francisco; M.A. University of California (Los Angeles); Ph.D. Stanford University

Larry J. Zimmerman
Member of Adjunct Faculty in Music - Studio Instructor in Trombone
2000; B.A., St. Olaf College; M.M., Boston University

Michael Zocchi
Member of Adjunct Faculty in Music - Instructor of Theory
2007; B.M., University of Massachusetts; M.M., University of Wisconsin

Kara L. ZumBahlen
Member of Adjunct Faculty in Art History
2006; B.A., University of Minnesota (Duluth); M.A., University of St. Thomas

Thomas Zupancich, Lieutenant Colonel, USAF
Professor of Aerospace Studies Commander
2010; B.S., United States Air Force Academy; M.S., Embry Riddle Aeronautical University

Kari E. Zimmerman
Assistant Professor of History
2013; B.A. University of San Francisco; M.A. University of California (Los Angeles); Ph.D. Stanford University

Larry J. Zimmerman
Member of Adjunct Faculty in Music - Studio Instructor in Trombone
2000; B.A., St. Olaf College; M.M., Boston University

Michael Zocchi
Member of Adjunct Faculty in Music - Instructor of Theory
2007; B.M., University of Massachusetts; M.M., University of Wisconsin

Kara L. ZumBahlen
Member of Adjunct Faculty in Art History
2006; B.A., University of Minnesota (Duluth); M.A., University of St. Thomas

Thomas Zupancich, Lieutenant Colonel, USAF
Professor of Aerospace Studies Commander
2010; B.S., United States Air Force Academy; M.S., Embry Riddle Aeronautical University

Kari E. Zimmerman
Assistant Professor of History
2013; B.A. University of San Francisco; M.A. University of California (Los Angeles); Ph.D. Stanford University

Larry J. Zimmerman
Member of Adjunct Faculty in Music - Studio Instructor in Trombone
2000; B.A., St. Olaf College; M.M., Boston University

Michael Zocchi
Member of Adjunct Faculty in Music - Instructor of Theory
2007; B.M., University of Massachusetts; M.M., University of Wisconsin

Kara L. ZumBahlen
Member of Adjunct Faculty in Art History
2006; B.A., University of Minnesota (Duluth); M.A., University of St. Thomas

Thomas Zupancich, Lieutenant Colonel, USAF
Professor of Aerospace Studies Commander
2010; B.S., United States Air Force Academy; M.S., Embry Riddle Aeronautical University
James G. Ahler  
Professor of Sociology and Criminal Justice  
1967-2000

Martin Allen  
Professor Emeritus of Chemistry  
1956-1984

Paul Alper  
Associate Professor Emeritus of Computer and Information Sciences  
1976-1998

Sister M. Christine Athans, BVM  
Professor Emerita of Church History, School of Divinity  
1984-2002

Eugene J. Audette  
Professor Emeritus of Education  
1973-2007

Angeline Barretta Herman  
Professor Emerita of Social Work  
1991 – 2011

Heino A. P. Beckmann  
Associate Professor Emeritus of Finance  
1986-2013

Michael O. Bellamy  
Professor Emeritus of English  
1979-2007

Ronald Bennett  
Associate Professor Emeritus of Engineering  
1994 – 2012

Richard H. Berquist  
Associate Professor Emeritus of Philosophy  
1965-2001

Marsha A. Blumenthal  
Professor Emerita of Economics  
1984-2007

Thomas L. Bohen  
Professor of Business Administration  
1958-1983

Rev. Ronald J. Bowers  
Professor Emeritus of Canon Law, School of Divinity  
1982-2006

David C. Boyd  
Professor Emeritus of Chemistry  
1989-2009

Joseph M. Brom  
Professor of Chemistry  
1987-2014

Robert J. Brown  
Professor Emeritus of Education  
1964-2005

Joan M. Cady Brownstein  
Associate Professor of Education  
1990-2007

James P. Callahan  
Professor Emeritus of Music  
1968-2007

Harlow P. Callander  
Assistant Professor of Accounting  
1969-2005

Mary Anne Chalkley  
Professor Emerita of Psychology  
1989 – 2011

Susan Chaplin  
Professor Emerita of Biology  
1990 – 2011

Winston Chrislock  
Professor Emeritus of History  
1972 – 2011

Peter Coffey  
Professor Emeritus of International Management  
1989-2002

Richard J. Connell  
Professor of Philosophy  
1963-1990

Thomas B. Connery  
Professor of Communication and Journalism  
1982-2014

Joseph B. Connors  
Professor of English  
1946-1955; 1964-1982

Rev. Thomas J. Conroy  
Assistant Professor of Theology  
1968-1997

John F. Cragan  
Distinguished Service Professor of Communication and Journalism  
2004-2014

Robert L. Craig  
Professor Emeritus of Communication and Journalism  
1994-2013

George Karvel  
Arnold and Leonard Mikulay Distinguished Chair in Real Estate  
1997-2012

John Kemper  
Professor Emeritus of Mathematics  
1976 – 2011

Rev. Arthur L. Kennedy  
Professor Emeritus of Theology and Catholic Studies  
1974-2007

Ellen J. Kennedy  
Professor of Marketing  
1987-2007

Joe Komar  
Distinguished Service Professor of Computer and Information Sciences  
1976 – 2011

Bruce H. Kramer  
Associate Professor of Education  
1996-2013

Dale Kramm  
Assistant Professor of Latin and Greek  
1960-1990

Patrick H. Lally  
Assistant Professor of English  
1960-1997

Paul D. Lane  
Assistant Professor Emeritus of Physics  
1962-2005

Norman W. Larson  
Assistant Professor Emeritus of Communication and Journalism  
1968-2000

James J. Leigh  
Associate Professor of Physics  
1961-1995

Rev. Roy C. Lepak  
Associate Professor of Theology  
1966-1990

Robert D. Lippert  
Assistant Professor of English  
1955-1989

Yusen Liu  
Associate Professor Emeritus of Marketing  
1990-2007

Paul D. Mabry  
Associate Professor of Psychology  
1986 - 2005

Francis G. Mach  
Associate Professor of Health and Human Performance  
1968-1998

William L. Madsen  
Professor Emeritus of Professional Psychology  
1975-1993

A. Thomas Mason  
Associate Professor of Management  
1981-2005

Joseph A. Mason  
Assistant Professor of Accounting  
1977-2000
Retired Faculty

Francis N. Mayer
Professor of Music
1947-1982

Warren McIntire
Professor of Management
1978-1992

Daniel McNamara
Associate Professor of Operations and Supply Chain Management
1976 – 2011

Thomas B. Mega
Assistant Professor of History
1985-2014

Richard R. Meierotto
Professor Emeritus of Biology
1961-1995

Eileen Michels
Professor Emerita of Art History
1974-1992

Michael A. Mikolajczak
Professor Emeritus of English
1990-2013

Robert K. Miller
Professor Emeritus of English
1991-2006

Len F. Minars
Assistant Professor of Accounting
1979-2002

Shelly Ann Moorman
Assistant Professor Emerita of Spanish
1968-2004

Richard J. Morath
Professor Emeritus of Chemistry
1957-1992

Rev. James Motl, OP
Associate Professor Emeritus of Homiletics, School of Divinity
1985-2002

Merritt C. Nequette
Associate Professor Emeritus of Music
1977-2002

Terence L. Nichols
Professor of Theology
1988-2014

David H. Nimmer
Assistant Professor Emeritus of Communication and Journalism
1989-2000

Burton Nolan
Professor Emeritus of Professional Psychology
1971-2009

R. Stanford Nyquist
Associate Professor of Management
1987-2005

William L. O’Neill C.P.P.S.
Associate Professor of Psychology
1974-1999

Mary Rose O’Reilley
Professor Emerita of English
1978-2006

Peter F. Parilla
Professor of Sociology and Criminal Justice
1977-2014

James D. Parsley
Associate Professor of Health and Human Performance
1971 - 2005

Shirley A. Polejewski
Professor of Accounting
1976-2013

Gary A. Porter
Professor of Accounting
2002-2006

Rev. Thaddeus J. Posey, OFM, Cap.
Associate Professor of Theology
1993-2006

Brenda J. Powell
Professor of English
1984-2014

Sally Power
Professor Emerita of Management
1981 – 2011

John K. Purdy
Clinical Professor of Communication and Journalism
2008-2014

Christopher P. Puto
Opus Distinguished Chair and Dean, Opus College of Business
2002-2014

Richard Raschio
Associate Professor Emeritus of Modern and Classical Languages
1981 - 2010

Robert L. Raymond
Associate Professor Emeritus of Computer and Information Sciences
1982-2007
Thomas Redshaw  
Professor Emeritus of English  
1981 – 2011

Rev. James E. Reidy  
Associate Professor of English  
1958-1996

Margaret Reif  
Associate Professor Emerita of Teacher Education  
1990 – 2011

Rev. John Riley  
Associate Professor of Theology  
1957-1994

Rochelle E. Rottenberg  
Field Liaison and Supervisor in Social Work  
1995-2007

Ann Ryan  
Professor Emerita of Special and Gifted Education  
1976 – 2011

James A. Ryan  
Professor of Chemistry  
1959-1989

William E. Salesses  
Professor Emeritus of Education  
1975-1998

P. Jane Saly  
Associate Professor of Accounting  
1999-2014

Monsignor John P. Sankovitz  
Assistant Professor of Theology  
1980-1997

Richard F. Sauter  
Associate Professor Emeritus of Marketing  
1990-2002

Mabel Schleif  
Associate Professor Emerita of Education  
1972-1991

Jacob A. Schmitt  
Assistant Professor of Education  
1975-1990

Kurt Scholz  
Professor Emeritus of Mathematics  
1972 – 2011

Joseph J. Schramer  
Instructor in Accounting  

Joseph P. Schwebel  
Assistant Professor Emeritus of Computer and Information Sciences  
1969-2006

Timothy L. Scully  
Associate Professor of Communication and Journalism  
1990-2014

Mohamed Ali Selim  
Director, Center for Senior Citizens Education  
Director, Center for Economic Education  
Associate Professor Emeritus of Economics  
1959-2004

Daniel R. Sevenich  
Senior Member of Adjunct Faculty in Accounting  
1956-1998

Glenn K. Sherer  
Professor Emeritus of Biology  
1984-2013

William B. Silverman  
Professor Emeritus of Biology  
1959-1990

Rev. David W. Smith  
Professor Emeritus of Theology  
1970-2007

Susan L. Smith-Cunnien  
Professor of Sociology and Criminal Justice  
1990-2014

E. Arnold Spencer  
Assistant Professor of Speech and Theater  
1960-1974

Thomas J. Stoffel  
Assistant Professor of Accounting  
1988-2006

Ralph Stouffer  
Associate Professor Emeritus of Teacher Education  
1972 – 2011

Rev. James S. Stromberg  
Professor Emeritus of Philosophy  
1956-1999

Thomas Sturm  
Professor Emeritus of Computer and Information Sciences  
1972 – 2011

Thomas Sullivan  
Professor Emeritus of Philosophy  
1966 – 2011
Retired Faculty

Mary R. Supel  
Assistant Professor Emerita of Economics  
1976-2002

Trudi Taylor  
Professor Emerita of Teacher Education  
1988 – 2011

Serene Thornton  
Assistant Professor Emerita of Social Work  
1990 – 2011

Albert O. Trostel  
Professor Emeritus of Management  
1977-1999

Peter B. Vaill  
Professor of Management  
1997-2004

Robert E. Veverka  
Assistant Professor of Business Administration  
1976-1989

Hubert R. Walczak  
Professor Emeritus of Mathematics  
1963-1995

William J. Walsh  
Professor Emeritus of Economics  
1970-2013

Rev. Peter E. Wang  
Professor of Theology  
1967-1996

Harry C. Webb  
Associate Professor of Education  
1954-1990

Rev. George A. Welzbacher  
Instructor in History  
1966-1995

Melvin D. Williams  
Associate Professor Emeritus of Finance  
1976-2004

Miriam Williams  
Associate Professor Emerita of Organization Development  
1980 – 2011

Barbara Wolfe  
Associate Professor Emerita of Special Education  
1995 - 2010

Mary Lou Wolsey  
Associate Professor Emerita of French  
1976-2001

Robert H. Woodhouse  
Associate Professor of Management  
1983-2001

Scott K. Wright  
Professor Emeritus of History  
1980-2010

Jean Zilisch  
Associate Professor of Education  
1976-1987

Frederick M. Zimmerman  
Professor Emeritus of Engineering  
1981-2006

Nancy H. Zingale  
Professor Emerita of Political Science  
1976-2007
